ANNEXURE

CENTRAL BUDGET, 1990-91

TABLE OF CONTENTS

Speech of the Prime Minister and Minister of Finance introducting the Budget for 1990-91 (Part A and Part B)

Budget of the Central Government for 1990-91 (as laid before Parliament)

Budget at a Glance 1990-91

Economic Survey for 1989-90

The Finance Bill, 1990

Memorandum explaining the provisions in the Finance Bill, 1990

The Finance Act, 1990

Resolution on Final Budget Statements

Expenditure Budget 1990-91 Volume 1 (Incorporating Explanatory Memorandum and Plan Budget)

Expenditure Budget 1990-91 Volume 2 (Incorporating Notes on Demands for Grants)

Receipts Budget 1990-91 (Incorporating Receipts, Recoveries of Loans, other Capital Receipts and Debt position of Central Government), as finally adopted.

Summary of Demands for Grants, 1990-91

The Appropriation (Vote on Account) Act, 1990

The Appropriation (No. 2) Act, 1990

Economical and Functional Classification of the Central Government Budget for 1990-91

Key to Budget Documents for 1990-91

B—RAILWAY BUDGET 1990-91

7. Speech of the Railway Minister introducting the Railway Budget for 1990-91 (PART I)

8. Budget of the Railway Revenue and Expenditure of the Central Government for 1990-91

19. Explanatory Memorandum on the Railway Budget 1990-91

20. Works, Machinery and Rolling Stock Programme of Railways for 1990-91

21. Memorandum Explaining the Proposals for Adjustments 1990-91.

The Appropriation (Railways) Act, 1990-91

23. Key to the Railway Budget Documents for 1990-91

1122 Fin/92

Speech of the Prime Minister and Minister of Finance introducting the Budget for 1990-91 (Part A and Part B)

Budget 1990-91

Speech of

Prof. Madhu Dandavate
Minister of Finance

19th March, 1990

PART A

Mr. Speaker,

1. I deem it a great privilege to have the opportunity to present the first Budget of the new Government.

2. Over a hundred days ago winds of political change swept the country. The new Government, which secured a massive vote of confidence of this Honourable House, transcending political affiliations, made a tryst with the nation to respect and implement the mandate it received from the people.

3. Let me, at the outset, deal with the economic situation that we inherited from the previous Government. I do so not in a spirit of acrimony but with a view to revealing to the House the ground realities. The Central Government's budgetary deficit was Rs. 13,790 crores as on 1st December, 1989, a level nearly double the deficit projected for the whole year in the 1989-90 budget. Wholesale prices had risen by 6.6 per cent since the beginning of the financial year. The balance of payment was under strain and foreign exchange reserves (excluding gold and SDRs) were down to around Rs. 5000 crores. Stocks of foodgrains had fallen to 11 million tonnes.

4. On a broader scale, the Economic Survey which was placed on the Table of the House only a few days ago deals with the current economic situation. I will not go into details but only highlight a few key points.

5. There has been some slowing down of growth in 1989-90. GDP is expected to rise by 4 to 4.5 per cent, industrial output by about 6 per cent and agricultural output by 1 per cent or so on the peak level reached in the previous year.

6. The price rise this year affects several commodity groups and the pressure of inflation is clearly linked to the fiscal imbalance. The budget deficit and money supply growth have been running well above target. The Revised Estimates for 1989-90, which I will present a little later, indicate that the budget deficit is expected to be substantially higher than Rs. 7337 crores projected in the budget estimates for 1989-90. The growth rate of aggregate monetary resources was 16.5 per cent from the beginning of the financial year to 23rd February, 1990.

7. As regards the trade performance this year, exports have grown at the rate of 38 per cent and imports at 21 per cent in rupee terms in the first nine months of the year. But the pressure on reserves continues as the improvement on trade account is not sufficient to counter-balance the increase in debt-service obligations.

8. I have drawn attention to these features in order to highlight the constraints within which the new Government has to look for ways of fulfilling its mandate.

9. The first task of the new Government was to contain the rise in prices. A Cabinet Committee on Prices was formed and effective steps were taken to increase the supply of essential commodities, break the inflationary psychology and contain inflation. The price situation, however, remains a matter for concern and the management of inflation is one of the priority areas for this Government.

10. Adequate stocks of foodgrains are essential for maintaining price stability and our economic security. The Government has given a high priority to stepping up procurement efforts and to rebuilding of stocks. As a result, the procurement of rice has touched a new high of about 10 million tonnes already. Foodgrains stocks in the central pool have been augmented and stand at 11.67 million tonnes at the beginning of February compared to 8.34 million tonnes at the same time last year. Special attention has been given to increasing supplies of essential commodities and streamlining the Public Distribution System. Market intervention operations are being undertaken to stabilise open market prices of some sensitive commodities.

11. Another major problem before the country is the strain on our balance of payments position. In the last few years, large trade and

current account deficits have been financed through depletion of foreign exchange reserves and growing recourse to foreign borrowings. To combat the pressures on the balance of payments and to ensure a viable situation over the Eighth Plan period, exports must command the highest priority. The alternative of higher foreign borrowing to finance our essential import requirements runs the risk of mortgaging our hard won economic independence. This is clearly unacceptable. Therefore, the new Import Export Policy 1990-93, to be announced on 1.4.1990, will accord top priority to exports and will give special encouragement for exports which earn high net foreign exchange. The priority for exports will also be reflected in our industrial policy and later I will outline some fiscal measures to promote export production.

12. Our import bill for bulk items is increasing rapidly. The oil consumption, for example, has been rising at the rate of around 8 per cent in the recent past. There has been a huge outflow of foreign exchange on this account. India's foreign debt has been doubled in the last five years. This has added to our vulnerability. The trend has to be reversed. I am convinced that our people will make any sacrifice and meet any challenge in order to preserve our economic independence and spirit of self-reliance. We are ready to go through a period of austerity and hardship in order to avoid excessive foreign borrowings.

13. The fiscal imbalance is the root cause of the twin problems of inflation and the difficult balance of payments position. One of the targets of the Seventh Five Year Plan which was over achieved was deficit financing. While the projected deficit in the 7th Plan period was Rs. 14000 crores, in reality it was more than double.

14. The management of the deficit will require the containment of expenditure growth. I can assure the House that we will spare no effort to reduce the burden of administrative expenditure. But the restraint of expenditure also requires careful consideration of other areas of public spending which involve implicit or explicit subsidies. We have to ask ourselves whether these subsidies are really reaching the people they are meant to serve or whether there is a better way of providing the same benefit.

15. On the revenue side, the real issue is of tax compliance. Tax evasion is rampant. This generates black money and has other serious adverse effects on the economy, such as fuelling inflation and conspicuous consumption. Black money is also generated by shortages, artificially pegged prices and detailed physical controls. The

"leakages" from public expenditure programmes also cause serious distortions in the economic and social structure of our society.

16. We will launch a sustained and multi-pronged drive against proliferation of black money which is a social sin and an economic evil. To improve tax compliance, we shall combine reasonable tax rates and simpler tax laws with effective tax administration and strong deterrents against evasion. The Revenue Department is being instructed to pay special attention to vulgar display of ill-gotten wealth, particularly on occasions, such as wedding receptions. We will come down with a heavy hand on those who give vent to their pomp and money power, by circumventing our laws and frittering away the scarce resources of the nation. The Economic Intelligence Bureau is being revamped to coordinate action against tax evaders and black money operators. The Act on "benami" transactions will be recast to make it more difficult for economic offenders to hold wealth in "benami" forms.

17. Administrative curbs against black money must be backed by economic measures. We must reduce the scope of discretionary powers which provide sustenance to black money. Our economic policies will place greater reliance on general, non-discretionary, fiscal and financial instruments and will reduce the role of ad hoc discretionary physical controls.

18. I have also received some suggestions from Honourable Members and fiscal experts on incentive scheme for "unearthing" of black money and channelling it into desired directions. The advantage claimed for such schemes is that, instead of being used for conspicuous consumption or unproductive investment, the unaccounted money can be diverted to create jobs or to serve some other socially useful purpose. The disadvantage is that these schemes generally provide for a more concessional tax treatment of the black money than the rates normally applicable. The different schemes tried out in the past did not yield much and were open to misuse. Human ingenuity manifests itself in strange ways. In the past, it found expression in converting the bearer bonds, issued with the laudable objective of bringing out black money, into alternate currency that exchanged hands at a premium. Thus the instrument to render black money white was itself used with vengeance to reconvert white money into black !

19. Nevertheless, in the present situation, when our needs are large and resources are tight, there is perhaps a case for introducing a time-bound scheme which would permit undeclared incomes and hidden

wealth to be used for one or more social purposes, such as, slum clearance, building of houses for lower and middle income groups, and setting up of specified agro-based industries in rural/backward areas. Subject to certain conditions, the source of monies declared under this scheme need not be questioned. There could be a suitable flat rate of tax on such income.

20. The Government would like to have a thorough debate in the Parliament before introducing a scheme of this type. I would very much welcome the views of the Honourable Members during the budget debate. In the light of these discussions the Government will take the final decision.

21. Domestic trade in gold is regulated under the Gold Control Act which was introduced in 1963 with the broad objective of curbing the demand for gold. The Act has been largely ineffective. It has also caused hardship and harassment to small goldsmiths. There is not much point in continuing with such an ineffective legislation. The Government, therefore, proposes to abolish the Gold Control Act. This step would benefit many artisans and small goldsmiths all over the country. At the same time, we will use the Customs Act more vigorously to prevent smuggling of gold.

22. Let me now turn to some issues of long-term development.

23. In the traditional growth pattern, while the poor at the grass root level suffered in silence without much benefit of growth trickling down to them, the affluent at the top lived in splendid isolation and monopolised most of the gains of economic growth. The new Government rejects this trickle down theory of development. Instead, it would work for growth with equity ensured through employment oriented planning in which the decentralised institutions of the four pillars state, aptly described by Dr. Ram Manohar Lohia as the 'Choukhamba Raj' will play a pivotal role.

24. Our first priority is employment. In the eighties, our economy grew at around 5 per cent or more. But, according to a recent report of the National Sample Survey the number of persons who are chronically unemployed increased from 8 million in 1983 to 12 million in 1987-88. In addition, there are a vast number who are underemployed and whose earnings from work fall well short of a decent minimum. We believe that "every citizen has the right to productive and gainful work in order to live

meaningfully and with dignity". We would like to introduce an Employment Guarantee Scheme. However, the cost of doing so in all parts of the country are huge, and we do not have the necessary resources at this juncture. Nevertheless, it is proposed to make a beginning on an Employment Guarantee Scheme for the drought prone areas and areas with an acute problem of rural unemployment. The allocation for the employment schemes of the Department of Rural Development will be supplemented, to the extent feasible, during the course of the year.

25. Faster growth of agriculture must be an important part of this strategy. We have achieved impressive growth in yields in the areas of good irrigation but yields remain very low in large parts of the country which are rainfed or semi-arid. Our strategy for agricultural development must focus on increasing output in these areas through greater investment in irrigation, land development, and soil and moisture conservation. These investments will increase production. They will also generate greater absorption of labour in agriculture. Parallel to this effort, regions of high productivity should aim at diversification of agriculture and development of agro-based processing industries. This will provide the economic linkages between the rural economy and growing markets in urban areas, as well as potential markets abroad.

26. The country had adopted an Industrial Policy Resolution in 1956, which through the years, has governed our broad strategy for industrial development. It is surprising that there is no similar Agricultural Policy Resolution. This Government will remove this lacuna. We will lay the basic foundations of agricultural development through the adoption of an Agricultural Policy Resolution. This will represent our national commitment in respect of a sector which is the hub of our economy. We invite all sections of the people to interact with the Government on the formulation of this Policy Resolution.

27. We are committed to ensuring that 50 per cent of the investible resources are deployed for the development of agriculture and rural development. We have made a beginning, in this year's Central Plan in which the share of the rural sector in budgetary support for the Central Plan will go up from 44 per cent in 1989-90 to 49 per cent in 1990-91. In addition, on the non-Plan side we are providing Rs. 1000 crores for debt relief, and Rs.4000 crores for the fertilizer subsidy, which also go to benefit rural areas.

28. The steps for the inclusion of the land reforms legislation in the Ninth Schedule of the Constitution have already been initiated and the necessary constitutional amendment will be introduced. Simultaneously, various measures for the restructuring of the land relations are being worked out and we hope to initiate steps in this direction after due consultation with the State Governments.

29. Over the years, poor farmers, artisans and weavers have accumulated debt which they are unable to repay. They have been caught up in a vicious circle of indebtedness and low incomes which keeps them in perennial poverty. In order to relieve our farmers from the burden of debt, an assurance was given in the National Front's manifesto that relief will be provided to farmers with loans upto Rs. 10,000 as on 2nd October, 1989. I am glad to inform the House that we are now ready with the scheme of implementation of debt relief to fulfil the promise, and redeem the pledge given to the kisans and artisans.

30. It is proposed to introduce a scheme for providing debt relief which will have the following features. The relief will be available to borrowers who have taken loans upto Rs. 10,000 from public sector banks and Regional Rural Banks. The relief will cover all overdues as on 2nd October, 1989 including short-term as well as term loans. There will be no limit on the size of the borrower's land holdings. However, wilful defaulters, who in the past did not repay loans despite their capacity to do so, will be excluded. The Central Government will compensate the public sector banks and Regional Rural Banks suitably for the debts which are thus written off. Many of those who filed insolvency petitions and had taken loans below Rs. 10,000 which were overdue as of 2nd October., 1989 will also be covered under the scheme.

31. The State Governments may also wish to introduce a scheme on the same lines in respect of cooperative banks within their purview. Subject to the constraint of resources, the Central Government will consider suggestions for helping State Governments in implementing a debt relief scheme on the same pattern in respect of cooperative credit institutions under their control.

32. I consider the debt relief measure as a positive step which will enable our farmers, artisans and weavers to increase their productivity. It is at the same time necessary to ensure that there is no erosion of the credibility of the banking system. Once the past over-dues are cleared, it is reasonable to expect that loans taken for current operations will be

serviced promptly. The Scheme should contribute to better agricultural recoveries and better identification of wilful defaulters, who do not deserve any sympathy. Banks are being asked to set up a system of maintaining a proper credit history of their borrowers covered under the Scheme. The Government would also like to make it clear that the Scheme will not be extended nor will it be repeated.

33. The Government proposes to introduce changes in the formula for computing costs of production of agricultural crops for price fixation so as to take full account of all costs. In particular the formula will take into account :

(1) valuation of labour (including family labour) on the basis of statutory minimum wage, or actual wage, whichever is higher,

(2) the remuneration for the managerial and entrepreneurial efforts of the farmer,

(3) adjustment of procurement/support prices for the escalation in input costs between the announcement of the prices and the arrival of the crop in the market.

The new formula will be reflected in the procurement support prices to be announced for the next kharif season. As procurement prices are revised in line with costs, the revision of issue prices is also unavoidable. In future, the Government will announce revision in procurement and issue prices at the same time even though these may take effect on different dates.

34. The threat to our environment can no more be ignored. It has been estimated that around 130 million hectares of land is degraded through soil erosion, salinity, total loss of tree cover, etc. Our forests are under pressure from a variety of sources. In urban areas, air and water pollution from industry, transport and other sources is widespread. A healthy environment is part of the quality of life and a productive environment is the basis for development. Our emphasis on rural development and decentralisation will allow us to integrate environmental considerations into the design of development.

35. Let me now turn to another area of great concern—that of unemployed youth. All of us who travel in our constituencies have seen the plight of young people able and willing to work, but unable to find employment. A long-term solution to this problem has to come from a shift to a more employment-oriented growth strategy. But as an

immediate step we have decided to give a boost to measures which will assist the youth of this country to acquire the skills that will improve their prospects for gainful employment. A comprehensive Vocational Training Project has been taken up covering 28 States and Union Territories. The Project will improve the quality of craftsmen training, apprenticeship training and advanced training of industrial workers. We also propose to link training and the provision of credit support for self-employment.

36. Under the leadership of Dr. B.R. Ambedkar thousands belonging to the Scheduled Castes had embraced Buddhist religion in 1956 to seek liberation from caste oppression to which they were subjected for centuries. However, in the eyes of the orthodoxy the social stigma on the Scheduled Castes was not erased even after their conversion to Buddhism. It has , therefore, been decided by the Union Government that all the facilities and privileges that were available to the Scheduled Castes will be available to them from the Union Government even after their conversion to Buddhism.

37. A strategy for greater absorption of labour in agriculture has to go hand in hand with faster growth of industry and balanced development of infrastructure, specially power and transport. It is self evident that higher investment and faster growth in incomes in agriculture can be sustained only if industrial production increases to meet the rising demand for inputs and wage goods in particular. This Government will give priority to accelerating industrial growth in a competitive and non-monopolistic environment. The Government will review and simplify the Industrial Licensing Policy to ensure that licensing does not become an instrument for preventing competition and perpetuating monopolies.

38. The Khadi, Village and Small scale sector has a special role to play in any strategy for employment-oriented industrial development. We will work for the harmonious development of cottage, small and large industries and give protection against encroachment of large scale on small scale and small scale against cottage wherever necessary.

39. The withdrawal of the 15 per cent Central Investment Subsidy for Backward Areas has affected the growth of small scale industries. We must take industry to the people and not people to the industry. We propose to reintroduce a Central Investment Subsidy for small scale units in rural areas and backward regions.

40. A major problem faced by small industries is delay in the settlement of bills by large units. The provision of factoring services in

which the task of realisation of the bill is taken on by an intermediary is one way of mitigating this. The House will be glad to know that some steps towards this end have already been taken by the Reserve Bank of India.

41. The problems of women entrepreneurs in the cottage and small sector are of particular concern to us. The provisions regarding margin money and seed capital for women entrepreneurs will be reexamined and liberalised.

42. There is a single window scheme for grant of working capital along with term assistance to new projects in the small scale sector by State Financial Corporations. This arrangement facilitates setting up of small scale units without waiting for finalisation of working capital limits from banks. The present limits of project cost for determining eligibility for such composite loans is being raised from Rs. 5 lakhs to Rs. 10 lakhs.

43. Reserve Bank has issued guidelines for provision of credit and rehabilitation of viable small scale units. These guidelines, are intended to assist the small scale sector and not create hurdles in its path. Banks are being asked to implement them faithfully.

44. The public sector is vital to our country's development. It has played a major role in broadening the base for industrial and technological development in this country. The overall working results for the first six months of this financial year show a significant improvement in net profit from Rs. 694 crores last year to Rs. 1103 crores this year. In 1990-91, Central sector enterprises will finance 46 per cent of their plan investment from internal resources. We are committed to making the public sector more efficient and result-oriented so that it can generate more surpluses which can be ploughed back for development.

45. The health of the public enterprises depends crucially on the commitment of its employees and their full participation in management. It has been suggested that one way of securing this is to give workers a share in ownership either through stock option schemes or sale of shares to workers or to trusts owned by workers. Since the equity of public enterprises is not quoted in the market, arrangements will have to be worked out to determine the sale and purchase price of such worker's shares. I invite suggestions from Honourable Members on the merits of this idea and how it could be implemented.

46.We are also firmly committed to the healthy development of capital markets, and to strengthen the role of public financial institutions.

The institutions will be given functional autonomy. However they must also be accountable for their actions. The institutions will not be party to corporate battles and clandestine takeovers. The government would like to create an atmosphere and a culture where financial institutions can function objectively without fear or favour.

47. There has been some concern about the role of financial institutions in relation to their intervention in the capital market. I have asked these institutions to frame suitable guidelines so that their actions are not only objective but seen to be so. Each financial institution is expected to operate in the interest of its depositors and investors consistent with national priorities. There may be occasions when there is an abnormal and persistent upward or downward movement in share prices because of concerted bull or bear pressures. In such situations, the financial institutions will play a stabilising role in the capital market.

48. The growth of banking since nationalisation has been phenomenal. The banking system has been extended to the remotest part of our country. Banks are now playing a vital role in mobilising peoples' savings and channelling them into productive areas. At the time of nationalisation, only 14 per cent of the bank credit was provided for the priority sector covering sections, such as, agriculture, rural development and small industries and businesses. Today, this proportion is nearly 45 per cent. This is the measure of the sucess of nationalisation.

49. There is one aspect of banking operations which is of concern to me. This is the low credit deposit ratio in some regions. A variety of factors determine this ratio. I have asked the Reserve Bank of India to pay special attention to this problem and further improve credit delivery in such areas consistent with financial discipline.

50. Our bank managers and employees are, as a group, the most qualified, dedicated and hard working. But it is also a fact that the level of public satisfaction with the banking services is not as high as it should be. Over the years, perhaps some structural rigidities have crept in. These need to be removed. There is need for greater competition and greater operational flexibility in respect of banking services. The banking culture has to be made more responsive to the needs of the public. I am requesting the Reserve Bank of India to set up a Committee of Bankers, bank employees, depositors and borrowers to consider these aspects and make recommendations to the Government.

51. The previous Government had announced the formation of the Securities Exchange Board of India (SEBI) in 1987. Three years have

passed and the legislation for giving statutory authority to SEBI has not been introduced. We will ensure that this is done in this budget session.

52. Science and technology is the mainspring of development. We are proud of the capabilities that we have built up in critical areas like agriculture, space research, atomic energy and defence. We will aim at utilising the talent of our scientists and engineers towards two basic ends:

- the development of appropriate technologies for agriculture, non-conventional and renewable energy and other employment intensive activities,
- the establishment of a strong base of self reliance in critical areas of modern technology.

Public spending on R & D, incentives for the use of indigenous technologies and policies to guide private research efforts will be oriented towards these objectives.

53. There is a large community of Indians settled abroad. They have achieved tremendous success in their chosen professions and occupations. True to the rich tradition of our ancient culture, their physical location has not weakened the strong intellectual, philosophical and social links that they have with the country of their origin. The Government will continue to provide special facilities for them to invest their savings in this country. The procedures will be simplified so that they can function with a sense of confidence and in line with declared national policy.

54. Let me now turn to the Revised Estimates for 1989-90 and the Budget Estimates for 1990-91.

Revised Estimates for 1989-90

55. Revised Estimates of Expenditure for the current year show an increase of Rs. 5620 crores over the Budget Estimates. Of this, Rs. 4958 crores are on non-Plan account and Rs. 662 crores on Plan account.

56. Honourable Members are aware of the strains on our security environment which unfortunately coincide with the strains on our economy. Hence, on the non-Plan side, Defence Services are being provided additional Rs.1500 crores to meet their essential requirements and committed expenditure. The provision for fertilizer subsidy will be Rs.950 crores more, mainly due to larger imports and clearance of arrear claims. There is an increase of Rs.276 crores in food subsidy, mainly for

clearing arrears due to Food Corporation of India. An additional provision of Rs.468 crores has been made for export promotion and market development. Interest payments will be Rs.710 crores higher. The Government is of the view that the amount of compensation to be paid to the victims of the Bhopal Gas tragedy under Court order is too meagre for the magnitude of sufferings of these innocent people. The matter is under review in Court and in the meantime Government have decided to pay interim relief for the victims for which a provision of Rs.320 crores has been made which, inclusive of bank interest over a period of 3 years, will amount to Rs.360 crores. The increases are partly offset by savings in some areas notably in the lump sum provision made for dearness allowance consequent on transfer of liability on this account to the budget of the Ministries/Departments.

57. On the Receipt side, while collection from Corporation Tax and Customs duties are expected to more or less reach Budget estimates, the receipts from Union excise duties are estimated to be Rs.599 crores less than the budget. Income-tax collections, on the other hand, are expected to be more by Rs.755 crores. States' share of taxes including the sums payable to States on the basis of collection figures certified by the C&AG for the earlier years are placed at Rs.13232 crores against Rs.12438 crores at the budget stage, i.e. Rs.794 crores more. The shortfall in net revenue receipts is expected to be more than off set by larger receipts from small savings, provident fund collections and special deposits of non-government provident funds, etc.

58. The overall deficit for the current year is now estimated at Rs.11750 crores against the budget estimate of Rs.7337 crores.

Budget Estimates for 1990-91

59. The next financial year is the beginning of the Eighth Five Year Plan. This Government is irrevocably committed to planned economic development, and to making the plan more meaningful to the people. As a part of the new strategy, in the next year's Plan, we have provided more for those programmes and schemes which benefit the people directly. We have favoured those programmes that create more jobs, generate self-employment opportunities, improve the living environment in our villages and strengthen our agriculture. This is the surest route to overcome poverty. An increase of 31.7 per cent on last year's budget estimate is being provided for Agriculture and Allied Services, without taking into account the budgt provision of Rs.1000 crores for the debt relief for farmers, weavers and artisans. The allocation for anti-poverty

programmes, which are spread over different budget heads is being increased by about 23 per cent over last year's budget estimate. This includes the outlay for employment programmes in rural and urban areas which is being increased by 30 per cent on last year's budget estimate.

60. We have a firm commitment to accord highest priority to agriculture and rural development and our thrust and actions are in conformity with that commitment.

61. For the Central Plan 1990-91, I propose an outlay of Rs.39,329 crores – an increase of Rs.4,883 crores or 14.2 per cent over the current year's outlay. Of this, Rs.17,344 crores will be provided as budgetary support and the balance of Rs.21,985 crores will be mobilised by the public sector enterprises through their internal resources as well as borrowings.

62. For the year 1990-91, an outlay of Rs.905 crores is proposed for the Department of Agriculture and Cooperation which represents an increase of 17.5 per cent over the budget estimates for the current year. In addition, I am also proposing an outlay of Rs.155 crores for Agricultural Research and Education compared to the provision of Rs.110 crores in 1989-90 – an increase of 41 per cent.

63. I have already referred to the intention of the Government to make a beginning in respect of an Employment Guarantee Scheme. The Annual Plan outlay proposed for the Department of Rural Development is Rs.3,115 crores. It is my intention to provide some additional funds, within the constraint of resources, to enable an Employment Guarantee Scheme to be introduced in selected areas.

64. The Government is pledged to securing a fair deal for the most oppressed, exploited and deprived sectors of the society, namely, the Scheduled Castes and Scheduled Tribes. It is proposed to make a provision of Rs.320 crores for the schemes for Scheduled Castes and Scheduled Tribes in the Annual Plan 1990-91 as against Rs. 269 crores in 1989-90 BE. The Special Central Assistance to Special Component Plans and Tribal Sub-Plans of States has also been increased.

65. The Government would intensify the efforts for eradication of illiteracy. The very fact that millions of voters in the country have to identify the names of candidates on the ballot papers only from the election symbols is itself a symbol of the extent of illiteracy. We have made 25 per cent increase in allocation for National Literacy Mission. Special attention to vocational programmes at all levels will be given.

The process of modernisation of technical education, and support to thrust and frontier areas in science and technology will be maintained. I am proposing an outlay of Rs.865 crores for the Department of Education during 1990-91.

66. In all the programmes of health and family welfare services, special attention will be paid to the needs of the rural people. I am proposing an outlay of Rs.950 crores for the Ministry of Health and Family Welfare for 1990-91

67. The Government attaches great significance to the welfare of the weak, the poor and the deprived living in the urban areas. Major initiatives for employment, low cost sanitation for liberation of scavengers and provision for night shelters are proposed to be launched. The plan outlay of the Urban Development Sector is being increased to Rs.272 crores in 1990-91 from Rs.89 crores in 1989-90BE for this purpose.

68. The Annual Plan outlays for 1990-91 for the infrastructure sectors are proposed to be stepped up. The outlays for Petroleum and Natural Gas is proposed to be increased by 18.6 per cent, Railways by 12.4 per cent and Power by about 10 per cent.

69. The details regarding Central Plan outlays for these and other sectors are in the Budget documents. I do not wish to take the time of the House in making my speech a substitute for the voluminous budget documents, and thus deprive the Members of the excitement of reading these documents'.

70. Honourable Members will be happy to know that the Central assistance for State and UT Plans next year will be Rs.12,848 crores, including the Plan revenue grants recommended by the Finance Commission as against Rs.10,450 crores excluding drought assistance provided in Budget Estimates for the current year. This represents a substantial step up of 22.9 per cent.

71. Budget Estimates for the next year provide Rs.64,515 crores for non-Plan expenditure as against Rs.59,220 crores in Revised Estimates for the current year. The main increrase next year is under interest payments provision for which goes up from Rs.17,710 crores this year to Rs.20,850 crores next year.

72. The Government have appointed a Committee to consider the issue of One Rank One Pension in all its aspects. The Report of the Committee is expected by end of March, 1990 and government will take further action thereafter.

73. For Defence Services, a provision of Rs.15,750 crores has been made in the Budget Estimates. This increase in the defence expenditure is not of our choice. It is the direct result of the situation on our borders.

74. Freedom struggle is indivisible and therefore it has been decided that those who fought for Goa's liberation from the Portugese rule will be eligible for Union Government's pension and all other benefits available to other freedom fighters.

75. The Ninth Finance Commission has submitted its second report covering the period 1990-95, a copy of which was laid on the Table of the House last week along with a statement of decisions of Government on the recommendations. These have been taken into account while framing the Budget for next year. The recommendations of the Finance Commission accepted by Government will cast an additional burden of the order of Rs.773 crores on the Central Budget in 1990-91.

76. Government are alive to the important issue of checking proliferation of Government expenditure especially in non-priority and non-developmental areas. I am requesting all the Ministries and Departments to absorb the liabilites on account of additional instalments of D.A. which will be payable next year from within the budget provisions made for them by effecting economies and eliminating non-essential expenditure. I am, therefore, including only a nominal provision of Rs.100 crores in the next year's budget as lump sum provision for D.A. This is mainly to meet the possible requirements of small Departments with limited budgets who may not find it possible to absorb D.A. increases to the full extent.

77. On the Receipts side, Gross Tax Revenue at the 1989-90 rate of taxation is estimated at Rs. 57988 crores and the net tax revenue after payment to States of their share of taxes is placed at Rs.43507 compared to Rs. 37798 crores in the Revised Estimates for the current year.

78. I have taken a credit of Rs. 8000 crores on account of market borrowings as against Rs.7,400 crores in the current year. External assistance net of repayment is expected to be of the order of Rs.4327 crores in the next year as against Rs. 3901 crores in the current year. Taking into account the other variations in receipts and expenditure the overall deficit for next year at the 1989-90 rate of taxation is estimated at Rs. 9165 crores.

Budget 1990-91

Speech of

Prof. Madhu Dandavate
Minister of Finance

19th March, 1990

PART B

79. Having taxed your patience so far, now let me turn to other areas of taxation and reliefs for which you must have been waiting impatiently. Let me begin with my proposals in respect of direct taxes. I am introducing certain major changes in the rate structure for personal income-tax with a view to providing relief to low and middle income groups, and to make the savings linked incentives more equitable for taxpayers in different income slabs. My first proposal to raise the exemption limit is in fulfilment of a promise made in the National Front manifesto. I am raising the exemption limit for personal income taxation from Rs. 18,000 to Rs. 22,000. Roughly, one million persons will go out of the tax net as a result of this change. In deciding the new limit, I have had to balance two conflicting considerations. On the one hand, it is a fact that the lower income groups have been affected the most by price rise, and there is a case to raise the exemption limit. On the other hand, an increase in the limit narrows the tax base and involves substantial loss of revenue as the benefit of the increase is spread over all taxpayers, and is not confined to the lower end of the income levels. Experts have often argued that keeping in view our per capita income, raising of the exemption limit is not justified. However, as I temperamentally prefer to avoid taking extreme positions, I have chosen the middle course which I believe is fair and reasonable.

80. As further measure of relief to the lower and middle income groups, I am extending the lowest rate of 20% from the present limit of Rs. 25,000 to Rs. 30,000.

81. Last year, a surcharge at the rate of 8 per cent was introduced for financing employment programmes. Dropping this employment surcharge would have brought into question my irrevocable commitment to employment oriented planning. I, therefore, have no choice but to continue this surcharge. This will now be applicable beyond taxable income of Rs. 75,000 as against the present limit of Rs. 50,000.

82. As the Honourable Members are aware, the existing schemes of tax incentive to promote savings are based on deductions from income. A person gets tax relief at the highest marginal rate of tax applicable to him. Accordingly, it confers higher amount of tax benefit to a person with higher income vis-a-vis a person with a lower income. With a view to removing this inequity, I propose to introduce a system of tax rebate on the gross amount of savings under section 80C. Under the new system, a person contributing to provident fund, life insurance, National Savings Certificates, etc. as earlier, will now be entitled to a tax rebate calculated at the rate of 20%, on such savings. The maximum tax rebate allowable will be Rs. 10,000 generally and Rs. 14,000 in the case of authors, playwrights, artists, musicians, actors, sportsmen and athletes. This is broadly equivalent to the maximum relief available now. All persons will get the same amount of tax benefit on a given amount of savings, irrespective of their levels of income. The low income taxpayer will benefit.

83. Let me illustrate the impact of the above proposals. A person with a salary income of Rs. 3,500 per month, i.e. Rs. 42,000 per year, who saves Rs. 8,000 per year in provident fund and insurance presently pays Rs. 1,000 per year as tax. Under the new dispensation, he will not have to pay any tax at all. The upper income group will have to save Rs. 50,000 to get the full relief of Rs. 10,000. Under the old system they would have got the same relief by saving only Rs. 39,500. I may mention in passing, that the new system of a uniform tax rebate will also lead to a substantial simplification in tax deduction at source by employers.

84. As a further incentive to save, I propose to increase the limit available for the savings incentives under section 80CCA from Rs. 30,000 to Rs. 40,000. Since the savings under this are on a 'netting' principle and are added back to income when withdrawn, the present system of deduction from taxable income will continue.

85. In addition to this, the Equity Linked Savings Scheme (ELSS) announced last year has now been finalised on a 'netting' principle. Investment in units under the Scheme, will be eligible for deduction upto a maximum of Rs. 10,000 from the total income. The annual return on the investment in the units will be eligible for tax concession under section 80L. On repurchase of the units by the Mutual Funds, the capital amount representing the cost of the units will be taxed as income in the year of repurchase and the excess will be liable to tax as capital gains. The Equity Linked Savings Scheme will eventually replace the present deduction under section 80CC. Meanwhile, this provision is being extended for investments made upto 31st March, 1991.

86. In an effort to mitigate in some small measure, the hardship of parents

or guardians of physically handicapped or mentally retarded persons with incomes upto Rupees sixty thousand per annum, I propose allowing a deduction of Rs. 6,000 from the parent's or guardian's total income to cover expenses on medical treatment, training and rehabilitation of such persons.

87. I propose to increase the deduction in respect of professional income from foreign sources, available to authors, playwrights, artists, musicians, actors and sportsmen including athletes, from the existing rate of 25% to 50% of the income or 75% of the foreign exchange brought into India, whichever is higher. In the case of professors, teachers and research workers also, the present provision has been liberalised to allow deduction of 75% of the foreign exchange brought into India.

88. I will now make my proposals in regard to corporate taxation. The corporate sector has often claimed that the rate of Corporate Tax is high and that this inhibits growth as well as tax compliance. On closer scrutiny, I find that the rate is only seemingly high, because the system provides too many exemptions. After all the admissible exemptions and deductions, the effective rate falls drastically. Many large and high profit making companies had been able to escape the tax net and were paying zero tax for a long time. That is why the contribution of the corporate sector to tax revenue was not commensurate with the profits they earned; nor with the needs of national development. The tax system also tilted the balance in favour of capital intensive production.

89. To ensure better tax compliance, I propose a twin strategy. I am abolishing major incentives like Investment Allowance and Investment Deposit Account with a view to closing the escape route for the corporate sector to go out of the tax net; and having closed that route, I propose to fix the tax rate for widely held domestic companies at 40% with corresponding changes in rates for other domestic companies. This twin strategy will raise the effective tax rate and will also give substantial additional revenue of Rs.800 crores.

90. The only major deductions that will now be permitted are those relating to foreign exchange earnings and for setting up new industrial undertakings. The deduction for setting up new industries is being raised from 25 per cent to 30 per cent in the case of companies and from 20 per cent to 25 per cent for others. The period during which the benefit can be availed of is being extended from 8 to 10 years.

91. With the abolition of the major exemptions, there is a case for also removing the special provision regarding tax on minimum profits contained in section 115J of the Income-tax Act. Accordingly, I propose to discontinue that provision with effect from the assessment year 1991-92.

92. I am also introducing an important change in the taxation of inter-corporate dividends. At present 60% of the dividend income received by a domestic company from another is exempt from tax. There is a tendency towards holding of personal wealth in the form of companies which are in effect closely-held. In order to encourage genuine investment activity while at the same time discouraging the use of corporate framework for holding personal wealth, I propose to exempt dividends received by domestic companies from other domestic companies to the full extent to which they themselves declare dividends during the relevant period. However, scheduled banks and public financial institutions would, in substance, continue to be governed by the provisions of section 80M as they presently stand.

93. The result of the reform of the corporate tax system proposed by me will be to increase the buoyancy, simplify the tax structure and make it neutral as between small and large companies. At the same time, it will provide strong incentive for export and for investment in new industrial undertakings.

94. Many small scale industries are organised as partnerships. I propose to raise their exemption limit from Rs. 10,000 to Rs. 15,000 and to lower the tax rates suitably.

95. Restoration of ecologically degraded areas fulfils the objectives of employment generation, enhances the supply of fuel wood and fodder and also contributes to the overall social, economic and environmental stability of the rural areas. In order to promote afforestation, I propose to extend the provisions of section 35CCB and section 80GGA to taxpayers who contribute to a fund or programme for afforestation approved by the prescribed authority.

96. As in the case of personal income tax, I propose to continue the existing surcharge of 8% on corporate taxpayers also on all incomes above Rs. 75,000.

97. I also propose to make a major change in the taxation of gifts. At present, gifts are taxed in the hands of the donor, but there is no limit on the amount which a donee can show as having been received by way of gifts. Because of this, the mechanism of gifts is used to split up capital and launder black money. Some instances have also come to notice recently where attempts have been made to explain away wasteful and ostentatious expenditure on marriage receptions and other functions as having been financed out of gifts. With a view to curbing such practices, I have decided to substitute the present gift-tax on donors with a donee based gift-tax. Any person, who claims his assets or his expenditures as having been financed

from gifts, will now be liable to a gift-tax on a graduated scale. Thus he will have the pleasure of transferring a part of his bounty as a gift to the exchequer.

98. The primary purpose of the donee-based gift-tax is not to raise revenue but to check tax evasion and conspicuous consumption. In order to take care of legitimate gifts, there will be a basic exemption limit of Rs. 20,000 per year. In the case of total gifts exceeding Rs. 20,000 but not exceeding Rs. 50,000, gift-tax will be levied at 20 per cent; for total gifts exceeding Rs. 50,000 but not exceeding Rs. 2,00,000 at 30 per cent; and for total gifts exceeding Rs. 2,00,000 at 40 per cent. In addition, I also propose to allow for a substantially higher limit of rupees one lakh for gifts received from all sources by an individual at the time of marriage. Further, gifts received in foreign exchange through official channels will also be exempt.

99. I propose to make the new system applicable in respect of gifts made on or after 20th March, 1990. Consequently, the existing Gift-Tax Act taxing the gifts in the hands of donors will cease to be operative in respect of gifts made on or after that date.

100. Legislation to give effect to this new scheme is proposed to be introduced during the current session of Parliament.

101. I do not propose to take up the time of the House with other minor changes in the Direct Tax Laws.

102. As I mentioned earlier, there will be a gain in revenue from corporate tax to the extent of Rs. 800 crores. The loss in revenue from income-tax other than corporate tax after providing for better compliance is expected to be Rs. 250 crores. There will, therefore, be an additional accrual of Rs. 550 crores in respect of direct taxes.

103. Sir, I shall now deal with my proposals relating to indirect taxes. The main thrust of the proposals is on simplification and rationalisation. Simultaneously, I have also attempted to mobilise some resources in a manner that does not hurt the common man and at the same time helps to curb elitist consumption. A major emphasis has been on strengthening impulses for growth and exports. Significant changes in duty structure are also proposed to develop a quality culture in our industry. I have also not failed to give relief to the deserving sectors, particularly small scale industry, agriculture and environmental protection. All these measures have been described in some detail in the Explanatory Memorandum to the Finance Bill and I shall deal briefly with the more important of these proposals.

104. Presently, the import duty rates are widely dispersed. With a view to rationalising the rates and bringing down their multiplicity, the total of the

basic and auxiliary duty rates of customs are being placed in a limited number of slots in the range of zero to 125% in respect of most items. Further, as a step towards rationalisation and simplification of the Central Excise Tariff, the duty rates are proposed to be recast for a large number of goods. Though as a result of the rationalisation, the duty rates on certain commodities may marginally go up or down, the proposals on the whole are intended to be broadly revenue neutral. The reduction in the number of rates in each Chapter of the Tariff will simplify assessment. It will be our endeavour to ensure a measure of stability for the *ad valorem* rates.

105. First, I shall take up the proposals which are in the nature of concessions in customs and excise duties.

106. Agriculture is a priority area in our framework of development and tax rates are already kept low on most of the inputs used in this sector. Specified pesticides and pesticide intermediates enjoy concessional rates of import duty of 70% and 60% respectively. I propose to reduce the import duty on a few more specified bulk pesticides and pesticide intermediates to these levels. The proposal involves a revenue loss of about Rs.16 crores.

107. In order to encourage the use of rape-seed oil and mustard oil, of which there is an abundant production in the country, I propose to completely exempt refined rape-seed oil and mustard oil which are currently attracting excise duty of Rs.750 per tonne. The revenue loss on account of this proposal is estimated to be Rs.8 crores.

108. I propose to remove excise duty on pickles altogether in the hope that this will lend some flavour and spice to my budget.

109. Excise duty on coffee is presently levied at the rates of Rs. 78 and Rs. 105 per quintal depending upon the variety. As a measure of relief to the coffee growers, I propose to reduce the duty to a uniform level of Rs. 50 per quintal. This concession involves a revenue loss of Rs. 4 crores.

110. Marine products constitute a major thrust area of the country's exports. In order to make imported prawn feed more economical, I propose to reduce the duty on this item to 25%. In order to help modernisation of food processing and sea food industries, I propose to extend the concessional rate of import duty of 40% now available to certain specified machinery, to a few more items.

111. With a view to reducing the cost of cattle feed, I propose to completely exempt molasses used in its manufacture from the whole of excise duty. I also propose to prescribe concessional import duty of 40% in respect of certain items of equipment required in cattle breeding and dairying.

112. I propose to exempt fully foot-valves of certain specifications from excise duty in order to promote efficiency of agricultural pumps.

113. Presently, kraft paper and kraft paper-board used for apple packaging in Himachal Pradesh, Jammu and Kashmir and Uttar Pradesh are exempted from excise duty, as a measure to conserve forest wealth. I propose to extend this concession to packaging of all horticultural produce all over the country. This is expected to result in a revenue loss of Rs.5 crores.

114. I propose to extend full exemption from excise duty to hand made paper and paper board manufactured by units of Khadi and Village Industries Commission even when power is used in the process of sheet forming. I also propose to enhance the value limit for the purposes of excise duty exemption on footwear from Rs.75 to Rs.100 per pair in respect of such footwear made by units under KVIC as well as those run with the assistance of IRDP.

115. In addition to the measures outlined in the earlier part of my speech for the promotion of small scale sector, I also propose to extend some more fiscal concessions to this sector. Presently, small scale units are allowed complete exemption from excise duty in respect of clearance of goods upto a value of Rs. 15 lakhs in case such goods fall under only one Chapter of the Central Excise Tariff. I propose to increase this value limit to Rs.20 lakhs. The total exemption available to goods cleared upto a value limit of Rs.30 lakhs, when such goods fall under more than one Chapter of the Tariff, will remain unchanged. The increase in exemption limit for small scale units involves a revenue loss of Rs.67 crores. The scheme of notional credit of 5% in the case of inputs manufactured in the small scale sector is also being continued for one more year from the 1st April,1990. Further, the limit of value of clearance of goods in a financial year for the purpose of obtaining a central excise licence is being increased from the existing level of Rs.10 lakhs to Rs.15 lakhs. It has also been decided that the licensed small scale units having value of clearances upto Rs.20 lakhs in a year will henceforth be required to furnish only quarterly returns of production, clearance and duty payment. These changes are proposed to take effect from the 1st April,1990.

116. In order to reduce the prices of life saving drugs, I propose to exempt certain finished formulations containing Rifampicin, which is an anti-TB drug, from central excise duty. Specified bulk drugs which are required for the manufacture of certain life saving medicines are also being exempted from customs duty. I propose to reduce the import duty on certain specified drug intermediates to 90%. These proposals involve a loss of revenue of nearly Rs.17 crores.

117. We are all aware of some recent tragedies involving unhygenically packed intravenous fluids. In order that the pharmaceutical industry is encouraged to employ latest techniques of aseptic packaging, I propose to reduce the import duty on aseptic form fill seal machines for use by that industry from the present level of 147.25% to 40%.

118. Certain life saving equipments are eligible for complete exemption from import duty. I propose to extend this benefit to certain specified instruments and implants for physically handicapped persons. I also propose to give some concessions in customs duty to components of hearing aids.

119. I propose to reduce the import duty on homoeopathic medicines as well as on certain inputs for the manufacture of such medicines. This involves a revenue loss of about Rs.5 crores.

120. With a view to giving an impetus to industrial production and to boost exports, I propose to grant some concessions to capital goods and machinery.

121. There has been a feeling that our exports are not able to face international competition due to high cost of imported capital equipment. A scheme is being worked out for making available to registered manufacturer-exporters the facility of import of capital goods at concessional rate of duty against suitable export obligation. Broadly, capital goods upto a specified value limit imported under the scheme would be eligible to a concessional import duty of 25%. This will be subject to the condition that goods of a minimum of three times the value of the imported capital goods are exported within four years from the date of importation. The details of this scheme will be announced in the new Import and Export Policy.

122. Concessional import duties have been prescribed from time to time on machinery required for various export thrust sectors. I propose to extend the concession to specified items of machinery for rubber belting industry and forged hand tool industry. The concession involves a revenue loss of Rs.8 crores.

123. In order to promote investment and strengthen indigenous capital goods sector, I propose to reduce the excise duty on such machinery on a selective basis by 5 percentage points. This concession will lead to loss of revenue to the extent of Rs.60 crores. I am one of those who believe that the indigenous capital goods sector is integral to our search for self-reliance. I hope, the reduction in excise duty will make our capital equipment more competitive and spur modernisation.

124. With a view to encouraging industrial units to invest in quality upgradation and strengthen quality control, I propose to prescribe a concessional import duty of 40% on specified instruments and equipments. The proposal involves a revenue loss of Rs.30 crores. This substantial revenue loss is worthwhile in the interest of improving the quality of indigenous products.

125. In the interest of better environmental protection and pollution control, I propose to extend the present concessional customs duty of 40% to some more specified air and water pollution control equipments. At the same time, I propose to reduce the excise duty on certain specified pollution control equipments from 15% to 5%.

126. Heavy investments are required for the upgradation of the facilities available at the airports. I propose, as a measure of relief, to reduce the import duty on navigational, communication, air traffic control and landing equipments imported by the National Airports Authority of India to a level of 25%. The proposal involves a revenue loss of Rs.7.5 crores.

127. In order to promote establishment of telecommunication network in rural areas, I propose to reduce the excise duty on specified telecommunication equipment from the existing rate of 20% to 15%. This will lead to a revenue loss of Rs.15 crores.

128. I propose to reduce the excise duty on dry cell batteries from 35% to 30%. The relief will involve a revenue loss of Rs.10 crores.

129. It has been represented that film industry is facing difficulties on account of video piracy. In order to help combat this menace by simultaneous release of prints in a number of cinema houses, I propose to fully exempt feature films from excise duty. The proposal would involve a revenue loss of Rs.8 crores. I hope, with this incentive, the films which had gone into slow motion will regain their lost momentum.

130. In order to give relief to the newspaper industry, I propose to reduce the import duty on standard newsprint by Rs.100 per tonne.

131. As a matter of administrative simplification, I propose to shift the incidence of excise duty from truck body building activity, which is mostly in the unorganised sector, to motor vehicle chassis.

132. Now I move on to a package of proposals relating to the textile industry. These aim mainly at simplifying and rationalising the tariff structure, minimising the scope for evasion and ensuring a lower rate of duty for most varieties of cheaper fabrics. There are essentially two sets of proposals. The first relates to duty rationalisation at the fabric stage and the second, to changes in excise and import duties on man-made fibres and yarns as well as the intermediates used to produce them.

133. There is a growing concern about the plight of the handloom weaver. It is widely believed that one of the main causes of the distress is the neutralisation of the tax concessions given to this sector by wide-spread tax evasion at the processing stage. There is thus a near unanimous view in favour of transferring the excise duty from fabrics to yarn, which I share. However, in the case of man-made fabrics, the entire duty is by way of additional excise duty in lieu of sales tax. Therefore, any change in the duty structure can be made only in consultation with the States. I propose to consult the Chief Ministers shortly in this regard.

134. A part of the duty on cotton fabrics is, however, in the shape of basic excise duty. As a first step, I propose to transfer the whole of the basic duty on cotton fabrics to yarn. As the hank yarn used by handlooms will continue to be exempted, the price differential between hank yarn and cone yarn would be widened and this should greatly improve the competitiveness of the handloom sector.

135. Since at present the additional excise duty at the processing stage cannot be shifted to yarn without consultation with the States, I have attempted to rationalise the duty structure on fabrics. The number of slabs in the case of man-made fabrics is being reduced in a manner that the duty on fabrics becomes more equitable and the administration of tax laws more efficient. The rationalisation will also, I believe, greatly reduce evasion and consequently improve realisation.

136. Let me turn to man-made fibres, yarns and the intermediates used to produce them. Honourable members will recall that duties were reduced substantially on man-made textiles in 1985 and 1988. While the incidence of taxes was lowered, there have been complaints that the consumer did not get the corresponding benefit. I have thus tried to revise the duty structure keeping in mind the ability of diffe rent sectors to bear the additional burden. This will also help the competitiveness of the handloom sector where the dominant fibre is cotton. The major changes I am proposing are:

- imposition of a basic excise duty of Rs.4.40 per kg. on PTA and Rs.3.60 per kg. on DMT which will yield Rs.80 crores,
- increase in the basic excise duty on polyester filament yarn from around Rs.50 to Rs.55 per kg. and on nylon filament yarn from around Rs.37 to Rs.50 per kg. yielding additional revenue of Rs.156 crores,
- increase in the basic excise duty on viscose staple fibre from around Rs.7 to Rs.8.50 per kg. leading to a revenue gain of Rs.15 crores,
- reduction in the basic duty on polyester staple fibre from around Rs.14 to Rs.8.50 per kg. involving a revenue loss of Rs.65 crores and

- some reduction in the basic duties on various polyester blended yarns.

137. In order to ensure a measure of price discipline in this industry, I propose to reduce import duties,

- on DMT and PTA from 195% to 150%,
- on NFY from 130% to 100%,
- on PFY from 205% to 180% and
- on VSF from 55% to 40%.

The revenue loss from these duty reductions will be marginal since actual imports are not expected to be significant.

138. Keeping in view the sharp decline in the international price of MEG, I propose to raise the import duty on this item from 90% to 150%. This will result in an additional revenue of nearly Rs.48 crores.

139. Honourable Members may recall that for providing cheap cloth to the weaker sections of the society and to encourage the development of the handloom sector, additional excise duty under Textiles and Textile Articles Act was levied in 1978. The present rate of this duty is generally 13.64% of the basic excise duty. In addition to this duty, a cess at the rate of 2.5 paise per square metre is levied on fabrics for the purpose of developing khadi and other handloom industries. I propose to merge both these levies by raising the additional duty from 13.64% to 15% of the basic excise duty.

140. There are certain other rationalisation measures relating to textiles including marginal adjustment of duty rates on acrylic fibre, polypropylene staple fibre and filament yarn etc., without significant revenue implications.

141. The jute industry needs encouragement for diversification of its products. I propose to fully exempt jute blankets, floor coverings, mattings and bleached, printed and dyed jute fabrics from excise duty. Full exemption available to jute yarn supplied to KVIC units is also being extended to the handicraft sector.

142. I hope, having relished so far the liberal reliefs, the Honourable Members will not now grudge some revenue earning measures.

143. The family members of my smoker friends would, I am sure, be expecting an increase in the rates of excise duty on cigarettes in the interest of the health of the smokers. I will not disappoint them. The increase in duty will be 15 paise for the cheaper cigarettes and 75 paise in the case of costlier cigarettes per packet of ten. There will be no change in the duty rate on non-filter cigarettes of length upto 60 mm. I would hasten to add that I do not

propose any change in the excise levy on biris. This measure is estimated to yield additional excise revenue of Rs.131 crores. I shall be more than happy if my actual collections are much less due to fall in cigarette consumption.

144. Some sympathetic increase in the excise duty rates on pan masala is also being made to yield additional revenue of Rs. 6 crores.

145. I propose to increase the excise duty on cocoa and cocoa preparations from 10% to 15%, on jams, marmalades etc. from 5% to 10% and on ice cream from nil to 10%. The revenue gain from these measures will be of the order of Rs.26 crores.

146. The House will agree that items used by the affluent sections of the society must bear a higher burden of levies. I propose to increase the excise duty on certain items like microwave oven, washing machine, certain sophisticated varieties of audio systems, video cassette recorder and player, electronic games and relatively high priced cooking ranges.

147. I propose to increase the excise duty on motor cars from 35% to 40%. This measure will yield additional revenue to the tune of Rs.79 crores. I do not propose to make any change in the excise duty on two wheelers and tractors.

148. The specific duty rates of excise on refrigerators, air-conditioners of capacity upto 1.5 tonnes and automotive gas compressors are being increased. I propose to enhance the excise duty on car air-conditioning parts including those forming the kit from 40% to 65%. These proposals involve a revenue gain of Rs.14 crores.

149. Tyres and tubes, except for a few varieties, are currently subject to central excise levy at specific rates. On these items, owing to recurring increase in prices, the duty incidence in ad valorem terms has come down. As a corrective measure, I propose to raise the existing specific rates on tyres and tubes. However, I do not propose any increase of duty on tractor, trailer and two wheeler tyres and tubes. This, along with certain other rationalisation measures, is likely to yield a revenue gain of about Rs.40 crores.

150. I propose to raise the specific rates of basic duties of excise on iron and steel. The increase will generally be Rs.500 per tonne in the case of stainless steel items and Rs.100 per tonne in the case of other items. In the case of downstream dutiable products, MODVAT credit would continue to be available. The revenue gain from this proposal is of the order of Rs.104 crores.

151. Presently, the total rate of import duty on most of the stainless steel and articles thereof is 345%. I propose to bring down the rate to the level of

200%. The proposals in regard to customs duties on these and other steel items are expected to result in the loss of revenue to the tune of Rs.10 crores.

152. At present, the country has a surplus production of aluminium. In order to discourage imports, I propose to increase the basic customs duty on aluminium ingots by Rs. 3500 per tonne.

153. Major plastic raw materials attract excise duty ranging from 30% to 65%. However, the rate of duty on polystyrene is only 20%. As a measure of rationalisation, I propose to increase this rate to 30%. The proposal is expected to yield additional revenue of Rs.5 crores.

154. I propose to increase the basic excise duty on paste grade PVC used in the manufacture of leather cloth from Rs.15000 to Rs.20000 per tonne as an anti-evasion measure. The excise duty rates on PVC coated textiles are also proposed to be revised upwards. These measures are expected to yield Rs.17.5 crores.

155. At present, various categories of paints and varnishes are liable to excise duty at different rates ranging between 15% and 35%. I propose to rationalise the rates by keeping only two levels of duty at 15% and 30% as against the present five rates. The proposal involves prescribing a uniform excise duty of 15% on insulating varnishes and water based paints and 30% on oil based and plastic based decorative paints. The proposal would yield a revenue of Rs.9 crores.

156. Currently special excise duty at the rate of 1/20th of the basic duty of excise is being levied on indigenously produced goods. However, for the computation of countervailing duty of customs on imported goods, special excise duty is not taken into account. I do not think such a distinction is warranted. I propose to subject the imported goods to countervailing duty on the basis of the excise duty inclusive of special excise duty. This proposal is expected to yield customs revenue of Rs.60 crores.

157. The Baggage Rules relating to free allowance admissible to passengers arriving from foreign countries are being modified. The general free allowance is being increased from the existing level of Rs.1250 to Rs.2000 per passenger. There will be a uniform duty rate of 250% for baggage in excess of this limit as against the existing 175% and 245%. I also propose to prescribe a uniform duty rate of 25% on specified articles brought by passengers coming from abroad after a period of stay of more than one year, subject to certain conditions. The revised measures will take effect from the 1st April,1990.

158. Provision is being made for continuance of auxiliary duty of customs and special excise duty at the existing rates.

159. As the Honourable Members are aware, Inland Air Travel Tax was introduced in the Budget of last year. The tax is leviable at 10% of one component of the total air fare, namely, basic fare. I propose to levy the tax at the existing rate on the full air fare. The estimated revenue gain from the proposal will be Rs.15 crores.

160. As I mentioned in the earlier part of my speech, in recent years our consumption of petroleum products has risen sharply. Honourable Members are also aware that petroleum prices abroad have been hardening. The greater dependence on imports has led to a large outflow of foreign exchange and higher overall foreign borrowing. It has now become necessary to review the domestic prices of petroleum products. Keeping in view the interests of the common man, there will be no increase, I repeat, no increase in prices of kerosene and LPG cylinders. There will also be no increase in prices of naphtha for fertilizers and other uses, natural gas, furnace oil for industry, bitumen for roads and low speed diesel oil for farmers. Among the selected items whose prices are being revised with effect from this midnight are motor spirit, high speed diesel oil and aviation turbine fuel for domestic users. While the price of motor spirit is being raised by Rs. 1.25 per litre ex-storage, the price of high speed diesel oil will go up by 54 paise per litre. The price of aviation turbine fuel will increase by Rs.1320.45 per kilolitre. The increase in retail prices will vary from State to State depending on transportation charges and the incidence of local taxes and levies. I propose to mop up a part of the gain accruing to the oil companies as a result of price revision. The import duty on crude oil is being increased from Rs.1060 to Rs. 1500 per tonne. This will yield a revenue of Rs. 836 crores.

161. The government is compelled to perform this painful duty of increasing the prices of some petroleum products. But these are the hard options forced on us by the grave fiscal situation, rising external debts, and the difficult balance of payments position. We could have postponed these options only at the peril of our economic independence and self-reliance.

162. I have also proposed certain amendments in the Finance Bill seeking to effect changes in the excise and customs tariffs. These amendments are generally enabling provisions and have no revenue significance. Besides, there are proposals for amendment of some of the existing notifications. In order to save the time of the House, I do not propose to recount them.

163. The proposals in regard to changes in the excise duties outlined above are likely to yield additional revenue of Rs.778.63 crores. The concessions and reliefs announced aggregate to Rs.388.44 crores. Out of the net additional shareable revenue from excise duties of Rs.390.19

crores, the centre's share would be Rs.217.12 crores and the States share is Rs.173.07 crores.

164. My tax effort in respect of customs duties will bring in Rs.979.79 crores. Net of reliefs amounting to Rs.144.76 crores, the additional revenue from customs duties accruing to the Centre will be Rs.835.03 crores. Besides, the changes in the Inland Air Travel Tax would yield Rs.15 crores.

165. Copies of notifications giving effect to the changes in customs and excise duties effective from the 20th March, 1990 will be laid on the Table of the House in due course.

166. I now have something to say on behalf of my Honourable colleague, the Minister of Communications. Postal Service is highly employment intensive and salary and allowances constitute a major part of the operating expenses of the Postal Department. The grant of additional instalments of Dearness Allowance and increases in other operational expenses add significantly to these costs. The postal rates do not meet even the direct cost of most of the services. A revision of tariff for some postal services has, therefore, become unavoidable. However, in the interest of the common man and cheap and wider dissemination of information, there will be no change in the tariff for ordinary postcards and registered newspapers. The rate of printed postcard, which is used mainly for business purposes, is being raised from 40 paise to 60 paise, of inland letter card from 50 paise, inclusive of the stationery charge, to a consolidated amount of 75 paise, and of envelopes to a uniform rate of Re. one for every 20 grams without any stationery charge. There are also certain other changes which are explained in the memorandum circulated alongwith the Budget documents. The changes would take effect from a date to be notified after the Finance Bill is passed. The revisions proposed are estimated to yield an additional revenue of about Rs.207 crores in a full year and about Rs. 172 crores in 1990-91.

167. Honourable Members will recall that the 46th Constitution Amendment Act, 1982 gave enabling powers to the Parliament to levy a tax on consignment of goods where such consignment takes place in the course of inter-state trade or commerce. However, there have been differences of opinion on the modalities of implementation of this law and the matter has been discussed in various meetings of the Chief Ministers. The broad parameters have now been settled and a Committee of Chief Ministers was appointed to work out the guidelines for granting exemptions from this tax, both by the Centre and the States. I propose to consult the Chief Ministers shortly to take a final view in the matter.

168. I had earlier mentioned that the budget deficit at the existing rates of taxes would be Rs. 9165 crores. Taking into account the net additional yield from the modifications proposed in direct and indirect taxes and the revised postal tariff, the deficit for the next year is estimated at Rs.7206 crores. Honourable Members will note that this deficit is substantially lower than the deficit of Rs. 11750 crores in the revised estimates of 1989-90. In order to give the right signal and contain inflationary pressure, I have also tried to keep next year's deficit even lower than the budget estimate of Rs.7337 crores for the current year.

169. It is my firm determination that the deficit provided for in the budget should not be exceeded. A half-yearly review of the actual developments in the budgetary situation will be made, and the people and the Parliament kept informed about the performance in relation to the deficit.

170. We need to make our fiscal and tax system more stable and predictable. The system of making a large number of changes in the tax rates and tax laws every year, apart from introducing uncertainty, casts a severe burden on the administrative system. It also affects compliance and increases litigation. While some changes in tax rates and laws are inevitable, it is desirable to keep the basic structure stable at least for some time. With this end in view, the Government will present a document on the Long Term Fiscal Policy to Parliament.

171. With this, I have come to the end of my labours. We faced a fiscal situation which constituted a threat to the economic strength and stability of our country. The choice before us was to let things drift, borrow more and consume more or to take the corrective action now, however difficult. We have made our choice. We have taken some resources from the rich and used them to give some relief to the poor and the common man. We have begun a process to restrain the budgetary deficit and contain the inflationary pressure. We have tilted the balance of planning and investment towards the rural areas and in favour of employment.

172. As a man of science, wedded to non-doctrinaire socialism, I consider experimentation and its results the touchstone on which can be tested the relevance of all social and economic perceptions and policies.

173. This is the essence of pragmatism and the quintessence of the unending quest of socio-economic experimenters like Gandhiji, Jaya Prakash and Acharya Narendra Dev.

174. Mr. Speaker, with my irrevocable commitment to such a pragmatic approach, I present this Budget to this august House as a short term device to move steadily, and yet resolutely, towards the long term objective of ensuring growth with equity and self-reliance. In this endeavour, I seek the wholehearted support of the people through their chosen democratic instrument - this honourable Parliament.

175. Sir, I commend the Budget to the House.

केन्द्रीय आयोजना, 1990-91 की विशेषताएं

Highlights of Central Plan 1990-91

वर्ष 1990-91 की केन्द्रीय आयोजना का परिव्यय 39,329 करोड़ रुपए नियत किया गया है जो वर्ष 1989-90 की तुलना में 14.2 प्रतिशत की वृद्धि दर्शाता है ।

गरीबी-विरोधी कार्यक्रम :

ग्रामीण रोजगार (2,100 करोड़ रुपए):

- ग्रामीण भूमिहीन रोजगार गारंटी कार्यक्रम और राष्ट्रीय ग्रामीण रोजगार कार्यक्रम को 1989 में मिलाकर 'जवाहर रोजगार योजना के नाम से एक नया कार्यक्रम आरंभ किया गया है । यह कार्यक्रम सभी राज्यों और संघ राज्य क्षेत्रों में क्रियान्वित किया जा रहा है ।
- इस कार्यक्रम के अन्तर्गत वर्ष 1990-91 में 8565.4 लाख रोजगार कार्यदिवसों का सृजन किया जाएगा ।

शहरी रोजगार (120 करोड़ रुपए)

- वर्ष 1990-91 में शहरी सूक्ष्म (माइक्रो) उद्यम योजना के अंतर्गत, लगभग एक लाख शहरी निर्धन व्यक्तियों को स्व-रोजगार संबंधी कार्य शुरु करने के लिये सहायता प्रदान की जाएगी ।
- वर्ष 1990-91 के दौरान, शहरी भजदूरी रोजगार और शहरी तथा आवासीय आश्रय स्थल उन्नयन संबंधी स्कीमें के अंतर्गत 475 लाख से भी अधिक कार्य दिवसों का सृजन किया जाएगा ।

ग्रामीण विकास

- एकीकृत ग्रामीण विकास कार्यक्रम (377 करोड़ रुपए)
- वर्ष 1990-91 के दौरान गरीबी रेखा से नीचे रहने वाले 19.94 लाख ग्रामीण परिवारों को सहायता प्रदान की जाएगी । लाभ प्राप्त करने वालों में 30 प्रतिशत लोग अनुसूचित जातियों/अनुसूचित जनजातियों के होंगे तथा अन्य 30 प्रतिशत स्त्रियां होंगी । इन लाभग्राहियों के लिए सामूहिक बीमा योजना की सुविधा भी उपलब्ध होगी ।

1990-91 Central Plan outlay fixed at Rs. 39329 crores representing a step up of 14.2 per cent over 1989-90.

ANTI POVERTY PROGRAMMES:

Rural Employment *(Rs. 2100 crores):*

- Rural Landless Employment Guarantee Programme (RLEGP) and National Rural Employment Programme (NREP) have been merged in 1989 and a new programme named Jawahar Rojgar Yojana started. The programme is being implemented in all the States and UTs.
- 856.54 million mandays of employment will be generated in 1990-91 under this programme.

URBAN EMPLOYMENT: *(Rs. 120 crores)*

- About 1 lakh urban poor will be assisted to set up self employment ventures under Urban Micro Enterprises Scheme in 1990-91.
- More than 475 lakh mandays of work will be generated under the schemes of Urban Wage Employment & Urban and Housing Shelter upgradation during 1990-91.

RURAL DEVELOPMENT:

- Integrated Rural Development Programme (Rs. 377 crores)
- 19.94 lakh rural families below the poverty line to be assisted during 1990-91. 30 per cent of the beneficiaries will be from SC/STs and another 30 per cent from women. Group Insurance Scheme is also available for these beneficiaries.

- त्वरित ग्रामीण जल आपूर्ति कार्यक्रम (423 करोड़ रुपए)
  अप्रैल, 1985 में "कोई स्रोत नहीं" समस्या से ग्रस्त ग्रामों की संख्या 1,86,722 थी । मार्च, 1990 तक इन में से 1,57,484 ग्रामों को इस कार्यक्रम में सम्मिलित कर लिया जाएगा ।
- "कोई स्रोत नहीं" समस्या से ग्रस्त शेष ग्रामों को वर्ष 1990-91 में इस कार्यक्रम में शामिल कर लिए जाने का लक्ष्य है । इसके अतिरिक्त, आंशिक रूप से सम्मिलित 40,000 ग्रामों को वर्ष 1990-91 में शामिल कर लिए जाने की सम्भावना है ।
- ग्रामीण विद्युतीकरण : वर्ष 1990-91 में 13672 गावों का विद्युतीकरण किया जाना है । आशा है कि इससे 1990-91 में 423510 पम्प सेटों को ऊर्जा प्राप्त होगी ।

ऊर्जा:

कोयला और लिग्नाईट : (2447 करोड़ रुपए)

- वर्ष 1990-91 के लिए 2165 लाख मीट्रिक टन कोयले के उत्पादन का लक्ष्य रखा गया है जबकि 1989-90 में यह लक्ष्य 2100 लाख मीट्रिक टन का था ।
- वर्ष 1990-91 के लिए 110 लाख मीट्रिक टन लिग्नाईट के उत्पादन का लक्ष्य रखा गया है ।

विद्युत : (5917 करोड़ रुपए)

- वर्ष 1990-91 में विद्युत उत्पादन की स्थापित क्षमता में 3532 मेगावाट की क्षमता बढ़ाने का लक्ष्य है।

पैट्रोलियम और प्राकृतिक गैस : वर्ष 1990-91 में 359 लाख मीट्रिक टन कच्चे तेल का उत्पादन का लक्ष्य रखा गया है जबकि 1989-90 में यह लक्ष्य 340 लाख मीट्रिक टन का था ।

- वर्ष 1990-91 में 107200 लाख क्यूबिक मीटर प्राकृतिक गैस की आपूर्ति का लक्ष्य रखा गया है जबकि 1989-90 में यह लक्ष्य 94360 लाख क्यूबिक मीटर का था ।

इस्पात (2734.71 करोड़ रुपए)

भारतीय इस्पात प्राधिकरण लिमिटेड के एकीकृत इस्पात संयंत्रों द्वारा 79.2 लाख मीट्रिक टन इस्पात का उत्पादन किये जाने की संभावना है जबकि 1989-90 में प्रत्याशित उत्पादन 71.5 लाख मीट्रिक टन का था ।

- Accelerated Rural Water Supply Programme (Rs. 423 crores)
  There were 161722 "No Source" problem villages in April, 1985. 157484 such villages are likely to be covered till March, 1990.
- The target for 1990-91 is to cover the left over "No source" problem villages. In addition, 4000 partially covered villages are likely to be covered in 1990-91.
- Rural Electrification: 13672 villages are to be electrified in 1990-91. It is expected to energise 423510 pump sets in 1990-91.

ENERGY:

COAL AND LIGNITE: *(Rs. 2447 crores)*

- Coal production target for 1990-91 is 216.5 million tonnes as against 210 million tonnes for 1989-90.
- Production target for Lignite for 1990-91 is 11 million tonnes.

POWER: *(Rs. 5917 crores)*

- Target for addition to installed capacity of power generation in 1990-91 is 3532 MW.

PETROLEUM & NATURAL GAS: Crude oil production target for 1990-91 is 35.9 million tonnes as against 34 million tonnes during 1989-90.

- Target for supply of Natural Gas for 1990-91 is 10720 million cubic metres against 9436 million cubic metres for 1989-90.

STEEL: *(Rs. 2735 crores)*

- Integrated steel plants of SAIL are expected to produce 7.92 million tonnes of saleable steel during 1990-91 as against anticipated production of 7.15 million tonnes in 1989-90.

रेलवे (5000 करोड़ रुपए)

- 26500 वेगन, 299 लोकोमोटिव, 1734 कोच तथा 222 विद्युत बहु-उद्देशीय इकाइयां प्राप्त की जानी हैं ।
- 3530 लाख मीट्रिक टन के माल यातायात की क्षमता का निर्माण किया जाना है ।
- 3500 किलोमीटर मार्ग का नवीकरण किया जाना और 300 किलोमीटर मार्ग की नई लाईनें बिछाई जानी है । 1040 रूट किलोमीटर का विद्युतीकरण कार्य शुरु किया जाना जिसमें से 417 रूट किलोमीटर मार्ग का विद्युतीकरण कार्य वर्ष 1989-90 में पर्याप्त रूप से पूरा कर लिया गया।

दूर संचार (2875 करोड़ रुपए)

- 6.5 लाख अतिरिक्त स्विचिंग क्षमता (जिसमें 5.50 लाख सीधी एक्सचेंज लाईनें सम्मिलित है), 33700 लाईनों की क्षमता वाले 8 ट्रंक स्वचालित एक्सचेंजो का निर्माण किया जायेगा ।
- 3172 रूट किलोमीटर को-एकसीयल केबल प्रणाली, 3482 रूट किलोमीटर माइक्रोवेव प्रणाली, 2420 रूट किलोमीटर यू.एच.एफ प्रणालियों तथा 5493 रूट किलोमीटर आप्टीकल फाईबर केबलों की व्यवस्था की जानी है ।
- 18000 लम्बी दूरी के सार्वजनिक दूरभाष आरम्भ किये जायेंगे ।

परिवार कल्याण (675 करोड़ रुपए)

- सन 2000 तक, प्रति हजार 21 की जन्म दर तथा 9 प्रतिशत प्रति हजार की मृत्यु दर प्राप्त करने के लिये, वर्ष 1990-91 में 58 लाख वंध्यीकरण तथा 64 लाख आइ यू डी लगाये जाने का लक्ष्य है ।

टिप्पणी : *वर्ष 1990-91 के वास्तविक लक्ष्य अनन्तिम हैं ।*

RAILWAYS: (Rs. 5000 crores)

- 26500 wagons, 299 locomotives, 1734 coaches and 222 electric multiple units to be procured.
- Capacity to lift 353 million tonnes of freight traffic to be built.
- 3500 track kms. to be renewed and 300 kms of new lines to be completed. Commission electrification of 1040 route kms. including 417 route kms. completed substantially in the year 1989-90.

TELECOMMUNICATION: (Rs. 2875 crores)

- 6.5 lakhs additional switching capacity (including 5.50 lakh direct exchange lines), 8 trunk automatic exchanges with capacity of 33700 lines to be created.
- 3172 route kms. of co-axial cable systems, 3482 route kms. of microwave systems, 2420 route kms. of UHF systems, 5493 route kms. of optical fibre cables to be provided.
- 18000 long distance public telephones to be opened.

FAMILY WELFARE: (Rs. 675 crores)

- To achieve birth rate of 21 and death rate of 9 per cent per thousand by 2000 AD, the operational target for 1990-91 is to perform 5.8 million sterilization and 6.4 million IUD.

NOTE: *Physical targets for 1990-91 are pr0visional.*

इन अन्तरणों में राज्यों को भारतीय रिजर्व बैंक के साथ उनके ओवरड्राफ्ट को बेबाक करने के लिए वर्ष 1982-83 में दिए गए 1743 करोड़ रुपए, 1983-84 में दिए गए 400 करोड़ रुपए और 1985-86 में दिए गए 1628 करोड़ रुपए के ऋण शामिल है ।

Transfers include Rs. 1743 crores in 1982-83, Rs.400 crores in 1983-84, and Rs. 1628 crores in 1985-86 of loans to States for clearance of their overdrafts with RBI

बजट का सार BUDGET AT A GLANCE

व्याख्यात्मक टिप्पणी *Explanatory Note*

इस पुस्तिका में बजट के अनुमानों को स्थूल समूहों में बांट कर दिखाया जाता है, ताकि बजट को आसानी से समझा जा सके । इस प्रयोजन के लिए प्राप्तियों और व्यय की कतिपय मदों का पुनः समूहीकरण किया गया है। उदाहरण के लिए वाणिज्यिक विभागों के व्यय को, उसमें से उनकी प्राप्तियां घटाकर दिखाया गया है, ताकि लेनदेनों की मात्रा में होने वाली वृद्धि से दोनों खातों के आंकड़ों के परिमाण में वृद्धि न हो पाए । इसी प्रकार, राज्यों को दिए गए ऐसे अल्पावधिक ऋणों और अग्रिमों को, जिनको उसी वर्ष के दौरान वसूल कर लिया गया हो, निवल मात्रा में प्रदर्शित किया गया है । कतिपय ऐसे लेनदेनों को, जिनके कारण नगद रकम की निकासी नहीं होती लेकिन जिनके बारे में समतुल्य प्राप्तियां हो जाती हैं जैसे कि अन्तर्राष्ट्रीय मुद्रा कोष को दिए जाने वाले अंशदान, को सम्मिलित नहीं किया गया है, ताकि व्यय की वास्तविक मदों को ही प्रमुखता मिले ।

The Budget estimates are presented in this document in broad aggregates to facilitate easy understanding. For this purpose certain items of receipts and expenditure have been regrouped. For example, the expenditures of commercial departments have been taken net of their receipts so that increase in the volume of transactions does not inflate the figures on both sides. Similarly, short term loans and advances given to the States and recovered during the same year have been netted. Certain transactions which do not involve cash outgo and are matched by receipts e.g. subscription to International Monetary Fund have been excluded so that focus is on real items of expenditure.

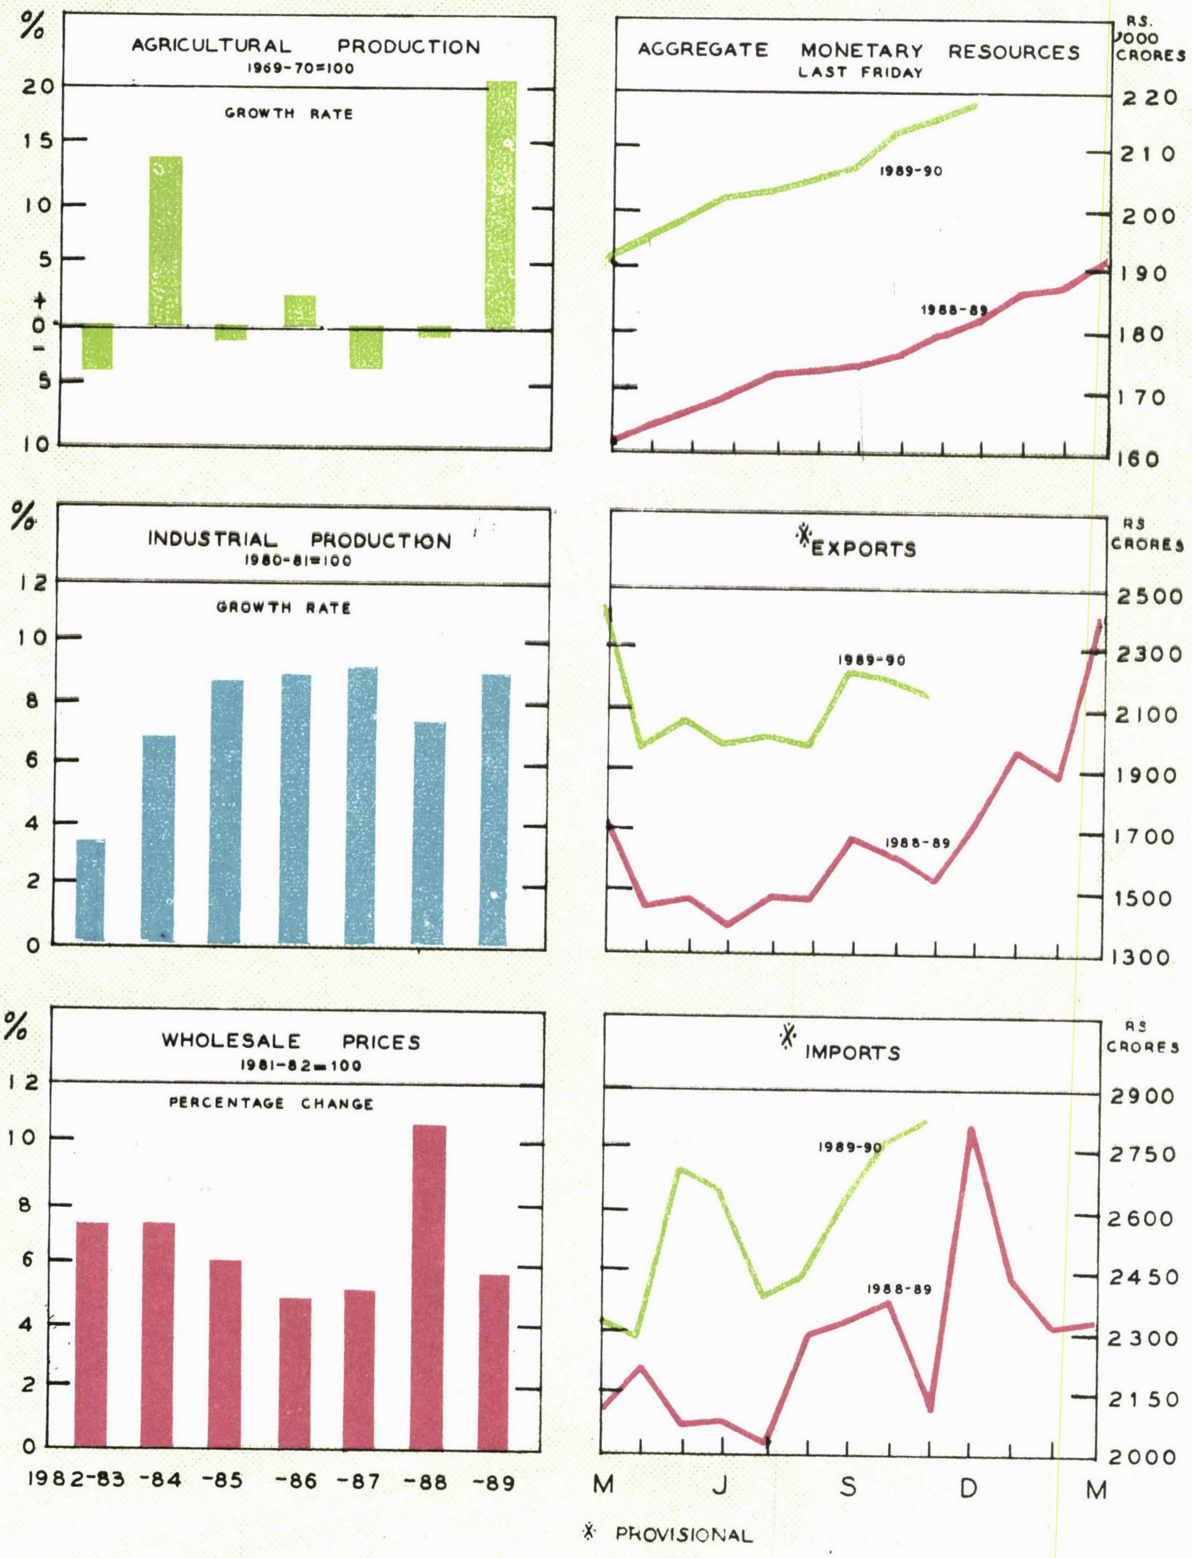
SELECTED ECONOMIC INDICATORS



MINISTRY OF FINANCE, ECONOMIC DIVISION.

CHAPTER 1

THE ECONOMIC SITUATION IN 1989-90

The performance of the economy during 1989-90 shows signs of a slow down in output growth. There has been some deceleration in the industrial growth rate and agricultural production has not increased much beyond the peak level reached in the previous year.

1.2 In 1988-89 the economy recovered very quickly from the setback of the drought of 1987-88. Gross Domestic Product (GDP) in real terms recorded a growth rate of 10.4 per cent aided by a growth of agricultural production by 20.8 per cent and the industrial production by 8.8 per cent. The overall inflation rate was contained at 5.7 per cent in terms of Wholesale Price Index (WPI) compared with 10.7 per cent during 1987-88 and 8.5 per cent in terms of Consumer Price Index (CPI) compared with 10.9 per cent during 1987-88.

1.3 During the current year although monsoon rains have been normal, it is unlikely that agricultural production would show a substantial increase over the bumper crop achieved last year. The growth of agricultural production is expected to be 1 per cent or so. Provisional data on the index of industrial production for April—November 1989 shows an industrial growth of 5.2 per cent compared with 9.4 per cent during the corresponding period of the last year. Even after allowing for some improvement in industrial production during the remaining period of the current financial year, it is unlikely that industrial growth rate during the year will exceed 6 per cent. On balance, on the basis of these tentative figures, it is estimated that GDP growth during 1989-90 will be around 4—4.5 per cent, which is below the average growth rate of around 5.9 per cent, achieved during first four years of the Seventh Five Year Plan. Despite this down-turn during the current year, on average, the Seventh Plan targets of growth are likely to be achieved.

TABLE 1.1

Selected Economic Indicators

(Percentage Change over Previous Year)

Economic Indicators	1977-78	1978-79	1979-80	1980-81	1981-82	1982-83	1983-84	1984-85	1985-86	1986-87	1987-88	1988-89(P)	1989-90(P)

(P) Provisional *Anticipated

1 Growth rates are based on new series at 1980-81 prices.

2 Growth rates are based on old index of Industrial Production (Base 1970-71=100) upto 1980-81 and on the basis of new index (Base 1980-81=100) thereafter.

3 April—November 1989. 4 April—December 1989.

5 Rate of inflation is based on old index of Wholesale Prices (Base 1970-71=100) upto 1981-82 and on the basis of new Index (Base 1981-82=100) thereafter, on point to point basis.

6 Upto February 17, 1990.

7 Between March 31, 1989 and January 26, 1990.

8 April—December 1989 over the same period of 1988. Rates of growth are in relation to rupee values.

9 As on January 31, 1990. Foreign Exchange reserves include gold, SDR and foreign currency assets and relate to end-period.

1.4 The primary objective of growth must be the alleviation of poverty and for this the impact of growth on employment is crucial. Available evidence suggests that the acceleration of growth in the eighties has not been matched by a corresponding acceleration in employment at least in the organised sector. The policies that determine the direction of investment and public spending and the choice of techniques will have to pay greater regard to this concern.

1.5 The annual rate of inflation in the Wholesale Price Index (WPI) was 7.7 per cent as on February 17, 1990 compared with 5.3 per cent at the corresponding time last year. A measure of price stability is essential for sustaining the momentum of growth and ensuring equitable distribution of the benefits. Inflation especially hurts the poor, since their incomes are not indexed to prices. It also reduces the willingness to save in financial assets, encourages speculation and the generation of black money and distorts investment priorities. The containment of inflation in the current year and the past few years has been largely on supply management with food stocks and imports being used to check the upward pressure on prices of essential commodities. In the past three years stocks of foodgrains have been run down from 22.8 million tonnes in January 1987 to 12.6 million tonnes in January 1990, and imports of cereals, edible oils and sugar have amounted to 2.8 million tonnes, 3.4 million tonnes and 1 million tonnes respectively. The margins available for such supply management are now much lower than they were three years ago. In this situation a tighter control on budgetary deficits and liquidity growth and more rapid increase in output, particularly of wage goods, becomes even more essential.

1.6 Demand management and deficit control are closely linked to the savings rate. The eighties have been characterised by a stagnation in the overall savings rate and a sharp deterioration in public savings. The available evidence suggests that the picture in the current year is more or less the same. Significant improvement in the performance of overall savings, and public savings in particular is necessary for macro-economic stability and for financing the investments required for growth and employment generation.

1.7 The imbalances between aggregate demand and supply spill over onto the balance of payments and have to be met by running down reserves or increasing debt. Given the limited availability of concessional assistance, growing recourse to foreign borrowing necessarily means an increase in debt service which in turn constrains the room for manoeuvre on the import front. The solution lies in rapid exports growth and, as regards this, trends in the past three years provide good grounds for hope. The visible trade deficit has narrowed significantly in 1989-90 with exports (in rupee terms) rising by 38.3 per cent in the first nine months of the current year as against a growth of 20.7 per cent in imports.

Gross National Product, Savings and Investment

1.8 The Quick Estimates of national income aggregates prepared by the Central Statistical Organisation indicate that Gross National Product at factor cost (constant prices) recorded an impressive growth rate of 10.6 per cent during 1988-89. Agriculture and allied sectors recorded a growth rate of 16.9 per cent in 1988-89 compared with 0.7 per cent in 1987-88; industry and construction achieved a growth rate of 7.7 per cent in 1988-89 compared with 5.6 per cent during 1987-88; banking and real estate recorded a growth of 7.3 per cent compared with 5.8 per cent a year ago and transport, storage and communications recorded a growth rate of 7.6 per cent in 1988-89 compared with 5.1 per cent in 1987-88.

1.9 However, there has been a disquieting trend in the rate of domestic savings which showed little improvement during the Seventh Plan. The ratio of gross domestic saving as percentage to GDP at current market prices improved marginally from 20.4 per cent in 1985-86 to 21 per cent in 1988-89, and the ratio of gross capital formation increased from 22.8 per cent to 23.9 per cent during the same period. While the saving from the public sector has declined continuously from 3.2 per cent of GDP in 1985-86 to 1.6 per cent in 1988-89 and that of the private corporate sector from 2.1 per cent of GDP to 1.8 per cent during the same period, the savings of the household sector recorded an appreciable increase from 15.2 per cent of GDP in 1985-86 to 17.5 per cent in 1988-89. Given this trend of savings and the likely slow-down of the economic growth during the current year, it is unlikely that there would be any marked improvement in the overall savings rate in 1989-90.

Agricultural Production

1.10 The first three years of the Seventh Plan were marked by a succession of unfavourable monsoons culminating in the severe drought during 1987-88. The Index of agricultural production declined by 3.7 per cent in 1986-87 and 1 per cent in 1987-88. There was a record growth of agricultural production by 20.8 per cent during 1988-89. The growth was also widespread over various crops and regions. While foodgrains production recorded an increase of over 21 per cent, production of pulses increased by 25 per cent, oilseeds by more than 41 per cent and cotton by 36 per cent.

1.11 During the current year monsoon has been normal and 29 out of 36 meteorological subdivisions have received excess or normal rainfall. It is expected that agricultural production may rise by about one per cent over the bumper crop achieved last year. Foodgrains production in 1989-90 is likely to cross the record production of 170 million tonnes achieved in 1988-89.

1.12 Rice production in 1989-90 has been targeted at 72.5 million tonnes. With monsoon on time and its coverage being normal, the overall kharif crop production has been reported to be satisfactory. The target for wheat at 54 million tonnes and that of pulses at 14.75 million tonnes are likely to be achieved. Various development programmes of the Government to raise production of rice, wheat and pulses *viz.* Special Rice Production Programme (SRPP) for the eastern region, Special Foodgrains Production Programme (SFPP) for major foodgrains producing States and the Centrally Sponsored National Pulses Development Project continue to be in operation in 1989-90. With the help of support measures undertaken by the Government and the efforts made by the Technology Mission on Oilseeds established in May 1986, oilseeds production has gone up significantly in recent years. As a result imports of edible oils during the oil year 1988-89 (November—October) at about 3.7 lakh tonnes were quite modest compared to 18.2 lakh tonnes in 1987-88. A production target of 165 lakh tonnes of oilseeds has been fixed for 1989-90. Production of cotton is anticipated to reach a record level of 95 lakh bales in 1989-90.

1.13 Despite larger acreage and production of sugarcane, sugar production declined to 87.52 lakh tonnes in the sugar year 1988-89 (October—September) compared with 91.10 lakh tonnes recorded in 1987-88. Considering the estimated size of the sugarcane crop, sugar production during the current year may register a significant increase. Production of tea in 1988-89 increased by 5 per cent but is likely to decline during the current year.

1.14 The increase in agricultural production has been stimulated largely by the increase in the use of key inputs like irrigation and fertilisers. Taking the period 1980-81 to 1988-89 the average growth in agricultural production (in terms of physical output) was 5.4 per cent, that in irrigation (measured in terms of gross irrigated area) was 3.0 per cent and in fertiliser use (measured in terms of NPK) was 8.9 per cent. Given the dependence on weather a year-to-year correlation between input use and agricultural production cannot be expected. However, in 1989-90 a more or less normal monsoon year, agricultural production is expected to grow by a little over 1 per cent as against the 12.6 per cent increase in fertiliser use.

1.15 The Government also continued its policy of providing adequate and timely credit at subsidised rates to the farmers through institutional agencies like co-operatives, commercial banks and Regional Rural Banks to support agricultural and allied activities. The total quantum of agricultural loan increased substantially from Rs. 6,794 crores in 1985-86 to Rs. 11,752 crores in 1988-89 and the target for 1989-90 has been fixed at Rs. 13,294 crores.

1.16 In 1989-90, for more effective implementation of wage employment programmes, a new employment generation programme known as the Jawahar Rojgar Yojna has been introduced and merged with the existing National Rural Employment Programme (NREP) and Rural Landless Employment Guarantee Programme (RLEGP). A sum of Rs. 2623 crores (including Rs. 523 crores as States' share and the subsidised value of foodgrains) has been provided for the scheme during 1989-90 in order to generate 837 million mandays of employment.

Industry and Infrastructure

1.17 After a slight deceleration during 1987-88, industrial production recovered quickly during 1988-89 and grew by 8.8 per cent compared with 7.3 per cent during 1987-88. The improvement in the growth rate was shared by all the sub-sectors —manufacturing sub-sector recorded a growth rate of 8.9 per cent, mining and quarrying sub-sector 7.9 per cent and electricity sub-sector 9.6 per cent. The growth was also supported by the recovery in agriculture, improved performance of infrastructure sectors like coal, steel, cement, fertilisers, railways and power generation and an increase in overall demand.

1.18 There has been a slow down of industrial growth during the current year, and data available upto November 1989 indicate a growth rate of only 5.2 per cent compared with 9.4 per cent during the corresponding period of last year. The current down-turn in industrial growth is essentially attributable to the poor performance of the manufacturing sub-sector which accounts for more than three-fourths of the total weight in the Index and recorded a growth rate of only 3.6 per cent during April—November 1989 compared with 10.2 per cent achieved during the corresponding period of last year. The deceleration has been marked in a few key industries like sugar, steel, cement, fertilisers, cotton cloth (mill sector), commercial vehicles and consumer electronics.

1.19 An analysis of industrial growth by use-based classification indicates that during first eight months of the current year there has been a significant deceleration in the growth rates of basic industries (from 10.8 per cent in April—November 1988 to 4.7 per cent in April—November 1989), consumer durables (from 19.2 per cent to 0.8 per cent) and intermediate goods (from 13.2 per cent to 2.2 per cent), while capital goods have maintained more or less the same growth rate around 9 per cent, and consumer non-durables have improved their performance from 2.8 per cent to 5.9 per cent.

1.20 Mining and quarrying and electricity have performed significantly better during this year as compared to that during last year. While mining and quarrying registered a growth rate of 8.4 per cent during April—November 1989 compared with 6.8 per cent during April—November 1988, the electricity sub-sector recorded a growth of 12.1 per cent during April—November 1989 compared with 7.5 per cent during corresponding period of the last year.

1.21 The performance of key infrastructure sectors during April—December of the current financial year presents a mixed picture. While electricity generation, crude petroleum and petroleum products, coal and lignite production,

coastal shipping and telecommunications sectors recorded substantial growth; railway revenue earning traffic indicates only a modest improvement and there has been deceleration in the production of saleable steel, cement and phosphatic fertilisers. Within the power sector, there has been better performance by both hydel and thermal generation and average PLF has also improved during the year until now. In the petroleum sector, during April—December 1989 crude petroleum production increased by 6.9 per cent and petroleum products by 9.1 per cent. The import of crude oil in the first nine months of the current year increased by 8.5 per cent and that of petroleum products increased by 4.6 per cent over the imports during the corresponding period of last year.

1.22 The slow down in industrial growth in 1989-90 is due to a variety of reasons. In some industries like steel, sugar or phosphatic fertilisers, the explanation lies in specific supply side factors. In some industries, rapid expansion in recent years has proceeded beyond the growth in demand leading to unutilised capacity. In some others the rate of growth of demand may have decelerated as backlogs of unfulfilled demand came down.

1.23 Nitrogenous fertiliser production recorded marginal increase by only 0.4 per cent during April—December 1989 over the same period of 1988, while phosphatic fertiliser production recorded a substantial decline by 31.7 per cent during the period due to shortage of imported phosphoric acid. Cement production during April—December 1989 was marginally higher by 0.2 per cent over the corresponding period of last year although cement prices remained firm throughout the year after complete decontrol of prices and distribution of cement from March 1989.

Prices and Price Management

1.24 The price situation has remained under pressure from the beginning of the year despite a satisfactory monsoon and a bumper crop achieved for the second year in succession. In terms of new series of WPI*, the rate of inflation during 1988-89 was contained at 5.7 per cent compared with 10.7 per cent during the drought year 1987-88. During the current year the WPI registered an increase of 7 per cent upto February 17, 1990 compared with 5 per cent in the corresponding period of last year. The annual rate of inflation in terms of WPI works out to 7.7 per cent on February 17, 1990 compared with 5.3 per cent at the corresponding time of last year. The increase in prices was particularly marked in the June—September period and the seasonal decline in prices which normally starts in September was delayed this year.

1.25 Data on Consumer Price Index (CPI) for Industrial Workers is available upto January 1990 and the increase in CPI works out to 5.5 per cent during current financial year upto January, which is significantly lower than 7.8 per cent recorded upto January last year.

1.26 The increase in prices during current year has been largely contributed by agro-based items like pulses, tea, oilseeds, sugar, gur and khandsari, and groundnut oil where production has either remained stagnant or has declined. Among manufactured items textiles, beverages, paper and paper products, leather and leather products, tobacco products and basic metals have also shown considerable increase. The increase in prices of metals, machinery and paper products is mainly due to higher import prices and those of textiles and leather products, to some extent, reflect increasing demand.

1.27 In order to contain the inflationary pressure, the RBI tightened selective credit controls and took certain measures to mop up excess liquidity. On the supply side Government maintained supplies of foodgrains and other essential commodities through the Public Distribution System. Additional imports were undertaken, to the extent feasible as in the case of edible oils, pulses, rice and sugar in order to maintain adequate supplies. For some essential commodities, appropriate price bands were determined and suitable market intervention operations were undertaken so that ruling prices remain within price bands.

* A new series of Wholesale Price Index (WPI) with 1981-82 as base year has been released in July 1989 by replacing the old series with 1970-71 as base. The new series has a considerably larger coverage of items, their grades and markets and is also based on a larger number of quotations.

1.28 Stocks of foodgrains built up in earlier years were used during 1987-88 to meet the pressures arising from the severe drought. However, satisfactory level of procurement during 1988-89 marketing season helped to augment the level of stocks. As of end January 1990, stocks of foodgrains with public agencies stood at 12.60 million tonnes, which was higher by 36.2 per cent over their level in the same period of last year.

1.29 During the current year, administered prices of industrial items except for iron and steel and non-ferrous metals were kept unchanged. However, there have been substantial upward revisions in support/procurement prices of major agricultural commodities mainly to provide remunerative price environment and to augment production and procurement of various agricultural commodities. The Government has recently set up a Committee to examine, inter alia, the existing system and criteria for fixing agricultural prices and to suggest modifications for fixation of remunerative agricultural prices.

Fiscal and Monetary Policy

1.30 The Union Budget for 1989-90 had sought to correct the growing imbalances between revenues and expenditures. The actual outcome is however, likely to be much worse than the budget estimates in the Budget for 1989-90. Aggregate resources of the Central Government including internal and extra-budgetary resources of Central Public Enterprises were estimated to increase by 17.2 per cent over that in 1988-89. Aggregate disbursements, on the other hand, were estimated to be higher by 15.6 per cent than that in 1988-89. The Central Government Plan Outlay for 1989-90 was raised by 20 per cent as compared to the 1988-89 level. The budget deficit was programmed at Rs. 7,337 crores amounting to 1.7 per cent of GDP. However, the increase in Net RBI Credit to Central Government has been running well above this level for the greater part of the year, which is a matter of great concern.

1.31 The **Budget Deficit** as conventionally reported is only a partial measure of the fiscal imbalance that has built up over the eighties. As far as money supply growth is concerned, what matters is the **Monetised Deficit** i.e. the increase in net RBI credit to the central government. From the broader point of view of macro-economic balance it is useful to look at the **Overall Deficit** between the revenues of the government and its total expenditure. This deficit measures the government borrowing requirement which has to be met from domestic and external sources. As far as the Central Government is concerned the behaviour of these indicators over the past few years has been as follows :—

	1980-81	1985-86	1986-87	1987-88	1988-89 (RE)
1	2	3	4	5	6
As percentage of GDP at market prices					
Budget Deficit .	1.9	1.9	2.8	1.7	2.0
Monetised Deficit	2.6	2.4	2.4	2.0	1.7
Overall Deficit .	6.1	8.9	8.9	8.1	8.2

These large deficits have been met by borrowings, and the debt of the Central Government has necessarily increased and interest payments now account for a substantial part of the budget. Thus the net interest burden (i.e. interest paid less interest recovered) in the Central Budget has gone up from 3.6 per cent of the total expenditure in 1980-81 to 10.1 per cent in 1989-90 (BE).

1.32 The Economic and Functional Classification of the Budget prepared every year reclassifies expenditures into those which directly generate a demand for goods and services by the Government and those that are transfers to other spending organisations and sectors. This classification of the Central Government Budget shows that there has been steady decline in the proportion of expenditure on capital formation from over 40 per cent in mid eighties to 34.7 per cent in 1989-90. On the other hand, transfer payments from the Central Government to the States, Union Territories and other sectors of the economy have increased sharply from 31 per cent in 1980-81 to 40 per cent in 1989-90. Among transfer payments, the highest increase has been on account of interest payments which increased from 10 per cent in 1980-81 to 17.7 per cent in 1989-90. The share of consumption expenditure has fluctuated within the range of 21 to 23 per cent. Defence expenditure accounted for about 70 per cent of Government consumption expenditure.

1.33 The Long Term Fiscal Policy (LTFP) announced by the Government in December 1985 had indicated some broad targets. When the actual out turn is compared with these targets the broad picture that emerges is as follows :—

(a) Performance of Tax Revenues has been more or less on target, although indirect taxes have performed better and direct taxes remained slightly lower than the targets.

(b) Non-Tax Revenues have also performed well.

(c) Non-Plan revenue expenditures exceeded plan targets by significant margins. In particular Defence, Interest Payments and Food and Fertilizer Subsidies were substantially above the targets.

(d) Both market borrowings and budget deficit exceeded the targets by wide margins.

(e) Contribution of public enterprises fell short of projections by significant amount.

(f) The size of Centre's Plan and assistance to States and Union Territories were also well above the Seventh Plan targets.

1.34 It would follow from the above observation that the growing imbalances in the fiscal system did not stem from any let-up in Government resourse mobilisation rather it was due to the increase in Government expenditure which, in turn, was financed by larger borrowings and the budget deficit.

1.35 Fiscal imbalances have implications for liquidity growth. During the current financial year, upto 26th January, the growth in money supply (M_3) has been 14.9 per cent compared with a growth of 14.5 per cent in the corresponding period of the last year. Time Deposits with banks have registered a lower growth of 14.6 per cent in this period as against 17.6 per cent last year. However, currency with the public has grown at a faster rate of 15.6 per cent compared with 9.0 per cent during the corresponding period of 1988-89. Demand Deposits have also grown at a higher rate of 16.3 per cent compared with 9.7 per cent a year ago. There has been a large expansion in the Net RBI Credit to Central Government by 26.2 per cent compared with 18.0 per cent in the corresponding period of 1988-89. Bank credit to commercial sector has recorded a modest growth of 10.9 per cent compared with 11.6 per cent during the corresponding period of last year. Non-food credit has recorded a lower growth of 12.7 per cent compared with 13.9 per cent in the relevant period of last year.

1.36 During the year the RBI made some changes in policy, focussing essentially on refinance terms for bank credit, to restrain the growth in money supply. As of end September, 1989 aggregate monetary resources (M_3) were growing at an annual rate of 18.2 per cent. After the changes made by RBI in October 1989, the rate has moderated and as of end January the rate of growth of monetary resources was 17.7 per cent over the corresponding period last year.

1.37 Some changes were also made during the year in the interest rates on agricultural credit, export finance and term deposits of 46—90 days, the major change was in the short-term money market where the ceiling on interest rate on the inter-bank participation and call money rates was removed and a decision was announced to permit issue of Certificates of Deposit and Commercial Paper at market determined rates.

The External Sector

1.38 As has been the case during the first four years of the Seventh Plan, India's balance of payments situation has remained under considerable pressure during 1989-90 despite a buoyant trend in exports and a slow-down in the growth of imports. Exports in rupee terms increased by 14.3 per cent in 1986-87, 26.4 per cent in 1987-88 and 28.9 per cent in 1988-89. On the other hand, imports recorded an increase of 2.2 per cent in 1986-87, 11.5 per cent in 1987-88 and 25.9 per cent in 1988-89. Provisional data available so far indicate that during the first three quarters of the current year exports recorded an increase of 38.3 per cent over the corresponding period of last year. Imports have registered a relatively slow growth at 20.7 per cent in terms of rupee. Consequently, the trade deficit at Rs. 5518 crores during April—December, 1989 declined by 16.4 per cent over the same period of last year. In

dollar terms the trade deficit for the first nine months is lower by $1.3 billion compared to last year. Net invisibles, on the other hand, are unlikely to show any improvement because of uncertain trends in the net private transfers, relatively slow growth of tourist traffic and a steady increase in interest payments on past borrowings. Limited information on some items of capital account also confirms the strain on current balance of payments situation.

1.39 The crux of the balance of payments problem during the Seventh Plan lies in continuing high trade deficits and a declining role of invisibles in financing the deficits. Net invisibles as a percentage to GDP have declined from an average of 2.1 per cent during the Sixth Plan to 1.2 per cent during the first three years of the Seventh Plan, while trade deficit as a percentage to GDP declined marginally from an average of 3.4 per cent to 3.2 per cent during the same period. Consequently, the current account deficit as a percentage to GDP has increased from an average of 1.3 per cent in the Sixth Plan to 2.1 per cent during first three years of the Seventh Plan.

1.40 Deterioration in our balance of payments position during the Seventh Plan period is due to several unfavourable factors such as deceleration in the growth of domestic oil production, bunching of repayment obligations to the IMF and other sources, limited availability of concessional assistance and a rise in debt service payments on external debt. The continuing strain on our balance of payments is reflected in steep depletion of our foreign exchange reserves which stood at Rs. 5531 crores at the end of January 1990. Despite the absolute increase in aid commitments, the share of external assistance in India's total external debt has declined over the years. Furthermore, the grant element in external assistance has also declined making the availability of these resources more costly over time.

1.41 The Government has been attaching high priority to an improvement of the balance of payments situation. This is sought to be achieved through acceleration of exports growth, efficient import substitution, prudent allocation of foreign exchange to various sectors, liberalisations of trade and industrial regime and improvements in infrastructural facilities for exports. The reforms in the foreign trade sector have been aimed at providing industries with greater liberty as regards supply of raw materials and machinery, replacement of non-tariff barriers by a tariff structure and provision of various fiscal and monetary concessions for the exports sector. The trends in the value of exports and imports in recent months are encouraging. However, the export performance in terms of both quality and volume needs to be improved even further and imports of bulk items need to be reduced to offset the effect of less favourable terms of trade.

CHAPTER 2

AGRICULTURAL PRODUCTION

Indian agriculture has acquired a remarkable degree of resilience during the last decade. This is evident from the fact that it was able to withstand the adverse effects of the successive run of poor monsoons for three years culminating in the drought of 1987-88 and has recorded substantial spurt in production in response to favourable monsoon. Agricultural production has recorded a compound growth rate of 2.7 per cent per annum during the 80s. It is also significant that output change is almost entirely explained by productivity growth.

2.2 The Index of agricultural production which had declined by 3.7 per cent in 1986-87 and one per cent in 1987-88 is expected to have recorded an increase of 20.8 per cent during 1988-89. The growth in 1988-89 was widespread over crops and regions. Foodgrains production recorded an increase of over 21 per cent, the production of pulses increased by 25 per cent in 1988-89 reaching a peak level of 13.7 million tonnes. The increase in oilseeds was over 41 per cent and in cotton over 36 per cent.

Monsoon

2.3 Throughout its four-month spell, both the quantum of rainfall and distribution of precipitation in 1989 was good. Although this year, monsoon was not ideally distributed or the rainfall as copious as in the preceding year, it was good enough to ensure a high level of farm production. The South-West monsoon set over Kerala on June 3rd, 1989 advanced thereafter and the entire country was covered by July 2nd, 1989 as against the normal date of such coverage by July 15. The progress of the monsoon was satisfactory practically in most of the meteorological sub-divisions. 29 out of 35 meteorological sub-divisions (83 per cent) received excess or normal rainfall (constituting 77% of area of the country). This year no meteorological sub-division received scanty rainfall. Out of six meteorological sub-divisions with deficient rainfall, the deficiencies were marginal (close to normal) in 5 meteorological sub-divisions (constituting 18% of the area). Deficiency was significant only in East Rajasthan. Thus, in about 95 per cent of the area, the rainfall in 1989 was satisfactory. For the country as a whole, the rainfall at the end of monsoon season was 101.4 per cent of the normal rainfall. The rainfall situation can be seen from the following table:

TABLE 2.1

Monsoon Rainfall (June—September)

	1983	1984	1985	1986	1987	1988	1989
1. Number of meteorological sub-divisions :							
(a) Excess/ Normal rains .	33	26	26	21	14	32	29
(b) Deficient/ Scanty rains .	2	9	9	14	21	3	6
(c) Total	35	35	35	35	35	35	35
2. Per cent of districts having normal to excess rains	85	64	65	52	43	88	72

2.4 The All-India Cumulative Rainfall Index for the entire season, constructed by using area sown under kharif rice in each meteorological zone as weights, indicates that rainfall recorded this year was 98.67 per cent of normal. While South and East zones recorded rainfall above normal, West, North and Central zones recorded rainfall below normal. The details are as under:

TABLE 2.2

Regional Rainfall Indices

(June to September)

Year	All India	West	North	East	South	Centre
1979 .	77.0	85.2	52.1	84.4	94.8	69.0
1982 .	89.4	83.5	94.9	87.8	88.8	93.1
1986 .	85.3	78.4	88.9	83.7	89.9	86.5
1987 .	88.7	75.6	62.5	103.6	75.5	77.4
1988 .	109.6	121.2	116.5	107.6	123.9	90.3
1989 .	98.7	96.6	90.9	101.3	114.6	82.2

2.5 This year's monsoon rainfall is better than in any other year during this decade except those of 1988 and 1983 which were excess rainfall years. In fact, the 1989 monsoon is the third best of the decade. The following table indicates the performance of the monsoon:

TABLE 2.3

Performance of Monsoon

Year	Total monsoon rainfall over the country as a whole
1981 . .	100 per cent of normal
1982 . .	86 per cent of normal
1983 . .	113 per cent of normal
1984 . .	96 per cent of normal
1985 . .	93 per cent of normal
1986 . .	87 per cent of normal
1987 . .	81 per cent of normal
1988 . .	119 per cent of normal
1989 . .	101 per cent of normal

2.6 A special feature of this year's rainfall distribution is that most of the drought prone areas of the country such as Gujarat, parts of Maharashtra, Interior Karnataka, Rayalaseema and Tamil Nadu have received good rainfall. There were no severe floods except in some localised areas. The flood prone areas like Uttar Pradesh, North Bihar, West Bengal, Orissa and the states in North-East India were largely free from major floods. Thus, 72% of the districts received excess or normal rainfall.

2.7 The seasonal rainfall in different meteorological sub-divisions having excess, normal and deficient rainfall are given as under:

Rainfall	Meteorological Sub-divisions
(1) Excess	(1) Marathwada (2) Coastal Andhra Pradesh (3) Telangana (4) Rayalaseema (5) Lakshadweep (6) Arunachal Pradesh.
(2) Normal	(1) Andaman & Nicobar Islands (2) Assam and Meghalaya (3) Nagaland, Manipur, Mizoram and Tripura (4) Sub-Himalayan West Bengal and Sikkim (5) Gangetic West Bengal (6) Orissa (7) Bihar Plateau (8) Bihar Plains (9) East Uttar Pradesh (10) Hills of West Uttar Pradesh (11) Punjab (12) Jammu & Kashmir (13) East Madhya Pradesh (14) Gujarat Region, Daman, Dadra and Nagar Haveli (15) Saurashtra, Kutch and Diu (16) Konkan & Goa (17) Madhya Maharashtra (18) Vidarbha (19) Tamil Nadu and Pondicherry (20) Coastal Karnataka (21) North Interior Karnataka (22) South Interior Karnataka (23) Kerala
(3) Deficient	(1) Plains of West Uttar Pradesh (2) Haryana, Chandigarh and Delhi (3) Himachal Pradesh (4) West Rajasthan (5) East Rajasthan and (6) West Madhya Pradesh.
(4) Scanty	Nil.

2.8 The total live storage in the 47 reservoirs monitored by Central Water Commission till the end of December, 1989 was 80.84 TMC which forms 77 per cent of the full reservoir level (FRL) as against 88.03 TMC representing 83 per cent of FRL during the corresponding period last year. Thus, the total live storage available this year was 6 per cent less than the last year. The reservoirs position in all the 47 reservoirs was, however, 106 per cent in comparison with the past six years average position. There were 5 reservoirs having less than 30 per cent of live storage capacity at FRL, while there was only one reservoir (Gandhisagar in Madhya Pradesh) having less than 25 per cent of FRL. Investigations by the Ground Water Board indicate that there has been a significant rise in the sub-soil water table level. In parts of Madhya Pradesh, Maharashtra and Gujarat, substantial increase(more than 8 metres level) has been observed. Localised rise has also been reported from parts of Punjab,Haryana and West Uttar Pradesh. Considering the water levels in the reservoirs, the release of water is being carefully monitored so that the minimum irrigation could be provided at critical stages of crop growth. It is also ensured that adequate quantity of water is available for irrigating the rabi crops.

Production Performance

2.9 The average foodgrains production during the period 1985-86 to 1987-88 was 145 million tonnes. Consequent upon an excellent monsoon combined with the thrust programmes like Special Foodgrains Production Programme (SFPP) and Special Rice Production Programme (SRPP), foodgrains production recorded an appreciable—a record-increase of 21.3 per cent to 170.3 million tonnes in 1988-89 as against 140.4 million tonnes in 1987-88 and surpassed by 11.7 per cent the previous peak production of152.4 million tonnes in 1983-84. On a peak

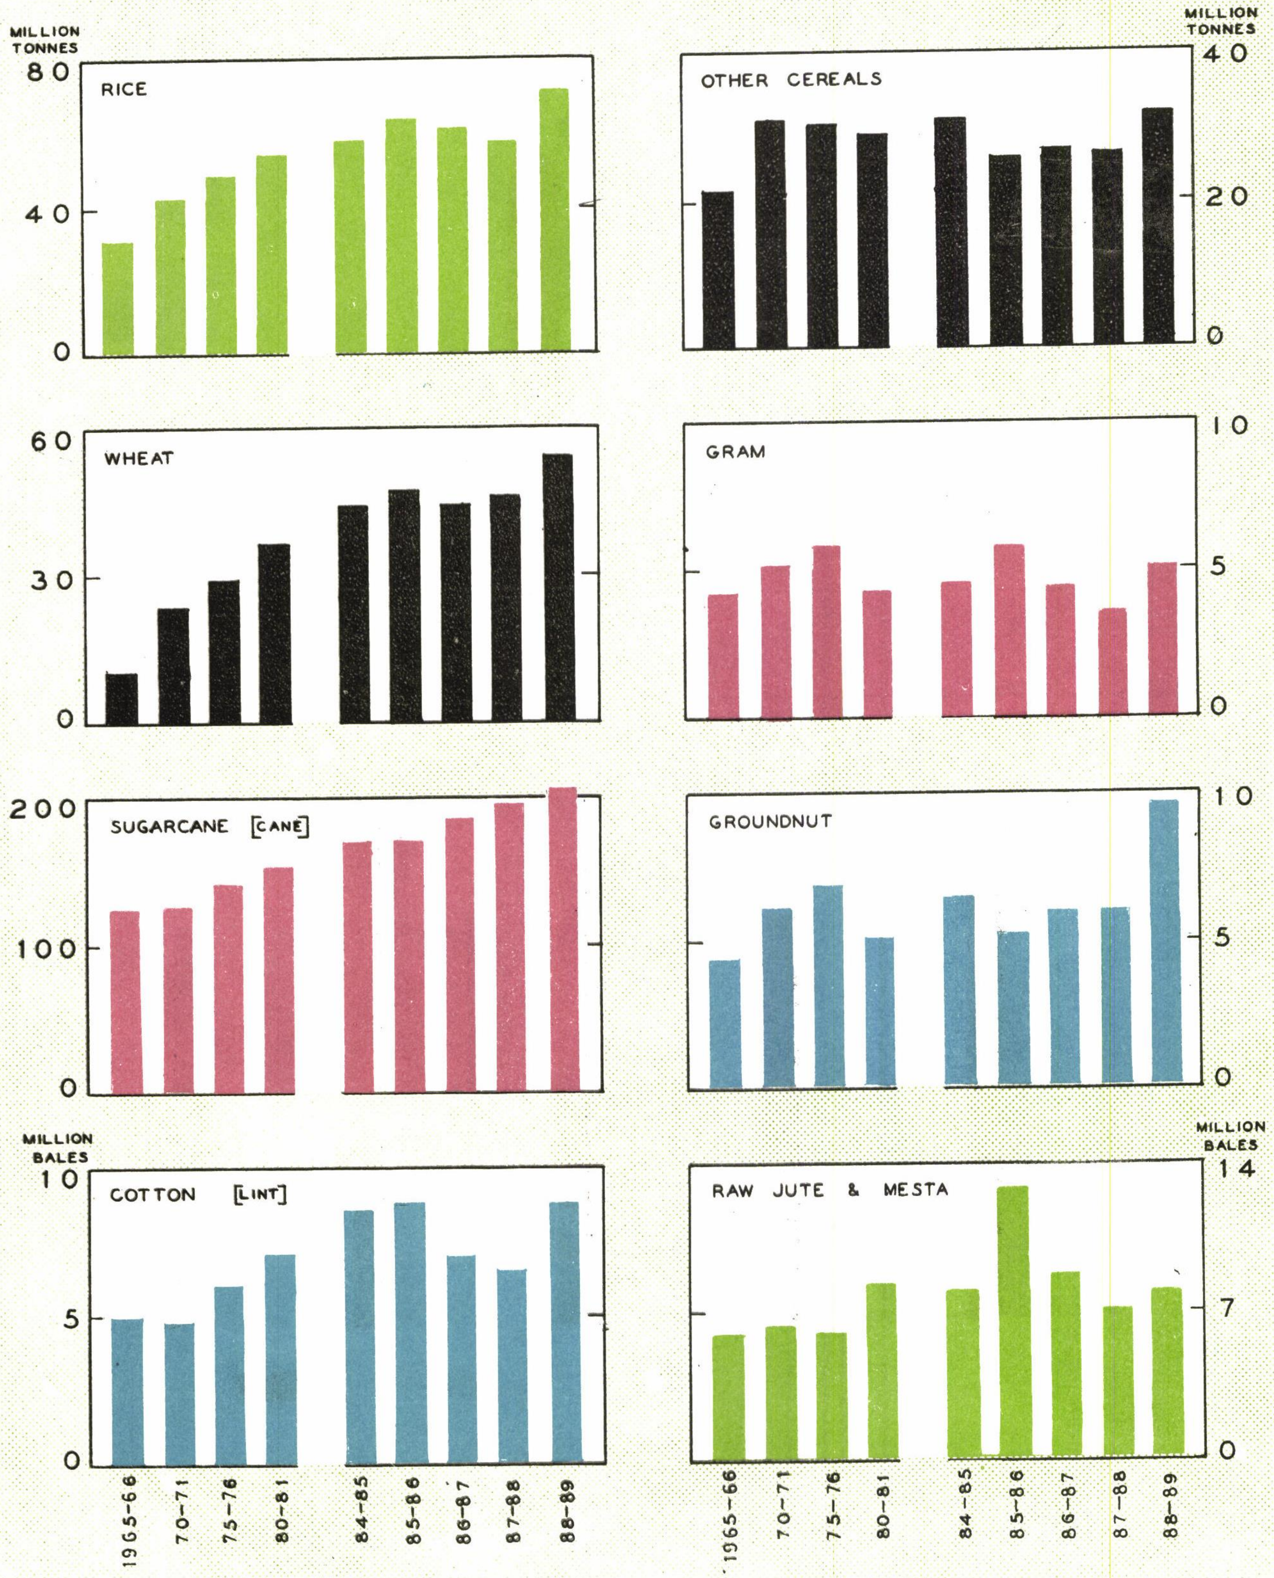
AGRICULTURAL PRODUCTION



MINISTRY OF FINANCE, ECONOMIC DIVISION.

to peak basis annual compound growth of foodgrains production works out to 2.2 per cent between 1983-84 and 1988-89.

2.10 Both kharif and rabi crops contributed to the increased output in 1988-89. The kharif foodgrains output increased by 29.3 per cent to a record level of 96.42 million tonnes as against 74.56 million tonnes in 1987-88. Rabi foodgrains output at 73.83 million tonnes was also at a record level, which was 8.04 million tonnes or 12.2 per cent higher than in the previous year. The foodgrains output trends in recent years have exhibited some significant qualitative changes. The contribution of rice to the increase in output has been much higher than the contribution of wheat. The share of rabi output in total foodgrains output has steadily increased although in 1988-89 its share went down. The share of rabi output has improved in the case of rice and pulses. (Table 2.4).

Figures in brackets are per cent increase or decrease over the year

2.11 The performance of foodgrains production was constrained by unfavourable weather conditions in the first two year and the severe drought which occured in 1987-88. As a result, the targets of foodgrains production could not be achieved in the first three years of the Seventh Plan. However, there was a recovery in foodgrains production as also of other crops and output reached to their respective peak levels. (Table 2.5)

2.12 As far as the state-wise performance is concerned, the drought in the third year i.e. 1987-88 badly affected the area and production of foodgrains in majority of the states. The year 1988-89 brought about sharp recovery in almost

all the states. The average growth in foodgrains production in different states during the first four years works out to be as high as 8.52 per cent in Haryana followed by 7.82 per cent in Andhra Pradesh, 7.69 per cent in Rajasthan, 6.45 per cent in Bihar, 5.60 per cent in West Bengal, 5.12 per cent in Orissa, 4.58 per cent in Madhya Pradesh, 4.52 per cent in Uttar Pradesh and 3.1 per cent in Maharashtra. There was, however, a negative growth in the states of Kerala, Karnataka and Assam.

2.13 Agricultural production may register a significant increase in 1989-90 and foodgrains production in 1989-90 is likely to cross the record production of 170 million tonnes achieved in 1988-89.

Rice

2.14 Rice, which is the most important cereal crop in India, is grown over an area of 40-41 million hectares in the country. With only about 42 per cent of rice under irrigated conditions, a large area is rainfed and enormous fluctuations in foodgrains production in the country are primarily due to variability in the production of rice. The production of rice which had declined in 1986-87 and 1987-88 due to drought conditions to 60.6 million tonnes and 56.9 million tonnes respectively increased substantially to 70.7 million tonnes in 1988-89. The increase in production in 1988-89 was due to both increase in acreage (7.9 per cent) and yield per hectare (15.2 per cent). The increase of 14 million tonnes (24.3 per cent) in 1988-89 over 1987-88 was largely contributed by major rice producing states of Andhra Pradesh (3.5 million tonnes), Bihar (1.4 million tonnes), Orissa (1.8 million tonnes), Uttar Pradesh (3.2 million tonnes) and West Bengal (1.3 million tonnes). Incidentally, these States registered substantial increase in yield per hectare. The increase in rice production would have been still higher but for decline in production registered in the states of Punjab, Tamil Nadu and Assam. In Punjab output declined wholly due to fall in yield per hectare—it declined from 3164 kgs. in 1987-88 to 2772 kgs. in 1988-89. In Assam and Tamil Nadu, the fall in production was both due to decline in acreage and yield per hectare. The increase in rice production can largely be attributed to the effective implementation of the Special Foodgrains Production Programme for rice which covered 108 districts in 13 states and the Special Rice Production Programme in Eastern States.

2.15 About 67 per cent of the total area under rice is located in eastern region—this includes Assam, Orissa, Bihar, Eastern Madhya Pradesh, Eastern Uttar Pradesh and West Bengal—where productivity is lower than the national average. As against this, the share of production is about 55 per cent. In order to exploit full potential of rice production in these areas, Special Rice Production Programme (SRPP) was introduced from the first year of the Seventh Plan for these eastern states in 430 blocks. The scheme was extended to Tripura from 1988-89 in 9 blocks. Thus, the scheme covers 439 blocks. The emphasis in the SRPP has been on the spread of rice production technology through farmers training system, development of infrastructual facilities like irrigation improvement, drainage provision, land development, establishment of input sales centres, construction of godowns for input storage and location specific seed multiplication and distribution. Besides, inputs like seeds, fertilisers, improved farm implements, plant protection equipments and pesticides are made available to resource poor farmers at subsidised rate. As a result, the production in these areas has been slowly improving and has shown stability even during the adverse weather conditions.

2.16 In 1988-89, increase in acreage, production and per hectare yield over 1987-88 in eastern states was substantial. While area increased by 10 per cent to 28.9 million hectares, the production advanced by about 28 per cent to 38.9 million tonnes thereby increasing the yield per hectare from 1479 kgs. in 1987-88 to 1703 kgs. in 1988-89 in these states.

2.17 Rice production in 1989-90 has been targeted at 72.5 million tonnes (Kharif Rice 64.5 million tonnes and Rabi Rice 8 million tonnes). With the monsoon in time and its coverage normal, the overall kharif crop condition in the major rice growing States was reported to be statisfactory. Owing to satisfactory monsoon in rabi rice areas, it is expected enough water will be available in canal commands as well as in tank irrigated areas for rabi cultivation. Efforts have been made to maximise the per unit area production with better management of irrigation water, other inputs and adoption of improved rice production technology. Despite a normal monsoon and other measures undertaken, the increase in rice production is expected to be only marginal, may be lower than the targetted level. On the whole, the anticipated rice production is placed in the range of 70.5 to 71.2 million tonnes as against the target of 72.5 million tonnes. The shortfall in rice production in 1989-90 in relation to the target is reported mainly in states of Andhra Pradesh, Bihar, Maharashtra, Uttar Pradesh and West Bengal where monsoon behaviour was somewhat erratic. In Andhra Pradesh floods affected the crop while in Bihar and Maharashtra inadequate rains affected the plantings. The delayed rain in Uttar Pradesh and West Bengal resulted shrinkage in acreage. The shortfall in rice production in these states has, however, been offset by the increased production reported by other major rice producing states like Punjab, Orissa, Tamil Nadu, Madhya Pradesh, Karnataka and Assam.

Wheat

2.18 The success of foodgrains production over the past is mainly attributed to the performance of wheat in the country. The overall contribution of wheat to total foodgrains has increased from 13 per cent in 1950-51 to about 32 per cent in 1988-89. During the same period the share of rice remained stable at 41-42 per cent but that of coarsegrains declined sharply from 29 per cent to about 19 per cent. Wheat occupying 53 per cent of the total area under rabi food crops and contributing 73 per cent of the rabi foodgrains production is the most important rabi crop in the country. The averagearea under this crop in the country during the last five years has been around 23 million hectares. Of this, 18 million hectares are irrigated. During 1988-89, the area increased in almost all major wheat growing states, yet the total wheat area was below the earlier peak of 24.7 million hectares reached in 1983-84. On account of the favourable weather conditions and higher input use the yield of wheat in 1988-89 at 2241 kgs. per hectare, however, crossed the peak level of 2046 kgs. achieved in 1985-86.

2.19 Consequent upon the increase in acreage from 23.1 million hectares in 1987-88 to 24.1 million hectares in 1988-89 as also increase in productivity, production of wheat increased by 16.9 per cent from 46.2 million tonnes in 1987-88

to a record level of 54 million tonnes in 1988-89. The increase of 7.8 million tonnes was largely shared by Uttar Pradesh (2.9 million tonnes), Rajasthan (1.1 million tonnes), Gujarat (1.2 million tonnes) and Haryana (1.3 million tonnes). In Punjab the increase in production was about 5 lakh tonnes. In fact, most of the major wheat producing states in 1988-89 have crossed the peak levels achieved earlier. The substantial increase in wheat production in 1988-89 came in the wake of effective implementation of Special Foodgrains Production Programme for wheat in 71 districts of seven States of Uttar Pradesh, Bihar, Madhya Pradesh, Rajasthan, Gujarat, Haryana and Punjab.

2.20 Uttar Pradesh has shown good potential for growth in wheat production. For the year 1988-89 production of wheat in Uttar Pradesh is placed at 19.7 million tonnes which is higher by 2.9 million tonnes over the earlier peak of 16.8 million tonnes in 1985-86. Despite this, the peak productivity of 2250 kgs. per hectare recorded in 1988-89 is lower than the productivity of 3668 kgs. per hectare in Punjab. Bihar is another state where wheat production and productivity have increased substantially, although yield per hectare is presently only about 50 per cent of the yield in Punjab. This indicates that there is a great potential for increasing production of wheat particularly in states covered under SFPP for wheat if adequate and proper inputs are available.

2.21 Keeping in view the success of SFPP for wheat achieved in 1988-89, the target which was earlier fixed at 54 million tonnes for 1989-90 has been proposed to be raised further to a revised working target of 56 million tonnes. Since the soil and moisture conditions are favourable, the likely area under the crop in 1989-90 could be about 24 million hectares i.e. the same as was in 1988-89. However, the production of wheat in 1989-90 is expected to be in the range of 52.5 to 53.8 million tonnes. The main thrust of the strategy for increasing wheat production has been through improvement in productivity by cultivation of identified high-yielding varieties with recommended package of practices. These, inter alia, include increasing the area wherever possible; provision of high quality seeds of new high-yielding varieties at reasonable rates; use of optimum and balanced doses of fertiliser; efficient water management to provide irrigation at critical stages of crop growth; weed control at proper time; and to ensure adequate supply of power and diesel to run tubewells and pump sets at the time of sowing and irrigation at appropriate timings. Along with these the SFPP for wheat which has been launched from 1988-89 in 71 identified districts is proposed to be intensified and the allocation has been increased from Rs. 13.36 crores during 1988-89 to Rs. 15 crores during 1989-90.

Coarsegrains

2.22 Coarsegrains have a strong influence on the food economy of the country. These are grown mostly in dry areas by small and marginal farmers which are subject to erratic and inadequate rainfall. Only about 7-8 per cent of area under coarse cereals is irrigated. The crops covered under coarsegrains are jowar, bajra maize, ragi, small millets and barley. These are grown in an area of 39 million hectares as against the total area of 128 million hectares under foodgrains in 1988-89. Against the total production of about 170 million tonnes of foodgrains in 1988-89, coarsegrains production amounted to about 32 million tonnes (about 19 per cent). Because of stagnation in production, its share in the total production of foodgrains has declined over years. In the first four years of the Seventh Plan production is lower than the corresponding period of Sixth Plan. Among the main constraints responsible for low production and productivity are: low coverage of area under high yielding varieties because of non-availability of certified seeds in sufficient quantities and reluctance of the farmers to invest on inputs for crops sensitive to climatic conditions. The increase in the output of coarse cereals was largely on account of increase in production of maize and bajra. Jowar production declined from 12.2 million tonnes in 1987-88 to 10.5 million tonnes in 1988-89.

2.23 Jowar which is the most important coarse cereal crop is largely grown in Maharashtra followed by Madhya Pradesh and Karnataka. The majority of area under coarse

cereals is under unirrigated conditions. Ninety-five percent of area under jowar is unirrigated.

2.24 Considering the need for increasing the production of coarse cereals, it has been targetted to produce 33.75 million tonnes in 1989-90. To achieve this target, it is proposed to include development programmes relating to the focus crop of jowar in Uttar Pradesh, Madhya Pradesh, Maharashtra, Andhra Pradesh, Tamil Nadu and Karnataka, bajra in Rajasthan, Gujarat and Haryana and ragi in Karnataka, Andhra Pradesh, Tamil Nadu and Maharashtra during 1989-90. Under the scheme, emphasis is laid on the increased and efficient use of inputs and better management of pests and diseases.

2.25 With the implementation of the Special Foodgrains Production Programme for maize in 28 selected districts of Bihar, Gujarat, Madhya Pradesh, Rajasthan and Uttar Pradesh, maize production increased substantially, by about 46 per cent to 8.3 million tonnes in 1988-89 as against 5.7 million tonnes in 1987-88. One of the components of SFPP for maize is seed distribution at subsidised rates. Apart from the funds provided for the programme component, States were also advised to properly integrate their efforts with other central sector programmes so as to utilise the available funds for the production oriented programmes. With the continuance of the special programme and the reported satisfactory crop condition, the production of maize is expected to be of the order of about 9 million tonnes in 1989-90.

2.26 The overall strategy to increase coarse-grains production both during kharif and rabi seasons, inter alia, included (i) expansion of area under high-yielding varieties, (ii) conservation of soil moisture and its efficient utilisation with the adoption of dry farming techniques through integrated watershed development, (iii) adoption of area approach in potential districts for increasing the production, (iv) preparation of contingent plans for aberrant weather with full support of seed and credit, (v) timely and adequate supply of inputs, and (vi) evolving suitable package of practice keeping in view local conditions through extension system. During rabi 1989-90, efforts are being made to maximise rabi jowar production through stepping up the productivity per unit of area. With various measures undertaken the production of coarse cereals in 1989-90 is anticipated to be in the range of 33.0 to 33.5 million tonnes i.e. nearer to its target of 33.75 million tonnes.

Pulses

2.27 Pulses provide the most valuable food ingredient of protein in diet and are 2-3 times richer in protein than most of cereals. Pulses are grown over an area of 23 million hectares with a production ranging 13-14 million tonnes (accounting for 18 per cent of total area and 8 per cent of total foodgrains production and the yield per hectare ranging 500-600 kgs.) These are grown mainly under rainfed conditions—the irrigated area accounts for only about 8 per cent of the total area. The major pulses producing states are Madhya Pradesh, Maharashtra, Orissa, Rajasthan and Uttar Pradesh, which account for about 68 per cent of the total production in the country.

2.28 The production of pulses which had declined in the drought years of 1986-87 and 1987-88, increased substantially to a record of 13.7 million tonnes in 1988-89 exceeding the peak level of 13.4 million tonnes in 1985-86. The annual average increase during the first four years of the plan thus works out to about 6 per cent. The increase of 2.7 million tonnes of pulses in 1988-89 over 1987-88 was contributed by 1.2 million tonnes of kharif pulses (mainly arhar) which incrased from 4.4 million tonnes to 5.6 million tonnes and by about 1.5 million tonnes of rabi pulses (mainly gram) which increased from 6.6 million tonnes to 8.1 million tonnes. Production of arhar increased from 2.3 million tonnes in 1987-88 to 2.7 million tonnes, mainly in the states of Madhya Pradesh and Gujarat. Gram production increased from 3.6 million tonnes to 5.1 million tonnes during the same period. The increase was more perceptible in Rajasthan, Haryana, Maharashtra and Uttar Pradesh. The increase in gram production in 1988-89 can partly be attributed to increase in area which increased from 5.77 million hectares in 1987-88 to 6.89 million hectares in 1988-89 and partly to increase in yield per hectare which increased from 629 kgs. to 735 kgs during the period. The

increase in productivity came in the wake of special foodgrains production programme implemented in 28 selected districts of gram producing states.

2.29 Despite efforts made to increase the production of pulses, it has not brought about any perceptible change in per capita availability. In fact, pulses production has shown a declining trend during the last two decades. As a result per capita availability has declined over the years from 69 gms per day in 1961 to around 40 gms per day in 1989. With increased emphasis on balanced nutrition, the declining per capita availability has indeed been a cause of concern. The increase in production has not kept pace with the increase in population. To increase the availability of pulses, the import of pulses has been allowed under Open General Licence. The imports have gradually grown from 2.28 lakh tonnes in 1983-84 to 8.26 lakh tonnes in 1988-89.

2.30 In order to encourage higher production and to arrest the declining trend in the per capita availability, its production in 1989-90 has been targetted at 14.75 million tonnes. The strategy for increasing production of kharif pulses include coverage of area under early arhar varieties, utilisation of kharif fallows, inter-cropping and increased use of inputs. In the case of rabi pulses, emphasis is laid on increasing the production of gram. Acreage under summer moong and urad is proposed to be expanded. The strategy for increasing the production of pulses during the rabi season includes (i) fitting of rabi pulses like gram, peas and lentil into irrigated farming system especially in the major producing states; (ii) popularising inter-cropping of gram with mustard, safflower and rabi jowar; and (iii) covering maximum area under moong/urad in the rice fallows with residual moisture. To supplement the efforts of the State Governments, the Centrally Sponsored National Pulses Development Project continues to be in operation in major pulses growing states during 1989-90. The project is considered a district oriented mission and is expected to achieve incresed level of production within a time frame. The basic objective of this programme is to increase the production by adopting location specific technology for pulses like gram, arhar, peas, lientil, moong and urad.

Oilseeds

2.31 The production of oilseeds which had declined in the first three years of the Seventh Plan from the peak level of 12.95 million tonnes in 1984-85, increased to record level of 17.89 million tonnes in 1988-89. This commendable performance is ascribed to success in research and cultivation of high yielding varieties over a fairly large area. Agricultural scientists are reported to have evolved 40 new high breed varieties which have substantially higher yield potential. With the increase of 41.4 per cent (60.4 per cent in kharif oilseeds and 21.5 per cent in rabi oilseeds) in 1988-89, the annual average increase in production in the first four years works out to as much as 10.3 per cent. This has enabled the country to substantially reduce its dependence on imports which had been growing over the years due to slow growth in output in the face of faster growth of demand.

2.32 Oilseeds are grown in an area of about 20 million hectares. The cultivation is mostly limited to rainfed areas (84 per cent). The bulk of the vegetable oil production is derived from nine cultivated oilseeds, namely, groundnut, rapeseed/mustard, sesamum, safflower, nigerseed, soyabean, sunflower—forming the edible group—and linseed and castorseed forming the inedible group. Groundnut and rapeseed/mustard are the most important crops which together account for about 78 per cent of the total oilseeds production in 1988-89. Soyabean and sunflower, though introduced relatively recently, have also augmented the domestic availability of edible oils. Among the kharif oilseeds producing states, Gujarat is the largest producing state while Uttar Pradesh is the largest producer of rabi oilseeds.

2.33 With the help of support measures undertaken by Government, oilseeds production has gone up in recent years significantly. While kharif oilseeds increased from 64.2 lakh tonnes in 1987-88 to 103.0 lakh tonnes in 1988-89, rabi oilseeds output advanced from 62.4 lakh tonnes to 75.8 lakh tonnes during the same period. The increase of 38.8 lakh tonnes in kharif oilseeds came through the increase mainly in groundnut production from 58.5 lakh tonnes to 95.44

lakh tonnes. Soyabean, sesamum and castor-seed also recorded increases in varying proportions, while output of sunflower and safflower registered a decline. The increase in rabi oilseeds was mainly contributed by rapeseed/mustard which increased from 34.5 lakh tonnes to about 44.1 lakh tonnes in 1988-89. The groundnut crop which was badly affected by drought conditions in Gujarat in 1987-88 turned out to be the best in 1988-89—groundnut production in 1988-89 at 29 lakh tonnes surpassed the previous peak of about 22 lakh tonnes achieved in 1981-82. The increase was in the main due to significant increase in yield per hectare which reached an all time high of 1577 kgs. per hectare —the previous peak level of 996 kgs. recorded in 1981-82. Rabi oilseeds in recent years have made an even more significant contribution to the total oilseeds pool and helping the country tide over shortfalls from kharif oilseeds. Production of rapeseed/mustard increased from 34.5 lakh tonnes in 1987-88 to a record level of 44.1 lakh tonnes in 1988-89. The increase of 27.8 per cent in the production of rapeseed/mustard came both from increase in acreage as well as increase in per hectare yield—the per hectare yield at 907 kgs. was the highest achieved so far. Although this crop benefits maximum from irrigation (accounting for 50 per cent of area under irrigation) among the rabi oilseeds, its productivity has been fluctuating.

2.34 Among other oilseeds, production of soyabean, which is mainly grown in Madhya Pradesh, also registered a substantial increase from 9 lakh tonnes in 1987-88 to 15 lakh tonnes in 1988-89. The production of different oilseeds during 1988-89 may be seen from the following table :

TABLE 2.6

Production of Oilseeds

(Lakh tonnes)

Oilseeds	1985–86	1986–87	1987–88	1988–89*
Groundnut:				
Kharif	37.6	44.3	41.8	73.1
Rabi	13.6	14.5	16.7	22.4
TOTAL	51.2	58.8	58.5	95.5
Castorseed	3.1	2.3	2.0	4.2
Sesamum	5.0	4.5	5.8	6.7
Rapeseed & Mustard	26.8	26.0	34.5	44.1
Linseed	3.8	3.2	3.9	3.5
Nigerseed	1.9	1.3	1.8	1.7
Safflower	3.5	3.5	4.6	4.3
Sunflower				
Kharif	1.7	2.5	3.8	2.4
Rabi	1.1	1.7	2.6	1.6
TOTAL	2.8	4.2	6.4	4.0
Soyabean	10.2	8.9	9.0	15.0
TOTAL				
Kharif	59.5	63.8	64.2	103.1
Rabi	48.8	48.9	62.3	75.8
TOTAL	108.3	112.7	126.5	178.9

*Provisional

2.35 Despite steady progress in oilseeds production, country is far behind in achieving self-sufficiency. The supply of edible oils still falls short of demand. As a result, edible oil continued to be imported in 1988-89. The imports during the oil year 1988-89 (November-October) at about 3.7 lakh tonnes were quite modest compared to 18.2 lakh tonnes imported in 1987-88.

2.36 Considering the need to augment the supply of edible oils and thereby reduce the import dependence, a production target of 165 lakh tonnes of oilseeds has been fixed for 1989-90 —89 lakh tonnes of kharif oilseeds and 76 lakh tonnes of rabi oilseeds. The basic approach to achieve the kharif production target adopted include extension of area in general and under groundnut, soyabean and sunflower in particular and increase in productivity. This is sought to be achieved through (a) diversion of certain areas unsuitable for rice to groundnut in Madhya Pradesh and Orissa, (b) introduction of soyabean in Orissa, Uttar Pradesh, Bihar and Maharashtra and Gujarat, (c) inter-cropping of sunflower with groundnut in Gujarat and (d) extension of soyabean cultivation in kharif fallows in Madhya Pradesh. Similar strategy has been adopted in th case of rabi oilseeds which, among other measures includes (a) diversion of low yielding wheat area to rapeseed/mustard in northern region, (b) inter-cropping of mustard with sugarcane, (c) extension of groundnut cultivation during rabi season in command areas and paddy fallows with limited irrigation water availability and (d) extension of rabi sunflower cultivation in Andhra Pradesh, Karnataka, Maharashtra and Tamilnadu. In addition, the existing development programmes continued to operate. The centrally sponsored oilseeds development schemes like National Oilseeds Development Project (NODP) and oilseeds Production Thrust Project (OPTP) were continued. NODP provides financial assistance to the states on 50 : 50 basis for prepositioning of stocking of seed, opening of additional retail outlets in interior areas, seed village scheme, distribution of input kits, supply of plant protection chemicals and equipments etc. Besides, 100 per cent central assistance under the project is given to the states for production of foundation seeds and to ICAR for production of breeder's seeds. This scheme envisaged to cover 175 lakh hectares under all nine oilseeds.

2.37 In addition to the aforesaid, the efforts of the Technology Mission on Oilseeds, established in May 1986, have been directed towards harnessing the best of production, processing and management technologies for accelerating self-reliance. The Mission has adopted a four pronged strategy which includes (a) improvement of oilseed crop technology for stepping up yield and profit to the farmer, (b) improved processing and post-harvest technology which can increase the oil yield from traditional and non-conventional sources of oil, (c) strengthening of services to the farmers, particularly to supply technology, seeds, fertilisers, pesticides, irrigation, credit etc. and (d) improving institutions or post-harvest services including price support to farmers and financial and other support to processing industry.

2.38 Government announced an integrated oilseeds policy on 5th January, 1989 which, inter alia, highlights its commitment to support farmers with technology, inputs and attractive prices and safeguard the interest of the consumers with reasonable prices within a price band. As a sequal to this policy, the Government appointed National Dairy Development Board (NDDB) as the Market Intervention Agency for procurement of oilseeds and oil for building a buffer stock so as to ensure incentive price to the farmers and release the same during the lean season at moderate prices to the consumers.

2.39 With the adoption of various developmental measures and the favourable weather conditions, the production of oilseeds in 1989-90 is expected to be about 16.9 million tonnes.

Cotton

2.40 Production of cotton which had declined to 63.8 lakh bales in 1987-88 increased to nearly 86.9 lakh bales in 1988-89, registering an increase of over 36 per cent. This is close to the peak of 87.3 lakh bales reached in 1985-86. At this level it is still below the target of 97.8 lakh bales. The annual average increase in the first four years of the Seventh Plan works out to only 2.57 per cent: the small increase was due to severe set-back in the output during 1986-87

and 1987-88 owing to drought conditions as cotton is basically a rainfed crop in major traditional cotton growing areas. Of all the states, Punjab has made substantial progress. Cotton production in Punjab has increased by about 71 per cent since 1984-85. Both expansion in acreage and productivity have contributed towards increase in cotton production in Punjab. Production in other states has been fluctuating. Punjab, having better irrigation facilities, could achieve continuous increase in productivity from 185 kgs. per hectare in 1983-84 to 475 kgs. per hectare in 1988-89. In fact, the yield in northern region is much higher than the yield recorded in southern and central region.

2.41 The country produces a wide range of a varieties of cotton which include short staple, medium staple, super-medium staple, superior medium staple, long staple and superior long staple. The north-western belt comprising Punjab, Haryana and Rajasthan specialises mainly in short and medium staple varieties, while southern and western parts of the country produce basically long and superior long staple varieties. Considering the need to increase the output of better quality cotton, emphasis was laid on increasing the production of medium and long staple cotton. As a result, the varietal composition of cotton has undergone a significant change. The long and superior-long staple cotton now account for over 50 per cent of the total production as against 26 per cent in 1970-71. Consequently, the country became surplus in so far as long staple cotton is concerned and the dependence on import virtually disappeared. In fact, such a situation prompted the Government to announce a long-term export policy in October 1986 whereby exports were permitted. Now the country has emerged as one of the exporting countries.

2.42 Despite significant increase in cotton production, the country is still in short supply of medium and long staple cotton. In order to increase the production of these varieties, a Centrally Sponsored Intensive Cotton Development Programme, which was started in 1971-72, was revised during the Seventh Plan and emphasis was laid only on increasing the production of long and medium staple cotton. Keeping in view the incidence of pests, the scheme which was continued in all major cotton growing states of Andhra Pradesh, Gujarat, Haryana, Karnataka, Madhya Pradesh, Maharashtra, Punjab, Rajasthan and Tamil Nadu, was slightly modified for incorporating the provision for plant protection measures during 1989-90. The target of production for 1989-90 was fixed at 100 lakh bales. This is sought to be achieved through (a) increasing the production of medium and long staple cotton by 6 lakh bales through the distribution of certified seeds and extending the package of improved practices over larger areas (b) increasing productivity and improving quality of cotton yield.

2.43 The production in 1989-90 is anticipated to reach a record level of about 95 lakh bales since cotton growing areas have reported ideal weather and crop conditions. The production may, however, fall below the targeted level of 100 lakh bales.

Jute

2.44 Thanks to the substantial increase in productivity, the production of jute and mesta, increased by 13.6 per cent from 67.78 lakh bales in 1987-88 to 77.03 lakh bales in 1988-89. On the whole, the average increase in the first four years of the Seventh Plan works out to 5.86 per cent.

2.45 The production of raw jute which had declined to as low level as 57.93 lakh bales in 1987-88, increased by 14.4 per cent to 66.25 lakh bales in 1988-89. The increase came wholly through increase in productivity. Except for Assam, other major jute producing states viz. West Bengal, Orissa and Bihar recorded increase in production. While production in West Bengal increased by 24.5 per cent from 36.38 lakh bales in 1987-88 to 45.31 lakh bales in 1988-89 wholly on account of substantial increase in productivity, in Bihar the increase was of the order of 16.3 per cent where output advanced from 8.82 lakh bales in 1987-88 to 10.26 lakh bales in 1988-89. In Assam, the jute crop was smaller by about 24 per cent in 1988-89 mainly due to floods which damaged the standing crop and affected the productivity which declined significantly from 1622 kgs. per hectare in 1987-88 to 1265 kgs. per hectare in 1988-89. Despite the developmental measures

and the passing of Jute Packaging Materials (Compulsory Usage) Act, 1987 which became effective from 1st June 1987 (could not be effectively implemented till July 1988 due to stay orders by courts) could not induce the farmers to increase the production of raw jute to the targeted level of 92 lakh bales. Now, perhaps, this Order and the consequential increase in demand for jute goods in view of the record production of foodgrains may give a boost to jute output in 1989-90.

2.46 The production of mesta, despite fall in acreage, increased from 9.9 lakh bales in 1987-88 to 10.8 lakh bales in 1988-89. In this case also the increase came through substantial increase in productivity which increased from 680 kgs. per hectare to 849 kgs. per hectare. About 44 per cent of the crop was produced in Andhra Pradesh followed by Orissa 17 per cent and Bihar 14 per cent. Maharashtra, Tripura, Karnataka and West Bengal also produced some quantity of mesta. Except for Andhra Pradesh, all other major mesta producing states recorded decline in output largely on account of fall in area.

2.47 Consequent to the likely increased demand for jute goods in 1989-90, a production target of 95 lakh tonnes of jute and mesta was envisaged. In order to step up the production through increase in productivity and improve the quality of fibre, a Centrally Sponsored Special Jute Development Programme, which replaced the earlier Intensive Jute Development Programme, has been launched for three years beginning from 1987-88 on 100 per cent central share. Under the programme, the major emphasis is laid on the timely supply of certified seeds, implements and plants and plant protection equipments, demonstration of package of practices, farmers' training programme on crop production technology, construction of retting tanks and training on jute grading etc.

2.48 Based on the climatic conditions i.e. dry spell and moisture stress as they existed at the time of sowings the production of jute and mesta in 1989-90 is expected to be around 78.5 lakh bales i.e. slightly higher than last year's level but it may not achieve the targeted level of 95 lakh bales.

Sugarcane

2.49 Both acreage and production of sugarcane increased to record levels in 1988-89. While area under sugarcane increased by 2.74 per cent from 3.28 million hectares in 1987-88 to 3.37 million hectares in 1988-89, the production increased by 4 per cent from 196.7 million tonnes to 204.6 million tonnes in 1988-89. The earlier highest level of acreage was 3.36 million hectares and production 189.5 million tonnes in 1982-83. Over 1984-85, the annual average increase in production during the first four years of the Seventh Plan works out to 4.74 per cent. While other important cane growing states recorded increase in production, Uttar Pradesh and Punjab recorded a substantial fall. Despite, larger plantings, the production fell short considerably which disturbed the sugar scenario in 1988-89 when its output was much smaller than the expectation. Sugarcane is an irrigated crop. However, being a long duration crop, its growth and productivity is also influenced by behaviour of the weather. Monsoon being above average during 1988-89 the crop achieved good growth yet the yield per hectare turned out to be lower on account of abnormal temperature stress at the time of germination in some states. Further, the crop in some states was adversely affected due to failure of north-east monsoon and inadequate availability of irrigation water. In addition, during 1988-89 season early flowering took place in some states. In totality, however, the yield per hectare in 1988-89 worked out to be marginally higher than 1987-88. This was mainly on account of higher productivity recorded in Andhra Pradesh, Bihar, Gujarat, Haryana, Punjab and Tamil Nadu. The increase in yields in these states was offset by sharp declines in yields recorded in Uttar Pradesh, Maharashtra and Karnataka.

2.50 Even though the weather played truant, sugarcane production in 1988-89, except in Uttar Pradesh, Punjab and Rajasthan, was higher in almost all the major cane producing states. The maximum increase was contributed by Tamil Nadu followed by Andhra Pradesh, Gujarat, Haryana, Karnataka and Maharashtra. While increase in production in Karnataka and Maharashtra came wholly through increase in acreage, in other states the increase came through both

increase in acreage and productivity. The decline in production in Uttar Pradesh was due to both decline in area and yield per hectare while the shortfall in Punjab was wholly due to decline in area.

2.51 Over 1984-85 the annual average increase in cane production during the first four years of the Seventh Plan works out to 4.74 per cent. In fact, production rose continuously during this period. The rising trend in cane production is the outcome of various policy measures undertaken by the Government and the developmental efforts initiated by the sugar industry in general and the concerted efforts made by the cane growers in particular. To make the cane cultivation more profitable, the Statutory Minimum Prices (SMP) for sugarcane are being revised upwards at regular intervals. These prices were increased twice for the 1989-90 sugar season (October-September) from Rs. 19.50 to Rs. 20 per quintal in October, 1988 and further to Rs. 22 per quintal in October 1989. Sugar industry pays a much higher price than SMP fixed by the Central Government, which is called state advised price and which serves a greater inducement for higher production. Sugar factories of their own also undertake developmental measures in their respective areas for which loans at cheaper rate of interest are being provided from Sugar Development Fund. While the price paid by Government to the mills for levy sugar .is determined, on the basis of SMP for sugarcane, the viability of the mills, who have to pay a higher "state advised price" is maintained by making adjustment in levy: free sale quota, as necessary, from time to time. With appreciable increases made by State Government in state advised prices, which have facilitated increased production of sugar, the propoition of free-sale quota has been increased significantly to 55 per cent in 1988-89.

2.52 With a view to increase the production of sweetening agents in general and sugar in particular so as to meet the increased level of consumption, greater emphasis has been laid on increasing the cane production in the country mainly through (a) production of quality seed cane, (b) increasing irrigation facilities, judicious and timely use of fertiliser application, (c) better management of ratoons, (d) greater and effective participation of sugar factories in cane development programmes, (e) transfer of technology through various extension systems and (f) larger coverage under plant protection measures.

2.53 The production of sugar in 1988-89 fell to 87.52 lakh tonnes as against 91.10 lakh tonnes recorded in 1987-88. The fall was more prominent in Uttar Pradesh. Considering the need to step-up the sugar output in 1989-90, the Government allowed, as an incentive, higher free-sale quota (80 per cent against normal 55 per cent) of sugar produced during 1st October 1989 to 15th November, 1989 in excess of the average production of the previous three seasons during the same period. The statutory minimum price of sugarcane was also raised to Rs. 22 per quintal. Sugar production upto end-January has been 9.8 per cent higher than the corresponding level last year.

Plantation Crops

2.54 Plantation crops like tea, coffee and rubber play an important role in the economy of the country. Besides providing gainful direct and indirect employment to millions of workers, it supports ancillary industries, foreign exchange earnings and contribution to State and Central exchequer. In order to boost the production of plantation crops, Government has been undertaking development measures so that not only the domestic demand is met but leaves enough to enlarge the export market.

Tea

2.55 Indian tea enjoys the unique distinction of being a commodity of mass consumption in the domestic front and at the same time the leader in the global export of the commodity. Production of tea in 1988-89 is estimated to be of the order of 701 million kgs. as against 665 million kgs. in 1987-88—an increase of about 5 per cent. During the first year of the Seventh Plan actual production exceeded the target but there was steep fall in the second year because of adverse weather conditions. During the third and fourth years the production maintained a reasonable uptrend. The target for 1989-90 has been fixed at 760 million kgs. The bulk (75 to 80 per cent) of tea production comes from Northern India. In this region, Assam followed by West Bengal are the major contributors in tea production. Among South Indian states

Tamil Nadu and Kerala are the major producers of tea.

2.56 The Seventh Plan had envisaged additional production of 140.6 million kgs. This was sought to be achieved through adoption of various measures—both long-term and short-term measures to encourage new planting, replanting and rejuvenation, pruning and infilling, drainage, irrigation, improved cultural operation as well as factory modernisation. Many developmental schemes which are in operation to provide financial support, include Tea Plantation Finance Scheme, Tea Machinery and Irrigation Equipment Hire-Purchase Scheme, Darjeeling Interest Subsidy scheme, Capital Subsidies for Extension Planting, Water Management, Vacancy Infilling and Installation of Captive Power Generating Sets, New Tea Unit Financing Scheme and Replanting Subsidy Scheme. Though there has been increasing trend in production during the Seventh Plan period, the physical targets laid down could be achieved only partially owing to combination of factors such as non-availability of additional land for extension planting, inadequate incentives for replanting, rejuvenation and infilling, low retention of surpluses owing to higher taxation, adverse climatic factors etc.

2.57 Exports, which forms around 1/3 of the production, have delclined from the levels achieved in 1977 when country exported about 230 million kgs. These have fluctuated between a low of 196 million kgs. in 1986-87 and a high of 222 million kgs. in 1988-89. Similarly, value of exports varied between Rs. 580 crores in 1986-87 and Rs. 674 crores estimated for 1988-89. Despite the fluctuations in volume of exports, India continues to realise higher unit price on exports—it was Rs. 30.50 per kg. in 1988-89 as against Rs. 29.53 per kg. in 1986-87. To enable the export rise steadily, a much greater emphasis is being laid to promote the export and marketing of value added teas.

Coffee

2.58 With the estimated infrastructural support extended by Coffee Board in the fields of research, extension and credit, production of coffee, though fluctuated, has increased significantly over years. It increased from about 119 thousand tonnes in 1980-81 to 215 thousand tonnes in 1988-89. Recurring drought conditions in the coffee producing areas has been one of the limiting factors affecting coffee production. Coffee crop faced several ups and down since 1984-85. Production of 195 thousand tonnes in 1984-85 came down to 122 thousand tonnes in subsequent year, and again from 192 thousand tonnes in 1986-87 to 125 thousand tonnes in 1987-88 and thereafter increased to 215 thousand tonnes in 1988–89. Substantial increase of 72 per cent in production of coffee in 1988–89 over 1987-88 was owing to favourable weather conditions and expansion of acreage under the crop. The production of coffee during the first four years of Seventh Plan averaged 160 thousand tonnes. Except for 1985-86 and 1987-88, production exceeded the targeted levels. In 1989-90, production is estimated to be of the order of 165 thousand tonnes as against the target of 180 thousand tonnes. Karnataka, Kerala and Tamil Nadu are traditional coffee producing states. These together account for 94 per cent of area and almost entire production of coffee.

2.59 While domestic consumption of coffee has increased considerably, exports have also increased both in volume and value. During 1988-89 export earnings were around Rs. 280 crores as against Rs. 263 crores in 1987-88. In order to maximise exports, export duty on coffee was abolished in August 1988. Efforts are also being made to increase the domestic consumption.

Rubber

2.60 Rubber, which is mainly grown in Kerala, Tamil Nadu and Karnataka, is mostly accounted by small growers who share 80 per cent of area and 77 per cent of production. Production of natural rubber grew from 153 thousand tonnes in 1980–81 from 278 thousand hectares to 257 thousand tonnes in 1988–89 from about 400 thousand hectares. The remunerative price and financial and technical support are major factors contributing to appreciable increase in new planting and replanting. The performance of rubber production during the Seventh Plan period has been quite impressive for it exceeded the targets in the first four years of the plan. In the terminal year i.e. 1989–90 also the anticipated production of 275 thousand tonnes will be higher than the target of 265 thousand tonnes. This achievement has come through the adoption of development strategy

which, inter alia, include (i) modernisation of the existing plantations, (ii) expansion of rubber cultivation, particularly in non-traditional areas, and (iii) improvement of quality and marketing of rubber.

2.61 Rubber was until recently grown mainly in the traditional state of Kerala and Kanyakumari district of Tamil Nadu. As a result of promotional efforts, rubber is now grown successfully in the non-traditional states/Union Territories of Karnataka, Tripura, Assam, Meghalaya, Mizoram, Manipur, Nagaland, Andaman & Nicobar Islands, Goa, Maharashtra and Orissa.

2.62 The consumption of rubber increased substantially and exceeded the domestic production. This had led to import of 60 thousand tonnes in 1988-89. In view of the widening gap between domestic supply of and demand for natural rubber, the Rubber Board has embarked on ambitious scheme to increase the production substantially. Multi-pronged Schemes have been evolved. These includes bringing in additional areas under rubber plantations, popularisation of high yielding class and vigorous campaign to persuade small growers to go in for replanting under the Plantation Development Scheme by providing subsidy and loan to them. Other schemes are (i) disbursement of high yielding planting materials, (ii) supply of certain inputs at concessional rates, and (iii) encouraging cooperatives by providing financial assistance for improving the processing and marketing of rubber. Besides, Government implemented various measures for the expansion of area under rubber in non-traditional regions.

Agricultural Inputs

2.63 In order to increase the production through increase in productivity, efforts have been made continuously to enlarge the availability of agricultural inputs and extend its coverage to all the agricultural crops. The developments made in this regard are elaborated in the following paragraphs.

Irrigation

2.64 Expansion of irrigation has been the main element of strategy for increasing foodgrains production. Thus, realising the fact that higher level of crop production and its stability can be obtained only through irrigation, measures have been undertaken to develop the irrigation facilities in the country. The approach has been to expand irrigation to the new needy areas and ensure efficient use of the available irrigation facilities. Accordingly, it was proposed to increase the irrigation potential from 67.5 million hectares at the end of the Sixth Plan to 80.4 million hectares by the end of the Seventh Plan. The additional potential of 12.9 million hectares was envisaged to come through both major and medium irrigation (4.3 million hectares) and minor irrigation (8.6 million hectares). Increasing emphasis is being laid on the development of minor irrigation structures since these are quick maturing and labour ntensive. As against the creation of additional irrigation facilities, the utilisation was targeted at 10.9 million hectares (3.9 million hectares in the case of major and medium irrigation and 7 million hectares under minor irrigation). Against these targeted levels the actual achievements are given in the following table.

TAABLE 2.7

Development of Irrigation Potential and its Utilisation

(Million hectares)

Irrigation (additional area)	Seventh Plan		1985-86		1986-87		1987-88		1988-89		1989-90
	Assumed base level (84—85)	1985-90 Target	Target	Achievement	Target	Achievement	Target	Achievement	Target	Achievement	Target
1. *Major and Medium Irrigation*											
Potential	30.01	4.30	0.63	0.51	0.69	0.46	0.70	0.68	0.97	0.69	0.82
Utilisation	25.33	3.90	0.62	0.49	0.58	0.66	0.64	0.53	0.74	0.53	0.63
2. *Minor Irrigation*											
Potential	37.52	8.60	1.70	1.52	1.73	1.63	1.68	1.62	2.87	1.72	1.95

Utilisation	60.58@	10.90	1.92	1.81	1.84	2.02	2.05	1.94	3.43	2.08	2.37

@Cumulative level.

2.65 In the first four years of the Seventh Plan, the additional irrigation potential created add up to 8.63 million hectares as against the target of 10.97 million hectares (during 1985-86—1988-89). The additional potential created during this period was 2.34 million hectares as against a target of 2.99 million hectares under major and medium irrigation and 6.49 million hectares against a target of 7.98 million hectares under minor irrigation. The shortfall in achievement over the targeted level during the Seventh Plan is on account of lower achievement of 1.49 million hectares under minor irrigation and 0.65 million hectares under major and medium irrigation. In respect of major and medium irrigation, the shortfall is mainly due to inadequate funding owing to overall constraints of resources, increasing cost of some projects resulting in delay in fulfilment of benefits, problems of land acquisition and forest clearance and thin spreading of available resources over a number of projects etc. The states which have not achieved even 50 per cent of ultimate potential under major-medium irrigation include Assam, Bihar, Maharashtra, Orissa, Gujarat and Madhya Pradesh. In the case of minor irrigation, comparatively, greater progress has been made in the states of Uttar Pradesh, Gujarat, Punjab, Haryana and Rajasthan. The states lagging behind are Assam, Orissa, Bihar, Maharashtra, Tamil Nadu, West Bengal, Madhya Pradesh, Kerala and Karnataka.

2.66 Despite undertaking developmental measures including command area development, there is still gap in utilisation of created irrigation potential. The gap is not only between target and achievement in terms of potential created but also between potential and utilisation. As against the total potential of 8.83 million hectares created during the first four years of the Seventh Plan, the utilisation of irrigation facility was limited to 7.85 million hectares. In the drought year of 1986-87 and 1987-88 the achievement in utilisation was more than the targeted level of utilisation. Utilisation of the created potential in most of the major irrigation projects is considerably low largely due to lack of development of network of field drains and land shaping or levelling. Lack of involvement of farmers is also an important constraint in achieving full utilisation of created potential.

2.67 With the objectives of bridging the gap between creation and utilisation of irrigation potential and optimising agricultural production from irrigated land, the Centrally Sponsored Command Area Development Programme was launched in 1974-75 so as to create enabling conditions for effective conveyance of water to fields, on-farm development, drainage and on-farm water management. The programme broadly covers construction of field channels, land levelling, field drains and introduction of warabandi for rotational supply of water to ensure equitable and assured supply of water to each and every farm holding. It also includes arrangement for supply of inputs and credits, agricultural extension, construction of markets and godowns and development of ground water for conjunctive use.

2.68 The Seventh Plan envisaged a coverage of 6.81 million hectares under field channels, 1.82 million hectares under land levelling and 8.04 million hectares under warabandi; as against this, the State Governments fixed the targets at much lower levels—4.25 million hectares, 0.71 million hectares and 5.17 million hectares respectively. Even these targets have not been achieved by the States and, in fact, in states like Andhra Pradesh, Kerala, Madhya Pradesh, Orissa and West Bengal, the achievement is less than 50 per cent. During the first four years of the Plan construction of field channels covered an area of 2.52 million hectares, land levelling 0.33 million hectares and warabandi 2.99 million hectares. The lower achievement is largely attributed to problems connected with inadequate provision of finance in the States' Plans and difficulties in land acquisition. Despite the limitations, the programme, on the whole, has been effective in narrowing down the gap. The gap may further get narrowed down as the programme extends over large areas.

2.69 Minor irrigation schemes which include all groundwater schemes—consisting of dugwells, shallow tubewells and pumpsets—and surface water schemes which include diversion schemes, storage tanks and lift irrigation schemes, have been

given special attention in expanding the irrigation facilities. The Seventh Plan had envisaged the creation of additional potential of 8.6 million hectares (7.1 million hectares through groundwater and 1.5 million hectares through surface water). As against this, the additional potential created during the first four years amounted to 6.49 million hectares while the actual utilisation added up to 5.64 million hectares. The gap between created potential and utilisation has resulted from lack of energisation of tubewells. Realising the need for utilising the groundwater resources so as to provide assured irrigation, it was contemplated to construct 6 lakh shallow tubewells annually in the holdings of small and marginal farmers under Special Foodgrains Production Programme in 134 identified districts of 12 states. As against this, 3.43 lakh shallow tubewells/dugwells are likely to be constructed during 1988-89. Further, energisation of tubewells programme was also strengthened and Rural Electrification Corporation energised 2.62 lakh shallow tubewells/dugwells during 1988-89 as against a target of 2.56 lakhs.

2.70 In the background of the past performance in the creation of potential and utilisation of irrigation facilities, in 1989-90 emphasis has been laid on speedy completion of ongoing projects which can give early benefits. The target for the creation of additional irrigation potential has been fixed at 2.77 million hectares—0.82 million hectares under major and medium irrigation and 1.95 million hectares under minor irrigation. As against this, utilisation of potential is anticipated at 2.37 million hectares. The main consideration in the formulation of minor irrigation programme for 1989-90, inter alia, include prioritisation of ongoing surface water schemes, stepping up institutional investment, provision of subsidy to small and marginal farmers to encourage private minor irrigation programme for tribal, backward, drought prone areas and areas having predominantly SC/ST farmers.

Seeds

2.71 Production and distribution of quality seed is essential for raising agricultural production. Recognising the importance of quality seeds, efforts are being made to maximise production and distribution of foundation and certified seeds through National Seeds Corporation, State Farms Corporation of India and State Seeds Corporations. The high yielding varieties (HYV) programme introduced in 1967-68 and covering paddy, wheat, jowar, bajra and maize, has covered large area under cultivation under different crops and by the end of Sixth Plan the total area covered under the HYV was 56 million hectares. An area of 70 million hectares was targetted during the Seventh Plan. Area covered under HYV under different crops can be seen from the following table :

TABLE 2.8

Area under HYV (Million hectares)

Crop	1979–80	1984–85	1985–86	1986–87	1987–88	1988–89*	1989–90**
Paddy	15.99 (40.6)	22.78 (55.3)	23.47 (57.0)	24.03 (58.4)	22.25 (57.3)	27.20 (65.6)	29.00
Wheat	15.03 (67.6)	19.09 (81.0)	19.08 (83.0)	19.19 (83.0)	19.69 (85.4)	20.67 (85.4)	21.00
Jowar	3.05 (19.3)	5.09 (32.9)	6.08 (37.8)	5.50 (34.5)	6.06 (38.7)	6.67 (44.9)	6.50
Bajra	2.96 (28.0)	5.17 (48.7)	4.99 (46.8)	5.27 (46.8)	3.95 (45.4)	5.84 (48.5)	6.00
Maize	1.35 (23.7)	2.02 (34.8)	1.80 (31.0)	2.19 (37.0)	2.15 (38.8)	2.19 (34.9)	2.50
TOTAL	38.38	54.14	55.42	56.18	54.10	62.57	65.00

*Provisional

**Target

Note.—Figures in parentheses give the percentage of HYV area to total area under the crop.

2.72 While coverage of area under HYV has been substantial in the case of wheat, it has been very much less under rice. Wheat area covered under HYV range between 81 per cent in 1984-85 and 85 per cent in 1988-89 of the total area under the crop. The coverage under rice has been less and ranged 55-65 per cent of the total area. Similar is the situation in the case of coarse-grains where the coverage is 31—48 per cent. Efforts are therefore being made to expand the rice area under HYV so as to increase the productivity.

2.73 Though erratic, the distribution of certified/quality seeds has increased substantially from 25 lakh quintals in 1980-81 to about 57 lakh quintals in 1989-90. The year to year fluctuations in the distribution of quality seeds are largely attributed to (a) variation in demand of specific crop variety, (b) diversion of area from one crop to another, particularly from higher seed rate crop like groundnut to low seed rate crop like rapeseed and mustard and (c) choice of taking up crops which require less irrigation. The distribution of certified/quality seeds over the years can be seen in the following table :

TABLE 2.9

Distribution of Certified/Quality Seeds

Year	Distribution (lakh quintals)	Percentage increase over the preceding year
1980–81	25.01	—
1981–82	29.81	19.2
1982–83	42.06	41.1
1983–84	44.97	6.9
1984–85	48.46	7.8
1985–86	55.01	13.5
1986–87	55.83	1.5
1987–88	56.30	0.8
1988–89 (Anticipated)	56.80	0.9
1989–90 (Tentative)	57.04	0.4

2.74 To meet the eventualities of shortage of seeds occurring because of natural calamities like floods, droughts, diseases etc. a scheme of maintaining buffer stock of seeds has been in operation. The scheme is operated as centrally sponsored scheme in which the Centre and State share the cost of maintenance of buffer stock on 50:50 basis. Foundation and certified seeds of only pulses, oilseeds, bajra, jowar and maize are being maintained for states other than those in the North-Eastern Region. For the North-Eastern regions, in addition to pulses and oil-seeds, the seeds of paddy and maize are also being kept in buffer stock. In order to create increased infrastructural facilities commensurate with the projected seed production target, the government launched the National Seeds Project with the World Bank assitance. The main objective of the project is to support the government efforts to assist the farmers by ensuring timely and adequate availability of quality seeds of suitable varieties at economical price. The main features of the project are (a) institutional strengthening, (b) restructuring the seed production, processing and storage, (c) development of farms, and (d) research in foundation and breeder seeds production.

2.75 The new policy on seed development, introduced with effect from 1st October, 1988 aimed at to ensure for the farmer high quality seeds available anywhere in the world to maximise his yields, increase productivity and farm income. This is sought to be ensured by permitting access to best available seeds by placing some plant material and seeds under O.G.L. and some through regulated imports. As a result of the new policy, there has been significant increase in the import of high quality seeds, particulary those of oilseeds and vegetables. Quarantine services have been strengthened so as to ensure that exotic pests and diseases do not enter the country. While the liberalised seed policy relating to imports ensure availability of best seed/planting materials to Indian farmers, a number of fiscal and financial incentives have been provided to encourage and promote the growth of indigenous seed industry.

Fertilisers

2.76 Consequent upon the expansion of irrigation facilities and area under high yielding varieties, consumption of fertilisers in the country has increased substantially from 1.5 million tonnes in 1967-68 to 11.04 million tonnes of nutrients (NPK) in 1988-89. With the execution of Special Foodgrains Production Programme and favourable weather conditions, consumption of fertiliser in1989-90 is likely to touch 12.43 million tonnes—an increase of 12.7 per cent over

1988-89 consumption. Details of fertiliser consumption are given in the following table:

TABLE 2.10

Consumption of Chemical Fertilisers

(Million tonnes)

Year	Nitrogenous	Phosphatic	Potassic	Total NPK
1970–71	1.49	0.46	0.23	2.18
1975–76	2.15	0.46	0.28	2.89
1978–79	3.42	1.11	0.59	5.12
1979–80	3.50	1.15	0.61	5.26
1980–81	3.68	1.21	0.63	5.52
1981–82	4.07	1.32	0.67	6.06
1982–83	4.22	1.44	0.73	6.39
1983–84	5.21	1.73	0.77	7.71
1984–85	5.49	1.88	0.84	8.21
1985–86	5.66	2.00	0.81	8.47
1986–87	5.77	2.11	0.86	8.74
1987–88	5.72	2.19	0.88	8.79
1988–89	7.25	2.72	1.07	11.04
1989–90 (Estimated)	7.90	3.31	1.22	12.43

2.77 The consumption of fertiliser during the first three years of the Seventh Plan fell short of targeted levels due to unfavourable weather and unprecedented drought in 1987-88. The fourth and fifth years of Plan i.e. 1988-89 and 1989-90 have been very good years for the development of crops as encouraged by the onset of good monsoon in time and fairly even distribution of rainfall in the country. As a result, consumption of fertilisers increased both in kharif and rabi seasons to 12.43 million tonnes during 1989-90 as against the targeted level of 12.00 million tonnes.

2.78 Since the rainfed areas which constitute 70 per cent of the cultivated areas consume only about 20 per cent of the total fertiliser, efforts have been made to increase the consumption of fertilisers in these areas. Accordingly, the Government has sanctioned a National Project and Development of Fertiliser Use in Low Consumption Rainfed Areas in 60 identified districts in 16 states. The project provides for (i) opening of 200 additional retail outlets in each of the selected districts, (ii) laying out 10 field block demonstrations in each district, (iii) 10 farmers training programme, and (iv) opening of 20 additional soil testing laboratories in Madhya Pradesh, Maharashtra and Rajasthan.

2.79 Along with the increased consumption, fertiliser production has also increased substantially over the years from 2 million tonnes in 1979-80 to 8.96 million tonnes in 1988-89. The production in 1988-89 was an all time high. In addition to increase the capacity of existing units, six gas-based fertiliser projects to produce 7.26 lakh tonnes of urea per annum each were planned to further add to the capacity. Three of these plants at Vijayapur in Madhya Pradesh, Aonla and Jagdishpur in Uttar Pradesh have been completed and have gone into production in 1988. Other plants are at various stages of implementation. With the increase in domestic production, the level of imports has declined considerably in recent years—from 3.62 million tonnes in 1984-85 to about 1.6 million tonnes in 1988-89. Following the introduction of fertiliser retention price and subsidy scheme w.e.f. 1st November 1977 and the increasing trend in production/consumption, subsidy on fertilisers has also been rising. Fertiliser subsidy increased from Rs. 603 crores in 1979-80 to as much as Rs. 3200 crores in 1988-89 and will further go up in 1989-90. The budgeted amount of subsidy on fertilisers in 1989-90 is Rs. 3651 crores. The details are given in the following table:

TABLE 2.11

Fertilisers : Production, Import and Subsidies

Year	Production (N+P) (000 tonnes)	Imports (000 tonnes)	Subsidies (Rs. crores)		
			On imported fertilisers	On domestic production	Total

Pesticides

2.80 Field crops including cereals, oilseeds, pulses, cotton, sugarcane etc. are very vulnerable to pest attack. To save the crops from pests, increasing quantity of pesticides are being made available. As against a target of 75 thousand tonnes for the final year of the Seventh Plan, the consumption of pesticides was of the order of 52 thousand tonnes in 1985-86, 50 thousand

tonnes in 1986-87, 49 thousand tonnes in 1987-88 and about 55 thousand tonnes in 1988-89. The target set for 1989-90 is 85 thousand tonnes, although consumption is likely to be lower because the pest incidence, in general, remained at very low ebb during 1989. The overall availability of pesticides in 1988-89 was satisfactory due to indigenous production and import of about 1000 tonnes. The availability of pesticides, their raw materials and solvents was kept under constant review and remedial actions were taken wherever the possibility of any shortage occurred.

Agricultural Credit

2.81 Timely and adequate credit to the farmers is a very crucial input for increaing agricultural production. The policy on agricultural credit continues to be one of providing adequate and timely credit to farmers through institutional agencies like co-operatives, commercial banks and Regional Rural Banks to support agriculture and allied activities. The major objective of the policy is to enable the farmers specially the small and marginal farmers and other weaker sections to adopt modern technology and improved agricultural practices for increasing production and productivity.

2.82. The total quantum of agricultural loan has been increasing over the years. It has increased from a level of Rs. 6794 crores in 1985-86 to Rs. 11752 crores in 1988-89. The target for 1989-90 has been fixed at Rs. 13294 crores. Agencywise disbursements of agricultural credit are given in the following table:

TABLE 2.12

Disbursement of Agricultural Credit

(Rs. crores)

	1985-86	1986-87 (Provisional)	1987-88 (Provisional)	1988-89 (Provisional)	1989-90 (Target)
Cooperatives

TOTAL .	3684	3915	4558	5442	5779
Commercial Banks Regional Rural Banks					
Short-term & Term loans .	3110	3796	3934	6310	7515
GRAND TOTAL .	6794	7711	8492	11752	13294

2.83 The National Bank for Agriculture and Rural Development (NABARD) has taken a number of steps to provide adequate refinance facility to the cooperative institutions. The Government also introduced a scheme in 1988-89 and 1989-90 for providing central assistance to the central cooperative banks which are not eligible to operate credit limits on account of heavy overdues. As a part of major relief measures to farmers, the rate of interest on agricultural loans was reduced by a range of 1.5 per cent to 2.5 per cent w.e.f. 1st March 1988 for loans ranging upto Rs. 15,000. Again, w.e.f. 1st March, 1989 interest charged on crop loans between Rs. 15,000 and Rs. 25,000 was reduced to 12 per cent from the existing maximum rate of 14 per cent. Further, the Produce (Marketing) Loans Scheme has been introduced from December, 1988, on a pilot basis, in specified districts in each of the 14 states, where SFPP is under implementation. Loans under this scheme are available to those farmers who have availed of crop loans from the credit institutions for raising paddy, wheat, groundnut, rapeseed/mustard, gram and arhar. The quantum of loan under this scheme is, however, restricted to twice the amount of the crop loan or 75 per cent of the value of produce (hypothecated) at Government announced procurement prices subject to a maximum of Rs. 10,000 per individual.

2.84 Despite phenomenal increase in the overall agricultural credit, the crucial problem of mounting overdues has been inhibiting credit expansion to the desired extent. Overdues have been persisting around 40-42 per cent during the last 3-4 years. Increasing overdues have eroded the lending capacity of cooperative institutions for want of recycling of funds and ineligibility of the institutional agencies to borrow additional funds from the higher financing agencies.

Crop Insurance

2.85 Agriculture in India is subject to natural hazards which not only cause a substantial loss of output in the year in which they occur but also impair the productivity efficiency of the farmers in the ensuing years. Realising the risky character of farming, the comprehensive crop insurance scheme, which is voluntary in

nature and based on area approach and credit linked scheme, was introduced in the country with effect from 1st April 1985 for major cereals-wheat, paddy and millets and critically deficit crops—oilseeds and pulses. The objectives of the scheme are (i) to provide a measure of financial support to the farmers in the event of crop failure as a result of natural calamity, (ii) to restore the credit eligibility of farmers after a crop failure for the next crop season, and (iii) to support and stimulate production of cereals, pulses and oilseeds. Under the scheme, all farmers availing crop loans from cooperative credit institutions, regional rural banks and commercial banks are eligible for insurance coverage. The sum insured is equal to the crop loan disbursed, subject to the maximum of Rs. 10,000 per farmer. The premium payable is two per cent of the sum insured for wheat, paddy and millets and one per cent for oilseeds and pulses. Risk-premia and claims under the scheme is shared between Central Government and respective State Government in the ratio of 2 : 1. 50 per cent of the premium payable by small and marginal farmer is subsidised equally between Central and State Governments.

2.86 Coverage under the scheme has been continuously expanding since its inception. Enhanced coverage under the scheme is not only due to active participation of states implementing the scheme but also to other states/union territories joining the scheme. Thus, during the year 1987-88 scheme was implemented in 18 states and 3 Union Territories against 14 states and 2 Union Territories in 1985-86. There was considerable progress during 1987-88 in terms of coverage-about 46 lakh farmers cultivating 84 lakh hectares of land were covered in kharif 1987 as against 40 lakh farmers and 77 lakh hectares covered in kharif 1986. Even coverage in rabi 1987-88 has been spectacular. However, due to drought conditions and floods in 1986-87 and 1987-88, claims shot up from Rs. 84 crores in kharif 1985 to Rs. 277 crores in kharif 1987. Although 1987 was the worst drought year for many states, position of claims for kharif 1987 crops in Gujarat was particularly adverse i.e. nearly 69 times the premium income. Other major claims were reported in Maharashtra, Orissa, Andhra Pradesh and Karnataka. Consequent upon the quantum jump in claims and heavy losses, the scheme was temporarily suspended in January 1988. But it was re-introduced in September 1988 with some modifications. The sum insured was reduced from 150 per cent to 100 per cent of crop loans and limited to a maximum of Rs. 10,000 per farmer. The coverage in Kharif 89 was about 19 lakh farmers cultivating 29 lakh hectares of land.

2.87 The progress of the scheme can be seen from the table given below :

TABLE 2.13

Crop Insurance Scheme

	Kharif 1985	Rabi 1985-86	Kharif 1986	Rabi 1986-87	Kharif 1987	Rabi 1987-88	Kharif 1988	Rabi 1988-89	Kharif 1989

Animal Husbandry

2.88 Animal husbandry, being an integral part of agriculture plays a significant role in providing animal protein for the large population and at the same time provides gainful employment particularly to small/marginal farmers, agricultural labourers, and other rural poor and thereby raising their economic status. The gross value of output from this sector in 1986-87 was Rs. 242 billion which is about 25 per cent of the total agricultural output including animal husbandry of Rs. 967 billion. This, however, did not include contribution of animal draught power which is reported to be quite significant. Efforts are being made to improve the vast population of livestock of over 193 million bovine and 20.8 million poultry birds by providing basic infrastructure and adopting improved technology.

2.89 With its large livestock population, the country has vast potential for meeting the growing needs of animal protein and raw material for the industry. The main objectives of the Seventh Plan in this direction are (i) to consolidate the gains achieved under various programmes of animal husbandry, (ii) to provide infrastructure necessary to achieve accelerated growth in livestock production, and (iii) to enable as large a section of rural population as possible, including small and marginal farmers, agricultural labourers and other rural poor to improve their nutritional and economic status by providing them with gainful employment through livestock rearing. As a result of the developmental efforts, milk and eggs production have increased significantly. Milk production increased by more than 18 per cent from 41.5 million tonnes in 1984-85 to 49.1 million tonnes in 1988-89, while eggs production increased from 14.3 billion to over 18 billion during this period. During the first four years of the Seventh Plan the per capita availability of milk has risen from 56.2 kgs. in 1984-85 to 61.2 kgs in 1988-89, while per capita availability of eggs has gone up from 19 eggs to 23 eggs.

2.90 To safeguard the interest of the small and marginal farmers and other poor rural population, livestock insurance scheme has been in operation since 1974. The scheme introduced by the four subsidiary companies of the General Insurance Corporation of India has covered 206 lakh cattle heads in 1988-89 as against 161 lakhs in 1985.

Dairy Development

2.91 In order to provide a linkage between the producers and the consumers, a rational approach to dairy development has been evolved. An integrated dairy development programme commonly known as Operation Flood was launched in 1970 to correct the deficiencies of the dairy sector by organising village milk producers in the dairy cooperative societies. The first phase of Operation Flood I was aimed at capturing a liquid milk market in the four metropolitan cities by linking 27 milk sheds. During second phase Operation Flood II (1980-85) the programme was extended to all the states in the country—about 34,500 dairy cooperative societies had been organised in 136 milk sheds. Operation Flood III (1985–94) is being implemented with financial assistance from the World Bank and commodity assistance from EEC in the form of skimmed-milk powder and butter oil. Over 60,000 dairy cooperative societies have been organised in 173 milk sheds involving over 6 million farmer members to procure an average of 8.3 million kgs per day during April-September 1989 as against 6.7 million Kgs. in April-September, 1988 and marketed 7.3 million Kgs. of milk a day in over 535 cities and towns of the country as against total milk processing capacity of 14 million kgs. a day and powder production capacity of 654 tonnes a day. A Technology Mission for Dairy Development has been constituted to give policy directions for a systematic dairy development in the country.

Fisheries:

2.92 Fisheries play an important role in augmenting food supply, generating employment, raising nutritional levels and in earning foreign exchange. Fish production has gradually increased from 24.4 lakh tonnes in 1980-81 to 31.5 lakh tonnes comprising 18.2 lakh tonnes from the marine sector and 13.3 lakh tonnes from inland sector in 1988-89. The export earnings were of the order of Rs. 598 crores in 1988-89. The main thrust of the fisheries development programme is to promote the extensive and intensive fish farming activity

in the inland sector and encouraging deep sea fishing in marine sector so as to optimise fish production. This is sought to be achieved through a package of technical, financial, training and extension measures.

Rural Development:

2.93 The Seventh Five Year Plan stipulated the target of bringing down the percentage of people living below the poverty line in rural areas to 28.2 per cent by the end of the Plan. In order to achieve this objective along with various development programmes like expansion of irrigation facilities, increasing productivity of dryland agriculture and development of village and small industries, a number of beneficiary oriented and area specific poverty alleviation programmes have been continued. The major poverty alleviation programmes being implemented include Integrated Rural Development Programme (IRDP), National Rural Employment Programme (NREP) and Rural Landless Employment Guarantee Programme (RLEGP). During 1989-90, however, NREP and RLEGP have been merged into one single rural employment programme known as Jawahar Rozgar Yojana (JRY).

2.94 Integrated Rural Development Programme launched in 1978-79 and extended all over the country in 1980-81, is a self employment programme to raise the income generation capacity of the target groups—below the poverty line. This is a major poverty alleviation programme. It seeks to identify families with income less than Rs. 4800 per annum to provide them income generating assests through a mix of subsidy and bank credit. During the first four years (upto December 1989) of the plan over 16.8 million families have been assisted and Rs. 3006 crores of budgetary funds and Rs. 4867 crores of term credit have been utilised. At the national level about 45.4 per cent of the families assisted belonged to SC/ST. To support IRDP, two sub-programmes of Training of Rural Youth for Self Employment (TRYSEM) and Development of Women and Children in Rural Areas (DWCRA) were formulated. While TRYSEM is intended to give training in technical skills for managing the assets, DWCRA seeks to engage women in poorer groups in economic activities. Under TRYSEM about 8.73 lakhs rural youths from families below the poverty line have been provided technical skills to enable them to take up self employment in agriculture and allied activities, industries, services, business activities etc. Under DWCRA a total number of 22581 groups of women in rural areas are engaged in income generation activities benefiting, 4.32 lakh women below the poverty line.

2.95 The National Rural Employment Programme launched in October 1980, aimed at creation of additional wage employment opportunities for unemployed and under-employed persons in rural areas, while simultaneously creating productive community assets for strengthening rural economic and social infrastructure and improving the overall quality of life in rural areas. In the wake of drought conditions, emphasis has shifted on creation of assets which are in conformity with the objectives of drought proofing. Accordingly, works which help in creating productive infrastructures like minor irrigation works, rural water supply works, construction/renovation of village tanks and land development are being undertaken. In the Seventh Plan period an outlay of Rs. 2487 crores was provided for NREP. It was envisaged to generate employment of 290-million mandays per annum. Under this scheme, 1476 million mandays of employment has been generated during the first four years of the Seventh Plan as against the target of 1160 million mandays. This programme has now been merged into a Jawahar Rozgar Yojana. The objective of Rural Landless Employment Guarantee Programme (launched on 15th August, 1983) was to improve and expand employment opportunities for the rural landless and provide guaranteed employment to atleast one member of every rural landless household upto 100 days in a year, while at the same time creating durable assets. Besides works relating to social forestry, minor irrigation works, land development, augmenting ground water resources etc., Indira Awas Yojana is an important component of the programme under which construction of dwelling houses for the poorest of the poor belonging to SC/ST and freed/bonded labourers in rural areas is taken up. The programme is fully funded by the centre. A part of the wages are required

to be paid in the form of subsidised foodgrains. During the first four years of the Plan 1153 million mandays of employment has been generated as against a target of 971 million mandays of employment. For 1988-89, target for employment generation was 260 million mandays and the achievement was 295 million mandays. Although the target of employment generation was over achieved, the guarantee part of the scheme could not be operationalised due to paucity of resources. However, preference in employment was given to landless labourers, women, scheduled castes and scheduled tribes. The programme has been merged with Jawahar Rozgar Yojana.

2.96 In 1989-90 for more effective implementation of wage employment programmes, a new employment generation programme known as Jawahar Rozgar Yojana has been introduced. Earlier NREP and RLEGP and the Jawahar Lal Nehru Rozgar Yojana (announced for 120 backward districts in the 1989-90 Budget) have been merged into the new programme. To create 837 million mandays of employment generation, a sum of Rs. 2623 crores (including Rs. 523 crores as states' share and the subsidised value of foodgrains) have been provided. The main features of the Yojana, inter alia, include (i) all rural works which result in creation of durable productive community assets will be taken up, (ii) preference is to be given to works (a) having potential of maximum direct and continuing benefits to the member of the poverty groups and (b) which can be owned by or assigned to groups of beneficiaries, (iii) higher priority is to be given to works which are required for infrastructure of poverty alleviation programme like Desert Development Programme, Drought Prone Area Programme, Development of Women and Children in Rural Areas Programme, Integrated Rural Development Programme and construction of primary school buildings, (iv) development of private land belonging to small and marginal farmer who may be below poverty line, and (v) works relating to the land development will include land shaping, construction of drainage, field channels etc. An employment of 492 million mandays have been generated upto December, 1989 against the target of 873 million mandays for the year.

Agro-climatic Zones :

2.97 In the face of the regional imbalances noticed in the agricultural development in the country and the unexploited potential, agricultural planning based on agro-climatic zones is being considered. The strategy of agro-climatic planning aims at a more scientific utilisation of available resources, both natural and man-made. The potential for growth and diversification would be fully exploited after taking a holistic view of the climate, soil type, topography, water resources and irrigation facilities and relating them to requirements of output and employment.

2.98 The country has been divided into 15 agro-climatic zones on the basis of a commonality of agro-climatic factors like soil type, rainfall, temperature, water resources etc. The agro-climatic zones are:

(1) Western Himalayan Region
(2) Eastern Himalayan Region
(3) Lower Gangetic Plains Region
(4) Middle Gangetic Plains Region
(5) Upper Gangetic Plains Region
(6) Trans-Gangetic Plains Region
(7) Eastern Plateau and Hills Region
(8) Central Plateau and Hills Region
(9) Western Plateau and Hills Region
(10) Southern Plateau and Hills Region
(11) East Coast Plains and Hills Region
(12) West Coast Plains and Ghats Region
(13) Gujarat Plains and Hills Region
(14) Western Dry Region
(15) The Islands Region

The main objectives of agro-climatic planning are (i) to attempt a broad demand-supply balances of major commodities at the national level but based on potential and prospects of various zones, (ii) maximise net income of producers, (iii) generate additional employment for the benefit particularly of landless labourers, and (iv) provide the framework for the scientific and sustainable use of natural resources particularly land, water and forests, in the long run.

2.99 Land and water development strategies and cropping patterns suitable for each region have been worked out as also non-crop based agricultural activities like forests, animal husbandry and fisheries have been taken into account. Agro-processing activities are to be emphasised. An attempt is being made to develop a package of more appropriate projects for each region, as also involve the financial institutions more directly in the agricultural planning process. The studies/surveys undertaken in these zones would be the basis for the formulation of 8th Plan.

Outlook

2.100 Throughout four months spell, both quantum of monsoon rainfall and distribution of precipitation was satisfactory. Kharif operations in virtually all the states were normal and there were no major problems encountered in the supply of quality seeds and inputs like fertilisers. With the continuance of various thrust programmes an other measures to increase the agricultural production, the kharif prospects are very bright and foodgrains output in 1989-90 kharif season may approximate to the target of 98 million tonnes. In regard to commercial crops also, the outlook is re-assuring and a good harvest of oilseeds, cotton and sugarcane is likely to be achieved during the current agricultural year. The operations for rabi are expected to be normal and if no serious weather aberrations develop and considering the fact that last year it had reached a level of 74 million tonnes, rabi production may exceed the targetted level of 77 million tonnes. The expected increase in foodgrains production should enable the Government to build up a sizeable stock of foodgrains in fulfilling the commitment of supplies for public distribution system. Procurement of rice upto the end of February, 1990 was 9.68 million tonnes as against 6.27 million tonnes during the same period of last year.

CHAPTER 3

INFRASTRUCTURE

The performance of the infrastructure sectors during April-December, 1989 of the current financial year indicates a mixed situation. Electricity generation, petroleum and petroleum products showed significant improvement. Railway revenue earning traffic also indicates moderate improvement. Coal and lignite production continues to grow. But there has been some deceleration in the production of saleable steel, cement and phosphatic fertiliser.

3.2 Coal production during April-December 1989 increased by 3.6 per cent as against 6.9 per cent in the same period last year. Although total despatches of coal during the period were 3.5 per cent higher than the last year's level, the pit-head stocks of coal was higher as compared to the level a year ago.

3.3 The generation of power during April-December this year was 12.0 per cent more than the corresponding period last year. The thermal (including nuclear) sector indicates a better performance of 11.7 per cent over the previous year. Average PLF improved to 54.7 per cent as against 53.0 per cent in the last year. Hydel power generation improved significantly by 12.7 per cent.

3.4 The production of crude petroleum has shown significant improvement registering a growth of 6.9 per cent during April—December 1989 over the same period last year. Refinery crude throughput and petroleum products both registered encouraging growth rates of 8.9 per cent and 9.1 per cent respectively. The import of crude oil during the period was 8.5 per cent higher than the level in the last year. There was also 4.6 per cent increase in the import of petroleum products.

3.5 Revenue earning freight traffic on railways in the first nine months of the current year was 2.8 per cent more than the last year but it fell short of anticipated demand mainly in the foodgrains sector. The shortfall in foodgrains was made good to some extent by better lead of cement, fertiliser and iron ore. Cargo handled at major ports marginally decreased as compared to the corresponding period of April-December last year.

3.6 There has been a setback in the production of saleable steel by the integrated steel plants so far during the current year. Production of saleable steel during April-December 1989 was 3.2 per cent lower than the corresponding period last year mainly due to substantial shortfall of production in Durgapur and Indian Iron and Steel Company plants of SAIL. Overall capacity utilisation of SAIL plants drifted to a level of 76 per cent from 78 per cent in the same period last year. The gap in demand and supply of steel this year appears to be a matter of concern.

3.7 Cement production during April-December 1989 was nominally higher by 0.2 per cent over the corresponding period last year. Public sector enterprises in the cement sector could produce only 3.83 million tonnes of cement against the target of 4.71 million tonnes.

3.8 Production of nitrogenous fertiliser during April-December 1989 rose by only 0.4 per cent over the corresponding period of the previous year as against the achievement of 26.1 per cent in the same period of 1988-89. Phosphatic fertiliser recorded a fall of 31.7 per cent in production during April-December this year as against a growth of 64.5 per cent in the same period last year. Decline in phosphatic fertiliser's production was mainly due to shortage in imported phosphoric acid. Capacity utilisation during the period declined from 84.1 per cent to 80.8 per cent in nitrogen and from 96.1 per cent to 61.3 per cent in phosphatic fertiliser.

Energy

Coal

3.9 Coal production continues to grow steadily during Seventh Five Year Plan. The demand for coal in 1988-89 was assessed at 202 million tonnes. Taking into account the possible drawal from pit-head stocks and the need to import superior grade coking coal to meet the steel plants requirements, the target for coal production was fixed at 196.3 million tonnes. Against this the actual production was 194.6 million tonnes, registering a growth rate of 8.3 per cent over the previous year's level of 179.7 million tonnes. The actual production fell short of the target only by 0.9 per cent. Coal India Limited (CIL) produced 171.5 million tonnes, about 1 per cent more than the target and achieved a growth of 7.9 per cent over the previous year. Coal India Ltd. produced about 88 per cent of the total production of coal in the country. The Singareni Collieries Company

4.	Lignite (production)	9.43	11.16	12.40	8.34@	8.06@	18.3	11.1	—3.4

*April-December £Provisional @Production of Neyveli Lignite Corporation only.

Ltd. (SCCL) achieved only 18.6 million tonnes which fell short of target by 9 per cent due to labour problems, strikes and absenteeism. The captive mines of Tata Iron and Steel Company (TISCO), Indian Iron and Steel Company (IISCO) and Damodar Valley Corporation (DVC) produced 4.49 million tonnes achieving 78.8 per cent of the target which remained more or less stable since 1985-86.

3.10 Total despatches of coal during the year 1988-89 at 183.41 million tonnes were 7.4 per cent more than the previous year's despatches of 170.75 million tonnes. CIL alone despatched 161.53 million tonnes of coal in the year as against 150.52 million tonnes in 1987-88. Despite this increase in coal despatches, the pit-head stocks of coal at the close of the year touched a record level of 37.30 million tonnes which was 14.9 per cent higher than the year-end stocks of 32.45 million tonnes in 1987-88. The higher built-up of pit-head stocks was attributed to mismatches between production and transportation, especially in coal-fields which do not have adequate rail movement facilities and gaps in demand projected and realised by various user sectors.

3.11 CIL improved its productivity measured in terms of output of raw coal per manshift (OMS) in 1988-89. It achieved an overall OMS of 1.17 tonnes against 1.08 tonnes in 1987-88. In the case of Singareni Collieries Company Ltd., OMS increased marginally from 0.95 tonnes in 1987-88 to 0.97 tonnes in 1988-89. Troubled industrial relations in the company continued to be a cause of concern. Mandays lost due to labour unrest in CIL in 1988-89 was 7.6 lakhs as against 21.5 lakhs in 1987-88. In SCCL also there was a decline in the mandays lost between 1987-88 and 1988-89 from 9.5 lakhs to 1.2 lakhs. The industry could have performed better had it not suffered from several constraints like power shortage, absenteeism, break-down of machinery and occasional flooding. Trend in the first nine months of the current year, however, indicates satisfactory labour relations in CIL but no improvement in SCCL.

3.12 The target set for production of coal during the current year is 209.5 million tonnes. The gap between demand and indigenous production is likely to be 12.5 million tonnes. An import of 4.5 million tonnes of coking coal has been targeted. The gap of 8 million tonnes is to be met from large pit-head stocks of 37.3 million tonnes as on 1-4-1989. Actual production in the first nine months of the year 1989-90 was 137.70 million tonnes which was 3.6 per cent higher than the production during the corresponding period last year. While CIL, the major producer of coal, continued to perform well and produced 121.78 million tonnes, production from SCCL by 4.8 percent decreased mainly because of labour unrest. Total despatches of coal during the

period April-December 1989 at 138.43 million tonnes was 3.5 per cent higher than the total despatches of 133.70 million tonnes during the corresponding period last year. Despite the increase in despatches, pit-head stocks of coal as on 31st December, 1989 was slightly higher at 28.92 million tonnes as compared to 28.52 million tonnes a year ago.

3.13 CIL's production of metallurgical grade coking coal in 1988-89 at 21.10 million tonnes was 4.4 per cent lower than the previous year's production of 22.08 million tonnes. Washed coal production by CIL washeries during the year is estimated at 8.74 million tonnes, 4.5 per cent higher than the previous year's production of 8.36 million tonnes but short of the target by 5.1 per cent. During the first nine months of current year, there was a decline in the production of metallurgical grade coal by CIL. At 13.90 million tonnes, production was 2.9 per cent less than the actual production of 14.31 million tonnes in the corresponding period last year. Production of washed coal in CIL washeries at 5.87 million tonnes during April—December, 1989 was 9.8 per cent less as compared to the production of 6.45 million tonnes in the same period last year.

3.14 Short supply of prime coking coal required by steel plants has been a persisting problem to the coal sector due to delinking of several mines which were not matching quality specifications. Import of superior quality coking coal for the use of steel plants was 4.20 million tonnes in 1988-89 as against 3.47 million tonnes in 1987-88. Import of coking coal in the current year is likely to be around 4.5 million tonnes because of the increased demand from Visakhapatnam Steel Plant and shortfall in domestic production.

TABLE 3.3

Estimated Demand/Supply of Coking Coal for the Steel Industry

(Million tonnes)

Particulars	1986-87	1987-88	1988-89
1. Total requirement .	17.62	17.57	17.15
2. Actual Supplies (domestic)	12.27	12.11	11.76
3. Imported Coal received	2.56	3.49	4.20

3.15 As on 31-10-1989, there were 24 projects costing over Rs. 100 crores, 20 in the coal sector and 4 in the lignite sector under implementation. In regard to 8 of these projects there had been delay due to various reasons, such as problems relating to acquisition of land and rehabilitation of land oustees, delay in supply of equipment by indigenous manufacturers, delay in acquisition of forest land, etc.

Lignite

3.16 Production of lignite in 1988-89 at 12.4 million tonnes was 11.1 per cent higher than the previous year's production of 11.2 million tonnes. Production by Neyveli Lignite Corporation (NLC) at 11.4 million tonnes was 9 per cent above the target of 10.5 million tonnes and 12 per-cent more than the production of 10.2 million tonnes in 1987-88. Production from the mines of Gujarat Mineral Development Corporation (GMDC) was about 1.0 million tonnes.

3.17 Trend in the production of lignite continues to be firm during the current year also. Production from NLC during April-December 1989 was 8.06 million tonnes. GMDC is also expected to augment its production after mechanisation. NLC has recorded significant achievements in the fields of power generation, fertiliser production and also in the production of coke.

Electricity

3.18 Electricity generation (utilities) in 1988-89 at 221.1 billion KWH recorded a growth of 9.5 per cent over previous year although it fell short of target by 2.4 per cent. During 1988-89, the capacity addition was 4885 MW. The total installed capacity in the country at the end of March 1989 was 59040.38 MW comprising of 39677.33 MW thermal, 17798.05 MW hydel and 1565 MW nuclear.

3.19 Thermal generation of 157.5 billion KWH in 1988-89 was 5.4 per cent more than the previous year, being 96.6 per cent of the target. The shortfall of 3.4 per cent in thermal power generation was mainly on account of reduction of load demand particularly in agriculture because of favourable monsoon conditions. Hydel generation at 57.8 billion KWH in 1988-89 registered a significant improvement of 21.9 per

TABLE 3.4

Trends in the Power Sector (Utilities only)

Sl. No.	Item	1986-87	1987-88	1988-89£	April-December£ 1988-89	April-December£ 1989-90	Percentage change 1987-88 / 1986-87	Percentage change 1988-89 / 1987-88	Percentage change 1989-90* / 1988-89*

*April-December £Provisional.

cent and was almost equal to the target level. In the year 1987-88, shortfall of hydel power generation on account of monsoon failure was more than compensated by thermal sector. The nuclear power generation in 1988-89 at 5.8 billion KWH was 15.7 per cent more than the previous year.

3.20 Total generation of power in April-December this year was 181.3 billion KWH as compared to 161.9 billion KWH during the same period last year and achieved a growth of 12.0 per cent. Hydel power generation at 49.35 billion KWH improved significantly by 12.7 per cent exceeding the target by 2.2 per cent. The thermal (including nuclear) sector indicates a better performance of 11.7 per cent during April-December this year as against the corresponding period of 1988-89. The power generation scenario during the year comes to be promising as both thermal (including nuclear) and hydel sectors are performing well. The shortage in availability of power during 1988-89 was 7.7 per cent as against 10.9 per cent in previous year. During the period April-December this year the estimated shortage was 7.6 per cent as against 7.8 per cent during the corresponding period of 1988-89.

3.21 The Plant Load Factor (PLF) of the thermal plants in 1988-89 was 55.0 per cent as against the target of 54.8 per cent. In the year 1987-88 it was 56.5 per cent. The central sector PLF in 1988-89 was 62.6 per cent as against 62.3 per cent in 1987-88. The figures for the state and private sectors were 51.6 per cent and 63.2 per cent respectively. The corresponding PLF for the year 1987-88 was 53.5 per cent and 67.6 per cent respectively.

3.22 Average PLF of the thermal plants in April-December this year had improved to 54.7 per cent as against 53.0 per cent in the corresponding period last year. The PLF of the central sector units was 61.2 per cent as against the target of 57.7 per cent, showing an improvement in performance. The figure of the central sector for April-December last year was 60.6 per cent. The PLF of NTPC improved to 66.3 per cent from the level of 64.5 per cent attained in the same period last year. Average PLF of the state sector plants at 50.9 per cent improved over the last year's level of 49.3 per cent. The States viz. Andhra Pradesh, Karnataka, Tamil Nadu, Punjab, Gujarat, Maharashtra, Rajasthan, West Bengal Power Development Corporation and D.E.S.U. continued to maintain PLF at more than 50 per cent during April-December in the current year. Private utilities could maintain the PLF at 68.7 per cent as against 66.1 per cent during the same period last year.

3.23 In the structure of power generation of hydel-thermal mix in the country, the share of thermal is steadily increasing. The thermal capacity at present constitutes over 67 per cent of the total installed capacity and contributes about

TABLE 3.5

5.	Durgapur Project Ltd. (DPL)	21.5	29.9	14.6
	PLF : Central Sector (TOTAL)	62.6	57.7	61.2
1.	Neyveli Lignite Corporation	70.3	65.8	66.1
2.	National Thermal Power Corporation	66.9	56.4	66.3
3.	Damodar-Valley Corporation	41.9	43.9	35.7
	PLF : Private Utilities (TOTAL)	63.2	61.8	68.7

70 per cent of the total power generation. There has been successive improvement in the performance of the thermal power stations in recent years. The PLF of the thermal plants at the beginning of the Sixth Plan was only 44.3 per cent, it improved to 50.1 per cent in 1984-85. It further rose to 53.2 per cent and 56.5 per cent in 1986-87 and 1987-88 respectively. However, during 1988-89 it slided back to 55.0 per cent due to reduction in the demand because of the good monsoon, particularly in agriculture sector.

3.24 The target for additional power generation capacity in the current year is 4892.4 MW. This includes a capacity of 484.75 MW which has spilled over from 1988-89. Capacity scheduled for commissioning during April-December in the current year was 2868.5 MW out of which 2253.5 MW was for thermal and 615.0 MW for hydel. Actual capacity rolled/commissioned was 2494.6 MW—2273.5 MW for thermal and 221.1 MW for hydel. A review of the Seventh Plan programme taking into account the performance during the current year indicates that the plan target fixed at 22245 MW is likely to be achieved.

Petroleum

3.25 Production of crude oil at 32.04 million tonnes during 1988-89 was 5.5 per cent higher than the previous year's production but fell slightly short of the target set at 32.18 million tonnes. Oil & Natural Gas Commission (ONGC) performed well by producing 29.61 million tonnes of crude oil—21.11 million tonnes in off-shore production (exceeding the target of 20.68

million tonnes) and 8.50 million tonnes in on-shore production. However, on-shore production by Oil India Limited (OIL) at 2.43 million tonnes fell short of the target of 2.90 million tonnes.

3.26 Total refinery crude throughput during 1988-89 at 48.80 million tonnes was higher than the previous year's achievement of 47.75 million tonnes. Average capacity utilisation of refineries measured in terms of actual crude throughput as the percentage of installed capacity was 100.2 per cent as against 98.0 per cent in 1987-88. Production of petroleum products (POL) in 1988-89 at 45.70 million tonnes increased only by 2.2 per cent as compared to 4.6 per cent in 1987-88. Production of natural gas in 1988-89 at 13.22 billion cubic metres recorded a growth of 15.3 per cent over the previous year.

3.27 The current year's trend in the production of crude oil so far has been encouraging. Production during April-December, 1989 at 25.49 million tonnes was 6.9 per cent more than the level achieved in the corresponding period last year. The major contribution towards this increase was from ONGC which recorded a growth of 15.3 per cent in on-shore production. OIL also recorded a growth of 10.4 per cent in on-shore production of crude oil. However, off-shore production of ONGC rose by only 3.3 per cent. Production target of crude oil for 1989-90 is 34.31 million tonnes. During the first nine months of the current year, 74.3 per cent of the target has been achieved.

3.28 The trend in production of refineries throughput and petroleum products during the current year is good. The refinery crude throughput during April-December 1989 at 38.62 million tonnes is 8.9 per cent higher than that for the corresponding period last year. The capacity utilisation of the refineries during this period was 98.9 per cent which was higher than the last year's level of 96.7 per cent. Production of petroleum products (POL) during April-December this year at 36.10 million tonnes is 9.1 per cent higher than the production during the same period last year. The target for the production of POL for the current year is 50.81 million tonnes and the achievement in the first nine months works out to 71.0 per cent. The import of POL products during April-December this year at 4.74 million tonnes was 4.6 per cent higher than the import of such products during the corresponding period of the previous year. The import of crude oil during the same period at 14.23 million tonnes was 8.5 per cent higher than the previous year's import of 13.12 million tonnes for the same period.

*April-December £Provisional.

3.29 The natural gas sector in recent years has emerged as an important energy source on account of its growing use for both energy and non-energy purposes. During the current year, the production of natural gas upto the end of December is 11.90 billion cubic metres, which is 23.4 per cent higher than the production of 9.64 billion cubic metres during the corresponding period last year. The achievement till the end of December this year is 79.8 per cent of the production target of natural gas for the current year at 14.91 billion cubic metres. Utilisation of gas in 1988-89 was 9.2 billion cubic metres as against 8.0 billion cubic metres in 1987-88. On the basis of the trend in utilisation of natural gas during the first nine months of the current year, it is estimated that about 10.6 billion cubic metres of gas will be utilised during the current year. The increase in the production capacity of nitrogenous fertiliser in recent years has been entirely based on natural gas. Natural gas is also being used for creation of additional power generation capacity in the areas where gas is available. Natural gas is also playing an important role in the production of LPG, ethane, propane and production of sponge iron.

3.30 The Seventh Five Year Plan has envisaged annual growth rate of 6.3 per cent to 6.5 per cent in production and 6 per cent to 7 per cent in consumption of POL. The average annual growth rate in the first four years of the Plan, (*i.e.*, 1985-86 to 1988-89) was 8.9 per cent in production and 6.5 per cent in consumption. In 1988-89, the production of POL increased by 2.2 per cent over the previous year and the consumption increased by 7.2 per cent. During April-December this year, both the production and consumption of POL products increased by 9.1 per cent and 7.8 per cent respectively over the corresponding period last year.

Conservation of Energy

3.31 In respect of petroleum products over 30 per cent of our requirement is being met by imports, which causes a severe strain on balance of payments position. Moreover, oil reserves in the country are limited. It is, therefore, imperative that conservation of petroleum products is maximised by making all out efforts. Some measures have been taken to effect economy in use of petroleum products. Despite these measures share of oil and gas in commercial energy consumption has been steadily growing. For curbing growth in consumption of petroleum products, efficient use of the existing oil and gas reserves, conservation of these reserves and promotion of alternative fuels are needed.

3.32 The measures were taken to conserve petroleum products covering transport, industry, agriculture and the domestic sectors. These include adoption of measures and practices

TABLE 3.8

conducive to increased fuel efficiency and training programme in the transport sector, replacement of old and inefficient boilers and promotion of fuel efficient measures and equipment in the industrial sector, standardisation of fuel-efficient irrigation pump sets in agricultural sector, and development as well as promotion of use of fuel-efficient equipment and devices like kerosene and LPG stoves in the domestic sector and promotion of alternative fuels, etc. These activities are being promoted and coordinated by the Petroleum Conservation Research Association (PCRA). PCRA has been able to achieve annual savings worth Rs. 150 crores during the Sixth Plan period and it expects to achieve savings of Rs. 495 crores in the Seventh Plan. Other area of conservation is the oil refineries which also consume fuel in their operations. The schemes being implemented are revamping, replacement of low efficiency furnaces and boilers, installation of heat exchangers and economisers and cogeneration, etc. Refineries have been able to achieve savings in fuel and loss in consumption to the extent of Rs. 30 crores in 1988-89 alone. In order to ensure effective pursuit of Government's policy for maximising conservation of petroleum products, a Conservation Cell has started functioning recently. Activities of PCRA, and of the Centre for High Technology in respect of refineries are being intensified in identified areas and initiatives are being taken in several new areas.

3.33 Energy Management Cell in the Department of Power acts as a focal point to coordinate the activities of energy conservation. The Cell promotes energy conservation through fixation of specific energy consumption targets mainly in regard to energy intensive industries, energy audits, preparation of action plans, monitoring, demonstration projects, training, standardisation of electrical equipment and appliances commonly used in the domestic and commercial sectors, efficient lighting systems and awareness campaigns on the need and scope of electricity conservation. As a result of periodic reviews, there has been improvement in energy efficiency in the energy intensive industrial sub-sectors like aluminium, fertilisers, textiles, coal, cement, paper, refineries, etc. and also in other sectors like railways, surface transport, agriculture, commercial and household sectors. An Energy Management Centre has been set up in April, 1989 as an autonomous organisation in collaboration with the Commission for European Community to promote research, training and dissemination of relevant information. Bureau of Industrial Costs and Prices (BICP) is also conducting in-depth studies on energy audit for selected energy-intensive industries like aluminium, fertilisers, cement, paper, etc.

3.34. Despite these measures undertaken by various industries, the use of energy per unit of output continues to be high, judged by international standards. There is still considerable scope for achieving better efficiency in use of energy by different sectors. The growth in the demand for energy needs to be contained specially in the context of rise in prices.

Renewable Sources of Energy

3.35 Consistent efforts have been made in the country for the development of new and renewable sources of energy. Major thrusts are on programmes relating to biogas, solar energy, wind power and biomass. Over 12.22 lakh biogas plants have already been set up in the country so far under the National Project for Biogas Development. Annual generation of biogas from these plants is estimated to be equivalent to about 43.20 lakh tonnes of fuel wood valued at Rs. 172.83 crores. Benefits for the environment and women's welfare are additional. In 1988-89, 1.67 lakh plants were set up as against a target of 1.50 lakh plants. The target for 1989-90 is fixed at 1.60 lakh plants. The number of working plants was about 85 per cent. Under the programme for introducing fuel efficient and smokeless chulhas, against a target of 15 lakhs, 18.33 lakh chulhas were set up in 1988-89 bringing the total number installed to 67 lakhs approximately. These are estimated to save 46.9 lakh tonnes of wood valued at Rs. 187.60 crores apart from other environmental and health benefits. During 1989-90, 18 lakh chulhas are targeted to be installed.

3.36. Some progress has been achieved during 1988-89 in the solar thermal extension programme. Physical achievements under this programme include distribution of 6390 solar water heaters, 7554 solar stills, about 1,35,000 solar cookers, etc. Further, about 6000 village hamlets have been provided with solar photovoltaic lighting systems and about 30 experimental solar power plants have been set up. The programme

PERFORMANCE OF INFRASTRUCTURE SECTORS

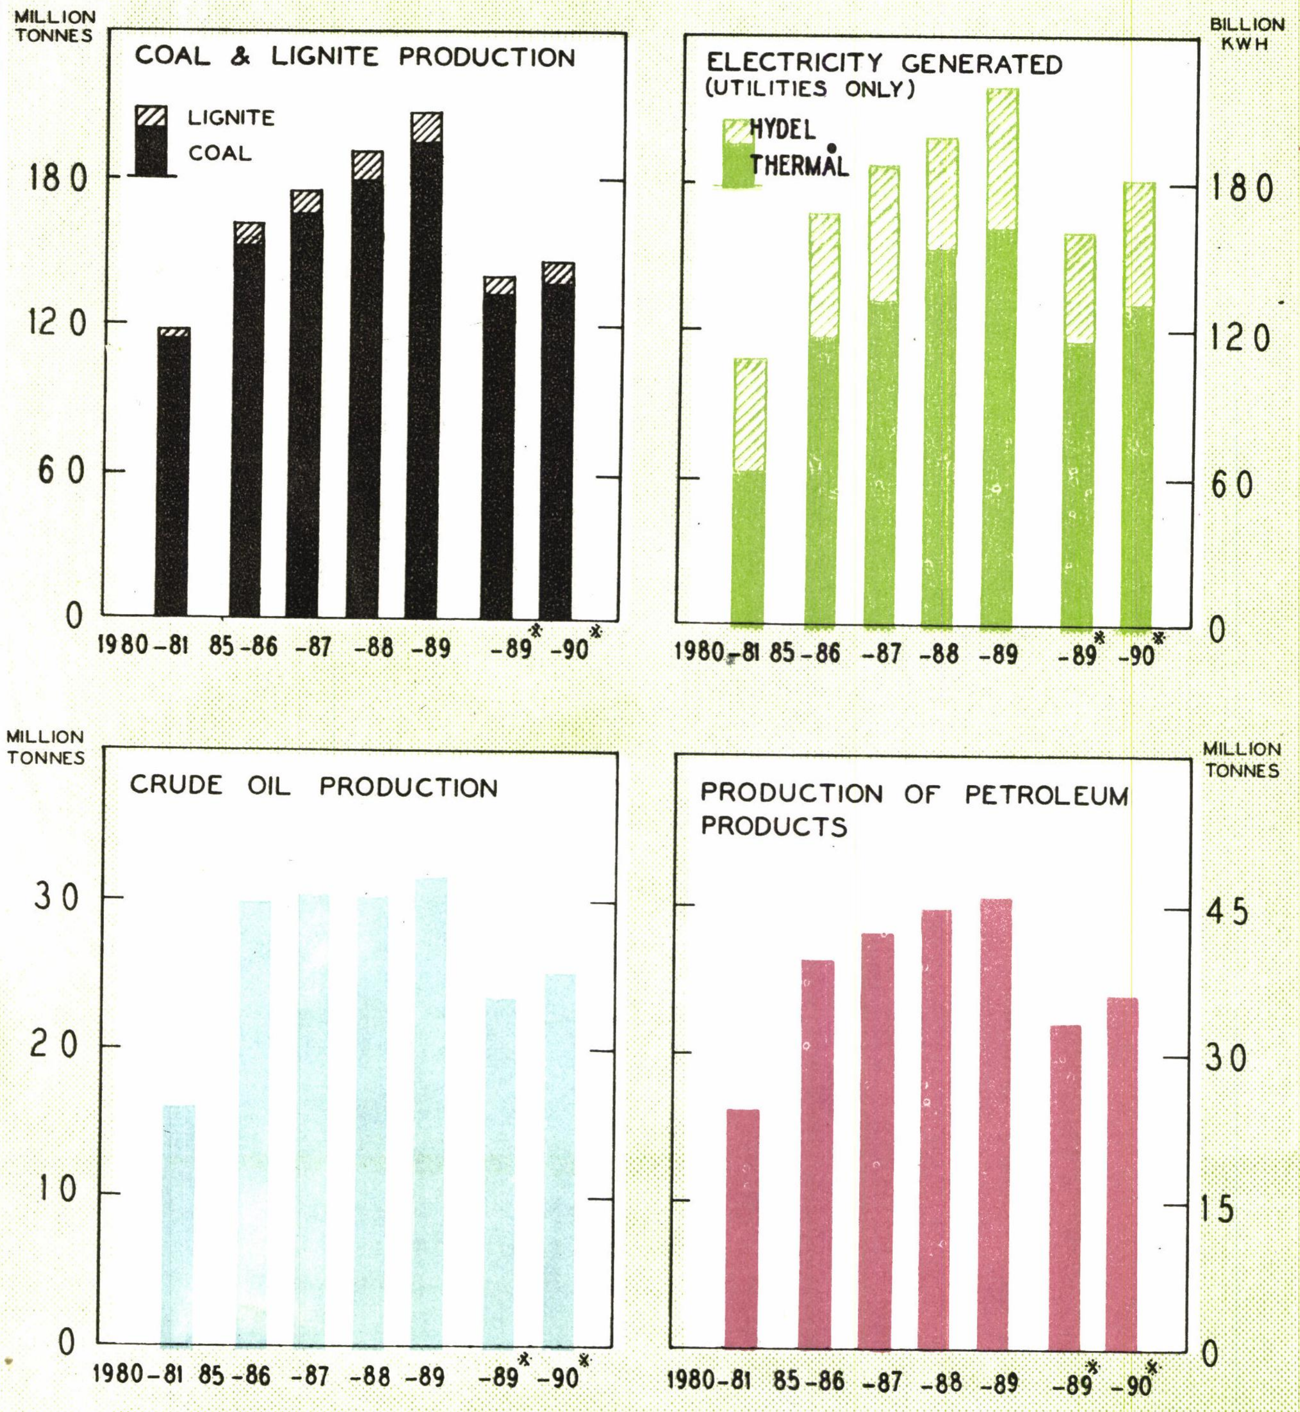
MINISTRY OF FINANCE, ECONOMIC DIVISION.

PERFORMANCE OF INFRASTRUCTURE SECTORS



* APRIL - DECEMBER
• INCLUDING NUCLEAR

MINISTRY OF FINANCE, ECONOMIC DIVISION.

of development of amorphous silicon solar cell technology has been taken up as one of the technology missions and a pilot plant is under construction. Under the wind energy development and demonstration programme, 2461 wind pumps have been installed and wind farm projects of aggregate capacity of over 10 MW have been set up in 6 States so far. 411 biomass gasifier systems which each can achieve a diesel replacement of over 65—70 per cent have been installed under a demonstration programme. Efforts are being made to tap potential resources for harnessing energy from micro hydel systems, ocean and urban and agricultural wastes.

Transport and Communications

Railways

3.37. For the fourth year in succession, there was increase in the freight traffic carried by the railways. The total freight traffic carried in 1988-89 was 329.49 million tonnes (including 27.44 million tonnes of non-revenue traffic), as against 318.5 million tonnes (including 28.3 million tonnes of non-revenue traffic) in 1987-88. Thus, freight traffic in 1988-89 was 11 million tonnes (or 3.5 per cent) more than in 1987-88. Overall transport output in 1988-89 was 230.1 billion tonne—kilometres as against 231.2 billion tonne—kilometres in 1987-88. The marginal shortfall in tonne-kilometres in 1988-89 compared to 1987-88 was on account of a decline in the lead of almost all the bulk commodities and a drop in the foodgrains traffic, a comparatively long lead traffic. The demand for rail transport in respect of freight traffic, in the current year has been estimated at 344 million tonnes and 252 billion tonne-kilometres in terms of tonne—kilometres. In the first nine months of the current year viz. April to December, 1989, the railways lifted 224.19 million tonnes of revenue traffic as against 218.07 million tonnes in the same period last year, i.e., 6.12 million tonnes or 2.8 percent more. In terms of tonne-kms, the traffic carried was 166.86 billion tonne-kms as against 161.98 billion tonne-kms last year, i.e., 4.88 billion tonne kilometres or about 3 per cent more. However, freight traffic in the first nine months in the current year fell short of anticipated demand in the case of foodgrains, coal and steel sectors. The shortfall was made good to some extent by increased loading of iron ore, cement and fertilisers.

3.38 There was a drop in passenger traffic in 1988-89 compared to 1987-88, both in terms of passengers carried and passenger kms. The number of passengers carried in 1988-89 was 3500 million, as against 3792 million in 1987-88. The volume of passenger traffic in terms of passenger kilometres in 1988-89 was 263.7 billion, as against 269.4 billion in 1987-88. The trend this year viz 1989-90 shows that the volume of passenger traffic would be more than the last year. During April—December, 1989 the volume of passenger traffic increased over the corresponding period of 1988-89 both in terms of passengers and passenger kilometres. The number of passengers increased by 2.7 per cent and passenger kms increased by 5.5 per cent.

3.39 At the beginning of the Seventh Plan the size of the railway network was 61,850 route kms. During the first four years of the Seventh Plan, 637 kms of new lines were added and doubling was completed on 728 kms. In the current year, 330 kms of new lines are expected to be completed and 350 kms are expected to be doubled. Only 6,325 route kms. were electrified at the beginning of the Seventh Plan. The Seventh Plan envisaged electrification of 3,400 rkms. In the first four years of the Seventh Plan, 2,358 rkms were electrified and it is proposed to complete electrification of 750 rkms during the current year. With this another trunk route viz. Delhi to Madras would be completely electrified in addition to two routes viz. Delhi to Howrah and Delhi to Bombay via Western Railway, which already have electric traction.

3.40 Technology in key areas viz. track, rolling stock, locomotives, signalling and communications is being continuously updated, with a view to improve operational performance, service levels and bring down operational costs. As part of this technology upgradation programme, high power electric locomotives have been introduced and a new type of wagon for transport of coal to power houses has been designed and introduced, passenger reservation systems have been computerised in four metropolitan and five other major cities and this facility is being extended. Solid state interlocking has been introduced in the area of signalling, and optic fibre in telecommunications. As a prime

£Provisional *April—December

indicator of utilisation of assets on the Railways viz. net tonne—kms per wagon per day, the Seventh Plan envisaged a target of 1350 ntkms per wagon per day on broad gauge and 650 ntkms per wagon per day on metre gauge for the terminal year of the Plan. The target had been surpassed on broad gauge in the second year with an achievement of 1462 ntkms per wagon per day and on metre gauge in the first year of the Seventh Plan with an achievement of 677 ntkms per wagon per day. This has further gone up in 1988-89 to 1453 ntkms per wagon per day on broad gauge and 763 ntkms per wagon per day on metre gauge. The target for the current year on broad gauge is 1475 ntkms per wagon per day.

3.41. The Railways have on Ist March, 1990 released a "Status Paper on Indian Railways" which looks at the various issues faced by the Railways and analyses some of the policy options available. The need for technology upgradation and increase in line capacity to meet future traffic projections are highlighted in the Status Paper. The need for subsidising passenger movement and the movement of essential commodities to reduce the burden on the socially disadvantaged segments of society is also recognised. Decisions on these issues however, have implications for the finances and profitability of the Railways and need to be viewed with great care, particularly in the context of the growing reliance on commercial market borrowings.

Ports

3.42 The Jawahar Lal Nehru Port at Nhava Sheva became the eleventh major port of the country, when it came into operation in May 1989. With its commissioning and augmentation of capacities at other ports, the total cargo handling capacity at the major ports will increase to 149.08 million tonnes by the end of March, 1990 from a level of 141.93 million tonnes in March, 1989.

3.43 Cargo handled at the 10 major ports of the country during 1988-89 at 146.4 million tonnes was 9.5 per cent higher than 133.7 million tonnes handled in 1987-88 and 14.2 per cent above the target of 128.15 million tonnes. Major increases were recorded in the traffic of iron ore, coal, foodgrains and fertilisers. The traffic in vegetable oils, however, declined as compared to 1987-88. Growth in cargo handling achieved during the year at 9.5 per cent was higher than the growth of 7.5 per cent achieved in 1987-88. Cargo handled at almost all the major ports increased in 1988-89 over the previous year. Only in the case of Calcutta and Kandla there was a marginal fall of about 1 per cent at each port. Maximum growth in traffic was recorded by Visakhapatnam port. Visakhapatnam and Madras ports performed very well by exceeding

the target by 34.9 per cent and 38.0 per cent respectively, followed by Paradip by 20.6 per cent. All other ports also achieved their targets. The container traffic tonnage at 5.5 million tonnes in 1988-89 recorded an increase of 9 per cent as compared to the previous year's level of about 5.0 million tonnes. More than 50 per cent of the container traffic continued to be handled at the port of Bombay. The total cargo handling capacity at major ports in 1988-89 remained at 141.93 million tonnes. Capacity utilisation during the year was 103.1 per cent as compared to 94.2 per cent in 1987-88.

3.44 During the period April—December this year, cargo handled at the major ports at 105.88 million tonnes showed a marginal decrease of 1.1 per cent as compared to the corresponding period of 1988-89. The ports of Visakhapatnam, Tuticorin and New Mangalore have exceeded their targets as well as the traffic handled in the corresponding period last year. Bombay port though having achieved the target, handled a cargo traffic which is lower as compared to the corresponding period last year, partly due to some diversion of traffic to J.L. Nehru port. The target fixed for cargo handling at major ports for the current year is 146.00 million tonnes and about 72.5 per cent of the target has been achieved in the first nine months.

Shipping

3.45 Acquisition of Indian shipping tonnage showed signs of improvement. The fleet strength by March, 1989 was 389 vessels of 5.70 million Gross Registered Tonnage (GRT) as compared to 366 vessels with 5.54 million GRT in March, 1988. By January, 1990 the total GRT has risen further to 5.92 million GRT. Coastal shipment of coal to the South via Haldia, Paradip and Visakhapatnam, improved by 14.4 per cent from 4.80 million tonnes in 1987-88 to 5.49 million tonnes in 1988-89. During April—December, 1989 coastal shipment of coal at 4.63 million tonnes was 21.8 per cent higher than 3.80 million tonnes shipped during the corresponding period of 1988.

Telecommunications

3.46 Telecommunications sector performed well in 1988-89 in creating additional switching capacity, providing new telephone connections and in the production of switching equipment. Additional switching capacity commissioned during the year was 4.68 lakh lines being 37.6 per cent higher than the 3.40 lakh lines commissioned during 1987-88. About 25.4 per cent of this capacity expansion was in the four metro districts of Delhi, Bombay, Calcutta and Madras, where it was higher by 17.4 per cent over the previous year.

3.47 The number of new telephone connections provided during 1988-89 was 3.75 lakh Direct Exchange Lines (DELs) which was 19.7 per cent higher than the previous year's level of 3.13 lakh DELs. The four metro districts accounted for around 27.4 per cent of the total new telephone connections provided during the year. While there was a decrease of over 38 per cent as new telex capacity of 2063 lines was added during the year, the number of new telex connections provided at 3900 was about 13.4 per cent higher than the previous year's achievement. Laying of telephone cables during 1988-89 at 59.27 lakh Conductor kms (Ckms) was 13.7 per cent higher than the achievement of 52.11 lakh Ckms during 1987-88. Total production of switching equipment (strowger, crossbar and electronic) by the Indian Telephone Industries (ITI) was production value equivalent to 7.25 lakh lines which was 41.6 per cent higher than the figure for 1987-88.

£Provisional. *April—December.

3.48 During April—December 1989 the number of direct exchange lines, i.e. new telephone connections, provided during the period at 1.73 lakh DELs was also more than the previous year's achievement of 1.52 lakh DELs by 13.8 per cent. Of the total connections provided, 25.4 per cent were in four metro cities. The provision of new telephone connections in other regions was also higher by 22.9 per cent than in the corresponding period of the previous year. So far 37.8 lakh Ckms of cable have been laid during the period April—December this year as against 33.13 lakh Ckms of the corresponding period of the previous year. ITI produced production value equivalent to 4.97 lakh lines of switching equipment during April—December this year which is about 36.9 per cent more than the production value equivalent to 3.63 lakh lines in the corresponding period of the previous year. The bulk of this increase was in the electronic equipment. Production of electronic switching equipment at production value equivalent to 3.41 lakh lines exceeded by 104.3 per cent the production value equivalent to 1.76 lakh lines during the corresponding period of the previous year.

Basic Industries

Steel

3.49 Production of saleable steel in 1988-89 by the six integrated steel plants at 9.21 million tonnes recorded a growth of 7.2 per cent over the previous year's production of 8.59 million tonnes, but marginally fell short of the target of 9.28 million tonnes. There was an acceleration in the growth of steel production in the year from a modest growth of 4.5 per cent achieved in 1987-88. The five integrated steel plants of Steel Authority of India (SAIL) produced 7.26 million tonnes of saleable steel in 1988-89 achieving a growth of 8.8 per cent over the previous year's production of 6.67 million tonnes. There was a perceptible improvement in the capacity utilisation of the SAIL plants; from 77 per cent in 1987-88 to 80 per cent in 1988-89. Total production of finished steel including that of the secondary producers and mini-steel plants during the year was 11.54 million tonnes which was 5.7 per cent higher than the production at 10.92 million tonnes in 1987-88. With an import of 1.61 million tonnes to supplement the domestic production, estimated consumption of finished steel in 1988-89 was about 13.6 million tonnes.

3.50 There has been a setback in the production of saleable steel by the integrated steel plants so far during the current year. Production during April—December, 1989 at 6.43 million tonnes was 3.2 per cent lower than the production of 6.64 million tonnes in the corresponding period last year. Production by SAIL during the period declined to 5.00 million tonnes from 5.22 million tonnes in the corresponding period last year. Fall in production has been substantial in Durgapur (—18 per cent) and Indian Iron and Steel Company (—29 per cent) under SAIL. Overall capacity utilisation of SAIL plants for saleable steel drifted to 76 per cent from 78 per cent in the corresponding period last year. Production by Tata Iron and Steel Company (TISCO) at 1.43 million tonnes was almost equal to the achievement in April—December last year.

TABLE 3.12

Performance of Steel Sector

(Million Tonnes)

*April—December

£Provisional

3.51 There was considerable shortfall in the production of pig iron by the five integrated steel plants of SAIL in 1988-89. SAIL's production of pig iron during the year at 1.01 million tonnes was about 23.5 per cent short of the target of 1.32 million tonnes and 15.8 per cent lower than the production at 1.20 million tonnes in 1987-88. There has been a slight improvement in the production of pig iron during the current year. SAIL produced 0.96 million tonnes of pig iron in April—December, 1989 as against 0.77 million tonnes in the corresponding period last year thereby recording a growth of 24.7 per cent. Bhilai, Durgapur, Bokaro and IISCO plants of SAIL have improved their production of pig iron substantially.

Cement

3.52 Performance of the cement industry was quite good in 1988-89. Cement production at 44.27 million tonnes was 11.9 per cent higher than the previous year's production of 39.57 million tonnes and marginally above the target of 43.50 million tonnes. Growth achieved by the industry during the year was the highest in any year of the Seventh Five Year Plan. Overall capacity utilisation of the industry improved from 72 per cent in 1987-88 to 77 per cent in 1988-89. Production of cement in 1988-89 outstripped the domestic demand estimated at 40.42 million tonnes.

£Provisional   *April—December

3.53 All controls on price and distribution of cement were lifted by the Government effective from 1st March, 1989. Cement production during the first nine months of the current year at 32.48 million tonnes was nominally higher by 0.2 per cent over the production at 32.43 million tonnes in the corresponding period last year. Installed capacity and production of cement for 1989-90 are targeted to be 59.02 million tonnes and 49.00 million tonnes respectively. About 66.3 per cent of the production target has been achieved in the first nine months of the year. The industry owes much of this higher growth to the large cement plants in the private sector which performed better while production trends in the public sector and mini and white cement plants remained rather subdued. The public sector could produce only 3.83 million tonnes of cement during April—December, 1989 as against 3.91 million tonnes in the corresponding period of 1988, thereby showing a decline of 2.0 per cent.

Fertilisers

3.54 Coming out of the spell of drought and a near stagnation in production, the fertiliser industry staged a smart recovery in 1988-89. By producing 8.96 million tonnes of fertiliser, nitrogenous plus phosphatic, which was an all time high, the industry achieved a growth of 25.7 per cent over the previous year's production of 7.13 million tonnes. Production of nitrogenous fertiliser at 6.71 million tonnes was 22.8 per cent higher than the previous year's production of 5.47 million tonnes and exceeded the target of 6.40 million tonnes by 4.8 per cent. Production of phosphatic fertiliser went up by 35.2 per cent from 1.67 million tonnes in 1987-88 to 2.25 million tonnes in 1988-89, marginally exceeding the target of 2.20 million tonnes. Installed capacity of the industry has also gone up substantially from 7.04 million tonnes in 1987-88 to 8.15 million tonnes in 1988-89 in nitrogen and from 2.1 million tonnes to 2.7 million tonnes in phosphates. The overall capacity utilisation of the

industry improved from 76.7 per cent in 1987-88 to 85.6 per cent during the year due to good monsoon and there was considerable reduction in stocks. Total offtake of fertilisers in 1988-89 at 11.03 million tonnes (including 1.14 of potassic fertiliser) was higher than the target of 10.20 million tonnes. At the close of the year, stocks of indigenous fertilisers, in terms of nutrients, was 1.55 million tonnes of nitrogen and 0.26 million tonnes of phosphates as against 2.22 million tonnes and 0.44 million tonnes respectively at the close of the previous year. With the increase in domestic production, since 1986-87, there has been a substantial fall in the import of fertilisers, particularly nitrogenous fertiliser.

*April—December £Provisional

3.55 Production of nitrogenous fertiliser during April—December, 1989 at 4.93 million tonnes was higher than the production at 4.91 million tonnes in the corresponding period last year by 0.4 per cent as against a growth of 26.1 per cent achieved in April—December last year. There was a fall in the production of phosphatic fertiliser from 1.85 million tonnes in April—December last year to 1.26 million tonnes in April—December this year, marking a decline of 31.7 per cent as against a growth of 64.5 per cent achieved in the corresponding period last year. The fall in the production of phosphatic fertiliser was mainly due to a shortage in imported phosphoric acid. Compared to last year, the capacity utilisation of the industry during April—December 1989 declined from 84.1 per cent to 80.8 per cent in nitrogen and from 96.1 per cent to 61.3 per cent in phosphates.

3.56 Targets of production set for 1989-90 are 7.0 million tonnes of nitrogenous fertiliser and 2.4 million tonnes of phosphatic fertiliser. Upto the end of December, 1989, 70.5 per cent of the target has been achieved in nitrogen and 52.7 per cent in phosphates. Consumption of fertilisers during the current year is expected to be around 12 million tonnes (including 1.2 million tonnes of potassic fertiliser for which no indigenous capacity exists). About 78 per cent of this demand is likely to be met by domestic production.

CHAPTER 4

INDUSTRIAL PERFORMANCE AND POLICIES

After a steady progress during first four years of the Seventh Plan, the growth of industrial production particularly in the manufacturing sector has dropped rather sharply during the current year. Latest available data on the Index of Industrial Production (IIP) shows an overall growth of only 5.2 per cent during April-November 1989 as compared to 9.4 per cent during the corresponding period of last year. The manufacturing sector which accounts for more than three-fourth of the total weight in the Index, recorded a still lower growth of 3.6 per cent as compared to 10.2 per cent during the corresponding period of last year. The deceleration in growth has, however, been selective and confined to a few industries like sugar, steel, cement, fertilizer, cotton cloth (mill sector), commercial vehicles and consumer electronics, which have been affected by certain industry specific problems like constraints in demand, shortage of imported raw materials, etc. The overall investment climate, however, remains bright and available indicators suggest that there has been a growth in the investment activity.

Industrial Production

4.2 After a mild deceleration during the drought year 1987-88, industrial production recovered in 1988-89 and grew by 8.8 per cent as compared to 7.3 per cent in 1987-88. Among the industrial sector the Mining and Quarrying sub-sector recorded a growth of 7.9 per cent which was the highest annual rate achieved during the Seventh Five Year Plan. Growth of the Manufacturing sector at 8.9 per cent also exceeded the previous year's growth of 7.9 per cent, and that of the Electricity sub-sector at 9.6 per cent was also higher than the growth of 7.6 per cent achieved in 1987-88. (Table 4.1)

TABLE 4.1

Annual Growth Rates in Major Sectors of Industry

Year	Mining	Manufacturing	Electricity	General
(Weight) . .	(11.46)	(77.11)	(11.43)	(100.00)

4.3 Among the 17 major industry groups at 2 digit level of National Industrial Classification (NIC), all except two-cotton textiles and leather & leather goods (with a combined weight of 12.80 per cent in the Index of Industrial Production) recorded positive growth rates during 1988-89 (Table 4.2). Production of cotton textiles, mainly in the mill sector, declined by 3.2 per cent and that of leather & leather goods by 4.4 per cent. Five industry groups *viz.* beverages and tobacco, jute, wood and wood products, non-metallic mineral products and non-electrical machinery and machine tools with a total weight of 13.26 per cent which exhibited recessionary trend in 1987-88 recovered and showed positive growth in 1988-89. Twelve industry groups with a total weight of 55.34 per cent recorded accelerated or stable growth

MINISTRY OF FINANCE, ECONOMIC DIVISION.

rates, while three industry groups—metal products, electrical machinery and appliances (including electronics) and miscellaneous manufactured products with a combined weight of 8.97 per cent showed some deceleration of growth in the year.

4.4 As mentioned earlier, in contrast to an upswing shown during last year, the Index of Industrial Production has indicated a sharp deceleration during the first eight months (April—November) of the current year. Growth in the overall industrial production during this period was only 5.2 per cent as against 9.4 per cent in the corresponding period of last year. The deceleration has been solely due to the poor performance of the manufacturing sub-sector. Growth of this sub-sector during the said period drifted to 3.6 per cent this year from 10.2 per cent last year. Among the 17 major industry groups (at 2-digit level of NIC), four groups—Food products, Jute and Jute products, Wood and wood products and Basic metals—showed decline in production. Other 13 industry groups with a combined weight of 59.5 per cent in the IIP recorded positive growth and 3 of them—Beverages and tobacco, Textile products and Electrical machinery and appliances recorded growth above 10 per cent. Infrastructural sub-sectors *viz.* mining and quarrying and electricity, however, maintained the tempo of accelerated growth. Growth of mining and quarrying sub-sector during the April-November period improved from 6.8 per cent last year to 8.4 per cent this year and that of electricity sub-sector, from 7.5 per cent to 12.1 per cent.

TABLE 4.2

Trends in the Performance of Manufacturing Sector

(Base : 1980-81 = 100)

Code	Industry Group	Weight	Growth Rate (Per cent)					
			Seventh Plan Target	1985-86 / 1984-85	1986-87 / 1985-86	1987-88 / 1986-87	1988-89 / 1987-88	1989-90@ / 1988-89 @

NOTE :—For April—November 1988 and 1989, Wholesale Price Index (WPI) base : 1981—82=100 has been used instead of WPI base : 1970—71=100 used for earlier periods.

4.5 Table 4.3 gives the indices of industrial production disaggregated into use-based industrial groups. Basic and consumer durable industries which had suffered a set-back in 1987-88 due to drought regained the tempo of growth in 1988-89. Following the past trend, consumer durables recorded the highest growth rate of 22.1 per cent during the year—the highest ever achieved in the eighties. There was a further decline in the growth of capital goods industries from 15.9 per cent in 1987-88 to 7.4 per cent in 1988-89. Consumer non-durables too showed a downslide in growth after a modest recovery in 1987-88.

4.6 Provisional production data at the disaggregated level available upto November 1989 in respect of 155 industries with a total weight of 85.5 per cent in the Index of Industrial Production show that the deceleration in the manufacturing sector has not been uniform across the industries. Eighty four manufacturing industries with a total weight of 38.1 per cent in the IIP showed positive growth, and 39 of them with a total weight of 9.9 per cent recorded growth above 10 per cent. Fifty nine manufacturing industries with a total weight of 25.0 per cent showed negative growth. Some of the important industries which showed growth over 10 per cent are saleable pig iron, synthetic detergents, aluminium, leather clothes, soda ash, agricultural tractors, jeeps, passenger cars, scooters and mopeds, viscose staple fibre, polyester fibres, wrist watches, computer systems and peripherals, tetracycline and penicillin. On the other hand, saleable steel, commercial vehicles, diesel engines, power-driven pumps, jute goods, caustic soda, polyethelene, cloth (mill sector), streptomycin, vanaspati, cement, sugar and phosphatic fertilisers are some of the major industries which have shown recessionary trend during the current year.

Investment Climate and Capital Market

Investment Climate

4.8 Better performance by all sectors of economy, particularly the agriculture and infrastructure sectors in 1988-89 provided an impetus to the tempo of industrial investment. Approvals granted for capital issues have gone up by 57 per cent from Rs. 5167 crores in 1987-88 to Rs. 8122 crores in 1988-89. Import of capital goods approved by the Capital Goods (Main) Committee in 1988-89 at Rs. 1017 crores was higher by 26 per cent compared to Rs. 806 crores in the previous year. Total financial assistance to industries sanctioned by the all-India financial institutions have also gone up substantially to Rs. 13919 crores in 1988-89 from Rs. 8787 crores in 1987-88. With more industries taken out of the purview of industrial licensing, the number of industrial licences issued in 1988-89 declined to 332 from 349 in 1987-88, although there was an increase in the number of letters of intent issued from 971 in 1987-88 to 1215 in 1988-89.

4.9 Available data as presented in Table 4.5, indicate that the investment climate so far during the current year has been encouraging. During the period April—December 1989, 247 industrial licences and 900 letters of intent have been issued as against 234 and 933 respectively in the corresponding period of last year. Capital issues approved have more than doubled from Rs. 5344.23 crores in April—December last year to Rs. 10713.58 crores in April—December, this year.

Capital Market

4.10 The capital market which remained somewhat subdued in 1987-88 had turned optimistic in 1988-89. An estimated amount of Rs. 4544 crores was raised through the capital market in the year as against Rs. 3890 crores in 1987-88. The down trend in equity prices observed during 1987-88 was reversed and ruled firm for most part of the year 1988-89. RBI's average index of All-India Ordinary Share Prices (Base : 1980-81 = 100) moved up from 207.3 in 1987-88 to 248.3 in 1988-89.

4.11 The capital market has been remaining by and large buoyant during the current year. RBI's All India Index of Ordinary Share Prices (Base : 1980-81 = 100) stood at 384.9 on January 27, 1990 recording a spurt of 25 per cent over March 25, 1989 index of 308.2.

4.12 On April 1, 1989, three All-India Financial Institutions, *i.e.*, IDBI, ICICI and IFCI introduced the Exchange Risk Administration Scheme with a view to extending measures of protection to borrowers of foreign currency loans against exchange risks as also for distributing cost of such protection equitably amongst the borrowers. The volume of resources earned through the capital market has increased at a very rapid rate. This positive feature has to be sustained by maintaining the confidence of the investors in the market. Major policy initiatives taken during the current year for strengthening the capital market are :—

(1) The Controller of Capital Issues would impose the following standard conditions which were earlier imposed as special conditions on large-sized issues of capital, on all approvals of Rs. 50 crores and above :

(i) The proceeds from the proposed issue till deployment in the proposed activities, can be invested only in fixed duration deposits/investments with approved financial institutions/ public undertakings (other than in

public sector bonds) and be used strictly for the requirement of the projects/activities mentioned in the application and not for any other purpose.

(ii) The utilisation of the proceeds of the issue will be monitored by the concerned financial institutions.

(iii) The proposed amount will be called at 25 per cent on application, 25 per cent on allotment and the remaining 50 per cent in two or more calls to be made only after the satisfaction of the monitoring institution about the use of the funds already collected.

(2) The Government have approved the creation of Over the Counter Exchange of India (OTC) which would help the introduction of a multi-tiered market for securities.

(3) Stock Exchanges have been directed to transfer the scrip of a company from the specified section to the spot section if the company intends to come out with a rights issue.

(4) Ceilings on inter-corporate loans and investments were raised from 10 per cent to 20 per cent and 25 per cent respectively.

(5) The Employers' Option Scheme was partially modified restricting the allotment of the unavailed portion of the public/rights issues earmarked for employees only to financial or investment institutions or mutual funds.

(6) In January 1990, the Government modified the guidelines for bonus shares. According to the new guidelines, a company may make a further application for issue of bonus shares after 12 months instead of 24 months previously, from the date of sanction of the earlier issue.

Industrial Policy

4.13 The initiatives taken in the recent years, to reform the over all industrial policy regime to make it more conducive to the promotion of modernisation, cost efficiency and competitiveness can be grouped into 3 categories; (i) measures to facilitate capacity creation; (ii) measures to facilitate output expansion; and (iii) measures to remove procedural impediments.

Measures to facilitate capacity creation

4.14 *Delicensing :* Automobile tyres and tubes were delicensed during the current year for all industrial undertakings including MRTP/FERA companies, subject to specified locational policy. The delicensing facility has now been extended to cover items reserved for small scale sector, weaving units employing less than 50 employees and certain items covered under the broad-banding of telecommunication equipment, industrial control instrumentation system, computer peripherals, etc.

4.15 *Technical Development Fund (TDF) :* Government have taken some major steps in 1988-89 to widen the scope and coverage of the fast track scheme introduced earlier to encourage modernisation and technological upgradation of the existing industrial units. The scheme is administered by a Committee in the Ministry of Industry, which acts as a single window for composite import packages. The ceiling for import under TDF has now been raised to a foreign exchange equivalent of Rs. 3 crores per unit per financial year, relaxable in deserving cases. The earlier limit of 40 per cent on capacity expansion arising out of implementation of TDF approvals has been relaxed for non-MRTP and non-FERA companies (including units registered under Section 20(b) of the MRTP Act in respect of product(s) in which they are not dominant) and sick industrial units reported to the Board for Industrial and Financial Reconstruction (BIFR).

4.16 The distance and capacity norms under the Sugar Licensing Policy were relaxed for new sugar factories in the public and co-operative sectors. The capacity norm is reduced from 2500 TCD (Tonnes Cane crushed per day) to 1750 TCD subject to expansion to 2500 TCD

within 5 years and spatial distance norm from 40 kms to 25 kms subject to certain conditions.

4.17 Industrial units licensed or registered for any finished product and manufacturing components and parts for captive consumption are now allowed merchant sale of such parts and components subject to certain conditions *i.e.* the turnover from such merchant sale in domestic market should not exceed 25 per cent of the turnover of the finished product.

4.18 Licensing of fresh capacities in the steel industry for the manufacture of cold rolled strips/sheets was liberalised. Manufacturers of bicycles, precision tools and coated steel strips/sheets are now allowed to manufacture cold rolled strips/sheets for their captive use, within certain limits. Government have also decided to create additional capacity for ferro-nickel and ferro-silicon.

4.19 *Minimum Economic Capacity (MEC)* : The policy of prescribing minimum capacity levels for selected industries was introduced by the Government with a view to preventing fragmentation of capacity at uneconomic levels and improving cost efficiency in the long run. Under this policy existing manufacturing units are automatically allowed to expand their capacities upto the prescribed minimum economic levels while new units are sanctioned only for the minimum capacity levels. Manufacture of by-products obtained in the production of main products is also allowed freely. During the current year more industries were brought under the purview of MEC stipulations and capacities refixed for a few industries. Now, there are 108 industries for which MEC has been prescribed.

Measures to Facilitate Output Expansion

4.20 *Broad-Banding:* The facility of broad-banding which enables manufacturing enterprises to adjust their product—mix in line with changing market conditions and facilitate better capacity utilisation has been further extended to include Glass Fibre industry and Man-made Fibre industry in Cellulose Fibre sector. Manufacture of hot and cold rolled steel strips/sheets is now broad-banded within the existing licensed capacity. Units licensed for manufacture of hot-rolled strips/sheets are allowed to set up captive capacity for making steel slabs. Altogether 45 items have been brought under the purview of broad-banding.

4.21 Broad—banding is permitted within the existing licensed capacity and is not available to an item reserved for small scale sector or public sector. However, in cases where an existing industrial undertaking is already manufacturing a reserved item, the capacity will be pegged at the existing level. Installation of additional equipment to the extent of 10 per cent of the existing book value of the plant and machinery used for products under broad-banding has also been permitted. Broad-banding facility can be availed of by MRTP/FERA companies in case of Appendix-I items. The facility will also be available for MRTP/FERA companies for non-Appendix—I items in accordance with certain prescribed guidelines. There has been no change in the policy enunciated earlier in this respect.

Measures to Remove Procedural Impediments

4.22 Government have taken a number of measures to simplify the administrative procedure and facilitate smooth and speedy implementation of industrial investment projects. The period of validity of letters of intent issued and registrations granted by DGTD after 1st June, 1985 has been increased to three years. Procedure for setting up industrial units by foreign companies has also been simplified.

4.23 The stipulation of routing the industrial licence applications for sugar industry through the State Government has now been dispensed with. Prospective entrepreneurs may now submit industrial licence application for setting up new sugar factories as well as expansion of existing units direct to the Secretariat for Industrial Approvals in the Department of Industrial Development instead of submitting to the State Government for onward transmission to the Secretariat for Industrial Approvals. The applications as and when received will be circulated to the concerned scrutinising agencies and State Government for their comments. This change in procedure is in order to bring about uniformity in respect of industrial licence applications and also for streamlining the policy.

Industrialisation of Backward Areas

4.24 There has been a marginal increase in the number of industrial licences issued for backward areas in April-December this year compared to those issued in the corresponding period of last year. (Table 4.5). But less number of letters of intent were issued for backward areas during the period, i.e., 422 compared to 479 in April-December last year. The number of registrations issued by the Secretariat for Industrial Approvals (SIA) under the Delicensing Scheme also showed a nominal fall; 560 as against 563 in the corresponding period of last year. DGTD registrations issued to backward areas during the period declined to 176 from 298 in April-December last year. These available indicators, owing to their mixed behaviour, do not present a clear picture of the flow of industrial investment to backward areas during the current year.

4.25 A total amount of Rs. 827.46 crores has been reimbursed to the State/Union Territories as central investment subsidy for notified backward areas since the inception of the scheme in 1971 till the end of 1988-89. The amount of subsidy reimbursed in 1988-89 was Rs. 154.97 crores as against Rs 154.35 crores in 1987-88. The scheme has been discontinued since 1-10-1988. The Transport Subsidy Scheme on industrial raw materials and output for selected hilly/remote areas introduced in 1971 will be in operation till the end of March 1990.

Growth Centres

4.26 Lack of adequate infrastructural facilities is one of the major impediments hindering the industrialisation of backwatd areas. With a view to overcoming this impediment, the Government decided last year to set up 100 growth centres spread across the country over the next five years or so. It was decided initially to set up 61 growth centres in the first phase. These centres were allocated to 16 major States, and 9 smaller States and Union Territories based on three criteria; namely, population, area and industrial backwardness as measured by inverse of the ratio of number of factory workers to the population of the State. Smaller States and Union Territories were given one growth centre each and a minimum of two growth centres were allocated to other States so that the regional spread of these centres is kept balanced. In October 1989, nine more growth centres were sanctioned raising the total number of growth centres to be set up in the first phase of the programme to seventy. Distribution of these growth centres among the States and Union Territories are as follows; 8 in U.P., 6 each in Bihar and Madhya Pradesh, 5 each in Maharashtra and Rajasthan, 4 each in Andhra Pradesh and Orissa, 3 each in Assam, Gujarat, Karnataka, Tamil Nadu and West Bengal; 2 each in Haryana, Jammu & Kashmir, Kerala and Punjab and 1 each in Arunachal Pradesh, Goa, Himachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Pondichery and Tripura. The criteria for selection of growth centres as mentioned in the last year's survey remain unchanged.

4.27 Each growth centre will acquire about 400 to 800 hectares of land for infrastructural development and for onward allocation primarily to small and medium sized units. Apart from the cost of land and its development, the other items eligible for financing under this scheme are provision of water supply, telecommunication facilities, construction of access roads, effluent disposal system, power distribution net-work within the growth centre and upgradation of existing schools, industrial training institutes, etc. Funds for augmentation of power supply are to be provided under the State Plan separately. Adequate banking facilities will also be provided in the growth centre but the expenditure on this will be borne by the banks concerned. Growth centres selected under the Scheme will be included in category 'B' (unless it is already included in Category 'A') of the list of backward areas and will be entitled to all incentives available to category 'B' areas.

Small Scale Industries

4.28 The small scale sector has been assigned an important role in the industrial economy of the country on account of some of its inherent advantages like low capital intensity and high employment generation potential. Besides, the sector promotes decentralisation of industrial activity and help in widening of the entrepreneurial base. Special emphasis has been

laid on the upgradation of technology and modernisation of the small scale sector during the Seventh Plan.

4.29 The small scale industries have made a steady progress over the years. The number of units have been estimated to have gone up from 15.76 lakhs in 1987-88 to 17.01 lakhs (provisional) at the end of 1988-89, showing an increase of about 7.9 per cent. The employment in the sector is estimated to have increased from 107 lakh persons in 1987-88 to 113 lakh persons (provisional) in 1988-89, marking an increase of 5.6 per cent. At current prices, the production in the small scale sector in 1988-89 has been estimated at Rs. 106875 crores (provisional) as compared to Rs. 87300 crores (revised) in 1987-88 thereby registering an increase of about 22 per cent. During 1988-89, the production has been estimated to be of the order of Rs. 82400 crores (at 1984-85 prices) as against Rs. 72880 crores in 1987-88, showing a growth of about 13 per cent. Direct exports from small scale sector during the year 1987-88 are estimated at Rs. 4535 crores (provisional) accounting for about 29 per cent in the total direct exports from the country during the year. As a major policy initiative to give a new thrust to the small and village industries, a new department.—'The Department of Small Scale, Agro and Rural Industries' was created in the Ministry of Industry in January, 1990.

4.30 Government have introduced a wide range of policies and programmes to support the development of small scale sector. To this end, an intensive institutional support network has been created. Important among these include assistance in marketing through the Small Industries Development Corporations in different States, provision of consultancy services, common facility services including testing facilities, technical and entrepreneurial training, etc. Apart from the infrastructural support to the small scale sector, Government have also pursued a policy of providing protection and purchase preference to the products of the small scale sector. The total number of items reserved for exclusive manufacture in the small scale sector stood at 836 as on 31-1-1990. Under the Government Stores Purchase Programme,over 400 items have been reserved for exclusive purchase from small scale sector, KVIC and Womens' Development Corporations.

4.31 With a view to further strengthening the provision of financial assistance to small scale sector, especially to the smaller amongst the small scale units,several schemes have been introduced in the recent past : the Small Industries Development Fund in 1986, National Equity Fund in 1987 and the Single Window Scheme in 1988. For meeting the long-standing demand of small scale industries for a separate Apex Bank for providing assistance to them, the Government introduced a Bill on 12th May1989 for the setting up of a Corporation by the name "The Small Industries Development Bank of India" (SIDBI). After receiving the Presidential assent, it has become an act on 25-10-1989. The authorised capital of the SIDBI shall be Rs.250 crores with an enabling provision to increase it upto Rs.1000 crores by IDBI. SIDBI has two funds viz. Small Industries Development Fund and Small Industries Development Assistance Fund. Work relating to Small Industries Development Fund and National Equity Fund, which is being presently handled by IDBI is proposed to be transferred to SIDBI.

4.32 The National Equity Fund (NEF) set up in 1987 provides equity-type support to small entrepreneurs for settiug up new projects in tiny/small scale sector and also assistance for rehabilitation of viable sick units in the SSI sector. Soft seed capital assistance in the form of loan to meet the gap in the equity after taking into account the promoters' contribution to the project subject to a maximum of 15 per cent of project cost within a ceiling of Rs. 75,000 per project is provided under NEF. The Single Window Scheme (SWS) introduced in 1988 provides working capital loans along with term loans for fixed capital to new tiny and small scale units having project cost upto Rs. 5 lakhs and working capital requirement upto Rs. 2.5 lakhs. During the current year, it has been decided that the projects covered under the Single Window Scheme can also avail of the assistance under the National Equity Fund if such projects satisfy the eligibility criteria under both the Schemes. However, the assistance from

the National Equity Fund is admissible only for the creation of fixed assets and not for meeting the working capital requirement. Besides, the new units which were sanctioned term loans by SFCs/twin-function SIDCs on or after 1-1-1988, but have not been able to obtain working capital requirment from the banks to commence production can also be covered under the Single Window Scheme provided they meet the eligibility criteria. Instructions have also been issued for clearing of proposals within 60 days of the receipts of application under the Single Window Scheme.

4.33 The District Industries Centres (DIC) programme was started in 1978 as a centrally sponsored scheme with a view to provide all the services and support to village and small scale enterprises under a single roof for effective development of small industries in the widely dispersed rural areas and small towns of the country. At present, 422 DICs are functioning and providing assistance to small scale industries dispersed in 431 districts of the country. In order to assess the strength and weaknesses of the DIC programme, an evaluation was carried out in 1988 by 5 reputed institutions in the country, viz., Institute of Economic Growth, Delhi; Indian Institutes of Management, Bangalore and Ahmedabad; Gujarat Industrial and Technical Consultancy Organisation, Ahmedabad; and Management Development Institute, Gurgaon. The findings of the evaluation teams are under examination.

4.34 The scheme for providing self-employment opportunities to educated unemployed youth in the country continued to be in operation for the entire period of the Seventh Plan. An evaluation of the scheme in selected States reveals that 70 per cent of the units established under the scheme were actually working; annual income per unit was about Rs. 11,000, cost of creation of employment per person under the scheme was also Rs. 11,000; average employment generated per unit was 1.80 and average credit per unit provided by the banks was about Rs. 13,000. The main problem in the implementation of the scheme was found to be the delay in disbursement and underfinancing by the banks. Under the scheme a target of 2.50 lakh beneficiaries was fixed for 1988-89. Information available upto 31-1-1990 shows that 1.92 lakh cases were sanctioned by banks involving a total assistance of Rs. 404.32 crores, of which, Rs. 201.83 crores was disbursed to the beneficiaries.

4.35 For technological upgradation of the small scale sector, Tool Room and Training Centre facilities are provided at Calcutta, Ludhiana and Hyderabad with assistance from international agencies. These centres provide consultancy services to engineering industries on processes of production, standardisation of components, product development, design, etc. and training facilities to workers and supervisory staff. A few more such centres are being set up in different parts of the country.

4.36 Since October 1989, those items of plant and machinery which contribute to modernisation of small scale units viz., pollution control equipment and pure R&D equipment have been excluded for computing the ceiling value of plant and machinery viz., Rs. 35 lakhs for SSI units and Rs. 45 lakhs in the case of ancillary units.

4.37 The second All-India Census of Small Scale Industrial Units registered with the State/UT Directorates of Industries as on 31st March, 1988 has been taken up by the Small Industries Development Organisation. The Census is expected to cover about 10 lakh units and to fill the void of timely and reliable data which has been a persisting problem with the SSI sector for long.

Khadi and Village Industries.

4.38 Khadi and village industries (including handlooms), constitute an important segment of the industrial economy of the country. The estimated production of khadi and village industries under the Khadi and Village Industries Commission (KVIC) in 1988-89 was Rs. 1745 crores as against a target of Rs. 1588 crores. About 43.5 lakh persons were employed in the sector during the year. During the current year, the sector is expected to provide employment to 45 lakh persons. In the handloom sector production of cloth in 1988-89 at 3665 million metres recorded a growth of 4.5 per cent over the previous year. Production of handloom cloth is targeted to be 4600 million metres during the current year.

The sector employed 78 lakh persons and exported handloom fabrics, made-ups and readymades valued at Rs. 305 crores in 1988-89.

Industrial Sickness

4.39 Growing incidence of sickness has been one of the persisting problems faced by the industrial sector of the country. Substantial amount of loanable funds of the financial institutions is locked up in sick industrial units causing not only wastage of resources but also affecting the healthy growth of the industrial economy. At the end of December 1987, the latest period for which data are available, there were more than 2 lakh sick industrial units in the portfolios of all financial institutions and scheduled commercial banks involving an outstanding bank credit of Rs. 6256 crores (Table 4.6). Between December 1986 and December 1987, the number of sick units has gone up by nearly 40 percent and bank credit outstanding against these units by more than 28 per cent. Sickness has been growing faster in the small scale sector than in the large and medium scale sectors and as on December 31, 1987, about 29 per cent of the outstanding bank credit locked up in sick units was in the small scale sector. As per RBI data, out of 22.27 lakh borrowal accounts in the SSI sector as on 31st December 1987, 2.04 lakhs were reported to be sick, which means that every eleventh SSI unit in the country was sick.

TABLE 4.6

Industrial Sickness

Category	No. of Units		Amount Outstanding (Rs. Crores)	
	End—December 1986	End—December 1987	End—December 1986	End—December 1987
1. SSI Sick Units	145776 (21.9)	204259 (40.0)	1305.10 (22.0)	1797.31 (37.6)
2. Non-SSI sick Units (covered by SICA . 1985)	1964 (7.7)	1119 (—43.0)	3568.39 (11.5)	2801.79 (—21.5)
3. Non-SSI weak units (not covered by SICA) .	—	720	—	1657.30
Total .	147740 (23.5)	206098 (39.5)	4874.49 (14.1)	6256.40 (28.3)

Note : Figures in parenthesis indicate the percentage change over the previous year.

4.40 The viability status of identified sick units as on December 31, 1987 shows that 91.5 per cent of the SSI sick units and 46.1 per cent of non-SSI sick/weak units were not viable (Table 4.7). Bank credit blocked in non-viable sick units was as high as 71.5 per cent in the SSI sector and 38.7 per cent in the non-SSI sector. About two-third of the total viable sick units were already brought under nursing programme at the end of December 1987.

4.41 The Government have initiated a number of measures for the revival of the sick industrial units as well as to prevent the incidence of industrial sickness. A major step in this direction was the setting up of the Board for Industrial and Financial Reconstruction (BIFR) under the Sick Industrial Companies (Special Provisions) Act (SICA) 1985. The Board became operational in May 1987. Industrial companies (other than Government companies and those specifically exempted under the Act) whose net-worth has been eroded completely or by 50 per cent or more are required to make a reference to the BIFR under Sections 15 and 23 of the Act, respectively. While references received under Section 15 are required to be inquired into, there is no such requirement in respect of references received under Section 23. Since its inception, BIFR has received 1168 references under Section 15 of the Act, upto 31-1-1990. Out of the references received 302 were rejected after initial scrutiny, 31 references were under scrutiny and 835 references were registered. Of the registered references, 128 were dismissed as not maintainable after first hearing. Operating agencies were appointed in 399 cases and the reports of the operating agencies received in 275 cases. BIFR has sanctioned 69 schemes for revival, which include 6 mergers, 6 change of management and 2 leasing. In 98 other cases approval has been accorded under Section 17(2) to enable the companies to make their net-worth positive on their own. Winding up was recommended in 49 cases and sale of the unit to the State Government in one case. Out of the 835 references registered by the BIFR upto the end of January 1990, 452 cases have been disposed of. It is too early to know how many of the units approved by the BIFR will actually be revived.

TABLE 4.7

Viability Position of Sick/Weak units—End December, 1987

(Rs. crores)

Category	Sick SSI Units		Non-SSI Sick & Weak Units		Total	
	No.	Outstanding Bank Credit	No.	Outstanding Bank Credit	No.	Outstanding Bank Credit
1. Viable units	12484 (6.1)	389.50 (21.7)	613 (33.3)	1838.53 (41.3)	13097 (6.4)	2228.03 (35.6)
2. Non-viable units	186834 (91.5)	1284.99 (71.5)	847 (46.1)	1726.95 (38.7)	187681 (91.0)	3011.94 (48.1)
3. Viability not decided	4941 (2.4)	122.82 (6.8)	379 (20.6)	893.61 (20.0)	5320 (2.6)	1016.43 (16.3)
4. TOTAL	204259 (100)	1797.31 (100)	1839 (100)	4459.09 (100)	206098 (100)	6256.40 (100)
5. (*a*) Units under nursing programme	8470	287.48	381	1198.45	8851	1485.93
(*b*) As percentage of viable units	(67.8)	(73.8)	(62.2)	(65.2)	(67.6)	(66.7)

4.42 With a view to expediting the processing of the references received, BIFR increased the number of Benches from 3 to 4 in July 1989. The list of operating agencies was expanded in April 1989 and now includes 4 central financial institutions and 8 nationalised commercial banks. Any one of these operating agencies can be nominated by BIFR to formulate revival/rehabilitation packages for companies declared sick.

4.43 In view of the need to initiate remedial measures much before an industrial unit becomes 'sick' by eroding its net-worth fully and also to cover those categories of industrial units which do not come within the purview of SICA, the RBI has advised the banks to take remedial measures in accordance with the RBI guidelines in respect of industrial units at the stage of 50 per cent erosion of their net-worth. Such units are termed "weak" units to distinguish them from "sick" industrial units as defined in the SICA. All the operative guidelines regarding sick industrial units issued by the RBI apply to weak units also. The definition of non-SSI "weak" industrial unit was subsequently modified. A unit is now to be termed as weak if it has, at the end of any accounting year, accumulated losses equal to or exceeding fifty per cent of its peak net-worth in the immediately preceding 5 years. This revised definition is followed by the banks for the reporting system since September 1989. The RBI has also issued instructions that no single agency should unilaterally withdraw concessions/reliefs extended to a unit unless this has been agreed upon by all concerned. Banks were also advised that they should not lag behind in implementing their part of the obligations assumed under the rehabilitation packages for sick units.

4.44 The definition of sick SSI unit has been modified as under:

"A small scale industrial unit should be considered as sick if it has, at the end of any accounting year, accumulated losses equal to or exceeding 50 per cent of its peak net-worth in the immediately preceding 5 accounting years".

4.45 In the case of tiny/decentralised sector also a unit may be considered as sick if it satisfies the above definition. However, in the case of such units if it is difficult to get financial particulars, a unit may be considered as "sick" if it defaults continuously for a period of one year, in the payment of interest or instalment of principal and there are persistent irregularities in the operation of the credit limit with the banks.

4.46 As part of a package of measures for combating industrial sickness the Government have announced in October 1989, a scheme for excise relief for weak industrial units. The scheme applies to any industrial company, [excluding an ancillary industrial undertaking as defined in Section 3 of the Industrial (Development and Regulation) Act, 1951] whose accumulated losses, at the end of any financial year, have resulted in erosion of 50 per cent or more of its maximum net-worth during the immediately preceding 5 financial years. Such of these units as approved by an Empowered Committee constituted by the Central Government for a rehabilitation package will be eligible for grant of excise loan not exceeding 50 percent of the excise duty actually paid for 3 years subsequent to the date of such approval. The total amount of excise loan shall not, in any case, exceed 25 per cent of the overall cost of the rehabilitation package. The excise loan will be interest free and is repayable within 7 years in instalments after a moratorium of 3 years commencing from the date of last disbursement of the loan. The scheme will be implemented through designated financial institutions like IDBI, IFCI, ICICI and IRBI.

Employment in the Organised Sector

4.47. Growth in employment in the organised sector (comprising of all establishments in the public sector and those non-agricultural establishments in the private sector employing 10 or more persons) has been sluggish in recent years. According to the data collected under the Employment Market Information Programme, there was a marginal increase of 1.4 per cent in employment in the organised sector, which increased from 253.9 lakhs in 1986-87 to 257.5 lakhs in 1987-88. This increase was contributed by an increase in employment of the order of 1.6 per cent and 0.4 per cent in public sector and private sector, respectively. It is note-worthy that component of women employment showed a higher growth of 2.9 per cent in 1987-88 when it increased from 33.4 lakhs in 1986-87 to 34.4 lakhs in 1987-88. According to quick estimates, total employment stood at 260.3 lakhs as on 31st March, 1989, thereby showing an increase of 1.1 per cent over the employment figure on the corresponding day of 1988. Both the sectors, public and private, contributed to this increase by 1.3 per cent and 0.7 per cent respectively. Women employment has also increased by 3.8 per cent during the period.

4.48 The number of job seekers on the Live Register of Employment Exchanges was 324.55 lakhs at the end of October 1989 showing a rise of 7.9 per cent over the end of October 1988. The average monthly vacancies notified to Employment Exchanges during April-October, 1989 was 47.9 thousands as compared to 41.9 thousands during the corresponding period of the previous year, showing a rise of 14.3 per cent. However, average monthly placements during April-October, 1989 declined to 21.1 thousands from the monthly average of 23.9 thousands over the same period of 1988, showing a fall of 11.7 per cent.

Industrial Relations

4.49 Industrial relations situation has shown an improvement during 1988-89 with mandays lost declining from 39.55 million during 1987-88 to 25.79 million during 1988-89. Mandays lost during the first two quarters in 1989-90 continued to show substantial decline over the corresponding period in 1988-89, as there has been no prolonged major industrial unrest in the country. Strikes and lockouts were generally confined to Cotton & Jute Textiles and Engineering Industries in the States of West Bengal, Tamil Nadu, Maharashtra and Andhra Pradesh.

Outlook

4.50 After a sharp deceleration in the first quarter of the current year, overall industrial production has been showing improvement since the second quarter. Industrial growth was only 2.4 per cent in the first quarter and improved to 6.2 per cent in the second quarter, and to 8.0 per cent in the first two months (October—November) of the third quarter. Industrial production in the past has been showing a seasonal pattern of higher growth in the third and last quarters of the fiscal years. Follwing this observed seasonal pattern, the likely increase in production, particularly in the manufacturing sector in the last quarter may lead to an overall industrial growth of around 6 per cent in the current year. This is significantly lower than the rates of growth in the previous four years.

4.51 In the medium-term the growth of the industrial sector should receive some stimulus from the higher levels of agricultural development and employment and export growth. In order to secure full advantage of this potential, industrial policy and other related policies must promote efficiency and economy in the use of capital, energy and materials. This has to be combined with a policy framework that ensures harmonious development of all sectors of industry-village/cottage, small scale and large scale—so as to be consistent with an employment oriented development strategy.

CHAPTER 5

PRICES, PRICE POLICY & PUBLIC DISTRIBUTION SYSTEM

In the current financial year the wholesale prices have remained under pressure despite a satisfactory monsoon for the second year in succession. Prices had remained subdued throughout 1988-89 when even the seasonal rise in the first half of the year was relatively modest. However, Wholesale Price Index (WPI) registered a spurt this year during the month of April itself. For the week ended September 16, 1989 the WPI (1981-82=100) was higher by 7.7 per cent over end March, 1989. At this level it was nearly double the increase of 3.8 per cent in the corresponding period of 1988-89. After a sharp seasonal increase, the price rise was moderated and the wholesale prices were higher by 7.0 per cent in the financial year upto February 17, 1990.

5.2 The cumulative increase in the WPI on a point to point basis, is 6.5 per cent during the current financial year upto January 27, 1990 as against 4.9 per cent in the corresponding period of last year. Annual inflation rate upto January 27, 1990 works out to 7.3 per cent as against 5.6 per cent in the corresponding period last year as shown in Table 5.1. However, the movement of Consumer Price Index (CPI) for Industrial Workers on a point to point basis during this year is different from that of WPI. Upto January, 1990 the CPI (1982=100) has registered an increase of 4.8 per cent compared with an increase of 7.8 per cent in the corresponding period of last financial year. This is by far the lowest rate of increase during the last ten years. The annual rate of inflation in terms of CPI is also lower at 5.5 per cent upto January, 1990 against 7.8 per cent upto January, 1989 (Table 5.1).

TABLE 5.1

Movement in Price Indices

	Percentage change	
	1988-89 upto 28-1-1989	1989-90 upto 27-1-1990
A. Wholesale Price Index (1981-82=100)		
1. Annual Inflation Rate (point to point basis)	5.6	7.3
2. Annual Inflation Rate (Average of the year basis)	8.2	6.9

4. Financial year upto end January	4.9	6.5
5. Level of Index	**155.8**	**167.1**
	January, 1989	January, 1990
B. Consumer Price Index for Industrial Workers (1982=100)		
1. Annual Inflation Rate (point to point basis)	7.8	5.5
2. Annual Inflation Rate (Average of the year basis)	9.1	7.0
3. Financial Year upto January	7.8	4.8
4. Level of Index	**165**	**174**
6 Average of 12 months ending January	**160.50**	**171.67**

Price Situation in 1988-89

5.3 The year 1988-89 witnessed a slow down in the annual rate of inflation in terms of WPI on a point to point basis from a high of 10.7 per cent recorded in the drought year of 1987-88 to 5.7 per cent. This slow down was caused by sharp recovery in agricultural production due to favourable weather and buoyancy in industrial production. This facilitated continued releases of essential supplies at adequate level through public distribution system. Domestic supplies continued to be augmented through requisite imports.

5.4 The items which were responsible for the price rise during 1988-89 were wheat (12.47%), pulses (11.12%), tea (41.39%), raw jute (58.70%), gur (23.08%) and milk (15.87%). These increases were partly neutralised by decline in prices of fruits and vegetables (−12.18%), oilseeds (−23.26%) and edible oils (−7.43%) as shown in Table 5.2. The prices of wheat had gone up because of sharp depletion of stock due to heavy releases in the wake of drought. The continued low level of stocks generated inflationary expectations and rise in wheat prices. Though the production of pulses recovered and domestic supplies were supplemented by imports under OGL, the total availability still fell short of demand. Hardening of prices of tea and raw jute reflected decline in production. The increase in the prices of gur was caused by lower supplies of cane for gur production.

5.5 As pointed out in the last year's Economic Survey the WPI had registered a contra seasonal rise during October-November, 1988 which was attributed to inflationary expectations generated by widespread floods in Punjab and Haryana during September and October, 1988. This increase in WPI percolated to consumer prices and the CPI rose sharply during the months of October and November. Though increase in CPI was moderated subsequently, nevertheless, its threshold upto October, 1988 had gone up sharply and could not be neutralised by the seasonal decline. As a result, inflation rate in CPI during 1988-89 on a point to point basis, increased to 8.5 per cent though it was still lower than the high inflation rate of 10.9 per cent recorded in 1987-88.

5.6 It may be mentioned that the low inflation rate during the year in terms of WPI was partly due to the continued draw down of stocks of foodgrains, to ensure high releases at previous year's level, and also continued imports of essential items like edible oils.

Price Behaviour during 1989-90

5.7 As mentioned earlier prices remained under pressure during this year. The seasonal rise was high and the subsequent seasonal decline was delayed and weak. The seasonal items as a group accounted for over 28 per cent of total price rise this year as against less than 5 per cent in the corresponding period last year.

5.8 The accelerated rise in prices during the current year is due to :

(a) supply and demand imbalances of some essential items particularly pulses, tea, sugar, khandsari, gur, edible oils and textiles;

(b) fiscal imbalances leading to higher liquidity growth and overhang of liquidity from earlier years; and

(c) inadequate level of food stocks and tighter position of balance of payments which limited the manoeuvrability of Government to bring down prices by drawing down of stocks or by imports.

5.9 The increase in prices during the current financial year is partly due to increase in the prices of seasonal items like pulses, tea, oilseeds, sugar, khandsari and gur and groundnut oil. Among non-food manufactured items textiles, paper and paper products, beverages, tobacco and tobacco products and basic metals have also registered considerable increases as may be seen in Table 5.2.

5.10 Prices of sugar along with those of khandsari and gur rose very sharply (30.41%) upto the end of September, 1989 (Table 5.3). However, having reached the peak at that time, sugar prices have declined to some extent and on January 27, 1990 their level was higher by only about 10 per cent over end March, 1989. The prices of khandsari and gur continued to be substantially higher over last year's level. The higher increase registered by khandsari and gur compared to sugar is partly due to the fact that while the prices of khandsari and gur reflect open market prices those of sugar reflect PDS prices as well which have remained unchanged during the year.

5.11 During 1989-90 (upto September 30) prices of edible oils increased by 13.15 per cent, prices of groundnut oil by 34.79 per cent and that of rapeseed/mustard oil by 17.11 per cent. This rise in the edible oil prices has to be seen in the context of the low levels to which they had reached during the previous year following a bumper harvest. However, as the production of kharif crop has been normal, though lower than the bumper harvest of the previous year, prices of edible oils have moderated and at the end of January the index of edible oils as a group was higher by 10.80 per cent over March end.

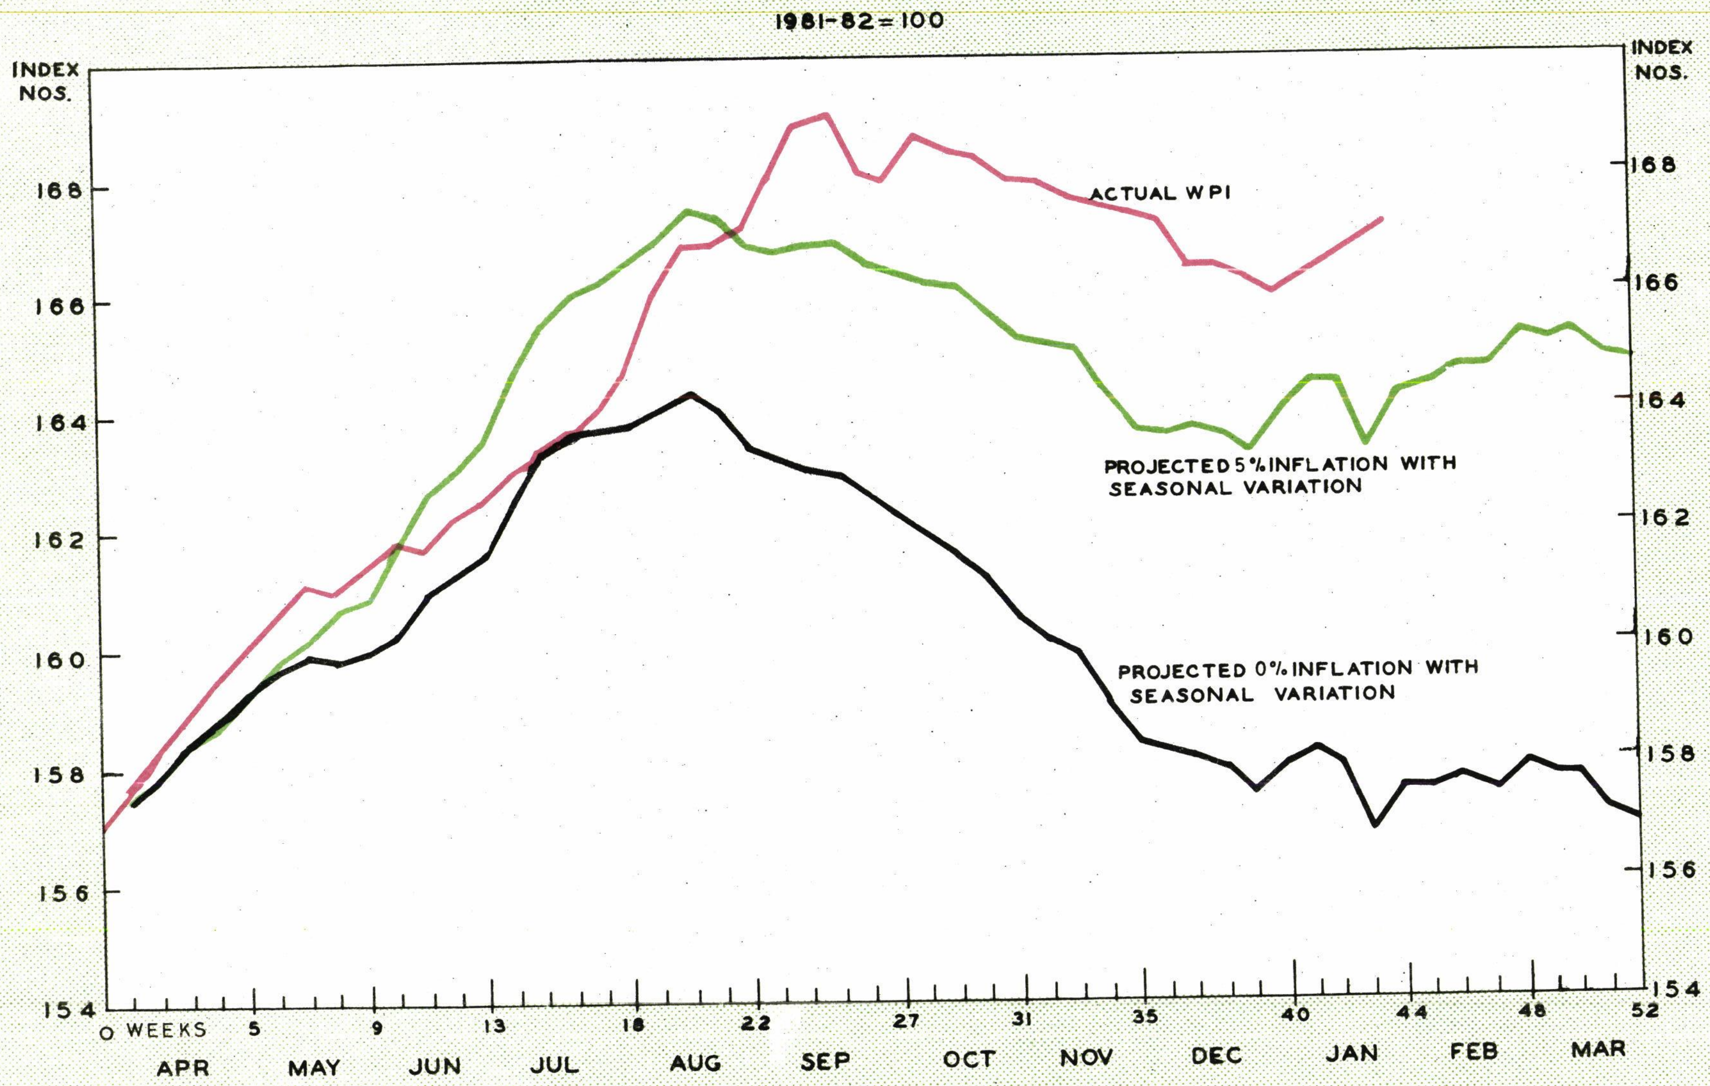
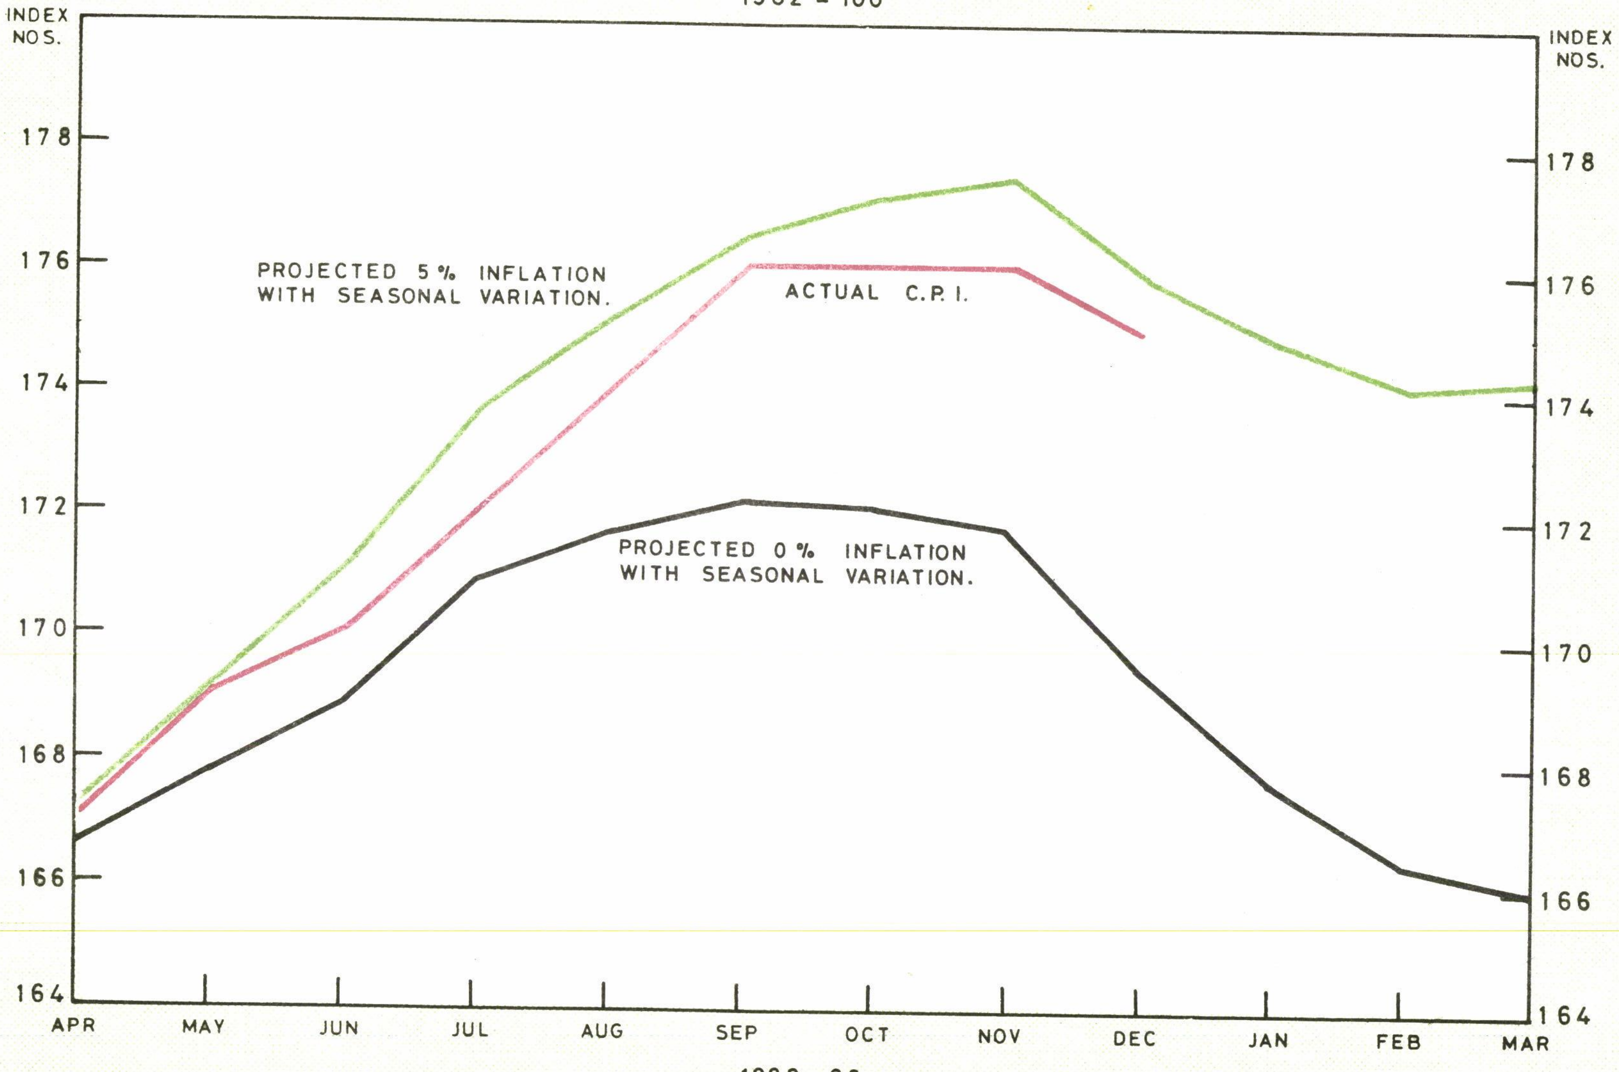
SEASONAL MOVEMENT OF WHOLESALE PRICE INDEX



MINISTRY OF FINANCE ECONOMIC DIVISION.

SEASONAL MOVEMENT OF CONSUMER PRICE INDEX

1982 = 100



MINISTRY OF FINANCE, ECONOMIC DIVISION.

5.12 The prices of tea increased by over 41 per cent upto the end of September largely due to decline in tea production. During January—November, 1989 total tea production was estimated to be around 649.64 million kgs. as against 661.87 million kgs. in the corresponding period last year. In addition, there has been pressure of international demand as reflected in rising international prices of tea. Exports were, therefore, marginally higher during April—November, 1989 at nearly 153.41 million kgs. as compared with 150.49 million kgs. in the corresponding period last year. In order to check the price rise in tea, Government has taken several steps such as introduction of a 'Nagrik' popular brand of tea marketed at Rs. 40 per kg. and issue of directive that every second auction of tea would be for domestic sale. Despite close monitoring and measures taken by the Government tea prices remain under pressure.

5.13 The price of pulses increased by 19.27 per cent upto the end of September but declined thereafter due to increase in production. It may, however, be mentioned that there has been a secular increase in the prices of pulses on account of stagnation in production during the last two decades caused by low yield and low profitability in relation to the competing crops. The per capita availability of pulses has consequently declined from nearly 52 grams per day in 1970 to about 33 grams per day in 1988. Keeping this in view, the import of pulses has been kept under OGL. During 1988-89 a quantity of 8.27 lakh tonnes of pulses was estimated to have been imported while during April—September, 1989 a quantity of 1.18 lakh tonnes of pulses was imported. Because of rising prices the import duty on pulses has been reduced from 35 per cent to 10 per cent. The WPI of cereals upto the end of January, 1990 has shown a decline of 3.77 per cent during the current financial year in contrast to an increase of about 10 per cent in the corresponding period of last year.

5.14 The prices of manufactured products such as beverages, textiles, paper and paper products, leather and leather products, basic metals as well as non-metallic mineral products have also registered appreciable increases. In fact, the manufactured items as a group continued to account for the bulk of increase (about 80 per cent) in WPI (Table 5.2). The increase in prices of metals, machinery and paper products is due to higher import prices and that of leather products and, to some extent, of textiles due to increasing export demand.

5.15 Prices of administered items as a group have shown a modest rise of 3.79 per cent and account for 10.58 per cent of total increase. A notable increase has been recorded in the prices of metals which have gone up largely on account of higher cost of imports.

5.16 The main factor responsible for persistent inflationary trend in the current financial year has been the higher liquidity growth and overhang of liquidity from high order of monetary expansion in past three financial years. During the current financial year broad money (M_3) has recorded an increase of 14.9 per cent upto January 26, 1990 against 14.6 per cent recorded in the corresponding period of last year. The net bank credit to government has also recorded a higher increase of 21.1 per cent during this period as compared with 17.8 per cent in the corresponding period of last year.

5.17 As observed earlier while the WPI has registered an increase of 6.5 per cent upto January 27, 1990 which is higher than the increase of 4.9 per cent in the corresponding period of 1988-89, the increase in CPI during the current year upto January, 1990 is 5.5 per cent which is much less than the increase of 7.8 per cent recorded in the corresponding period of 1988-89. This shows that the gap between the inflation rates yielded by WPI and CPI has considerably narrowed in the current year. Also the decline in the inflation rate as per CPI and rise in inflation rate as per WPI may be on account of the fact that the CPI has attained a relatively higher level last year. However, it must be mentioned that WPI and CPI are not strictly comparable on account of differences in objectives, coverage, methodology and weighting diagrams of the two series.

New Series of WPI (1981-82 = 100)

5.18 A new series of Wholesale Price Index with 1981-82 as the base year has been released in July, 1989 to replace the old series with 1970-71 as the base. The new series has a considerably larger coverage of items, their grades and markets, and is also based on larger number of quotations. The weighting diagram of new series is also different from the earlier one. Details are given in Table 5.4.

Administered Price Policy and Government Intervention

5.19 The Government follows administered price policy in respect of commodities which are either vital industrial raw materials, produced wholly or largely in public sector (such as coal, steel, petrol, fertilizers etc.), or intervenes in the determination of prices of essential items of final consumption mostly of agricultural origin (like wheat, rice, sugar, edible oils etc.). Revision in prices of administered items becomes necessary in view of change in cost of production and also to keep relative price structure in order.

5.20 During the current year, administered prices remained stable for industrial items. However, there have been substantial upward revisions in procurement/support prices of various agricultural commodities to provide, inter alia, incentives to producers and to augment production and to achieve adequate procurement of various agricultural commodities.

Procurement/Minimum Support Prices

5.21 The Commission for Agricultural Costs and Prices (CACP) advises the Government on fixation of procurement/support prices. While recommending these prices the CACP takes into consideration, various factors such as cost of production, input-output price parity, trends in market prices, inter-crop price parity and parity between prices paid and prices received etc. Government fixes the procurement/support prices after reviewing the recommendations of CACP.

5.22 The Government announces procurement/minimum support prices for each season and also arranges procurement/price support operations through public/cooperative and other state designated agencies. The Food Corporation of India (FCI) is the agency responsible for procuring rice and wheat. The FCI also procures coarse grains in Haryana, Punjab and Uttar Pradesh, while NAFED undertakes support operation for coarse grains in other states. Procurement prices/support prices set the floor to and significantly influence open market prices. These are in the nature of a guarantee that the prices will not be allowed to fall below these levels as the Government will then intervene and make purchases at the guaranteed price. The details of procurement/support prices of different agricultural commodities fixed by the Government in recent years are given in Table 5.5. The revisions made for marketing years 1989-90 (kharif) and 1990-91 (rabi) are discussed below.

Foodgrains

5.23 For the marketing year 1989-90 procurement price of paddy (common) was initially raised by Rs. 15 per quintal over previous year. Soon after the beginning of the marketing season in October, 1989 further increase of Rs. 10 was announced. As a result, during the kharif marketing year 1989-90 procurement price for paddy ruled at Rs. 185 per quintal compared with Rs. 160 in the previous year. Similarly the price of fine variety was raised from Rs. 170 to Rs. 195 and for superfine variety from Rs. 180 to Rs. 205 per quintal. Procurement prices of coarse grains which were first raised from Rs. 145 to Rs. 155 per quintal in 1988-89 were further revised to Rs. 165 per quintal in October, 1989. For kharif pulses like arhar, moong and urad the support prices were raised from Rs. 360 to Rs. 425 per quintal including an additional hike of Rs. 25 allowed for the marketing season 1989-90.

5.24 Procurement price of wheat was raised by Rs. 17 per quintal i.e. from Rs. 183 to Rs. 200 per quinial for the rabi marketing season 1990-91. The minimum support price for barley was raised from Rs. 145 to Rs. 160 per quintal and for gram from Rs. 325 to Rs. 370 per quintal.

*Marketing year : April-March for wheat, gram, barley and mustard; July-June for Jute; September-August for cotton and October—September for paddy and other kharif crops.

**Rs. 195 per quaintal for fine variety and Rs. 205 per quintal for superfine variety.

...not announced £ Rs. 370 per quintal for yellow variety.

@Minimum Support Price of TD-5 variety at Nowgong in Assam.

Oilseeds

5.25 The minimum support price for groundnut was raised from Rs. 430 to Rs. 500 per quintal and for sunflower from Rs. 450 to Rs. 530 including the additional hike of Rs. 30 announced in October, 1989. For soyabean (black variety) support price was raised from Rs. 275 to Rs. 325 per quintal and for yellow variety from Rs. 320 to Rs. 370 per quintal for 1989-90 season. The minimum support price of rapeseed/mustard has been raised from Rs. 460 to Rs. 510 for the marketing season 1990-91.

Sugarcane

5.26 The statutory minimum price (SMP) of sugarcane which was fixed at Rs. 20 per quintal for 1989-90 marketing season was further raised to Rs. 22 for the same season. For the 1990-91 season the SMP for sugarcane has been raised to Rs. 23 per quintal.

Fibres

5.27 For raw cotton (F-414/H-777) minimum support price for 1989-90 season was raised by Rs. 70 per quintal to Rs. 570. Support price of Hybrid-4 variety of cotton was raised sharply from Rs. 600 to Rs. 690 per quintal. The minimum support price for jute (TD-5 variety at Nowgong in Assam) was fixed at Rs. 295 per quintal marking an increase of Rs. 32.50 over previous year.

Tobacco

5.28 For VFC tobacco (F-2 black soil) the minimum support price was raised from Rs. 1,175 to Rs. 1,250 per quintal.

5.29 In order to ensure fair returns to farmers for their produce a comprehensive review of the methodology followed for recommending procurement/support prices has become absolutely necessary. For this purpose, an Expert Committee has been set up to (i) review the methodology followed for the estimation of cost of cultivation which go into determination of procurement/minimum support prices; (ii) the terms of trade between the agricultural and non-agricultural sectors with a view to safeguard the interests of farmers; and (iii) to recommend other measures to improve the remunerativeness of crop production. After the Committee submits recommendations, the price policy will be reviewed appropriately. This will enable the Government to evolve a more realistic price structure for agriculatural commodities.

Foodgrain Operations

5.30 Government operations in foodgrains primarily aim at stabilising market prices by making purchases from farmers through procurement to protect them against a post-harvest decline in prices and to provide foodgrains to consumers at reasonable prices through the Public Distribution System and open market sales. Foodgrains are procured by FCI and State Agencies at prices fixed by the Government. Procurement of wheat for financial year 1989-90 (upto end January, 1990) was 9.0 million tonnes which was substantially higher than the procurement of 6.53 million tonnes in the corresponding month of previous year which followed a drought. Procurement of rice during current financial year 1989-90 also has been higher at 9.21 million tonnes (upto January end) as compared to 6.32 million tonnes in the corresponding period last year. As a result, this is likely to improve stock position of foodgrains. The stock of rice at 7.42 million tonnes on February 1, 1990 was higher than 4.88 million tonnes a year ago. The stock of wheat was also higher at 5.09 million tonnes on February 1, 1990 compared with 4.30 million tonnes a year ago thanks to good procurement (See Table 5.6). The position of stocks of foodgrains in recent years is shown in Table 5.7. While prices of wheat and rice have not been under any stress during current year, buffer stocks available with the Government need to be replenished to desirable levels to cope with any problems that may develop in respect of adequacy of rainfall in the years ahead.

*Provisional.

**End period basis.

@Public distribution of wheat does not include open sale of wheat by FCI which was of the order of 35.97 lakh tonnes in 1987-88, over 10 lakh tonnes in 1988-89 and 1.90 lakh tonnes in 1989-90 (upto end January).

5.31 Foodgrains procured for the Central pool are distributed to consumers through a vast network of fair price shops at issue prices fixed by the Government. These prices are revised by the Government periodically taking into account the changes in procurement prices and cost of distribution. These prices are kept below the economic cost to keep them within the reach of vulnerable sections of society. The difference between the issue price and economic cost is borne by the Government by way of food subsidy. The issue price of rice was last revised with effect from January 25, 1989 and that of wheat on March 25, 1988. Since then the issue prices of rice and wheat have remained unchanged at Rs. 244 for common variety of rice and Rs. 204 per quintal for wheat. For ITDP areas the issue price of wheat was raised from Rs. 139 per quintal in March 1988 to Rs. 154 in June, 1989.

*Provisional

5.32 Total public distribution of wheat (offtake) during current year has been lower at 58.38 lakh tonnes compared with the last year's level of 62.38 lakh tonnes (till January) (Table 5.8). Offtake of rice has also been lower at 70.80 lakh tonnes as against 76.40 lakh tonnes in corresponding period last year. Lower offtake this year is partly on account of lower level of releases of rice upto October, 1989 because of lower level of stocks and partly due to easy availability of foodgrains in open market which eased the pressure on supplies under PDS that was built up during drought years 1987 and 1988. During 1989-90 over 5 lakh tonnes of rice was imported to maintain the supplies through PDS. The availability of rice has improved with the arrival of current crop.

Sugar Operations

5.33 The dual pricing system for sugar which has been in existence for some time continued during the current-year. Under this system a fixed percentage of total factory output is acquired by the Government at a pre-committed price as levy and is released through the public distribution system. The remaining output is free to be sold in the open market. For 1988-89 the free sale quota was raised to 55 per cent from its earlier share of 50 per cent. The issue price of levy sugar for PDS which was increased from Rs. 5.10 per kilogram to Rs. 5.25 per kilogram with effect from January 1, 1989 remained at this level during the current year.

5.34 As noted above prices of sugar, khandsari and gur have registered a very sharp increase during the current financial year. Price rise of this magnitude was caused mainly by decline in sugar production, rising demand for sugar and reported smuggling in the neighbouring areas where higher prices were ruling. Sugar production declined from 9.1 million tonnes in 1987-88 (sugar year) to 8.7 million tonnes during 1988-89. In order to check the rise in market prices the Government released larger quantities of freesale and levy sugar. As may be seen in Table 5.8, total releases of sugar during 1989-90 were 105.09 lakh tonnes as against 99.74 lakh tonnes in the previous year. Furthermore, to augment the domestic availability it was decided to import about 2.4 lakh tonnes of sugar. Stock limits for licensed dealers were also reduced as a supplementary measure to ease pressure on prices. As a result of these measures, sugar prices have shown a downward trend in recent weeks.

Edible Oil Operations

5.35 As a result of substantial increase in production of oilseeds during 1988-89 the availability of edible oils remained comfortable and its prices showed a declining trend almost throughout the year. Consequently, dependence on imports for meeting the domestic requirements came down substantially. Import of edible oils came down from 19.67 lakh tonnes in 1987-88 to 11.66 lakh tonnes in 1988-89. Of the imported edible oils available with the Government 8.09 lakh tonnes was released for PDS during 1988-89 against over 13.37 lakh tonnes during the previous year. Considering easy availability of indigenous edible oil, import as well as allocation has been curtailed during the current financial year. Till January, 1990 only 2.13 lakh tonnes of edible oil was imported. Release of edible oils for PDS during 1989-90 has been at the level of 3.71 lakh tonnes against 8.09 lakh tonnes in the previous year. With a view to providing edible oil to consumers at a reasonable price and also keeping in view the price trend of indigenous oil in the market, the PDS price of imported oil was kept the same as revised with effect from September 1, 1988.

5.36 In view of easier availability of indigenous oils in the country, supply of imported edible oil to vanaspati industry at concessional rate was discontinued last year. However, supply at commercial rate of Rs. 19,000 per tonne was allowed. Even this has been discontinued with effect from May, 1989. This has not, however, affected the production of vanaspati which remained almost at the 1987-88 level of 9.89 lakh tonnes. However, in order to augment the pace of lifting of indigenous oil from the market and also to provide adequate oils for vanaspati the use of expeller groundnut/mustard oil in vanaspati was allowed to the extent of 20 per cent for a period of 2 months with effect from January 10, 1989. On reviewing the position, the permission to use expeller groundnut oil in vanaspati was withdrawn after 2 months but the permission to use mustard oil continued till January 15, 1989.

5.37 Under the integrated edible oil policy of the Government the National Dairy Development Board (NDDB) was designated as the market intervention organisation (MIO) with effect from oil year 1988-89. The objective of bringing NDDB to intervene in edible oil market was to provide remunerative prices to the producers of oilseeds and to stabilise prices of edible oil in the market within the price bands recommended by the Government. This was done by intervening in the market through procurement and market sales operations.

5.38 The Wholesale Price Index of edible oils during the current year (upto January 27, 1990) registered an increase of 10.80 per cent as against a decline of 4.29 per cent in the corresponding period of previous year. Groundnut oil rose by 25.02 per cent and mustard oil by 16.46 per cent as against their corresponding declines of 17.19 per cent and 13.41 per cent respectively. The prices of most edible oils during the current year are likely to remain comfortable due to their easy availability.

Note :—Figures in brackets give total for the corresponding months of 1988-89.

Administered Prices for Industrial Products

5.39 Administered prices for most industrial products remained stable during the current year. However, there have been a few marginal revisions in prices of certain industrial products as stated below.

5.40 *Coal:* Price of coal produced by Coal India Ltd. was last revised with effect from January, 1989 raising the average pithead price from Rs. 219 per tonne to Rs. 249 per tonne. The price of coal produced by Singareni Collieries Company was revised with effect from January 24, 1989 raising the average pithead price from Rs. 270 per tonne to Rs. 297 per tonne. The price of soft coke was however not revised and was kept at Rs. 175 per tonne for domestic use and Rs. 300 per tonne for industrial use.

5.41 *Steel:* Prices of various categories of steel were raised marginally on an average by 1.5 per cent with effect from June 2, 1989 by the Joint Plant Committee following an increase in railway freight.

5.42 *Non-Ferrous Metals*: Not only price control on aluminium was done away with its sale was decontrolled during the current year. However, Government continued to administer the prices of other non-ferrous metals such as copper, zinc, lead and nickel whose prices are significantly affected by international prices and changes in exchange rates as bulk of these metals are imported.

5.43 *Petroleum Products:* There has been no change in the basic ceiling selling prices of petroleum products despite an increase in price of crude oil and increase in rail freight. The Government continued to provide petroleum products at concessional prices for export oriented units (EOUs) besides implementing special subsidy schemes of supplying kerosene and LPG for domestic use to hill areas and North Eastern regions.

Outlook

5.44 As mentioned earlier, in addition to demand/supply imbalances in respect of certain commodities an important cause of persistence of inflationary pressure in recent years is the fiscal imbalance leading to higher liquidity growth and overhang of liquidity from earlier years. As recourse to imports for augmenting domestic supplies of sensitive items has to be necessarily limited due to tight balance of payment position, the success in controlling inflation will largely depend on the success in controlling excess liquidity in the system and the speed with which fiscal discipline is imposed. A rapid rise in the price of essential commodities hurts the vulnerable and weaker sections. Further through its impact on the Government budget it also erodes the resources available for investment and development. Hence there is a continuing need for supply management of essential commodities through production promotion, domestic procurement, foreign trade, buffer stocking, public distribution and market intervention operations.

CHAPTER 6

FISCAL POLICY AND GOVERNMENT BUDGET

The secular pressures on Government's expenditure have sharpened in recent years and the pattern of financing has been substantially different from what was anticipated in the medium term perspective outlined in the Seventh Plan. The Central Government budget deficit as conventionally defined has fluctuated around 2 per cent of GDP in recent years. The magnitude of deficit financing during the Seventh Five Year Plan has been of the order of Rs. 29,000 crores (at 1984-85 prices), more than double the Plan target of Rs. 14,000 crores. What is more, the revenue deficit has widened significantly over time and amounted to about 2.8 per cent of GDP in 1988-89 (RE). The budget for 1989-90 programmed a significant improvement in the deficit (1.7 per cent of GDP) but judging by the sharp rise in net RBI credit to Central Government so far during the year, the actual outcome may be distinctly worse. Net RBI credit to Central Government has risen by Rs. 15,255 crores since the beginning of the financial year upto January 26, 1990.

6.2 The conventional budgetary deficit does not indicate the full measure of overall deficit and the Government's draft on domestic savings and dependence on external savings. A fuller measure of the overall deficit, which is commonly used internationally is the difference between government expenditure and net lending on the one hand and current revenue and grants on the other. Measured thus, the overall deficit of the Central Government increased from 6.1 per cent of GDP in 1980-81 to 8.2 per cent in 1988-89 (RE). This was met from the draft on domestic savings, external borrowings and (narrowly defined) deficit financing (borrowing from RBI through treasury bills). The draft on domestic savings, which was to the extent of 3.7 per cent of GDP in 1980-81, increased to 5.9 per cent in 1988-89 (RE). Likewise, deficit financing increased from 0.9 per cent of GDP in 1981-82 to 2.1 per cent in 1988-89 (RE). Although the budget for 1989-90 had foreseen a reduction of the overall deficit, current indications are not supportive of such a prospect.

6.3 It is a matter of concern that a significant part of the borrowed resources goes towards covering revenue deficit of Government, which is substantially larger than the extent of narrowly defined deficit financing (borrowing from RBI through low-cost ad-hoc treasury bills). As borrowed resources command higher interest rates, the cost of financing the revenue gap has been on the rise. Moreover, the remunerative commercial activities also have not been generating adequate return flow by way of dividends and interest. On top of it, the interest cost of borrowing in the form of small savings, provident fund etc. has increased in recent years. With a near stagnant domestic saving rate, the increase in cost of borrowing is not surprising, particularly when the borrowing is large.

6.4 The net outcome of this pattern of financing is the emergence of unsavoury budgetary imbalances. Increase in borrowings and deficit financing leads to rise in interest payments, liquidity growth and inflation and pushes expenditures further. Growth in expenditure, in turn, necessitates larger borrowings and deficit financing.

6.5 Fiscal management in the immediate future must aim at correcting these imbalances to stem inflation, contain balance of payments pressures and secure economic benefits consistent with an equity oriented development strategy. The emphasis on improving efficiency and productivity in public enterprises has to be translated into actual achievement, if necessary, by making public funding of these enterprises contingent upon their generating adequate return flows to the budget.

Budgetary Development in 1988-89

6.6 The combined budgetary operations of the Central Government, State Governments and Union Territories in 1988-89 (RE) resulted in a budgetary deficit of Rs. 8,853 crores, about 52 per cent larger than Rs. 5,504 crores in 1987-88 (Actuals). The average budgetary deficit during 1980-81 to 1985-86 was around Rs. 3,166 crores (Table 6.1). The budgetary deficit-GDP ratio in 1988-89 (R.E.), thus went upto 2.3 per cent, from 1.3 per cent in 1985-86. This deterioration was partly due to a near stagnant tax-GDP ratio and partly to a rise in the expendiure-GDP ratio. Thus, the tax-GDP ratio, which was 16.5 per cent in 1985-86, crept to 16.7 per cent in 1988-89 (RE), while the expenditure-GDP ratio moved up from 32.0 per cent to 33.8 per cent during the period. The gap between total expenditure and current revenue which approximates the overall budgetary deficit concept in common use internationally, widened from 10.4 per cent of GDP in 1985-86 to about 12.1 per cent in 1988-89 (RE). This gap was about 9 per cent of GDP in 1980-81. About 74.5 per cent of the gap in 1988-89 was financed by draft on domestic savings, 6.8 per cent from external savings, and 18.7 per cent from deficit financing. The large draft on domestic savings in recent years against a near stagnant domestic saving rate, has inevitably led to a doubling of interest payments, from Rs. 8,006 crores in 1985-86 to Rs. 16,331 crores in 1988-89 (RE). The net result has been a rise in the proportion of non-developmental expenditures in total expenditure from 36.4 per cent in 1985-86 to 38.6 per cent in 1988-89 (RE).

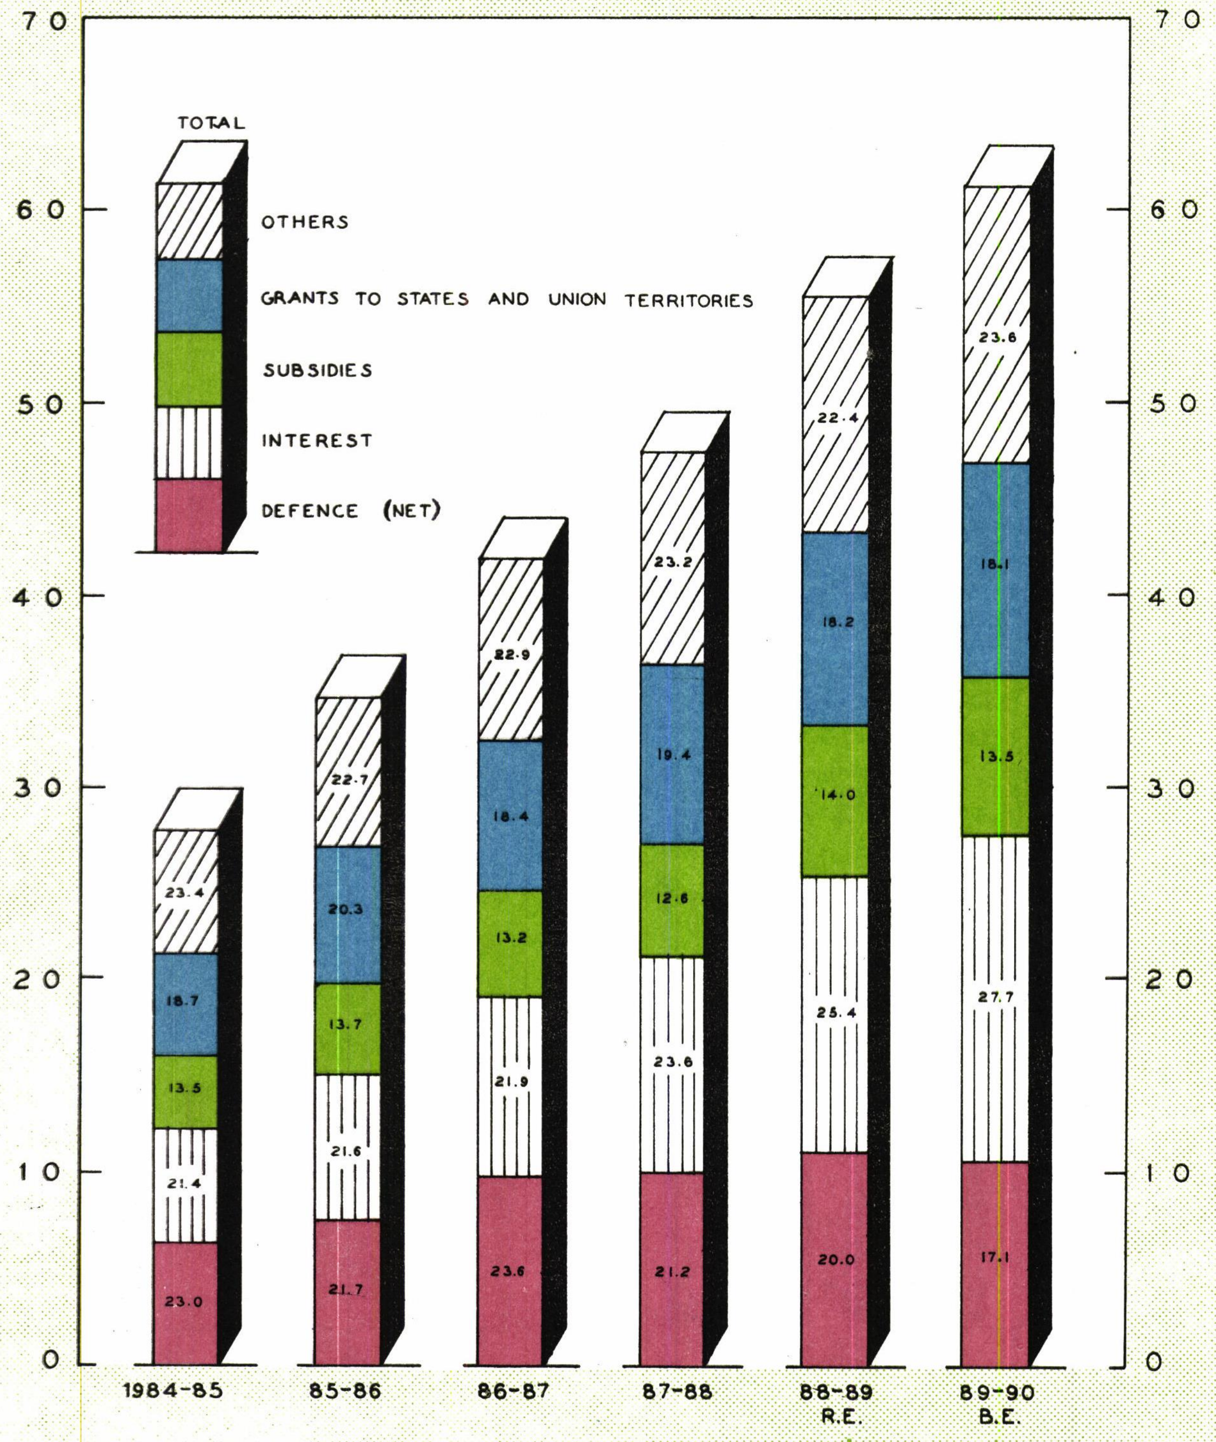
CENTRE'S REVENUE EXPENDITURE

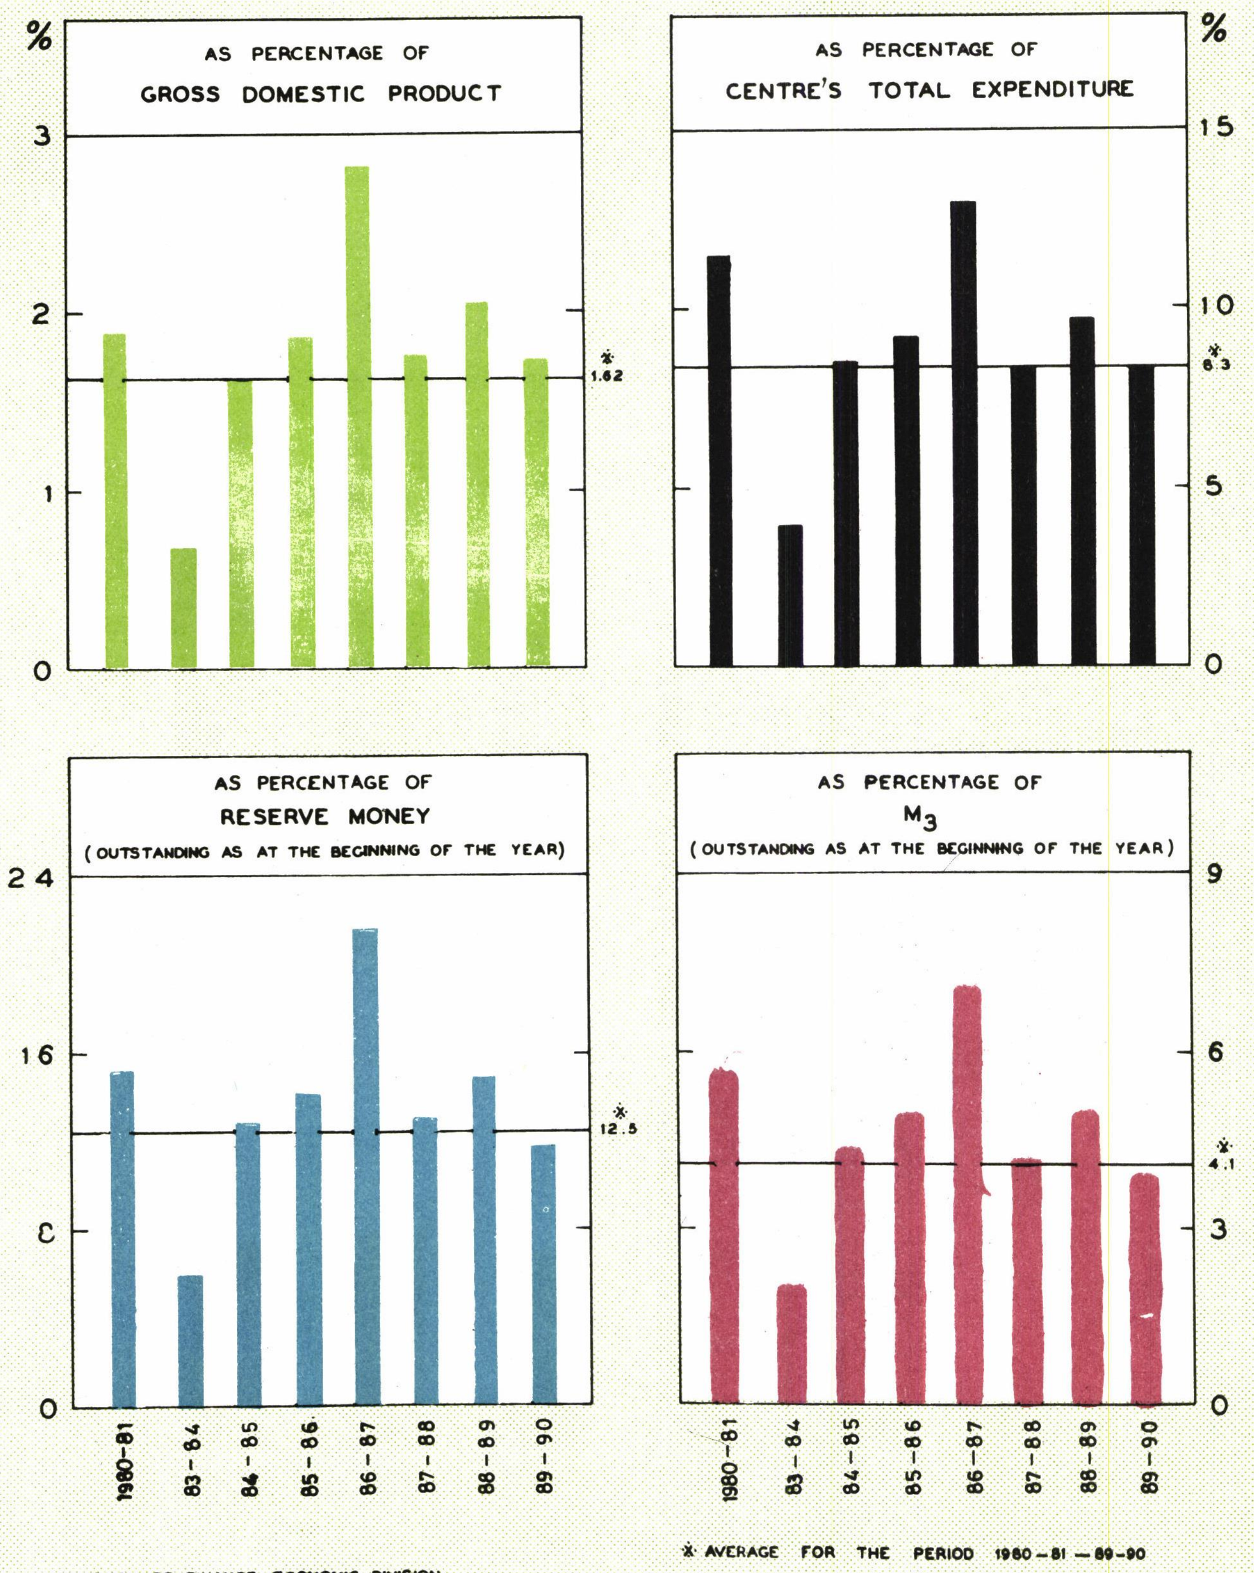
PERCENTAGE DISTRIBUTION

RS. IN '000 CRORES



MINISTRY OF FINANCE, ECONOMIC DIVISION

CENTRE'S BUDGETARY DEFICIT



MINISTRY OF FINANCE, ECONOMIC DIVISION.

6.7 The budgetary position of the Central Government was distinctly worse in 1988-89 (RE) with budgetary deficit widening to Rs. 7,940 crores against the actuals of Rs. 5,816 crores in 1987-88 and Rs. 4,937 crores in 1985-86. The expenditure-GDP ratio was over 24 per cent, while the ratio of current revenue (including internal resources of PSUs) to GDP was a mere 13.4 per cent and hence the large gap. Expenditure growth on an average, was a little over 17 per cent during 1980-81 to 1988-89. Growth in revenue expenditure, was, however, far in excess; 19.5 per cent during the period. At the same time, tax-revenue grew on an average by 17 per cent in nominal terms. This mis-match between growth in tax-revenue and revenue expenditure inevitably resulted in a large and widening revenue deficit during the period. Thus revenue deficit enlarged to 2.8 per cent of GDP in 1988-89 (RE), from 2.1 per cent in 1985-86 and 0.6 per cent in 1980-81 (Table 6.2). The widening revenue deficit was largely met from borrowed resources involving higher interest payment liabilities. The diversion of high cost borrowed resources for covering revenue deficit dissipated scarce resource while it ensured no return flow to the budget. The consequent destabilising effects have lengthened budgetary-imbalances throughout the decade of eighties.

1. Excludes subsidies on imported fertilizer upto 1985-86.
2. Estimates.
3. Includes defence pension.

Note :— The ratios in this Table from 1980-81 onwards are based on the new series of GDP released by the CSO and therefore, these will differ from the figures given in previous year's Economic Survey.

6.8 The budgetary position of the States and UTs together was no better. The combined budgets of States & UTs showed a deficit of Rs. 913 crores in 1988-89 (RE) against a surplus of Rs. 312 crores in the previous year and Rs. 1,498 crores in 1985-86. Their revenues included Rs. 1,389 crores by way of grants from the Centre (Table 6.2). The internal resources of State PSUs continued to be plagued by poor performance. In 1988-89 (RE), internal resources of PSUs were a negative Rs. 626 crores against a negative Rs. 654 crores in 1987-88 and negative Rs. 29 crores in 1985-86. A disturbing feature has been the rise in non-developmental expenditure over the years. The ratio of non-developmental expenditureto total expenditure increased from 27 per cent in 1985-86 to 29.5 per cent in 1988-89 (R.E.). Here again, interest payment was the major element, its share in non-development expenditure increased from 26.9 per cent in 1985-86 to 32.9 per cent in 1988-89 (RE).

Central Government Budgetary and Fiscal Developments 1989-90

6.9 The Central Government Budget for 1989-90 sought to promote a number of objectives : promotion of productive employment; restraint on non-essential luxury consumption; protecting the consumption standard of the poor; maintaining the tempo of industrial modernisation and growth; providing relief to middle income tax payers and containing the Budget deficit. Budget proposals framed in pursuance of these objectives had two conspicuous features: a special surcharge on high income tax payers for financing a new rural employment programme and the levy of a range of indirect taxes on low priority and luxury items to tap resources from the relatively affluent sections of society. The Budget also contained measures to reverse the trend in the rising revenue deficit through mobilisation of resources and containment of expenditure. The Budget proposed Rs. 1,287 crores in fresh taxes, the burden being divided between direct taxes estimated to yield Rs. 530 crores and indirect taxes and levies to yield Rs. 757 crores. The gross revenue collection by the Centre was estimated to go up by over 17 per cent from Rs. 43,376 crores in 1988-89 to Rs. 50,875 crores in 1989-90.

6.10 The details of important fiscal measures contained in the Budget for 1989-90 and the Finance Act 1989 are enumerated in the following paragraphs.

Direct Taxes

6.11 No major changes were proposed in the personal and corporate tax structure except that the tax rate for the individuals in the entry slab of Rs. 18,000—25,000 was reduced from 25 per cent to 20 per cent. The drought surcharge on wealth-tax and income-tax levied in 1987 was withdrawn from the assessment year 1989-90 and 1990-91 respectively. Instead a new surcharge at the rate of 8 per cent, specifically linked to financing a new rural employment programme called Jawaharlal Nehru Rojgar Yojna, was levied on resident tax payers with income above Rs. 50,000. With a view to curbing conspicuous consumption, the rate of expenditure tax as applicable to higher class hotels was enhanced from the present level of 10 per cent to 20 per cent. Some measures were also adopted for providing relief which included tax exemption to the income from poultry farming at the rate of thirty-three and one third per cent of such income; standard deduction on family pension at the rate of thirty-three and one third per cent, subject to a ceiling of Rs. 12,000; deduction of Rs. 15,000 for mentally retarded persons, provision for deduction of profession tax in computing the salary income, uniformity in allowance of standard deduction to employees of public and private sectors and certain tax concessions to venture capital undertakings and Fund set up under Exchange Risk Administration Scheme.

6.12 Another significant aspect of the Budget was announcement of two new schemes for promoting savings and investment. The first scheme was linked with housing and could be availed of only by an individual who is not owner of a residential property. The scheme called Home Loan Account Scheme would be operated through National Housing Bank (NHB) and deposits made in the scheme as well as repayment of housing loan taken from the bank would qualify for deduction under Section 80-C of the Income-Tax Act. Such deposits upto a maximum of Rs. 5 lakhs would also be exempted from wealth-tax and tax

payers would get a tax concession on capital gains if the sale proceeds are invested in the bonds and debentures issued by the National Housing Bank. These concessions are expected to provide a solid financial base to the NHB and encourage savings for house building. The scheme became operational on July 1, 1989. The second scheme was in the nature of a new deposit scheme for retiring Government employees to invest with a three years lock-in-period. The interest on investment in the scheme would be free from income-tax and deposits would be fully exempt from wealth tax. This scheme came into effect from 1st July, 1989. Other initiatives in the area of small savings included withdrawal of National Savings Certificates(NSC) VI & VII issue and introduction of a new series of NSC VIII issue which would be eligible for tax concession under Section 80-C but not under Section 80-L of Income-Tax Act.

Indirect Taxes

6.13 Indirect tax measures sought to mobilise resources from a wide range of items. The existing specific excise duty rates of most of the commodities were raised by 5 percent. Essential items like tea, coffee, sugar, kerosene, petroleum products, vegetable oils, vanaspati, cotton yarn and fabrics, jute yarn and fabrics, electric bulbs and fluorescent tubes were exempted from this change. Similarly the existing exemption for newsprint and specified papers for use in printing of books remained unaltered. A higher adjustment of rate was also made in case of pig iron and certain steel items such as ingots, billets, bars, rods, etc. Duty was also hiked on hot rolled and cold rolled flat products and a uniform rate of duty was prescribed for steel forgings and castings.

6.14 Focusing on luxury and semi-luxury items, the Budget raised the excise duty on a variety of electronic items including T.V. sets, music systems, radios, computers and certain imported specified raw materials and piece parts for the manufacture of electronic components. Duty was also increased on fuel efficient cars, vans and jeeps which were hitherto enjoying a concessional rate. The duty on two wheelers was restructured into a four tier regime. The proposed new rates for T.V. and two wheelers were further revised during the course of general discussion on the budget. As a result, the enhanced excise duty on black and white TV sets was brought down to its pre-budget level and increase in duty on colour TV sets of screen size less than 36 cms was slightly moderated. In the case of two-wheelers, the new duty of 25 per cent ad valorem applicable to engine capacity of 100 cc to 150 cc, was modified to include two-wheelers with capacity upto 200 cc under this rate of duty. Some concessions in customs duty were also given to these sectors to encourage the process of indigenisation. These included a concessional duty of 40 percent to machinery and components imported for manufacturing fuel injection equipment, reduction in import duty of specified raw materials required for manufacture of optical communication cables and extension of the concessional duty to more items of machinery for production of high-tech items like large scale integrated circuits, micro-processors and other micro electronic items. These measures also focussed on the need to contain the high level of import content in domestic manufacture in the context of present tight BOP position.

6.15 With a view to mobilising additional resources, excise duty on cigarettes was increased at varying rates. Excise duty was also raised on certain low priority items like panmasalas and molasses required for the manufacture of liquor. Similarly, import duties were raised on wood pulp, waste paper, low ash coal, raw petroleum coke, glazed news print and certain chemicals. In view of the increased availability of cotton, the concessional excise duty on viscose staple fibre for blending with cotton was withdrawn. Likewise, the Foreign Travel Tax for neighbouring countries was raised from Rs. 50 to Rs. 150 and for other countries from Rs. 100 to Rs. 300 and a new tax called Inland Air Travel Tax at 10 per cent of the basic fare was introduced. Passengers paying air fare in foreign currency were exempted from this new tax.

6.16 The Budget announced several measures to rationalise tax on capital goods industry. The customs duty on general projects and machinery was reduced from the existing 90 per cent to 80 per cent ad-valorem. The duty concession for import of machinery under the technology upgradation scheme was extended to four more

sectors, namely cutting tools, commercial tool rooms, textile machinery and paper machinery. In addition, for the machine tools sector, the list of machinery items attracting lower duty was expanded. The import duty on specified machinery which varied between 25 and 35 per cent was unified and fixed at 40 per cent ad-valorem. Simultaneously, an intermediate level of duty of 60 per cent ad-valorem was introduced on import of certain specified items of machinery which are also manufactured indigenously, such as, captive power plants, certain types of generating sets and circular looms for jute industry. Concessions available to export thrust sectors were further widened to include machinery imports for rubber and canvas, footwear sector and textile and sericulture sectors.

6.17 As a measure of relief, the Budget also made some marginal changes in the duty rates for several industries. Excise duty relief was given to match industry, mini cement units and lamp manufacturing industry. Full excise duty concession was provided for printing and writing paper containing not less than 75 per cent of pulp made from jute and mesta. Similarly, excise duty was lowered on synthetic organic dyestuff and complete exemption was provided for synthetic shoddy blankets of value upto Rs. 60/- per square metre. Budget also proposed complete exemption from excise duty on the first 30 prints of each feature film against the existing exemption for 12 prints and rates of duty on subsequent prints were reduced. On the customs side, duty was reduced on import of raw wool by apex Khadi Federations, paraxylene and raw silk. Fresh tariff concessions were extended to imports of specified life saving drugs and instruments for environmental control and safety in chemical industry.

6.18 The excise tariff for small scale units was restructured to allow complete exemption from excise duty upto a value of Rs. 30 lakhs only in cases where goods, falling under more than one chapter of the Central Excise Tariff, are manufactured. Subsequently, during the course of budget discussion the eligibility criterion for availing exemption was raised from the level of Rs. 1.5 crores of value of clearances to Rs. 2 crores. For coping with problems of industrial sickness, the Budget proposed to introduce an excise relief scheme for weak units. The scheme as announced in a separate notification, is applicable to any industrial undertaking whose accumulated losses as at the end of any financial year have resulted in an erosion of 50 per cent or more of the maximum net worth during the immediately preceding five financial years. The eligible unit is provided excise loan not exceeding 50 per cent of excise duty actually paid for three years subsequent to the date of approval of rehabilitation package by the empowered committee. The total amount given by way of such excise loan, shall not, in any case, exceed 25 per cent of the overall cost of the rehabilitation package.

6.19 With a view to encouraging food processing and packaging industry, concessional excise duty was extended to refrigerating appliances and machinery intended to be used in vans meant for transport of food and dairy products. The list of specified food processing and packaging machinery enjoying concessional import duty was expanded. Excise duty was also reduced on skimmed milk powder, condensed milk, specified food preparations, namkeen etc. Similarly, import duty on specified amino acids, certain items of machinery for marine food sector, specified machinery and equipment for seed production, processing and quality control was reduced. However, customs duties on import of cinnamon and cloves were raised in order to help farmers realise remunerative prices.

6.20 Petrochemical industries were eligible for certain concessions including concessional excise duty on naphtha when they are declared as refineries. This was reviewed with a view to making available the concessions with certain modifications, without linking the concessions to the declaration of a factory as a refinery and orders declaring certain factories as refineries were rescinded. Simultaneously the concessional rate of duty on raw naphtha was raised from Rs. 30 to Rs. 60 per kl.

6.21 Following the decontrol of pricing and distribution of aluminium, excise and customs duties on aluminium and certain downstream products were restructured. While excise duty

was hiked in the case of aluminium ingots, wire-rods and some downstream products, the aluminium ingots were exempted from basic and auxilliary customs duties. Further, the basic customs duty on import of aluminium scrap was reduced from 30 per cent to 15 per cent.

Additional Resource Moblisation

6.22 The Additional Resource Mobilisation (ARM) measures undertaken in Central Budget for 1989-90 were expected to yield Rs. 1,287 crores. Out of this, Rs. 757 crores were to be raised through indirect taxes and Rs. 530 crores through direct taxes and levies. The States' share in Centre's additional resource mobilisation, was to be Rs. 384 crores. The Railway budget for 1989-90 proposed further hikes in the rates of traffic, parcels and luggage which were expected to yield an additional revenue of Rs. 876 crores. Details of the ARM measures are given in Table 6.3.

TABLE—6.3

Additional Resource Mobilisation through Central Budget for 1989-90

(Rs. crores)

	Centre's share	State's share	Total
I. Taxes	903	384	1287

(b) Posts and Telecommunication	—	—	—
III. Total (I+II)	1779	384	2163

Revenue and Expenditure

6.23 The budget for 1989-90 aimed to contain the budgetary deficit at Rs. 7,337 crores, about Rs. 150 crores lower than budget estimate of Rs. 7,484 crores and over Rs. 450 crores lower than the revised estimate of Rs. 7,940 crores in 1988-89. Aggregate resources of Central Government including internal and extra-budgetary resources of Centre's public enterprises were estimated at Rs. 98,008 crores, 17.2 per cent higher than Rs. 83,617 crores in 1988-89 (BE). Aggregate disbursements, on the other hand, were estimated to be Rs. 105,345 crores, 15.6 per cent higher than in 1988-89 (BE). Hence, the uncovered deficit of Rs. 7,337 crores. On the receipts side, tax and non-tax revenues were expected to grow by 20.4 per cent and 30.4 per cent respectively. Domestic capital receipts were anticipated to increase by 6.1 per cent but external capital receipts were to decrease by 0.3 per cent, so that total capital receipts were estimated to rise by 5.4 per cent. On the disbursement side, non-developmental expenditure was projected to grow by 10.5 per cent over the level in budget estimates of 1988-89 and development expenditure was expected to rise by 19.5 per cent.

6.24 The Central Plan outlay for 1989-90 (BE) was raised by 20 per cent to Rs. 34,446 crores. A significant feature was a substantial lowering of budgetary support to Central Plan from about 56 per cent in 1988-89 (BE) to 49 per cent in

1989-90 (BE). The contribution from internal and extra-budgetary resources of public enterprises was envisaged to rise from 44 per cent to 51 per cent during the period. The sectoral allocation was oriented to strengthen agricultural, industrial and infra-structure sectors. The allocation to energy, transport and communications together was stepped up by over 23 per cent while the allocation to industry and minerals was also enhanced by 23 per cent.

Seventh Plan/LTFP Projections: Comparison with Actuals

6.25 The year 1989-90 is the terminal year of the Seventh Plan and it is interesting to compare the behaviour so far of some important fiscal parameters with their Seventh Plan targets. The targets were fixed in terms of 1984-85 prices. These targets were annualised in the Long Term Fiscal Policy (LTFP) document and were expressed as ratios of respective year's GDP. The comparison with LTFP projections is presented in Table 6.4. Caution is required in comparing the various ratios of 1988-89 and 1989-90 with the corresponding year's LTFP ratios as 1988-89 ratios are based on revised estimates which are subject to changes and 1989-90 ratios are based on budget estimates which are only tentative.

* The yearly projections given in LTFP document, are annualised Seventh Five Year Plan targets which are expressed as ratios of annualised GDP. In case of actuals the new series GDP available upto 1988-89 and the estimated GDP for 1989-90 (assuming growth rate of 10 per cent) have been converted to confirm to old series (as in LTFP) by using appropriate conversion factor.

Note : 1. The ratios given here will not agree with the ratios given in table 6.2 because of conceptual differences and differences in GDP figures.

2. BCR for the Centre as defined in plan documents is the balance of current receipts (excluding external grants) over non-Plan revenue expenditure (including Capital outlay on border roads and defence).

6.26 It is observed from the Table 6.4 that BCR which had remained negative and even widened to (—) 1.2 per cent of GDP in 1988-89 (RE) showed a marginal surplus in 1989-90(BE). However, the 1989-90 figures are only tentative estimates. Judging by the latest available trend in net RBI credit to Central Government which has been running at a level higher than the budget estimates, the year-end results may well show a negative BCR against Plan expectations. Other broad conclusions are as under:—

(a) Tax revenue performance has been more or less on target. Within tax revenue, the performance of direct taxes has been behind the targets. Indirect taxes have performed better, exceeding Seventh Plan projections by significant margins.

(b) Non-tax revenues have also performed well, exceeding the projections by significant proportions.

(c) Non-Plan revenue expenditures have exceeded Seventh Plan targets by significant margins. In particular, defence (excepting 1989-90), interest payments and food and fertiliser subsidies were well above the targets.

(d) In regard to finance, domestic borrowings were far above the projected levels and both market borrowings and budgetary deficit exceeded by wide margins the projected targets.

(e) Excepting 1985-86, Internal and Extra Budgetary Resources of PSUs (including Oil Pool Accounts surplus) fell significantly short of projections.

(f) The size of Central Plan and assistance for State and UT Plans were well above the Seventh Plan anticipations.

Savings and Capital Formation

6.27 An economic and functional classification of the Central Budget is prepared every year. A striking feature of the classification on the expenditure side has been the steady decline in the proportion of expenditure on capital formation, from over 40 per cent in mid-eighties to 34.7 per cent in 1989-90 (Table 6.5). This has

TABLE 6.5

5. Total Expenditure	**22495**	**25401**	**30494**	**35988**	**43879**	**53112**	**64023**	**70304**	**82135**	**88506**

Note : Figures in decimals are percentages to respective total expenditure.

resulted primarily from the sharp increase in expenditure related to current transfers. Thus, the proportion of transfer payments in total expenditures has increased from an average of 31 per cent during 1980-81 to 1983-84 to 40 per cent in 1989-90. Among transfer payments, the highest increase has been on account of interest payments; the proportion of interest payments in total expenditures increased from 10 per cent in 1980-81 to 17.7 per cent in 1989-90. The share of consumption expenditure, on the other hand, has fluctuated between 21 to 23 per cent. The bulk of the consumption expenditure has been on defence account but its share in total consumption expenditure has been remarkably stable at around 70 per cent.

6.28 The situation in regard to capital formation and savings out of budgetary transactions is detailed in Table 6.6. Consequent on the sharp decline in the proportion of expenditure on capital formation since 1986-87, the annual growth in capital formation in nominal terms has nosedived to only 3.7 per cent in 1989-90 from the annual average growth of around 19 per cent during 1981-82 to 1985-86. The dis-savings of the Central Government, however, reduced in 1989-90 largely due to a narrowing of dis-savings of Government Administration which in turn, was due to the transfer of Rs. 2300 crores from oil pool account to revenue account. Moreover, the retained net profits and depreciation provision of departmental undertakings and depreciation also improved from Rs. 2509 crores in 1988-89 (RE) to Rs. 3625 crores in 1989-90.

Note :—(i) Gross capital formation in this Table includes loans given for Capital formation on a gross basis. Consequently, domestic capital receipts include loan repayments to the Central Government.

(ii) Figures in brackets are percentage increase over the preceding year.

(iii) Figures in brackets of row III indicate the gap as per cent of GDP. Because of the revision in the new series of GDP, the ratios given here will differ from those given in the earlier issues of Economic Survey.

Central Government Liabilities

6.29 As indicated earlier, Central Government's borrowings and deficit financing have exceeded the Seventh Plan targets by significant margins. It is, thus, appropriate to give a brief review of Government's debt position and its implications. Table 6.7 summarises the position in regard to internal, external and total liabilities of the Central Government. Internal liabilities consist of two parts, namely internal debt and other internal liabilities. Internal debt includes market borrowings, treasury bills, special securities issued to Reserve Bank and special bearer bonds. The other internal liabilities include small savings collections, provident funds, reserve funds and deposits. Internal liabilities, as a whole, have witnessed a significant rise over the years. Thus, the ratio of outstanding internal liabilities to GDP increased from 35.7 per cent at the end of 1980-81 to as much as 51.9 per cent at the end of 1988-89 and is estimated to be about 54 per cent by the end of 1989-90. A significant feature has been the sharp increase in other internal liabilities during the period. The ratio of outstanding other internal liabilities to GDP shot up from 12.9 per cent at the end of 1980-81 to 22.6 per cent at the end of 1988-89 and is expected to rise further to 23.5 per cent by the end of 1989-90. These liabilities attract relatively higher interest rates and as such, have added to the growing interest payment liability.

External Debt (Outstanding) (Converted at year end exchange rates)	13479 9.9	15445 9.7	17577 9.9	20214 9.8	24004 10.4	26638 10.1	32312 11.0	36578 11.0	46838 12.0	N.A.

*External debt figures represent borrowings by Central Government from external resources and are based upon historical rates of exchange.

NOTE 1. Figures in decimals are percentages to respective GDPs.

2. GDP (at current prices) for 1989-90 are estimated to grow by 10.0 per cent.

6.30 The outstanding external liability on Government account have been shown on the basis of historical exchange rates in Table 6.7. These liabilities as a ratio of GDP have tended to decline over the years, from 8.3 per cent at the end of 1980-81 to 6.5 per cent at the end of 1988-89. The ratio is expected to remain at 6.5 per cent by the end of 1989-90. However, it will be seen from the memorandum item in Table 6.7 that the outstanding external liabilities when converted at year-end exchange rates, showed a rising trend. The ratio of this converted external liability to GDP increased from 9.9 per cent at the end of 1980-81 to 12.0 per cent at the end of 1988-89. The year-end exchange rates for 1989-90 are not yet available.

6.31 The total outstanding liabilities of Central Government comprising of internal liability and external liability] (expressed on the basis of historical exchange rates) have continued to rise over the eighties. These liabilities formed about 44 per cent of GDP at the end of 1980-81 and the ratio increased to over 60 per cent by the end of 1989-90. Taking external liabilities as converted by year-end exchange rates, the total outstanding liabilities grew from 45.6 per cent of GDP at the end of 1980-81 to 63.9 per cent at the end of 1988-89.

6.32 The growth of Government debt has led to a substantial increase in gross interest payments which have gone up from 11.6 per cent of total Central Government expenditure in 1980-81 to around 14 percent in 1985-86 and over 19 per cent in 1989-90 (B.E.). Equally disturbing is the rise in the share of net (of interest receipts) interest payments from 3.6 per cent in 1980-81 to 5.5 percent in 1985-86 and 10.1 percent in 1989-90 (B.E.).

6.33 The assets of the Central Government, comprising capital investments and loans advanced, have increased from Rs. 59,670 crores at the end of 1980-81 to an estimated (in budget) total of Rs. 208,525 crores by the end of 1989-90. As a proportion of GDP at current market prices, this represents an increase from 44 per cent in 1980-81 to over 48 per cent in 1988-89. Over the same period, total liabilities have increased from Rs. 59,749 crores (44 per cent of GDP) at the end of 1980-81 to an estimated (in budget) total of Rs. 259,729 crores (60 per cent of GDP) at the end of 1989-90. In 1981-82 assets and liabilities were approximately of the same magnitude. Since then total liabilities have consistently exceeded total assets and the gap has widened each successive year, to arrive at an estimated level exceeding Rs. 50,000 crores by the end of 1989-90. The growing gap between the stock of Central Government assets and liabilities primarily reflects the succession of deficits on revenue account incurred since 1979-80.

Finances of States and Union Territories

6.34 The budget estimates for 1989-90 of States and Union Territories taken together anticipated an overall deficit of Rs. 869 crores, close to the deficit of Rs. 872 crores in the budget estimates for 1988-89 but marginally lower than the revised deficit of Rs. 913 crores in that year. Aggregate resources were to rise by over 17 per cent to Rs. 69,874 crores while aggregate disbursements were also to increase by over 17 per cent to Rs. 70,743 crores, thereby leading to the deficit of Rs. 869 crores. Current revenue was budgeted to rise by 14.6 per cent to Rs. 52,827 crores from Rs. 46,094 crores in the budget estimates of the previous year. States' own tax revenues were estimated to grow by 16.8 per cent as against 14.3 per cent in 1988-89 (RE). Their share in Central taxes was to rise by 12.7 per cent as against 10.1 per cent in 1988-89 (RE). Non-tax revenue was expected to grow by only 2.6 per cent as against 8.3 per cent in the previous year. Grants from the Centre, on the other hand, was to rise by over 25 per cent against a little less than 22 per cent in 1988-89 (RE).

6.35 The pattern of expenditure of the States and Union Territories show a gradual decline in the proportion of development expenditure in total expenditure. The ratio of development expenditure to total expenditure declined from about 73 per cent in 1985-86 to less than 70 per cent in 1989-90 (RE). This trend is disquieting.

6.36 Another disquieting feature has been the progressive widening of the gap between total expenditure and current revenues. This gap as a ratio of current revenue widened from about 30 per cent in 1985-86 to 34 per cent in 1989-90. The gap has widened despite a substantial increase of over 58 per cent in grants from Centre between 1985-86 and 1989-90. A substantial part of the gap has been financed from loans from Centre. In recent years, however, the contribution of market loans and provident funds in covering the gap has increased. Thus, market loans and provident funds which covered about 25 per cent of the gap in 1985-86, increased their share to over 28 per cent in 1989-90.

Central and State Governments—Combined

6.37 The overall budgetary deficit of the Centre States and Union Territories in 1989-90 (BE), was targeted at Rs. 8,206 crores, marginally lower than Rs. 8,356 crores in 1988-89 (BE). Aggregate receipts were budgeted to increase by 18 per cent to Rs. 141,017 crores. Tax receipts were to increase by 18.5 per cent while non-tax receipts including internal resources of public undertakings were anticipated to move up by 26 per cent to Rs. 27,582 crores. Aggregate expenditure, at the same time, was expected to increase by 16.8 per cent to Rs. 149,223 crores. Development expenditure was expected to rise by 18 per cent and non-developmental expenditure by about 15 per cent. The gap between total expenditure and current revenue continued to widen further and amounted to Rs. 45,600 crores as against Rs. 41,744 crores in 1988-89 (BE). This gap was to be financed to the extent of 74 per cent from domestic capital receipts, 8 per cent from external receipts and the balance 18 per cent through budgetary deficit.

Annual Plan 1989-90

6.38 The Annual Plan outlay for the Centre, States and Union Territories was raised by 15.6 per cent to Rs. 57,598 crores (Table 6.8). The allocation for Central Plan was Rs. 34,446 crores compared with Rs. 28,715 crores in 1988-89. The allocation for States and Union Territories Plan was Rs. 23,152 crores as against Rs. 21,103 crores last year.

TABLE 6.8

Annual Plan Outlay : Centre, States and Union Territories

(Rs. crores)

Heads of Development	Annual Plan 1988-89		Annual Plan 1989-90

12. General Services	415	0.8	510	0.9
Total	49818	100.0	57598	100.0

6.39 The Annual Plan for 1989-90, which marked the terminal year of the Seventh Plan, accorded priority to the development of agriculture, rural development, irrigation and flood control and infrastructure (Table 6.8). More than two-third of the Plan outlay was allocated for agriculture, energy, transport and communication. Substantial provisions were also made for social services. The Plan was to be financed to the extent of about 79 per cent from domestic resources and 8.4 per cent from external inflow of funds. The remaining about 12.6 per cent was to be met through deficit financing.

Post-Budget Development

6.40 Three supplementary demands for grants were presented to Parliament; the first in July, the second in October and the third in December, 1989. The first supplementary demands for grants involved an additional cash outgo of

Rs. 48 crores, of which, Rs. 30 crores were on Plan assistance and Rs. 18 crores on non-Plan assistance. The supplementary demands for grants also included technical grants for Rs. 727 crores, which were to be matched by additional receipts or corresponding savings. Besides, six advances aggregating a little over Rs. 2 crores sanctioned from the Contingency Funds earlier were proposed to be recouped when the demands received sanction.

6.41 The second batch of supplementary demands for grants involved an additional cash outgo of Rs. 1,241 crores, of which Rs. 709 crores were on account of Plan assistance and Rs. 532 crores on non-Plan assistance. The most important item of Plan assistance was Jawahar Rozgar Yojana which claimed Rs. 389 crores. Two important items on non-Plan side were subsidy on imported fertilisers (Rs. 200 crores) and cash compensatory support (Rs. 150 crores). Besides, technical supplementaries amounting to Rs. 1325 crores were also involved but these were to be matched by additional receipts or corresponding savings. Three advances totalling Rs. 11.4 crores made out of the Contingency Fund earlier, were proposed to be recouped.

6.42 The third batch of supplementary demands for grants entailed an additional cash outgo of Rs. 830 crores, almost entirely on non-Plan account. The important items were defence services (Rs. 200 crores), subsidy on indigenous fertilisers (Rs. 300 crores), subsidy on imported fertilisers (Rs. 100 crores), cash compensatory support for exports (Rs. 125 crores) and others (Rs. 105 crores). Besides, an amount of Rs. 300 crores was sought for defence services to cover their payment of additional instalments of dearness allowance. This was to be counted against the lumpsum provision of Rs. 1000 crores already made for dearness allowance payments in the grants of the Ministry of Finance.

Revenue Collections

6.43 The performance of the tax revenues as revealed by the collection figures was not quite satisfactory particularly in respect of excise and corporation taxes. The provisional data upto December, 1989 indicate that total revenue collections during the first nine months of the year 1989-90 accounted for only 68 per cent of the Budget projections of the year as compared to over 70 per cent in the corresponding period of 1988-89. The combined realisation during April-December 1989 was Rs. 33,668 crores which was nearly 15 per cent more than Rs. 29,311 crores mopped up during the same period in the last financial year. Despite this upward trend, total collections fell short of the prorata Budget Estimates for 1989-90 by 7.02 per cent. Data on tax-wise collection of revenue by the Centre for the period April-December, 1989 are given below :—

TABLE 6.9

**Centre's Collection from major taxes during the period April-December, 1989-90*

Sl. No.	Taxes/Duties	1989-90 (Rs. crores)	1988-89 (Rs. crores)	%age increase 1989-90/ 1988-89	%age of 1989-90 (B.E.)
1	2	3	4	5	6
1.	Income and Corporation Tax . .	5322	4809	10.7	59.1 (62.0)
2.	Excise** .	15617	13207	18.2	69.1 (70.5)
3.	Customs .	12729	11295	12.7	71.2 (71.7)
	Total .	**33668**	**29311**	**14.9**	**68.0 (70.5)**

(Figures in brackets in Col. 6 indicate percentage of collection in 1988-89).

*As per departmental records.

**Excise figures are exclusive of cesses not collected by Department of Revenue.

6.44 On the indirect taxes side, the combined realisation from central excise and customs upto December was Rs. 28,346 crores, an increase of 15.7 per cent over the same period last year. In case of excise, although an increase of 18.2 per cent over the figures of last year was recorded, the collection actually deviated from pro-rata Budget Estimates (BE) by (—)5.9 per cent. Similarly, customs duty collections deviated from its estimated level by (—)3.8 per cent. In respect of direct taxes, corporation taxes have not shown the same buoyancy of collection as personal income-tax. The collection of corporate taxes have shown an upward increase of 1.67 per-cent whereas personal income-tax went up by 20.67 per cent. The increase in corporation tax

collection is low mainly due to reduced collection from oil sector and tax exemptions allowed to companies, like higher rates of depreciation, reintroduction of investment allowance and 100 per cent tax exemption on export profits.

6.45 To curb tax evasion, smuggling and foreign exchange malpractices, a series of operations were carried out against suspected taxdodgers and economic offenders. Under Income Tax Act, 2718 search operations were conducted during the period April-December 1989. The total seizure effected in these searches amounted to Rs. 79 crores as against Rs. 117 crores in 5608 searches during the corresponding period last year. The average value of assets seized per search during this period worked out to Rs. 2.90 lakhs as against Rs. 2.1 lakhs last year, thus indicating a qualitative improvement in the searches conducted. Total amount of concealed income surrendered in these search operations amounted to Rs. 119.13 crores. Further to broaden the tax net and improve collection, survey operations were carried out at 3,98,143 premises, bringing in 2,43,032 new assessees on record as compared to 3,17, 837 assessees added in 4,90,551 surveys last year between April-December, 1989. In the field of indirect taxes 3778 cases of duty evasion were unearthed during the period April-December 1989 involving duty of Rs. 775.37 crores as compared to Rs. 212 crores detected during the same period in the previous year. Total number of cases booked under anti-smuggling drive was 46123 and the total value of contraband goods seized amounted to Rs. 384 crores against Rs. 354 crores during April-December 1988. The number of persons detained under COFEPOSA was 859 as against 856 in the previous year.

6.46 One of the noteworthy post-budget development was the enactment of the Direct Tax Laws (Second Amendment) Bill 1989, giving certain tax benefits to shipping companies and investments by non-resident Indians. The Act also removes some anomalies and operational difficulties in the new assessment procedure which came into effect from April 1, 1989. The salient features of the Act are : computation of capital gain on sales of shares in terms of foreign exchange in the case of non-residents, relaxation of the criterion for determining the residential status of non-residents by raising the time limit of stay in the country from 90 days to 150 days, a new provision in the Income Tax Act to provide tax incentive to shipping companies to augment their fleet, extension of 80-CC benefit to the shares issued by shipping companies and an alternative method of valuation of quoted equity shares. The Act also brings uniformity in the method of valuation of unquoted equity shares of investment companies and non-investment companies in order to remove hardships in the case of the former.

6.47 On the indirect taxes front, concessions amounting to Rs. 123.2 crores (Rs. 118.9 crores on excise side and Rs. 4.3 crores on customs side) were announced by the Finance Minister during the course of general debate on the Budget. The concessions mainly related to black and white T.V., colour T.V. of 36 cm size, mini cement plant, plastic articles, paper and paper board, specified jute machineries etc.

6.48 Some further adjustments were made in the excise and customs duty structure during the course of the year. These included, reduction of excise duty on fire works, a new concessional rate of basic excise duty at Rs. 8.43 per kg. for polyester staple fibre manufactured out of recycled waste and Rs. 1.88 per kg. on waste of acrylic fibre and withdrawal of excise duty as well as reduction in import duty on paraxylene. Further, concessional rate of excise duty was provided on flax fabrics, modified polyphenylene oxide and full exemption in excise duty was granted on specified construction materials used in low-cost houses, burnt clay tiles generally used in irrigation and drainage works, expanded polystyrene beads (in specified cases), etc. As an administrative measure, potassium chlorate was withdrawn from SSI exemption scheme.

6.49 In case of customs duties, some changes were made to adjust to international prices and to reduce inessential imports. The auxiliary duty on import of pig iron was reduced from 45 per cent ad valorem to 5 per cent. Import duty on iron ore pellets was reduced from 85 per cent to 40 per cent ad valorem. Similarly, commodity rates of several chemical items were adjusted. These included specified plasticisers chemicals, intermediate B-C istemic acid, methanol, interferon alpha 2-b injection, pesticide intermediate,

chloro acetyl chloride, ethylene, modified poly phenylene, copolymers, specific grades of P.V.C., H.D.P.E. and L.D.P.E. polystyrene and polypropylene, life saving drugs, LDPE based sheating compound or insulating compound, some of the chemicals used for manufacture of polypropylene multi-filament yarn (of colouring matter), polyester film required for manufacture of magnetic tapes, membrane for replacement by caustic soda plant etc. Further duty changes were introduced in case of components of fishing trawlers (20 per cent to 30 per cent) and full exemption was accorded to imports of recorded magnetic tapes by specified agencies and specified sports goods. The basic customs duty on computer software was increased from 65 per cent ad valorem to 107 per cent ad valorem. The basic customs duty on aluminium ingots was raised to 5 per cent ad valorem plus Rs. 2500 per tonne. Newsprint for printing of newspapers, books and periodicals were exempted from C.V.D.

Central Government Departmental Enterprises

Railways

6.50 The hikes in rates of goods traffic, passenger traffic, parcel and luggage effected by Railways in 1988-89 and the increment of 13 million tonnes in originating revenue traffic, enabled them to improve gross traffic receipts to Rs. 9,376 crores (revised estimates) from Rs. 8,435 crores in 1987-88. The working expenses also increased to Rs. 8,725 crores compared to Rs. 7,803 crores in the previous year. Consequently, the net traffic receipts could improve only marginally, from Rs. 632 crores in 1987-88 to Rs. 651 crores in 1988-89 (RE). After making payment to General Revenues, the Railways earned a net surplus of Rs. 28 crores compared with Rs. 84 crores in 1987-88. This surplus was to the tune of Rs. 179 crores in 1985-86. The surplus weathered away progressively thereafter. Even in 1985-86, the surplus as a ratio of capital at charge was a mere 2 per cent; this dwindled to 0.2 per cent in 1988-89 (RE). Judging by this standard, the performance of Railways has been far from satisfactory.

6.51 The gross traffic receipts for 1989-90 was estimated to be Rs. 10,633 crores, of which Rs. 876 crores were proposed to be earned from additional resource mobilisation through hikes in rates of tariffs and freights. The working expenses were estimated to rise to Rs. 9,788 crores. Consequently, net traffic receipts were projected to increase to Rs. 845 crores from Rs. 651 crores in 1988-89 (RE). Contribution to General Revenues was estimated to be Rs. 719 crores. The net result was expected to materialise a surplus of Rs. 140 crores. The proposed hikes in tariffs and freights were as under :—

— The rates of goods traffic excepting certain commodities of common use were to be raised by 11 per cent.

— The freight structure was proposed to be rationalised by revising the classifications of low rated commodities.

— The rates of parcels and luggage were to be increased by 11 per cent.

6.52 The allocation for Railway Plan in 1989-90 was envisaged at Rs. 4,450 crores against Rs. 3,850 crores in 1988-89. The outlay was proposed to be financed on the basis of budgetary support of Rs. 1434 crores, internal resources of Rs. 2,016 crores and issue of Bonds of Rs. 1,000 crores. The Plan priority continued to remain on replacement of overaged assets, modernisation through the process of replacement and completion of essential on-going projects.

Posts

6.53 The gross receipts of Posts in 1988-89 (RE) improved to Rs. 774 crores from Rs. 643 crores in 1987-88. Working expenses at the same time increased to Rs. 863 crores from the previous year's Rs. 834 crores. The net outcome was a deficit of Rs. 89 crores which was lower than the deficit of Rs. 191 crores in 1987-88. The gross receipts were estimated to rise to Rs. 800 crores in 1989-90 (BE). Simultaneously, working expenses were estimated to increase to Rs. 990 crores. As in previous year, no dividend was proposed to be paid to general revenues. The net result was expected to generate a larger deficit of Rs. 190 crores in 1989-90 (BE).

Telecommunications

6.54 The gross receipts of Telecommunications amounted to Rs. 2493 crores in the revised estimates of 1988-89. This was Rs. 792 crores more

than the gross receipts in 1987-88. A good part of the increase, about Rs. 325 crores was due to ARM measures undertaken in 1988-89. The ARM measures included hike in rental and call charges (local and trunk) effective from April 1, 1988. The working expenses of Telecommunications also increased from Rs. 1247 crores in 1987-88 to Rs. 1550 crores in 1988-89 (RE). A dividend of Rs. 170 crores was paid to General Revenues. The net outcome was a surplus of Rs. 773 crores compared with Rs. 454 crores in the previous year.

6.55 The gross receipts were projected to rise to Rs. 2980 crores in 1989-90 (BE), while working expenses were estimated to increase to Rs. 1804 crores. A provision of Rs. 198 crores was proposed as dividend to General Revenues. With these, the year end result was expected to show a surplus of Rs. 978 crores.

Central Government Public Enterprises

6.56 In absolute terms net profits (after tax) of Central Government public enterprises rose substantially from Rs. 2020 crores in 1987-88 to Rs. 2981 crores in 1988-89 (Table 6.10). The rate of return, as measured by net profits to capital employed rose to 4.4 per cent in 1988-89, which is the highest achieved in the decade. However, as in previous years, the petroleum sector enterprises contributed the overwhelming bulk of these profits—Rs. 2564 crores out of the total Rs. 2981 crores in 1988-89. Thus, the 200 odd non-petroleum sector enterprises contributed a meagre sum of Rs. 417 crores. While this reflected an improvement over the net loss of Rs. 141 crores incurred in 1987-88, the ratio of net profits to capital employed in non-petroleum sector enterprises was less than 1 per cent in 1988-89. Clearly, there is substantial scope for improving the financial performance of non-petroleum Central Government public enterprises.

6.57 The overall working results for the first half of 1989-90 showed a net profit of Rs. 1103 crores as against a net profit of Rs. 694 crores during the corresponding period in 1988-89. (This shows an increase of Rs. 409 crores or 58.9% over the corresponding period of the previous year). Substantial increase in profits or decrease in losses has been reported by the Petroleum, Minerals & Metals, Coal, Power, Transportation Equipment, Steel and Transportation Services Sectors. On the other hand, Chemicals & Fertilisers, Medium and Light Engineering, Telecommunication Services, Contract and Construction Services and Textiles Sectors have either reported increased losses or decreased profits.

*Includes deferred revenue expenditure.

State Government's Commercial Undertakings

6.58 The working results of departmentally run commercial undertakings of States and Union Territories have been rather poor. Their net losses were estimated at Rs. 1483 crores in 1989-90 as against Rs. 1165 crores in the budget estimates of 1988-89 and Rs. 1485 crores in the revised estimates of 1988-89. With the exception of forests and mines and minerals which have been showing net surplus, all others have been incurring losses for quite some years. The more disturbing feature has been the widening of losses of loss-making undertakings over the years. Thus, the losses of loss making undertakings widened from Rs. 1689 crores in 1988-89 (BE) to Rs. 2002 crores in 1989-90 (B.E.). The losses were of the order of Rs. 1,086 crores in 1985-86. The losses amounted to Rs. 8106 crores during the Seventh Plan. Details are shown in Table 6.11.

6.59. The dividends and profits from non-departmental undertakings of the States and Union Territories showed marginal improvement to Rs. 80 crores in 1988-89 compared with Rs. 75 crores in the revised estimates for 1987-88. However, the two major non-departmental undertakings viz., the State Electricity Boards (SEBs) and the State Road Transport Undertakings (SRTUs) continued to incur substantial losses in their operations. The losses of the SEBs at current rates amounted to Rs. 2264 crores in 1987-88, Rs. 2705 crores in 1988-89 (RE). The losses were estimated to further increase to Rs. 3251 crores in 1989-90. An important factor contributing to the high level of commercial losses was the requirement for the SEBs to supply electricity to rural/agricultural sectors at low average tariff rates in relation to costs of supply. The performance in terms of the rate of return on capital, (after depreciation and interest) was also negative, being about (—)12.4 per cent in 1987-88, (—)13.1 per cent in 1988-89 and (—)13.1 per cent in 1989-90. The Electricity Supply Act, 1948 enjoins on the SEBs to earn a return of not less than 3.0 per cent by way of net surplus after providing for depreciation and interest. The rates of return of SEBs shown above do not take into account the claims of SEBs for subsidies for rural electrification from the State Governments. If these subsidies are taken into account, the position would show some improvement.

6.60 The financial health of State Road Transport Undertakings (SRTUs) also was not satisfactory. Their commercial losses at Rs. 251 crores in 1988-89 (revised estimates) were higher than 1987-88 pre-actuals of Rs. 146 crores. The losses in 1989-90 (annual plan estimates) were expected to be Rs. 333 crores. It was estimated that during the Seventh Plan Period, SRTUs would incur a loss of Rs. 1434 crores at 1984-85 fare levels. But they were expected to raise an additional fare revenue of Rs. 2200 crores and thus have a net surplus of Rs. 766 crores. On present reckoning the expectation is unlikely to be achieved, rather the net loss is anticipated at around Rs. 1120 crores.

CHAPTER 7
MONETARY AND CREDIT DEVELOPMENTS

Average annual growth of money supply in the past three years has been over 17 per cent. This had already given rise to an overhang of liquidity in the economy. In 1989-90 so far, overall aggregate monetary resources (M3) and narrow money (M1) has grown more rapidly than in the previous year. There has been a spurt in currency and demand deposits on the component sides. On the sources side, net bank credit to Government recorded a faster growth indicative of increasing strain on Government finances. Bank credit by scheduled commercial banks also grew at a higher rate primarily because of a positive growth in food credit this year so far in contrast with its return-flow last year and there was also a higher increase in non-food credit in absolute terms.

7.2 The basic thrust of the credit policy pursued by the Reserve Bank of India(RBI) during 1989-90 remained on providing necessary support to production and trade while ensuring restraint on excess liquidity growth and consequent inflationary pressures.

7.3 While the Statutory Liquidity Ratio (SLR) was left unaltered at 38 per cent, a uniform Cash Reserve Ratio (CRR) came to be prescribed for all net demand and time liabiiities of the Scheduled Commercial Banks effective July 1, 1989 replacing different CRRs for different types of deposits. In view of existing high level of refinance drawn from RBI by the banks which add to the reserve money, RBI came to restrict its refinance on export credit by first shifting the base from monthly average of such credit by banks for 1986 to that for 1987 and then by reducing the limit to 75 per cent from 100 per cent of the increase in export credit over such monthly average. The banks have also been directed to ensure that their incremental non-food credit deposit ratio does not exceed 60 per cent during the fiscal year 1989-90. Banks which exceed this stipulated ratio will have to pay additional interest of 3 percentage points on the refinance drawn from RBI to the extent of excess non-food credit over the stipulated ratio or the refinance drawn whichever is lower. These measures are aimed at both moderating the unusual spurt in non-food credit and urging the banks to be more self-reliant in their operations. While the selective credit control on bank advances against the stocks of vegetable oils and oilseeds came to be liberalised, bank advancs against the stocks of wheat, sugar, gur and khandsari were subjected to higher margin requirements.

7.4 With regard to interest rates the major changes relate to the rates of interest on direct lending to agriculture by commercial banks, export credits and the deposit rate on term deposits of 46-90 days. A major development during the year is the liberalisation of the short-term money market with the removal of ceilings on call money rates, the decision to permit Certificates of Deposit, and Commercial Paper at market determined rates and an expansion in the operations of the Discount and Finance House of India.

7.5 For monitoring trends in the monetary area it may be recalled that exercises were taken up since 1986-87 for setting annual indicative monetary targets for internal use in Government. These targets are reviewed periodically. While increases in both net bank credit to the Government (NBCG) and net Reserve Bank Credit to the Central Government (NRCCG) for the full financial year 1988-89 were contained within the respective targets, NRCCG was moving above its targeted growth path almost throughout the year till the early part of March, 1989. The actual growth of M3 exceeded the target, inter alia, because of higher than projected increase in net foreign exchange assets of the banking sector and in bank credit by the scheduled commercial banks as also lower than projected increase in net non-monetary liabilities of the banking sector. For the current financial year 1989-90 also, a similar exercise

of setting indicative monetary targets and monitoring them has been carried out. The experience of the past few years with these indicative projections is that the actual behaviour of monetary magnitudes fluctuates greately during the year. Further the instruments available for short-term corrections are not effective for fine tuning the rate of growth in money supply. Moreover, the growth in output is particularly difficult to predict and unforeseen variations in production reduce the usefulness of monetary targetting exerecise. Hence the exercise is best thought of as a broad check of consistency between fiscal and monetary policy.

Monetary Trends during 1988-89

7.6 With the changing of the commercial banks' accounting year to the financial year period, there occurred an unusual year-end bulge in bank desposits and credit in the last week ending March 31, 1989. Demand deposits showed an increase of Rs. 4,579 crores or by 19.6 per cent in this one week; aggregate deposits increased by Rs. 7,010 crores or by 5.0 per cent. Likewise, non-food credit expanded by Rs. 4,643 crores (5.5 per cent) during the same week. These increases were not reflective of financial transactions associated with any enduring economic activity but were partly the result of application of interest on deposits and advances and partly the consequence of closing of accounts by banks on March 31. This quantum jump in bank deposits and credit of banks has seriously vitiated the utility of March 31, 1989 data for making an assessment of the underlying banking and monetary trends. Keeping this in view, the review of banking and monetary trends during 1988-89, as also the current financial year, has been attempted on the basis of an adjusted set of data, i.e., March 31, 1989 data for RBI and Government while data for scheduled commercial banks' operations are based as on March 24, 1989.

7.7 During the financial year 1988-89 both narrow money (Ml) and broad money (M3) expanded at a higher rate than in 1987-88. M1 grew by a higher rate of 14.0 per cent in 1988-89 as against an increase of 13.7 per cent in 1987-88. Similarly, the growth in M3 of 17.7 per cent was larger than that of 15.9 per cent in 1987-88. The larger expansion in both demand and time deposits mainly accounts for the higher growth of broad money. Demand deposits with banks increased by 12.9 per cent as against only 7.8 per cent growth in 1987-88 and the time deposits increased by 19.8 per cent as against an increase of 17.2 per cent in the preceding year. This larger deposits growth is due to a much faster growth in real income in 1988-89 than in 1987-88 and partly to restrictions imposed on portfolio management activities by banks which used to depress the growth of bank deposits and particularly demand deposits. But for the smaller expansion of 14.2 per cent in currency with public as against 18.2 per cent expansion in 1987-88 the growth in M3 would have been higher in 1988-89.

7.8 Looked at from the sources angle, the acceleration in the growth of money supply (M3) in 1988-89 took place despite the smaller growth in net bank credit to Government which had usually been the principal source for acceleration in money supply. In 1988-89 spurt in bank credit to commercial sector (19.0 per cent as against 13.5 per cent growth in 1987-88) mainly accounted for the larger expansion in M3. The spurt in bank credit to commercial sector was due to higher growth both in RBI credit to commercial sector and other banks' credit to the same sector (Rs. 1,734 crores and Rs. 18,661 crores, respectively as against growth of Rs. 396 crores and Rs. 12,350 crores in 1987-88). On the other hand, net bank credit to Government recorded a smaller increase of 14.3 per cent against that of 17.1 per cent in 1987-88 mainly on account of lower rate of growth in other banks' credit to Government. As against a decline of Rs. 157 crores in 1987-88, RBI credit to State Government increased by Rs. 425 crores. The net RBI credit to Central Government expanded by Rs. 6,503 crores, as against Rs. 6,559 crores in 1987-88. Net foreign exchange assets of the banking sector increased by Rs. 784 crores as against Rs. 805 crores in 1987-88.

7.9 Bank credit also witnessed a sharp rise of 20.1 per cent compared to only 11.4 per cent growth in 1987-88. This is to a large extent attributable to the recovery of agriculture and upward trend in industrial production. This will be evident from the higher rise of 22.8 per cent in non-food credit in 1988-89 as against that of

17.4 per cent recorded in 1987-88. However, the decline in food credit (though smaller at Rs. 1,421 crores than the decline of Rs. 2,914 crores in 1987-88) following further depletion in the stocks of foodgrains with public sector agencies, served to moderate to some extent the overall growth of gross bank credt in 1988-89

Monetary Trends During 1989-90

7.10 There has been considerable monetary expansion in the current financial year. Narrow money (M1) has grown by 15.5 per cent upto January 26, 1990 as against the growth of only 9.0 per cent in the corresponding period of the last financial year. Broad money (M3) has also recorded a higher rise of 14.9 per cent as against 14.5 per cent in the relevant period of 1988-89. Among the components, currency with the public has recorded a very high growth of 15.6 per cent compared to only 9.0 per cent in 1988-89. The faster growth in money supply (M1) than that in broad money (M3) this year so far is mainly on account of a sharp rise of 16.3 per cent in demand deposits compared with 9.7 per cent last year. The growth of time deposits decelerated from 17.6 per cent last year to 14.6 per cent this year.

7.11 On the sources side, net bank credit to Government has increased by Rs. 20,387 crores (21.1 per cent) which is much higher than the increase of Rs. 14,641 crores (17.4 per per cent) in the corresponding period of 1988-89. But bank credit to commercial sector though higher in absolute terms this year, has recorded a smaller growth of 10.9 per cent than that of 11.6 per cent last year. Net foreign exchange assets of the banking sector recorded a larger decline of Rs. 724 crores (11.3 per cent) in this year so far than the decline of Rs. 497 crores (8.8 per cent) in the relevant period of 1988-89.

7.12 In the current financial year so far, growth of net RBI credit to government has recorded a significant increase of Rs. 14,056 crores as against that of Rs 8,457 crores in the last financial year. While States' indebtedness to RBI recorded a sharper decline of Rs. 1,200 crores in the current financial year so far than that of Rs. 878 crores in the previous financial year, net RBI credit to Central Government escalated by a larger margin of Rs. 15,256 crores than the increase of Rs. 9,335 crores in the corresponding period of 1988-89. Details may please be seen in Table 7.1.

7.13 Selected indicators relating to the financial operations of the scheduled commercial banks are presented in Table 7.2. In the current year so far i.e. between March 24, 1989 and January 26, 1990, growth in aggregate deposits is larger than in the previous financial year (Rs. 21,963 crores as against Rs. 20,080 crores). The larger increase in aggregate deposits is attributable mainly to the spurt in demand deposits (Rs. 4,438 crores as against increase of Rs. 2,259 crores in 1988-89). Time deposits have recorded lower increase of Rs. 17,525 crores as against Rs. 17,821 crores in 1988-89. Non-food credit has recorded higher growth in absolute terms (Rs. 10,682 crores as against Rs. 9,759 crores), in percentage terms, however, there has been a deceleration in non-food credit growth to 12.7 per cent in the current year so far compared to 13.9 per cent in the comparable period of the previous year. At the same time, food credit has recorded a positive growth (Rs. 1,043 crores) as against a large decline in the same period in the last financial year.

Reserve Money

7.14 Net RBI credit to Government which constitutes the principal source of total reserve money stood at a very high level of 103.3 per cent of the latter at the end of financial year 1986-87 but thereafter declined to 98.5 per cent in 1987-88 and further to 94.7 per cent in the last financial year. The major component of this source is net RBI credit to Central Govrnment which accounted for 102.5 per cent and 93.9 per cent of the variations in net RBI credit to Government in 1987-88 and 1988-89, respectively.

7.15 In 1988-89 the reserve money recorded a smaller expansion of 17.7 per cent compared to 19.4 per cent expansion in the preceding year. This seems somewhat surprising in view of higher rate of money supply growth in 1988-89 than in 1987-88. This apparently contradictory trend may be explained by the fact that 17.7 per cent expansion in reserve money took place in 1988-89 on the top of continued high rates of growth in reserve money in the preceding two years i.e. 1987-88 and 1986-87 (by

19.4 per cent and 17.4 per cent, respectively). Among the important sources of reserve money, while net RBI credit to Government recorded a growth of around 13.8 per cent in 1987-88 and of 13.1 per cent in 1988-89 RBI credit to banks in these two years recorded a very high order of growth i.e. 60.9 in 1987-88 and 59.4 per cent in 1988-89. Most remarkable is the sharp rise in RBI credit to commercial sector by Rs. 1,734 crores (45.8 per cent) in 1988-89 as against only Rs. 396 crores (11.7 per cent) in 1987-88 and in net non-monetary liabilities of RBI by Rs.2,711 crores (19.1

£ Data relate to 50 banks which account for 95 per cent of gross bank credit. Variations are based on last reporting Friday data.

per cent) as against only Rs. 781 crores (5.8 per cent) in 1987-88. Details of changes in reserve money by sources have been presented in Table 7.3

7.16 An important trend in reserve money growth is that in 1988-89 one of its major source viz,, net RBI credit to Central Government (NRCCG) at the end of several fortnights showed much large increases over its March 31, 1988 level than the increase of Rs. 7,484 crores estimated for the full financial year in the Central Budget for 1988-89. In fact, after the sixteenth fortnight, at the end of each fortnight NRCCG showed higher increase over its March 31, 1988 level than Rs. 7,484 crores, though finally on 31st March, 1989 increase in NRCCG over its level on March 31, 1988 was to the tune of only Rs. 6,503 crores—lower than even Rs. 7,484 crores as per 1988-89 (BE). As Centre's Budget deficit is the principal factor contributing to the expansion in NRCCG it can be rightly inferred that Centre's Budget deficit also behaved in the same fashion, reaching much higher levels within the year than the final year end figure of Rs. 5,810 crores at which it stood finally on March 31, 1989 as per RBI's accounts. In fact at the end of 18th, 19th and 23rd fortnights of 1988-89,Centres Budget deficit as per RBI's accounts even exceeded Rs. 10,000 crores. The enclosed chart shows fortnightly deviations of increase in NRCCG and of Centre's Budget deficit in 1988-89 over their acutal annual figure by plotting them as percent of their actual annual level (i.e. as on March 31, 1989).

7.17 In both 1986-87 and 1987-88, Centre's Budget deficit as per RBI accounts and NRCCG remained above their budgetted/year end level in several fortnights and in 1988-89 movement in Centre's budget deficit and NRCCG over their budgetted level was very persistent. Needless to say, orderly growth in money supply throughout the year is desirable and large within year fluctuations in a key monetary variable like NRCCG should be avoided as far as possible. However, such fluctuations may also partly be attributed to various seasonal and other factors relating to the very nature of public finance. For example, the receipts of the Central Government from taxes and small savings tend to bunch in certain months/quarters of the year. Nevertheless, from the point of view of monetary management, what matters is not just the year-end budget deficit or NRCCG stock, but also the average level throughout the year.

7.18 In the current year so far (i.e. between March 31, and January 26, 1990) reserve money has recorded a much higher growth of Rs. 9,121 crores (14.5 per cent) as against an increase of Rs. 5,605 crores (10.5 per cent) in the corresponding period of 1988-89. The comparatively higher growth in reserve money in this financial year so far, has occured despite a significant decline in RBI credit to commercial sector (Rs. 581 crores) and larger decline in RBI credit to banks (Rs. 2,679 crores as against Rs. 1,007 crores in the corresponding period last year) and in net foreign exchange assets of RBI (Rs. 724 crores) only because of much larger rise in net RBI credit to Government Rs. 14,056 crores as against Rs. 8,457 crores a year ago, and a lower increase of Rs. 971 crores in net non-monetary liabilities of RBI compared to that of Rs. 2,000 crores in the similar period of the previous year.

Sectoral Deployment of Credit

7.19 It is important not only to analyse the growth of total bank credit over the years but also to review the sectoral deployment of such credit. Priority sector advances which include advances to agriculture, small scale industries, weaker sections of the community and small transport operators indicate very clearly that banks function as an important catalyst in the socio-economic growth process of the country; not only the scheduled commercial banks have to earmark 40 per cent of their total net bank credit for priority sector, they were also required to attain a target of 17 per cent of their total advances to agriculture by March, 1989. This target was further raised in the current financial year to 18 per cent to be attained by March, 1990. In the current financial year the Indian branches of the foreign banks have also been directed to earmark about 10 per cent of their total advances to the priority sector which includes small scale industries.

7.20 Table 7.4 presents the broad sectoral pattern of the incremental credit deployed by 50 scheduled commercial banks which account for about 95 per cent for bank credit in the country. It shows that credit to priority sectors as a percentage of the net bank credit in the last month of the financial year had been exceeding the 40 per cent target, though in 1988-89 the percentage of priority sector credit to net bank credit declined by one percentage point to 43.1 from 44.1 at the end of March, 1988. In the first half of the current financial year also though the percentage of priority sector credit to total net bank credit exceeded 40 per cent, it was lower at 42.4 per cent as compared with 43.9 per cent in the corresponding period of the last financial year.

7.21 As in 1987-88, in 1988-89 also agriculture and small scale industries accounted for the bulk of Rs. 5,137 crores of increase in priority sector advances. Credit to agriculture registered a higher growth rate of 16.1 per cent (Rs. 1,939 crores) as against a growth rate of 13.6 per cent (Rs. 1,439 crores) in 1987-88. Similarly, advances to small scale industries rose by 21.3 per cent (Rs. 2,307 crores) as compared with a rise of 18.8 per cent (Rs. 1,712 crores) in the previous year. Other priority sectors like retail trade, small business, rural artisans and small transport operators accounted for an increase of Rs. 891 crores (14.3 per cent) as against an increase of Rs. 869 crores or 16.2 per cent in 1987-88).

7.22 Credit to large and medium industries increased by 27.8 per cent (Rs. 7,005 crores) which is ten percentage points higher than the

growth rate of 17.8 per cent (Rs. 3,797 crores) in the previous year. The advances to wholesale trade other than food procurement registered a growth rate of 32.4 per cent which is nearly twice its growth rate of 16.8 per cent in 1987-88. Another noticeable feature of non-food bank credit expansion during 1988-89 has been the sharp increase in export credit by 56.8 per cent, which has far exceeded its rate of growth of 24.5 per cent in 1987-88.

Priority Sector Advances as Percentage of Net Bank Credit (including inter-bank participations) in the last month of the period	42.2		44.1		43.1		43.9		42.4	

NOTE : Data are provisional and relate to 50 scheduled commercial banks which account for about 95 per cent of the bank credit of all scheduled commercial banks. Gross Bank Credit data include bills rediscounted with RBI, IDBI, Exim Bank and other approved financial institutions and inter-bank participations. Net Bank Credit data are exclusive of bills rediscounted with RBI, IDBI, Exim Bank and other approved financial institutions.

7.23 In the current year sectoral break-up of bank credit is available upto September, 1989 during which incremental credit to medium and large industry account for Rs. 3,067 crores (about 45 per cent) of the increase in non-food credit (Rs. 6,800 crores) and priority sector advances contributed another Rs. 2,540 crores. Increase in export credit (Rs. 882 crores) was nearly twice the increase of Rs. 474 crores in the same period of 1988-89. Credit to all the major sectors within non-food category registered higher growth rates during April-September 1989 than in April-September 1988 except credit to wholesale trade which increased at lower rate of 6.1 per cent as against 10.3 per cent recorded during similar period last year.

Structure of Interest Rates

7.24 Interest rate policy is both an important plank of the monetary and credit policy and an important tool of economic management. The interest rate instruments help the monetary authority and development planners to influence not only the volume and the rate of savings and investment but also directions of credit flows and investment to attain desired objectives of economic growth with price stability. Though interest rates in our country are to a large extent administered, they have been revised from time to time in the context of emerging trends and needs.

7.25 In 1988-89 the Reserve Bank had taken an important initiative towards imparting flexibility in the lending rates of the scheduled commercial banks when in October 1988, it introduced a minimum of 16.0 per cent per annum on all bank advances which were till then subject to a fixed (ceiling) rate of 16.5 per cent per annum. This measure gave banks greater freedom in fixing their lending rates, though they were advised by the RBI to exercise their discretion judiciously in deciding interest differentials and to ensure that the range of interest rates charged remained within reasonable limits. It also was designed to benefit disciplined bank borrowers with good track records and credit ratings. In the present financial year another step in this direction of adding flexibility to the administered structure of lending rates was taken when Reserve Bank decided under its busy season credit policy announced on October 9, 1989 to specify a floor rate of 15 per cent for term loans to road transport operators with three or more vehicles and other term loans which the banks used to grant at a fixed rate of 15 per cent effective from October 11, 1989. It is expected that flexibile interest rate on term loans by banks would promote efficiency in the use of such loans. Banks were also advised to use this discretion to charge varying rates of interest on term loans judiciously to ensure that interest rates charged remained within reasonable limits. However, the interest rates on such term loans which carried less than 15 per cent interest rate like term loans to agriculture, special programme, self-employed SC/ST persons etc. were left unaltered.

7.26 Similar floor rate of 16 per cent came to be prescribed also in the case of housing loans exceeding Rs. 3 lakhs with the withdrawal of the earlier ceiling of Rs. 3 lakhs on housing loans to individuals by commercial banks. It was felt that while the present thrust on financing smaller houses should continue there might be some genuine cases for the grant of housing loans exceeding Rs. 3 lakhs to individuals which the banks could accept but with a freedom to charge higher interest rates. It may be noted that earlier banks were to provide term loans for housing over Rs. 1 lakh to Rs. 3 lakhs and charge an interest rate in the range of 14.5 to 16 per cent. These rates and the rates of interest on smaller housing loans including 4 per cent interest rate on housing loans for Scheduled Castes and Tribes upto and inclusive of Rs. 5,000 were left unaltered. Among the other lending rates, interest rate on farm loans and on post and pre-shipment export credit were revised downwards in a bid to give a boost to agricultural production and to encourage export trade. Interest rate on farm loans over Rs. 15,000 to Rs. 25,000 was reduced to 12 per cent from the range of 12.5—14 per cent, while the interest rate range of 14-15.5 per cent on short-term farm loans exceeding Rs. 25,000 was left unaltered. The exiting structure of interest rate on short-term loans to farmers (effective March 1, 1989) is indicated in Table 7.5 below :

TABLE 7.5

Existing Interest Rates on Short-term loans to farmers

(Per cent per annum)

Range of loan	Interest Rate
(i) Upto Rs. 5,000	10.00
(ii) Over Rs. 5,000 and upto Rs. 7,500	10.00
(iii) Over Rs. 7,500 and upto Rs. 10,000	11.50
(iv) Over Rs. 10,000 and upto Rs. 15,000	11.50
(v) Over Rs. 15,000 and upto Rs. 25,000	12.00
(vi) Over Rs. 25,000	14.00—15.50

7.27 As regards export credit, the interest rate on pre-shipment export credit upto 180 days was reduced to 7.5 per cent from 9.5 per cent with effect from March 1, 1989 and that on such credit from 180 days to 270 days was reduced from 11.5 per cent to 9.5 per cent. Correspondingly the interest rate on post-shipment export credit was reduced to 8.65 per cent from 9.5 per cent effective March 1, 1989.

7.28 Yet other important development in the field of interest rate policy is the removal of interest ceiling on money market rates to make them flexible and lend transparency to transactions in the money market. This ceiling on call money market rate was fixed by the Indian Banks Association (IBA) so as to prevent excessive fluctuations in these rates. Even when RBI permitted in October, 1988 the issue of inter bank participations, it was laid down that such participations without risk sharing would be issued at an interest rate to be determined between the issuing bank and the participating bank subject to the ceiling of 12.5 per cent. Simultaneously with the decision to withdraw the 10 per cent ceiling on call/notice money, the ceiling of the 10.5—11.5 per cent rate on inter-bank term money, 12.5 pr cent on rediscounting of commercial bills and on inter-bank participations without risk was also withdrawn. The new instruments viz. CD and CP were allowed to be issued at a freely determined discount rate. It may also be added here that this liberalisation of money market rates of RBI had been preceded by freeing the operations of the Discount and Finance House of India (DFHI) in call/notice money market from the interest rate ceiling set by IBA. These initiatives are in consonance with maturing of Indian money market and diversification of instruments and in the interest of greater flexibility and transparency.

7.29 As regards interest rates on term deposits of the scheduled commercial banks, a number of measures were taken in the last two financial years to bring short term interest rates on deposits in better alignment with other interest rates in the system to yield better return on the deployment of short term funds and to introduce flexibility in the deposit rate structure. In continuation of these measures, effective March 28, 1989, the rate of interest on term deposits of the scheduled commercial banks for 46 to 90 days (excluding FCNR and NRE deposits) was raised to 6 per cent from 4 per cent and the category of term deposits of 15 days to 45 days enjoying 3 per cent interest was abolished, making 46 days the minimum maturity of term deposits. The interest rate on the deposits of 46 to 90 days (excluding FCNR and NRE deposits) was further raised to 8 per cent effective October 11, 1989, thereby making the interest rate same (i.e. 8 per cent) for all term deposits from 46 days to less than a year. Interest rates on Foreign Currency (Non-Resident) Accounts which differ for four different foreign currencies viz. Pound Sterling, Dollar, Yen and Deutsche Mark were revised several times during the year in the light of changes in the interest rate on these currencies in the overseas markets. Interest rates on postal deposits, debentures, small savings schemes were left unaltered excepting that in the case of National Savings Certificate (NSC) VIth and VIIth Issues came to be discontinued in the Central Budget for 1989-90 in which it was announced that a new series of NSC (VIIIth Issue) would be marketed with an interest rate of 12 per cent which would be eligible for tax concession under Sec. 80C but not under 80L. The existing structure of interest rates for some selected categories of deposits and financial instruments is indicated in Table 7.6.

Developments in Credit Policy

7.30 In the current financial year 1989-90 the basic thrust of the monetary policy continued to be on the controlled expansion of money and credit so that production activities in the economy would get adequate credit support while the liquidity growth in the system is moderated to contain inflationary pressures. The Reserve Bank has also sought to promote the efficiency of operation of the financial system by bringing about some structural changes, introducing new instruments and strengthening old ones.

7.31 In the very beginning of the current financial year a higher target for farm loan by the scheduled commercial banks came to be stipulated in the Central Budget for 1989-90. The target expressed as a percentage of gross bank credit was raised from 17 per cent to 18 per cent to be attained by the banks by the end of March, 1990. This would mean about additional Rs.4,000 crores of credit for farmers in the current financial year.

7.32 While the Statutory Liquidity Ratio of 25 per cent on FCNR and NRE deposit liabilities and 38 per cent on net time and demand liabilities were left unaltered, banks were asked to maintain a uniform CRR of 15 per cent on their entire net demand and time liabilities including FCNR and NRE Accounts, with effect from the fortnight beginning July 1, 1989. It may be recalled that banks used to maintain earlier a CRR of 11 per cent on their net demand and time liabilities (excluding FCNR and NRE Accounts) and 10 per cent additional CRR on increase in net demand and time liabilities over the level as on November 11, 1983 while for FCNR and NRE deposits lower CRRs of 10 per cent and 3 per cent respectively—all these subject to an overall ceiling of 15 per cent on the entire net demand and time liabilities. Most banks were already operating on an effective CRR of 15 per cent. RBI felt the need for simplyfying the multiple prescriptions into a single prescription. In the case of banks where the existing effective CRR was less than 15 per cent, Reserve Bank set out to individual banks a phased programme of adjustment for attaining a CRR of 15 per cent, beginning from July 29, 1989. Banks were advised to give priority to meeting their reserve requirements over their lending operations and to avoid mismatch of their assets and liability portfolio so that they did not have to rely on money market funds for meeting their reserve requirements.

7.33 Following the normal practice of bringing forward the base for determining export finance each year, RBI brought forward by one year the base period from 1986 (monthly average of export credit) to 1987 (monthly average of such credit) and banks' export credit refinance from RBI was limited to 100 per cent of increase

of such credit over the monthly average for 1987. Although this brought down banks' access to export refinance, it would be quickly regained as they expanded export credit, well before they needed to utilise a substantial part of their refinance limits. Again the interest rate on refinance under 182 days Refinance Facility available to banks (upto 50 per cent of their holdings of such treasury bills) was raised from 10.25 per cent to 10.75 per cent per annum with effect from March 28, 1989, in view of the rise in cut-off yields on these bills in latest auctions.

7.34 Reserve Bank's concern at risk management by banks became apparent when it directed the banks to limit exposure of a bank (including all sanctioned and non-funded limits) to an individual business concern and to business concerns of a group at 25 per cent and 50 per cent of that bank's capital funds, respectively. These stipulations were meant to be strictly followed by banks while sanctioning fresh credit limits and they were allowed tweleve months' time to rectify excess, if any. However, credit limit directly allocated by RBI such as food credit was kept out of the purview of these stipulations. Further in the case of portfolio/fund management services provided by banks in respect of medium/long term funds, effective March 28, 1989 a minimum lock-in period of one year came to be stipulated for such portfolio/long term funds. RBI also directed the banks having merchant banking subsidiaries to ensure that their subsidiaries did not do what they themselves were prohibited from doing in respect of portfolio/funds management.

7.35 While reviewing the growth of aggregate deposits, food and non-food credit in October, 1989 RBI found that between March and September, 1989 aggregate deposits registered a growth of Rs. 12,297 crores as against an estimate of Rs. 11,500 crores and the food credit had increased by only Rs. 33 crores (increase of Rs. 890 crores in April-June, 1989 offset by a decline of Rs. 857 crores in the next quarter). However, non-food credit growth surpassed the target of Rs. 3,500 crores for the six month period (April-September) by a margin of Rs. 780 crores (actual figure of growth being Rs. 4,280 crores). In percentage terms on 24th March basis the increase in non-food credit was the same (5.1 per cent) as the increase recorded in the similar period of the previous year though in all possibilities the rate of growth to be recorded by the economy in 1989-90 is definitely slower than that in 1988-89. Further, this increase came on the top of a very strong (in fact the highest in 1980's) growth in non-food credit in 1988-89. It was also found that banks were having an average excess of liquid assets (nearly Rs. 1,100 crores in the fortnight ended August 25, 1989). They had also large amount of unutilised refinance limits. Prices remained under considerable pressure from the beginning of current financial year.

7.36 Reserve Bank, therefore, came to adopt a policy of moderation and restraint in the expansion of money supply and particularly of non-food credit for the second half of the financial year 1989-90. Its busy season credit policy announced on October 9, 1989 indicated a cautious stance with regard to its refinance extended to scheduled commercial banks who were advised not only to exercise utmost caution with regard to expansion of non-food credit but also to be more self-sufficient in funds in their credit operations. Restriction on refinance from RBI to Scheduled Commercial banks was felt necessary in view of the fact that it is a major source of reserve money and has an expansionary effect on money supply.

7.37 Effective November 4, 1989 the limit of the export credit refinance available to banks came to be reduced to 75 per cent from 100 per cent of the increase in export credit over the monthly average level of such credit for 1987. It may be mentioned here that as on October 6, 1989 their export credit refinance limit amounted to Rs. 3,336 crores (or 52.9 per cent of outstanding export credit) compared to Rs. 3,002 crores (or 53 per cent of outstanding export credit) at the end of March, 1989. In spite of the reduction in the limit as stated above export credit refinance to be available to them remained at over Rs. 3,000 crores. Until a few years ago the export credit refinance limit available to banks was only 50 per cent of the increase in export credit over the base year. With CRR

reaching at the ceiling level of 15 per cent and SLR being stipulated at 38 per cent, the only potent weapon available in the hands of Reserve Bank for preventing excessive creation of credit appears to be the restriction of its refinance facility.

7.38 Again with effect from November 4, 1989 banks were asked to maintain an incremental non-food credit-deposit ratio of 60 per cent (with March 24, 1989 as the base for determining the increment), failing which they would have to pay additional 3 percentage points interest on their refinance from RBI under all facilities (export, stand-by, discretionary and 182 days' Treasury Bills) to the extent of the excess non-food credit over the stipulated ratio or the refinance drawn, whichever is lower. As is well known, the incremental non-food credit-deposit ratio also remains otherwise below 100 per cent because of banks' CRR and SLR obligations. This restriction on incremental non-food credit-deposit ratio only sought to ensure that the non-food credit growth of the scheduled commercial banks should be commensurate with the growth of their own resources.

7.39 Reserve Bank further announced its decision on October 9, 1989 that with effect from October 21, 1989 banks would have to pay additional 3 percentage points interest on refinance over the call money lending rate of the Discount and Finance House of India, if they were found to be lending in the call money market when they had already outstanding borrowings from RBI under standby/discretionary refinance facilities. Further the banks were warned that facilities of standby and discretionary finance available to them would be withdrawn if they were found to be violating the stipulation flagrantly. As a background to this decision, it may be stated here that banks were cautioned by RBI even in October, 1987 that they could not both draw refinance from RBI and lend in the money market simultaneously and that in case the stipulation was violated flagrantly, continuation of refinance facilities to them would be reconsidered.

7.40 As regards selective credit controls in respect of price-sensitive commodities, it may be recalled that with effect from February 10, 1989, minimum margins on advances against oilseeds and vegetable oils (including vanaspati) were reduced across-the-board by 15 per centage points and ceiling on such advances was raised from 85 per cent to 100 per cent of the peak level of credit to any party during any year of the three years period 1983-84, 1984-85 and 1985-86 (November-October), following an improved out put of these commodities. There was another reduction in minimum margins by 15 percentage points for bank advances against oilseeds and vegetable oils (including vanaspati) in respect of advances to 'others' and 'against warehouse receipts' effective from March 28, 1989, as a consequence of a further review of price-output trends. On the other hand, because of the prevailing high price of wheat in the market, minimum margin in respect of bank advances to processing units/mills in Punjab against stock of wheat was brought up to 45 per cent (or to the same level prevailing in other states) from 30 cent to which minimum margin was reduced on September 19, 1988.

7.41 Again, as in earlier years, for 1989-90 also with effect from March 28, 1989 three year base period specified for the stipulation of ceilings on bank advances subject to selective credit control, was brought forward by one year from 1983-84, 1984-85 and 1985-86 (Noveoer-October) to 1984-85, 1985-86 and 1986-87 (November-October). However, the level of credit ceiling was left unaltered at 100 per cent for oil seeds and vegetable oils (including vanaspati) and 85 per cent for other commodities.

7.42 On a subsequent review of price-output trends with effect from April 22, 1989 the minimum margins on bank advances against wheat were raised across-the-board by 15 percentage points. However, with the improvement in price-output situation these margins were brought back to former levels on July 20, 1989. It may also be mentioned here that effective April 22, 1989 advances to roller flour mills exempt earlier from the credit ceiling stipulation, came to be subject to a credit ceiling of 85 per cent of the peak level of credit maintained by a party in any year of the three year base period noted earlier.

7.43 Minimum margins on advances against the stocks of sugar for processing units/mills were raised effective from July 20, 1989 by 7.5

percentage points in the case of unreleased stocks and by 15 percentage points across-the-board for the released stocks. In the case of gur and khandsari, minimum margins were also similarly raised across-the-board by 15 percentage points with effect from July 20, 1989.

7.44 Towards the end of 1989, following a further review of price-output trends, the credit ceilings and minimum margins came to be revised with effect from December 30, 1989 for certain commodities. Higher ceiling of 100 per cent came to be stipulated for bank advances against wheat, cotton and kapas. Minimum margin on bank advances against cotton and kapas was reduced to 30 per cent from 45 per cent. So also was the minimum margin on bank advances against unreleased stocks of sugar in the case of processing units/mills reduced to 20 per cent from 25 per cent.

7.45 Table 7.7 presents the details of existing margins on bank advances against stocks of commotities covered under selective credit controls.

TABLE 7.7

Minimum Margins on Bank Advances Against Stocks of Commodities covered under Selective Credit Control

(Percentages)

	Effective December 30, 1989		
	Against stock		Against warehouse receipts
	Processing Units/Mills	Others	
1. Paddy/Rice	45	60	45
2. Wheat	45	60	45
3. Other foodgrains (other than paddy/rice and wheat)	45	60	45
4. Pulses	45	60	45
5. Oilseeds viz., groundnut, rapeseed/mustardseed, linseed, castorseed, cottonseed and all imported oilseeds	30	45	30
6. Vegetable oils viz., Groundnut oil, rapeseed/mustard oil, linseed oil, castor oil, cottonseed oil, vanaspati and imported vegetable oils	30@	45	30
7. Cotton and kapas	×	30	30
8. Sugar			
(a) Buffer	0	—	—

(c) Released	75	75	60
9. Gur and Khandsari	45	75	60

× Completely exempt from all the stipulations of selective credit control.
@ Applicable to registered oil mills and vanaspati manufacturers.
— Not applicable.

Credit by Term Lending Institutions

7.46 The rising trend in the aggregate sanctions and disbursements by all term lending institutions noticed in the past several years continued in 1988-89. Aggregate assistance sanctioned by them in 1988-89 stood at Rs.14,203 crores which is 54.9 per cent higher than total assistance sanctioned in 1987-88. All India Financial Institutions like IDBI, ICICI, IFCI, LIC, GIC and UTI accounted for an overwhelming portion (83.4 per cent) of the total assistance sanctioned by all financial institutions in 1988-89. Sanctions in the form of Rupee loans recorded a significant rise of 44.1 per cent or Rs.10,973 crores as against 25.7 per cent rise in 1987-88. All India development banks account for about two-thirds of the rupee loans sanctioned in 1988-89. Higher amounts of assistance were received in 1988-89 than in 1987-88 by all industries excepting paper, basic chemicals, metal products and transport equipments. In 1988-89 credit sanctioned to backward

areas was to the tune of Rs.5,178 crores which is 56.5 per cent higher than credit of Rs.3,308 crores in the previous financial year. This order of increases in flow of credit in 1988-89 to backward areas is significant since in 1987-88 these areas were sanctioned only 8.7 per cent higher credit over 1986-87 level.

7.47 Data are available for the current financial year only for the six month period i.e. April-September, 1989. During this first half of the current financial year the total assistance sanctioned by all financial institutions was of the order of Rs.6,829 crores—7.6 per cent lower compared to Rs.7,392 crores in the first half of 1988-89. Disbursements were also lower in the first half of 1989-90 at Rs.4,084 crores i.e. 1.3 per cent lower than Rs.4,149 crores disbursed in the corresponding period of 1988-89. In this period too the All India financial institutions accounted for lion's share of sanctions and disbursements made by these all financial institutions. Institution-wise details of sanctions and disbursements are presented in Appendix Table 4.8.

Developments in the money market

7.48 Reserve Bank of India and Government have continued to take various measures to strengthen the Indian money market. In August 1989, Government of India have remitted the stamp duty on usance bills and thereby removed a major administrative constraint in the use of bill system.

7.49 A significant step towards the activation of money market taken by the Reserve Bank has been the total deregulation of money market interest rates with effect from May 1, 1989 introducing thereby greater transparency to the transactions in the money market, details of which have already been given in para 7.28 above. Earlier in March, 1989 Reserve Bank took a decision to introduce Certificates of Deposit (CD) and Commercial Paper (CP) in order to widen the range of money market instruments and give investors greater flexibility in the deployment of their short-term surplus funds. Besides CP would enable the highly rated corporate borrowers to diversify their sources of short-term borrowings.

7.50 The Certificates of Deposit (CD) can be issued only by the Scheduled Commercial Banks in multiples of Rs. 25 lakhs subject to the minimum size of an issue being Rs. 1 crore. With a maturity between three months and one year CDs will be issued at discount to face value, the discount rate to be freely determined and they would be further freely transferable by endorsement and delivery but only after 45 days from the date of issue. CDs would, however, be subject to reserve requirements. Banks would neither be allowed to grant loans against CDs nor can they buy back their own CDs. At any point of time, total outstanding of CDs issued by a bank should not exceed one per cent of its fortnightly average deposits during the financial year 1988-89.

7.51 CP would be issued by a listed company (listing on stock exchange, however, not required for public sector companies) which have a net worth of at least Rs. 10 crores and a working capital (fund based) limit of not less than Rs. 25 crores. With maturity ranging from three months to six months, they would also be issued like CDs at a discount to face value (discount rate being freely determined) in multiples of Rs. 25 lakhs subject to the minimum size of an issue being Rs. 1 crore CPs would be freely transferable by endorsement and delivery. Since it is in the nature of an unsecured promissory note not leading to any specific transaction, it would attract stamp duty and be privately placed with investors (excluding non-residents) through the agency of banks and other financial institutions.

7.52 The company issuing CP would have to obtain every six months a specified rating from an agency approved by the Reserve Bank. It can raise money through such CP upto a maximum amount equivalent to 20 per cent of its working capital (fund based) limit. Banks would not be permitted to either underwrite or co-accept the issue of CP. However, Reserve Bank would authorise the timing of issue of CP by the eligible companies in order to ensure an orderly queue and once an issue is actually placed, the concerned bank would be required to suitably adjust the working capital (fund based) limit for the company.

7.53 The Reserve Bank has since issued guidelines for the issue of CP on January 3, 1990, according to which a company will have to obtain P1+rating from Credit Rating Information Services of India Ltd. (CRISIL) and also classification under Health Code Number I from its

financing banks and it has also to maintain the current ratio of 1.33:1, to be eligible to issue CP. Non-Resident Indians can invest in CP only on a non-repatriable basis and such CP will also be non-transferable. As CP will be curved out of the working capital limit of the company, there will be no rise in its overall short-term financing facilities.

7.54 The Reserve Bank has been also urging the borrowers to moderate their reliance on money market and limit it to marginal requirements for equilibrating their sources and uses of funds. Similarly, lenders have been advised to ensure that their activities were conducive to the emergence of a stable and mature money market. In the interest of stability and depth of the money market, the participants in the market should move between lending and borrowing activities.

7.55 The Study Group which was appointed by the Rreserve Bank to examine the feasibility and mechanics of starting factoring organisations and make recommendation regarding their constitution, organisational set up and scope, etc. submitted its report in January, 1989. Most of the recommendations in the report were accepted, in principle, by the Reserve Bank which decided in March, 1989 to initiate steps to establish domestic-factoring services as a first priority and to extend it later to exports in the light of experience at home and felt needs for such services. The Reserve Bank would take steps to promote special legislative measures to introduce factoring services on a full fledged basis, as recommended by the Study Group.

7.56 Following the withdrawal of ceiling of 10 per cent per annum on call money rate from May 1, 1989, the rates grew sharply to a range of 30-34 per cent by the later part of May, 1989 but thereafter they subsided rather quickly to level as low as 5 per cent. Borrowers found it unremunerative to borrow at such high rates and alternative sources of funds at lower rates were also available. The slack season too led to easing of underlying demand for funds.

Institutional Developments in the Financial Sector

7.57 The Discount and Finance House of India Limited commenced its operations on April 25, 1988. It has been endeavouring to bring into the fold of the Indian money market the entire financial system comprising the scheduled commercial banks, public sector banks, foreign banks and private sector banks, co-operative banks, Scheduled State co-operative banks and Scheduled urban co-operative banks, all-India financial institutions and non-banks in the public and private sectors so that their short-term surpluses and deficits are equilibrated at market related rates/prices through inter-bank transactions in the case of banks and through money market instruments in the case of banks and others.

7.58 It is participating in the inter-bank call and short notice money market and inter-bank term deposit market, both as borrower and a lender. Apart from dealing in the money market instruments such as 182 Days Treasury Bills, commercial bills, Certificates of Depsoit and Commercial Paper, it is also serving as an arranger of Inter-bank Participations. The DFHI has consolidated its business by achieving significantly higher turnover in its operations in each section of its activity in the current financial year so far when compared with its turnover in the previous year. The details of its activities upto February 3, 1990 and in the whole of the financial year 1988-89 are presented in the following paragraphs:-

(a) The DFHI's turnover in the inter-bank call and short notice money market in the current financial year so far amounted to Rs. 76,686 crores as against a turnover of Rs. 20,362 crores during the preceding financial year, its daily average lendings in this market having significantly increased from Rs. 84 crores in 1988-89 to Rs. 247 crores in 1989-90 (upto February 3, 1990).

(b) The DFHI was authorised by the Reserve Bank of India to borrow and lend short-term money (15-90 days) effective 1st December, 1989. The DFHI's turnover in the current financial year so far aggregated Rs. 170 crores.

(c) The DFHI's turnover in 182 Days Treasury Bills in the current financial year so far amounted to Rs. 17,169 crores as against a turnover of Rs. 11,024 crores during the financial year 1988-89. On the basis of the fortnightly average outstanding of 182 Days Treasury Bills in the system during April 1989 to February 3, 1990, the DFHI has been able

to turnover the system's holding by 22 times. Because of its 'repose' facilitiy provided to All-India financial institutions, banks and mutual funds they are able to earn an income by investing their money for short periods and also raise money for short periods without having to divest their investment.

(d) The DFHI achieved a turnover of Rs. 8,954 crores in rediscounting commercial bills/derivative usance promissory notes in current year so far as compared to a turnover of Rs. 2,866 crores during the financial year 1988-89. The bid and offer rediscount rates were varied depending upon the cost of funds and conditions in the money market. The introduction of the derivative promissory note as an instrument for rediscounting commercial bills has greatly facilitated this acitivity.

(e) With the introduction of CDs and CPs, the DFHI has commenced its operations in the secondary market in these instruments. The DFHI has commenced quoting its prices for purchase/sale of these money market instruments.

7.59 In order to play its role in the secondary market effectively, the DFHI has raised its authorised share capital from Rs. 100 crores to Rs. 250 crores and its paid-up capital from Rs. 100 crores to Rs. 150 crores. Furthermore, it has established refinance lines from the Reserve Bank of India and lines of credit from the consortium of public sector banks and from the Unit Trust of India so as to raise sufficient resources for financing its activities.

7.60 National Housing Bank (NHB) started its operations from July, 1988 as an apex institution in the field of housing finance. The NHB endeavoured to involve the existing institutional credit system in the formulation of its policies with a view to ensuring effective co-ordination with them, it also took up the task of stipulating certain financial and management codes/norms for the new housing finance institutions (HFI) to be eligible for financial support from NHB. Further, it emphasised the need for augmentation of the supply of land and building materials in advance of creation of demand for them and accumulation of savings in advance of the decision of a person to acquire a house/flat. Under its Refinance Scheme housing loans sanctioned by the scheduled banks, housing finance companies (HFCs) and State level Apex co-operative finance societies on or after January 1, 1989 are eligible for refinance. In April, 1989 the National Hosuing Bank announced its guidelines for providing financial assistance for integrated as well as time-bound land development and shelter projects to be undertaken by public agencies such as Housing Boards and Area Development Authorities. Upto December, 1989, NHB has cleared, in principle, 40 such projects at an estimated cost of Rs. 250 crores. NHB has also formulated guidelines for financing housing projects to be undertaken by co-operative housing finance societies professional developers as also rental housing schemes. The most important initiative taken by NHB towards augmenting the flow of resources for house construction is the launching of Home Loan Account Scheme through scheduled banks on July 1, 1989 for individuals who do not own any dwelling unit.

7.61 The Credit Rating Information Services of India Limited (CRISIL) which was set up jointly by ICICI, UTI, LIC, GIC, Asian Development Bank and some other institutions as the first credit rating agency in the country, started its operations in January, 1988. CRISIL's principal objective is to rate debt obiligations of Indian companies, thereby providing a guide to investors as to the risk of timely payment of interest and principal on a particular debt instrument. It rates debentures, fixed deposit programmes, short-term instruments and preference shares on receipt of request to the effect from the company. However, the ratings of CRISIL relate to particular debt instruments and is not a rating for the company as a whole. By December, 1989 CRISIL has rated 81 debt instruments issued by 59 companies (3 belong to public sector) covering a total debt volume of Rs. 2,340 crores. Apart from Fixed Deposit programmes, convertible and non-convertible debentures, CRISIL had rated Commercial Paper programmes covering a total volume of Rs. 155 crores.

CHAPTER 8

THE EXTERNAL SECTOR

The external payments situation has remained under pressure throughout the Seventh Plan period. The strains have been particularly severe since 1988-89. Several adverse medium term factors have contributed to this situation. They include the declining self-sufficiency in production/consumption of crude oil and petroleum products from the peak attained in 1984-85, a steady erosion of the surpluses in the invisibles account in financing the trade deficit, unfavourable climate for concessional assistance and the bunching of debt service on past borrowings. The secular phenomenon of large fiscal deficits has also exerted adverse pressure on the current account external balance. These strains were further compounded by short term factors such as the drought of 1987-88, which had adverse implications for both exports and imports, and the surge in the import bill during 1988-89 associated with economic recovery and replenishment of foodstocks.

I. Balance of Payments (BOP)

BOP Trends upto 1987-88

8.2 Full balance of payments data are available for the fiscal year as a whole upto 1987-88, the third year of the Seventh Plan. Table 8.1 summarises trends in the key ratios (to GDP) for the Sixth Five Year Plan as a whole and the first three years of the Seventh Plan. The trade deficit averaged 3.4 per cent of GDP during the Sixth Plan. It increased to 3.7 per cent of GDP in 1985-86 due mainly to a lacklustre export performance, declined in 1986-87 to 3.2 per cent of GDP both on account of better export performance and deceleration in import growth and further declined to 2.8 per cent of GDP in 1987-88 mainly due to good growth in exports. Net earnings on invisibles account fell from an average of 2.1 per cent of GDP during the Sixth Plan to 1.4 per cent of GDP in 1985-86, 1.2 per cent of GDP in 1986-87 and further to 0.9 per cent of GDP in 1987-88, reflecting both a rise in interest payments on external loans and credits and the declining importance of private transfers.

8.3 As a consequence of these trends in trade and invisible accounts, the current account deficit rose sharply from an average of 1.3 per cent of GDP in the Sixth Plan to 2.3 per cent in 1985-86. The ratio declined somewhat in 1986-87 and 1987-88 to 2.0 per cent and 1.9 per cent respectively. During 1988-89, full balance of payments data for which are not available, the ratio of the current account deficit to GDP is estimated to have gone upto 2.7 per cent. Thus, in the first four years of the Seventh Plan (1985-86 to 1988-89) the current account deficit is estimated to have averaged at 2.2 per cent of GDP, as against 1.3 per cent during the Sixth Plan. These ratios underscore the current pressures on the balance of payments. A graphical presentation of trends in current account and trade deficits is given in accompanying chart.

TABLE 8.1

Balance of Payments : Key Indicators

(As per cent of GDP)

Items	1980-85	1985-86	1986-87	1987-88
1	2	3	4	5
Exports . .	5.0	4.4	4.5	5.0
Imports . .	8.4	8.1	7.7	7.8
Trade Balance .	—3.4	—3.7	—3.2	—2.8
Invisibles (Net) .	2.1	1.4	1.2	0.9
Current Account Balance .	—1.3	—2.3	—2.0	—1.9

Note—The ratios have been computed on the basis of the country's balance of payments data as given in appendix table 6.2 and the CSO estimates of GDP at current market prices. Official grant receipts and US embassy expenditure in India out of PL-480 Rupee Fund are taken as current account receipts in conformity with the balance of payments statistics published by the RBI.

MINISTRY OF FINANCE, ECONOMIC DIVISION.

8.4 The balance of payments problem during the Seventh Plan is rooted in continuing high average trade deficits and a sharp decline in the role of invisibles in financing these deficits. The trade deficit averaged Rs. 6,091 crores per year during the Sixth Plan period (1980-85). During the first three years of the Seventh Plan, the average rose to Rs. 9,412 crores. Net invisibles, which on an average financed more than 60 per cent of trade deficit during the Sixth Plan, financed only 36 per cent of trade deficits during 1985-86 to 1987-88. The current pressures on balance of payments thus reflect the impact of rising imports (notwithstanding acceleration in exports) and the growth of external debt service obligations.

8.5 The pattern of financing trade and current account deficit during these years has also contributed to pressures on the balance of payments. With the decline in the role of surpluses in invisibles account and given the constraints on the disbursements of concessional aid, an increasing part of trade deficits has been financed by external commercial borrowings, non-resident deposits and drawdown in foreign exchange reserves. This has led to growing stocks of medium and long term external liabilities, higher debt service ratios and significant depletion of foreign exchange reserves. During the first four years of the Seventh Plan foreign exchange reserves have declined by SDR 2,289 million.

Services and Transfers

8.6 Invisible surpluses have traditionally financed a large part of India's trade deficits (see chart). However, the trend has been on the decline in the eighties on account of a fall in gross invisible receipts, as a per cent of GDP, from 4.3 per cent in 1980-81 to 2.8 per cent in 1987-88, coupled with an increase in invisible payments from 1.2 per cent of GDP to 1.9 per cent of GDP, respectively, during this period. The decline in gross invisible receipts relative to GDP is mainly accounted for by a levelling off of private transfer receipts. The rise in invisible payment has been chiefly contributed by cumulation of interest and service payments on foreign loans and credits. Between 1980-81 and 1987-88 gross travel receipts and gross private transfers increased at an annual compound growth rate of 6.9 per cent and 6.5 per cent respectively; during the same period interest and service payment on foreign loans and credits expanded at 31.8 per cent per annum.

8.7 Travel receipts presently account for about one fifth of gross invisible receipts. The share of these receipts in gross invisible receipts declined during the Sixth Plan from 19.8 per cent in 1980-81 to 10.9 per cent in 1984-85 mainly because of a stagnant/slow growth 'ntourist traffic. However, tourist traffic picked up in the first three years of the Seventh Plan and the share of travel receipts reached a level of 20 per cent of gross invisible receipts in 1987-88. Government has accorded considerable significance to development of tourism and initiated a number of promotional measures designed to attract tourists. These measures include diversification of tourism resources, a package of incentives for attracting private investment, liberalisation of policies relating to charter flights and air taxi services, development of special tourist circuits, strengthening of training and marketing efforts, etc. Tourism has been accorded industry status and for attracting private investment a number of fiscal and financial incentives have been announced. A Tourism Finance Corporation of India (TFCI) has also been set up to meet the loan requirements of tourism industry. A scheme called Assistance for Development of International Tourism (ADIT) has also been launched for providing marketing assistance to tourism related activities.

8.8 Gross private transfer receipts, as a per cent of GDP, have declined from 1.7 per cent in 1980-81 to 1.1 per cent in 1987-88. The share of these receipts in gross invisible receipts during both 1980-81 and 1987-88 was around 38 per cent, although the share had risen to around 42 per cent in 1982-83. Private transfer receipts, representing mainly remittances by non-resident Indians have levelled off in the last few years consequent to the oil boom in oil surplus countries having worked itself out. Other factors could perhaps be availability of more attractive schemes like the non-resident deposit accounts.

8.9 In regard to invisible payments, interest and service payments on foreign loans and credits have increased from Rs. 282 crores in 1980-81 to Rs. 1,949 crores in 1987-88. The share of interest

payments in total invisible payments thus increased from 17.9 per cent in 1980-81 to 31.1 per cent in 1987-88, reflecting larger interest payments on servicing of external debt contracted by both public and private sectors and charges on IMF borrowings. It also partly reflects the hardening of average terms on external debt because of rising proportion of non-concessional loans in the country's external debt portfolio. Another item which has recorded substantial increase in payments is the 'miscellaneous' group which covers payments on items like technical know-how, management fees, office expenses, and other professional services and technicians' fees.

BOP Trends Since 1988-89

8.10 The pressure on the external payments situation mounted in 1988-89 mainly on account of a bulging import bill and large repayments to IMF under Extended Fund Facility which peaked during the year. According to DGCI&S provisional data, exports in 1988-89 showed a robust increase of 28.9 cent as against a somewhat smaller increase of 26.4 per cent recorded in 1987-88. However, imports too rose by 25.9 per cent in 1988-89 compared to a modest increase of 11.5 per cent in 1987--88. As a result the trade deficit, according to DGCI&S data, increased from Rs. 6,658 crores in 1987-88 to Rs. 7,899 crores in 1988-89. The number of tourist arrivals in India rose by 6.2 per cent during 1988-89, lower than the rise of 7.7 per cent during 1987-88. Hence, growth in travel receipts during 1988-89 might be smaller than in 1987-88. Payments under investment income, on the other hand, have continued to rise on account of growing stocks of external debt disbursed and outstanding. Private transfer receipts are likely to be somewhat higher than in the previous year. On balance, net invisible receipts during 1988-89 might show some improvement over the previous year in rupee terms. Net disbursements of external assistance as well as inflows into non-resident deposit accounts also increased during 1988-89.

8.11 The intensification of balance of payments strains during the year was reflected in reserve movements (Table 8.2). In SDR terms, total foreign exchange reserves stood at SDR 3,715 million at the end of March, 1989 showing a fall of SDR 771 million during 1988-89 as compared to a decline of SDR 627 million during 1987-88.

TABLE 8.2

** Includes Trust Fund loan drawals and repayments.

@Includes foreign currency assets of RBI, gold holdings of RBI and SDR holdings of Government.

8.12 The balance of payments situation continued to be under substantial pressure during 1989-90. The provisional trade data (DGCI&S) for the first nine months of the current year display a strong growth in exports and a moderate increase in imports, leading to a decline in trade gap from Rs. 6,602 crores in April-December, 1988 to Rs. 5,518 crores in April-December, 1989. However, given the increasing divergence between DGCI&S and RBI import data (as explained later in this chapter), the fact that imports during the corresponding period in 1988-89 were high because of spillover of drought related imports, and as imports of civilian aircrafts during the the current year were not covered in DGCI&S data the underlying import growth could be higher than that reflected in the DGCI&S data. Net invisibles are unlikely to increase in 1989-90 because of uncertain trends in the net private transfers, a relatively slow growth of tourist traffic

and a steady rise in interest payments on past borrowings. Partial information on some items of capital account also confirm that balance of payments continues to be under severe pressure during the current financial year, as reflected by the decline in foreign exchange reserves of SDR 1104 million during April—January 1989-90.

8.13 The Government continues to accord high priority to resolution of imbalances in external payments by accelerating export growth, augmenting tourism receipts, promoting efficient import substitution, increasing disbursements from committed external assistance and higher direct and portfolio investments, containing the scale of fiscal deficits and encouraging economy in the utilisation of scarce foreign exchange. Strong performance in exports during the last three years and the first nine months of 1989-90 reflects the response to earlier policy measures initiated by the Government.

Non-Resident Deposits

8.14 In order to attract deposits under different non-resident accounts, interest rates offered on Non-Resident External Rupee (NRER) deposits continued to have a premium of two per cent over the rates applicable to domestic deposits of comparable maturities. To encourage deposits under the Foreign Currency Non-Resident (FCNR) accounts, the scheme was extended to two more currencies, namely Deutsche Mark and Japanese Yen, and differential interest rate scheme was introduced for different currencies with effect from August 1, 1988. The rates of interest on FCNR accounts are continuosly adjusted keeping them in line with prevailing interest rates in the international capital markets. The latest interest rates on deposits in NRER and FCNR accounts which came into effect from February 21, 1990 are given in Table. 8.3.

TABLE 8.3

Rates of Interest on Term Deposits under Non-Resident External Rupee (NRER) and Foreign Currency Non-Resident (FCNR) Accounts

(Per cent per annum)

Maturity	Current rate of interest @				
	NRER	FCNR			
		Pound Sterling	US Dollar	DM	Yen
1	2	3	4	5	6
(a) One year and above but less than two years . . .	10.50	11.75	9.00	9.75	8.00
(b) Two years and above but less than three years . . .	11.00	12.00	9.50	9.75	8.00
(c) Three years and above but less than five years . . .	12.00	12.00*	9.75*	9.75*	8.00*
(d) Five years only	13.00	..	..	..	..

@ As of February 21, 1990.
* Three years only.

8.15 The sustained inflow of funds into the non-resident accounts has provided considerable support to balance of payments during the past few years. The inflow under NRER account scheme during 1988-89 was Rs. 245 crores, as compared with Rs. 300 crores in the previous year. Net inflow under FCNR account scheme during 1988-89 was Rs. 2,075 crores as against Rs. 1,398 crores during 1987-88. Thus, at the end of March, 1989 total stock of non-resident deposits stood at Rs. 14,154 crores (Table 8.4). Inflows into FCNR accounts amounted to Rs. 2,388 crores during April-December 1989 as against Rs. 1,547 crores in the corresponding period of 1988. More than two-thirds of these inflows are accounted for by dollar deno-

minated deposits. Accretion to NRER accounts (net of interest) has not shown any significant addition during 1989-90. The ratio of NRER account deposits in total non-resident deposits has therefore declined from around 51 per cent at the end of March, 1988 to around 36 per cent at the end of December, 1989.

Exchange Rate of Rupee

8.16 The external value of the Rupee continued to be determined in relation to weighted basket of currencies of India's major trading partners and the Pound-Sterling remained the intervention currency. During 1988-89 the Rupee-Sterling rate was adjusted 200 times. The latest adjustment for exchange rate between Rupee and Pound Sterling was made on March 1, 1990 when the middle rate was fixed at Rs. 28.55 per Pound Sterling. Exchange rates of rupee vis-a-vis major international currencies are given in Appendix table 6.5.

Exchange Risk Administration Scheme (ERAS)

8.17 Changes in the exchange rate of rupee have been quite frequent following developments in exchange rates in major international currencies. In order to provide a degree of protection against frequent changes in exchange rates there are schemes to provide exchange risk cover through forward exchange market and through Export Credit Guarantee Corporation of India. With a view to providing a measure of protection to the sub-borrowers of the three financial institutions, viz. ICICI, IDBI and IFCI, against exchange risk inherent in their medium and long term borrowings in foreign exchange, these three financial institutions have launched a scheme known as the Exchange Risk Administration Scheme (ERAS) with effect from April 1, 1989. The benefit of cover under the scheme is available to new foreign currency sub-loans disbursed on or after April 1, 1989 by the financial institutions out of their external commercial borrowings. While eligible borrowers have an option to join the scheme in respect of each loan, the option once exercised will be irrevocable during the currency of the loan. Initially the scheme will

be in operation for two years. However, all disbursements made within the two years period would be eligible for cover during the full duration of the loans.

8.18 Repayment obligations in respect of the principal amounts of sub-loans will be rupee-tied at rates prevailing on the dates of disbursement. The interest liability of the sub-borrowers, the spread of the financial institutions and exchange risk premium would be merged into a 'composite cost' with ceiling and floor rates. The actual rate within the band will be announced from time to time and be payable at quarterly intervals. The exchange risk premium in the composite cost will be credited to a fund called 'Exchange Risk Administration Fund' set up and administered by IDBI. The response to the scheme has been quite encouraging.

II. Imports

8.19 Import growth in rupee terms accelerated from 11.5 per cent in 1987-88 to 25.9 per cent in 1988-89, according to data compiled by DGCI & S. However, import growth during the first nine months (April-December) of 1989-90 slackened to 20.7 per cent. In dollar terms it was higher at 12.7 per cent in 1988-89 than in 1987-88 (9.8 per cent), but levelled off to 3.7 per cent during April-December 1989. The step up in the value of imports during 1988-89 is attributable to the marked buoyancy in the domestic economic activity, higher imports of foodgrains to replenish depleted food stocks, drought-related purchases of pulses and unusually high international prices of some key intermediate goods such as non-ferrous metals, man-made fibres, fertilisers, paper and paper board. The slackening of import growth during 1989-90 partly reflects steep fall in both the quantity and value of imports of edible oils, pulses, rubber and newsprints and, to some extent, deceleration in industrial growth.

8.20 Table 8.5 shows imports by major commodity groups during 1987-88, 1988-89 and the first half of 1988-89 and 1989-90. Also a graphic presentation of commodity composition of imports during the last three years is given in the pie chart.

(P) Provisional

(PR) Partially Revised.

8.21 Import of cereal and cereal preparations showed a substantial increase in value from a level of Rs. 32.7 crores in 1987-88 to Rs. 630.8 crores in 1988-89. Concomitant with the swelling of import bill of cereals was a massive increase in volume of cereal imports from about 0.7 lakh tonnes to 23.7 lakh tonnes over the same period. It is noteworthy that the massive purchase of cereals by India during 1988-89 was availed of at unit values which were lower by about 44.8 percent over the preceding year. There has been a continued upsurge in cereal imports in 1989-90. During April-September, 1989 cereal imports at Rs. 224.8 crores were higher by 43.6 percent compared with Rs. 156.6 crores in the corresponding period of 1988.

8.22 There was a steep fall in volume of import of edible oils from about 18 lakh tonnes during 1987-88 to around 9.9 lakh tonnes during 1988-89. With the hardening of international prices of edible oils, the unit value of imports appreciated by 44.4 percent during 1988-89. In the event, the import bill for edible oils declined by about 21 percent only in spite of drastic reduction of 45 percent in the quantity of edible oil imports during 1988-89. During April-September 1989 the import bill at Rs. 57.5 crores was lower by 88.7 percent than that during the same period of 1988. The success achieved in reducing edible oil imports to a large extent reflects success of import substitution effort in this area.

8.23 Imports of fertilisers have shown considerable variation during the past few years, depending on the level of domestic consumption. The severe drought of 1987 led to a sharp fall in the fertiliser demand, which resulted in a significant reduction in fertiliser import bill during 1987-88. Following the remarkable recovery in the agricultural sector in 1988-89 demand for fertilisers picked up and imports surged. Import of fertilisers and fertiliser raw materials rose from 3.98 million tonnes valued at Rs. 486.2 crores in 1987-88 to 5.32 million tonnes valued at Rs. 927.6 crores in 1988-89. The overall increase of 90.8 percent in the fertiliser import bill during 1988-89 was contributed by a sharp spurt of 42.7 percent in unit value and a volume growth of 33.7 percent. The surge in fertiliser imports continued during April-September 1989 when fertiliser (crude) and fertiliser (finished) showed phenomenal increase of 95.7 percent and 274.3 percent respectively in value over the corresponding period of 1988. This trend is expected to remain buoyant during the remaining period of 1989-90 owing to factors conducive to higher consumption of fertilisers associated with good weather conditions in the country and due to depletion of fertiliser stocks of the previous year.

8.24 There was an increase in both value and volume of crude oil and petroleum products imported when they showed an increase of 7.1 percent each in 1988-89. During 1988-89 POL imports (gross) were 24.0 million tonnes valued at Rs. 4,374.0 crores compared with 22.4 million tonnes valued at Rs. 4,082.8 crores in 1987-88. Underlying this expansion in volume of POL imports during 1988-89 was the higher growth of 7.2 percent in the domestic consumption of petroleum products relative to a lower increase of 5.5 percent in the indigenous crude oil production. During the first six months of 1989-90 POL import bill at Rs. 2,555.1 crores was higher by 21.4 percent over the corresponding period of 1988-89. The higher value of POL imports also reflects the fact that the US dollar in which oil is billed had appreciated considerably against the rupee. The world market for crude oil and products has been relatively tranquil in recent years.

8.25 Imports of organic and inorganic chemicals showed a steep increase of 84.7 percent during 1988-89. This trend was completely reversed during first half of 1989-90 when imports dropped by 6.8 percent compared with that in the corresponding period of the previous year. Imports of medicinal and pharmaceutical products showed, in 1988-89, a substantial increase of 47.4 percent. In the first half of 1989-90 there was a further increase of 12.9 percent. The chemical material and products have shown deceleration in import growth. These imports which showed a growth of 17.6 percent in value in 1988-89 recorded considerable deceleration in growth to 4.9 percent during April-September, 1989.

8.26 Import of synthetic and regenerated fibres rose to 20,500 tonnes valued at Rs. 37.4 crores in 1988-89 from 17,100 tonnes valued at Rs. 28.4 crores during 1987-88. This reflected

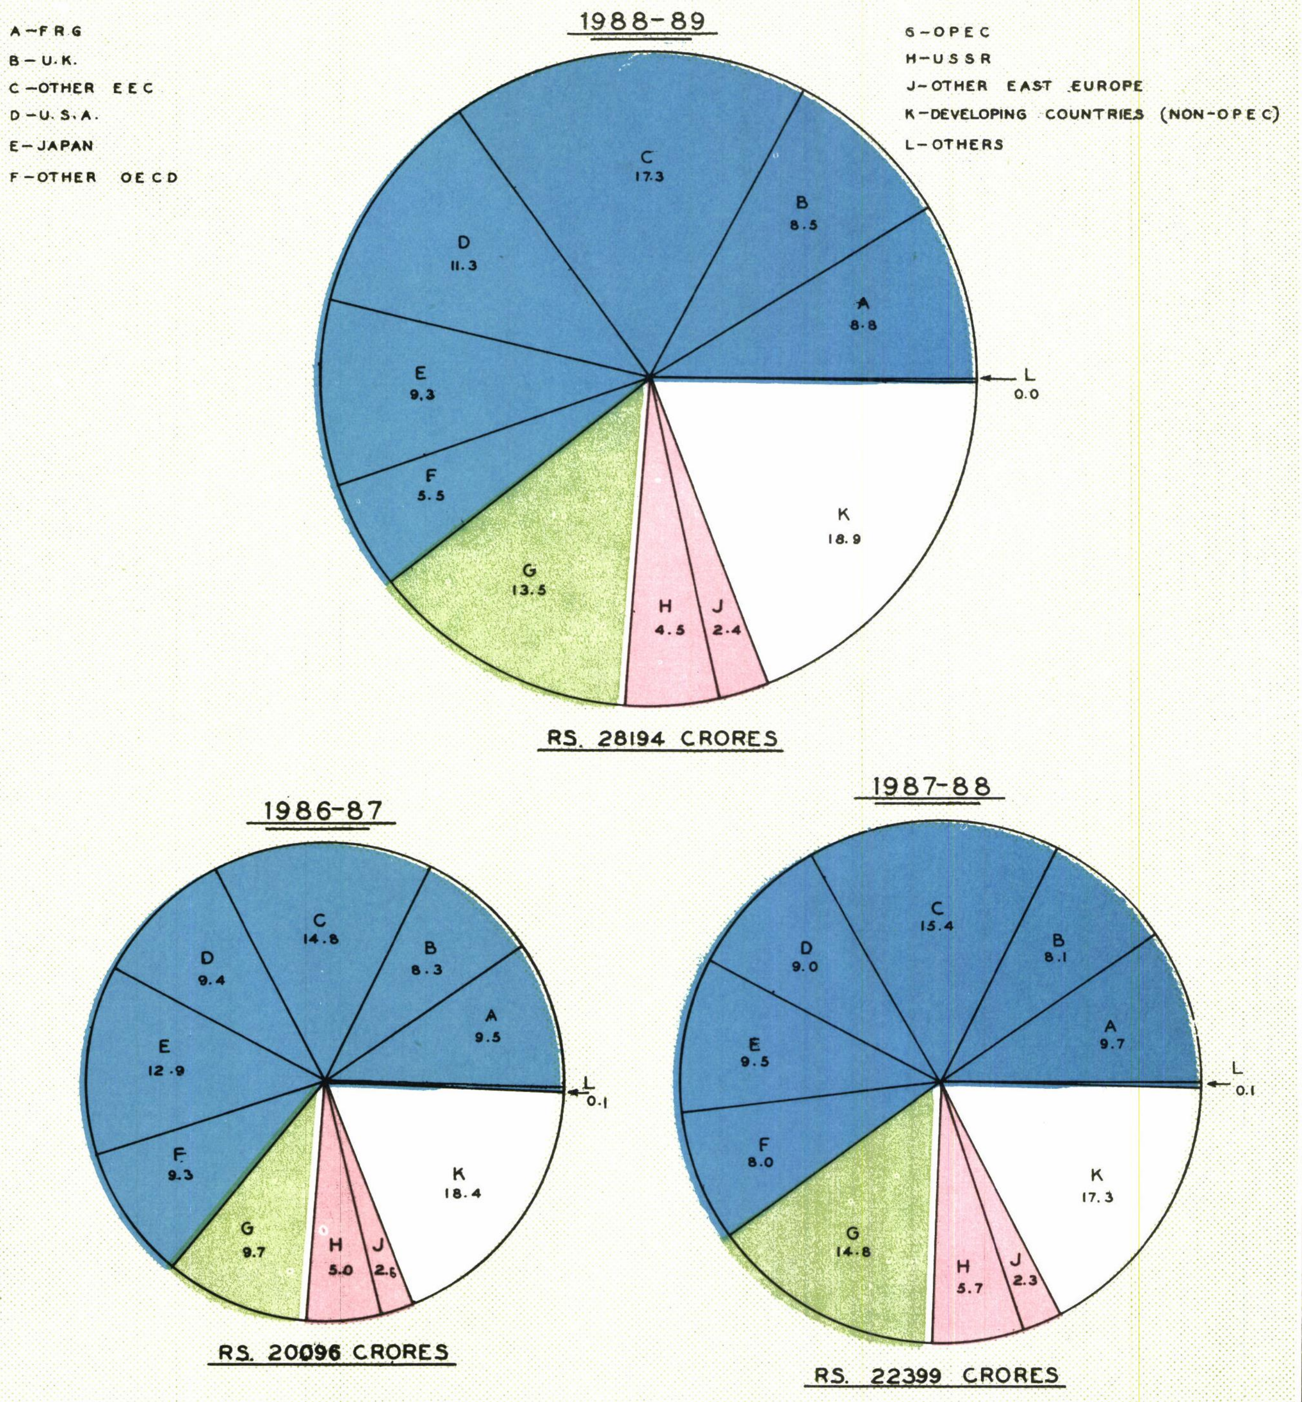
SOURCES OF INDIA'S IMPORTS

(IN PER CENT)



MINISTRY OF FINANCE, ECONOMIC DIVISION.

an increase of 31.7 percent in value during 1988-89 which was contributed by volume growth of about 20 percent and a unit value appreciation of 9.8 percent. The surge in imports of man-made fibres has continued when their imports showed a phenomenal increase of about 150 percent in value during the first half of 1989-90. Demand for imports of man-made fibres is often induced by high prices of similar domestic products.

8.27 Imports of paper and paper board at 256,700 tonnes valued at Rs. 305.7 crores during 1988-89 were lower by 9.5 per cent in volume but higher in value by 18.4 percent owing to sharp appreciation in unit value of around 31 percent over the preceding year. However, during April-September, 1989 these imports at Rs. 144.9 crores recorded a marginal increase of 3.6 percent over the same period of the preceding year.

8.28 Pearls and precious stones are imported by the gem and jewellery industry for processing and re-exporting. Reflecting the buoyancy on export front, their imports have surged. Imports of these items increased by 59.2 percent from Rs. 1,994.2 crores in 1987-88 to Rs. 3,175.2 crores in 1988-89. However, during the first six months of 1989-90 the increase in these imports was smaller by about 29 percent.

8.29 Iron and steel imports increased from around 2.3 million tonnes valued at Rs. 1,273.2 crores in 1987-88 to 3.4 million tonnes valued at Rs. 1,937.3 crores in 1988-89. This showed an increase in value of about 52.2 percent coupled with a volume growth of somewhat similar magnitude (47.8 percent) as import unit values showed a marginal increase during 1988-89. During April-September, 1989 iron and steel imports at Rs. 1,104.3 crores were higher by about 40.8 per cent over the corresponding period of 1988. There has been a hardening of prices of steel products in the world market during the current year. High level of iron and steel imports has been necessitated to meet the needs of growing and diversified economy and sustain exports of engineering goods. Import of non-ferrous metals increased from Rs. 576.1 crores in 1987-88 to Rs. 785.8 crores in 1988-89, showing an increase of 36.4 percent. During April-September, 1989 imports at Rs. 663.2 crores were higher by 67.3 percent over that in the same period of 1988. Available trends in the world market showed sizeable spurt of prices in the world market of copper, nickel, lead, zinc, and tin during 1988-89 in particular.

8.30 Imports of capital goods showed an increase of 10.4 percent in 1988-89, when they amounted to Rs. 6,938.9 crores. In the first half of 1989-90 imports at Rs. 3,655.2 crores were higher by 13 percent compared with imports of Rs. 3,234.1 crores in the corresponding period of the previous year. The import demand for capital goods is largely influenced by the performance of industrial sector, the pattern of public sector investment and the trade policy regime for import of capital goods. Exchange rate movements of Indian rupee vis-a-vis currencies of major sources of capital goods import appear to have exercised some restraining influence on these imports.

8.31 The import bill in rupee terms has gone up as a result of the steep escalation in unit value of certain import items coupled with the depreciation in the value of rupee. On the whole, import volume growth seems to have been constrained by these price factors. Furthermore, imports (in terms of value) have increased though at a lower rate, but from a higher base than in case of exports.

8.32 It should be noted that the balance of payments data relating to merchandise trade compiled and published by RBI are different from those compiled and published by the DGCI&S. The differences are greater in the case of imports and have been rising over the years. The differences arise on account of coverage, valuation and timing factors. Annual report of RBI for 1988-89 explains the sources of difference. Briefly, export data differ because of exclusion of a part of exports by parcel post in the DGCI&S data, different valuation procedures adopted and different data sources; import data differ because the RBI data are on a payments basis whilst the DGCI&S data are based on arrival of goods at the customs and the coverage of RBI data is more comprehensive.

Sources of Imports

8.33 The composition of imports by source is given in the pie chart. The Organisation for Economic Cooperation and Development(OECD) countries as a group continued to account for the largest share in India's imports accounting for 60.7 per cent of these in 1988-89. This was followed by the developing countries (excluding members of the OPEC) whose share was 18.9 per cent. Organisation of Petroleum Exporting Countries (OPEC) and East European countries accounted for 13.4 per cent and about 7 per cent respectively of the country's imports in 1988-89.

8.34 Imports from the OECD countries showed an increase of 27.8 per cent from Rs. 13,387 crores in 1987-88 to Rs. 17,115 crores in 1988-89. Within the OECD imports from the European Economic Community (EEC) showed an increase of 21.0 per cent from Rs. 7,459 crores in 1987-88 to Rs. 9,022 crores in 1988-89. Among the EEC countries, Federal Republic of Germany was the largest source of imports followed by the UK, Belgium, France, the Netherlands and Italy. There was a sharp increase in India's imports from USA when they rose by about 58 per cent to Rs. 3,197 crores in 1988-89 from Rs. 2,025 crores in 1987-88. The USA thus re-emerged as India's single largest import source accounting for 11.3 per cent of her imports in 1988-89 as against 9 per cent in 1987-88.

8.35 The share of the countries of Eastern Europe in the country's imports declined from 8 per cent in 1987-88 to about 7 per cent in 1988-89. This is mainly attributed to fall in imports from the USSR by about 1.6 per cent which accounts for a major share of trade with Eastern Europe. Also there was an erosion in share of imports from OPEC which fell from 14.8 per cent in 1987-88 to 13.4 per cent in 1988-89.

8.36 The share of developing countries (excluding members of OPEC) in India's imports increased from 17.3 per cent in 1987-88 to 18.9 per cent in 1988-89 as a result of higher growth of 37.3 per cent compared with imports from other regions. Countries of the Asia and Pacific region accounted for 70 per cent of our imports from the developing countries. Regionwise, imports from Africa, Asia and Latin America showed increases of 48 per cent, 38 per cent and 19.6 per cent respectively.

III. Exports

8.37 The combination of export promotion policies, especially since the mid-1980s, and the buoyancy in world trade has begun to have salutory effects on export growth in recent years. According to data compiled by DGCI & S exports increased in rupee terms by 26.4 per cent in 1987-88, 28.9 per cent in 1988-89 and 38.3 per cent during April—December 1989. In dollar terms also exports expanded impressively by 24.6 per cent in 1987-88, 15.4 per cent in 1988-89 and 18.8 per cent in April—December 1989. Data on volume growth of exports are not yet available beyond 1986-87. Taking into account movements in international prices and in exchange rates, the volume growth of exports is estimated over 10 per cent both during 1987-88 and 1988-89. This trend in volume growth is likely to be sustained during 1989-90 as well. It is indeed gratifying that since 1986-87 the volume growth in exports has consistently exceeded the 7 per cent annual target postulated during the Seventh Five Year Plan. The major growth impetus has come from manufactured products whose share increased by 10 percentage points over the Seventh Plan. Also, India's volume growth has more than kept pace with expansion in world trade.

8.38 Table 8.6 shows exports by major commodity groups during 1987-88, 1988-89 and the first half of 1988-89 and 1989-90. Also a graphic presentation of the commodity composition of exports during the last three years is given in the pie chart.

8.39 Cashew exports showed a decline of 9.6 per cent during 1988-89 in value although the volume at around 37,700 tonnes was higher by 4.4 per cent over the previous year's level. The set-back in export earnings from cashew arose from a fall in unit value realisation of 13.4 per cent, because of severe competition from other edible nuts. Export of cashew kernels during April—September, 1989 showed a substantial increase of 35.9 per cent in value. Export of spices which amounted to 93,800 tonnes valued at Rs. 250.8 crores in 1988-89 showed a drop in

COMPOSITION OF INDIA'S EXPORTS

Notes : * Engineering goods figures relate to machinery, transport equipments, metal manufacturing and iron & steel.
**Chemical and allied products figures relate to basic chemicals.

(P) Provisional.

value of about 19 per cent in spite of an increase in volume of 12.9 per cent owing to fall in unit value realisation by 28.3 per cent. The declining trend in export earnings from spices continued during the first half of 1989-90 with a further fall of 6.9 per cent in value. In recent years exports of cardamom (small) have suffered because of higher prices in the domestic market and severe price competition in West Asia from Guatemala. In case of pepper which is the major item in the spices group, high standards of cleanliness required in our major markets have constrained exports. Exports of tobacco suffered setback in both volume and value. From a level of 76,400 tonnes valued at Rs. 134.6 crores in 1987-88 tobacco exports fell to 56,100 tonnes valued at Rs. 128.5 crores. During April—September, 1989 export earnings increased by 11.7 per cent to Rs. 85.2 crores. The international tobacco market is characterised by declining demand for tobacco because of anti-smoking campaigns and Government restrictions on consumption. Furthermore, stagnant yields of tobacco in India, increased cost of cultivation and failure to produce quality tobaccos which are in demand abroad are making Indian tabocco less competitive in the world market.

8.40 Export earnings from tea in 1988-89 showed a marginal increase of 1.1 per cent in value despite a 2 per cent decline in volume owing to a small increase of 3.2 per cent in unit value of tea exports. During the first six months of 1989-90 earnings from tea exports showed a substantial jump of 36.7 per cent. Tea prices in the world market have firmed up in view of the tight global demand supply balance. Export of coffee at 82.6 million kgs valued at Rs. 279.7 crores during 1988-89 compared with 88.7 million kgs valued at Rs. 263.2 crores in 1987-88. The modest increase in coffee earnings of 6.3 per cent despite a drop in export volume of 6.9 per cent during 1988-89 was attributed to increase in unit value realisation of about 14.1 per cent. During April—September, 1989 export of coffee at Rs. 202.1 crores showed a substantial increase of 43.4 per cent over that in the same period of 1988. International coffee market has been in a state of turmoil since July 1989 when the International Coffee Agreement (ICA) meeting decided to suspend the operation of the export quota system for two years from the first week of July 1989 instead of waiting until September, 1989 when ICA was due to expire. The impact of the suspension of the quota scheme on coffee export revenues would vary from one country to another. However, countries with low production costs should be able to compensate for lower world prices by increasing export quantities.

8.41 Exports of marine products touched an all time high in 1988-89 increasing from 97,900 tonnes valued at Rs. 525.1 crores in 1987-88 to 158,500 tonnes valued at Rs. 632.5 crores in 1988-89. This represented an increase of 61.9 per cent in volume and a mere 20.4 per cent in value. There was an erosion in unit value realisation when it declined by 25.6 percent during 1988-89. During the first six months of 1989-90 export earnings from marine products showed only a marginal increase of 1.7 per cent. India's export of marine products is characterised by high degree of product and market concentration which may constrain its further expansion. During the current year shrimp market has been dull in Japan which is a major export destination for our marine products. Also with the expansion of acquaculture facilities for production of shrimp in Philippines, Thailand and Indonesia competition is expected to be intense. Despite rising world demand, India's share in exports of frozen foods has been declining. There exist good prospects of frozen meat products, eggs and chicken and dairy products to West Asia.

8.42 Exports of rice showed a marginal increase from 3,71,600 tonnes valued at Rs. 324.6 crores in 1987-88 to 3,75,600 tonnes valued at Rs. 331.5 crores in 1988-89, which meant 1.1 per cent increase in volume and 2.1 per cent in value. Export earnings recovered in April—September, 1989 when they showed a phenomenal increase of 91.6 per cent over the same period of 1988. World demand for rice is expectedto remain strong with prospects of higher unit value realisation. Exports of oil cakes showed an increase of 113.7 per cent in value and 81.6 per cent in volume during 1988-89. Export earnings from this item showed up by appreciation in unit value realisation of the order of 17.8 per cent. There was a further massive increase of 220.4 per cent in export earnings during April—September, 1989.

8.43 The demand for iron ore fluctuates with the requirement of the world iron and steel industry. Demand for steel in Japan which is India's major destination for iron ore remains high. Iron ore exports during 1988-89 at 32.9 million tonnes valued at Rs. 672.5 crores showed an increase of 16.2 per cent in volume and 23.9 per cent in value with a modest appreciation of 6.6 per cent in unit value over 1987-88. This trend has been maintained when earnings from iron ore exports increased by 34.8 per cent during the first half of 1989-90.

8.44 India's exports of jute manufactures increased to 3.1 lakh tonnes valued at Rs. 249.9 crores in 1988-89 from 2.4 lakh tonnes valued at Rs. 242.8 crores in 1987-88. The marginal increase in export earning of 2.9 per cent during 1988-89 was attributed to volume expansion of 29.2 per cent in the face of a steep decline in unit value realisation of 20.3 per cent. Export earnings from jute manufactures showed an improvement in April—September, 1989 when they increased by 13.2 per cent. The increased world demand for packaging materials is being increasingly met through usage of synthetic substitutes leading to contraction of world demand for jute related products. With a view to improving the competitive position of Indian jute manufactures a number of incentives have been introduced which include cash compensatory support for all exports of jute goods at an uniform rate of 12 per cent; additional incentive at the rate of 10 per cent over and above CCS admissible on diversified jute products; and import of raw jute against export of jute goods under advance licensing scheme.

8.45 In the case of cotton yarn and fabrics, export earnings recorded a modest increase of 6.3 per cent in 1988-89, but a significant increase of 26.3 per cent during April—September, 1989. Readymade garments showed an increase of 17 per cent in 1988-89 to Rs. 2,097.5 crores. This trend continued during the first half of 1989-90 with readymade garments showing a substantial increase of 48.9 per cent over the same period of 1988-89. India's share in world trade of readymade garments is marginal. While world trade is mostly in garments made of synthetic and blended fabrics, India's exports in this sector are mainly confined to cotton garments. International trade in textiles is constrained as it is conducted through bilateral quotas under the umbrella of Multi-Fibre Arrangement (MFA). Morever, protectionism in this area has progressively increased both in intensity and coverage. Starting with cotton, the restrictions have spread to all other fibres, natural, man-made and synthetic. The present MFA expires at the end of July 1991. Negotiations are now underway in the Uruguay Round for integrating textile and clothing sector into the GATT. With the expiry of the MFA, bilateral agreements under the MFA shall also cease to have effect. MFA to some extent provides security of access to exports from sources which may not be competitive. However, quantitative restrictions in the present form hamper the growth of garment industry since a large number of restraint levels may be too low to attract investment. India's relative comparative advantage due to the availability of skilled manpower and low wages may stand in good stead in a relatively free trade regime in textiles at global level. In the short run, the only way of achieving higher exports would be through higher unit value realisation, increase in export of non-quota items to quota countries and by pushing up exports to non-quota countries.

8.46 Exports of leather and leather manufactures increased by 29.7 per cent in 1988-89 but showed an increase of 19.8 per cent during April—September 1989. This is one sector where India enjoys comparative advantage in terms of a large bovine population and the labour intensive character of the industry. The market for shoe uppers has been promising. Rising inflation in Italy has diverted import demand for shoe uppers to India. Indian exporters should take advantage of the situation by maintaining quality standards and offering products at competitive prices. The demand for sports shoes has been rising all over the world.The Indian shoe industry needs to take up the challenge of meeting a part of this demand.

8.47 Export of engineering goods have shown robust performance in recent years in spite of intensification of competition in the world market and erosion of import capacity of many developing countries which were India's important markets. In 1988-89 engineering goods showed an increase of 62 per cent. There was a further

increase of 37.6 per cent in their export value during April-September, 1989. Alongwith the growth in exports, significant shift has also taken place in the direction of export of engineering goods. In particular, share of developed market economies in our total engineering exports has grown and that of East European countries declined. Exports of chemicals and allied products rose by 86.3 percent during 1988-89 and by 30.6 percent during the first half of 1989-90. Our engineering exports have yet to realise their full potential. Some of the measures to improve the performance of this important sector include improvement in low productivity and quality of products, standardisation of components and maintaining delivery schedules.

8.48 Exports of gems and jewellery spurted by 68.3 percent to Rs. 4,399 crores in 1988-89. This upward trend slackened to 37.1 percent in the first half of 1989-90. This most dynamic non-traditional export sector faces problems of a stage of plateau having reached in international demand, increasing international competition, late recovery of export bills, etc. This happens to be the most import-intensive export sector, and its credit requirements are relatively high. India will have to continue to concentrate more on low quality roughs which require higher labour input and in which we have comparative advantage. Jewellery exports have yet to take-off; special efforts will have to be made to promote these exports.

Export Processing Zones

8.49 With a view to giving impetus to export drive, Government has set up Export Processing Zones (EPZs) which provide almost free trade environment for export production so as to make Indian export products competitive in the world market. India has six EPZs located at Kandla, Santacruz, Falta, Noida, Cochin and Madras. The seventh EPZ at Visakhapatnam was approved and notified on 15-3-1989. The one located at Santacruz is mainly devoted to production of electronic goods for export with a recently established facility for gem and jewellery complex. Other EPZs are multi-product in character. As of today there are 286 units in operation spread over these six EPZs providing employment to 20,200 persons. These units have attracted private investment of around Rs. 107 crores along with Government investment of Rs. 88 crores devoted to infrastructure and support facilities. Exports from these six EPZs in operation at Rs. 516.5 crores during 1988-89 were higher by 54.9 per cent compared with their Rs. 333.5 crores exports in 1987-88. However, the share of exports emanating from EPZs was about 2.5 per cent of India's total exports in 1988-89 compared with their higher share of about 3 per cent in 1985-86. The performance of the EPZs has been far from satisfactory.

Project Exports

8.50 Project export consists of two categories *viz* construction services and engineering design services (EDC). Construction services are those which make physical construction possible. These services are therefore ancillary to structural projects including social infrastructure, industrial or agricultural, public works, etc. Generally, construction services involve activities relating to financing, procurement of supplies, mobilisation of labour and equipment as well as management of projects. Although often requiring specialised skills, construction services also rely heavily on unskilled and semi-skilled labour. Engineering design/consultancy services (EDCs) produce different outputs such as pre-feasibility studies, preliminary and detailed engineering design, etc. Many of these services are multidisciplinary in nature and technology intensive. They require general and specialised engineering skills to produce output.

8.51 World market for construction services is marked by overwhelming dominance of industrial countries which in itself is rooted in two inter-linked factors. One is that more than 70 percent of the construction and design services market continues to be in the developing countries and the other is that industrial countries are able to offer attractive financial packages to fund such projects. In recent years the international construction market has dwindled and witnessed intense competition, resulting in fluctuating and declining construction and turnkey exports from India. Civil construction exports

which were of the order Rs. 368 crores in 1984 slumped to Rs. 178 crores in 1988 which is higher than the level of construction exports of Rs. 118 crores recorded in 1987. Exports of turnkey projects have stagnated at Rs. 144 crores. Data available for the first nine months of 1989 do not presage substantial recovery from the depressed levels at present. The fluctuating fortunes of project exports from India are to a considerable extent linked to the global slump in the construction service market mainly arising out of slow down in economic activity in oil exporting countries on account of weak crude oil prices and disturbed conditions in West Asia. However, supply side factors like delivery schedules, specifications, credit terms and price factors were also contributory factors in case of India.

8.52 With a view to promoting project exports, Government has provided a number of incentives which include market development assistance for reimbursement of 50 percent of cost of preparation and submission of bids; and project assistance to the extent of 10 percent of net foreign exchange earnings from the service portion of the contracts. With effect from May 1, 1989 powers have been delegated to authorised dealers and the Exim Bank to grant pre-bid clearance for export of management/technical/consultancy services upto the monetary limit of Rupees two crores and Rupees five crores respectively.

Direction of Exports

8.53 The destination-wise pattern of India's exports display diversification and is also depicted in the pie chart for the years 1986-87, 1987-88 and 1988-89. In 1988-89, the share of exports going to industrial market economies as represented by OECD group was 58.2 percent, while East Europe and developing countries accounted for a share of around 16.5 per cent each. The countries of the OPEC accounted for a market share of 6 percent.

8.54 The bulk of exports from India to the OECD group went to the EEC, the USA and Japan. Exports to the EEC showed an increase of 25 percent from Rs. 3,957 crores in 1987-88 to Rs. 4,946 crores in 1988-89. Exports to USA in 1988-89 rose by 28.5 percent to Rs. 3,736 crores from Rs. 2,908 crores in 1987-88. Exports to OPEC group and East European countries showed an increase of 23.2 percent and 29.4 percent respectively.

8.55 Exports to developing countries (excluding member countries of the OPEC) showed a very substantial increase of more than 50 percent when they rose to Rs. 3,361 crores in 1988-89 from Rs. 2,238 crores in 1987-88. In particular, countries of the Asia and Pacific region which accounted for more than four-fifths of our exports going to developing countries showed an increase of 51.3 percent during 1988-89.

8.56 The preceding review of Indian export performance indicates robust trends in volume growth during the past few years. Furthermore, these have kept pace with the expansion in world trade and Seventh Plan target for export growth. However, there are some trends on export front which deserve attention. One is that overall average import intensity has increased because of shifting composition of India's exports in favour of manufactures. The other noticeable feature has been the erosion in the share of agro-based products in our total exports because of adverse weather conditions which prevailed for successive years during the Seventh Plan. However, the declining share of agro-based products was more than made up by buoyant trend in our manufactured exports. The other issue pertains to some developments related to India's regional trade matrix. There has been a high growth in exports/imports to/from India to developing countries of Asia (excluding members of the OPEC). Some of these economies (Korea, Singapore, Malaysia, Hong Kong and Taiwan) have witnessed continued economic growth along with significant trade liberalisation and economic deregulation. Therefore, these economies provide excellent opportunity for export thrust. On the other hand, India's exports may have to contend with uncertainty in East European market arising out of proposed economic reforms underway. These markets till now were sheltered and imparted a measure of stability to Indian exports. Exports from India will now have to face increasing competition in view of switch over by these economies to trading based on world prices and convertible currencies.

IV. Trade Policy Developments and Export Incentives

8.57 In recent years, import-export policy has provided a stable policy framework so as to minimise year to year uncertainties and enable entrepreneurs to plan their activities in a longer term perspective. Besides, the import-export policy has also provided a framework for a flexible and liberal response to the growing needs of the economy for increasing production and exports. The current import-export policy has been in operation since April 1988. During the course of the year some improvements were made in the policy in order to improve the quality of incentives and their administration and to simplify and rationalise policy and procedures. In particular, some modifications were made in the current import-export policy to give further impetus to export promotion. The goods manufactured and exported from customs bond against import licences (other than those issued with export obligation) were made eligible for grant of special REP equal to 10 percent of the value addition (f.o.b. value of exports minus c.i.f. value of imports) subject to a minimum value addition of 33 percent achieved in each consignment of export. The holders of advance licences for export of engineering and chemical including petroleum products were made eligible to dispose of the replenished exempt materials to any person on the basis of permission from the licensing authority. Provisions for utilisation of the flexibility available on REP/Additional licences, for certain specified non-ferrous items, were liberalised. Furthermore, exporters of engineering and steel products availing of the facility of reimbursement under the International Price Reimbursement/Protection Scheme were made eligible for the replenishment at the same level and for the same items, as permissible in normal cases. A warehouse for stocking engineering goods was opened at Rotterdam. Registered exporters shipping goods to this warehouse were permitted to claim replenishment to the extent of 80 per cent of their entitlement before realisation of the foreign exchange. The facility of duty free imports of inputs for export production against phased manufacturing programme under Duty Exemption Scheme was extended to manufacturers with large domestic turnover but without export performance to their credit. Also intermediate licence holders were provided with an alternative to supply the intermediate products to the holder of Import-Export Pass Book, besides the advance licence holders, for ultimate export. Requirements for fulfilment of the value addition criteria for obtaining a duty-free licence were tightened. The value addition is to be computed by taking into account the c.i.f. value of all imported inputs, whether imported directly by the applicant with duty exemption benefits or otherwise under any other provision of the Import Policy, also all other imported inputs procured from others, without any processing.

8.58 74 items of capital goods required for the manufacture of rubber and canvas footwear and four items of silk machinery were placed under Open General Licence (OGL).

8.59 The facility of Pass Book Scheme was extended to merchant exporters in the garment sector. The merchant exporters in this sector with a minimum annual average f. o. b. value of exports of Rs. 50 lakhs in the preceding three licensing years were made eligible for the grant of blanket Import-Export Pass Books for duty-free import of the inputs required for fabrication of the various types of garments for export. Also use of foreign brand names was allowed in the readymade garments sector subject to the condition that only indigenous fabrics were used, at least 75 per cent of the production was exported and they entailed no outgo on account of royalties on domestic sales.

8.60 Export of polyester staple fibre was allowed on decontrolled basis. Shipment of silk goods was permitted under OGL against letter of credit or documents against payment basis. Export of clinker was also allowed on merit. Furthermore, exports of nylon filament yarn, high performance viscose staple fibre and non-basmati rice were allowed within limited ceilings. Exports of vegetable seeds other than onion seeds were allowed under OGL on production of quality control certificate and certificate certifying that the seeds to be exported are not foundation and breeder seeds from recognised State Certification Agency including National Seeds Corporation.

8 .61 A Board of Trade was constituted under the chairmanship of Commerce Minister to advise the Government on programme and strategies for export promotion.

8.62 A new three-year import-export policy is likely to be announced to be effective from April 1, 1990.

Import Policy

8.63 The overall approach towards import management has been selective and geared to curtailment of inessential/low priority imports, without at the same time introducing sharp changes in our existing policies and procedures governing imports. With a view to containing high imports of components for final stage assembly of a range of consumer durables, a number of components were shifted from OGL to licensable categories. Furthermore, in the budget for 1989-90 a number of excise and customs duty revisions were carried out to moderate growth of imports. Excise duties were increased for passenger automobiles and a variety of electronic items including televisions, music systems and radios. The customs duty on specified raw materials and piece parts imported for the manufacture of specified electronic items was raised from 35 to 40 per cent and from 50 to 60 per cent respectively. Concessional import duty on specified machinery which varied between 25 per cent to 35 per cent was unified and fixed at 40 per cent ad valorem. Furthermore, import duty on wood pulp, waste paper, low ash coal, raw petroelum, coke and certain chemicals was raised by 5 percentage points over the existing rates. On benzene, the basic customs duty was hiked from the existing nil rate to 25 per cent ad valorem. Tariff adjustments pertaining to several chemical items were made during the course of the current year. These include increase in basic customs duty from 70 percent to 80 percent ad valorem on specified plasticizers. Furthermore, the basic customs duty on aluminium ingots was raised to 5 per cent ad valorem plus Rs. 2,500 per tonne in October 1989.

8.64 In order to ensure proper absorption of foreign technology and progressive indigenisation of the product, most import-intensive industries e.g. automobiles, electronics, consumer durables, etc. are required to have a Phased Manufacturing Programme (PMP). The PMPs indicate the import entitlement for components at different stages while the remainder of its input requirements are stipulated to be met from indigenous sources. In recent years import of components by units in the manufacturing sector under PMP have been of a fairly high order. Measures are being taken to tighten up on monitoring of compliance with agreed PMPs.

8.65 Although the share of bulk imports in India's total imports has fallen over the last few years they still account for a fairly large slice of total imports. Therefore, substantial savings can be effected in many of these imports through higher domestic production and economy in use. The programme for the import of bulk items was subjected to continuous monitoring and scrutiny in the course of 1989-90 with a view to effecting economies wherever appropriate.

Fiscal Incentives

8.66 The main basis of the Cash Compensatory Support (CCS) scheme is to provide compensation for unrebated indirect taxes (on both final and intermediate stages of production) which enter into export production but are not refundable through Duty Drawback system. A new CCS scheme was introduced with a validity period of three years beginning 1st April, 1989, except in respect of cotton textile items, where the CCS rates will be valid only upto 31st December, 1991. The new CCS covers product groups which includes engineering goods, chemicals and allied products, leather goods, sports goods, agricultural products and processed foods, solvent extracted oil meals, textiles, flax products and handicrafts and carpets.

8.67 The CCS rates admissible are specified in terms of f.o.b. value of relevant export product. The present policy restricts CCS to a cut-off point of 25 per cent of the net foreign exchange earned (f.o.b. realisation after deducting the import content of the product). For this purpose

import content includes import allowed under normal REP, and made against advance licences, imprest licences, special imprest licences, Import/ Export Pass Book licences and/or any other licences granted under the import policy for registered exporters.

8.68 Cash Compensatory Support which was till recently being disbursed through the office of the Chief Controller of Imports and Exports (CCI&E) is being disbursed from October 1989 through all public sector banks also, as an additional facility to exporters to get their CCS claims promptly. Under this scheme, exporters have an option to collect their claims either from banks or from the office of the CCI&E.

8.69 A new duty drawback schedule of All Industry Rates for various export products was introduced with effect from June 1, 1989. The existing rates were specially looked into for items of thrust industries having significant exports/ export potential and whose inputs had suffered significant duties. Some of the basic features of the revised drawback schedule are as follows : First, it takes cognisance of the increased incidence of duties suffered by industries using imported inputs on account of variation in exchange rates and spurt in prices in the world market apart from changes in import duty on such items wherever effected as a part of budget proposals. Also where MODVAT benefit was not available, impact of increased incidence suffered by indigenous inputs due to rise in prices/duties was carefully reassessed. As a consequence, the drawback rates were revised and improved, with effect from 1st June, 1989 for a wide range of products especially those where such rates were on a specific basis. They include a wide range of engineering items, certain chemical products, various plastic products and a number of miscellaneous items. Secondly, 16 new items were added to the list of products covered by All Industry Rates. These include floppy diskettes, vacuum flasks, pickles in glass bottles, injection moulding machines, various categories of copper wound transformers, motorcycles, etc. Thirdly, the existing All Industry Rates for a number of items were retained where they were found to be realistic keeping in view the need for continued growth in exports of such items. The more important of these products include readymade garments, carpets (priced upto Rs. 1,000 per sq. metre), drugs and pharmaceuticals, dyes and dye intermediates, cotton fabrics, unembroidered man-made fabrics, most products of leather industry, most machine tools and items of textile machinery, electric motors and most items of transport sector. Fourthly, the existing facility for reduced rates in certain industries where the exporters avail of advance licence/pass book scheme benefits was not only continued but also extended for a number of new products, to obviate the need for brand rate application in individual cases.

8.70 The Government has announced significant modifications in the international price reimbursement scheme (IPRS) to streamline the existing scheme and to ensure optimal use of the funds. These have come into force from March 1, 1990. Under the scheme, exporters are reimbursed the difference between domestic and international prices of iron and steel used in export production. So far, for qualifying for reimbursement under the scheme, no positive value addition in terms of net foreign exchange earnings in export realisations was necessary. Minimum levels of value addition have now been prescribed to qualify for reimbursement under the revised scheme. For items manufactured from alloy steel, non-alloy steel and high carbon wire rod, a minimum value addition of 33 per cent over the value of steel content at international prices has been prescribed. In respect of items consuming mild steel, pig iron, cast iron and steel melting scrap, the minimum value addition prescribed is 25 per cent. For exports made out of a combination of iron and steel of the above two categories, value addition of 33 per cent has been prescribed. These modifications will encourage higher value-added exports. Furthermore, the new scheme provides for timely announcement of international prices. Domestic and international prices of all varieties of iron and steel will be notified on a monthly basis, doing away with the existing practice of announcing alloy steel, non-alloy steel and high carbon wire rod prices on a quarterly basis.

Export Credit

8.71 Interest rates on pre-shipment and post-shipment export credit were lowered by 2.0 percentage points and 0.85 percentage point per annum respectively. The new reduced rates on export credit came into effect from March 1, 1989. The rate of interest on pre-shipment credit upto 180 days was lowered from 9.5 per cent to 7.5 per cent. The rate of interest on pre-shipment credit beyond 180 days and upto 270 days was lowered to 9.5 per cent from the previous rate of 11.5 per cent. Interest rate on post-shipment credit for all categories of advances was reduced to 8.65 per cent from 9.5 per cent. However, the rate of interest on export credit under deferred payment for period beyond 180 days remained unchanged at 8.65 per cent per annum.

8.72 Since the introduction of the broad based and flexible Blanket Exchange Permit Scheme in June 1987, the scheme has been under continuous review and has been further expanded from time to time. This facility was extended to new units operating in the export processing zones even if such units do not have to their credit the required minimum export performance during the initial period of two years of operation as in the case of 100 per cent Export Oriented Units.

V. External Capital Flows

External Assistance

8.73 During 1988-89, authorisation of external assistance on Government and non-Government account registered a sharp increase to Rs. 13,200 crores from Rs. 9,046 crores in 1987-88 and Rs. 6,160 crores in 1986-87. Authorisation of assistance in the first half of 1989–90 at Rs. 6,255 crores is also considerably higher than authorisation of Rs. 2,964 crores in the same period last year. However, despite the absolute increase in aid commitments, the share of external assistance in India's total external debt has been declining over the years. Furthermore, the grant element in external assistance has also been declining making the availability of these resources costlier over time.

TABLE 8.7

Inflow of External Assistance : Gross and Net

(Rs. crores)

	Items	1984-85	1985-86	1986-87	1987-88	1988-89	1989-90**

2.	Gross disbursements . .	2354	2938	3596	5032	5291	5869
3.	Debt servicing (including interest payments)	1176	1367	2029	2623	2946	3460
4.	Net inflow of assistance (2-3)	1178	1571	1567	2409	2345	2409

*For the period April-September 1989 only.

**Estimated.

NOTE : The data include Government and non-Government loans and grants (including food assistance grant but excluding other commodity grant assistance). These figures do not include supplier's credits, commercial borrowings and IMF credits other than Trust Fund loans.

8.74 In the India Consortium meeting in Paris which concluded on June 20, 1989, an aid commitment of $ 6.7 billion was made for 1989–90 as compared with the commitment of $ 6.3 billion in the prvious year. The world Bank group lending to India during the Bank's fiscal year 1989 was $ 3,036.6 million as against $ 2,972.2 million in the previous year. IBRD loans which are costlier than IDA credits formed the bulk of this lending (about 70 per cent). India's share in total World Bank lending to all countries in the fiscal year 1989 was 13.0 per cent in the case of IBRD loans and 18.2 per cent in the case of IDA credits. An increase in these shares along with an increase in the total loanable resources of the World Bank group could be of considerable assistance in managing India's external finances in the coming years.

8.75 Assistance from the Asian Development Bank (ADB), which commenced in 1987-88, has registered steep increase in the subsequent years. Among bilateral sources, authorisation from Japan, which now happens to be the largest bilateral donor, started showing an upward trend since

1986-87. Most of the external assistance is in the form of loans. Because of drought, authorisation of grants had increased to Rs. 1,062 crores (11.7 per cent of total assistance). It declined to Rs. 214 crores (1.6 per cent of total assistance) in 1988-89.

8.76 Though authorisation of assistance has registered a perceptible increase in recent years, gross disbursement has risen at a much slower pace as can be seen from Table 8.7. Gross disbursements in 1988-89 were Rs. 5,291 crores compared with Rs. 5,032 crores in the previous year. Gross disbursements as a percentage of authorisations amounted to 55.6 per cent in 1987-88 and as low as 40.1 per cent in 1988-89. Consequently, the backlog of outstanding unutilised aid on government and non-government account which was Rs. 22,383 crores on 1-4-87 went up to Rs. 40,444 crores on 1-4-89.

8.77 The slow pace of aid utilisation is, inter-alia, due to time lags between commitment and conclusion of specific loan/credit agreements, time-consuming procedures governing procurement of stores/equipment, delays in land acquisition for construction work and domestic budgetary constraints in providing counterpart funds. There is undoubtedly the need as also the scope for speeding up the aid utilisation process.

External Commercial Borrowings

8.78 Given the shrinking share of external assistance during the past few years and also the "tied" nature of such assistance, India has had to approach the external commercial market to finance part of its requirements. Starting initially with the conventional syndicated loans, managed by American, European and Japanese banks, India has recently started raising funds in the international bond market. Financial institutions and public sector undertakings have been the main participants in the bond market. Private sector companies have also been availing of external commercial loans to finance the foreign exchange costs of specific projects. Details of approvals of external commercial borrowings since 1980-81 are given in Table 8.8 Japan has emerged as an important creditor to India with the latter actively participating in the Japanese bond market by subscribing to public 'Samurai' bonds and private 'Shibosai' bonds.

TABLE 8.8

Approvals of External Commercial Borrowings

(Rs. crores)

NOTE: The figures have been rounded to the nearest crores. The constituents may not therefore add up to the total.

Mutual Funds

8.79 In 1986, a new development in India's participation in the global capital market was the floating of the India Fund in the United Kingdom by the Unit Trust of India (UTI) in collaboration with Merrill Lynch International Capital Managers. The India Fund was established to enable non-resident Indians and other persons or firms resident outside India to invest in the securities market in India through subsciption to the shares of the Fund. The initial funds mobilised were to the tune of 75 million Pounds equivalent to Rs. 139.5 crores. In 1988, the UTI set up the India Growth Fund in the United States and raised $ 60 million. Both these funds have been doing well and are being quoted at premiums on the London and New York stock exchanges respectively.

8.80 The State Bank of India (SBI) has also entered the foreign share market with the issue of the Magnum Fund in September-October 1989 in New York. Against a target of $ 100 million,

the Fund has attracted subscriptions to the extent of $ 157 million. Initially, the Fund was privately placed but now the sponsors hope to get it listed on the New York exchange. This is said to be the largest Country Fund in the world so far.

8.81 In October 1989 UTI, in association with Merrill Lynch, was successful in completing a rights offer of 40 million Pounds to shareholders of India Fund. The issue was made at a premium and a 100 pence share of India Fund was issued at 214 pence. The total receipts in 1989-90 under the UTI India Fund (Rights) and the SBI India Magnum Fund come to over Rs. 350 crores.

8.82 Borrowing from the external capital market at reasonable terms has been possible due to the growing confidence of the international financial community in India's ability to service its debt liabilities. Indian public sector undertakings have been obtaining good ratings from international credit rating organisations. This has helped the country to get access to capital resources at terms not always available to other developing economies.

Direct Foreign Investment

8.83 Government has in the past few years, rationalised various procedural and related matters in respect of foreign investment. These measures, inter alia, include simplification of remittance procedures, equity participation permissible upto 40 per cent (with higher limits for investment in selected areas), exemption from dilution formula, simplified visa and travel regulations, and rationalisation of taxation, exchange control, licensing and rules relating to appointment of foreign technicians, managers, etc. Specially liberal provisions have been made for investment in areas of technology upgradation and exports. A 'Fast Track Mechanism' has also been set up, from the middle of 1988, for expanding investment from Japan, the United Kingdom, the United States of America, the Federal Republic of Germany and France through speedy redressal of matters of policy, procedures and specific problems of foreign investors.

External Debt

8.84 In 1980-81, India's external debt disbursed and outstanding, inclusive of external commercial borrowings (including supplier's credit) but exclusive of non-resident deposits, stood at Rs. 18,400 crores. In 1988-89, this rose to a level of Rs. 68,831 crores. If non-resident deposits, which were of the order of Rs. 1,090 crores at the end of 1980-81 and Rs. 14,154 crores at the end of 1988-89 are also taken into account India's total external liabilities amounted to Rs. 82,985 crores at the end of 1988-89. As a result of a relatively high growth in commercial borrowings, the share of the latter in total debt disbursed and outstanding has crept up from 22.5 per cent in 1980-81 to 25.4 per cent in 1988-89. In absolute terms, during the same period, external commercial borrowings along with supplier's credit (disbursed and outstanding) have quadrupled from a level of Rs. 4,146 crores to Rs. 17,482 crores registering a compound growth of 19.7 per cent per annum.

8.85 The changing composition of the stock of external debt is also reflected in the declining share of external assistance both on Government as well as non-Government account. This formed roughly 76 per cent of total external debt disbursed and outstanding at the end of 1980-81. Its share has now come down to less than 70 per cent at the end of 1988-89. The increasing share of commercial borrowings coupled with the decline in the grant element in external assistance has raised the average cost of external debt over time.

8.86 Despite the significant growth in external debt, India's position vis-a-vis other developing countries continues to be satisfactory. According to estimates published by the World Bank, India's debt-GNP ratio* in 1988 was a little over 22 per cent compared with around 54 per cent in 19 highly indebted middle-income countries and over 111 per cent in 27 severely indebted low-income countries. India's external debt as a ratio of exports of goods and services is estimated by the same source to be about 263 per cent in 1988 in comparison with about 311

*Total external long-term and short- term debt including non-resident deposits and IMF credits as a proportion of GNP.

per cent in respect of severely indebted middle-income countries and about 488 per cent in the case of severely indebted low-income countries. The composition of India's total external debt is also relatively favourable. In 1988, short-term debt accounted for about 7 per cent of India's total external debt against about 11 per cent in the case of severely indebted middle-income countries and about 10 per cent in the case of severely indebted low-income countries; and concessional debt accounted for over 43 per cent of total external debt in the case of India against a little over 6 per cent in the case of severely indebted middle-income countries and over 33 per cent in the case of severely indebted low-income countries. This should not, however, lead to complacency since in terms of the ratio of total debt service to exports of goods and services and the ratio of interest on external debt to exports of goods and services, India's position is less favourable.

VI. International Economic Developments

World Economic Situation and Outlook

8.87 According to IMF estimates, world output registered a strong growth of 4.0 per cent in 1988, but indicators for 1989 point to a deceleration of growth to 3.1 per cent. Forecasts for 1990 show a further weakening of the growth impulses when the world output is expected to increase by only 2.9 per cent. Output growth in the industrial countries was 0.4 percentage points higher than the world average in 1988 as well as in 1989. The average growth rate in the developing countries was 4.2 per cent in 1988 and is estimated to slow down to 3.2 per cent in 1989. However, forecasts for 1990 show that developing countries will stage a recovery and register a growth of 4.0 per cent in that year.

8.88 Consumer prices in the industrial countries rose, on average, by 3.3 per cent in 1988, and further to 4.5 per cent in 1989. Major factors accounting for these increases include, inter alia, the increase in world prices for oil, food and metals. It is expected that the average rate of increase in consumer prices in these countries would moderate to slightly less than 4.0 per cent in 1990. With certain exceptions, developing countries have been far less successful than industrial countries in containing inflationary pressures. The average rate of inflation for these countries was 70.8 per cent in 1988; it rose further to 85.5 per cent in 1989. The acceleration in inflation has been particularly sharp in several countries of South America and Eastern Europe. However, it is anticipated that there will be some abatement of the rate of inflation in the developing countries in 1990.

8.89 Growth in world trade volume, according to IMF staff estimates, was exceptionally strong at 9.0 per cent in 1988, but is expected to have slowed down to nearly 7 per cent in 1989. For 1990 the growth in world trade is forecast at 5.7 per cent. Import growth in real terms has been specially strong among those developing countries that are predominantly exporters of manufactures. Export growth is expected to remain concentrated in a few countries only, with the four Asian Newly Industrialised Economies (NIEs) continuing to increase their share in the world market.

8.90 It is expected that the current account imbalances of the three largest industrial countries will remain large during 1989-90 reflecting partly the recent strength of the US dollar against the other major currencies. During the first eight months of 1989, the U.S. dollar appreciated against major world currencies; the appreciation of the dollar was most pronounced against the Japanese yen and the pound sterling.

8.91 There was a sharp rise in short-term interest rates, reflecting heightened concern against inflation. Long-term interest rates, however, have remained fairly stable in the aftermath of the global stock market decline in October 1987. Monetary policies in most industrial countries were tightened partly to resist downward pressure on exchange rates and partly to prevent overheating.

External Debt of Developing Countries

8.92 One major problem which has plagued the world economy in the eighties is that of debt overhang in several developing economies, and the problem is yet far from resolved. According to the 1989-90 issue of the World Debt

Tables published by the World Bank, total outstanding debt of developing countries which was merely $ 572 billion in 1980 rose to a level of $ 1,176 billion in 1987. In the following year, however, there was a decline of $ 20 billion in total outstanding debt which then stood at $ 1,156 billion. There are several reasons for this decline some of which include valuation changes associated with the strengthening of the US dollar and voluntary debt reduction operations. Total developing country debt at the end of 1989 is projected to be $ 1,165 billion, about $ 10 billion above the 1988 level. The increase in debt is explained by substantially higher net lending from official sources.

8.93 The total debt of developing countries is unequally distributed over various regions. The countries of Latin America and the Caribbean had an outstanding debt of $ 427 billion in 1988 constituting 37.0 per cent of total developing countries' debt. The sub-Saharan African countries with an outstanding debt of $ 140 billion in the same year accounted for 12.1 per cent of total debt of all developing countries. Countries of East Asia and the Pacific were indebted by $ 206 billion and having a share of 17.8 per cent in the total developing countries' debt. The three categories taken together account for about two thirds of the debt of all developing countries' outstanding debt. The sources of indebtedness are also very different in these regions. Whereas the Latin American countries are indebted mainly to commercial creditors (commercial banks in particular), the countries of Sub-Saharan Africa are in debt primarily to official creditors. The Asian countries have contracted debt from both these sources.

8.94 Based on four key debt ratios, the World Bank has identified four categories of developing countries faced with the external debt problem. There are 19 severely indebted middle-income countries (SIMICs), 27 severely indebted low-income countries (SILICs), 15 moderately indebted middle-income countries (MIMICs) and nine moderately indebted low-income countries (MILICs). India does not figure in any of these groups. The key ratios used for categorising countries into the above groups include stock of total external debt as a proportion of GNP, stock of total external debt as a proportion of export of goods and services, total debt service as a proportion of export of goods and services and interest on total external debt as a proportion of export of goods and services.

8.95 Given the different sources of indebtedness, basically two different strategies have evolved in recent years for attacking the debt problem: one is the market-based approach which addresses the debt problem of commercial borrowers and the other is the debt strategy aimed at alleviating the debt problem of official borrowers.

8.96 The market-based approach involves mainly debt buybacks, securitization, debt-equity swaps and contingent claims. These various instruments provide a "menu" of options from which debtors and creditors could choose. A new thrust to the debt strategy was given by the US Secretary of the Treasury, N.F. Brady when he suggested in March 1989 that debtor nations should focus their attention on the type of policies which can better encourage new investment flows, strengthen domestic savings and promote the return of flight capital. This was to be achieved by the cooperation of the entire creditor community, viz., commercial banks, international financial institutions and creditor governments. According to the proposal, the commercial banks could work with debtor nations to provide a broader range of alternatives for financial support including greater efforts to achieve both debt and debt service reduction and also new lending. The approach involved negotiations for a general waiver of the sharing and negative pledge clauses for debtors. It was also suggested in the Brady Plan that both the IMF as well as the World Bank would be involved in giving support to finance specific debt reduction plans. Certain guidelines were announced, for this purpose, by both these institutions in May 1989.

8.97 In the case of official debtors, Paris Club creditors have implemented, since October 1988, a menu of concessional operations in the rescheduling of non-concessional official debt. Thirteen countries, all in Sub-Saharan Africa, have

benefitted from this treatment to date. The following three options have been found comparable by bilateral official creditors to provide debt relief under the Paris Club reschedulings:—

(i) Partial writeoffs: Creditors choosing this option would forgive one third of the debt service due during the consolidation period and would reschedule the remainder at market rates over fourteen years with an eight year grace period on principal payments.

(ii) Longer repayment terms: Creditors would reschedule debt service due during the consolidation period at market interest rates but with a twenty five year maturity and a grace period of fourteen years.

(iii) Lower interest rates: Creditors would reschedule debt service due during the consolidation period at reduced interest rates either 3.5 percentage points below or one half of market rates, whichever gives the smallest reduction over fourteen years with eight years of grace.

8.98 The donor and creditor countries have also agreed to a variety of special initiatives to address the problems of severely-indebted-low-income-countries, specially those in Africa. The World Bank's Special Programme of Assistance (SPA) for debt distressed low-income African countries initiated in December 1987 endeavors to provide substantially increased, quick-disbursing, highly concessional assistance to adjusting countries. Twenty-two countries are currently eligible for SPA support.

8.99 The recent debt strategy has been conceived largely as a problem of the market borrowers. For instance, the Brady Plan covers the latter category of borrowers only and fails to provide a comprehensive and durable solution to the debt problem of developing countries. It is also important that the resources of multilateral financial institutions used to put the Brady Plan in place should not lead to an erosion in their ability to finance their normal lending programmes.

Resource Flows to developing Countries

8.100 Despite the many initiatives announced in the 1980's to alleviate the debt problem, trends in the flows of real resources to developing countries have been discouraging. According to the World Debt Tables (1989-90), net debt-related flows to all developing countries on account of all debt were $20 billion in 1988, down from a net flow of $ 23.9 billion in 1987. The decline in net flows becomes even more dramatic when compared with the levels in early eighties; for example, net flows in 1981 were of the tune of $ 77 billion. Net flows to developing countries are estimated to be $ 26 billion in 1989, up from their 1988 level. Nearly 90 per cent of these flows in 1989 are provided by official lenders. The increase in net official flows for 1989 is influenced by increased net disbursements from the World Bank and Japan. Because increased net official flows from official lenders will offset higher interest payments, it is estimated that net transfers from developing countries to their creditors will remain constant in 1989 at about $ 52 billion. Such negative transfers have been in evidence since 1983 and have been rising over the years.

8.101 Aggregate net resource flows to all developing countries which include investment flows besides flows on account of debt have been declining more sharply mainly because of sharply contracting private flows. In terms of 1986 exchange rates and prices, net aggregate flows to all developing countries declined from $ 134 billion in 1981 to $ 39 billion in 1988. Aggregate net transfers in real terms have also declined rapidly from $ 84.5 billion in 1981 to a negative flow of $ 9.8 billion in 1988. The reduction in aggregate net transfers since 1982 is a matter of great concern for developing countries whose income levels are still relatively low. Because of negative net transfers, these countries had fewer resources available for consumption and investment than the amount they produced.

8.102 Multilateral institutions, such as the IMF and the World Bank, despite the many schemes/programmes to alleviate the debt problem, also account for a negative net flow of real resources to developing countries. Net disbursements (purchases minus repurchases) by IMF have turned negative since 1986. Such

negative transfers from the IMF amounted to SDR 3.9 billion in 1988 and SDR 3.6 billion in 1989. The IDA resources have also been shrinking in real terms and sometimes even in nominal terms. For instance, IDA-VII replenishment (1985-87) was a mere $ 9,639 million compared to the previous IDA-VI replenishment (1981-84) of $ 12,000 million recording a decline even in nominal terms. The current IDA-VIII replenishment (1988-90) amounting to $ 12,400 million is lower in real terms to IDA-VI replenishment. Net transfer of funds from the World Bank (IBRD and IDA) which touched a peak at $ 5.3 billion in 1984 turned negative in 1988 and 1989. The negative resource transfers amounted to $ 0.5 billion and $ 1.5 billion in the above two years respectively. These trends are a cause of great concern to countries interested in pursuing development activities and seeking a meaningful attack on poverty.

IDA-Ninth Replenishment

8.103 The World Bank's "soft loan window" provided by IDA has a pivotal role in the provision of concessional finance to low income countries. IDA resources are mainly derived from grants made by donor countries, and contributions or "replenishments" are normally intended to provide resources for three year blocks. The Ninth replenishment, negotiations for which concluded in December 1989, has provided for SDR 11.68 billion ($ 15 billion) for lending to the world's poorest nations for the three-year period July 1, 1990 to June 30, 1993. In addition, the repayment of funds loaned in IDA's early years will provide additional estimated resources of SDR 1.6 billion, bringing the total resources available to SDR 13.3 billion ($ 17 billion). This will be the largest replenishment ever of IDA's lending base. The Ninth replenishment is 11 per cent higher than the eighth replenishment which totalled SDR 10.5 billion (about $ 12.4 billion) for the three-year period ending June 30, 1990. During the IDA-VIII period, SDR 1.1 billion in repayments became available for commitment, bringing IDA-VIII resources to SDR 11.6 billion (14.5 billion).

8.104 Priority areas for IDA-IX are lending related to (i) poverty reduction, (ii) support of sound macroeconomic and sectoral policies, and (iii) support of environmental issues. It was decided that IDA-IX allocations to Sub-Saharan Africa would be maintained between 45 per cent and 50 per cent while that to India and China would not exceed 30 per cent. Investment projects will remain the mainstay of IDA's work, representing 75 per cent of all lending. Lending for quick-disbursing adjustment programmes will continue to account for between 25 per cent and 30 per cent of IDA's commitments.

8.105 IDA assistance to India has been of special significance in the context of the country's development efforts. In absolute terms this appears to be large, i.e., $17 billion to date. However, in relative terms, India's access to IDA resources has been severely curtailed. Through the 1960's and the 1970's India received the bulk of IDA assistance. In 1980, India's share in IDA was 40 per cent. Since then there has been a consistent decline and in 1988 IDA lending to India was a mere 16 per cent of total lending. This is partly because regional allocations have been increasing in favour of Sub-Saharan Africa and partly because of the entry of China as a borrower of IDA resources.

8.106 Not only has the overall size of IDA resources been shrinking in real terms over the years and the share of lending been contracting for India, but the terms and conditions of IDA credits have also been hardening over time. IDA credits were originally available to all developing countries for fifty years inclusive of a ten year grace period. They carried no interest charges but only a service charge of 0.75 per cent per annum on disbursed amounts. In 1982, a commitment charge was introduced at 0.5 per cent on undisbursed balances. This has now been converted into a variable fee with a ceiling of 0.5 per cent. Moreover, from July 1988 onwards, maturity period for IDA credits was reduced to 40 years for India and 35 years for most other developing countries.

Ninth General Review of Quotas

8.107 The IMF quota is of crucial importance to member countries, especially developing countries in need of external finance, as it determines not only their voting power but also their access to the Fund's resources and their share in SDR

allocation. The Articles of Agreement enjoin the Board of Governors to conduct, at intervals of not more than five years, a general review of quotas and on that basis and if found necessary, increase the size of the Fund and also adjust the share of individual members. The last review was concluded in 1983 and therefore the current review, the ninth so far, should have been completed by March 1988. However, though discussions are in progress in the Executive Board of the IMF, there is still no agreement on either the size of the quota or the manner of its distribution. In its September 1989 meeting, the Interim Committee of the Board of Governors of the IMF re-iterated that the size and the distribution of any quota increase should take into account changes in the world economy since the last review of quotas as well as members' relative positions in the world economy and the need to maintaining a balance between different groups of countries while at the same time maintaining the Fund's effectiveness in fulfilling its systemic responsibilities.

The Uruguay Round

8.108 In Punta Del Este (Uruguay) in September 1986, Trade Ministers of member countries of the General Agreement on Tariffs and Trade (GATT) launched a new round of multilateral trade negotiations (MTNs), which is now known as the Uruguay Round (UR). There have been seven earlier MTNs in the GATT, but the UR is the most complex so far. It goes beyond the traditional GATT issues, such as tariffs and other barriers to market access and extends to areas that in the past were largely neglected (e.g. agriculture) or maintained under derogations from GATT (e.g. textiles and clothing) and explores new areas, viz., services. In addition, negotiations covered systemic issues related to the functioning of the GATT, such as safeguards. The negotiations also seek to extend multilateral disciplines to new areas not covered so far by GATT, such as trade-related investment measures trade-related aspects of intellectual property rights and trade in services.

8.109 The inclusion of services in the UR was contentious. Most of the developing countries perceived that if services were brought within the GATT framework, the leverage of market access for trade in goods would be used to extract concessions in the area of services. Finally, as a compromise, it was agreed that negotiations on trade in services would be conducted on a separate track within the Uruguay Round but outside the framework of GATT. Accordingly, two separate bodies were established under the Trade Negotiations Committee (TNC) for the conduct of negotiations, viz. the Group of Negotiations on Goods (GNG) to deal with all matters relating to trade in goods and the Group of Negotiations on Services (GNS).

8.110 The Mid-term Review of the UR held at Ministerial level in Montreal in December 1989 to provide political impetus to the negotiations was formally concluded at Geneva in April 1989. As a result of the guidelines emerging from the Mid-term Review, the work of the Negotiating Groups was intensified in 1989 and a large number of proposals were submitted to the Negotiating Groups by the participants. In July 1989, the TNC agreed that the UR will be formally concluded at Ministerial meeting to be held at Brussels in December 1990. Meanwhile, the Negotiating Groups are engaged in the exercise of identifying the specific issues for negotiations and attempts are being made to narrow down the differences among participants. This will be followed by an exercise to draw up draft legal texts embodying the results of negotiations in each sector.

VII. Outlook

8.111 With regard to the external payments position, the Seventh Plan is closing on a weak note. The current account deficit as a ratio of GDP for the Seventh Plan as a whole is likely to be over 2 per cent in comparison with 1.3 per cent during the Sixth plan period. The Eighth Plan will thus start on a rather weak foundation of overall external payments situation.

8.112 Uncertainties cloud the medium and long term outlook of the global economic situation during the 1990's. There are no indications that global economic situation is going to be any better than during the 1980's. On the contrary, GNP growth and domestic demand in major

industrial countries is likely to decelerate. Our Eighth Plan will coincide with the first half of the new decade and may have to contend with an international economic environment which is far from satisfactory.

8.113 Against the above background, the pressures on the external payments situation during the course of the Eighth Plan are likely to continue. The problem of finding adequate external resources, particularly concessional resources, could pose growing challenge. The current account deficit should, therefore, be kept within manageable limits by encouraging exports of goods and services, avoiding inessential imports and improving the fiscal balance.

CHAPTER 9

PROBLEMS AND PROSPECTS

As the final year of the Seventh Plan draws to a close, it appears that the underlying macro-economic imbalances on fiscal and external accounts, highlighted in previous Economic Surveys, have begun to exact some toll of overall economic performance. The unabated strains on public finances have continued to exacerbate a difficult balance of payments situation and fuelled high rates of liquidity growth with attendant inflationary consequences. Despite two successive good monsoon years the rate of inflation, as measured by increase in the Wholesale Price Index, has increased in the current year. Industrial growth, which averaged over 8 per cent between 1984-85 and 1988-89, is expected to decline to 6 per cent in 1989-90. Despite almost normal monsoon conditions, agricultural production is unlikely to display significant growth over and beyond the high level achieved because of the sharp increase of 20.8 per cent recorded in 1988-89.

9.2. In view of the large overhang of liquidity resulting from money supply (M3) growth averaging about 17 per cent per year during the present decade, the potential for intensification of inflationary pressures is real. Such possibilities are particularly disturbing since, in our economy, inflation hits hardest at the already low living standards of the poorer and weaker segments of our society. In combating inflation, the scope for manoeuvrability is limited on the supply side by reduced stocks of food and foreign exchange reserves. Clearly, the resolution of inflationary pressures has to be sought principally on the demand side, with particular attention being devoted to correcting the underlying fiscal imbalances. This is essential for curbing inflationary pressures in the short—run and laying the basis for sustained, equitable and non-inflationary economic development in the course of the Eighth Plan period.

9.3. Restoration of fiscal balance requires a multi-pronged approach encompassing tight budgeting and control over public expenditure, substantial broadening of the tax base and improvement in the yield of collections from existing taxes, along with much better physical and financial performance by public sector enterprises, required for the necessary enhancement of the Government's non-tax revenues and increase in investible surpluses of these enterprises.

9.4. Throughout the eighties the growth of current expenditures has outstripped the growth of current revenues, leading to widening of the Government's budgetary deficit on revenue account and growing recourse to borrowing from domestic and external sources to finance this deficit as well as the expenditures on capital account. This increasing recourse to borrowed funds has had several adverse consequences. First, to the extent this has entailed recourse to the RBI, the deficit has been the principal factor propelling high rates of monetary growth which, in turn, has fuelled inflationary pressures and expectations. Second, the greater recourse to Government borrowing from the commercial banking system as well as directly from households has claimed a high proportion of household savings for Government expenditure, leaving a lower proportion for use in directly productive sectors such as industry and agriculture. Third, the mounting stock of public debt has led to a burgeoning of interest payments on the Government's revenue account, which has exacerbated the problem of continuing revenue account deficits and preempted an increasing fraction of Government expenditure for meeting such debt service obligations.

9.5. The resolution of the Government's fiscal problems will require arduous efforts and difficult decisions on the expenditure front. Viewed realistically, solutions cannot be expected overnight. On the other hand, the difficult choices

of setting expenditure priorities cannot be postponed if inflationary pressures are to be held in check. On the whole, past experience indicates that social returns from expenditure on maintenance and on expeditious completion of on-going projects and programmes tend to be higher than from entirely new schemes. At the same time, it must be appreciated that some on-going schemes have outlived their utility and need to be terminated so that the money saved can be allocated for higher priority uses. One way of strengthening control over Government expenditure and setting effective expenditure priorities is to vigorously implement a sustained programme of zero-base expenditure budgeting. Such a system would entail in-depth assessment of the benefits and costs of all Governmental expenditure instead of the more typical practice of focussing scrutiny only on annual increments. This approach would also include serious scrutiny of the expanding bill for Government subsidies, which could well be reduced through more careful targeting and administration to ensure that leakages are checked and benefits accrue only to those who really need them.

9.6. On the revenue side, the basic approach must be to increase the yield from direct taxes. Large scale tax evasion continues to be a serious problem. This generates black money, weakens revenue buoyancy, undermines fiscal equity and has other far-reaching adverse consequences for the economy. As far as the tax system is concerned, experience suggests that the best approach to curbing tax evasion is to follow a strategy which combines reasonable tax rates with simplicity in tax laws, regulations and procedures, coupled with effective tax administration and strong provisions aimed at deterring tax evasion.

9.7. The motive for evading taxes is not the only underlying cause of black money generation. There are other powerful and diverse factors, including excessive and detailed administrative controls over economic activity as also leakages from public expenditure programmes. Large amounts of black money are believed to stem from the widespread and diverse scarcity premia spawned by comprehensive and detailed physical controls over major areas of economic activity. Such scarcity premia can be reduced by systematically shifting the approach to public policy intervention from ad hoc, discretionary, physical controls to general, non-discretionary, fiscal and financial instruments. To curb black money arising from large scale leakages from public expenditure, it is necessary to strengthen accountability and audit of public expenditure at all levels of Government.

9.8. While it is necessary to improve the yield from direct taxes, substantial reliance on indirect tax revenues is unavoidable in our economy for the foreseeable future. This being the case it is essential to rationalize and simplify the system of indirect taxes as much as possible with a view to ensuring that they promote equity and economic efficiency.

9.9. While tighter control over Government expenditure and increased buoyancy in tax revenues will greatly assist the resolution of the underlying problem of high fiscal deficits and falling ratios of public savings, a major effort is also required to improve the physical and financial performance of public sector undertakings. There has been some improvement in central public enterprises over the past few years. The proportion of plan outlay financed from internal resources has gone up from 27.5 per cent in 1980-81 to 42.3 per cent in 1989-90 (BE). However, we are still short of target. According to the Seventh Plan, Central Government public enterprises were expected to contribute 52 per cent of the financing of the Central Plan. On the basis of Revised Estimates for 1988-89 and Budget Estimates for 1989-90, it appears that their actual contribution was significantly lower at 37 per cent over the Seventh Plan period. Our nation has invested over Rs. 70,000 crores in these enterprises. To ensure the requisite momentum of public savings, investment and growth during the Eighth Plan, it is vital to increase the generation of financial surpluses by these undertakings. It is especially desirable to ensure that the growth of such surpluses comes from higher productivity and costs saving rather than from passing on the costs of inefficiency to captive buyers through higher administered prices.

9.10 The improvement in public savings and reduction in fiscal deficits sought by the policies described above, will also ease the pressures on the country's balance of payments. As anticipated in the Economic Surveys of the past several years, the balance of payments has come under severe pressure in recent years. Aside from the succession of high fiscal deficits, the principal reasons for this has included the slow growth of export volume in the Sixth Plan period; the plateauing of indigenous oil production in the face of continually rising domestic demand for petroleum products in the Seventh Plan period; the absence of significant growth in remittances from Indians working abroad in recent years; the cumulation of debt service payments stemming from earlier borrowings from diverse sources; and the hardening of terms of external capital flows to India.

9.11 In 1989-90 export growth was strong and spread across many commodity groups. The policy changes made in recent years to improve the relative profitability of exports seem to be having some effect. Because of this and, perhaps, the pressure of domestic competition, many segments of Indian industry that catered largely to the domestic market are turning to exports. On the import front, in 1989-90, the pressure came largely from a rising import bill for bulk commodities, particularly petroleum products.

9.12 Despite the strong performance of exports in the last three or four years, the pressures on the balance of payments are expected to continue over the duration of the Eighth Plan. Viability of the balance of payments in the medium-term will be critically dependent on rapid and sustained growth in export volumes and values. The policies necessary to assure such performance must command the highest priority. At the same time it is necessary to tailor tax and trade policies in a manner which discourages import-intensive industrialisation and fosters economically efficient import substitution. In a nutshell, the necessary adjustments in the balance of payments must be achieved without sacrificing the basic objectives of equitable and self-reliant economic development. The nation can ill-afford the alternatives of slower economic development or excessive reliance on foreign debt.

9.13 At the beginning of the current financial year India's medium and long-term external debt on government and non-government account, external commercial borrowing and the IMF amounted to almost Rs. 69,000 crores. While the ratio of external liabilities (inclusive of non-resident deposits) to GDP at around 21 per cent remains modest in comparison with those observed for highly indebted developing countries, India's debt service (excluding non-resident deposits) accounted for about 23 per cent of current receipts in 1988-89 and posed substantial pressure on the balance of payments. Clearly, future recourse of foreign borrowing for augmenting domestic savings must be carefully linked to the performance achieved on the current account of the balance of payments.

9.14 The management of India's external trade and payments in the Eighth Plan period must contend with major new developments in the international economy. In the near term future the growth of world output and trade is expected to slow. The global trading environment is also fraught with uncertainties arising from the final stages of negotiations on the Uruguay Round of multinational trade negotiations, the major steps towards economic integration to be taken by 1992 by the European Community, the likely restructuring of the economies of Eastern Europe and the growing importance of East Asian economies. Many of these developments will also have significant repercussions on the existing systems of international payments and finance. All these changes and uncertainties pose important challenges and opportunities for the Indian economy. To deal with them successfully, the economy must be competitive, flexible and responsive to rapid technological change.

9.15 The Eighth Five Year Plan is expected to accord high priority to the rapid expansion of productive employment. This is consistent with the fundamental challenge of poverty alleviation that confronts Indian economic planning and policy. Available evidence suggests that the acceleration of growth in the eighties has not been matched by a corresponding acceleration in

employment. Policies and programmes must be devised and effectively implemented to speed the growth of productive employment opportunities in all sectors of the economy.

9.16 Broad-based agricultural development is fundamental to the central task of poverty alleviation in our programme of planned economic development. Sustained agricultural development will require continuing attention to appropriate price incentives and growth in and effective utilisation of agricultural inputs such as irrigation, fertilizers, seeds, pesticides, extension services and credit. Efforts must also be made to overcome the disparities in agricultural yields which persist across different regions of our country. Particular attention must be devoted to improving yields in the Eastern region, which has tended to lag behind in agricultural development. Thus far, most of the technological breakthrough with regard to high yielding varieties and other advances have been confined to wheat and rice. The agricultural research and extension system must be geared to vigorously pursuing technological advances in other crops such as oilseeds and coarse cereals. This is particularly important since these crops are frequently grown by the poorest farmers and sometimes in semi-arid zones. The fruits of research and extension in these crops and areas can play a profound role in alleviating the worst forms of rural poverty in our country.

9.17 The experience from the more agriculturally advanced regions of the country suggests that sustained and broad-based agricultural development is essential for generating the increase in farm incomes, which is necessary for sustaining a growing demand for a wide range of non-agricultural products and services. The expansion of such demand, in turn, provides the basis for the growth of off-farm employment opportunities in rural areas and thus relieves the pressure on land and other agricultural resources for providing gainful employment.

9.18 During the eighties shortages and price pressures have been felt more often for non-cereal food items like sugar and edible oils than for rice or wheat. This reflects, at least partly, a change in the pattern of demand brought about by rising per capita incomes. With regard to exports the potential lies in plantation, marine and horticultural products where the gains from value-addition could be substantial. Subsidiary agricultural activities can also provide higher incomes for small farmers and landless labourers. For all of these reasons agricultural planning must pay particular attention to exports, value-addition and diversification.

9.19 The industrial sector must also play a major role in generating employment opportunities. Export growth, infrastructure development and the consumer demands generated by an employment oriented growth strategy can provide the demand stimulus for maintaining or even enhancing the momentum of industrial growth. On the supply side the potential for growth is based on the diversification of the industrial structure, the widening of the entrepreneurial base, the broadening of technological capabilities and the deepening of financial system that has taken place over the four decades of planning. To fulfil this potential effectively industry must not only grow fast; it must also be economically efficient, competitive, flexible and able to make the best use of available tehnological advances. The growth of employment opportunities has to be coupled with technical and economic efficiency. Otherwise, the growth cannot be sustained.

9.20 The framing of trade and tax policies should also accord high priority to encouraging a more labour-intensive pattern of industrial development, whether the products are for exports or domestic sales. There is reason to believe that these policies have, in the past, sometimes encouraged capital-intensive industrial development serving a protected home market at high costs. This is undersirable on grounds of both economic efficiency and equity. Labour is the most abundant resource in our economy and the only source of remunerative income for the poorest segments of our society. Therefore, it is essential to design fiscal, financial and trade policies which promote the rapid growth of productive employment and discourage inefficient forms of capital-intensive industrialisation.

9.21 A labour-intensive pattern of industrial and agricultural development, which is desirable

for both equity and efficiency reasons, will also require substantial expansion of infrastructure capacities in areas such as energy, transportation, irrigation and telecommunication. Such investments are especially necessary because much of the improvement in infrastructure output observed in the Seventh Plan period came from utilisation of existing capacities, thus limiting the scope for further gains from use of unutilized capacities. Because of scale and technological factors, some of these investments will necessarily be capital intensive. It is, therefore, especially important to ensure that the scarce capital invested in these infrastructure facilities is fully and effeciently utilised. Otherwise, the loss to the economy from any under-utilisation of these capacities can be very substantial.

9.22 The next year is the first year of the Eighth Plan. The critical tasks at this stage are to design an employment oriented development strategy that combines growth with equity, a trade policy that aims at a rapid export growth so as to reduce the external payments deficit and a fiscal policy that increases savings and contains inflationary pressures.

[1] Relate to the calendar year 1950.

[2] Relates to 1951-52.

[3] Quick Estimates.

* Includes Beds in Hospitals, Dispensaries, P.H.C's Clinics, Sanitories, etc.

RE : Revised Estimate.

PR : Partially revised.

..–'Not available'.

P–Provisional.

@–Excludes white and wuyan factory.

(b) Relates to the year 1981-86.

(c) Relates to the year 1986-91.

NOTES: (i) The annual population estimates given at item I(i) are based on Medium Projection of the Expert Committee on Population Projections from 1982 onwards.

(ii) Figures relating to foreign exchange reserves after the year 1965-66 are not comparable with those of the earlier years due to devaluation of the rupee in June 1966.

* Provisional.

** Net availability = Col. (3+4−5).

NOTES: 1. Mid year Population figures from 1971 to 1980 are based on the latest projections made by the office of the Registrar General of India. Estimates from 1981 onwards are based on the Expert Committee's population projections as approved by the Planning Commission.

2. Production figures relate to agricultural year July—June: 1951 figures correspond to the production of 1950-51 and so on for subsequent years.

3. Net production has been taken as 87.5% of the gross production, 12.5% being provided for feed, seed requirements and wastage.

4. Figures in respect of change in stocks with traders and producers are not known. The estimates of net availability above should not, therefore, be taken to be strictly equivalent to consumption.

5. The figures of net imports from 1981 onwards are based on imports and exports on Government of India account only.

P — Provisional.

N.A. — Not Available.

@ Include groundnut oil, rapeseed and mustard oil, coconut oil, seasamum oil, nigerseed oil, Safflower oil, Soyabean oil and Sunflower oil but exclude oils used for manufacture of Vanaspati.

@@ Data relate to Calendar year: figures for 1955 are shown against 1955-56 and so on. Figures for Blended/Mixed Fabrics were not separately available prior to 1969. These have been included under man-made fibre fabrics.

* Figures upto 1971-72 relate to coffee-season and thereafter on calendar year basis. The figures for 1972-73 correspond to 1973 and so on.

** From 1967-68 Sugar Season is October—September.

£ Relates to 1956.

+ Relates to actual realeases for domestic consumption.

(a) Includes plan expenditure of Railways, P&T and Non-departmental commercial undertakings financed out of their internal and extra-budgetary resources, including market borrowings and term loans from financial institutions to State Government public enterprises. Also includes developmental loans given by the Central and State Governments to non-developmental undertakings, local bodies and other parties. However, it excludes a notional amount of Rs. 45 crores in 1980-81, Rs. 2 crores in 1982-83, Rs. 17 crores in 1983-84, Rs. 461 crores in 1984-85, and Rs. 97 crores in 1985-86 on account of conversion of loan capital given to non-departmental commercial undertakings into equity capital.

(b) Includes general administration, pensions and ex-gratia payments to former rulers, famine relief (only non-plan portion), subsidies on food and controlled cloth, grants and loans to foreign countries and loans for non-developmental purposes to other parties, but excludes contingency fund transactions. It also excludes notional transactions in respect of subscriptions to International Monetary Fund of Rs. 559 crores in 1980-81, Rs. 636 crores in 1983-84, Rs. 368 crores in 1984-85, Rs. 520 crores in 1985-86, Rs. 1134 crores in 1986-87, Rs. 1029 crores in 1987-88, Rs. 147 crores in 1988-89 (B.E.), Rs. 775 crores in 1988-89 (R.E.) and Rs. 650 crores in 1989-90 (B.E).

(c) Includes internal resources of Railways, Posts and Telegraphs and non-departmental commercial undertakings for the plan. Because of the change in the concept from the Sixth Plan period, the data for 1980-81 onwards are not comparable with those of the earlier years.

(d) Includes market borrowings of State Government public enterprises.

(e) Excludes the notional receipts on account of repayments of loans by non-departmental commercial undertakings due to their conversion into equity capital. It also excludes notional transactions in respect of International Monetary Fund and contingency fund transactions.

G. Foreign banks . . .	130	136	136	136	136	136	6	. .	. .
H. Non-scheduled banks**	217	37	39	39	39	39	—178**	. .	. .
Total of all commercial banks	8252	51385	53265	53840	55410	57698	49446	32089	64.9

* Rural Centres—Places with a population upto 9,999.

** The reduction in the number of offices of the non-scheduled banks is due to:—

(i) The inclusion of some of them in the second schedule to the Reserve Bank of India Act, 1934; and

(ii) taking over certain non-scheduled banks by the State Bank of India and other scheduled banks.

NOTE:- The increase in the number of offices in Rural Centres represents the difference between the number of offices at such centres as on 30th June, 1969 (classified on the basis of 1961 census) and the number of offices at Rural Centres as on 30th June, 1988 (classified on the basis of 1981 census).

* Gold is valued at Rs. 53.58 per 10 grams upto May 1966 and at Rs. 84.39 per 10 grams thereafter.

** Provisional

*** Include (a) Foreign assets of the Reserve Bank of India and (b) Government balances held abroad upto 1955-56.

@ Excludes Rs. 544.53 crores drawn under Trust Fund.

@@ Drawals under Extended Fund Facility (EFF).

$ Includes voluntary repurchases of rupees (Rs. 19.9 crores) and sales of rupees by the IMF under its General Resources Account (Rs. 35.2 crores).

$$ Sales of rupees by the Fund.

\# Additionally, SDRs 59.9 million in May 1979, SDRs 7.3 million in July 1980 and SDRs 34.5 million in March 1982 were used for voluntary repurchases of rupees.

(A) SDRs 66.50 million were used for repurchases of drawals under Compensatory Financing Facility (CFF).

(B) SDRs 33.25 million and Rs. 117.85 crores in foreign currencies were used for repurchases of drawals under CFF.

(C) SDRs 66.5 million and SDRs 131.25 million were used for repurchases of drawals under CFF and EFF, respectively.

(D) SDRs 431.25 million were used for repurchases of drawals under EFF.

(E) SDRs 704.17 million were used for repurchases of drawals under EFF.

(F) SDRs 804.18 million were used for repurchases of drawals under EFF.

(G) SDRs 593.75 million were used for repurchases of drawals under EFF during April-January 1989-90.

Note: 1. Figures after 1965-66 are not comparable with those of the earlier years due to devaluation of the Rupee in June 1966.

2 The outstanding repurchase obligations are calculated at the ruling rates of exchange.

NOTES:

1. Figures given in this table for some items of capital account do not correspond to the similar statistics published by the Reserve Bank of India. The difference is due to the adjustments made in respect of loan drawings under extertnal assistance and repayment thereof.
2. The rupee equivalent of all foreign currency transactions has been arrived at by applying the par/central rates upto June 1972 and thereafter on the basis of the average of RBI's spot buying and selling rate for sterling and the monthly averages of cross-rates based on London market for non-sterling currencies.
3. Grants received are covered under item 5(a).
4. U.S. Embassy expenditures out of PL-480 counterpart funds are included under item 5(a).

5. Receipts by way of 'loans' by the private sector including loans out of Cooley Fund and amortisation payments thereof are excluded from items 7(a) (i) and 7(a) (ii) and included under item 10 and 7(c) respectively.

6. Receipts by way of 'loans' received by the official sector under the External Assistance Programmes including rupee loans out of PL-480 Title-I and corresponding amortisation payments are excluded from item 7(b)(i) and 7(b)(ii) and are shown under item 10 and 7(c) respectively.

7. The movements in PL-480 rupee balances are included under item 7(b).

8. Since October-December 1986, data on credits under private long term capital and official loans include borrowings made to prepay earlier loans; debits against private long-term capital and official amortisation cover such prepayments.

** Includes loans of Rs. 544.5 crores from the IMF Trust Fund.

@ Includes rupee loans under PL-480 Title-I.

Figures from 1980-81 onwards are preliminary.

NOTES: 1. Figures of authorisation from 1974-75 onwards have been arrived at by applying the annual average exchange rate of the rupee with individual donor currencies. Figures of utilisation for 1974-75 are at average exchange rate for the respective month, and for subsequent years at current rates applicable to the dates of transactions.

2. Loan amounts are net of surrenders, de-obligations and cancellations, etc. In case of PL-480, amounts are net of lapsed agreement.

3. Figures for utilisation are inclusive of suppliers' credits, and non-government loans upto 1977-78 which may not be fully reflected in authorisation figures. Subsequent data are exclusive of suppliers' credits, but inclusive of non-government loans.

4. Constituent items may not add up to totals because of rounding.

Bill No. 37 of 1990

THE FINANCE BILL, 1990

A

BILL

to give effect to the financial proposals of the Central Government for the financial year 1990-91.

BE it enacted by Parliament in the Forty-first Year of the Republic of India as follows:—

CHAPTER I

PRELIMINARY

1. *(1)* This Act may be called the Finance Act, 1990. **Short title and commencement.**

(2) Save as otherwise provided in this Act, sections 2 to 59 shall be deemed to have come into force on the 1st day of April, 1990.

CHAPTER II

RATES OF INCOME-TAX

2. *(1)* Subject to the provisions of sub-sections *(2)* and *(3)*, for the assessment year commencing on the 1st day of April, 1990, income-tax shall be charged at the rates specified in Part I of the First Schedule and shall be increased,— Income-tax.

(a) in the cases to which Paragraphs A, B, C and D of that Part apply, by a surcharge for purposes of the Union; and

(b) in the cases to which Paragraph E of that Part applies, by a surcharge,

calculated in each case in the manner provided therein.

(2) In the cases to which Sub-Paragraph I or Sub-Paragraph II of Paragraph A of Part I of the First Schedule applies, where the assessee has, in the previous year, any net agricultural income exceeding six hundred rupees, in addition to total income, and the total income exceeds,—

(i) in a case to which the said Sub-Paragraph I applies, eighteen thousand rupees, and

(ii) in a case to which the said Sub-Paragraph II applies, twelve thousand rupees,

then,—

(a) the net agricultural income shall be taken into account, in the manner provided in clause *(b)* [that is to say, as if the net agricultural income were comprised in the total income after,—

(i) in a case to which the said Sub-Paragraph I applies, the first eighteen thousand rupees, and

(ii) in a case to which the said Sub-Paragraph II applies, the first twelve thousand rupees,

of the total income but without being liable to tax], only for the purpose of charging income-tax in respect of the total income; and

(b) the income-tax chargeable shall be calculated as follows:—

(i) the total income and the net agricultural income shall be aggregated and the amount of income-tax shall be determined in respect of the aggregate income at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if such aggregate income were the total income;

(ii) the net agricultural income shall be increased,—

(A) in a case to which the said Sub-Paragraph I applies, by a sum of eighteen thousand rupees; and

(B) in a case to which the said Sub-Paragraph II applies, by a sum of twelve thousand rupees,

and the amount of income-tax shall be determined in respect of the net agricultural income as so increased at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if the net agricultural income as so increased were the total income;

(iii) the amount of income-tax determined in accordance with sub-clause *(i)* shall be reduced by the amount of income-tax determined in accordance with sub-clause *(ii)* and the sum so arrived at shall be the income-tax in respect of the total income:

Provided that the amount of income-tax so arrived at shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax and the sum so arrived at shall be the income-tax in respect of the total income.

(3) In cases to which the provisions of Chapter XII or Chapter XII-A or sub-section *(1A)* of section 161 or section 164 or section 164A or section 167B of the Income-tax Act, 1961 (hereinafter referred to as the Income-tax Act) apply, the tax chargeable shall be determined as provided in that Chapter or that section, and with reference to the rates imposed by sub-section *(1)* or the rates as specified in that Chapter or section, as the case may be: 43 of 1961.

Provided that in respect of any income chargeable to tax under section 115B or section 115BB of the Income-tax Act, the income-tax computed under section 115B or section 115BB shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

(4) In cases in which tax has to be deducted under sections 193, 194, 194A, 194B, 194BB, 194D and 195 of the Income-tax Act at the rates in force, the deduction shall be made at the rates specified in Part II of the First Schedule and shall be increased,—

(a) in the cases to which the provisions of sub-item *(a)* of item 1 of that Part apply, by a surcharge for purposes of the Union; and

(b) in the cases to which the provisions of sub-item *(a)* of item 2 of that Part apply, by a surcharge,

calculated in each case in the manner provided therein.

(5) In cases in which tax has to be deducted under section 194C of the Income-tax Act, the deduction shall be made at the rates specified in that section and shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such deduction.

(6) In cases in which tax has to be collected under section 206C of the Income-tax Act, the collection shall be made at the rate specified in that section and shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such collection.

(7) Subject to the provisions of sub-section *(8)*, in cases in which income-tax has to be calculated under the first proviso to sub-section *(5)* of section 132 of the Income-tax Act or charged under sub-section *(4)* of section 172 or sub-section *(2)* of section 174 or section 175 or sub-section *(2)* of section 176 of the said Act or deducted under section 192 of the said Act from income chargeable under the head "Salaries" or in which the "advance tax" payable under Chapter XVII-C of the said Act has to be computed, at the rate or rates in force, such income-tax or, as the case may be, "advance tax" shall be so calculated, charged, deducted or computed at the rate or rates specified in Part III of the First Schedule and such tax as reduced by the rebate of income-tax calculated under Chapter VIII-A shall be increased,—

(a) in the cases to which Paragraphs A, B, C and D of that Part apply, by a surcharge for purposes of the Union; and

(b) in the cases to which Paragraph E of that Part applies, by a surcharge,

calculated in each case in the manner provided therein:

Provided that in cases to which the provisions of Chapter XII or Chapter XII-A or sub-section *(1A)* of section 161 or section 164 or section 164A or section 167B of the Income-tax Act apply, "advance tax" shall be computed with reference to the rates imposed by this sub-section or the rates as specified in that Chapter or section, as the case may be:

Provided further that in respect of any income chargeable to tax under section 115B of the Income-tax Act, the "advance tax" computed under the first proviso shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such "advance tax".

(8) In the cases to which Sub-Paragraph I or Sub-Paragraph II of Paragraph A of Part III of the First Schedule applies, where the assessee has, in the previous year or, if by virtue of any provision of the Income-tax Act, income-tax is to be charged in respect of the income of a period other than the previous year, in such other period, any net agricultural income exceeding six hundred rupees, in addition to total income and the total income exceeds,—

(i) in a case to which the said Sub-Paragraph I applies, twenty-two thousand rupees, and

(ii) in a case to which the said Sub-Paragraph II applies, twelve thousand rupees,

then, in calculating income-tax under the first proviso to sub-section *(5)* of section 132 of the Income-tax Act or in charging income-tax under sub-section *(2)* of section 174 or section 175 or sub-section *(2)* of section 176 of the said Act or in computing the "advance tax" payable under Chapter XVII-C of the said Act, at the rate or rates in force,—

(a) the net agricultural income shall be taken into account, in the manner provided in clause *(b)* [that is to say, as if the net agricultural income were comprised in the total income after,—

(i) in a case to which the said Sub-Paragraph I applies, the first twenty-two thousand rupees, and

(ii) in a case to which the said Sub-Paragraph II applies, the first twelve thousand rupees,

of the total income but without being liable to tax], only for the purpose of calculating, charging or computing such income-tax or, as the case may be, "advance tax" in respect of the total income; and

(b) such income-tax or, as the case may be, "advance tax" shall be so calculated, charged or computed as follows:—

(i) the total income and the net agricultural income shall be aggregated and the amount of income-tax or "advance tax" shall be determined in respect of the aggregate income at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if such aggregate income were the total income;

(ii) the net agricultural income shall be increased,—

(A) in a case to which the said Sub-Paragraph I applies, by a sum of twenty- two thousand rupees; and

(B) in a case to which the said Sub-Paragraph II applies, by a sum of twelve thousand rupees,

and the amount of income-tax or "advance tax" shall be determined in respect of the net agricultural income as so increased at the rates specified in the said Sub-Paragraph I or, as the case may be, the said Sub-Paragraph II as if the net agricultural income as so increased were the total income;

(iii) the amount of income-tax or "advance tax" determined in accordance with sub-clause *(i)* shall be reduced by the amount of income-tax or, as the case may be, "advance tax" determined in accordance with sub-clause *(ii)* and the sum so arrived at shall be the income-tax or, as the case may be, "advance tax" in respect of the total income:

Provided that the amount of income-tax or "advance tax" so arrived at shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax or, as the case may be, "advance tax" and the sum so arrived at shall be the income-tax or, as the case may be, "advance tax" in respect of the total income.

(9) For the purposes of this section and the First Schedule,—

(a) "company in which the public are substantially interested" means a company within the meaning of clause *(18)* of section 2 of the Income-tax Act, and includes a subsidiary of such company if the whole of the share capital of such subsidiary company has been held by the parent company or by its nominees throughout the previous year;

(b) "domestic company" means an Indian company, or any other company which, in respect of its income liable to income-tax under the Income-tax Act for the assessment year commencing on the 1st day of April, 1990, has made the prescribed arrangements for the declaration and payment within India of the dividends (including dividends on preference shares) payable out of such income in accordance with the provisions of section 194 of the Act;

(c) "insurance commission" means any remuneration or reward, whether by way of commission or otherwise, for soliciting or procuring insurance business (including business relating to the continuance, renewal or revival of policies of insurance);

(d) "investment company" means a company whose gross total income (as defined in section 80B of the Income-tax Act) consists mainly of income which is chargeable under the heads "Income from house property", "Capital gains" and "Income from other sources" or of income by way of interest on securities;

(e) "net agricultural income", in relation to a person, means the total amount of agricultural income, from whatever source derived, of that person computed in accordance with the rules contained in Part IV of the First Schedule;

(f) "tax-free security" means any security of the Central Government issued or declared to be income-tax free, or any security of a State Government issued income-tax free, the income-tax whereon is payable by the State Government;

(g) "trading company" means a company whose business consists mainly in dealing in goods or merchandise manufactured, produced or processed by a person other than that company and whose income attributable to such business included in its gross total income (as defined in section 80B of the Income-tax Act) is not less than fifty-one per cent. of the amount of such gross total income;

(h) all other words and expressions used in this section or in the First Schedule but not defined in this sub-section and defined in the Income-tax Act shall have the meanings respectively assigned to them in that Act.

CHAPTER III

DIRECT TAXES

Income-tax

Amendment of section 2.

3. In section 2 of the Income-tax Act,—

(i) in clause *(24)*,—

(a) after sub-clause *(v)*, the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1962, namely:—

"*(va)* any sum chargeable to income-tax under clause *(iiia)* of section 28;";

(b) for the existing clause *(va)*, the following clauses shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1967, namely:—

" *(vb)* any sum chargeable to income-tax under clause *(iiib)* of section 28;

(vc) the value of any benefit or perquisite taxable under clause *(iv)* of section 28;";

(c) after sub-clause *(vc)*, the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1972, namely:—

"*(vd)* any sum chargeable to income-tax under clause *(iiic)* of section 28;";

(ii) in clause *(40)*, for the word and figures "section 143", the words, brackets and figures "sub-section *(3)* of section 143" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989;

(iii) clause *(42C)* [as inserted by clause *(ii)* of section 2 of the Direct Tax Laws (Second Amendment) Act, 1989] shall be omitted. 36 of 1989.

Amendment of section 10.

4. In section 10 of the Income-tax Act, in clause *(15)*,—

(i) in sub-clause *(iv)*, in item *(i)*, after the words "State Government", the words "or a public sector company" shall be inserted with effect from the 1st day of April, 1991;

(ii) after sub-clause *(iv)*, the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"*(v)* interest on securities held by the Registrar, Supreme Court, in Reserve Bank's SGL Account No. SL/DH 048;".

Amendment of section 28.

5. In section 28 of the Income-tax Act,—

(a) after clause *(iii)*, the following clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1962, namely:—

"*(iiia)* profits on sale of a licence granted under the Imports (Control) Order, 1955, made under the Imports and Exports (Control) Act, 1947;"; 18 of 1947.

(b) after clause *(iiia)*, the following clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1967, namely:—

"*(iiib)* cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India;";

(c) after clause *(iiib)*, the following clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1972, namely:—

"*(iiic)* any duty of customs or excise re-paid or re-payable as drawback to any person against exports under the Customs and Central Excise Duties Drawback Rules, 1971;".

Amendment of section 32A.

6. In section 32A of the Income-tax Act,—

(i) in sub-section *(4)*, in clause *(ii)*, in the opening portion, for the words "the previous year in respect of which the deduction is to be allowed", the words, brackets and figure "any previous year in respect of which the deduction is to be allowed under sub-section *(3)* or any earlier previous year (being a previous year not earlier than the year in which the ship or aircraft was acquired or the machinery or plant was installed or the ship, aircraft, machinery or plant was first put to use)" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1976;

(ii) sub-section *(9)* shall be omitted and shall be deemed to have been omitted with effect from the 1st day of April, 1976.

Amendment of section 32AB.

7. In section 32AB of the Income-tax Act, in sub-section *(1)*, after the first proviso, the following proviso shall be inserted, namely:—

"Provided further that no such deduction shall be allowed in relation to the assessment year

commencing on the 1st day of April, 1991, or any subsequent assessment year.".

8. In section 33A of the Income-tax Act, in sub-section *(1)*, for the proviso, the following provisos shall be substituted, namely:— Amendment of section 33A.

"Provided that no deduction under clause *(i)* shall be allowed unless the planting has commenced after the 31st day of March, 1965, and been completed before the 1st day of April, 1990:

Provided further that no deduction shall be allowed under clause *(ii)* unless the planting has commenced after the 31st day of March, 1965, and been completed before the 1st day of April, 1970.".

9. In section 34 of the Income-tax Act, in sub-section *(3)*, in clause *(a)*,— Amendment of section 34.

(i) for the words "the relevant previous year", the words, brackets and figure "any previous year in respect of which the deduction is to be allowed under sub-section *(2)* of that section or any earlier previous year (being a previous year not earlier than the year in which the ship was acquired or the machinery or plant was installed or the ship, machinery or plant was first put to use)" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1962;

(ii) the *Explanation* shall be omitted and shall be deemed to have been omitted with effect from the 1st day of April, 1962.

10. In section 35CCB of the Income-tax Act, with effect from the 1st day of April, 1991,— Amendment of section 35CCB.

(i) for sub-section *(1)*, the following sub-section shall be substituted, namely:—

"*(1)* Where an assessee incurs any expenditure by way of payment of any sum—

(a) to an association or institution, which has as its object the undertaking of any programme of conservation of natural resources or of afforestation, to be used for carrying out any programme of conservation of natural resources or afforestation approved by the prescribed authority; or

(b) to such fund for afforestation as may be notified by the Central Government,

the assessee shall, subject to the provisions of sub-section *(2)*, be allowed a deduction of the amount of such expenditure incurred during the previous year.";

(ii) in sub-section *(2)*, in the opening portion, after the words "deduction under", the words, brackets and letter "clause *(a)* of" shall be inserted.

11. In section 43B of the Income-tax Act, with effect from the 1st day of April, 1991,— Amendment of section 43B.

(a) in clause *(d)*, after the words "any public financial institution", the words "or a State financial corporation or a State industrial investment corporation" shall be inserted;

(b) for *Explanation* 4, the following *Explanation* shall be substituted, namely:—

'*Explanation* 4.—For the purposes of this section,—

(a) "public financial institution" shall have the meaning assigned to it in section 4A of the Companies Act, 1956; 1 of 1956.

(b) "State financial corporation" means a financial corporation established under section 3 or section 3A or an institution notified under section 46 of the State Financial Corporations Act, 1951; 63 of 1951.

(c) "State industrial investment corporation" means a Government company within the meaning of section 617 of the Companies Act, 1956, engaged in the business of providing long-term finance for industrial projects and approved by the Central Government under clause *(viii)* of sub-section *(1)* of section 36.'. 1 of 1956.

12. In section 44AC of the Income-tax Act, with effect from the 1st day of April, 1991,— Amendment of section 44AC.

(a) in sub-section *(1)*, in clause *(a)*, the following *Explanation* shall be inserted at the end, namely:—

'*Explanation*.—For the purposes of this clause, "purchase price" means any amount (by whatever name called) paid or payable by the buyer to obtain the goods referred to in this clause, but shall not include the amount paid or payable by him towards the bid money in an auction, or, as the case may be, the highest accepted offer in case of tender or any other mode;';

(b) in the *Explanation*, after the word "firm", the words "or co-operative society" shall be inserted.

13. In section 45 of the Income-tax Act, after sub-section *(5)* and the *Explanation* thereto, the following sub-section shall be inserted with effect from the 1st day of April, 1991, namely:— Amendment of section 45.

'*(6)* Notwithstanding anything contained in sub-section *(1)*, the difference between the repurchase price of the units referred to in sub-section *(2)* of section 80CCB and the capital value of such units shall be deemed to be the capital gains arising to the assessee in the previous year in which such repurchase takes place or the plan referred to in that section is terminated and shall be taxed accordingly.

Explanation.—For the purposes of this sub-section, "capital value of such units" means any amount invested by the assessee in the units referred to in sub-section *(2)* of section 80CCB.'.

Amendment of section 80CCA.

14. In section 80CCA of the Income-tax Act, with effect from the 1st day of April, 1991,—

(a) in sub-section *(1),* for the proviso, the following proviso shall be substituted, namely:—

'Provided that in relation to—

(a) the assessment years commencing on the 1st day of April, 1989 and the 1st day of April, 1990, this sub-section shall have effect as if for the words "twenty thousand rupees", the words "thirty thousand rupees" had been substituted;

(b) the assessment year commencing on the 1st day of April, 1991 and subsequent assessment years, this sub-section shall have effect as if for the words "twenty thousand rupees", the words "forty thousand rupees" had been substituted.';

(b) after sub-section *(2),* and before *Explanation* I, the following sub-section shall be inserted, namely:—

"*(3)* Notwithstanding anything contained in any other provision of this Act, where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved after a deduction has been allowed under sub-section *(1),* the provisions of sub-section *(2)* shall apply as if the person in receipt of income referred to therein is the assessee.".

Insertion of new section 80CCB.

15. After section 80CCA of the Income-tax Act, the following section shall be inserted with effect from the 1st day of April, 1991, namely:—

Deduction in respect of investment made under Equity Linked Savings Scheme.

"80CCB. *(1)* Where an assessee, being—

(a) an individual, or

(b) a Hindu undivided family, or

(c) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

has acquired in the previous year, out of his income chargeable to tax, units of any Mutual Fund specified under clause *(23D)* of section 10 or of the Unit Trust of India established under the Unit Trust of India Act, 1963, under any plan formulated in accordance with such scheme as the Central Government may, by notification in the Official Gazette, specify in this behalf (hereafter in this section referred to as the Equity Linked Savings Scheme), he shall, in accordance with, and subject to, the provisions of this section, be allowed a deduction in the computation of his total income of so much of the amount invested as does not exceed the amount of ten thousand rupees in the previous year.

52 of 1963.

(2) Where any amount invested by the assessee in the units issued under a plan formulated under the Equity Linked Savings Scheme in respect of which a deduction has been allowed under sub-section *(1)* is returned to him in whole or in part either by way of repurchase of such units or on the termination of the plan, by the Fund or the Trust, as the case may be, in any previous year, it shall be deemed to be the income of the assessee of that previous year and chargeable to tax accordingly.

(3) Notwithstanding anything contained in any other provision of this Act, where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved after a deduction has been allowed under sub-section *(1),* the provisions of sub-section *(2)* shall apply as if the person in receipt of income referred to therein is the assessee.".

Insertion of new section 80DD.

16. In the Income-tax Act, after section 80D, the following section shall be inserted with effect from the 1st day of April, 1991, namely:—

Deduction in respect of medical treatment, etc., of handicapped dependents.

"80DD. *(1)* Where an assessee who is resident in India, being an individual or a Hindu undivided family has, during the previous year, incurred any expenditure for the medical treatment (including nursing), training and rehabilitation of a person who—

(a) is a relative of the individual or, as the case may be, is a member of the Hindu undivided family and is not dependent on any person other than such individual or Hindu undivided family for his support or maintenance, and

(b) is suffering from a permanent physical disability (including blindness) or is subject to mental retardation, being a permanent physical disability or mental retardation specified in the rules made in this behalf by the Board, which is certified by a physician, a surgeon, an oculist or a psychiatrist, as the case may be, working in a Government hospital or a Government dispensary, and which has the effect of reducing considerably such person's capacity for normal work or engaging in a gainful employment or occupation,

the assessee shall, in accordance with and subject to the provisions of this section, be allowed a deduction of a sum of six thousand rupees as reduced by an amount equal to the income, if any, of such person (hereafter in this section referred to as handicapped dependent) in respect of the previous year:

Provided that where the assessee has, during the previous year, incurred expenditure on more than one handicapped dependent, the deduction shall be allowed only with reference to one such handicapped dependent as may be chosen by the assessee.

(2) Nothing contained in this section shall apply in a case, where the assessee's total income in respect of the previous year as computed before making any deduction under this section exceeds sixty thousand rupees.".

Amendment of section 80GGA.

17. In section 80GGA of the Income-tax Act, in sub-section *(2)*, with effect from the 1st day of April, 1991,—

(i) in clause *(c)*, after the words "natural resources", at both the places where they occur, the words "or of afforestation" shall be inserted;

(ii) after clause *(c)*, the following clause shall be inserted, namely:—

"*(cc)* any sum paid by the assessee in the previous year to such fund for afforestation as is notified by the Central Government under clause *(b)* of sub-section *(1)* of section 35CCB;".

Amendment of section 80HH.

18. In section 80HH of the Income-tax Act,—

(a) in sub-section *(2)*, in clause *(i)*, after the words, figures and letters "the 31st day of December, 1970", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted;

(b) in sub-section *(3)*, in clause *(i)*, after the words, figures and letters "the 31st day of December, 1970", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted.

Amendment of section 80HHA.

19. In section 80HHA of the Income-tax Act, in sub-section *(2)*, in clause *(i)*, after the words, figures and letters "the 30th day of September, 1977", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted.

Amendment of section 80HHC.

20. In section 80HHC of the Income-tax Act,—

(a) in sub-section *(2)*, in clause *(a)*,—

(i) for the word "receivable", the words "received in, or brought into, India" shall be substituted with effect from the 1st day of April, 1991;

(ii) after the word "assessee", the brackets and words "(other than the supporting manufacturer)" shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989;

(iii) after the words "convertible foreign exchange", the words and brackets ", within a period of six months from the end of the previous year or, where the Chief Commissioner or Commissioner is satisfied (for reasons to be recorded in writing) that the assessee is, for reasons beyond his control, unable to do so within the said period of six months, within such further period as the Chief Commissioner or Commissioner may allow in this behalf" shall be inserted with effect from the 1st day of April, 1991;

(b) for sub-section *(3)*, the following sub-section shall be substituted with effect from the 1st day of April, 1991, namely:—

'*(3)* For the purposes of sub-section *(1)*, profits derived from the export of goods or merchandise out of India shall be the amount which bears to the profits of the business (as computed under the head "Profits and gains of business or profession"), the same proportion as the export turnover bears to the total turnover of the business carried on by the assessee.';

(c) in the *Explanation*, with effect from the 1st day of April, 1991,—

(i) in clause *(b)*,—

(1) for the word "receivable", the words ", received in, or brought into, India" shall be substituted;

(2) after the words "foreign exchange", the words, brackets and figure "in accordance with clause *(a)* of sub-section *(2)*" shall be inserted;

(ii) after clause *(b)*, the following clause shall be inserted, namely:—

'*(bb)* "total turnover" shall not include any sum referred to in clauses *(iiia)*, *(iiib)* and *(iiic)* of section 28;';

(iii) in clause *(d)*, for the words "manufacturing goods", the words and brackets "manufacturing (including processing) goods" shall be substituted.

Amendment of section 80HHD.

21. In section 80HHD of the Income-tax Act, with effect from the 1st day of April, 1991,—

(a) in sub-section *(2)*, for the words "by the assessee in convertible foreign exchange", the words and brackets "in, or brought into, India by the assessee in convertible foreign exchange within a period of six months from the end of the previous year or, where the Chief Commissioner or Commissioner is satisfied (for reasons to be recorded in writing) that the assessee is, for reasons beyond his control, unable to do so within the said period of six months, within such further period as the Chief Commissioner or Commissioner may allow in this behalf" shall be substituted;

(b) for sub-section *(3)*, the following sub-section shall be substituted, namely:—

'*(3)* For the purposes of sub-section *(1)*, profits derived from services provided to foreign tourists shall be the amount which bears to the profits of the business (as computed under the head "Profits and gains of business or profession") the same proportion as the receipts specified in sub-section *(2)* bear to the total receipts of the business carried on by the assessee.'.

Amendment of section 80-I.

22. In section 80-I of the Income-tax Act,—

(a) after sub-section *(1)*, the following sub-section shall be inserted, namely:—

'*(1A)* Notwithstanding anything contained in sub-section *(1)*, in relation to any profits and gains derived by an assessee from—

(i) an industrial undertaking which begins to manufacture or produce articles or things or to operate its cold storage plant or plants; or

(ii) a ship which is first brought into use; or

(iii) the business of a hotel which starts functioning,

on or after the 1st day of April, 1990, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of the assessee, a deduction from such profits and gains of an amount equal to twenty-five per cent. thereof:

Provided that in the case of an assessee, being a company, the provisions of this sub-section shall have effect in relation to profits and gains derived from an industrial undertaking or a ship or the business of a hotel as if for the words "twenty-five per cent.", the words "thirty per cent." had been substituted.';

(b) in sub-section *(2)*, in clause *(iii)*, for the words "nine years", the words "fourteen years" shall be substituted;

(c) in sub-section *(3)*, in clause *(iii)*, for the words "nine years", the words "fourteen years" shall be substituted;

(d) in sub-section *(4)*, in clause *(iv)*, for the words, figures and letters "before the 1st day of April, 1990", the words, figures and letters "before the 1st day of April, 1995" shall be substituted;

(e) in sub-section *(5)*, after the second proviso, the following provisos shall be inserted, namely:—

'Provided that in the case of—

(i) an industrial undertaking which begins to manufacture or produce articles or things or to operate its cold storage plant or plants; or

(ii) a ship which is first brought into use; or

(iii) the business of a hotel which starts functioning,

on or after the 1st day of April, 1990, provisions of this sub-section shall have effect as if for the words "seven assessment years", the words "nine assessmant years" had been substituted:

Provided also that in the case of an assessee, being a co-operative society, deriving profits and gains from an industrial undertaking or a ship or a hotel referred to in the third proviso, the provisions of that proviso shall have effect as if for the words "nine assessment years", the words "eleven assessment years" had been substituted.'.

Amendment of section 80L.

23. In section 80L of the Income-tax Act, in sub-section *(1)*, the following *Explanation* shall be inserted at the end, namely:—

'*Explanation.*—For the purposes of this sub-section, the expression "security" means a Government security as defined in clause *(2)* of section 2 of the Public Debt Act, 1944.'.

18 of 1944.

Substitution of new section for section 80M.

24. For section 80M of the Income-tax Act, the following section shall be substituted, with effect from the 1st day of April, 1991, namely:—

Deduction in respect of certain inter-corporate dividends.

'80M. *(1)* Where the gross total income of a domestic company, in any previous year, includes any income by way of dividends from another domestic company, there shall, in accordance with and subject to the provisions of this section, be allowed, in computing the total income of such domestic company, a deduction of an amount equal to,—

(i) in the case of a scheduled bank or a public financial institution, sixty per cent. of the income by way of dividends from another domestic company;

(ii) in the case of other domestic companies, so much of the amount of income by way of dividends referred to in clause *(i)* as does not exceed the amount of dividend distributed by such domestic company on or before the due date.

(2) Where any deduction, in respect of the amount of dividend distributed by the domestic company, has been allowed under clause *(ii)* of sub-section *(1)* in any previous year, no deduction shall be allowed in respect of such amount in any other previous year.

(3) Where the dividend distributed is in respect of any period comprised in the previous year ending on the 31st day of March, 1990, no deduction shall be allowed in respect of such dividend.

Explanation.—For the purposes of this section, the expressions—

(i) "scheduled bank" means the State Bank of India constituted under the State Bank of India Act, 1955, a subsidiary bank as defined in the State Bank of India (Subsidiary Banks) Act, 1959, a corresponding new bank constituted under section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1970, or under section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1980, or any other bank included in the Second Schedule to the Reserve Bank of India Act, 1934 and which is a domestic company;

23 of 1955.
38 of 1959.
5 of 1970.
40 of 1980.
2 of 1934.

(ii) "public financial institution" shall have the meaning assigned to it in section 4A of the Companies Act, 1956;

1 of 1956.

(iii) "due date" means the date for furnishing the return of income under sub-section *(1)* of section 139.'.

Amendment of section 80R.

25. In section 80R of the Income-tax Act, with effect from the 1st day of April, 1991,—

(a) for the words "allowed a deduction from such remuneration of an amount equal to fifty per cent. thereof, in computing the total income of the individual:", the words and figures "allowed, in computing the total income of the individual, a deduction from such remuneration of an amount equal to,—

(i) fifty per cent. of the remuneration; or

(ii) seventy-five per cent. of such remuneration as is brought into India by, or on behalf of, the assessee in accordance with the Foreign Exchange Regulation Act, 1973, and any rules made thereunder,

46 of 1973.

whichever is higher." shall be substituted;

(b) the proviso shall be omitted.

Amendment of section 80RR.

26. In section 80RR of the Income-tax Act, for the words and figures "and such income is received in, or brought into, India by him or on his behalf in accordance with the Foreign Exchange Regulation Act, 1947, and any rules made thereunder, there shall be allowed a deduction from such income of an amount equal to twenty-five per cent. of the income so received or brought, in computing the total income of the individual", the words and figures "there shall be allowed, in computing the total income of the individual, a deduction from such income of an amount equal to,—

7 of 1947.

(i) fifty per cent. of the income; or

(ii) seventy-five per cent. of such income as is brought into India by, or on behalf of, the assessee in accordance with the Foreign Exchange Regulation Act, 1973 and any rules made thereunder,

46 of 1973.

whichever is higher" shall be substituted with effect from the 1st day of April, 1991.

Amendment of section 80RRA.

27. In section 80RRA of the Income-tax Act, in sub-section *(1)*, the proviso shall be omitted with effect from the 1st day of April, 1991.

Amendment of Chapter VIII.

28. In the Income-tax Act, in Chapter VIII, with effect from the 1st day of April, 1991,—

(a) for the heading, the following heading shall be substituted, namely:—

"REBATES AND RELIEFS";

(b) before section 89, the following sub-headings and sections shall be inserted, namely:—

'*A.— Rebate of income-tax*

Rebate to be allowed in computing income-tax.

87. *(1)* In computing the amount of income-tax on the total income of an assessee with which he is chargeable for any assessment year, there shall be allowed from the amount of income-tax (as computed before allowing the deductions under this Chapter), in accordance with and subject to the provisions of sections 88 and 88A, the deductions specified in those sections.

(2) The aggregate amount of the deductions under section 88 or section 88A shall not, in any case, exceed the amount of income-tax (as computed before allowing the deductions under this Chapter) on the total income of the assessee with which he is chargeable for any assessment year.

Rebate on life insurance premia, contribution to provident fund, etc.

88. *(1)* Subject to the provisions of this section, an assessee, being—

(a) an individual, or

(b) a Hindu undivided family, or

(c) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

shall be entitled to a deduction, from the amount of income-tax (as computed before allowing the deductions under this Chapter) on his total income with which he is chargeable for any assessment year, of an amount equal to twenty per cent. of the aggregate of the sums referred to in sub-section *(2)*.

(2) The sums referred to in sub-section *(1)* shall be any sums paid or deposited in the previous year by the assessee out of his income chargeable to tax—

(i) to effect or to keep in force an insurance on the life of persons specified in sub-section *(4)*;

(ii) to effect or to keep in force a contract for a deferred annuity, not being an annuity plan referred to in clause *(ii)* of sub-section *(1)* of section 80CCA, on the life of persons specified in sub-section *(4)*:

Provided that such contract does not contain a provision for the exercise by the insured of an option to receive a cash payment in lieu of the payment of the annuity;

(iii) by way of deduction from the salary payable by or on behalf of the Government to any individual being a sum deducted in accordance with the conditions of his service, for the purpose of securing to him a deferred annuity or making provision for his wife or children, in so far as the sum so deducted does not exceed one-fifth of the salary;

(iv) as a contribution by an individual to any provident fund to which the Provident Funds Act, 1925 applies; 19 of 1925.

(v) as a contribution to any provident fund set up by the Central Government and notified by it in this behalf in the Official Gazette, where such contribution is to an account standing in the name of any person specified in sub-section *(4)*;

(vi) as a contribution by an employee to a recognised provident fund;

(vii) as a contribution by an employee to an approved superannuation fund;

(viii) in a ten-year account or a fifteen-year account under the Post Office Savings Bank (Cumulative Time Deposits) Rules, 1959, as amended from time to time, where such sums are deposited in an account standing in the name of the persons specified in sub-section *(4)*;

(ix) as subscription to any such security of the Central Government as that Government may, by notification in the Official Gazette, specify in this behalf;

(x) as subscription to the National Savings Certificates (VI Issue) and National Savings Certificates (VII Issue) issued under the Government Savings Certificates Act, 1959; 46 of 1959.

(xi) as subscription to any such savings certificate as defined in clause *(c)* of section 2 of the Government Savings Certificates Act, 1959, as the Central Government may, by notification in the Official Gazette, specify in this behalf; 46 of 1959.

(xii) as a contribution, by any person specified in sub-section *(4)*, for participation in the Unit-linked Insurance Plan, 1971 (hereafter in this section referred to as the Unit-linked Insurance Plan) deemed to have been made under sub-clause *(a)* of clause *(8)* of section 19 of the Unit Trust of India Act, 1963; 52 of 1963.

(xiii) as a contribution by an individual for participation in any such unit-linked insurance plan of the LIC Mutual Fund notified under clause *(23D)* of section 10, as the Central Government may, by notification in the Official Gazette, specify in this behalf;

(xiv) as subscription to any such deposit scheme of the National Housing Bank established under section 3 of the National Housing Bank Act, 1987 (hereafter in this section referred to as the National Housing Bank), as the Central Government may, by notification in the Official Gazette, specify in this behalf; 53 of 1987.

(xv) for the purposes of purchase or construction of a residential house property the construction of which is completed after the 31st day of March, 1987, and the income from which is chargeable to tax under the head "Income from house property" (or which would, if it had not been used for the assessee's own residence, have been chargeable to tax under that head), where such payments are made towards or by way of—

(a) any instalment or part payment of the amount due under any self-financing or other scheme of any development authority, housing board or other authority engaged in the construction and sale of house property on ownership basis; or

(b) any instalment or part payment of the amount due to any company or co-operative society of which the assessee is a shareholder or member towards the cost of the house property allotted to him; or

(c) repayment of the amount borrowed by the assessee from—

(1) the Central Government or any State Government, or

(2) any bank, including a co-operative bank, or

(3) the Life Insurance Corporation, or

(4) the National Housing Bank, or

(5) any public company formed and registered in India with the main object of carrying on the business of providing long-term finance for construction or purchase of houses in

India for residential purposes which is approved for the purposes of clause *(viii)* of sub-section *(1)* of section 36, or

(6) any company in which the public are substantially interested or any co-operative society, where such company or co-operative society is engaged in the business of financing the construction of houses, or

(7) the assessee's employer where such employer is a public company or a public sector company or a university established by law or a college affiliated to such university or a local authority;

(d) stamp duty, registration fee and other expenses for the purpose of transfer of such house property to the assessee,

but shall not include any payment towards or by way of—

(A) the admission fee, cost of share and initial deposit which a shareholder of a company or a member of a co-operative society has to pay for becoming such shareholder or member; or

(B) the cost of the land, except where the consideration for the purchase of the house property is a composite amount and the cost of the land alone cannot be separately ascertained; or

(C) the cost of any addition or alteration to, or renovation or repair of, the house property which is carried out after the issue of the completion certificate in respect of the house property by the authority competent to issue such certificate or after the house property or any part thereof has either been occupied by the assessee or any other person on his behalf or been let out; or

(D) any expenditure in respect of which deduction is allowable under the provisions of section 24.

(3) The provisions of sub-section *(2)* shall apply only to so much of any premium or other payment made on a policy other than a contract for a deferred annuity as is not in excess of ten per cent. of the actual capital sum assured.

Explanation.—In calculating any such capital sum, no account shall be taken—

(i) of the value of any premiums agreed to be returned, or

(ii) of any benefit by way of bonus or otherwise over and above the sum actually assured, which is to be or may be received under the policy by any person.

(4) The persons referred to in sub-section *(2)* shall be the following, namely:—

(a) for the purposes of clause *(i)* of that sub-section,—

(i) in the case of an individual, the individual, the wife or husband and any child of such individual, and

(ii) in any other case, any member of the Hindu undivided family or association of persons or body of individuals and any child of any of the members of such association or body;

(b) for the purposes of clause *(ii)* of that sub-section,—

(i) in the case of an individual, the individual, the wife or husband and any child of such individual, and

(ii) in the case of an association of persons or body of individuals, any member and any child of any of the members of such association or body;

(c) for the purposes of clauses *(v)* and *(viii)* of that sub-section,—

(i) in the case of an individual, such individual;

(ii) in the case of a Hindu undivided family, any member of the family;

(iii) in the case of an association of persons or body of individuals, such association or body;

(d) for the purposes of clause *(xii)* of that sub-section,—

(i) in the case of an individual, such individual;

(ii) in the case of an association of persons or body of individuals, any one member of such association or body.

(5) Where the aggregate of any sums specified in clause *(xv)* of sub-section *(2)* exceeds an amount of ten thousand rupees, a deduction under sub-section *(1)* shall be allowed with reference to so much of the aggregate as does not exceed an amount of ten thousand rupees.

(6) The deduction from the amount of income-tax under sub-section *(1)* shall not exceed—

(i) in the case of an individual, being an author, playwright, artist, musician, actor or sportsman (including an athlete), fourteen thousand rupees;

(ii) in any other case, ten thousand rupees.

(7) Where, in any previous year, an assessee—

(i) terminates his contract of insurance referred to in clause *(i)* of sub-section *(2)*, by notice to that effect or where the contract ceases to be in force by reason of failure to pay any premium, by not reviving contract of insurance, before premiums have been paid for two years; or

(ii) terminates his participation in any unit-linked insurance plan referred to in clause *(xii)* or clause *(xiii)* of sub-section *(2)*, by notice to that effect or where he ceases to participate by reason of failure to pay any contribution, by not reviving his participation, before contributions in respect of such participation have been paid for five years; or

(iii) transfers the house property referred to in clause *(xv)* of sub-section *(2)* before the expiry of five years from the end of the financial year in which possession of such property is obtained by him, or receives back, whether by way of refund or otherwise, any sum specified in that clause,

then,—

(a) no deduction shall be allowed to the assessee under sub-section *(1)* with reference to any of the sums, referred to in clauses *(i)*, *(xii)*, *(xiii)* and *(xv)* of sub-section *(2)*, paid in such previous year; and

(b) the aggregate amount of the deductions of income-tax so allowed in respect of the previous year or years preceding such previous year, shall be deemed to be tax payable by the assessee in the assessment year relevant to such previous year and shall be added to the tax on the total income of the assessee with which he is chargeable for such assessment year.

(8) In this section,—

(i) "contribution" to any fund shall not include any sums in repayment of loan;

(ii) "insurance" shall include—

(a) a policy of insurance on the life of an individual or the spouse or the child of such individual or a member of a Hindu undivided family securing the payment of specified sum on the stipulated date of maturity, if such person is alive on such date notwithstanding that the policy of insurance provides only for the return of premiums paid (with or without any interest thereon) in the event of such person dying before the said stipulated date;

(b) a policy of insurance effected by an individual or a member of a Hindu undivided family for the benefit of a minor with the object of enabling the minor, after he has attained majority to secure insurance on his own life by adopting the policy and on his being alive on a date (after such adoption) specified in the policy in this behalf;

(iii) "Life Insurance Corporation" means the Life Insurance Corporation of India established under the Life Insurance Corporation Act, 1956; 31 of 1956.

(iv) "public company" shall have the same meaning as in section 3 of the Companies Act, 1956; 1 of 1956.

(v) "security" means a Government security as defined in clause *(2)* of section 2 of the Public Debt Act, 1944; 18 of 1944.

(vi) "transfer" shall be deemed to include also the transactions referred to in clause *(f)* of section 269UA.

Rebate in respect of investment in certain new shares or units.

88A. *(1)* Where an assessee being—

(a) an individual; or

(b) a Hindu undivided family; or

(c) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

has acquired, in the previous year, out of his income chargeable to tax,—

(i) equity shares forming part of any eligible issue of capital; or

(ii) units issued under any scheme of any Mutual Fund specified under clause *(23D)* of section 10 or of the Unit Trust of India, established under section 3 of the Unit Trust of India Act, 1963, if the amount of subscription to such units is subscribed, within a period of six months from the close of subscription under such scheme, only to eligible issue of capital, 52 of 1963.

he shall be entitled to a deduction, from the amount of income-tax (as computed before allowing the deductions under this Chapter) on his total income with which he is chargeable for any assessment year, of an amount equal to twenty per cent. of the cost of such shares or units to such assessee:

Provided that the amount of subscription to such units may be subscribed, for a period not exceeding six months from the close of subscription under any scheme referred to in clause *(ii)* in such securities of the Central Government, as may be approved by the Board in this behalf:

Provided further that no deduction shall be allowed in respect of units issued under any scheme referred to in clause *(ii)* where the subscription under such scheme closes after the 30th day of September, 1990.

Explanation.—Where in any previous year, the assessee has acquired any shares or units referred to in this sub-section and has, within a period of six months from the end of that previous year paid the whole or a part of the amount, if any, remaining unpaid on such shares or units, the amount so paid shall be deemed to have been paid by the assessee towards the cost of such shares or units in the previous year.

(2) Where the aggregate cost to the assessee of the shares or units referred to in sub-section *(1)* which are acquired by him in the previous year exceeds twenty-five thousand rupees, the deduction under that sub-section shall be allowed only with reference to such of those shares or units (being shares or units the aggregate cost whereof to the assessee does not exceed twenty-five thousand rupees) as are specified by him in this behalf.

(3) For the purposes of this section, "eligible issue of capital" means an issue of equity shares which satisfies the following conditions, namely:—

(a) the issue is made by a public company formed and registered in India and the issue is wholly and exclusively for the purposes of carrying on the business of—

(i) construction, manufacture or production of any article or thing, not being an article or thing specified in the list in the Eleventh Schedule; or

(ii) providing long-term finance for construction or purchase of houses in India for residential purposes:

Provided that in the case of a public company carrying on the business referred to in this sub-clause, such company is approved by the Central Government for the purposes of this section; or

(iii) a hospital; or

(iv) a hotel approved by the prescribed authority; or

(v) operation of ships;

(b) the issue is an issue of capital made by the company for the first time:

Provided that this clause shall not apply in the case of an issue of equity shares made by a public company formed and registered in India with the main object of carrying on the business of operation of ships;

(c) the shares forming part of the issue are offered for subscription to the public and such offer for subscription is made by the company before the 1st day of April, 1991;

(d) such other conditions as may be prescribed:

1 of 1956.

Provided that in the case of a company which had originally been incorporated as a private company but has become a public company under the provisions of the Companies Act, 1956, an issue of equity shares made by it for the first time after it has become a public company shall not be regarded as an eligible issue of capital, if—

(i) such company had declared, distributed or paid any dividend when it was a private company; or

(ii) any of the shares forming part of such issue is offered for subscription at a premium.

Explanation 1.—If any question arises as to whether any issue of equity shares would constitute an eligible issue of capital for the purposes of this section, the question shall be referred to the Central Government whose decision thereon shall be final.

1 of 1956.

Explanation 2.—In this sub-section and sub-section *(4)*, "public company" shall have the meaning assigned to it in section 3 of the Companies Act, 1956.

(4) The deduction under sub-section *(1)* shall not be allowed unless the assessee has—

(i) subscribed to the shares in pursuance of an offer for subscription to the public made by the public company or in pursuance of a reservation or an option in his favour by reason of his being a promoter of the company; or

1 of 1956.

(ii) purchased the shares from a person who is specified as an underwriter in respect of the issue of such shares in pursuance of clause 11 of Part I of Schedule II to the Companies Act, 1956 and who has acquired such shares by virute of his obligation as such underwriter.

(5) If any equity shares or units, with reference to the cost of which a deduction is allowed

under sub-section *(1),* are sold or otherwise transferred by the assessee to any person at any time within a period of three years from the date of their acquisition, the aggregate amount of the deductions of income-tax so allowed in respect of such equity shares or units in the previous year or years preceding the previous year in which such sale or transfer has taken place shall be deemed to be tax payable by the assessee for the assessment year relevant to such previous year and shall be added to the amount of income-tax on the total income of the assessee with which he is chargeable for such assessment year.

Explanation.—A person shall be treated as having acquired any shares or units on the date on which his name is entered in relation to those shares or units in the register of members of the company or in the relevant records of any Mutual Fund or Unit Trust of India, referred to in sub-section *(1).*

(6) Where a deduction is claimed and allowed under sub-section *(1)* with reference to the cost of any equity shares, the cost of such shares shall not be taken into account for the purposes of section 54E.

B.—Relief for income-tax'.

Amendment of section 115-I.

29. In section 115-I of the Income-tax Act, for the words and figures "to the Assessing Officer his return of income for that assessment year under section 139 together with a declaration in writing to the effect", the words and figures "his return of income for that assessment year under section 139 declaring therein" shall be substituted.

Amendment of section 115J.

30. In section 115J of the Income-tax Act, in sub-section *(1),* after the words, figures and letters "on or after the 1st day of April, 1988", the words, figures and letters "but before the 1st day of April, 1991" shall be inserted.

Amendment of section 119.

31. In section 119 of the Income-tax Act, in sub-section *(2),* in clause *(a),*—

(i) before the figures "143", the figures "139," shall be inserted;

(ii) after the figures "210,", the figures and letters "234A, 234B," shall be inserted.

Amendment of section 139.

32. In section 139 of the Income-tax Act,—

(a) in sub-section *(1),* in the *Explanation,* in clause *(b),* in sub-clause *(i),* after the words "to be so audited", the words, figures and letters "or where the report of an accountant is required to be furnished under section 80HHC or section 80HHD" shall be inserted with effect from the 1st day of April, 1991;

(b) in sub-section *(10),* in the proviso, for clause *(b),* the following clause shall be substituted, namely:—

"*(b)* a return of a firm or a partner of a firm;".

Amendment of section 139A.

33. In section 139A of the Income-tax Act, for sub-section *(2),* the following sub-section shall be substituted, namely:—

"*(2)* Notwithstanding anything contained in sub-section *(1),* every person not falling under that sub-section, but—

(i) carrying on any business whose total sales, turnover or gross receipts are or is likely to exceed fifty thousand rupees in any previous year; or

(ii) who is required to furnish a return of income under sub-section *(4A)* of section 139,

and who has not been allotted any permanent account number, shall, within such time as may be prescribed, apply to the Assessing Officer for the allotment of a permanent account number.".

Amendment of section 142.

34. In section 142 of the Income-tax Act, in sub-section *(1),* in clause *(i),* for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section *(1)* of section 139" shall be substituted.

Amendment of section 143.

35. In section 143 of the Income-tax Act, after sub-section *(1A),* the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely :—

"*(1B)* Where an assessee furnishes a revised return under sub-section *(5)* of section 139 after the issue of an intimation, or the grant of refund, if any, under sub-section *(1)* of this section, the provisions of sub-sections *(1)* and *(1A)* of this section shall apply in relation to such revised return and—

(i) the intimation already sent for any income-tax, additional income-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of income-tax, additional income-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(a) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 156 and all the provisions of this Act shall apply accordingly;

(b) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(ii) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(a) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(b) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 156 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under sub-section (5) of section 139 after the service upon him of the intimation under sub-section (1) of this section, shall be liable to pay additional income-tax in relation to the adjustments made under the first proviso to clause (a) of sub-section (1) and specified in the said intimation, whether or not he has made the said adjustments in the revised return.".

Amendment of section 145.

4 of 1988.

36. In section 145 of the Income-tax Act, in sub-section (1), after the second proviso [as inserted by section 52 of the Direct Tax Laws (Amendment) Act, 1987], the following proviso shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"Provided also that nothing contained in this sub-section shall preclude an assessee from being charged to income-tax in respect of any interest on securities received by him in a previous year if such interest had not been charged to income-tax for any earlier previous year.".

Amendment of section 151.

37. In section 151 of the Income-tax Act, in sub-section (1), for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted.

Insertion of new section 194F.

38. After section 194E of the Income-tax Act, the following section shall be inserted with effect from the 1st day of April, 1991, namely:—

Payments on account of repurchase of units by Mutual Fund or Unit Trust of India.

"194F. The person responsible for paying to any person any amount referred to in sub-section (2) of section 80CCB shall, at the time of payment thereof, deduct income-tax thereon at the rate of twenty per cent.".

Amendment of section 246.

39. In section 246 of the Income-tax Act,—

(a) in sub-section (1), in clause (l), in sub-clause (ii), the words, figures and letters "section 271C, section 271D, section 271E," shall be omitted;

(b) in sub-section (2), after caluse (e), the following clause shall be inserted, namely:—

"(ee) an order made by a Deputy Commissioner imposing a penalty under section 271C, section 271D or section 271E;".

Amendment of section 268.

40. In section 268 of the Income-tax Act, after the words "an appeal", the words "or an application" shall be inserted.

Insertion of new section 271BB.

41. After section 271B of the Income-tax Act, the following section shall be inserted, namely:—

Failure to subscribe to the eligible issue of capital.

"271BB. Whoever fails to subscribe any amount of subscription to the units issued under any scheme referred to in sub-section (1) of section 88A to the eligible issue of capital under that sub-section within the period of six months specified therein, may be directed by the Deputy Commissioner to pay, by way of penalty, a sum equal to twenty per cent. of such amount.".

Amendment of section 271C.

42. Section 271C of the Income-tax Act shall be renumbered as sub-section (1) thereof and after sub-section (1) as so renumbered, the following sub-section shall be inserted, namely:—

"(2) Any penalty imposable under sub-section (1) shall be imposed by the Deputy Commissioner.".

Amendment of section 271D.

43. Section 271D of the Income-tax Act shall be renumbered as sub-section (1) thereof and after sub-section (1) as so renumbered, the following sub-section shall be inserted, namely:—

"(2) Any penalty imposable under sub-section (1) shall be imposed by the Deputy Commissioner.".

Amendment of section 271E.

44. Section 271E of the Income-tax Act shall be renumbered as sub-section (1) thereof and after sub-section (1) as so renumbered, the following sub-section shall be inserted, namely:—

"(2) Any penalty imposable under sub-section (1) shall be imposed by the Deputy Commissioner.".

Amendment of section 275A.

45. In section 275A of the Income-tax Act, after the words "referred to in", the words, brackets and figure "the second proviso to sub-section *(1)* or" shall be inserted.

Omission of Chapter XXII-B.

46. *(1)* No tax credit certificate granted under section 280Z or section 280ZC shall be produced before the Assessing Officer after the 31st day of March, 1991 for the purposes of sub-section *(6)* of section 280Z or, as the case may be, sub-section *(4)* of section 280ZC.

(2) Save as otherwise provided in sub-section *(1)*, Chapter XXII-B shall be omitted.

Amendment of section 288.

47. In section 288 of the Income-tax Act, in sub-section *(4)*, in clause *(b)*, after the words "on him under", the words, brackets and figures "clause *(ii)* of sub-section *(1)* of" shall be inserted.

Consequential amendments.

48. The following amendments (being amendments of a consequential nature) shall be made in the Income-tax Act, namely:—

(i) section 80C shall be omitted with effect from the 1st day of April, 1991;

(ii) in section 246,—

(a) in sub-section *(1)*, in clause *(l)*, in sub-clause *(ii)*, after the word, figures and letter "section 271B,", the word, figures and letters "section 271BB," shall be inserted;

(b) in sub-section *(2)*, in clause *(e)*, after the word, figures and letter "section 271B", the words, figures and letters "or section 271BB" shall be inserted;

(iii) in section 273B, after the word, figures and letter "section 271B,", the word, figures and letters "section 271BB," shall be inserted;

(iv) in the Eleventh Schedule, for the words, figures, letter and brackets "and section 80J*(4)*", the words, figures, letters and brackets ", section 80J*(4)* and section 88A*(3)(a)(i)*" shall be substituted.

Wealth-tax

Amendment of section 2.

49. In section 2 of the Wealth-tax Act, 1957 (hereinafter referred to as the Wealth-tax Act), in clause *(ob)*, for the word and figures "section 16", the words, brackets and figures "sub-section *(3)* or sub-section *(5)* of section 16" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989. 27 of 1957.

Amendment of section 5.

50. In section 5 of the Wealth-tax Act, in sub-section *(1)*, in clause *(xxviic)*, with effect from the 1st day of April, 1991,—

(i) after the word "State Government", the words "or a public sector company" shall be inserted;

(ii) the following *Explanation* shall be inserted at the end, namely:—

'*Explanation.*—For the purposes of this clause, "public sector company" means any corporation established by or under any Central, State or Provincial Act or a Government company as defined in section 617 of the Companies Act, 1956;'. 1 of 1956.

Amendment of section 10.

51. In section 10 of the Wealth-tax Act, in sub-section *(2)*, in clause *(a)*, for the figures "16, 17", the figures and letter "14, 15, 16, 17, 17B," shall be substituted.

Amendment of section 16.

52. In section 16 of the Wealth-tax Act,—

(a) after sub-section *(1A)*, the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"*(1B)* Where an assessee furnishes a revised return under section 15 after the issue of an intimation, or the grant of refund, if any, under sub-section *(1)* of this section, the provisions of sub-sections *(1)* and *(1A)* of this section shall apply in relation to such revised return and—

(i) the intimation already sent for any wealth-tax, additional wealth-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of wealth-tax, additional wealth-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(a) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 30 and all the provisions of this Act shall apply accordingly;

(b) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(ii) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(a) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(b) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 30 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under section 15 after the service upon him of the intimation under sub-section *(1)* of this section, shall be liable to pay additional wealth-tax in relation to the adjustments made under the first proviso to clause *(a)* of sub-section *(1)* and specified in the said intimation, whether or not he has made the said adjustments in the revised return.";

(b) in sub-section *(4)*, in clause *(i)*, for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section *(1)* of section 14" shall be substituted.

Amendment of section 17.

53. In section 17 of the Wealth-tax Act, in sub-section *(1B)*, in clause *(a)*, for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted.

Insertion of new section 35EEE.

54. After section 35EE of the Wealth-tax Act, the following section shall be inserted, namely:—

Contravention of order made under second proviso to sub-section *(1)* or sub-section *(3A)* of section 37A.

"35EEE. If a person contravenes any order referred to in the second proviso to sub-section *(1)* or sub-section *(3A)* of section 37A, he shall be punishable with rigorous imprisonment for a term which may extend to two years and with fine.".

Amendment of section 35K.

55. In section 35K of the Wealth-tax Act, in sub-section *(1)*, for the words, figures and letters "the assessment year commencing on the 1st day of April, 1988, or any earlier assessment year", the words "an assessment year" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989.

Amendment of Schedule III.

56. In the Wealth-tax Act, in Schedule III, in Part G,—

(a) for rule 18, the following rule shall be substituted, namely:—

Valuation of jewellery.

"18. *(1)* The value of the jewellery shall be estimated to be the price which it would fetch if sold in the open market on the valuation date (hereafter in this rule referred to as fair market value).

(2) The return of net wealth furnished by the assessee shall be supported by,—

(i) a statement in the prescribed form, where the value of the jewellery on the valuation date does not exceed rupees five lakhs;

(ii) a report of a registered valuer in the prescribed form, where the value of the jewellery on the valuation date exceeds rupees five lakhs.

(3) Notwithstanding anything mentioned in sub-rule *(2)*, the Assessing Officer may, if he is of opinion, that the value of the jewellery declared in the return,—

(a) is less than its fair market value by such percentage or such amount as is prescribed under sub-clause *(i)* of clause *(b)* of sub-section *(1)* of section 16A;

(b) is less than its fair market value as referred to in clause *(a)* of sub-section *(1)* of section 16A,

he may refer the valuation of such jewellery to a Valuation Officer under sub-section *(1)* of the said section and the value of such jewellery shall be the fair market value as estimated by the Valuation Officer.";

(b) in rule 19, in the opening portion, for the words, brackets and letter "clause *(b)* of", the words, brackets and figure "sub-rule *(3)* of" shall be substituted.

Gift-tax

18 of 1958.

Amendment of section 9.

57. In section 9 of the Gift-tax Act, 1958 (hereinafter referred to as the Gift-tax Act), in sub-section *(2)*, in clause *(a)*, for the figures "15,16", the figures and letter "13,14,15,16, 16B," shall be substituted.

Amendment of section 15.

58. In section 15 of the Gift-tax Act,—

(a) after sub-section *(1A)*, the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"*(1B)* Where an assessee furnishes a revised return under section 14 after the issue of an intimation, or the grant of refund, if any, under sub-section *(1)* of this section, the provisions of sub-sections *(1)* and *(1A)* of this section shall apply in relation to such revised return and—

(i) the intimation already sent for any gift-tax, additional gift-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of gift-tax, additional gift-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(a) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 31 and all the provisions of this Act shall apply accordingly;

(b) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(ii) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(a) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(b) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 31 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under section 14 after the service upon him of the intimation under sub-section *(1)* of this section, shall be liable to pay additional gift-tax in relation to the adjustments made under the first proviso to clause *(a)* of sub-section *(1)* and specified in the said intimation, whether or not he has made the said adjustments in the revised return.";

(b) in sub-section *(4)*, in clause *(i)*, for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section *(1)* of section 13" shall be substituted.

Amendment of section 16.

59. In section 16 of the Gift-tax Act, in sub-section *(1B)*, in clause *(a)*, for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted.

CHAPTER IV

INDIRECT TAXES

Customs

Amendment of Act 52 of 1962.

60. In the Customs Act, 1962 (hereinafter referred to as the Customs Act),—

(a) in section 129C, for sub-section *(5)*, the following sub-section shall be substituted, namely:—

"*(5)* If the members of a Bench differ in opinion on any point, the point shall be decided according to the opinion of the majority, if there is a majority; but if the members are equally divided, they shall state the point or points on which they differ and make a reference to the President who shall either hear the point or points himself or refer the case for hearing on such point or points by one or more of the other members of the Appellate Tribunal and such point or points shall be decided according to the opinion of the majority of these members of the Appellate Tribunal who have heard the case, including those who first heard it.";

(b) after section 154, the following section shall be inserted, namely:—

Rounding off of duty, etc.

"154A. The amount of duty, interest, penalty, fine or any other sum payable, and the amount of refund, drawback or any other sum due, under the provisions of this Act shall be rounded off to the nearest rupee and, for this purpose, where such amount contains a part of a rupee consisting of *paise* then, if such part is fifty *paise* or more, it shall be increased to one rupee and if such part is less than fifty *paise* it shall be ignored.".

Amendment of Act 51 of 1975.

61. The Customs Tariff Act, 1975 (hereinafter referred to as the Customs Tariff Act), shall be amended in the manner specified in the Second Schedule.

Auxiliary duties of customs.

62. *(1)* In the case of goods mentioned in the First Schedule to the Customs Tariff Act, or in that Schedule, as amended from time to time, there shall be levied and collected as an auxiliary duty of customs an amount equal to fifty per cent. of the value of the goods as determined in accordance with the provisions of section 14 of the Customs Act.

(2) Sub-section *(1)* shall cease to have effect after the 31st day of March, 1991, and upon such cesser section 6 of the General Clauses Act, 1897, shall apply as if the said sub-section had been repealed by a Central Act. 10 of 1897.

(3) The auxiliary duties of customs referred to in sub-section *(1)* shall be in addition to any duties of customs chargeable on such goods under the Customs Act, or any other law for the time being in force.

(4) The provisions of the Customs Act and the rules and regulations made thereunder, including those relating to refunds and exemptions from duties, shall, as far as may be, apply in relation to the levy and collection of the auxiliary duties of customs leviable under this section in respect of any goods as they

apply in relation to the levy and collection of the duties of customs on such goods under that Act or those rules and regulations, as the case may be.

Excise

Amendment of Act 1 of 1944.

63. In the Central Excises and Salt Act, 1944 (hereinafter referred to as the Central Excises Act), after section 37C, the following section shall be inserted, namely:—

Rounding off of duty, etc.

"37D. The amount of duty, interest, penalty, fine or any other sum payable, and the amount of refund or any other sum due, under the provisions of this Act shall be rounded off to the nearest rupee and, for this purpose, where such amount contains a part of a rupee consisting of *paise* then, if such part is fifty *paise* or more, it shall be increased to one rupee and if such part is less than fifty *paise* it shall be ignored.".

Amendment of Act 5 of 1986.

64. The Central Excise Tariff Act, 1985 (hereinafter referred to as the Central Excise Tariff Act), shall be amended in the manner specified in the Third Schedule.

Special duties of excise.

65. *(1)* In the case of goods chargeable with a duty of excise under the Central Excises Act, as amended from time to time, read with any notification for the time being in force issued by the Central Government in relation to the duty so chargeable (not being a notification providing for any exemption for giving credit with respect to, or reduction of duty of excise under the said Act on such goods equal to, any duty of excise under the said Act, or the additional duty under section 3 of the Customs Tariff Act, already paid on the raw material or component parts used in the production or manufacture of such goods), there shall be levied and collected a special duty of excise equal to ten per cent. of the amount so chargeable on such goods.

10 of 1897.

(2) Sub-section *(1)* shall cease to have effect after the 31st day of March, 1991, and upon such cesser section 6 of the General Clauses Act, 1897, shall apply as if the said sub-section had been repealed by a Central Act.

(3) The special duties of excise referred to in sub-section *(1)* shall be in addition to any duties of excise chargeable on such goods under the Central Excises Act or any other law for the time being in force.

(4) The provisions of the Central Excises Act and the rules made thereunder, including those relating to refunds and exemptions from duties, shall, as far as may be, apply in relation to the levy and collection of the special duties of excise leviable under this section in respect of any goods as they apply in relation to the levy and collection of the duties of excise on such goods under that Act or those rules, as the case may be.

Amendment of Act 58 of 1957.

66. The Additional Duties of Excise (Goods of Special Importance) Act, 1957 (hereinafter referred to as the Additional Duties of Excise Act), shall be amended in the manner specified in the Fourth Schedule.

Amendment of Act 40 of 1978.

67. In section 3 of the Additional Duties of Excise (Textiles and Textile Articles) Act, 1978, in sub-section *(1)*, for the words "fifteen per cent.", the words "twenty per cent." shall be substituted.

Repeal of Act 12 of 1953.

68. The Khadi and other Handloom Industries Development (Additional Excise Duty on Cloth) Act, 1953, is hereby repealed.

CHAPTER V

INLAND AIR TRAVEL TAX

Amendment of Act 13 of 1989.

69. In the Finance Act, 1989, with effect from such date as the Central Government may, by notification in the Official Gazette, appoint,—

(a) in section 41, for clause *(d)*, the following clause shall be substituted, namely:—

'*(d)* "fare" means the total amount of all charges of whatever nature (including charges, if any, for provision of food or accommodation) payable to the carrier by or on behalf of a passenger in respect of his inland journey;';

(b) in section 42, in sub-section *(1)*, the words ", where the fare for such journey is paid in Indian currency," shall be omitted.

CHAPTER VI

MISCELLANEOUS

Amendment of Act 6 of 1898.

70. In the Indian Post Office Act, 1898, for the First Schedule, the following Schedule shall be substituted, namely:—

"THE FIRST SCHEDULE

(See section 7)

INLAND POSTAGE RATES

Letters

For a weight not exceeding twenty grams	Re. 1.00
For every twenty grams, or fraction thereof, exceeding twenty grams	Re. 1.00

Letter-cards

For a letter-card	75 Paise

Post cards (not being post cards containing printed communication)

Single	15 paise
Reply	30 paise

Post cards containing printed communication

For a post card	60 paise.

Explanation.—A post card shall be deemed to contain a printed communication, if any matter (except the name and address of, and other particulars relating to, the sender and the place and date of despatch) is recorded by printing or by cyclostyling or by any other mechanical process, not being type-writing, on any part of the post card except the righthand half of the address-side thereof.

For the first fifty grams or fraction thereof	Re. 1.00
For every additional one hundred grams, or fraction thereof, in excess of fifty grams	Re. 1.00

Registered newspapers

For a weight not exceeding fifty grams	15 paise
For a weight exceeding fifty grams but not exceeding one hundred grams	25 paise
For every additional one hundred grams or fraction thereof, exceeding one hundred grams	10 paise

In the case of more than one copy of the same issue of a registered newspaper being carried in the same packet—

For a weight not exceeding one hundred grams	25 paise
For every additional one hundred grams, or fraction thereof, exceeding one hundred grams	10 paise:

Provided that such packet shall not be delivered at any addressee's residence but shall be given to a recognised agent at the Post Office.

Parcels

For a weight not exceeding five hundred grams	Rs. 6.00
For every five hundred grams, or fraction thereof, exceeding five hundred grams	Rs.6.00."

Declaration under the Provisional Collection of Taxes Act, 1931

It is hereby declared that it is expedient in the public interest that the provisions of clauses 61, 62, 64, 65, 66 and 67 of this Bill shall have immediate effect under the Provisional Collection of Taxes Act, 1931. 16 of 1931.

THE FIRST SCHEDULE

(*See* section 2)

PART I

INCOME-TAX

Paragraph A

Sub-Paragraph I

In the case of every individual or Hindu undivided family or unregistered firm or other association of persons or body of individuals, whether incorporated or not, or every artificial juridical person referred to in sub-clause *(vii)* of clause *(31)* of section 2 of the Income-tax Act, not being a case to which Sub-Paragraph II of this Paragraph or any other Paragraph of this Part applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 18,000	*Nil;*
(2) where the total income exceeds Rs. 18,000 but does not exceed Rs. 25,000	20 per cent. of the amount by which the total income exceeds Rs. 18,000;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 1,400 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 25,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 8,900 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 28,900 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Sub-Paragraph II

In the case of every Hindu undivided family which at any time during the previous year has at least one member whose total income of the previous year relevant to the assessment year commencing on the 1st day of April,1990 exceeds Rs.18,000,—

Rates of income-tax

(1) where the total income does not exceed Rs.12,000	*Nil;*
(2) where the total income exceeds Rs. 12,000 but does not exceed Rs. 20,000	25 per cent. of the amount by which the total income exceeds Rs. 12,000;
(3) where the total income exceeds Rs. 20,000 but does not exceed Rs. 40,000	Rs. 2,000 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 20,000;
(4) where the total income exceeds Rs. 40,000 but does not exceed Rs. 60,000	Rs. 8,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 40,000;
(5) where the total income exceeds Rs. 60,000 but does not exceed Rs. 1,00,000	Rs. 16,000 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 60,000;
(6) where the total income exceeds Rs. 1,00,000	Rs. 36,000 *plus* 55 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Paragraph B

In the case of every co-operative society,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	15 per cent. of the total income;
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 20,000	Rs. 1,500 *plus* 25 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 20,000	Rs. 4,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 20,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph C

Sub-Paragraph I

In the case of every registered firm, not being a case to which Sub-Paragraph II of this Paragraph applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	*Nil;*
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 25,000	5 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 750 *plus* 7 per cent. of the amount by which the total income exceeds Rs. 25,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2,500 *plus* 15 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 10,000 *plus* 24 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Sub-Paragraph II

In the case of every registered firm whose total income includes income derived from a profession carried on by it and the income so included is not less than fifty-one per cent. of such total income,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	*Nil;*
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 25,000	4 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 600 *plus* 7 per cent. of the amount by which the total income exceeds Rs. 25,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2,350 *plus* 13 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 8,850 *plus* 22 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Explanation.—For the purposes of this Paragraph, "registered firm" includes an unregistered firm assessed as a registered firm under clause *(b)* of section 183 of the Income-tax Act.

Paragraph D

In the case of every local authority,—

Rate of income-tax

On the whole of the total income	50 per cent.

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph E

In the case of a company,—

Rates of income-tax

I. In the case of a domestic company,—	
(1) where the company is a company in which the public are substantially interested	50 per cent. of the total income;
(2) where the company is not a company in which the public are substantially interested—	
(i) in the case of a trading company or an investment company	60 per cent. of the total income;
(ii) in any other case	55 per cent. of the total income.
II. In the case of a company other than a domestic company,—	
(i) on so much of the total income as consists of—	
(a) royalties received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1961 but before the 1st day of April, 1976, or	
(b) fees for rendering technical services received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 29th day of February, 1964 but before the 1st day of April, 1976,	
and where such agreement has, in either case, been approved by the Central Government	50 per cent.;
(ii) on the balance, if any, of the total income	65 per cent.

Surcharge on income-tax

The amount of income-tax computed in accordance with the provisions of item I of this Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge calculated at the rate of eight per cent. of such income-tax.

PART II

RATES FOR DEDUCTION OF TAX AT SOURCE IN CERTAIN CASES

In every case in which under the provisions of sections 193, 194, 194A, 194B, 194BB, 194D and 195 of the Income-tax Act, tax is to be deducted at the rates in force, deduction shall be made from the income subject to deduction at the following rates:—

	Rate of income-tax
1. In the case of a person other than a company—	
(a) where the person is resident in India—	
(i) on income by way of interest other than "Interest on securities"	10 per cent.;
(ii) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(iii) on income by way of winnings from horse races	40 per cent.;
(iv) on income by way of insurance commission	10 per cent.;
(v) on income by way of interest payable on—	10 per cent.;
(A) any security, other than a tax-free security, of the Central or a State Government;	
(B) any debentures or other securities for money issued by or on behalf of any local authority or a corporation established by a Central, State or Provincial Act;	
(C) any debentures issued by a company where such debentures are listed on a recognised stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and any rules made thereunder;	
(vi) on any other income (excluding interest payable on a tax-free security)	20 per cent.;
(b) where the person is not resident in India—	
(i) in the case of a non-resident Indian—	
(A) on investment income and long-term capital gains	20 per cent.;
(B) on income by way of interest payable on a tax-free security	15 per cent.;
(C) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;

(D) on income by way of winnings from horse races	40 per cent.;
(E) on the whole of other income	income-tax at 30 per cent. of the amount of income or income-tax in respect of the income at the rates prescribed in Sub-Paragraph I of Paragraph A of Part III of this Schedule, if such income had been the total income, whichever is higher;
(ii) in the case of any other person—	
(A) on income by way of interest payable on a tax-free security	15 per cent.;
(B) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(C) on income by way of winnings from horse races	40 per cent.;
(D) on the whole of the other income	income-tax at 30 per cent. of the amount of income or income-tax in respect of the income at the rates prescribed in Sub-Paragraph I of Paragraph A of Part III of this Schedule, if such income had been the total income, whichever is higher.
2. In the case of a company—	
(a) where the company is a domestic company—	
(i) on income by way of interest other than "Interest on securities"	20 per cent.;
(ii) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(iii) on income by way of winnings from horse races	40 per cent.;
(iv) on any other income (excluding interest payable on tax-free security)	21.5 per cent.;
(b) where the company is not a domestic company—	
(i) on income by way of dividends payable by any domestic company	25 per cent.;
(ii) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(iii) on income by way of winnings from horse races	40 per cent.;
(iv) on income by way of interest payable by Government or an Indian concern on moneys borrowed or debt incurred by Government or the Indian concern in foreign currency	25 per cent.;
(v) on income by way of royalty payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1976, where such royalty is in consideration for the transfer of all or any rights (including the granting of a licence) in respect of copyright in any book on a subject referred to in the proviso to sub-section *(1A)* of section 115A of the Income-tax Act, to the Indian concern	30 per cent.;
(vi) on income by way of royalty [not being royalty of the nature referred to in sub-item *(b)(v)*] payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern and which has been approved by the Central Government,—	
(A) where the agreement is made after the 31st day of March, 1961 but before the 1st day of April, 1976	50 per cent.;
(B) where the agreement is made after the 31st day of March, 1976	30 per cent.;
(vii) on income by way of fees for technical services payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern and which has been approved by the Central Govenment,—	
(A) where the agreement is made after the 29th day of February, 1964 but before the 1st day of April, 1976	50 per cent.;

(B) where the agreement is made after the 31st day of March, 1976	30 per cent.;
(viii) on income by way of interest payable on a tax-free security	44 per cent.;
(ix) on any other income	65 per cent.

Explanation.–For the purposes of this Part, "investment income", "long-term capital gains" and "non-resident Indian" shall have the meanings assigned to them in Chapter XII-A of the Income-tax Act.

Surcharge on income-tax

The amount of income-tax deducted in accordance with the provisions of—

(a) sub-item *(a)* of item 1 of this Part shall be increased by a surcharge for purposes of the Union, and

(b) sub-item *(a)* of item 2 of this Part shall be increased by a surcharge,

calculated at the rate of eight per cent. of such income-tax.

PART III

RATES FOR CALCULATING OR CHARGING INCOME-TAX IN CERTAIN CASES, DEDUCTING INCOME-TAX FROM INCOME CHARGEABLE UNDER THE HEAD "SALARIES" AND COMPUTING "ADVANCE TAX"

In cases in which income-tax has to be calculated under the first proviso to sub-section *(5)* of section 132 of the Income-tax Act or charged under sub-section *(4)* of section 172 or sub-section *(2)* of section 174 or section 175 or sub-section *(2)* of section 176 of the said Act or deducted under section 192 of the said Act from income chargeable under the head "Salaries" or in which the "advance tax" payable under Chapter XVII-C of the said Act has to be computed at the rate or rates in force, such income-tax or, as the case may be, "advance tax" [not being "advance tax" in respect of any income chargeable to tax under Chapter XII or Chapter XII-A or sub-section *(1A)* of section 161 or section 164 or section 164A or section 167B of the Income-tax Act at the rates as specified in that Chapter or section or surcharge on such "advance tax" in respect of any income chargeable to tax under section 115B], shall be calculated, charged, deducted or computed at the following rate or rates:—

Paragraph A

Sub-Paragraph I

In the case of every individual or Hindu undivided family or unregistered firm or other association of persons or body of individuals, whether incorporated or not, or every artificial juridical person referred to in sub-clause *(vii)* of clause *(31)* of section 2 of the Income-tax Act, not being a case to which Sub-Paragraph II of this Paragraph or any other Paragraph of this Part applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 22,000	*Nil;*
(2) where the total income exceeds Rs. 22,000 but does not exceed Rs. 30,000	20 per cent. of the amount by which the total income exceeds Rs. 22,000;
(3) where the total income exceeds Rs. 30,000 but does not exceed Rs. 50,000	Rs. 1,600 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 30,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 7,600 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 27,600 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall,—

(i) in the case of every individual, Hindu undivided family or association of persons or body of individuals referred to in sections 88 and 88A having a total income exceeding seventy-five thousand rupees, be reduced by the amount of rebate of income-tax calculated under Chapter VIII-A, and the income- tax as so reduced,

(ii) in the case of every person, other than those mentioned in item *(i)*, having a total income exceeding seventy-five thousand rupees,

be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Sub-Paragraph II

In the case of every Hindu undivided family which at any time during the previous year has at least one member whose total income of the previous year relevant to the assessment year commencing on the 1st day of April, 1991 exceeds Rs. 22,000,—

Rates of income-tax

(1) where the total income does not exceed Rs. 12,000	*Nil;*
(2) where the total income exceeds Rs. 12,000 but does not exceed Rs. 20,000	25 per cent. of the amount by which the total income exceeds Rs. 12,000;
(3) where the total income exceeds Rs. 20,000 but does not exceed Rs. 40,000	Rs. 2,000 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 20,000;
(4) where the total income exceeds Rs. 40,000 but does not exceed Rs. 60,000	Rs. 8,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 40,000;

(5) where the total income exceeds Rs. 60,000 but does not exceed Rs. 1,00,000	Rs. 16,000 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 60,000;
(6) where the total income exceeds Rs. 1,00,000	Rs. 36,000 *plus* 55 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be reduced by the amount of rebate of income-tax calculated under Chapter VIII-A and the income-tax as so reduced be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Paragraph B

In the case of every co-operative society,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	15 per cent. of the total income;
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 20,000	Rs. 1,500 *plus* 25 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 20,000	Rs. 4,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 20,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph C

Sub-Paragraph I

In the case of every registered firm, not being a case to which Sub-Paragraph II of this Paragraph applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 15,000	*Nil;*
(2) where the total income exceeds Rs. 15,000 but does not exceed Rs. 50,000	6 per cent. of the amount by which the total income exceeds Rs. 15,000;
(3) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2,100 *plus* 12 per cent. of the amount by which the total income exceeds Rs. 50,000;
(4) where the total income exceeds Rs. 1,00,000	Rs. 8,100 *plus* 18 per cent. of the amount by which the total income exceeds Rs.1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Sub-Paragraph II

In the case of every registered firm whose total income includes income derived from a profession carried on by it and the income so included is not less than fifty-one per cent. of such total income,—

Rates of income-tax

(1) where the total income does not exceed Rs. 15,000	*Nil;*
(2) where the total income exceeds Rs. 15,000 but does not exceed Rs. 50,000	5 per cent. of the amount by which the total income exceeds Rs. 15,000;
(3) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 1,750 *plus* 10 per cent. of the amount by which the total income exceeds Rs. 50,000;
(4) where the total income exceeds Rs. 1,00,000	Rs. 6,750 *plus* 15 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Explanation.— For the purposes of this Paragraph, "registered firm" includes an unregistered firm assessed as a registered firm under clause *(b)* of section 183 of the Income-tax Act.

Paragraph D

In the case of every local authority,—

Rate of income-tax

On the whole of the total income	50 per cent.

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph E

In the case of a company,–

Rates of income-tax

I. In the case of a domestic company,–

(1) where the company is a company in which the public are substantially interested	40 per cent. of the total income;
(2) where the company is not a company in which the public are substantially interested—	
(i) in the case of a trading company or an investment company	50 per cent. of the total income;
(ii) in any other case	45 per cent. of the total income.

II. In the case of a company other than a domestic company,—

(i) on so much of the total income as consists of—

(a) royalties received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1961 but before the 1st day of April, 1976, or

(b) fees for rendering technical services received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 29th day of February, 1964 but before the 1st day of April, 1976,

and where such agreement has, in either case, been approved by the Central Government	50 per cent.;
(ii) on the balance, if any, of the total income	65 per cent.

Surcharge on income-tax

The amount of income-tax computed in accordance with the provisions of item I of this Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge calculated at the rate of eight per cent. of such income-tax.

PART IV

[*See* section 2 *(9) (e)*]

RULES FOR COMPUTATION OF NET AGRICULTURAL INCOME

Rule 1.–Agricultural income of the nature referred to in sub-clause *(a)* of clause *(1A)* of section 2 of the Income-tax Act shall be computed as if it were income chargeable to income-tax under that Act under the head "Income from other sources" and the provisions of sections 57 to 59 of that Act shall, so far as may be, apply accordingly:

Provided that sub-section *(2)* of section 58 shall apply subject to the modification that the reference to section 40A therein shall be construed as not including a reference to sub-sections *(3)* and *(4)* of section 40A.

Rule 2.–Agricultural income of the nature referred to in sub-clause *(b)* or sub-clause *(c)* of clause *(1A)* of section 2 of the Income-tax Act [other than income derived from any building required as a dwelling house by the receiver of the rent or revenue or the cultivator or the receiver of rent-in-kind referred to in the said sub-clause *(c)*] shall be computed as if it were income chargeable

to income-tax under that Act under the head "Profits and gains of business or profession" and the provisions of sections 30, 31, 32, 36, 37, 38, 40, 40A [other than sub-sections *(3)* and *(4)* thereof], 41, 43, 43A, 43B and 43C of the Income-tax Act shall, so far as may be, apply accordingly.

Rule 3.–Agricultural income of the nature referred to in sub-clause *(c)* of clause *(1A)* of section 2 of the Income-tax Act, being income derived from any building required as a dwelling house by the receiver of the rent or revenue or the cultivator or the receiver of rent-in-kind referred to in the said sub-clause *(c)* shall be computed as if it were income chargeable to income-tax under that Act under the head "Income from house property" and the provisions of sections 23 to 27 of that Act shall, so far as may be, apply accordingly.

Rule 4.–Notwithstanding anything contained in any other provisions of these rules, in a case where the assessee derives income from sale of tea grown and manufactured by him in India, such income shall be computed in accordance with rule 8 of the Income-tax Rules, 1962, and sixty per cent. of such income shall be regarded as the agricultural income of the assessee.

Rule 5.–Where the assessee is a partner of a registered firm or an unregistered firm assessed as a registered firm under clause *(b)* of section 183 of the Income-tax Act, which in the previous year has any agricultural income, or is a partner of an unregistered firm which has not been assessed as a registered firm under clause *(b)* of the said section 183 and which in the previous year has either no income chargeable to tax under the Income-tax Act or has total income not exceeding the maximum amount not chargeable to tax in the case of an unregistered firm but has any agricultural income, then, the agricultural income or loss of the firm shall be computed in accordance with these rules and his share in the agricultural income or loss of the firm shall be computed in the manner laid down in sub-section *(1)*, sub-section *(2)* and sub-section *(3)* of section 67 of the Income-tax Act and the share so computed shall be regarded as the agricultural income or loss of the assessee.

Rule 6.–Where the assessee is a member of an association of persons or a body of individuals (other than a Hindu undivided family, a company or a firm) which in the previous year has either no income chargeable to tax under the Income-tax Act or has total income not exceeding the maximum amount not chargeable to tax in the case of an association of persons or a body of individuals (other than a Hindu undivided family, a company or a firm) but has any agricultural income, then, the agricultural income or loss of the association or body shall be computed in accordance with these rules and the share of the assessee in the agricultural income or loss so computed shall be regarded as the agricultural income or loss of the assessee.

Rule 7.–Where the result of the computation for the previous year in respect of any source of agricultural income is a loss, such loss shall be set off against the income of the assessee, if any, for that previous year from any other source of agricultural income:

Provided that where the assessee is a partner of an unregistered firm which has not been assessed as a registered firm under clause *(b)* of section 183 of the Income-tax Act or is a member of an association of persons or a body of individuals and the share of the assessee in the agricultural income of the firm, association or body, as the case may be, is a loss, such loss shall not be set off against any income of the assessee from any other source of agricultural income.

Rule 8.–Any sum payable by the assessee on account of any tax levied by the State Government on the agricultural income shall be deducted in computing the agricultural income.

Rule 9.–*(1)* Where the assessee has, in the previous year relevant to the assessment year commencing on the 1st day of April, 1990, any agricultural income and the net result of the computation of the agricultural income of the assessee for any one or more of the previous years relevant to the assessment years commencing on the 1st day of April, 1982 or the 1st day of April, 1983 or the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989, is a loss, then, for the purposes of sub-section *(2)* of section 2 of this Act,—

(i) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1982 to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1983 or the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(ii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1983, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(iii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1984, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(iv) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1985, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(v) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1986, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(vi) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1987, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1988 or the 1st day of April, 1989,

(vii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1988, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1989, and

(viii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1989,

shall be set off against the agricultural income of the assessee for the previous year relevant to the assessment year commencing on the 1st day of April, 1990.

(2) Where the assessee has, in the previous year relevant to the assessment year commencing on the 1st day of April, 1991 or, if by virtue of any provision of the Income-tax Act, income-tax is to be charged in respect of the income of a period other than that previous year, in such other period, any agricultural income and the net result of the computation of the agricultural income of the assessee for any one or more of the previous years relevant to the assessment years commencing on the 1st day of April, 1983 or the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990, is a loss, then, for the purposes of sub-section *(8)* of section 2 of this Act,—

(i) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1983, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(ii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1984, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(iii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1985, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(iv) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1986, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(v) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1987, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(vi) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1988, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1989 or the 1st day of April, 1990,

(vii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1989, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1990, and

(viii) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1990,

shall be set off against the agricultural income of the assessee for the previous year relevant to the assessment year commencing on the 1st day of April, 1991.

(3) Where a change has occurred in the constitution of a firm, nothing in sub-rule *(1)* or sub-rule *(2)* shall entitle the firm to set off so much of the loss proportionate to the share of a retired or deceased partner computed in the manner laid down in sub-section *(1)*, sub-section *(2)* and sub-section *(3)* of section 67 of the Income-tax Act as exceeds his share of profits, if any, of the previous year in the firm, or entitle any partner to the benefit of any portion of the said loss (computed in the manner aforesaid) which is not apportionable to him.

(4) Where any person deriving any agricultural income from any source has been succeeded in such capacity by another person, otherwise than by inheritance, nothing in sub-rule *(1)* or sub-rule *(2)* shall entitle any person, other than the person incurring the loss, to have it set off under sub-rule *(1)* or, as the case may be, sub-rule *(2)*.

14 of 1982.
11 of 1983.
21 of 1984.
32 of 1985.
23 of 1986.
11 of 1987.
26 of 1988.
13 of 1989.

(5) Notwithstanding anything contained in this rule, no loss which has not been determined by the Assessing Officer under the provisions of these rules or the rules contained in Part IV of the First Schedule to the Finance Act, 1982, or of the First Schedule to the Finance Act, 1983, or of the First Schedule to the Finance Act,1984, or of the First Schedule to the Finance Act, 1985, or of the First Schedule to the Finance Act, 1986, or of the First Schedule to the Finance Act, 1987, or of the First Schedule to the Finance Act, 1988, or of the First Schedule to the Finance Act, 1989, shall be set off under sub-rule *(1)* or, as the case may be, sub-rule *(2)*.

Rule 10.–Where the net result of the computation made in accordance with these rules is a loss, the loss so computed shall be ignored and the net agricultural income shall be deemed to be *nil*.

Rule 11.–The provisions of the Income-tax Act relating to procedure for assessment (including the provisions of section 288A relating to rounding off of income) shall, with the necessary modifications, apply in relation to the computation of the net agricultural income of the assessee as they apply in relation to the assessment of the total income.

Rule 12.–For the purposes of computing the net agricultural income of the assessee, the Assessing Officer shall have the same powers as he has under the Income-tax Act for the purposes of assessment of the total income.

THE SECOND SCHEDULE

(*See* section 61)

In the First Schedule to the Customs Tariff Act,—

(1) in Chapter 26, in sub-heading No. 2620.30, for the entry in column (4), the entry "150%" shall be substituted;

(2) in Chapter 29, in sub-heading No. 2925.11, for the entry in column (4), the entry "100% *plus* Rs. 25 per Kg." shall be substituted;

(3) in Chapter 85, in sub-heading No. 8511.10, for the entry in column (4), the entry "100% *plus* Rs. 10 per piece" shall be substituted;

(4) in Chapter 96, in sub-heading Nos. 9607.11 and 9607.19, for the entry in column (4), the entry "150% *plus* Rs. 5 per metre" shall be substituted.

THE THIRD SCHEDULE

(*See* section 64)

PART I

In the Schedule to the Central Excise Tariff Act,—

(1) in Chapter 4, in sub-heading No. 0401.13, for the entry in column (3), the entry "--Milk powder, other than powder specially prepared for feeding infants, put up in unit containers and ordinarily intended for sale" shall be substituted;

(2) in Chapter 9, in sub-heading Nos. 0901.20 and 0901.90, for the entry in column (4), the entry "15%" shall be substituted;

(3) in Chapter 11, in sub-heading Nos. 1102.00 and 1104.00, for the entry in column (4), the entry "15%" shall be substituted;

(4) in Chapter 13, in sub-heading No. 1301.90, for the entry in column (4), the entry "15%" shall be substituted;

(5) in Chapter 14, in sub-heading No. 1401.00, for the entry in column (4), the entry "15%" shall be substituted;

(6) in Chapter 15, in sub-heading Nos. 1501.00, 1505.00 and 1507.00, for the entry in column (4), the entry "15%" shall be substituted;

(7) in Chapter 17, in sub-heading Nos. 1701.90, 1702.29, 1702.30 and 1704.90, for the entry in column (4), the entry "10%" shall be substituted;

(8) in Chapter 18, in sub-heading Nos. 1801.00, 1802.00, 1803.00 and 1804.00, for the entry in column (4), the entry "15%" shall be substituted;

(9) in Chapter 21,—

(a) in sub-heading Nos. 2101.30, 2102.10 and 2102.90, for the entry in column (4), the entry "15%" shall be substituted;

(b) in sub-heading No. 2105.00, for the entry in column (4), the entry "15% *plus* Rs. 2 per litre" shall be substituted;

(c) in heading No. 21.06, in column (3), for the entry "-Containing lime or katha *(catechu)* or both, whether or not containing tobacco:", the entry "-Containing lime, katha *(catechu)* or tobacco or any one or more of these ingredients:" shall be substituted;

(d) in sub-heading Nos. 2106.11 and 2106.90, for the entry in column (4), the entry "40% *plus* Rs. 50 per kilogram" shall be substituted;

(10) in Chapter 22, in sub-heading No. 2203.00, for the entry in column (4), the entry "15%" shall be substituted;

(11) in Chapter 23, in sub-heading No. 2301.00, for the entry in column (4), the entry "Nil" shall be substituted;

(12) in Chapter 24,—

(a) in sub-heading Nos. 2403.11, 2403.12, 2403.21 and 2403.22, for the entry in column (4), the entry "Rs. 500 per thousand or 300% *plus* Rs. 20 per thousand, whichever is higher" shall be substituted;

(b) in sub-heading Nos. 2404.60 and 2404.90, for the entry in column (4), the entry "15%" shall be substituted;

(13) in Chapter 25,—

(a) for NOTE 2, the following NOTE shall be substituted, namely :—

"2. Except where their context otherwise requires, heading Nos. 25.01, 25.03 and 25.05 cover only products which have been washed (even with chemical substances, eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, or concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallisation), but not products that have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading or sub-heading.".

(b) in sub-heading Nos. 2502.10, 2502.30 and 2504.90, for the entry in column (4), the entry "10%" shall be substituted;

(14) in Chapter 26, in sub-heading Nos. 2601.00, 2602.00, 2603.00, 2604.00, 2605.00, 2606.00, 2607.00, 2608.00, 2609.00, 2610.00, 2611.00, 2612.00, 2613.00, 2614.00, 2615.00, 2616.00, 2617.00, 2618.00, 2619.00, 2620.00 and 2621.00, for the entry in column (4), the entry "10%" shall be substituted;

(15) in Chapter 28,—

(a) in sub-heading No. 2815.00, for the entry in column (4), the entry "15% *plus* Rs.1,000 per tonne" shall be substituted;

(b) in sub-heading No. 2818.10, for the entry in column (4), the entry " 10%" shall be substituted;

(16) in Chapter 29, in sub-heading Nos. 2917.10 and 2917.20, for the entry in column (4), the entry "15% *plus* Rs. 5 per kilogram" shall be substituted;

(17) in Chapter 30, in sub-heading No. 3001.00, for the entry in column (4), the entry "15%" shall be substituted;

(18) in Chapter 34, in sub-heading No. 3402.90, for the entry in column (4), the entry "25% *plus* Rs. 2,000 per tonne" shall be substituted;

(19) in Chapter 40,—

(a) in NOTE 9,—

(i) after the word and figures "and 40.08,", the words "except as otherwise provided," shall be inserted;

(ii) the following paragraph shall be inserted at the end, namely:—

'Sub-heading No. 4008.21 shall also apply to "plates", "sheets" and "strips", whether or not cut to shape, and surface-worked or further worked so as to render them fit for resoling or repairing or re-treading of rubber tyres.';

(b) in sub-heading No. 4011.20, for the entry in column (4), the entry "Rs. 35 per tyre" shall be substituted;

(c) in sub-heading No. 4011.50, for the entry in column (4), the entry "Rs. 2,600 per tyre" shall be substituted;

(d) in sub-heading No. 4011.91, for the entry in column (4), the entry "60%" shall be substituted;

(e) in sub-heading No. 4011.99, for the entry in column (4), the entry "30%" shall be substituted;

(f) in sub-heading No. 4012.19, for the entry in column (4), the entry "Rs. 23 per flap" shall be substituted;

(20) in Chapter 41, in sub-heading No. 4101.00, for the entry in column (4), the entry "10%" shall be substituted;

(21) in Chapter 42, in sub-heading No. 4201.90, for the entry in column (4), the entry "15%" shall be substituted;

(22) in Chapter 43, in sub-heading No. 4301.00, for the entry in column (4), the entry "15%" shall be substituted;

(23) in Chapter 44,—

(a) NOTES 5 and 6 shall be renumbered as NOTES 6 and 7 respectively and before NOTE 6 as so renumbered, the following NOTE shall be inserted, namely:—

'5. For the purposes of heading No. 44.08, the expression "similar laminated wood" includes blockboard, laminboard and battenboard, in which the core is thick and composed of blocks, laths or battens of wood glued together and surfaced with the outer plies and also panels in which the wooden core is replaced by other materials such as a layer or layers of particle board, fibre board, wood waste glued together, asbestos or cork.';

(b) in sub-heading Nos. 4401.00, 4402.00, 4403.00, 4404.00, 4405.00 and 4410.90, for the entry in column (4), the entry "15%" shall be substituted;

(24) in Chapter 46, in sub-heading No. 4601.00, for the entry in column (4), the entry "10%" shall be substituted;

(25) in Chapter 47, in sub-heading No. 4701.00, for the entry in column (4), the entry "10%" shall be substituted;

(26) in Chapter 48,—

(a) NOTES 8, 9 and 10 shall be renumbered as NOTES 9, 10 and 11 respectively and before NOTE 9 as so renumbered, the following NOTE shall be inserted, namely:—

'8. For the purposes of heading No. 48.14, the expression "wallpaper and similar wall coverings" applies only to:

(a) Paper in rolls, of a width of not less than 45 cms. and not more than 160 cms., suitable for wall or ceiling decoration:

(i) Grained, embossed, surface-coloured, design-printed or otherwise surface-decorated (e.g., with textile flock), whether or not coated or covered with transparent protective plastics;

(ii) With an uneven surface resulting from the incorporation of particles of wood, straw, etc.;

(iii) Coated or covered on the face side with plastics, the layer of plastics being grained, embossed, coloured, design-printed or otherwise decorated; or

(iv) Covered on the face side with plaiting material, whether or not bound together in parallel strands or woven;

(b) Borders and friezes, of paper, treated as above, whether or not in rolls, suitable for wall or ceiling decoration;

(c) Wall coverings of paper made up of several panels, in rolls or sheets, printed so as to make up a scene, design or motif when applied to a wall.

Products on a base of paper or paperboard suitable for use both as floor coverings and as wall coverings, are to be classified in heading No. 48.15.';

(b) in sub-heading No. 4815.00, for the entry in column (4), the entry "30%" shall be substituted;

(c) in sub-heading Nos. 4817.00, 4818.00, 4819.90, 4820.00, 4821.00 and 4822.00, for the entry in column (4), the entry "15%" shall be substituted;

(27) in Chapter 49, in sub-heading No. 4901.10, for the entry in column (4), the entry "15%" shall be substituted;

(28) in Chapter 53, in sub-heading Nos. 5302.20 and 5306.29, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(29) in Chapter 56, in sub-heading No. 5607.19, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(30) in Chapter 57, in sub-heading No. 5702.20, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(31) in Chapter 59,—

(a) in NOTE 2, in clause (*c*), the words "by dot printing process" shall be omitted;

(b) NOTES 4, 5 and 6 shall be renumbered as NOTES 5, 6 and 7 respectively and before NOTE 5 as so renumbered, the following NOTE shall be inserted, namely:—

'4. For the purposes of heading No. 59.04, the expression "textile wall coverings" applies to products in rolls, of a width of not less than 45 cms., suitable for wall or ceiling decoration, consisting of a textile surface which has been fixed on a backing or has been treated on the back (impregnated or coated to permit pasting).

This heading does not, however, apply to wall coverings consisting of textile flock or dust fixed directly on a backing of paper (heading No. 48.14).';

(c) in sub-heading Nos. 5903.19, 5903.29 and 5903.99, for the entry in column (4), the entry "30% *plus* Rs.15 per square metre *plus* the duty for the time being leviable on base fabrics, if not already paid" shall be substituted;

(32) in Chapter 64, in sub-heading Nos. 6401.19 and 6401.99, for the entry in column (4), the entry "10%" shall be substituted;

(33) in Chapter 65, in sub-heading Nos. 6501.80 and 6501.90, for the entry in column (4), the entry "10%" shall be substituted;

(34) in Chapter 66, in sub-heading No. 6602.00, for the entry in column (4), the entry "10%" shall be substituted;

(35) in Chapter 67, in sub-heading Nos. 6701.00 and 6702.00, for the entry in column (4), the entry "10%" shall be substituted;

(36) in Chapter 68,—

(a) in sub-heading No. 6801.90, for the entry in column (4), the entry "15%" shall be substituted;

(b) in sub-heading No. 6807.00, for the entry in column (4), the entry "30%" shall be substituted;

(37) in Chapter 70, in sub-heading No. 7009.00, for the entry in column (4), the entry "10%" shall be substituted;

(38) in Chapter 71, in sub-heading Nos. 7101.39, 7101.40, 7101.60, 7101.70, 7101.80 and 7101.90, for the entry in column (4), the entry "15%" shall be substituted;

(39) in Chapter 72,—

(a) in sub-heading Nos. 7201.00, 7203.00 and 7204.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(b) in sub-heading No. 7204.20, for the entry in column (4), the entry "Rs. 2,000 per tonne" shall be substituted;

(c) in sub-heading Nos.7205.10 and 7206.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(40) in Chapter 73,—

(a) in sub-heading Nos. 7303.00 and 7304.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(b) in sub-heading No. 7304.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(c) in sub-heading No. 7305.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(d) in sub-heading No. 7305.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(e) in sub-heading No. 7306.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(f) in sub-heading No. 7306.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(g) in sub-heading Nos. 7321.10 and 7321.20, for the entry in column (4), the entry "25%" shall be substituted;

(h) in sub-heading No. 7325.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(41) in Chapter 78,—

(a) in sub-heading Nos. 7801.10, 7801.90 and 7802.00, for the entry in column (4), the entry "Rs. 4,000 per tonne" shall be substituted;

(b) in sub-heading No. 7803.10, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(c) in sub-heading No. 7803.21, for the entry in column (4), the entry "20%" shall be substituted;

(d) in sub-heading No. 7803.29, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(e) in sub-heading No. 7803.30, for the entry in column (4), the entry "Rs. 4,000 per tonne" shall be substituted;

(f) in sub-heading No. 7804.10, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(g) in sub-heading Nos. 7804.20, 7805.10, 7805.20 and 7806.00, for the entry in column (4), the entry "20%" shall be substituted;

(42) in Chapter 79,—

(a) in sub-heading Nos. 7903.10 and 7903.90, for the entry in column (4), the entry "20%" shall be substituted;

(b) in sub-heading Nos. 7904.21 and 7906.10, for the entry in column (4), the entry "30%" shall be substituted;

(c) in sub-heading Nos. 7906.20, 7907.10 and 7907.90, for the entry in column (4), the entry "20%" shall be substituted;

(43) in Chapter 85,—

(a) in sub-heading No. 8521.00, for the entry in column (4), the entry "40%" shall be substituted;

(b) in sub-heading No. 8543.00, for the entry in column (4), the entry "25%" shall be substituted;

(44) in Chapter 87,—

(a) in sub-heading No. 8703.00, for the entry in column (4), the entry "40%" shall be substituted;

(b) in sub-heading Nos. 8706.20 and 8706.40, for the entry in column (4), the entry "25% *plus* Rs. 6,000 per chassis" shall be substituted;

(c) in sub-heading No. 8706.30, for the entry in column (4), the entry "40%" shall be substituted; and

(45) in Chapter 96, in sub-heading No. 9617.00, for the entry in column (4), the entry "10%" shall be substituted.

PART II

Heading No.	Sub-heading No.	Description of goods	Rate of duty
(1)	(2)	(3)	(4)

In the Schedule to the Central Excise Tariff Act,—

(1) in Chapter 22, after heading No. 22.03 and the entries relating thereto, the following shall be inserted, namely:—

"22.04	2204.00	ETHYL ALCOHOL OF ANY STRENGTH WHETHER DENATURED OR NOT, BUT NOT INCLUDING ALCOHOLIC LIQUOR FOR HUMAN CONSUMPTION	Rs. 8 per tonne for each percentage point strength of alcohol";

(2) in Chapter 25, for heading No. 25.05 and the entries relating thereto, the following shall be substituted, namely:—

"25.05		MINERAL SUBSTANCES NOT ELSEWHERE SPECIFIED (INCLUDING CLAY, EARTH COLOURS, NATURAL ABRASIVES, SULPHURS, SLATE AND STONE), LIME; PLASTERS WITH A BASIS OF CALCIUM SULPHATE, WHETHER OR NOT COLOURED, BUT NOT INCLUDING PLASTERS SPECIALLY PREPARED FOR USE IN DENTISTRY	
	2505.10	-Kaolin and other kaolinic clays, whether or not calcined; other clays, andalusite, kyanite and sillimanite, whether or not calcined; mullite; chamotte or dinas earths	15%
	2505.20	-Natural barium sulphate (barytes); natural barium carbonate (witherite), whether or not calcined, other than barium oxide of heading No. 28.16	15%
	2505.30	-Silicious fossil meals and similar silicious earths, whether or not calcined, of an apparent specific gravity of 1 or less	15%
	2505.40	-Dolomite, whether or not calcined; natural magnesium carbonate (magnesite); fused magnesia; dead burned (sintered) magnesia, whether or not containing small quantities of other oxides added before sintering; other magnesium oxide, whether or not pure	15%
	2505.50	-Gypsum; anhydrite; plasters (consisting of calcined gypsum or calcium sulphate) whether or not coloured, with or without small quantities of accelerators or retarders	15%
	2505.60	-Quick lime, slaked lime and hydraulic lime, other than calcium oxide and hydroxide of heading No. 28.25	15%
	2505.70	-Natural borates and concentrates thereof (whether or not calcined), but not including borates separated from natural brine; natural boric acid containing not more than 85% of H3 BO3 calculated on the dry weight; earth colours, strontianite (whether or not calcined), other than strontium oxide	15%
	2505.90	-Other	15%";

(1)	(2)	(3)	(4)

(3) in Chapter 40, after sub-heading No. 4011.70 and the entries relating thereto, the following shall be inserted, namely:—

	"4011.80	-Of a kind used on animal drawn vehicles or hand carts, bearing prominent markings of the letters ADV thereon	60%";

(4) in Chapter 52,—

(a) for heading No. 52.03 and the entries relating thereto, the following shall be substituted, namely:—

"52.03	5203.00	COTTON YARN INCLUDING SEWING THREAD, NOT CONTAINING SYNTHETIC STAPLE FIBRES	20 *paise* per count per kilogram";

(b) for heading Nos. 52.06, 52.07, 52.08, 52.09, 52.10 and 52.11 and the entries relating thereto, the following shall be substituted, namely:—

"52.06	5206.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20%
52.07	5207.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20%
52.08	5208.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10, 52.11 AND 52.12),— *(a)* WOVEN ON HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20%
52.09	5209.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE OR POLYESTER FILAMENT YARN OR BOTH (BUT NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE OR FILAMENT YARN OR BOTH IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%
52.10	5210.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, (ii) POLYESTER STAPLE FIBRE, AND (iii) RAMIE OR ANY ONE OR MORE ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%
52.11	5211.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES,	20%";

(1)	(2)	(3)	(4)
		(c) CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE, AND *(d)* OF VALUE EXCEEDING RUPEES TWENTY-FIVE PER SQUARE METRE	

(5) in Chapter 54,—

(a) for heading Nos. 54.02, 54.03 and 54.04 and the entries relating thereto, the following shall be substituted, namely:—

"54.02	5402.00	SYNTHETIC FILAMENT YARN AND SEWING THREAD INCLUDING SYNTHETIC MONOFILAMENT OF LESS THAN 60 DENIERS, NOT TEXTURED	Rs. 100 per kilogram
54.03	5403.00	SYNTHETIC FILAMENT YARN, INCLUDING SYNTHETIC MONOFILAMENT OF LESS THAN 60 DENIERS, TEXTURED	Rs. 100 per kilogram
54.04	5404.00	ARTIFICIAL FILAMENT YARN AND SEWING THREAD, INCLUDING ARTIFICIAL MONOFILAMENT OF LESS THAN 60 DENIERS, NOT TEXTURED	Rs. 25 per kilogram";

(b) for heading Nos. 54.09, 54.10, 54.11 and 54.12 and the entries relating thereto, the following shall be substituted, namely:—

"54.09	5409.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20%
54.10	5410.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20%
54.11	5411.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— *(a)* WOVEN ON HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20%
54.12	5412.00	FABRICS OF POLYESTER FILAMENT YARN,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE AND YARN IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%";

(6) in Chapter 55,—

(a) for heading No. 55.05 and the entries relating thereto, the following shall be substituted, namely:—

"55.05	5505.00	YARN (INCLUDING SEWING THREAD) OF ARTIFICIAL STAPLE FIBRES, NOT CONTAINING SYNTHETIC STAPLE FIBRES	20 *paise* per count per kilogram";

(1)	(2)	(3)	(4)
		(b) for heading Nos. 55.08, 55.09, 55.10, 55.11 and 55.12 and the entries relating thereto, the following shall be substituted, namely:—	
"55.08	5508.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20%
55.09	5509.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20%
55.10	5510.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),— *(a)* WOVEN ON HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20%
55.11	5511.00	FABRICS OF POLYESTER STAPLE FIBRE,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING COTTON (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%
55.12	5512.00	FABRICS OF MAN-MADE STAPLE FIBRES,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) POLYESTER STAPLE FIBRE, AND (ii) ANY ONE OR MORE OF THE FOLLOWING FIBRES, NAMELY, COTTON, RAMIE AND ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BUT LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%";
		(7) in Chapter 59, for heading No. 59.04 and the entries relating thereto, the following shall be substituted, namely:—	
"59.04		LINOLEUM, WHETHER OR NOT CUT TO SHAPE; FLOOR COVERINGS CONSISTING OF A COATING OR COVERING APPLIED ON A TEXTILE BACKING, WHETHER OR NOT CUT TO SHAPE; TEXTILE WALL COVERINGS	
	5904.10	-Linoleum	30%
	5904.20	-Textile wall coverings	10% *plus* Rs. 2,850 per tonne
	5904.90	-Other	30%".

THE FOURTH SCHEDULE

(*See* section 66)

PART I

In the First Schedule to the Additional Duties of Excise Act,—

(1) in sub-heading Nos. 2403.11 and 2403.21, for the entry in column (4), the entry "Rs. 300 per thousand, or 175% *plus* Rs. 12 per thousand, whichever is higher" shall be substituted;

(2) in heading No. 51.06, in column (3), for the words "WOVEN FABRICS OF WOOL", the words, brackets and figures "WOVEN FABRICS OF WOOL (EXCLUDING HAIR BELTING, BLANKETS AND FABRICS OF WIDTH NOT EXCEEDING 15 CMS.)" shall be substituted;

(3) in heading No. 51.07,—

(a) in column (3), for the words "WOVEN FABRICS OF WOOL", the words, brackets and figures "WOVEN FABRICS OF WOOL (EXCLUDING HAIR BELTING, BLANKETS AND FABRICS OF WIDTH NOT EXCEEDING 15 CMS.)" shall be substituted;

(b) sub-heading No. 5107.10 and the entries relating thereto shall be omitted;

(4) in sub-heading Nos. 5903.19 and 5903.29, for the entry in column (4), the entry "5% *plus* Rs. 3 per square metre *plus* the duty for the time being leviable on base fabrics, if not already paid" shall be substituted;

(5) heading No. 59.05 and the entries relating thereto shall be omitted.

PART II

Heading No.	Sub-heading No.	Description of goods	Rate of additional duty
(1)	(2)	(3)	(4)
		In the First Schedule to the Additional Duties of Excise Act,— *(a)* for heading Nos. 52.06, 52.07, 52.08, 52.09, 52.10 and 52.11 and the entries relating thereto, the following shall be substituted, namely:—	
"52.06	5206.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20% *plus* Rs. 5 per square metre
52.07	5207.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20% *plus* Rs. 5 per square metre
52.08	5208.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10, 52.11 AND 52.12),— *(a)* WOVEN ON HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20% *plus* Rs. 5 per square metre

(1)	(2)	(3)	(4)
52.09	5209.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE OR POLYESTER FILAMENT YARN, OR BOTH (BUT NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE OR FILAMENT YARN OR BOTH IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20% *plus* Rs. 5 per square metre
52.10	5210.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, (ii) POLYESTER STAPLE FIBRE, AND (iii) RAMIE OR ANY ONE OR MORE ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20% *plus* Rs. 5 per square metre
52.11	5211.00	COTTON FABRICS,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE, AND *(d)* OF VALUE EXCEEDING RUPEES TWENTY-FIVE PER SQUARE METRE	20% *plus* Rs. 5 per square metre";

(b) for heading No. 54.09 and the entries relating thereto, the following shall be substituted, namely:—

(1)	(2)	(3)	(4)
"54.09	5409.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20% *plus* Rs. 5 per square metre";

(c) for heading No. 54.12 and the entries relating thereto, the following shall be substituted, namely:—

(1)	(2)	(3)	(4)
"54.12	5412.00	FABRICS OF POLYESTER FILAMENT YARN,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) COTTON, AND (ii) POLYESTER STAPLE FIBRE (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE AND YARN IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20% *plus* Rs. 5 per square metre";

(d) for heading No. 55.08 and the entries relating thereto, the following shall be substituted, namely:—

(1)	(2)	(3)	(4)
"55.08	5508.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),— *(a)* WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, STENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	20% *plus* Rs. 5 per square metre";

(1)	(2)	(3)	(4)

(e) for heading Nos. 55.11 and 55.12 and the entries relating thereto, the following shall be substituted, namely:—

"55.11	5511.00	FABRICS OF POLYESTER STAPLE FIBRE,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING COTTON (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20% *plus* Rs. 5 per square metre
55.12	5512.00	FABRICS OF MAN-MADE STAPLE FIBRES,— *(a)* WOVEN, *(b)* SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, *(c)* CONTAINING (i) POLYESTER STAPLE FIBRE, AND (ii) ANY ONE OR MORE OF THE FOLLOWING FIBRES, NAMELY, COTTON, RAMIE AND ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND *(d)* IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BUT LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20% *plus* Rs. 5 per square metre".

STATEMENT OF OBJECTS AND REASONS

The object of the Bill is to give effect to the financial proposals of the Central Government for the financial year 1990-91. The notes on clauses explain the various provisions contained in the Bill.

MADHU DANDAVATE.

NEW DELHI;

The 19*th March*, 1990.

PRESIDENT'S RECOMMENDATION UNDER ARTICLES 117 AND 274 OF THE CONSTITUTION OF INDIA

[Copy of letter No. F.3 (1)-B (D) / 90, dated the 19th March, 1990 from Prof. Madhu Dandavate, Minister of Finance, to the Secretary-General, Lok Sabha.]

The President, having been informed of the subject matter of the proposed Bill, recommends under clause (1) of article 117, read with clause (1) of article 274, of the Constitution of India, the introduction of the Finance Bill, 1990, to the Lok Sabha.

2. The Bill will be introduced in the Lok Sabha immediately after the presentation of the Budget on the 19th March, 1990.

Notes on clauses

Clause 2, read with the First Schedule to the Bill, seeks to prescribe the rates at which income-tax (including surcharge thereon) is to be levied on income chargeable to tax for the assessment year 1990-91. Further, it lays down the rates at which tax is to be deducted at source during the financial year 1990-91 from income subject to such deduction under the Income-tax Act; and the rates at which "advance tax" is to be paid and tax is to be calculated and charged in special cases for the financial year 1990-91.

Rates of income-tax for the assessment year 1990-91 .

Part I of the First Schedule to the Bill specifies the rates of income-tax on incomes liable to tax for the assessment year 1990-91. These rates are the same as those specified in Part III of the First Schedule to the Finance Act ,1989, for the purposes of deduction of tax at source from"Salaries" and for computation of "advance tax" payable during the financial year 1989-90.

As provided by the Finance Act, 1989, the amount of income-tax computed in accordance with the provisions of this Part shall in the case of every person having income exceeding fifty thousand rupees be increased, —

(i) in the case of every person, being a resident, not being an Indian company, by a surcharge for purposes of the Union, and

(ii) in the case of an Indian company, by a surcharge,

calculated at the rate of 8 per cent. of such income-tax.

Rates for deduction of tax at source during the financial year 1990-91 from income other than "Salaries"

Part II of the First Schedule to the Bill specifies the rate at which income-tax is to be deducted at source during the financial year 1990-91 from incomes other than "Salaries". These rates are the same as those specified in Part II of the First Schedule to the Finance Act, 1989, for the purposes of deduction of tax at source during the financial year 1989-90. The amount of tax so deducted at source shall be increased,—

(i) in the case where the payment is made to a person, other than a company, resident in India, by a surcharge for purposes of the Union,

(ii) in the case of person being a domestic company, by a surcharge,

calculated at the rate of 8 per cent. of such income-tax.

Rates for deduction of tax at source from "Salaries", computation of "advance tax" and charging of income-tax in special cases during the financial year 1990-91

Part III of the First Schedule to the Bill specifies the rates at which income-tax is to be deducted at source from "Salaries" and also the rates at which "advance tax" is to be paid and income-tax is to be calculated or charged in special cases for the financial year 1990-91.

Sub-Paragraph I of Paragraph A of this Part specifies the rates of income-tax in the case of every individual or Hindu undivided family or every association of persons or body of individuals, whether incorporated or not, or every artificial juridical person referred to in sub-clause (vii) of clause (31) of section 2 of the Income-tax Act, not being a case to which Sub-Paragraph II of Paragraph A or any other Paragraph of Part III applies. In such cases, the income-tax exemption limit has been increased to Rs.22,000 from Rs.18,000. Further the first slab of income-tax has been extended to Rs. 30,000 from Rs. 25,000.

Sub-Paragraph I of Paragraph C of this Part specifies the rates of income-tax in the case of every registered firm, not being a case to which Sub-Paragraph II of this Paragraph applies. In such cases, the income-tax exemption limit has been increased to Rs.15,000 from Rs.10,000. The number of tax slabs has also been reduced to three from five. The maximum marginal rate of tax has also been reduced to 18 per cent. from the existing rate of 24 per cent.

Sub-Paragraph II of Paragraph C of this Part specifies the rates of income-tax in the case of every registered firm whose total income includes income derived from a profession carried on by it and the income so included is not less than fifty-one per cent. of such total income. In such cases the income-tax exemption limit has been increased to Rs.15,000 from Rs.10,000. The number of tax slabs has also been reduced to three from five. The maximum marginal rate of tax has also been reduced to 15 per cent. from the existing rate of 22 per cent.

Paragraph E of this Part specifies the rates of income-tax in the case of a company. The rate of income-tax in the case of a company in which the public are substantially interested has been reduced to 40 per cent. from the existing rate of 50 per cent. In the case of a trading or investment company in which the public are not substantially interested, the rate of income-tax has been reduced to 50 per cent. from the existing rate of 60 per cent. Further, the rate of income-tax in the case of other domestic companies in which the public are not substantially interested has also been reduced to 45 per cent. from the existing rate of 55 per cent.

In the case of every person being an individual, Hindu undivided family, firm, association of persons or body of individuals, being resident in India, co-operative society and local authority, whose total income exceeds seventy-five thousand rupees and where income-tax is to be deducted at source or "advance tax" is payable in accordance with the provisions of this Part, such amount of income-tax shall be increased by a surcharge for purposes of Union calculated at the rate of eight per cent. of such income-tax. In the case of domestic companies having a total income exceeding seventy-five thousand rupees, the amount of income-tax computed in accordance with the provisions of this Part shall be increased by a surcharge calculated at the rate of eight per cent. of such income-tax. However, in the case of individuals, Hindu undivided families and certain association of persons or bodies of individuals, entitled to tax rebate under Chapter VIII-A, the surcharge will be calculated on the amount of income-tax as reduced by the amount of such rebate.

Clause 3 seeks to amend section 2 of the Income-tax Act relating to definitions.

The proposed amendments *vide* sub-clause (i) are consequential in nature to the amendments proposed in section 28 of the Act, *vide* clause 5 whereunder profits on sale of a licence granted under the Imports (Control) Order, 1955, cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India and the repayment of any duty of customs or excise as drawback to any person against exports under the Customs and Central Excise Duties Drawback Rules, 1971, are being treated as incomes and made chargeable to tax under the head "Profits and gains of business or profession".

These amendments will take effect retrospectively from the same dates as specified in relation to the new clauses being inserted in section 28, *vide* sub-clauses (a), (b) and (c) of clause 5.

The proposed amendment *vide* sub-clause (ii) seeks to amend the definition of the expression "regular assessment" given in clause (40) of that section so as to clarify that it would mean an assessment made only under sub-section (3) of section 143 or section 144.

This amendment will take effect retrospectively from 1st April, 1989.

Sub-clause (iii) seeks to omit clause (42C) of section 2 of the Income-tax Act containing definition of the term"security". The insertion of the definition of the term"security" in section 2 dealing with general definitions had created certain anomalies. The proposed omission of this definition is to overcome such anomalies.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years.

Clause 4 seeks to amend clause (15) of section 10 of the Income-tax Act.

Sub-clause (i) seeks to amend item (i) of sub-clause (iv) of clause (15) of section 10 to extend the exemption from income-tax of interest received from Government on deposits made by an employee of the Central Government or a State Government, in accordance with such scheme as the Central Government may, by notification in the Official Gazette, frame in this behalf, out of the moneys due to him on account of his retirement, whether on superannuation or otherwise, also to the employees of a public sector company.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

On the directions of the Supreme Court, certain amount of compensation for the victims of the Bhopal gas tragedy was deposited by the Union Carbide Corporation and the Union Carbide India Limited to the credit of the Registrar, Supreme Court, in the Reserve Bank of India. This amount stands deposited in the securities of the Central Government. In order to provide exemption on the interest accruing on such securities, sub-clause (ii) seeks to insert a new sub-clause (v) in clause (15) of section 10.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Clause 5 seeks to amend section 28 of the Income-tax Act relating to income chargeable to tax under the head "Profits and gains of business or profession".

Sub-clause (a) seeks to insert a new clause (iiia) to make profits on sale of a licence granted under the Imports (Control) Order, 1955, chargeable to tax under the said head.

This amendment will take effect retrospectively from 1st April, 1962.

Sub-clause (b) seeks to insert a new clause (iiib) to make any cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India, chargeable to tax under the aforesaid head.

This amendment will take effect retrospectively from 1st April, 1967.

Sub-clause (c) seeks to insert a new clause (iiic) to make re-payment of any duty of customs or excise as drawback to any person against the exports under the Customs and Central Excise Duties Drawback Rules, 1971, chargeable to tax under the aforesaid head.

This amendment will take effect retrospectively from 1st April, 1972.

Clause 6 seeks to amend section 32A of the Income-tax Act relating to investment allowance.

Sub-clause (i) seeks to provide that the reserve of an amount equal to seventy-five per cent. of the investment allowance to be actually allowed is debited to the profit and loss account of any previous year in respect of which the deduction is to be allowed under sub-section (3) of this section or any earlier previous year not being a previous year earlier than the year in which the ship or aircraft was acquired or the machinery or plant was installed or the ship, aircraft, machinery or plant was first put to use.

Sub-clause (ii) seeks to omit sub-section (9) so as to provide that it shall not be incumbent upon an assessee to create a reserve when there are no profits.

These amendments will take effect retrospectively from 1st April, 1976 and will, accordingly, apply in relation to the assessment year 1976-77 and subsequent years.

Clause 7 seeks to amend sub-section (1) of section 32AB of the Income-tax Act relating to investment deposit account.

The proposed amendment seeks to provide that no deduction under this section shall be allowed in relation to the assessment year commencing on the 1st day of April, 1991, or any subsequent assessment year.

This amendment will take effect from 1st April, 1990.

Clause 8 seeks to amend sub-section (1) of section 33A of the Income-tax Act relating to development alllowance.

The proposed amendment seeks to provide that the deduction provided under clause (i) of sub-section (1) shall be allowed only if the planting of tea bushes has been completed before the 1st day of April, 1990.

This amendment will take effect from 1st April, 1990.

Clause 9 seeks to amend section 34 of the Income-tax Act relating to development rebate.

Sub-clause (i) seeks to provide that the reserve of an amount equal to seventy-five per cent. of the development rebate to be actually allowed is debited to the profit and loss account of any previous year in respect of which the deduction is to be allowed under sub-section (2) of section 33 or any earlier previous year not being a previous year earlier than the year in which the ship was acquired or the machinery or plant was installed or the ship, machinery or plant was first put to use.

Sub-clause (ii) seeks to omit *Explanation* to clause (a) of sub-section (3) of the section so as to provide that it shall not be incumbent upon an assessee to create a reserve when there are no profits.

These amendments will take effect retrospectively from 1st April, 1962 and will, accordingly, apply in relation to the assessment year 1962-63 and subsequent years.

Clause 10 seeks to amend section 35CCB of the Income-tax Act relating to expenditure by way of payment of any sum to associations and institutions for carrying out programmes of conservation of natural resources.

Sub-clause (i) seeks to substitute sub-section (1) to provide that where an assessee incurs any expenditure by way of payment of any sum to an association or institution which has as its object the undertaking of any programme, being a programme approved by the prescribed authority, of conservation of natural resources or of afforestation, or to such fund for afforestation as the Central Government may notify in this behalf, he shall be allowed a deduction in respect of such sum from income under the head "Profits and gains of business or profession".

Sub-clause (ii) seeks to amend sub-section (2) so as to provide that no deduction in respect of any payment to an association or institution which has as its object the undertaking of any programme referred to in clause (a) of sub-section (1) shall be allowed unless such association or institution is for the time being approved by the prescribed authority.

These amendments will take effect from 1st April, 1991, and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 11 seeks to amend section 43B of the Income-tax Act relating to deduction of certain sums only on actual payment.

The proposed amendment seeks to amend clause (d) in the said section of the Act to provide that any sum payable as interest on any loan or borrowing from a State financial corporation or a State industrial investment corporation, in accordance with the terms and conditions of the agreement governing such loan or borrowing, shall not be allowed as deduction in the computation of the profits and gains from business or profession if the sum is not actually paid by the assessee before the due date applicable in his case for furnishing the return of income. Further *Explanation* IV is being substituted to include the definitions of "State financial corporation" and "State industrial investment corporation".

These amendments will take effect from 1st April, 1991, and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 12 seeks to insert an *Explanation* in clause (a) of sub-section (1) of section 44AC of the Income-tax Act relating to special provision for computing profits and gains from the business of trading in certain goods.

The proposed *Explanation* seeks to define "purchase price" as any amount paid or payable by a buyer to obtain alcoholic liquor for human consumption (other than Indian made foreign liquor) excluding the amount paid or payable towards the bid money in an auction or the highest accepted offer in case of a tender or any other mode.

Sub-clause (b) seeks to add a co-operative society to the definition of the term "seller" for the purposes of section 44AC.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 13 seeks to amend section 45 of the Income-tax Act relating to capital gains.

The proposed amendment seeks to insert a new sub-section (6) in section 45 to clarify that the difference between the repurchase price of the units referred to in section 80CCB(2) and the capital value of such units shall be deemed to be the capital gains arising to the assessee in the previous year in which such repurchase takes place or the plan under which such units were purchased is terminated and such difference shall be taxed accordingly. The expression "capital value of such units" has been defined as any amount invested by the assessee in the units referred to in section 80CCB(2).

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 14 seeks to amend section 80CCA of the Income-tax Act relating to deduction in respect of deposits under National Savings Scheme or payment to a deferred annuity plan.

Sub-clause (a) seeks to substitute the proviso to sub-section (1) to provide that the maximum amount of deduction to be allowed under this section shall be forty thousand rupees in relation to the assessment year commencing on the 1st day of April, 1991 and subsequent assessment years.

Sub-clause (b) seeks to insert a new sub-section (3) to provide that where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved after a deduction has been allowed under sub-section (1), the amount withdrawn from the National Savings Scheme or received from the Life Insurance Corporation will be deemed to be the income in the hands of the recipient and taxed accordingly.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 15 seeks to insert a new section 80CCB in the Income-tax Act.

The proposed section seeks to provide that where an assessee, being an individual or a Hindu undivided family or an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu, has acquired in the previous year, out of his income chargeable to tax, units of any Mutual Fund specified under clause (23D) of section 10 or of the Unit Trust of India under any plan formulated in accordance with such scheme as the Government may, by notification in the Official Gazette, specify (hereafter referred to as the Equity Linked Savings Scheme), he shall be allowed a deduction in the computation of his total income of so much of the amount invested as does not exceed ten thousand rupees in the previous year. The amount which is returned to the assessee either on the repurchase of the units or on the termination of the plan by the said Fund or the Trust, in any previous year, shall be deemed to be the income of the assessee of that previous year and shall be chargeable to tax accordingly. It is also being provided that where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved, after a deduction has been allowed under sub-section (1) of the new section, the person who receives the deemed income on the repurchase of the units or on the termination of the plan by the said Fund or the Trust, shall be liable to pay income-tax on such income.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 16 seeks to insert a new section 80DD in the Income-tax Act.

Under the new section, an individual or a Hindu undivided family resident in India will be entitled to a deduction of a sum of six thousand rupees in a year in the computation of the total income where expenditure has been incurred by him or it on the medical treatment, training or rehabilitation of a person who suffers from a permanent physical disability (including blindness) or is subject to mental retardation and who is a relative of the individual or is a member of the Hindu undivided family and is dependent on the individual or the Hindu undivided family for his support. The deduction will be admissible only where the total income of the individual or the Hindu undivided family as computed before making any deduction under new section 80DD does not exceed sixty thousand rupees and the amount of deduction will be reduced in either case by the income, if any, of the handicapped dependent.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 17 seeks to amend section 80GGA of the Income-tax Act relating to deduction in respect of certain donations for scientific research or rural development.

The proposed amendments seeks to allow a deduction in respect of donations made by any person, other than a person whose gross total income includes income which is chargeable under the head "Profits and gains of business or profession", to an association or institution, which has as its object the undertaking of any programme of afforestation, to be used for carrying out any programme of afforestation approved for this purpose. The new clause (cc) seeks to provide that any sum paid by the assessee in the previous year to the fund for afforestation referred to in that clause shall be deducted in computing the total income of the assessee.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 18 seeks to amend sub-sections (2) and (3) of section 80HH of the Income-tax Act relating to deduction in respect of profits and gains from newly established industrial undertakings or hotel business in backward areas.

The proposed amendments seek to provide that this section shall apply to an industrial undertaking specified in sub-section (2) thereof and to the business of any hotel specified in sub-section (3) thereof only if the industrial undertaking begins to manufacture or produce articles or, as the case may be, the business of the hotel starts functioning before the 1st day of April, 1990.

This amendment will take effect from 1st April, 1990.

Clause 19 seeks to amend sub-section (2) of section 80HHA of the Income-tax Act relating to deduction in respect of profits and gains from newly established small-scale industrial undertakings in certain areas.

The proposed amendment seeks to provide that this section shall apply only if a small-scale industrial undertaking referred to in sub-section (2) thereof begins to manufacture or produce articles before the 1st day of April, 1990.

This amendment will take effect from 1st April, 1990.

Clause 20 seeks to amend section 80HHC of the Income-tax Act relating to deduction in respect of profits retained for export business.

Sub-clauses (a) (i) and (a) (iii) seek to amend sub-section (2) of that section to provide that in order to avail the deduction under the section, the sale proceeds of goods or merchandise exported out of India must be received in, or brought into, India by the assessee in convertible foreign exchange within a period of six months from the end of the previous year or within such further period as the Chief Commissioner or Commissioner may, for reasons to be recorded in writing, allow.

Sub-clause (a) (ii) seeks to provide that in the case of supporting manufacturer who sells goods or merchandise to any Export House or Trading House, the condition of receipt of sale proceeds in convertible foreign exchange, will not apply.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Sub-clause (b) seeks to substitute sub-section (3) by a new sub-section to provide that the profits derived from the export of goods or merchandise as computed under the head "Profits and gains of business or profession" shall be worked out in the same proportion as the sale proceeds received in, or brought into, India in convertible foreign exchange bear to the total sale proceeds of such goods or merchandise.

Sub-clause (c) (i) seeks to amend the definition of the expression "export turnover" in the *Explanation* so as to mean the sale proceeds, received in, or brought into, India by the assessee in convertible foreign exchange in accordance with clause (a) of sub-section (2), of any goods or merchandise exported out of India.

Sub-clause (c) (ii) seeks to insert a new clause (bb) in the *Explanation* to provide that the expression "total turnover" shall not include any sum receivable by an exporter by way of profit on sale of a licence granted under the Imports (Control) Order, 1955, cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India and the repayment of any duty of customs or excise as drawback to any person against exports under the Customs and Central Excise Duty Drawback Rules, 1971, referred to in clauses (iiia), (iiib) and (iiic) of section 28 respectively.

Sub-clause (c) (iii) seeks to amend clause (d) of the *Explanation* so as to extend the benefit of deduction to a person who processes goods or merchandise and sells the same to an Export House or Trading House for the purposes of export.

The proposed amendments, other than in sub-clause (a) (ii), will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 21 seeks to amend section 80HHD of the Income-tax Act relating to deduction in respect of earnings in convertible foreign exchange.

Sub-clause (a) seeks to amend sub-section (2) of that section to provide that the deduction under it shall be available only in respect of the receipts which are received in, or brought into, India by the assessee in convertible foreign exchange within a period of six months from the end of the previous year or within such further period as the Chief Commissioner or Commissioner may, for reasons to be recorded in writing, allow.

Sub-clause (b) seeks to amend sub-section (3) to provide that the deduction under the section shall be restricted in the proportion as the receipts in convertible foreign exchange received in, or brought into, India bear to the total receipts of the business carried on by the assessee.

The proposed amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 22 seeks to amend section 80-I of the Income-tax Act relating to deduction in respect of profits and gains from industrial undertakings, etc.

Sub-clause (a) seeks to insert sub-section (1A). This sub-section provides that in relation to any profits and gains derived by an assessee from —

(i) an industrial undertaking which begins to manufacture or produce articles or things or to operate its cold storage plant or plants; or

(ii) a ship which is first brought into use; or

(iii) the business of a hotel which starts functioning,

on or after the 1st day of April, 1990, a deduction at the rate of thirty per cent. or twenty-five per cent. from such profits and gains shall be allowed in the case of corporate and non-corporate assessees respectively.

Sub-clauses (b), (c) and (d) seek to provide that the deduction provided in this section shall also be allowable in the case of the industrial undertakings, etc., which are set up on or after the 1st day of April, 1990, but before the 31st day of March, 1995.

Sub-clause (e) seeks to provide that the deduction in the case of profits and gains derived by the assessee from industrial undertakings, etc., referred to in sub-section (1A) shall be allowed for ten assessment years. Further, in the case of an assessee, being a co-operative society, deriving profits and gains from an industrial undertaking or a ship or a hotel referred to in that sub-section, this deduction is proposed to be provided for twelve assessment years.

These amendments will take effect from 1st April, 1990.

Clause 23 seeks to insert an *Explanation* at the end of sub-section (1) of section 80L of the Income-tax Act relating to deduction in respect of interest on certain securities, dividends, etc.

Under the existing provisions, interest on any security of the Central Government or a State Government is allowed as deduction within specified limits. The proposed amendment is to clarify that the securities referred to shall be the securities as defined in clause (2) of section 2 of the Public Debt Act, 1944.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years.

Clause 24 seeks to substitute a new section for section 80M of the Income-tax Act relating to deduction in respect of certain inter-corporate dividends.

Under the existing provisions of section 80M, in the case of a domestic company, an amount equal to sixty per cent. of the income by way of dividends from another domestic company is allowed as a deduction in the computation of the total income of such domestic company.

Sub-section (1) of the new section seeks to provide that (a) in the case of a domestic company, being a scheduled bank or a public financial institution, an amount equal to sixty per cent. of the income by way of dividends from another domestic company shall be allowed as a deduction in the computation of the total income of such domestic company; and (b) in the case of other domestic companies, an amount equal to so much of the amount of income by way of dividends from another domestic company, as does not exceed the amount of dividends distributed by such domestic company on or before the due date for furnishing return of income shall be allowed as a deduction in the computation of the total income of such domestic company.

Sub-section (2) of the new section seeks to provide that where any deduction in respect of the amount of the dividend distributed by the domestic company has been allowed under clause (ii) of new sub-section (1) in any previous year, no deduction shall be allowed in respect of such amount in any other previous year.

Sub-section (3) of the new section seeks to make a transitory provision so as to disallow any claim for deduction relating to dividend distributed in respect of any period comprised in the previous year ending on the 31st day of March, 1990.

The *Explanation* to the new section seeks to define the expressions "scheduled bank", "public financial institution" and "due date".

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 25 seeks to amend section 80R of the Income-tax Act relating to deduction in respect of remuneration from certain foreign sources in the case of professors, teachers, etc.

Under the existing provisions, an individual who is a citizen of India and renders any service outside India in his capacity as a professor, teacher or research worker in any University or other educational institution or any other association or body established outside India is allowed a deduction equal to 50 per cent. of the remuneration received.

Under sub-clause (a) of the proposed amendment, the deduction allowable to such an individual will be of an amount equal to (i) fifty per cent. of the remuneration; or (ii) seventy-five per cent. of such remuneration as is brought into India by, or on behalf of, the assessee in accordance with the provisions of the Foreign Exchange Regulation Act, 1973 and any rules made thereunder, whichever is higher.

Sub-clause (b) of the proposed amendment seeks to omit the proviso which restricts the deduction allowable under that section to a period not exceeding thirty-six months.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 26 seeks to amend section 80RR of the Income-tax Act relating to deduction in respect of professional income from foreign sources in certain cases.

Under the existing provisions, an individual resident in India, being an author, playwright, artist, musician, actor or sportsman (including an athlete) whose income includes any income derived by him in the exercise of his profession from the Government of a foreign State or any person not resident in India, is allowed a deduction from such income of an amount equal to twenty-five per cent. of the income so received in, or brought into, India in accordance with the Foreign Exchange Regulation Act, 1947 and any rules made thereunder.

Under the proposed amendment, the deduction allowable to such an individual will be of an amount equal to (i) fifty per cent. of such income; or (ii) seventy-five per cent. of such income as is brought into India by, or on behalf of, the assessee in accordance with the provisions of the Foreign Exchange Regulation Act, 1973 and any rules made thereunder, whichever is higher.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 27 seeks to amend section 80RRA of the Income-tax Act relating to deduction in respect of remuneration received for services rendered outside India.

The proposed amendment seeks to omit the proviso to sub-section (1) of section 80RRA which restricts the deduction allowable under that sub-section to a period not exceeding thirty-six months.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 28 seeks to insert new provisions relating to rebate of income-tax in respect of investment in Life Insurance premium, provident fund, etc. and certain equity shares and units.

Presently, the tax concession in respect of investment in Life Insurance premium, provident fund, etc., as contained in section 80C and certain equity shares as contained in section 80CC is allowed by way of a deduction from the gross total income. However, the total deduction is restricted to the amount of gross total income.

The new provisions now seek to provide that in respect of these investments, deduction shall be allowed from the income-tax payable on the total income of any assessment year.

The new provision under section 87 seeks to provide that the total deduction of income-tax allowable to an assessee under sections 88 and 88A in any previous year shall not exceed the total amount of tax (as computed before allowing the deductions under the said sections) payable by him on the total income of such previous year.

The new provision under section 88 seeks to provide that an assessee shall be entitled to a deduction from the amount of income-tax (as computed before allowing the deductions under Chapter VIII-A) payable on the total income of any assessment year, of an amount equal to twenty per cent. of the amount paid or deposited in the various schemes enumerated in sub-section (2).

Sub-section (3) of section 88 provides that the amount of deduction in respect of premium on an insurance policy will be with reference to an amount of premium not exceeding ten per cent. of the actual capital sum assured.

Sub-section (4) of section 88 seeks to specify the persons in whose name the investments can be made.

Sub-section (5) of section 88 seeks to provide that no deduction shall be allowed with reference to so much of the amount as exceeds rupees ten thousand in respect of any sum paid or deposited for the purposes of purchase or construction of a residential house property the construction of which is completed after the 31st March, 1987 as provided in clause (xv) of sub-section (2).

Sub-section (6) of section 88 seeks to provide that the deduction

from the amount of income-tax under sub-section (1) shall not exceed fourteen thousand rupees in the case of an author, playwright, artist, musician, actor or sportsman (including an athlete) and ten thousand rupees, in other cases.

Sub-section (7) of section 88 seeks to provide the consequences in the event of failure to continue to participate in certain schemes or transfer the house property referred to in clause (xv) of sub-section (2) before the expiry of two years or five years as mentioned in that sub-section.

The new provision under section 88A seeks to substitute the existing provision of section 80CC with certain modifications. Presently, deduction in respect of investment in eligible issue of capital or the units under the Scheme of the Mutual Fund referred to in clause (23D) of section 10 or of the Unit Trust of India is allowed from the gross total income. The new provisions seek to provide that deduction at the rate of twenty per cent. of the amount of investment in the eligible issue of capital or such units will now be allowed from the amount of income-tax (as computed before allowing the deductions under Chapter VIII-A) payable by the assessee on the total income of any assessment year. The total amount of investment now eligible for deduction has been increased to rupees twenty-five thousand from rupees twenty thousand.

Further, the new section 88A also seeks to provide that the Mutual Funds and the Unit Trust of India shall invest the funds mobilised by them in the eligible issue of capital within a period of six months from the close of subscription to their schemes. Pending investment in the eligible issue of capital, they may invest their funds in such securities of the Central Government as may be approved by the Board in this behalf.

The aforesaid provision also seeks to provide that the tax concession will not be available in respect of investment in the units of any scheme of Mutual Fund or the Unit Trust of India, the subscription to which closes after 30th September, 1990.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to assessment year 1991-92 and subsequent years.

Clause 29 seeks to amend section 115-I of the Income-tax Act relating to non-application of Chapter XII-A at the option of the assessee.

The proposed amendment seeks to do away with the requirement of filing a separate declaration in writing by a non-resident Indian along with his return of income to opt that the Chapter shall not apply to him in an assessment year. After the amendment, such option can be exercised by him by filling in the appropriate column in the return of income.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years.

Clause 30 seeks to amend sub-section (1) of section 115J of the Income-tax Act containing special provisions relating to certain companies.

The proposed amendment seeks to provide that the provisions of this section shall not apply to an assessment year which commences on or after the 1st day of April, 1991.

This amendment will take effect from 1st April, 1990.

Clause 31 seeks to amend section 119 of the Income-tax Act.

Under the existing provisions of clause (a) of sub-section (2) of the section, the Board is empowered to relax the provisions of certain sections of the Act, mentioned in the said clause, relating to assessment and collection of revenue in respect of any class of incomes or class of cases.

The proposed amendment seeks to incorporate references of sections 139, 234A and 234B also in the said clause (a).

This amendment will take effect from 1st April, 1990.

Clause 32 seeks to amend section 139 of the Income-tax Act relating to the return of income.

Sub-clause (a) seeks to provide that the due date for furnishing the return of income in a case where the assessee, other than a company, is required to furnish a report of an accountant under section 80HHC or section 80HHD, shall be the 31st day of October of the assessment year.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Sub-clause (b) seeks to substitute a new clause for clause (b) of the proviso to sub-section (10) of that section so that a firm as well as a partner of a firm can file the return of income even if the income is below the taxable limit.

This amendment will take effect from 1st April, 1990.

Clause 33 seeks to amend section 139A of the Income-tax Act relating to allotment of permanent account number.

The proposed amendment seeks to make it obligatory for all categories of persons who are required to furnish their returns of income under the provisions of sub-section (4A) of section 139, to apply for the allotment of permanent account number.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years.

Clause 34 seeks to amend section 142 of the Income-tax Act.

The proposed amendment seeks to amend clause (i) of sub-section (1) of that section so that a notice calling for a return of income can be issued under sub-section (1) of that section even within the relevant assessment year after the time allowed under sub-section (1) of section 139 for filing the return has expired.

This amendment will take effect from 1st April, 1990.

Clause 35 seeks to amend section 143 of the Income-tax Act relating to assessment.

The proposed amendment seeks to insert a new sub-section (1B) in that section to cover cases where a revised return is furnished by an assessee under sub-section (5) of section 139. The provisions of sub-sections (1) and (1A) of this section shall apply in relation to such revised returns. In view of the proposed amendments, the intimation already sent for any income-tax, additional income-tax or interest can be amended on the basis of the said revised return and the amount of income-tax, additional income-tax or interest can be enhanced or reduced as a result of such amendments. Similarly, the amount of refund already granted can be enhanced or reduced on the basis of the said revised return. It is, however, being provided that an assessee, who has furnished a revised return after the service upon him of the intimation under sub-section (1) of section 143, shall be liable to pay additional income-tax in relation to the adjustments made under the first proviso to clause (a) of sub-section (1) and specified in the said intimation, whether or not, the assessee has made the said adjustments in the revised return.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Clause 36 seeks to amend section 145 of the Income-tax Act relating to the method of accounting.

The proposed amendment seeks to insert a new proviso to provide that no assessee shall be precluded from being charged to income-tax in respect of any interest on securities received by him in a previous year, if such interest had not been charged to income-tax for any earlier previous years.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Clause 37 seeks to amend section 151 of the Income-tax Act.

The proposed amendment seeks to amend sub-section (1) of that section to provide that where an assessment has been completed under section 143(3) or section 147, an Assessing Officer below the rank of Assistant Commissioner can reopon the assessment with the approval of the Deputy Commissioner, if he finds that any income has escaped assessment.

This amendment will take effect from 1st April, 1990.

Clause 38 seeks to insert a new section 194F in the Income-tax Act relating to deduction of tax at source. Under the proposed section, the person responsible for paying to any person any amount referred to in sub-section (2) of section 80CCB shall deduct income-tax thereon at the rate of twenty per cent.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 39 seeks to amend section 246 of the Income-tax Act.

Under the proposed amendments, appeals against orders imposing penalties under sections 271C, 271D and 271E are now to be filed before the Commissioner (Appeals) instead of before the Deputy Commissioner (Appeals). These amendments are consequential to the amendments made in sections 271C, 271D and 271E of the Act.

These amendments will take effect from 1st April, 1990.

Clause 40 seeks to amend section 268 of the Income-tax Act.

Under the existing provisions of the section, if the assessee was not furnished with a copy of the order when the notice of the order was served upon him, then, in computing the period of limitation prescribed for an appeal, the time required for obtaining a copy of such order shall be excluded.

The proposed amendment seeks to apply the said provisions to applications made under section 256.

This amendment will take effect from 1st April, 1990.

Clause 41 seeks to insert a new section 271BB in the Income-tax Act relating to penalty for failure to subscribe to the eligible issue of capital.

The new provision seeks to provide that whoever fails to subscribe any amount of subscription to the units issued under any scheme referred to in sub-section (1) of section 88A to the eligible issue of capital under that sub-section within the period of six months specified therein, may be directed by the Deputy Commissioner to pay by way of penalty a sum equal to twenty per cent. of the amount not subscribed to the eligible issue of capital.

This amendment will take effect from 1st April, 1990.

Clauses 42, 43 *and* 44 seek to amend sections 271C, 271D and 271E of the Income-tax Act.

The proposed amendments seek to insert a new sub-section (2) in each of the said sections to provide that penalty under each section shall be imposed by the Deputy Commissioner.

These amendments will take effect from 1st April, 1990.

Clause 45 seeks to amend section 275A of the Income-tax Act relating to punishment for contravention of certain orders made under section 132.

The proposed amendment seeks also to provide for punishment in case of contravention of an order made by the authorised officer under the second proviso to sub-section (1) section 132 prohibiting the owner or person who is in immediate possession or control of any valuable article or thing from removing it.

This amendment will take effect from 1st April, 1990.

Clause 46 seeks to omit Chapter XXII-B of the Income-tax Act relating to tax credit certificates.

Under the provisions of this Chapter, which was introduced with effect from 1st April, 1965, tax credit certificates were granted to assessees fulfilling certain conditions. These certificates were to be utilised for the adjustment of the tax liability or for refund or both. This Chapter has now become virtually redundant and is, therefore, being omitted. However, if a person still possesses any tax credit certificates granted under section 280Z or section 280ZC, he shall be allowed to utilise the same up to 31st March, 1991.

This amendment will take effect from 1st April, 1990.

Clause 47 seeks to amend section 288 of the Income-tax Act.

The proposed amendment in clause (b) of sub-section (4) of that section seeks to provide that a person on whom penalty has been imposed under section 271(1)(ii) shall not be disqualified to represent an assessee as authorised representative.

This amendment will take effect from 1st April, 1990.

Clause 48 seeks to make certain amendments of a consequential nature in different provisions of the Income-tax Act.

Clause 49 seeks to amend section 2 of the Wealth-tax Act.

The proposed amendment seeks to amend the definition of the expression "regular assessment" given in clause (ob) of that section so as to clarify that it would mean an assessment made only under sub-section (3) or sub-section (5) of section 16.

This amendment will take effect retrospectively from 1st April, 1989.

Clause 50 seeks to amend clause (xxviic) of sub-section (1) of section 5 of the Wealth-tax Act to extend the exemption from wealth-tax in respect of deposits made, in accordance with the scheme referred to in item (i) of sub-clause (iv) of clause (15) of section 10 of the Income-tax Act by an employee of the Central Government or a State Government, also to deposits made by an employee of the public sector company. It is also proposed to insert an *Explanation* in that clause to define the expression "public sector company".

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Clause 51 seeks to amend section 10 of the Wealth-tax Act.

The proposed amendment seeks to empower the Central Board of Direct Taxes to relax the provisions of sections 14, 15 and 17B also in respect of any class of cases.

This amendment will take effect from 1st April, 1990.

Clause 52 seeks to amend section 16 of the Wealth-tax Act relating to assessment.

Sub-clause (a) seeks to insert a new sub-section (1B) on the lines of similar sub-section inserted in section 143 of the Income-tax Act *vide* clause 35.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Sub-clause (b) seeks to amend sub-section (4) on the lines of similar amendment made in section 142 (1) of the Income-tax Act *vide* clause 34.

This amendment will take effect from 1st April, 1990.

Clause 53 seeks to amend section 17 of the Wealth-tax Act.

The proposed amendment seeks to amend clause (a) of sub-

section (1B) of that section on the lines of similar amendment made in the corresponding section 151(1) of the Income-tax Act.

This amendment will take effect from 1st April, 1990.

Clause 54 seeks to insert a new section 35EEE in the Wealth-tax Act.

The new section seeks to provide for punishment in case of contravention of an order made by the authorised officer under the second proviso to sub-section (1) or sub-section (3A) of section 37A prohibiting the owner or person who is in immediate possession or control of any valuable article or thing from removing it. Any person contravening the said orders shall be punishable with rigorous imprisonment up to two years and with fine.

This amendment will take effect from 1st April, 1990.

Clause 55 seeks to amend sub-section (1) of section 35K of the Wealth-tax Act relating to bar on prosecution, etc.

The proposed amendment seeks to apply sub-section (1) of section 35K to the assessment in any assessment year so that no person is proceeded against for an offence under section 35A or section 35D where the penalty imposed or imposable under section 18(1)(iii) has been reduced or waived under section 18B.

This amendment will take effect restrospectivly from 1st April, 1989.

Clause 56 seeks to substitute a new rule for the existing rule 18 of Schedule III to the Wealth-tax Act.

Under the existing provisions of clause (a) of rule 18, the Assessing Officer has to compulsorily accept the valuation declared by the assessee in the return in case the declared value of the jewellery does not exceed rupees five lakhs.

Clause (b) provides that in every case where the value of jewellery declared is in excess of rupees five lakhs, the Assessing Officer has to compulsorily refer it to the Valuation Officer.

The proposed amendment seeks to provide that the value of jewellery shall be estimated to be the price which it would fetch if sold in the open market on the valuation date. However, if the Assessing Officer is of the opinion that the value of jewellery declared in the return is less than the fair market value, he may, having regard to the provisions of clause (a), or sub-clause (i) of clause (b), of sub-section (1) of section 16A, refer it to the Valuation Officer and the value estimated by the said Officer shall be the value of such jewellery. It is also being provided that the assessee has to make a statement in the prescribed form, where the value of jewellery declared by him in the return does not exceed rupees five lakhs. However, where the value of the jewellery declared by the assessee exceeds rupees five lakhs, the return has to be supported by a report of the registered valuer.

A consequential amendment is also being made in rule 19.

These amendments will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years.

Clause 57 seeks to amend section 9 of the Gift-tax Act.

The proposed amendment seeks to empower the Central Board of Direct Taxes to relax the provisions of sections 13, 14 and 16B also in respect of any class of cases.

This amendment will take effect from 1st April, 1990.

Clause 58 seeks to amend section 15 of the Gift-tax Act relating to assessment.

Sub-clause (a) seeks to insert a new sub-section (1B) on the lines of similar sub-section inserted in section 143 of the Income-tax Act *vide* clause 35.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

Sub-clause (b) seeks to amend sub-section (4) on the lines of similar amendment made in section 142 (1) of the Income-tax Act *vide* clause 34.

This amendment will take effect from 1st April, 1990.

Clause 59 seeks to amend section 16 of the Gift-tax Act.

The proposed amendment seeks to amend clause (a) of sub-section (1B) of that section on the lines of similar amendment made in the corresponding section 151(1) of the Income-tax Act.

This amendment will take effect from 1st April, 1990.

Clause 60 seeks to amend the Customs Act, 1962.

Sub-clause (a) seeks to substitute sub-section (5) of section 129C to provide that where the members of a Bench differ in opinion on any point, the point shall be decided according to the opinion of the majority, but if the members are equally divided, they shall state the point or points on which they differ and make a reference to the President who shall either hear the point or points himself or refer the case for hearing on such point or points by one or more of the other members. Such point or points shall be decided according to the opinion of the majority including the members who had first heard the point or points.

Sub-clause (b) seeks to insert a new section 154A which provides for rounding off of duty, interest, penalty, fine or any other sum payable or due under the provisions of the Act.

Clause 61 read with the Second Schedule seeks to amend the Customs Tariff Act, 1975 to—

(a) raise the basic customs duty rates on—

(1) Ash and residues, containing mainly copper; and

(2) Sparking plugs;

(b) restructure the basic customs duty on specific cum *ad valorem* basis on—

(1) Saccharin and its salts;

(2) Slide fasteners and parts thereof.

Clause 62 seeks to levy up to the 31st March, 1991, auxiliary duties of customs on all imported goods at the rate of 50% of their value.

Clause 63 seeks to amend the Central Excises and Salt Act, 1944, so as to insert a new section 37D which provides for rounding off of duty, interest, penalty, fine or any other sum payable or due under the provisions of the Act.

Clause 64 read with the Third Schedule seeks to amend the Central Excise Tariff Act, 1985 to —

(a) impose a levy on Ethyl alcohol other than alcoholic liquors for human consumption;

(b) raise the statutory rates of basic excise duty on—

(1) Whole milk powder;

(2) Coffee substitutes, coffee husks and skins;

(3) Malt, inulin and wheat gluten;

(4) Gums, resins and other vegetable saps and extracts;

(5) Vegetable plaiting materials and other vegetable products;

(6) Animal fats and oils, industrial fatty acids and alcohols, vegetable and insect waxes;

(7) Cocoa and Cocoa preparations;

(8) Roasted chicory and other roasted coffee substitutes extracts, essences or concentrates of coffee, yeast, baking powders, ice cream and pan masala;

(9) Vinegar and substitutes thereof;

(10) Cigarettes and certain other tobacco products;

(11) Hydroxides and peroxides of sodium and potassium Alumium hydroxide;

(12) DMT and PTA;

(13) Glands and other organs and extracts thereof, heparin

and its salts, for therapeutic or prophylactic uses;

(14) Organic surface active agents, surface-active preparations and washing preparations;

(15) Certain varieties of tyres and flaps;

(16) Certain articles of leather;

(17) Manufactures of furskins and artificial fur;

(18) Certain specified wood products;

(19) Certain articles of paper and paperboard;

(20) Paper transfers;

(21) Jute and jute products;

(22) Textile fabrics, coated, covered or laminated with plastics;

(23) Mill stones, grind stones and certain other articles of stone, plaster, cement, asbestos, mica and similar materials;

(24) Glass inners for vacuum flasks and other vacuum vessels;

(25) Certain specified precious metals and articles thereof;

(26) Pig iron, ferrous products obtained by direct reduction of iron ore and other spongy ferrous products;

(27) Iron ingots, waste and scrap of iron or steel, granules, powders, etc., of pig iron;

(28) Tubes, pipes and hollow profiles of iron or steel;

(29) Certain cooking and other appliances of iron or steel and other cast articles of iron or steel;

(30) Lead and articles thereof;

(31) Certain specified articles of zinc;

(32) Video recording or reproducing apparatus;

(33) Certain electrical machines and apparatus having individual functions;

(34) Motor cars and other motor vehicles for transport of persons; chassis for public transport type passenger motor vehicles and vehicles for the transport of goods; and

(35) vacuum flasks and other vacuum vessels and parts thereof;

(c) reduce the statutory rates of basic excise duty on—

(1) Chemically pure sucrose, sugar preparations and sugar confectionary, not containing cocoa;

(2) Residues and waste from food industries;

(3) Cement clinkers, aluminous cement and marble residues;

(4) Ores, slag and ash;

(5) Certain types of tyres;

(6) Leather;

(7) Manufactures of straw, esparato and other plaiting materials;

(8) Wood pulp;

(9) Foot wear and parts thereof;

(10) Headgear and parts thereof;

(11) Walking sticks, seat sticks, whips, etc.;

(12) Artificial flowers and articles of human hair;

(d) change the tariff description and restructure the duty rates in respect of—

(1) Certain mineral substances;

(2) Tyres for animal drawn vehicles and hand carts;

(3) Cotton yarn and fabrics;

(4) Synthetic and artificial filament yarn and man-made fabrics;

(5) Linoleum and other textile floor coverings and wall coverings;

(e) change the Chapter Notes in respect of—

(1) Chapter 25, so as to replace the existing Note 2 as a consequence of restructuring of tariff description of mineral substances;

(2) Chapter 40, so as to amend Note 9 to clarify the scope of plates, sheets and strips of vulcanised rubber, other than hard rubber, for resoling or repairing or retreading of rubber tyres;

(3) Chapter 44, so as to introduce a new Chapter Note to provide a definition for "similar laminated wood";

(4) Chapter 48, so as to introduce a new Chapter Note to provide a definition for "wall paper and similar wall coverings";

(5) Chapter 59,—

(a) so as to amend Note 2 relating to impregnated/coated fabrics to cover all partially or discretely plastic coated textile fabrics in heading No. 59.03;

(b) so as to introduce a new Chapter Note to provide a definition for "textile wall coverings".

Clause 65 seeks to levy up to the 31st March, 1991, special duties of excise on all excisable goods at the rate of 10 per cent, of the duty leviable under the Central Excises and Salt Act, 1944 read with the Schedule to the Central Excise Tariff Act, 1985.

Clause 66 read with the Fourth Schedule seeks to amend the First Schedule to the Additional Duties of Excise (Goods of Special Importance) Act, 1957, so as to—

(a) raise the additional excise duty on—

(1) Cigarettes;

(2) Textile fabrics, coated or covered or laminated with plastics;

(b) omit from the scope of additional excise duty in lieu of sales tax—

(1) Woollen hair belting and woollen blankets;

(2) Certain rubberised textile fabrics;

(c) change the tariff description and the duty rates in respect of cotton and man-made fabrics.

Clause 67 seeks to raise the additional excise duty under the Additional Duties of Excise (Textiles and Textile Articles) Act, 1978, from 15 per cent. to 20 per cent. of the duty leviable under the Central Excises and Salt Act, 1944 read with the Schedule to the Central Excise Tariff Act, 1985.

Clause 68 seeks to repeal the Khadi and other Handloom Industries Development (Additional Excise Duty on Cloth) Act, 1953.

Clause 69 seeks to amend sections 41 and 42 of the Finance Act, 1989, so as to make applicable the levy of inland air travel tax on the entire ticket fare, whether paid in Indian currency or in any other currency, from a date to be notified by the Central Government.

Clause 70 seeks to substitute the First Schedule to the Indian Post Office Act, 1898 so as to revise the rates of certain inland postal services included therein.

It is proposed to increase the rate of printed post card from the existing 40 paise to 60 paise.

The rate of letter card is 35 paise plus 15 paise as stationery charge for embossed letter card. It is now proposed to fix a rate of 75 paise per letter card and do away with the stationery charge.

For envelopes the present rate is 60 paise for the first 10 gms. and 40 paise for every 10 gms. in excess of 10 gms. There is a stationery charge of 15 paise for embossed envelopes. It is now proposed to fix a rate of Re.1 for the first 20 gms. and Re.1 for every additional 20 gms. or fraction thereof. It is also proposed to do away with the present stationery charge.

The present rate of book pattern and sample packets is 50 paise for the first 50 gms. and 50 paise for every additional 50 gms. It is now proposed to fix a rate of Re.1 for the first 50 gms. and Re.1 for every additional 100 gms. or fraction thereof.

The present rate for parcel is Rs. 4 for every 500 gms. or fraction thereof. It is now proposed to increase it to Rs. 6 for every 500 gms. or fraction thereof.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 10 of the Bill seeks to substitute sub-section (1) of section 35CCB of the Income-tax Act. Under clause (a) of that sub-section, programmes of conservation of natural resources or afforestation are to be approved by an authority prescribed by rules. Under clause (b) of that sub-section, the Central Government is empowered to notify a fund for afforestation for the purposes of that section.

Clause 11 of the Bill seeks to substitute *Explanation* 4 of section 43B of the Income-tax Act. Under clause (c) of *Explanation* 4, the Central Government is empowered to approve State Industrial Investment Corporations engaged in the business of providing long-term finances for the purposes of section 43B.

Clause 15 of the Bill seeks to insert a new section 80CCB in the Income-tax Act. Under sub-section (1) of that section, the Central Government is empowered to specify a scheme under which plans are to be formulated for the purposes of issuing units of any Mutual Fund or of the Unit Trust of India.

Clause 16 of the Bill seeks to insert a new section 80DD in the Income-tax Act. Under clause (b) of sub-section (1) of that section, the Central Board of Direct Taxes is empowered to make rules for specifying permanent physical disability and the extent of mental retardation which will enable an assessee to claim benefit under the said section.

Section 28 of the Bill seeks to insert new sections 87, 88 and 88A in the Income-tax Act. Under clauses (v), (ix), (xi), (xiii), (xiv) and (xv) of sub-section (2) of section 88, the Central Government is empowered to specify various matters in relation to certain funds and schemes covered by the said clauses. Under the proviso to sub-section (1) of section 88A, proviso to sub-clause (ii) and sub-clause (iv) of clause (a) of sub-section (3) of that section and under clause (d) of that sub-section, the Central Board of Direct Taxes is empowered to approve certain securities of the Central Government and to make rules for the purposes of the said provisions.

Clauses 31, 51 and 57 of the Bill seek to amend section 119 of the Income-tax Act, section 10 of the Wealth-tax Act and section 9 of the Gift-tax Act, respectively. Under the proposed amendments, the Central Board of Direct Taxes is being empowered to issue general or special orders in respect of any class of incomes or class of cases in relation to matters covered by section 139, section 234A and section 234B of the Income-tax Act, section 14, section 15 and section 17B of the Wealth-tax Act and section 13, section 14 and section 16B of the Gift-tax Act respectively.

Clause 56 of the Bill seeks to make certain amendments in Schedule III to the Wealth-tax Act. Under clauses (i) and (ii) of sub-rule (2) of rule 18, the Central Board of Direct Taxes is being empowered to make rules for prescribing forms in which the assessee will make a statement or, as the case may be, the valuer of jewellery will give a report.

The aforesaid provisions of the Income-tax Act, the Wealth-tax Act and the Gift-tax Act empower the Central Government or the Central Board of Direct Taxes to issue notifications, specify schemes and make rules for the purposes specified in the relevant provisions. The matters in respect of which notifications may be issued or schemes may be specified or rules may be made in accordance with the aforesaid provisions are matters of administrative detail or procedure and it is not practicable to provide for them in the Bill itself.

The delegation of legislative power is, therefore, of a normal character.

LOK SABHA

A

BILL

to give effect to the financial proposals of the Central Government for the financial year 1990-91.

(Prof. Madhu Dandavate,
Minister of Finance.)

6

Memorandum explaining the Provisions in the Finance Bill 1990

FINANCE BILL, 1990

PROVISIONS RELATING TO DIRECT TAXES

The provisions in the Finance Bill, 1990, in the sphere of direct taxes relate to the following matters:

(i) Prescribing the rates of income-tax on incomes liable to tax for the assessment year 1990-91; the rates at which tax will be deductible at source during the financial year 1990-91 from interest (including interest on securities), dividends, salaries paid to employees, winnings from lotteries or crossword puzzles, winnings from horse-races, insurance commission and other categories of income liable to deduction of tax at source under the Income-tax Act; rates for computation of "advance tax" and charging of income-tax on current incomes in certain cases for the financial year 1990-91.

(ii) The Finance Act, 1989, provided that in the case of any income chargeable to tax under the head "Salaries" or in respect of which advance tax is to be paid, where the total income in such cases exceeds fifty thousand rupees, the amount of income-tax deducted or the advance tax paid, is to be increased by a surcharge calculated at the rate of 8 per cent. of such income-tax. Further, in respect of any payment by way of interest, dividends, winnings from lotteries or crossword puzzles, winnings from horse-races or payments to contractors and sub-contractors, the amount of tax deducted at source had to be increased by a surcharge calculated at the rate of 8 per cent. of the tax deducted. However, surcharge was not to be paid or deducted at source in respect of any income or any payment made to a non-resident or a foreign company. The provision for levy of surcharge has, therefore, been incorporated in Part I of the First Schedule.

(iii) It is proposed to continue the levy of surcharge to provide relief for the unemployed at the rate of 8 per cent of income-tax in respect of -

(a) any payment made during the financial year 1990--91, on which tax is deductible at source; and

(b) any income on which advance tax is payable during the financial year 1990-91 or any income earned and chargeable to tax in the said year, where the total income exceeds seventy five thousand rupees.

However, no surcharge will be levied on incomes in respect of which payment is made to a non-resident or a foreign company, or incomes on which advance tax is payable by the non-resident or the foreign company.

(iv) Amendment of the Income-tax Act, 1961, with a view to incorporating certain incentives for savings, industrialisation, promoting afforestation, welfare, earning foreign exhange and simplification and rationalisation of certain provisions and certain other matters.

(v) Amendment of the Wealth-tax Act, 1957, with a view to rationalise certain provisions.

(vi) Amendment of the Gift-tax Act, 1958, with a view to rationalise certain provisions.

2. Subject to certain exceptions, which have been indicated while dealing with the relevant provisions, the Bill follows the principle that changes in the rates of tax, as also in the provisions of the tax laws, should ordinarily be made operative prospectively in relation to current incomes and not in relation to income of past years. The provisions relating to deduction of tax at source have been generally made applicable with effect from 1st June, 1990. The substance of the main provisions in the Bill relating to direct taxes is explained in the following paragraphs:-

INCOME-TAX

I. Rates of income-tax in respect of incomes liable to tax for the assessment year 1990-91.

3. In respect of incomes of all categories of taxpayers (corporate as well as non-corporate) liable to tax for the assessment year 1990-91, the rates of income-tax (including surcharge thereon) have been specified in Part I of the First Schedule to the Bill and are the same as those laid down in Part III of the First Schedule to the Finance Act, 1989, for the purposes of computation of "advance tax", deduction of tax at source from salaries and computation of tax payable in certain cases during the financial year 1989-90.

II. Rates for deduction of tax at source during the financial year from income other than "Salaries".

4. The rates for deduction of income-tax at source during the financial year 1990-91 from incomes other than "Salaries" have been specified in Part II of the First Schedule to the Bill. These rates apply to income by way of interest on securities, interest other than 'interest on securities', dividends, insurance commission, winnings from lotteries, crossword puzzles and horse-races and income of non-residents (including non-resident Indians) other than salary income. These rates are basically the same as those specified in Part II of the First Schedule to the Finance Act, 1989, for purposes of deduction of tax at source during the financial year 1989-90.

III. Rates for deduction of tax at source from "Salaries", computation of "advance tax" and charging of income-tax in special cases during the financial year 1990-91.

5. The rates for deduction of tax at source from "Salaries" during the financial year 1990-91 and also for the computation of "advance tax" payable during that year in the case of all categories of taxpayers have been specified in Part III of the First Schedule to the Bill. These rates are also applicable for charging income-tax during the financial year 1990-91 on current incomes in cases where accelerated assessments have to be made, e.g., provisional assessment of shipping profits arising in India to non-residents, assessment of persons leaving India for good during the financial year 1990-91, assessment of persons who are likely to transfer property to avoid tax or where an order has to be passed in a case of search and seizure for calculating the amount of tax on the estimated undisclosed income, etc.

6. In the case of a person whose income exceeds seventy five thousand rupees, the amount of income-tax deductible or advance tax payable or income-tax payable, as the case may be, shall be increased by a surcharge calculated at the rate of eight per cent. of the tax so deductible or advance tax or income-tax so payable. However, no such surcharge shall be levied in a case where the payment is made to or advance tax or income-tax is payable on the income of a non-resident (including a non-resident Indian) or a foreign company.

IV. Individuals, Hindu undivided families, associations of persons, bodies of individuals, co-operative societies and local authorities.

7. In the case of individuals, Hindu undivided families, associations of persons etc., the rates of income-tax have been specified in Paragraph A of Part III of the First Schedule to the Bill. In the case of co-operative societies and local authorities, the rates of income-tax have

been specified in Paragraph B and Paragraph D respectively of Part III of the First Schedule to the Bill, which is the same as in Part III of the First Schedule to the Finance Act, 1989. It is proposed to restructure the rate schedule applicable in the case of individuals, Hindu undivided families (other than those having at least one member whose total income exceeds the exemption limit), unregistered firms, associations of persons, bodies of individuals and artificial juridical persons by raising the exemption limit from Rs. 18,000 to Rs. 22,000 and by introducing a new slab of income of Rs.22,000 to Rs. 30,000 on which the rate of tax is proposed to be 20 per cent. The next slab of income will be Rs. 30,000 to Rs. 50,000 on which the rate of tax leviable shall be 30 per cent. For total income exceeding Rs. 50,000, the slabs of income and the rates of tax will remain unchanged. The impact of increase in exemption limit and the widening of the first slab of income, on taxpayers at different income levels is as under:-

Table *(in rupees)*

Total Income	Existing Tax Liability	* New Tax Liability	Proposed Relief	
			Amount	Col.(4) as percentage of Col, (2)
(1)	(2)	(3)	(4)	(5)
18,000	*Nil*	*Nil*	*Nil*	--
19,000	200	*Nil*	200	100
20,000	400	*Nil*	400	100
21,000	600	*Nil*	600	100
22,000	800	*Nil*	800	100
23,000	1,000	200	800	80
24,000	1,200	400	800	66.7
25,000	1,400	600	800	57.1
26,000	1,700	800	900	52.9
28,000	2,300	1,200	1,100	47.8
30,000	2,900	1,600	1,300	44.8
40,000	5,900	4,600	1,300	22.0
50,000	8,900	7,600	1,300	14.6
75,000	18,900	17,600	1,300	6.9
1,00,000	28,900	27,600	1,300	4.5
2,00,000	78,900	77,600	1,300	1.6
5,00,000	2,28,900	2,27,600	1,300	0.6

*Impact of changes in the levy of surcharge and restructuring of tax incentive for savings has not been taken into account.

V. Registered firms

8. In the case of registered firms, the rates of tax have been specified in paragraph C of Part III of the First Schedule to the Bill. The exemption limit has been raised from Rs. 10,000 to Rs. 15,000 and the rate schedule has been restructured for registered firms carrying on business and also for registered firms carrying on profession. The existing and proposed rates of income-tax are indicated in the table below:-

EXISTING		PROPOSED	
Income level	**Rate of Tax**	**Income level**	**Rate of Tax**
Firms carrying on business:			
(a) Upto Rs. 10,000	Nil	(a) Upto Rs.15,000	Nil
(b) Rs. 10,000 - 25,000	5 percent	(b) Rs. 15,000 - 50,000	6 percent
(c) Rs. 25,000 - 50,000	7 percent	(c) Rs. 50,000 - 1,00,000	12 percent
(d) Rs. 50,000 - 1,00,000	15 percent	(d) Above Rs.1,00,000	18 percent
(e) Above Rs. 1,00,000	24 percent		
Firms carrying on profession:			
(a) Upto Rs. 10,000	Nil	(a) Upto Rs. 15,000	Nil
(b) Rs. 10,000 - 25,000	4 percent	(b) Rs. 15,000 - 50,000	5 percent
(c) Rs. 25,000 - 50,000	7 percent	(c) Rs. 50,000 - 1,00,000	10 percent
(d) Rs. 50,000 - 1,00,000	13 percent	(d) Above Rs. 1,00,000	15 percent
(e) Above Rs. 1,00,000	22 percent		

VI. Companies

9. In the case of companies, the rate of income-tax has been specified in paragraph E of Part III of the First Schedule to the Bill. The rate of income-tax has been reduced as under:-

	Existing	Proposed
In the case of a domestic company,—		
(1) where a company is a company in which the public are substantially interested	50 percent	40 percent
(2) where a company is not a company in which the public are substantially interested-		
(i) in the case of a trading company or an investment company	60 percent	50 percent
(ii) in any other case	55 percent	45 percent

The rate of tax for companies other than domestic companies continues to be the same at 65 percent as in item II of paragraph E of Part I of the First Schedule to the Finance Act, 1989.

VII. Partially integrated taxation of non-agricultural income with income derived from agriculture.

10 .As in the past, the Finance Bill provides that in the case of individuals, Hindu undivided families, other associations of persons etc. the net agricultural income will be taken into account for the computation of "advance tax" and charging of income-tax. The net agricultural income will be computed in accordance with the rules contained in Part IV of the First Schedule. These provisions are broadly on the same lines as those in earlier years. *[Clause 2 and the First Schedule]*

INCENTIVES FOR SAVINGS

Extension of the retirement benefit scheme to employees of public sector companies.

11. Under the existing provisions of item (i) of sub-clause (iv) of clause (15) of section 10 of the Income-tax Act, exemption from income-tax is available in respect of interest received from Government on deposits made by an employee of the Central Government or a State Government, in accordance with such scheme as the Central Government may, by notification in the Official Gazette, frame in this behalf, out of the moneys due to him on account of his retirement, whether on superannuation or otherwise. The deposits under the aforesaid scheme are also exempt from wealth-tax under section 5(1)(xxviic) of the Wealth-tax Act.

It is proposed to extend the aforesaid exemptions also to deposits made under the aforesaid scheme by an employee of a public sector company on retirement, whether on superannuation or otherwise.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.
[Clause 4]

New provisions relating to Equity Linked Savings Scheme to encourage investment of savings in equities.

12. The Bill seeks to insert a new section 80CCB relating to deduction in respect of investment made in accordance with the Equity Linked Savings Scheme, which will be notified by the Central Government.

Under the new provisions, a deduction shall be allowed in the case of an assessee, being an individual, a Hindu undivided family and certain categories of associations of persons or bodies of individuals, in relation to the investment made in the units of any plan, framed in accordance with the Equity Linked Savings Scheme, of the Mutual Funds specified under clause (23D) of section 10 or Unit Trust of India. The deduction shall be allowed on so much of the amount invested as does not exceed ten thousand rupees. When any amount in respect of which deduction has been allowed is returned to the assessee either by way of repurchase of the units by the Fund or the Trust or on the termination of the plan, it shall be deemed to be his income for the previous year in which the amount is returned. Further, where a Hindu undivided family has effected a partition or an association of persons is dissolved after a deduction has been allowed to it on an amount invested in accordance with the Scheme, such amount on its return shall be deemed to be the income of the recipient.

It is also proposed to amend sub-section (1) of section 45 to provide that the difference between the repurchase price of the units and the amount invested therein by the assessee shall be deemed to be the capital gains and taxed accordingly.

It is further proposed to insert section 194F to provide for deduction of tax at source at the time of payment of any amount on account of the repurchase of units or on the termination of the plan, at the rate of 20 per cent. thereon.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation tc the assessment year 1991-92 and subsequent years.
[Clauses 13, 15 and 38]

Modification of the provisions regarding deduction in respect of deposits under National Savings Scheme, etc.

13. Under the existing provisions of section 80CCA of the Income-tax Act, deduction is allowed to an individual, a Hindu undivided family and certain categories of associations of persons or bodies of individuals, in respect of deposits made under the National Savings Scheme and payments made towards notified annuity plans of the Life Insurance Corporation. The deduction is provided on the whole of the amount so deposited or paid as does not exceed Rs. 30,000 in a year (Rs. 20,000 for the assessment year 1988-89).

With a view to provide further incentive for savings, it is proposed to amend this section to increase the maximum amount which would qualify for deduction to Rs. 40,000.

Further, under the existing provisions of section 80CCA of the Income-tax Act, when any amount standing to the credit of an assessee under the National Savings Scheme in respect of which a deduction has been allowed together with the interest accrued thereon is withdrawn, it is deemed to be income of the assessee in the year of the withdrawal. Similarly, an amount received on account of the surrender of a policy or as annuity or bonus in accordance with the notified annuity plans of the Life Insurance Corporation is also deemed to be income of the assessee in the year of the receipt. These provisions do not take into account a situation where a Hindu undivided family effects a partition or an association of persons is dissolved, after a deduction has been allowed to it under this section.

With a view to ensure that such amount when withdrawn or received is brought to tax, the Bill seeks to insert a new sub-section (3) in section 80CCA to provide that where a Hindu undivided family has effected a partition or an association of persons is dissolved after a deduction has been allowed to it under this section, the amount withdrawn or received, as the case may be, shall be deemed to be the income of the recipient and taxed accordingly.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.
[Clause 14]

INCENTIVE FOR INDUSTRIALISATION

Extension of concession to new industrial undertakings with enhanced rate of deduction.

14. Under the existing provisions of section 80-I of the Income-tax Act, a deduction is allowed in respect of profits and gains from an industrial undertaking which begins to manufacture or produce articles or things not listed in the Eleventh Schedule or operates cold storage after 31st March, 1981. Similar deduction is also allowed in respect of the profits and gains derived from a ship brought into use or the business of a hotel which starts functioning, after 31st March, 1981.

The rate of deduction allowed is twenty five per cent. in the case of a company and twenty per cent. in other cases.

The period for which such deduction is allowed is as under:-

(a) in the case of a co-operative society, ten assessment years;

(b) in any other case, eight assessment years.

The existing provisions of section 80-I of the Income-tax Act are operative only upto 31st March, 1990.

In view of the need to promote industrial growth by encouraging the establishing of new industrial undertakings, etc., it is proposed to extend the tax concession under section 80-I for a further period of five years. Accordingly, an industrial undertaking which begins to manufacture or produce articles or things or a ship which is brought into use or the business of a hotel which starts functioning, after 31st March, 1990 but before 1st April, 1995, will also now be eligible for tax concession under section 80-I. The rate of deduction in such cases has also been enhanced as under:-

(a) in the case of a company, thirty per cent.;
(b) in any other case, twenty-five per cent.

The period for which the tax concession under section 80-I will be available in these cases has also been increased as under:-

(a) in the case of a co-operative society, twelve assessment years;
(b) in any other case, ten assessment years.

These amendments will take effect from 1st April, 1990. *[Clause 22]*

MEASURES FOR PROMOTING AFFORESTATION

Tax concessions in respect of contribution to a fund or programme of afforestation.

15. Under the existing provisions of section 35CCB, in the case of an assessee having income from business or profession, any expenditure incurred by way of payment of any sum to an approved association or institution is allowed as deduction, where the object of such association or institution is undertaking of any approved programme of conservation of natural resources. Deduction for similar payments made by other assessees who are not having income from business or profession is allowed under section 80GGA of the Income-tax Act. With a view to promote afforestation, the scope of deduction under sections 35CCB and 80GGA is proposed to be enlarged so as to cover the payments made to an association or institution which has as its object the undertaking of any programme of afforestation. For this purpose, both the association / institution and the programme of afforestation will have to be approved by the prescribed authority. It is also proposed that any payment made to a Fund for Afforestation to be set up and notified in this behalf, will also qualify for deductions under sections 35CCB and 80GGA of the Income-tax Act.

These amendments will take effect from 1st April, 1991, and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clauses 10 and 17]*

WELFARE MEASURES

Exemption in respect of interest on securities held by the Registrar, Supreme Court, in Reserve Bank's SGL Account No. SL/DH 048.

16. The amount of US $ 470 million paid by the Union Carbide Corporation and the Union Carbide India Limited on the directions of the Supreme Court as compensation for the victims of the Bhopal gas leak disaster stands deposited in Reserve Bank of India, to the credit of the Registrar, Supreme Court, in the form of certain Government securities. The order of the Supreme Court has subsequently been challenged and the amount is still lying in the Reserve Bank. Under the provisions of the Income-tax Act, the interest payable on the aforesaid securities is taxable. However, it was not intended to levy tax on the interest accruing on the amount of the said compensation for the victims of the Bhopal gas leak disaster. It is, therefore, proposed to provide exemption from income-tax in respect of interest on securities held by the Registrar, Supreme Court, in Reserve Bank's Account No. SL/DH 048.

The proposed amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years. *[Clause 4]*

New provision relating to deduction of expenditure incurred on handicapped dependent relatives.

17. The Bill seeks to insert a new section 80DD relating to deduction in respect of expenditure incurred on the handicapped dependent relatives.

Under the new provisions, deduction of a sum of six thousand rupees shall be allowed in the case of individuals and Hindu undivided families, resident in India, who incur expenditure on the medical treatment (including nursing), training and rehabilitation of a person suffering from a permanent physical disability (including blindness) or mental retardation. The deduction will be available only to those assessees whose total income before the allowance of this deduction does not exceed rupees sixty thousand in a year. The deduction will be allowed if the person suffering from permanent physical disability or mental retardation is a relative of the individual or in the case of a Hindu undivided family, is a member of the joint family and is in either case wholly dependent on the assessee. Further, the permanent physical disability or mental retardation of the dependent relative has to be certified by a physician, a surgeon, an oculist or a psychiatrist, as the case may be, working in a Government hospital or a Government dispensary. The amount of deduction will be reduced by the amount of the income, if any, of the handicapped dependent relative.

The proposed amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clause 16]*

INCENTIVES FOR EARNING FOREIGN EXCHANGE

Modification of the provisions relating to deductions in respect of foreign incomes of professors, teachers, artists, technicians, etc.

18. Under the existing provisions of section 80R, a tax relief equal to fifty per cent. of the remuneration received is allowed to professors, teachers or research workers of Indian citizenship, who work in a foreign university or other educational institutions. Similarly, a tax relief under section 80RR equal to twenty-five per cent. of the income received in, or brought into, India in foreign exchange is allowed to a resident individual being an author, playwright, artist, musician, actor or sportsman (including an athlete) who derives income in exercise of his profession from foreign sources. In order to provide a further incentive for bringing foreign exchange into India by these categories of taxpayers, it is proposed that the benefit of deduction in sections 80R and 80RR may be enhanced. The proposed deduction will be:-

(i) Fifty per cent. of such income received by the taxpayer; or
(ii) Seventy five per cent. of such income as is brought into India by, or on behalf of, the taxpayer in accordance with the Foreign Exchange Regulation Act, 1973 and any rules made thereunder,

whichever is higher.

The deductions allowed for the remuneration received outside India under the existing provisions of section 80R and 80RRA are for a maximum continuous period of thirty six months. With the deletion of the test for determining residential status on the basis of maintenance of dwelling house in India, a person leaving India for employment abroad and serving there continuously for more than thirty six months becomes a non-resident and hence is not subject to Indian income-tax in respect of the foreign income. The limitation of thirty six months in sections 80R and 80RRA has, therefore, lost its significance. It is, therefore, proposed that the limitation of deduction for a maximum period of thirty six months as provided in sections 80R and 80RRA be deleted.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clauses 25, 26 and 27]*

MEASURES FOR SIMPLIFICATION AND RATIONALISATION

Provisions clarifying the taxability of certain export incentives.

19. At present, exporters are given export incentives by way of cash compensatory support(CCS), drawback of duty and import entitlement licences. The taxation of CCS has been a subject matter of litigation. The Department's view all along has been that CCS or any other subsidy received by an exporter as an export incentive, is a revenue receipt and hence taxable. To give finality to this view and to end all judicial controversies, it has been proposed that CCS or any other subsidy received by an exporter for exports be included in the definition of income and be taxed under the head "Profits and gains of business or profession".

As regards drawback of duty and profit on sale of import entitlement licences, there are many court decisions in favour of the Department's stand that these are revenue receipts and liable to tax. To put an end to any litigation which may arise regarding the taxability of these two incentives received by exporters, it has been proposed that they too shall be taxed as revenue receipts under the head "Profits and gains of business or profession".

These amendments will take effect retrospectively, co-terminus with the dates of availability of these export incentives, i.e., profit on sale of import entitlement licences from 1st April, 1962, cash assistance from 1st April, 1967 and drawback of duty from 1st April, 1972 and will, accordingly, apply in relation to the assessment years 1962-63, 1967-68 and 1972-73 and subsequent years respectively.

[Clauses 3and5]

Modification of conditions for grant of development rebate and investment allowance.

20. The provisions of section 33 read with section 34 of the Income-tax Act relating to development rebate provide for a deduction of a percentage of the actual cost of a ship acquired or machinery or plant installed. One of the conditions for allowance of the deduction is that an amount equal to seventy-five per cent. of the development rebate to be actually allowed is debited to the profit and loss account of the relevant previous year and credited to a reserve account. The Finance Act, 1966, by inserting an Explanation in section 34 allowed the creation of such a reserve out of the profits or reserves of earlier previous years also. Further, the Central Board of Direct Taxes through a circular clarified that the requirement of creation of reserve will be considered to have been satisfied if the accumulated reserves in respect of the said machinery or plant upto the year or years of actual allowance is equal to seventy- five per cent of the amount of development rebate to be actually allowed. In fact, this meant that in a year when profits are insufficient or there are no profits, the creation of reserve was not mandatory. However, the Supreme Court in the case of Shri Shubhlaxmi Mills Limited (177 ITR 193) has held that in order to claim the deduction on account of development rebate, it is obligatory that the reserve should be created in the year of acquisition/installation of machinery or plant etc. even in a case where there are no profits. In coming to this conclusion, the Supreme Court relied principally on its interpretation of the Explanation to section 34 referred to above. If the decision of the Supreme Court is to be followed, then taxpayers who have been following the Board's circulars for many years would be placed in a very difficult situation as their assessments already completed could be reopened. Apart from this, it may run contrary to accounting principles and the assurance given by the Central Board of Direct Taxes through its circulars.

Though the decision of the Supreme Court has been pronounced only with regard to the provisions of development rebate, it may apply equally to the grant of investment allowance. It is, therefore, proposed to provide by way of an amendment that the condition of creation of reserve even in a year of loss as laid down by the Supreme Court will not be mandatory in respect of both development rebate and investment allowance.

These amendments will take effect retrospectively from 1st April, 1962 in relation to the development rebate and 1st April, 1976 in relation to the investment allowance and will, accordingly, apply from assessment year 1962-63 and 1976-77 and subsequent years respectively. *[Clauses 6 and 9]*

Modification of the provisions relating to deduction in respect of certain liabilities.

21. Under the existing provisions of section 43B of the Income-tax Act, apart from certain other sums, a deduction in respect of any interest payable on any loan or borrowing from any public financial institution is allowed only if the same has been actually paid by the assessee before the due date of filing of the return. For this purpose, the term 'public financial institution' has been assigned the same meaning as in section 4A of the Companies Act which presently does not cover state financial corporations and state industrial investment corporations. These corporations also suffer on account of the same tendency of the borrowers to postpone the payment of interest due to these corporations and using the same for business purposes even though it has been claimed as a deduction in the income-tax assessment. Therefore, with a view to improve the liquidity position of the state financial institutions (State financial corporations and State industrial investment corporations), it is proposed to provide that any sum payable as interest on any loan or borrowing from any State financial corporation or State industrial investment corporation shall not be allowed as deduction if the same is not actually paid before the due date of filing of return.

This amendment will take effect from the 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clause 11]*

Modification of Special Provisions for computing profits and gains from the business of trading in certain goods.

22. Under the existing provisions of section 44AC of the Income-tax Act, in the case of a trader of alcoholic liquor for human consumption (other than Indian made foreign liquor), forty per cent. of the purchase price paid or payable is deemed to be his income. As a result of different systems prevailing in different States, the term purchase price is being understood in different ways and it is, therefore, proposed by way of an amendment to provide that purchase price shall mean all amounts paid or payable to obtain country liquor, excluding the amount paid or payable towards the bid money in an auction or the highest accepted offer in a tender.

It is also proposed that co-operative societies will be included within the meaning of the term "seller" in section 44AC in addition to the existing entities who are the Central Government, a State Government or any local authority or corporation or authority established by or under a Central, State or Provincial Act or any company or firm.

This amendment will take effect from 1st April,1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clause 12]*

Modification of tax reliefs in respect of savings.

23. Under the existing provisions of section 80-C of the Income-tax Act, tax incentive to promote savings takes the form of deduction in respect of the whole or part of the funds invested or deposited in life insurance policies, deferred annuity policies, provident funds, superannuation funds etc. The deduction permissible is at the rate of 100 per cent. on the savings of first Rs.6,000/-, at the rate of 50 per cent. on the next Rs.6,000/- and at the rate of 40 per cent. on the balance. The maximum amount eligible for deduction is Rs.40,000/-. However, in the case of authors, playwrights, artists, musicians, actors and sportsmen (including athletes), the amount eligible is Rs. 60,000.

Under the existing scheme of section 80-C, a person gets tax relief at the highest marginal rate of tax applicable to him. Accordingly, it confers higher amount of tax incentive to a person with a higher income vis-a-vis a person with a lower income. The scheme is, therefore, regressive and inequitous.

With a view to remove this imbalance, it is proposed to replace the existing provisions of section 80-C of the Income-tax Act, by a new provision in section 88. Under the new provision, an assessee will be entitled to a deduction of twenty per cent. of the amount invested or deposited in the life insurance policies, provident funds, superannuation funds etc., from the income-tax payable by him on his total income. The maximum tax rebate allowable will be Rs.10,000/-. However, in the case of authors, playwrights, artists, musicians, actors or sportsmen (including athletes), the maximum tax rebate allowable will be Rs.14,000/-. An assessee will now have to save Rs.50,000/- (Rs.70,000/- in the case of authors, playwrights, etc.) to avail the full benefit of the tax rebate under the new system.

The payments eligible for deduction will continue to be those covered under the existing section 80-C of the Income-tax Act. The effect of the new provision is illustrated as under:-

(in rupees)

	Existing	Proposed
Gross Total Income	70,000	70,000
Deduction under section 80-C (assuming savings of Rs.14,500/-)	(-) 10,000	Nil
Total Income	**60,000**	**70,000**
Tax on total income	13,900*	16,300**
Tax rebate on savings of Rs.14,500/-	Nil	(-) 2,900
Tax payable:		
Tax : 13,900		
Surcharge: 1,112	**15,012**	**13,400**

** As per the existing rates.*

*** As per the proposed rates.*

Under the new provisions, all assessees will get the same amount of tax benefit on a given amount of savings, irrespective of their levels of income.

The surcharge, if any, payable by an assessee shall be levied on the income-tax payable by him after allowing the tax rebate under the aforesaid provisions.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clauses 2, 28 and 48]*

Modification of the provisions of tax concession in respect of investment in certain shares, etc.

24. Under the existing provisions of section 80CC of the Income-tax Act, a deduction of an amount equal to fifty per cent. is allowed in espect of investment in shares forming part of an eligible issue of equity capital or units issued under any scheme of a mutual fund or the Unit Trust of India, if the amount mobilised under the scheme is invested only in the eligible issue of capital. The total amount of investment qualifying for deduction under this section is restricted to Rs. 20,000 per year. The maximum amount of deduction is, therefore, Rs. 10,000. In order to take the benefit of this deduction, a person has to continue to hold the shares for a minimum period of three years.

The tax concession under this provision is available only in respect of eligible public issues made before 1st April, 1990.

The existing scheme of section 80CC of the Income-tax Act is regressive and inequitous in nature in so far as it gives a higher tax concession to persons with higher income and a lower tax concession to persons with lower income. With a view to rectify the regressive and inequitous nature of the scheme, it is proposed to substitute section 80CC by a new section 88A in the Income-tax Act to provide for a tax rebate calculated at the rate of 20 per cent. of the investment in the eligible issue of capital or units. The maximum amount of investment eligible for tax rebate is proposed at Rs. 25,000.

Further, the scheme of section 80CC now incorporated in the new section 88A will lapse after 31st March, 1991. The new provision also provides -

(i) that the funds so mobilised under the schemes of the mutual fund or the Unit Trust of India must be invested in the eligible issue of capital within six months from the close of subscription to the schemes. Further, pending investment in the eligible issue of capital, the mutual funds or the Unit Trust of India would be allowed to invest the funds in such Government securities as may be approved by the Board, in this behalf;

(ii) that the tax concession under the new section 88A will not be available to any scheme floated by any mutual fund or the Unit Trust of India, the subscription to which closes after 30th September, 1990.

A new section 271BB is proposed to be introduced to provide that if any mutual fund or the Unit Trust of India referred to in sub-section (1) of section 88A, fails to invest any amount of subscription to the units issued under any scheme referred to in the said sub-section in the eligible issue of capital within a period of six months specified in that sub-section, the income-tax authority may levy a penalty of a sum equal to twenty per cent. of the amount not subscribed in the eligible issue of capital.

The newly inserted sections 88A and 271BB will come into force from the 1st day of April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clauses 28 and 41]*

Modification of provisions relating to exemption of income from exports.

25. Under the existing provisions of section 80HHC of the Income-tax Act, exporters are allowed a 100 per cent. deduction in respect of the profits derived from export of goods or merchandise. Similarly, under section 80HHD of the Income-tax Act, persons engaged in the business of a hotel or of a tour operator or travel agent are allowed a deduction of 50 per cent. of the profits derived from services provided to foreign tourists and so much of the balance profits as is credited to a reserve account to be utilised for specified purposes. One of the conditions for allowing of deduction under both the above sections is that the receipts should be in convertible foreign exchange. However, the deductions are allowable even if the foreign exchange is not brought into India. In the absence of such a condition, one of the main purposes of allowing such concessions, namely to augment the foreign exchange earnings of the country is being defeated. It has, therefore, been proposed that for obtaining the deduction under sections 80HHC and 80HHD, the taxpayer will be required to bring into India the sale proceeds of goods or merchandise or receipts in relation to services provided to foreign tourists, in convertible foreign exchange within a period of six months from the end of the previous year or within such extended period as the Chief Commissioner or Commissioner of Income-tax may allow on being satisfied that the taxpayer was prevented from complying with this requirement for reasons beyond his control. It has also been proposed that the deduction under these sections is restricted in the proportion of the foreign exchange brought into India to the total turnover/receipts of the business.

In view of the fact that the exporters/hotels etc. are being allowed a period of six months from the end of the previous year for bringing foreign exchange into the country, such taxpayers who were required to furnish their returns of income by the 31st day of August will now be allowed to file their returns by the 31st day of October of the assessment year.

These amendments will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

Under the existing provisions of section 80HHC, the benefit of deduction is also allowed to supporting manufacturers who export goods or merchandise through recognised Export Houses or Trading Houses. A supporting manufacturer means a person who manufactures goods or merchandise and sells them to an Export House or a Trading House for the purposes of export. A person who processes goods or merchandise and exports the same directly is eligible to claim the deduction under section 80HHC. However, if the processor of goods or merchandise sells his goods or merchandise to an Export House or Trading House for the purposes of export, he is presently denied the benefit of deduction. It is, therefore, proposed to extend the benefit of deduction under section 80HHC to processors who sell their goods or merchandise to Export Houses or Trading Houses for export purposes. The condition for obtaining the benefit as already applicable to supporting manufacturers, namely, that of obtaining a disclaimer certificate from the Export House or Trading House will also apply in their cases.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years.

It is also proposed to clarify that the requirement of receipt of sale proceeds in convertible foreign exchange will not apply in the case of supporting manufacturers who sell their goods or merchandise to Export Houses or Trading Houses for exports.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years.

The deduction under section 80HHC in the case of an exporter who makes domestic sales also is computed in the following manner:

$$\text{Profits of the business} \times \frac{\text{Export turnover}}{\text{Total turnover}}$$

Whereas the term "export turnover" is defined in section 80HHC, the term "total turnover" has not been defined, which has given rise to various interpretations about the inclusion of the items like cash compensatory support, drawback of duty, profits on sale of import entitlement licences, in the total turnover of the business carried on by the exporter. It is, therefore, proposed to clarify that these terms will not be included in the term "total turnover".

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clauses 20 and 21]*

Deletion of the definition of the term 'security'.

26. Under the existing provisions of section 2(42C) of the Income-tax Act, "security" means a Government security as defined in clause (2) of section 2 of the Public Debt Act, 1944.

The insertion of the definition of the term 'security' in section 2 dealing with definitions having general application for the purposes of the Act, has created certain anomalies resulting in problems of implementation. Therefore, sub-section (42C) of section 2 of the Income-tax

Act is proposed to be omitted.

It is proposed to amend section 80L of the Income-tax Act to provide that the term "security" appearing therein shall mean a Government security as defined in clause (2) of section 2 of the Public Debt Act, 1944. The same definition of the term "security" has been incorporated in the new section 88 of the Income-tax Act sought to be inserted through this Finance Bill. This is to clarify the nature of the securities referred to in the aforesaid two sections and also to ensure that the interest on National Savings Certificates VIII Issue does not qualify for benefit under section 80L as has been specified in the scheme framed for this Issue.

These amendments will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years. *[Clauses 3, 23 and 28]*

Modification of the provisions relating to inter-corporate dividends.

27. Under the existing provisions of section 80-M of the Income-tax Act, a domestic company is allowed a deduction of an amount equal to sixty per cent. of the dividend received from another domestic company. There is no statutory obligation on the recipient domestic company to declare dividends out of the dividend received.

In order to ensure that dividend income is taxed only where it finally rests, it is proposed to provide that a domestic company other than a scheduled bank or a public financial institution will be allowed a deduction equal to the amount of dividend received as does not exceed the amount of dividend distributed. Accordingly, if a domestic company receives any dividend income, but fails to declare any dividend, the domestic company will now be liable to pay tax on the whole of the dividend income received. If on the other hand, the whole amount of dividend received is distributed as dividend, no tax will be payable on the dividend income by the receiving company.However, in the case of a domestic company, being a scheduled bank or a public financial institution, the existing provisions of section 80-M will continue to apply.

This amendment will take effect from 1st April, 1991 and will, accordingly, apply in relation to the assessment year 1991-92 and subsequent years. *[Clause 24]*

Modification of special provisions relating to certain incomes of non-resident Indians.

28. In the case of non-resident Indians (NRIs), investment income from "specified assets" and long-term capital gains is charged to tax at a flat rate of 20 per cent. under Chapter XIIA of the Income-tax Act (sections 115C to 115-I). The existing provisions of section 115-I provide that a non-resident Indian may opt not to be governed by the provisions of Chapter XIIA for any assessment year by furnishing his return of income together with a declaration in writing to the effect that the provisions of this Chapter shall not apply to him for that assessment year. However, many times, due to ignorance, the NRIs fail to file the aforesaid declaration along with their return when they want to opt out of the provisions of Chapter XIIA. Since a specific information is asked for in the return of income in the case of an NRI as to whether any part of his income is to be taxed in accordance with the provisions of Chapter XIIA of the Income-tax Act, the requirement of filing a separate declaration in writing by NRIs does not serve any useful purpose. It is, therefore, proposed to delete the requirement of filing a declaration in writing along with the return as the option can be exercised by filling the appropriate column in the return of income.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years. *[Clause 29]*

Amendment of the provisions which empower the Board to relax the effect of provisions of certain sections.

29. Under the existing provisions of clause (a) of sub-section (2) of section 119 of the Income-tax Act, the Board is empowered to relax, by issue of general or special orders, the provisions of certain sections of the Act relating to assessment and collection of revenue in respect of any class of incomes or class of cases. The provisions of section 139 relating to filing of return of income, section 234A relating to charge of mandatory interest for defaults in furnishing return of income and section 234B relating to charge of mandatory interest for defaults in payment of advance tax may sometimes need relaxation. At present, it is not possible for the Board to relax these provisions.

Therefore, it is proposed to incorporate a reference to sections 139, 234A and 234B in clause (a) of sub-section (2) of section 119 so that the Board is empowered to relax the provisions of these sections applicable to any class of incomes or class of cases.

Similar amendments have been proposed in the corresponding provisions of section 10(2)(a) of the Wealth-tax Act and section 9(2)(a) of the Gift-tax Act.

These amendments will take effect from 1st April, 1990. *[Clauses 31,51 and 57]*

Religious and Charitable Trusts and others, who are required to furnish return of income under section 139(4A), also to apply for allotment of a permanent account number.

30. Under the existing provisions of section 139A of the Income-tax Act, a person is required to apply for the allotment of a permanent account number only if his income exceeds the maximum amount not chargeable to tax or he is carrying on a business whose sales or gross receipts exceed Rs. 50,000/-. This leaves out certain categories of persons, like religious and charitable trusts and others, who are required to file their return of income under the provisions of sub-section (4A) of section 139 even when their income is not taxable by virtue of exemption provided in section 11. Such persons, although under an obligation to file the return, are neither under an obligation to apply for the allotment of a permanent account number, nor can the Assessing Officer himself allot a permanent account number to them because no tax is payable by them.

Therefore, to remove this lacuna, it is proposed to amend sub-section (2) of section 139A to make it obligatory for all persons, who are required to furnish their returns of income under the provisions of section 139(4A), to apply for the allotment of a permanent account number.

This amendment will take effect from 1st April, 1990 and will, accordingly, apply in relation to the assessment year 1990-91 and subsequent years. *[Clause 33]*

Allowing the firms to file their returns even if their income is below the taxable limit.

31. Under the existing provisions of sub-section (10) of section 139 of the Income-tax Act, a return of income which shows the total income below the taxable limit is deemed never to have been furnished. A proviso to this section provides for certain exceptions to this rule. One of the exceptions mentioned in clause (b) of the proviso is in respect of a partner of a firm. Thus, the partner of a firm can file a return even if the income shown is below the taxable limit. It is felt that an exception should also be made in the case of a firm, because the share declared by the partner in a firm which has income below the taxable limit, will remain undetermined unless such a firm is also allowed to file

its return of income.

It is, therefore, proposed to amend clause (b) of the proviso to sub-section (10) of section 139 to make an exception, not only in the case of a partner of a firm, but also in the case of a firm, so that a firm as well as a partner can file their returns of income even if their income is below the taxable limit.

This amendment will take effect from 1st April, 1990. *[Clause 32]*

Conferring power on Assessing Officers to call for return before the end of an assessment year.

32. Under the existing provisions of clause (i) of sub-section (1) of section 142, the Assessing Officer can require any person, in whose case the time allowed under section 139(1) for furnishing the return of income has expired, to furnish a return of his income only after the end of the relevant assessment year. This has given rise to problems because, if the taxpayers do not file their returns of income in time, the Department has no powers to enforce compliance till the relevant assessment year is over.

To solve this practical difficulty, it is proposed to amend clause (i) of sub-section (1) of section 142 so that if a person fails to furnish a return of income by the due date mentioned in section 139(1), a notice calling for the return can be sent to him within the relevant assessment year itself.

Similar amendments are proposed to be carried out in the corresponding provisions of section 16(4) of the Wealth-tax Act and section 15(4) of the Gift-tax Act.

These amendments will take effect from 1st April, 1990. *[Clauses 34,52 and 58]*

Processing of revised returns under the new procedure for assessment.

33. Under the provisions of sub-section (1) of section 143 of the Income-tax Act, a return of income is processed for recovery of any tax or interest due from the assessee or for the issue of any refund due to him on the basis of the return, without making an assessment. If a revised return under section 139(5) is filed by the assessee after action under sub-section (1) of section 143 has been completed on the basis of the earlier return, there is no provision in section 143 for the revision of the intimation already sent or refund already granted to the assessee.

A situation may arise where income declared in the earlier return has been increased as a result of prima facie adjustments made under the first proviso to clause (a) of sub-section (1) and additional income-tax has been charged under sub-section (1A), but the assessee revises his return declaring therein the increased income (after making the adjustments already intimated to him on the basis of the earlier return) and claims that no additional income-tax is chargeable from him on the basis of the revised return.

To cover both the situations pointed out above, it is proposed to insert a new sub-section (1B) in section 143 to provide that the intimation already sent can be amended on the basis of the revised return and the amount of income-tax, additional income-tax or the interest can be enhanced or reduced as a result of such amendment. Similarly, the amount of refund already granted can also be enhanced or reduced on the basis of the said revised return. It is, however, being provided that an assessee, who has furnished a revised return after the service upon him of the intimation under sub-section (1) on the basis of the earlier return, shall still be liable to pay additional income-tax in relation to the adjustments specified in the said intimation, irrespective of the fact that he has himself made the said adjustments while declaring his income or loss in the revised return.

Similar amendments are proposed to be carried out in the corresponding provisions of section 16 of the Wealth-tax Act and section 15 of the Gift-tax Act.

These amendments will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years. *[Clauses 35, 52 and 58]*

Clarificatory amendment of the definition of "regular assessment"

34. The existing provisions of clause (40) of section 2 of the Income-tax Act defines the expression "regular assessment" to mean the assessment made under section 143 or section 144. Prior to 1.4.1989, an assessment could be made under sub-section(1) as well as sub-section (3) of section 143. However, the new section substituted by the Direct Tax Laws (Amendment) Act, 1987, with effect from 1.4.1989, provides for making of an assessment only under sub-section (3), while under sub-section (1), the return is processed for recovery of any tax or interest due from the assessee or for the issue of any refund due to him without making an assessment. Since the definition of "regular assessment" in section 2(40) refers to the whole of section 143, without referring to the relevant sub-section, it is likely to create a confusion that even the processing of a return under sub-section (1) of the new section 143 is an assessment.

Therefore, it is proposed to amend clause (40) of section 2 to clarify that "regular assessment" would mean only an assessment made under sub-section (3) of section 143 or section 144.

Similar amendment is proposed to be carried out in the corresponding provisions of section 2(ob) of the Wealth-tax Act.

These amendments will take effect retrospectively from 1st April, 1989. *[Clauses 3 and 49]*

Removal of anomaly for taxing interest on securities.

35. Before deletion of the head "Interest on securities" by the Finance Act, 1988, with effect from 1st April, 1989, the interest chargeable under this head used to be taxed on due basis. With the deletion of the provisions relating to this head of income, such income is now taxed either under the head "Profits and gains of business or profession" or under the head "Income from other sources", and is to be computed in accordance with the method of accounting regularly employed by the assessee. However, in a case where the assessee follows mercantile method of accounting, a situation has arisen where the interest on securities which had accrued but had not become due during the assessment year 1988-89 could not be charged to tax in assessment year 1989-90 either on due basis of taxation, or on the basis of accrual method of accounting. Therefore, in order to remove such an anamolous situation, it is proposed to provide that no assessee shall be precluded from being charged to income-tax in respect of any interest on securities received by him in a previous year, if such interest had not been charged to income-tax for any earlier previous year.

This amendment will take effect retrospectively from 1st April, 1989 and will, accordingly, apply in relation to the assessment year 1989-90 and subsequent years. *[Clause 36]*

Conferring power on an Income-tax Officer to re-open a completed assessment with the approval of the Deputy Commissioner.

36. Under the existing provisions of sub-section (1) of section 151 of the Income-tax Act, only an Assistant Commissioner or a Deputy Commissioner can issue a notice under section 148 to reopen an assessment, which has already been completed under section 143(3) or section 147, if he finds that any income has escaped assessment. An Income-tax Officer cannot reopen a completed assessment. Whenever an assessment has to be reopened by an Income-tax Officer, the case has to be assigned and transferred either to an Assistant Commissioner or a Deputy Commissioner.

Therefore, to remove this practical difficulty, it is proposed to amend sub-section (1) of setion 151 to provide that an Income-tax Officer can reopen a case, where an assessment has been completed under section 143(3) or section 147, with the approval of the Deputy Commissioner, if he finds that any income has escaped assessment.

Similar amendments are proposed to be carried out in the corresponding provisions of section 17 of the Wealth-tax Act and section 16 of the Gift-tax Act.

These amendments will take effect from 1st April, 1990. *[Clauses 37, 53 and 59]*

Removal of anomalies.

37 ***(a): Amendment of section 268 of the Income-tax Act:-*** Under the existing provisions of section 268, if the assessee is not furnished a copy of the order then, in computing the period of limitation for filing an appeal, the time required for obtaining a copy of such order is to be excluded. This provision needs to be applied also in deciding the limitation period for making a reference application under section 256 of the Act. Therefore, the proposed amendment seeks to provide that reference applications under section 256 would also be covered by the provisions of this section.

(b) Amendment of section 288 of the Income-tax Act:- Prior to the amendments carried out by the Direct Tax Laws (Amendment) Act, 1987, a person was disqualified from representing an assessee before the tax authorities in case a penalty for concealment had been levied on him. This disqualification got omitted due to various amendments made in section 271 by the Direct Tax Laws (Amandment) Acts 1987 and 1989. To remove this anomaly, it is proposed to provide that a person will be disqualified to represent an assessee as an authorised representative in case a penalty for concealment has been imposed on him.

(c) Amendment of section 35K of the Wealth-tax Act:- Sub-section (1) of section 35K of the Wealth-tax Act provides that a person shall not be proceeded against for an offence under section 35A (relating to wilful attempt to evade tax etc.) or section 35D (relating to false statement in verification etc.) in respect of which penalty for concealment of wealth has been reduced or waived under section 18B. The applicability of the said sub-section (1) was restricted till the assessment year 1988-89 by an amendment made by the Direct Tax Laws (Amendment) Act, 1987, because penalty for concealment of wealth was omitted by the said Amendment Act. However, since penalty for concealment of wealth has been restored by the Direct Tax Laws (Amendment) Act, 1989, with effect from 1-4-1989, it is necessary that this restriction in the applicability of the provisions of sub-section (1) of section 35K is also removed from that date.

It is, therefore, proposed to amend the said sub-section (1) of section 35K so that its provisions would apply to any assessment year.

The amendments of sections 268 and 288 of the Income-tax Act, indicated at (a) and (b) above, will take effect from the 1st April, 1990, while the amendment of section 35K of the Wealth-tax Act, indicated at (c) above, will take effect retrospectively from the 1st April, 1989.

[Clauses 40,47 and 55]

Penalties for certain defaults to be levied by a Deputy Commissioner

38. Sections 271C, 271D and 271E, which were inserted in the Income-tax Act, with effect from 1-4-1989, by the Direct Tax Laws (Amendment) Act, 1987, provide for the levy of penalties for certain defaults as under:-

(i) Section 271C levies penalty for failure to deduct tax at source;
(ii) Sections 271D and 271E levy penalties for failure to comply with the provisions of sections 269SS and 269T, i.e., for taking or accepting any loan or deposit in excess of Rs.20,000 or for repaying any deposit in excess of Rs.20,000 otherwise than by a crossed cheque or crossed bank draft.

The income tax authority, which can levy these penalties, is not mentioned in any of these sections. In order to ensure that these penalties are imposed by senior officers only, it is proposed to insert a new sub-section (2) in each of the said sections 271C, 271D and 271E to provide that penalty under each of these sections shall be imposed by the Deputy Commissioner.

It is also proposed to carry out a consequential amendment in section 246 of the Income-tax Act relating to filing of appeals before the Deputy Commissioner (Appeals) or Commissioner (Appeals), so that appeals against orders imposing penalties under the said sections 271C, 271D and 271E shall now be filed before the Commissioner (Appeals) instead of before the Deputy Commissioner (Appeals).

These amendments will take effect from 1st April, 1990. *[Clauses 39, 42, 43 and 44]*

Punishment for contravention of prohibitory order served for effecting seizure.

39. Under the existing provisions of section 275A of the Income-tax Act, whoever contravenes any prohibitory order referred to in sub-section (3) of section 132 is punishable with rigorous imprisonment upto two years and fine.

The Finance Act, 1988 inserted a second proviso to sub-section (1) of section 132, which empowers the authorised officer to make a seizure by a similar prohibitory order, in circumstances where on account of the physical characteristics, volume or weight of the articles to be seized, it is not possible to take physical possession and remove them to a safe place. The contravention of such a prohibitory order has not been made punishable.

It is, therefore, proposed to amend section 275A to provide for punishment also for contravention of an order made by the authorised officer under the second provisio to sub-section (1) of section 132.

Further, section 37A of the Wealth-tax Act contains provisions for issue of prohibitory orders similar to those mentioned above. However, there are no provisions in the Wealth-tax Act corresponding to section 275A of the Income-tax Act. To remedy this situation and ensure effective compliance, it is proposed to insert a new section 35EEE in the Wealth-tax Act, which contains provisions similar to those of section 275A of the Income-tax Act, discussed earlier.

These amendments will take effect from 1st April, 1990. *[Clauses 45 and 54]*

Omission of Chapter XXII-B of the Income-tax Act relating to tax credit certificates.

40. Chapter XXII-B of the Income-tax Act, contains provisions relating to tax credit certificates. This was introduced with effect from 1st April, 1965 with various objects, viz., providing an incentive to individuals and Hindu undivided families for investing in newly-floated equity shares of certain companies (section 280Z), facilitating the shifting of industrial undertakings of public companies from urban areas to new areas with a view to relieving congestion in urban areas (section 280ZA), providing resources for purposes relevant to the expansion of industry to companies engaged in important industries and earning profits higher than in a "base year" (section 280ZB), stimulating exports (section 280ZC) and encouraging the production of certain goods liable to central excise duty (section 280ZD). The provisions dealing with tax credit certificates for shifting of industrial undertakings from urban areas to new areas have already been

omitted with effect from 1.4.1988. No tax credit certificates can be granted at present under the remaining provisions of this Chapter. Thus, the provisions contained in Chapter XXII-B have become virtually redundant. Therefore, as a measure of rationalisation, it is proposed to delete the Chapter containing these provisions with effect from the 1st day of April, 1990.

The tax credit certificates granted under section 280Z or section 280ZC and not presented so far for payment or adjustment of tax liability can, however, be presented before the Assessing Officer upto 31st day of March, 1991 for the said purposes.

[Clause 46]

Streamlining of tax structure.

41. With the proposed reduction in the rates of tax in the case of domestic companies and registered firms and on a review of some of the incentives and concessions available to taxpayers, the following incentives and concessions are proposed to be withdrawn or modified:-

(a) Under the existing provisions of section 32A of the Income-tax Act, a deduction of an amount equal to twenty per cent. of the cost of plant and machinery installed or put to use, is allowed in computing the profits and gains from business or profession. This deduction is also available in respect of a new ship or aircraft accquired or put to use.

The abolition of section 32A is being made by issue of a notification.

(b) Under the existing provisions of section 32AB of the Income-tax Act, on deposit of an amount with the Development Bank or utilisation of any amount for the purchase of any new ship, new aircraft or new machinery or plant, a deduction of an amount deposited/utilised for the purchase of the new ship or aircraft or machinery or plant, to the extent of 20 per cent of the profits of business or profession, is allowed to the assessees.

Under the proposed amendment, no deduction will be allowed under this section in relation to the assessment year commencing on the 1st day of April, 1991, or any subsequent assessment year.

(c) Under the provisions of section 33A of the Income-tax Act, an assessee carrying on the busines of growing and manufacturing tea in India is entitled to a deduction, in the computation of his profits of a "development allowance" with reference to the actual cost of planting tea bushes, at the rate of 50 per cent of such cost. This deduction is available for planting tea bushes on land which had been previously abandoned or which is newly brought under plantation.

Under the proposed amendment, the deduction will be allowed under this provision only if the planting of tea bushes has been completed before the 1st day of April, 1990.

(d) Under the existing provisions of section 80HH of the Income-tax Act, all categories of assessees are entitled to a deduction equal to 20 per cent of the profits derived by them from new industrial undertakings (other than those engaged in mining) and approved hotels set up after 31st December, 1970, in notified backward areas. The deduction is allowed in respect of each of the ten assessment years beginning with the assesment year relevant to the previous year in which the industrial undertaking begins to manufacture or produce articles or things or the business of the hotel starts functioning.

Under the proposed amendment, the deduction under this section will not be allowed if the industrial undertaking begins to manufacture or produce articles or things or the approved hotel starts functioning after the 31st day of March, 1990.

(e) Under the existing provisions of section 80HHA of the Income-tax Act, all categories of assessees are entitled to a deduction equal to 20 per cent of the profits derived by them from new small-scale industrial undertakings (other than those engaged in mining) set up in any rural area. The deduction is allowed in respect of each of the ten assessment years beginning with the assessment year relevant to the previous year in which the industrial undertaking begins to manufacture or produce articles or things.

Under the proposed amendment, the deduction under this section will not be allowed if the small-scale industrial undertaking begins to manufacture or produce articles or things after the 31st day of March, 1990.

Under the existing provisions of section 115J of the Income-tax Act, in the case of a company whose total income as computed under the provisions of the Income-tax Act is less than 30 per cent. of the book profit computed under the section, the total income chargeable to tax will be 30 per cent. of the book profit. The manner of computation of 'book profit' has also been provided in the section. The provision was enacted to restrict the erosion of the base of taxable income on account of a large number of tax concessions.

In view of the package of measures proposed for rationalising the tax structure including discontinuance of certain investment incentives in respect of future investment, which will now have the effect of increasing the taxable income base of an assessee, there is no further necessity of retaining the provisions of section 115J on the statute. Acccordingly, it is proposed to amend section 115J to provide that its provisions shall not apply to any assessment year which commences on or after the 1st day of April, 1991.

[Clauses 7, 8, 18, 19 and 30]

WEALTH -TAX

Modifications in the provisions relating to the valuation of jewellery under the Wealth-tax Act.

42. Under the existing provisions of rule 18 of Schedule III to the Wealth-tax Act, 1957, the Assessing Officer has to accept compulsorily the value of the jewellery declared by the assessee in the return if the same is Rs. five lakhs or less and the return is accompanied by a statement in the prescribed form. On the other hand, where the value of the jewellery declared exceeds Rs. 5 lakhs, the Assessing Officer has no choice but to refer the same to the Valuation Officer.

The existing rule does not provide any basis for determination of value for the assessee or for the Valuation Officer on reference to him. It is, therefore, proposed to provide that the value of jewellery shall be estimated to be the price which it would fetch if sold in the open market on the valuation date. Further, to check the suspected cases of gross understatement of valuation of jewellery (where the declared value is Rs. 5 lakhs or less), it is proposed to provide that if the Assessing Officer is of the opinion that the value of the jewellery declared in the return is less than the fair market value, he can make a reference to the Valuation Officer. It is also being provided that an assessee has to make declaration in the prescribed form where the value of jewellery declared by him in the return does not exceed Rs. 5 lakhs. In cases where the value of jewellery declared exceeds Rs. 5 lakhs, it is proposed to provide that it shall not be compulsory for the Assessing Officer to refer each and every case to the Valuation Officer. Further, in such cases, it is being provided that the return of wealth has to be supported by a report of the registered valuer.

A consequential amendment is also being proposed in rule 19 of the Schedule.

These amendments will take effect from 1st day of April, 1990.

[Clause 56]

CUSTOMS

(Effective from 20.3.1990 unless otherwise stated)

Estimated net revenue effect in one full year *(Rs. in lakhs)*

The proposals include the following :-

1. Continuance of the auxiliary duties of customs at the existing rates.
   Withdrawal of existing exemption of special excise duty for the purpose of computing additional (countervailing) duty of customs. — (+) 6000
2. Rationalisation of the existing custom duty rates (basic+ auxiliary) on imported goods. — (-) 320
3. Prescribing a concessional rate of import duty of 100% *ad valorem* (basic + auxiliary) on fish liver oils and fractions thereof. — (-) 10

Chemicals and Petrochemicals

4. Increase in import duty on petroleum crude from Rs.1060 per tonne to Rs.1500 per tonne(total). — (+) 83600
5. Increase in : — (+) 4788
   (a) import duty on Mono Ethylene Glycol (MEG) from the existing 90% (basic + auxiliary) to 150% *ad valorem* (basic + auxiliary)
   (b) import duty on Ethylene dichloride (EDC) for the manufacture of PVC resin from 20% (basic + auxiliary) to 25% *ad valorem* (basic + auxiliary)
   (c) statutory basic import duty on saccharin from Rs. 75 per kg to 100% *ad valorem* + Rs. 25 per kg.
6. Extension of concessional import duty on Butadiene presently available only to the manufacturer of synthetic rubber to all importers. — (+) 45
7. Reduction in import duty on : — (-) 3100
   (a) Dimethyl Terephthalate (DMT) from 195% (basic + auxiliary) to 150% *ad valorem* (basic + auxiliary) in Standard areas and from 185% (basic + auxiliary) to 140% *ad valorem* (basic + auxiliary) in Prefrential areas.
   (b) Purified Terephthalic Acid(PTA) from 195% (basic + auxiliary) to 150% *ad valorem*(basic + auxiliary)
   (c) Eight bulk pesticides not presently manufactured in the country from 105% to 70% *ad valorem* (total)
   (d) Nine pesticide intermediates not presently manufactured in India and imported for manufacture of specified pesticides from the existing levels of 147.25% or 115% to 60% *ad valorem* (total)
   (e) Specified drug intermediates from 115% to 90% *ad valorem*(basic + auxiliary)
   (f) Vinyl Pyridine Monomer from 115% to 80% *ad valorem*(basic + auxiliary)
8. Exemption from customs duty on : — (-) 165
   (a) Five specified bulk drugs required for the indigenous manufacture of life saving medicines
   (b) Tetrahydrofuran imported for the manufacture of bulk drug `Rifampicin'

Pharmaceuticals

9. Reduction in customs duty on :
   (a) homoeopathic medicines from 65% to 60% *ad valorem* (total) — (-) 10
   (b) lactose (sugar of milk) from 135.75% to 60% *ad valorem* (total) — (-) 280
   (c) vegetable saps and extracts of a kind used in the manufacture of homoeopathic medicines from 129.6% to 40% *ad valorem* (total). — (-) 170

Plastics

10. Withdrawal of : — Negligible
    (a) CVD exemption on cellulose nitrate sheets/films
    (b) the concessional rate of import duty on PVC copolymer sheets of specified thickness meant for slide rules
    (c) CVD exemption on Polytetra fluoroethylene tapes (PTFE tapes) for insulated cables or wires.

Paper

11. (i) Increase in import duty on waste paper from 20% to 25% *ad valorem* (basic +auxiliary) . — (+) 800
    (ii) Reduction in import duty on standard newsprint from Rs.550 to Rs.450 per tonne — (-) 300

Textiles

12. Reduction in import duty on : — (-) 500
    (a) various fibres and yarns as indicated below :

	Present rates (basic+ auxiliary)	*Proposed rates* (basic + auxiliary)
Viscose Staple Fibre	55%	40%
Nylon filament Yarn upto 750 D	130%	100%
Acrylic Staple Fibre	145% + Rs.10 per kg.	150%
Polyester Filament Yarn	205%	180%

    (b) PFY of 1000 D and above from 205% to 125% *ad valorem* when imported for use in the manufacture of fire hoses. — (-) 80

Iron and Steel

13. Increase in import duty on cold rolled electrical steel sheets from 90% (basic + auxiliary) to 100% *ad valorem* (basic + auxiliary) . — (+) 1400

Estimated net revenue effect in one full year *(Rs. in lakhs)*

14. Reduction in import duty on :
    - (a) stainless steel items falling under Chapters 72 and 73 from various levels exceeding 200% upto 345% (basic + auxiliary) to 200% *ad valorem* (basic + auxiliary) — (-) 2430
    - (b) hot rolled stainless steel coils for conversion to specified cold rolled stainless steel items from 95% (basic + auxiliary) to 70% *ad valorem* (basic + auxiliary)
    - (c) blooms, billets and slabs of non-alloy steel (carbon less than 0.6%) presently attracting 90% (basic + auxiliary) to 60% *ad valorem* (basic + auxiliary).
15. Increase in additional (countervailing) duty on iron and steel items. — (+) 400

Non-ferrous Metals

16. Increase in basic customs duty on: — Negligible
    - (a) aluminium ingots from 5% *ad valorem* + Rs. 2500 per tonne to 5% *ad valorem* + Rs. 6000 per tonne
    - (b) aluminium waste and scrap from15% to 35% *ad valorem.*
17. Increase in additional(countervailing) duty on Lead and Zinc items. — (+) 396

Machinery

18. Prescribing a concessional customs duty of 40% *ad valorem* (total) in respect of Liquid Nitrogen Plant having capacity upto 10 litres per hour, its accessories and spares imported for use in artificial insemination centres for cattle breeding. — (-) 84
19. Prescribing concessional import duty of :
    - (a) 40% *ad valorem* (total) on thirteen specified machinery/equipments for food processing/marine products sector — (-) 1510
    - (b) 40% *ad valorem* (total) on heat recovery system when imported by Co-operative Dairy Plants
    - (c) 40% *ad valorem* (total) on ten specified items of machinery/equipments for rubber belting industry and 20 specified items of machinery/equipments for forged hand tool industry against export obligation
    - (d) 25% *ad valorem* (total) on capital goods for export production subject to the fulfilment of export obligation **from the date to be notified.**
    - (e) 60% *ad valorem* (total) on parts in the nature of sub components imported for the manufacture of components of textile machinery
    - (f) 60% *ad valorem* (total) on components imported for the manufacture of specified electronic testing/monitoring equipments
20. Reduction in import duty on aseptic form fill seal machines for use in the pharmaceutical industry from147.25% to 40% *ad valorem* (total). — (-) 215
21. Prescribing concessional import duty of 40% ad valorem (total) on automatic cycle multi-surface grinding machine for grinding faces, outside and inside diameters, flanges and tracks/grooves of bearing races with or without CNC or NC controls. — (-) 77
22. Reduction in import duty on Die Inner and Die Anvil imported for the manufacture of synthetic industrial diamonds from 146% (total) to 60% *ad valorem* (total) — (-) 60
23. Amendment in the list of raw materials, piece parts, finished equipments and capital goods relating to electronics industry. — (-) 900
24. Liberalisation of the scheme of import of computer system, software for execution of software export contract. — Negligible
25. Increase in basic import duty rate on components for the manufacture of fuel efficient motor vehicles and on goods (other than raw materials) for specified components from 55% to 60% *ad valorem.* — (+) 500
26. Reduction in import duty on : — (-) 50
    - (a) ten specified air/water pollution control equipments from 61% - 84% to 40% *ad valorem* (total)
    - (b) various instruments and implants required by physically handicapped persons from 40% *ad valorem* to nil.
27. Reduction in import duty on components required for manufacture of specified instruments to 60% *ad valorem* (basic + auxiliary) — (-) 200
28. Exemption to components (other than dry cells and batteries) of hearing aids irrespective of their classification when imported for manufacture of hearing aids from levy of countervailing duty. — Negligible
29. Increase in the concessional import duty on specified list of horological raw materials from 35% to 40% *ad valorem* . — (+) 50
30. Withdrawal of import duty concession in respect of complete watch cases for quartz analogue wrist watches so as to attract customs duty of 145% as against the existing rate of 105% *ad valorem.* — Negligible
31. Reduction in import duty on : — (-) 3750
    - (a) specified instruments/equipment for quality control to 40% *ad valorem*
    - (b) navigational,communication, air traffic control and landing equipments imported by National Airport Authority of India from 100 -181% to 25% *ad valorem.*

	Estimated net revenue effect in one full year *(Rs. in lakhs)*
Baggage Rules	
32.(i) Increase in the general free allowance under Rule 3 of the Baggage rules from Rs.1250 to Rs. 2000 per passenger	
(ii) Prescribing uniform rate of 250% *ad valorem* on accompanied baggage for goods in excess of the duty free limit and on unaccompanied baggage	
(iii) Prescribing uniform rate of 25% on specified articles within the overall value of Rs. 20,000 for passengers returning after a period of one year and upto Rs. one lakh for passengers availing the facility under Transfer of Residence Rules. These changes will be effective **from 1.4.1990.**	
33. Reduction in import duty on prawn feed from 35% to 25% *ad valorem.*	(-) 40
34. Abolitition of export duty on mica scrap/waste.	(-) 225
The net effect of the proposals in a year is as shown below:	
(i) Gain in revenue due to increase in import duties	(+) 97979
(ii) Loss in revenue due to reduction in import duties	(-) 14251
(iii) Loss in revenue due to abolition of export duty	(-) 225
NET GAIN	**(+) 83503**

(Clauses 60,61 and 62 of the Finance Bill)

UNION EXCISE DUTIES

ABBREVIATIONS

B	: Basic + Special excise duty	Adv.	:	Ad valorem
AST	: Additional duty in lieu of sales tax	MODVAT	:	Modified Value Added Tax
AT&T	: Additional duty on textiles and textile articles	CE	:	Central Excises
CET	: Schedule to the Central Excise Tariff Act,1985(5 of 1986)	H.L.Cess	:	Handloom cess

Unless otherwise indicated, all changes are effective from 20.3.1990 and the changes in rates of duty refer only to basic duty.

The proposals include the following :-

Estimated net revenue effect in one full year (Rs. in lakhs)

A. GENERAL

1. *The schedules to the Central Excise Tariff Act, 1985 and the Additional Duties of Excise (Goods of Special Importance) Act, 1957 are being amended vide clauses 64 and 66 read with third and fourth schedules of the Bill to give effect to the Budget proposals relating to the Union Excise Duties and to rationalise some of the entries of the schedules. In some cases tariff rates are being raised without changing the effective rates of duty.*
2. *Prescribing statutory rate of Special Excise Duty at 10% of BED in the Finance Bill. However effective rate of the levy to continue at the existing rate of 5%.*

B. Proposals involving changes in rates of duty, whether by amendment of tariff rates or by notifications.

1. Rationalisation of excise duty rates on goods classifiable under different sub-headings falling within various Chapters of the Central Excise Tariff . (+) 93 (B)

Food Products

2. Reduction in excise duty on coffee from Rs.78/Rs.105 per quintal to Rs. 50 per quintal. (-) 400 (B)
3. Exemption to refined rapeseed oil/mustard oil from whole of the excise duty. (-) 800 (B)
4. Extension of the credit of money scheme in respect of minor oils used in the manufacture of margarine similar to the one available in the case of vanaspati; inclusion of solvent extracted sesame oil and salseed fat in the list of inputs. (-) 20 (B)
5. Exemption to molasses intended for use in the manufacture of cattle feed from the whole of excise duty subject to verification of end use. (-) 360 (B)
6. Increase in excise duty on cocoa and cocoa products from 10% to 15% adv. (+) 620 (B)
7. Increase in excise duty on preparations of vegetables and fruits like jams, jellies, fruit juices etc from 5% to 10% adv. (+) 1000 (B)
8. Levy of excise duty on ice-cream as under: (+) 1000 (B)

	Present	*Proposed*
Tariff rates	NIL	15%+Rs.2 per litre
Effective rates	NIL	10%

Exemption to ice cream manufactured in hotels, restaurants and sold in retail. Exemption to edible ice also.

9. Increase in excise duty rates on pan masala (+) 600 (B)
   (i) containing tobacco from 30% to 40% adv.;
   (ii) not containing any tobacco and of which the value does not exceed Rs.75 per kg. from Rs.20 per kg. to Rs. 25 per kg; and
   (iii) not containing any tobacco and of which the value exceeds Rs.75 per kg from Rs. 40 per kg to Rs. 50 per kg.
10. Introduction of a new tariff sub- heading for ethyl alcohol with a rate of duty of Rs.800 per tonne at 100% strength. Effective rate to be NIL through notification.

Tobacco Products

11. Increase in statutory and effective rates on cigarettes as indicated below :- (+) 8659 (B) (+) 4441 (AST)

Tariff rates

	Present	*Proposed*
BASIC	Rs. 440 per thousand cigarettes or 300% + Rs. 20 per thousand cigarettes whichever is higher	Rs.500 per thousand cigarettes or 300% + Rs. 20 per thousand cigarettes whichever is higher
ADDL.(ST)	Rs.260 per thousand cigarettes or 175% +Rs.12 per thousand cigarettes whichever is higher	Rs.300 per thousand cigarettes or 175% + Rs. 12 per thousand cigarettes whichever is higher

Estimated net revenue effect in one full year (Rs. in lakhs)

***Effective rates* (Basic +AST)**

	Present	*Proposed*
	(PER THOUSAND CIGARETTES)	
Non filter		
upto 60 mm	Rs. 100	No change
More than 60 mm but not exceeding 70 mm	Rs.160	Rs. 175
Filter		
Not exceeding 70 mm	Rs. 210	Rs. 225
Exceeding 70 mm but not exceeding 75 mm	Rs. 375	Rs. 400
Exceeding 75 mm but not exceeding 85 mm	Rs. 475	Rs. 550
Exceeding 85 mm but not exceeding 100 mm	Rs. 675	Rs. 750

12. Reduction in excise duty on preparations containing snuff of tobacco from 12% to 10% adv.	(-)	1	(B)
13. Expansion of the heading No. 25.05 relating to mineral substances, not elsewhere specified, into eight sub-headings and increase in the tariff rate of duty from the present level of 12% to 15% adv.			
Chemicals and Petrochemicals			
14. Increase in concessional rate of duty of Rs. 525 per kl. on Naphtha used for power generation by certain fertilizer units to Rs. 600 per kl. Also providing concessional rate of duty of Rs. 600 per kl. to Natural Gasolene Liquified (NGL) when used for generation of power in certain fertilizer, power and copper units.	Negligible		
15. Extension of set - off facility in respect of countervailing duty paid on Naphthalene on the lines of similar facility available, in respect of central excise duty paid on Naphthalene.	(-)	375	(B)
16. Exemption to Butene intended for use in the manufacture of Methyl Ethyl Ketone from whole of excise duty.	(-)	100	(B)
17. Prescribing a duty of Rs. 3.60 per kg on DMT and Rs. 4.40 per kg on PTA. Also to prescribe tariff rate of 15% adv. + Rs. 5 per kg.	(+)	8000	(B)
18. Exemption to finished formulations(anti TB drug) containing Rifampicin, Isoniazid (INH) & Pyrazinamide from whole of the excise duty.	(-)	75	(B)
19. Prescribing uniform excise duty rates of 15% adv. on insulating varnishes & water based paints and 30% adv. on oil based and plastic based decorative paints.	(+)	900	(B)
20. Reduction in excise duty rate on optical whitening agents falling under sub-heading 3204.30 from 35% to 30% adv.	(-)	150	(B)
21. Increase in the limit of assessable value for soaps attracting an excise duty rate of 15% adv. from Rs. 30,000 per tonne to Rs. 35,000 per tonne.	Negligible		
22. Withdrawal of existing concessional rate of excise duty on fireworks.	(+)	100	(B)
23. Exemption to feature films including dubbed feature films from whole of the excise duty.	(-)	800	(B)
24. Increase in excise duty rate on :			
(a) PVC (paste grade) from Rs. 15000 per tonne to Rs. 20000 per tonne	(+)	800	(B)
(b) polystyrene including copolymers of styrene from 20% to 30% adv.	(+)	500	(B)
25. Prescribing uniform rate of excise duty of 30% adv on floor coverings or tiles falling under heading Nos. 39.18, 48.15 and 68.07 of CET.	Negligible		
Rubber Products			
26. Upward revision of specific rates of excise duty on tyres, tubes and flaps excluding tyres and tubes for tractors, trailers and two wheelers.	(+)	4080	(B)
27. Rationalisation of certain excise duty rates relating to tyres.	(-)	100	(B)
Paper and paper board			
28. Extension of the existing excise duty exemption available to kraft paper and kraft paper board for packaging of apples in three States to horticultural produce as well, covering all the States.	(-)	500	(B)
29. Extension of the scheme of excise duty concession for use of minimum 50% pulp from unconventional raw materials to six more specified varieties of paper and rationalisation of excise duty rates for paper units as indicated below :	Negligible		

Small Paper Mills	*Present*	*Proposed*
	(Rs. per tonne)	
(a) Clearances not exceeding 3000 MT	315	325
(b) Clearances not exceeding next 4500 MT	685	700
(c) Clearances not exceeding next 4500 MT	1050	1100
(d) Clearances not exceeding next 4500 MT	1260	1300
(e) Clearances not exceeding next 7500 MT	1575	1650
Large Paper Mills (exceeding 24000 MT)	10%+Rs.525	10%+Rs.550

30. Exemption from excise duty to hand made paper and paper board manufactured by KVIC units even when power is used in the process of sheet forming.

Estimated net revenue effect in one full year (Rs. in lakhs)

Textiles

31. Excise duty structure on cotton yarn revised as under :

(+) 5544 (B)
(+) 792 (AT&T)

	Present rates	*Proposed rates*
(a) For registered handloom cooperative societies :-		
(i) Upto 25c	Nil	Nil
(ii) above 25c and upto 35c	3.96 p + 2.38 p/c/kg exceeding 25c	5 p +4 p/c/kg exceeding 25c
(iii) above 35c and upto 45c	26.40p+3.52p/c/kg exceeding 35c	35p+5p/c/kg exceeding 35c
(iv) above 45c and upto 55c	61.60p+5.28p/c/kg exceeding 45c	85p+8p/c/kg exceeding 45c
(v) above 55c	114.40p+2.64p/c/kg exceeding 55c	165p+4p/c/kg exceeding 55c
(b) For others		
(i) Upto 25c	1.98p/c/kg	3p/c/kg
(ii) above 25c and upto 35c	47.50p+4.75p/c/kg exceeding 25c	75p+7p/c/kg exceeding 25c
(iii) above 35c	114.40p/5.28p/c/kg exceeding 35c	150p+8p/c/kg exceeding 35c

32. (i) Shifting of basic excise duty on processed cotton fabrics to the yarn stage.
   (ii) Withdrawal of differential duty structure on cotton fabrics of 51 counts and above and ceiling limit of exemption for hand processed fabrics.

(-) 6336 (B)
(-) 1000 (AST)

33. Exemption from excise duty to :
   (a) jute blankets, jute felt, jute mats and mattings, jute carpets and bleached, dyed and printed jute fabrics containing a minimum of 50% by weight of jute fibre. Exemption to jute yarns and manufactures used captively for such products also.
   (b) sisal and manila yarn manufactured without the aid of power and also to exempt captive consumption of such yarn used in the manufacture of ropes etc.

(-) 100 (B)

34. Extension of the present concession to jute yarn for development of handlooms to handicrafts also. Further, jute fabrics used by the handicrafts sector will also be exempt subject to certain conditions.

(-) 25 (B)

35. Increase in the excise duty rate on :
   (a) PFY from Rs. 49.67 per kg to Rs. 55 per kg
   (b) NFY from Rs. 36.96 per kg to Rs. 50 per kg

(+)13650 (B)
(+) 1950 (AT&T)

36. Rationalisation of duty on :
   (a) nylon tyre yarn/nylon industrial yarn to a level of Rs. 8.50 per kg
   (b) PPFY to a level of Rs. 6.50 per kg
   (c) PBT yarn as to a level of Rs. 6.50 per kg

(+) 262 (B)
(+) 38 (AT&T)

37. Reduction in the excise duty rate on PPFY and NFY for fishnets and parachute cords from Rs.4.20 per kg to Rs. 2.00 per kg. Also exemption to waste arising during the manufacture of polypropylene yarn.

(-) 13 (B)
(-) 2 (AT&T)

38. Prescribing a uniform rate of duty of Rs. 9 per kg on viscose filament yarn for all deniers upto 350 as a rationalisation measure.

Negligible

39. Increase in excise duty on viscose staple fibre to Rs. 8.50,per kg

(+) 1313 (B)
(+) 187 (AT&T)

40. Rationalisation of excise duty on Polypropylene staple fibre (PPSF) from the present level of Rs. 4.22 to Rs. 4.50 per kg and that on acrylic staple fibre from Rs. 7.39 to Rs. 7.50 per kg.

Negligible

41. Reduction in the excise duty rate on :
   (a) PSF from Rs. 13.86 per kg to Rs. 8.50 per kg. if such PSF is manufactured from DMT/PTA which is not wholly exempted from duty. Also prescribing concessional basic duty of Rs. 12 per kg on PSF made out of DMT/PTA which has enjoyed full duty exemption.

(-) 5688 (B)
(-) 812 (AT&T)

डाक शुल्क दरों में प्रस्तावित परिवर्तनों का ज्ञापन

MEMORANDUM SHOWING THE PROPOSED REVISION OF POSTAL TARIFFS

मार्च / **MARCH, 1990**

संचार मंत्रालय Ministry of Communications
डाक विभाग Department of Posts

प्रस्तावना

कतिपय डाक वस्तुओं पर लिए जाने वाले शुल्क की दरों के सिद्धांत भारतीय डाकघर अधिनियम, 1898 की प्रथम अनुसूची द्वारा निर्धारित किए जाते हैं । ऐसी डाक वस्तुओं के बारे में इस तरह निर्धारित सिद्धांतों के अंतर्गत और अनुसूची में शामिल न की गई अन्य डाक वस्तुओं तथा अन्य सेवाओं के बारे में, केन्द्रीय सरकार को भारतीय डाकघर नियमावली, 1933 (भारतीय डाकघर अधिनियम, 1898 की धारा 7 द्वारा) में संशोधन करके सरकारी राजपत्र में अधिसूचना द्वारा दरें निर्धारित करने की शक्तियां प्राप्त हैं।

2. अगले पृष्ठों में क्रम सं. 1 से 3, 4(i) और 5 पर उल्लिखित डाक मदों से संबंधित दरों में संशोधन के प्रस्तावों के लिए भारतीय डाकघर अधिनियम, 1898 की प्रथम अनुसूची में संशोधन करने की आवश्यकता है और इन्हें वित्त विधेयक में शामिल किया गया है । ये परिवर्तन और साथ ही अन्य डाक सेवाओं की दरों में संशोधन भारतीय डाकघर नियमावली, 1933 में संशोधन करते हुए किए जा सकेंगे।

INTRODUCTORY

The maxima of the tariffs leviable for certain postal articles are prescribed by the First Schedule in the Indian Post Office Act, 1898. Within the maxima so prescribed in respect of such articles and in respect of other postal articles not included in the Schedule and other services, the Central Government have the power to fix the rates by notification in the Official Gazette by amending Indian Post Office Rules 1933 (vide Section 7 of the Indian Post Office Act, 1898).

2. The proposals for revision of tariffs in the following pages relating to postal articles at serial Nos. 1 to 3, 4(i) and 5 require an amendment to the First Schedule of the Indian Post Office Act, 1898 and these have been included in the Finance Bill. These changes as also the revision of tariffs for other postal services would be made by amending Indian Post Office Rules, 1933.

THE FINANCE ACT, 1990

No. 12 OF 1990

[31*st May*, 1990.]

An Act to give effect to the financial proposals of the Central Government for the financial year 1990-91.

BE it enacted by Parliament in the Forty-first Year of the Republic of India as follows:—

CHAPTER I

PRELIMINARY

1. (*1*) This Act may be called the Finance Act, 1990. **Short title and commencement.**

(*2*) Save as otherwise provided in this Act, sections 2 to 61 shall be deemed to have come into force on the 1st day of April, 1990.

CHAPTER II

RATES OF INCOME-TAX

2. (*1*) Subject to the provisions of sub-sections (*2*) and (*3*), for the assessment year commencing on the 1st day of April, 1990, income-tax shall be charged at the rates specified in Part I of the First Schedule and shall be increased,— Income-tax.

(*a*) in the cases to which Paragraphs A, B, C and D of that Part apply, by a surcharge for purposes of the Union; and

(*b*) in the cases to which Paragraph E of that Part applies, by a surcharge,

calculated in each case in the manner provided therein.

(*2*) In the cases to which Sub-Paragraph I or Sub-Paragraph II of Paragraph A of Part I of the First Schedule applies, where the assessee has, in the previous year, any net agricultural income exceeding six hundred rupees, in addition to total income, and the total income exceeds,—

(*i*) in a case to which the said Sub-Paragraph I applies, eighteen thousand rupees, and

(*ii*) in a case to which the said Sub-Paragraph II applies, twelve thousand rupees,

then,—

(*a*) the net agricultural income shall be taken into account, in the manner provided in clause (*b*) [that is to say, as if the net agricultural income were comprised in the total income after,—

(*i*) in a case to which the said Sub-Paragraph I applies, the first eighteen thousand rupees, and

(*ii*) in a case to which the said Sub-Paragraph II applies, the first twelve thousand rupees,

of the total income but without being liable to tax], only for the purpose of charging income-tax in respect of the total income; and

(*b*) the income-tax chargeable shall be calculated as follows:—

(*i*) the total income and the net agricultural income shall be aggregated and the amount of income-tax shall be determined in respect of the aggregate income at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if such aggregate income were the total income;

(*ii*) the net agricultural income shall be increased,—

(*A*) in a case to which the said Sub-Paragraph I applies, by a sum of eighteen thousand rupees; and

(*B*) in a case to which the said Sub-Paragraph II applies, by a sum of twelve thousand rupees,

and the amount of income-tax shall be determined in respect of the net agricultural income as so increased at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if the net agricultural income as so increased were the total income;

(*iii*) the amount of income-tax determined in accordance with sub-clause (*i*) shall be reduced by the amount of income-tax determined in accordance with sub-clause (*ii*) and the sum so arrived at shall be the income-tax in respect of the total income:

Provided that the amount of income-tax so arrived at shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax and the sum so arrived at shall be the income-tax in respect of the total income.

(3) In cases to which the provisions of Chapter XII or Chapter XII-A or sub-section (*1A*) of section 161 or section 164 or section 164A or section 167B of the Income-tax Act, 1961 (hereinafter referred to as the Income-tax Act) apply, the tax chargeable shall be determined as provided in that Chapter or that section, and with reference to the rates imposed by sub-section (*1*) or the rates as specified in that Chapter or section, as the case may be: 43 of 1961.

Provided that in respect of any income chargeable to tax under section 115B or section 115BB of the Income-tax Act, the income-tax computed

under section 115B or section 115BB shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

(4) In cases in which tax has to be deducted under sections 193, 194, 194A, 194B, 194BB, 194D and 195 of the Income-tax Act at the rates in force, the deduction shall be made at the rates specified in Part II of the First Schedule and shall be increased,—

(*a*) in the cases to which the provisions of sub-item (*a*) of item 1 of that Part apply, by a surcharge for purposes of the Union; and

(*b*) in the cases to which the provisions of sub-item (*a*) of item 2 of that Part apply, by a surcharge,

calculated in each case in the manner provided therein.

(5) In cases in which tax has to be deducted under section 194C of the Income-tax Act, the deduction shall be made at the rates specified in that section and shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such deduction.

(6) In cases in which tax has to be collected under section 206C of the Income-tax Act, the collection shall be made at the rate specified in that section and shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such collection.

(7) Subject to the provisions of sub-section (*8*), in cases in which income-tax has to be calculated under the first proviso to sub-section (*5*) of section 132 of the Income-tax Act or charged under sub-section (*4*) of section 172 or sub-section (*2*) of section 174 or section 175 or sub-section (*2*) of section 176 of the said Act or deducted under section 192 of the said Act from income chargeable under the head "Salaries" or in which the "advance tax" payable under Chapter XVII-C of the said Act has to be computed, at the rate or rates in force, such income-tax or, as the case may be, "advance tax" shall be so calculated, charged, deducted or computed at the rate or rates specified in Part III of the First Schedule and such tax as reduced by the rebate of income-tax calculated under Chapter VIII-A shall be increased,—

(*a*) in the cases to which Paragraphs A, B, C and D of that Part apply, by a surcharge for purposes of the Union; and

(*b*) in the cases to which Paragraph E of that Part applies, by a surcharge,

calculated in each case in the manner provided therein:

Provided that in cases to which the provisions of Chapter XII or Chapter XII-A or sub-section (*1A*) of section 161 or section 164 or section 164A or section 167B of the Income-tax Act apply, "advance tax" shall be computed with reference to the rates imposed by this sub-section or the rates as specified in that Chapter or section, as the case may be:

Provided further that in respect of any income chargeable to tax under section 115B of the Income-tax Act, the "advance tax" computed under the first proviso shall be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such "advance tax".

(8) In the cases to which Sub-Paragraph I or Sub-Paragraph II of Paragraph A of Part III of the First Schedule applies, where the assessee has, in the previous year or, if by virtue of any provision of the Income-tax Act, income-tax is to be charged in respect of the income of a period other than the previous year, in such other period, any net agricultural income exceeding six hundred rupees, in addition to total income and the total income exceeds,—

(*i*) in a case to which the said Sub-Paragraph I applies, twenty-two thousand rupees, and

(*ii*) in a case to which the said Sub-Paragraph II applies, twelve thousand rupees,

then, in calculating income-tax under the first proviso to sub-section (5) of section 132 of the Income-tax Act or in charging income-tax under sub-section (2) of section 174 or section 175 or sub-section (2) of section 176 of the said Act or in computing the "advance tax" payable under Chapter XVII-C of the said Act, at the rate or rates in force,—

(*a*) the net agricultural income shall be taken into account, in the manner provided in clause (*b*) [that is to say, as if the net agricultural income were comprised in the total income after,—

(*i*) in a case to which the said Sub-Paragraph I applies, the first twenty-two thousand rupees, and

(*ii*) in a case to which the said Sub-Paragraph II applies, the first twelve thousand rupees,

of the total income but without being liable to tax], only for the purpose of calculating, charging or computing such income-tax or, as the case may be, "advance tax" in respect of the total income; and

(*b*) such income-tax or, as the case may be, "advance tax" shall be so calculated, charged or computed as follows:—

(*i*) the total income and the net agricultural income shall be aggregated and the amount of income-tax or "advance tax" shall be determined in respect of the aggregate income at the rates specified in Sub-Paragraph I or, as the case may be, Sub-Paragraph II of the said Paragraph A, as if such aggregate income were the total income;

(*ii*) the net agricultural income shall be increased,—

(*A*) in a case to which the said Sub-Paragraph I applies, by a sum of twenty-two thousand rupees; and

(*B*) in a case to which the said Sub-Paragraph II applies, by a sum of twelve thousand rupees,

and the amount of income-tax or "advance tax" shall be determined in respect of the net agricultural income as so increased at the rates specified in the said Sub-Paragraph I or, as the case may be, the said Sub-Paragraph II as if the net agricultural income as so increased were the total income;

(*iii*) the amount of income-tax or "advance tax" determined in accordance with sub-clause (*i*) shall be reduced by the amount of income-tax or, as the case may be, "advance tax" determined in accordance with sub-clause (*ii*) and the sum so arrived at shall be the income-tax or, as the case may be, "advance tax" in respect of the total income:

Provided that the amount of income-tax or "advance tax" so arrived at shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax or, as the case may be, "advance tax" and the sum so arrived at shall be the income-tax or, as the case my be, "advance-tax" in respect of the total income.

(*9*) For the purposes of this section and the First Schedule,—

(*a*) "company in which the public are substantially interested" means a company within the meaning of clause (*18*) of section 2 of the Income-tax Act, and includes a subsidiary of such company if the whole of the share capital of such subsidiary company has been held by the parent company or by its nominees throughout the previous year;

(*b*) "domestic company" means an Indian company, or any other company which, in respect of its income liable to income-tax under the Income-tax Act for the assessment year commencing on the 1st day of April, 1990, has made the prescribed arrangements for the declaration and payment within India of the dividends (including dividends on preference shares) payable out of such income in accordance with the provisions of section 194 of the Act;

(*c*) "insurance commission" means any remuneration or reward, whether by way of commission or otherwise, for soliciting or procuring insurance business (including business relating to the continuance, renewal or revival of policies of insurance);

(*d*) "investment company" means a company whose gross total income (as defined in section 80B of the Income-tax Act) consists mainly of income which is chargeable under the heads "Income from house property", "Capital gains" and "Income from other sources" or of income by way of interest on securities;

(*e*) "net agricultural income", in relation to a person, means the total amount of agricultural income, from whatever source derived, of that person computed in accordance with the rules contained in Part IV of the First Schedule;

(*f*) "tax-free security" means any security of the Central Government issued or declared to be income-tax free, or any security of a State Government issued income-tax free, the income-tax whereon is payable by the State Government;

(*g*) "trading company" means a company whose business consists mainly in dealing in goods or merchandise manufactured, produced or processed by a person other than that company and whose income attributable to such business included in its gross total income (as

defined in section 80B of the Income-tax Act) is not less than fifty-one per cent. of the amount of such gross total income;

(*h*) all other words and expressions used in this section or in the First Schedule but not defined in this sub-section and defined in the Income-tax Act shall have the meanings respectively assigned to them in that Act.

CHAPTER III

DIRECT TAXES

Income-tax

Amendment of section 2.

3. In section 2 of the Income-tax Act,—

(*i*) in clause (*24*),—

(*a*) existing sub-clause (*va*) shall be renumbered as sub-clause (*vd*) and before sub-clause (*vd*) as so renumbered, the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1962, namely:—

"(*va*) any sum chargeable to income-tax under clause (*iiia*) of section 28;";

(*b*) after sub-clause (*va*), the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1967, namely:—

"(*vb*) any sum chargeable to income-tax under clause (*iiib*) of section 28;";

(*c*) after sub-clause (*vb*), the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1972, namely:—

"(*vc*) any sum chargeable to income-tax under clause (*iiic*) of section 28;";

(*ii*) in clause (*40*), for the word and figures "section 143", the words, brackets and figures "sub-section (*3*) of section 143" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989;

(*iii*) clause (*42C*) [as inserted by clause (*ii*) of section 2 of the Direct Tax Laws (Second Amendment) Act, 1989] shall be omitted. 36 of 1989.

Amendment of section 6.

4. In section 6 of the Income-tax Act, in clause (*1*), in sub-clause (*c*), in the *Explanation*, in clause (*a*), after the words "previous year", the words, brackets and figures "as a member of the crew of an Indian ship as defined in clause (*18*) of section 3 of the Merchant Shipping Act, 1958, or" shall be inserted. 44 of 1958.

Amendment of section 10.

5. In section 10 of the Income-tax Act, in clause (*15*),—

(*i*) in sub-clause (*iv*), in item (*i*), after the words "State Government", the words "or a public sector company" shall be inserted with effect from the 1st day of April, 1991;

(*ii*) after sub-clause (*iv*), the following sub-clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"(*v*) interest on securities held by the Registrar, Supreme Court, in Reserve Bank's SGL Account No. SL/DH 048;".

6. In section 28 of the Income-tax Act,— Amendment of section 28.

(*a*) after clause (*iii*), the following clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1962, namely:—

"(*iiia*) profits on sale of a licence granted under the Imports (Control) Order, 1955, made under the Imports and Exports (Control) Act, 1947;"; 18 of 1947.

(*b*) after clause (*iiia*), the following clause shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1967, namely:—

"(*iiib*) cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India;";

(*c*) after clause (*iiib*), the following clause shall be inserted and shall be deemed to have been inserted with effect fromm the 1st day of April, 1972, namely:—

"(*iiic*) any duty of customs or excise re-paid or re-payable as drawback to any person against exports under the Customs and Central Excise Duties Drawback Rules, 1971;".

7. In section 32A of the Income-tax Act,— Amendment of section 32A.

(*i*) in sub-section (*4*), in clause (*ii*), in the opening portion, for the words "the previous year in respect of which the deduction is to be allowed", the words, brackets and figure "any previous year in respect of which the deduction is to be allowed under sub-section (*3*) or any earlier previous year (being a previous year not earlier than the year in which the ship or aircraft was acquired or the machinery or plant was installed or the ship, aircraft, machinery or plant was first put to use)" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1976;

(*ii*) sub-section (*9*) shall be omitted and shall be deemed to have been omitted with effect from the 1st day of April, 1976.

8. In section 32AB of the Income-tax Act, in sub-section (*1*), after the first proviso, the following proviso shall be inserted, namely:— Amendment of section 32AB.

"Provided further that no such deduction shall be allowed in relation to the assessment year commencing on the 1st day of April, 1991, or any subsequent assessment year.".

9. In section 33A of the Income-tax Act, in sub-section (*1*), for the proviso, the following provisos shall be substituted, namely:— Amendment of section 33A.

"Provided that no deduction under clause (*i*) shall be allowed unless the planting has commenced after the 31st day of March, 1965, and been completed before the 1st day of April, 1990:

Provided further that no deduction shall be allowed under clause (*ii*) unless the planting has commenced after the 31st day of March, 1965, and been completed before the 1st day of April, 1970.".

Substitution of new section for section 33AB.

10. For section 33AB of the Income-tax Act, the following section shall be substituted with effect from the 1st day of April, 1991, namely:—

Tea Development Account.

'33AB. (*1*) Where an assessee carrying on business of growing and manufacturing tea in India has, before the expiry of six months from the end of the previous year or before furnishing the return of his income, whichever is earlier, deposited with the National Bank any amount or amounts in an account (hereafter in this section referred to as the special account) maintained by the assessee with that Bank in accordance with, and for the purposes specified in, a scheme (hereafter in this section referred to as the scheme) approved in this behalf by the Tea Board, the assessee shall, subject to the provisions of this section, be allowed a deduction (such deduction being allowed before the loss, if any, brought forward from earlier years is set off under section 72) of—

(*a*) a sum equal to the amount or the aggregate of the amounts so deposited; or

(*b*) a sum equal to twenty per cent. of the profits of such business (computed under the head "Profits and gains of business or profession" before making any deduction under this section),

whichever is less:

Provided that where such assessee is a firm, or any association of persons or any body of individuals, the deduction under this Section shall not be allowed in the computation of the income of any partner, or as the case may be, any member of such firm, association of persons or body of individuals:

Provided further that where any deduction, in respect of any amount deposited in the special account, has been allowed under this sub-section in any previous year, no deduction shall be allowed in respect of such amount in any other previous year.

(*2*) The deduction under sub-section (*1*) shall not be admissible unless the accounts of such business of the assessee for the previous year relevant to the assessment year for which the deduction is claimed have been audited by an accountant as defined in the *Explanation* below sub-section (*2*) of section 288 and the assessee furnishes, along with his return of income, the report of such audit in the prescribed form duly signed and verified by such accountant:

Provided that in a case where the assessee is required by or under any other law to get his accounts audited, it shall be sufficient compliance with the provisions of this sub-section if such assessee gets the accounts of such business audited under

such law and furnishes the report of the audit as required under such other law and a further report in the form prescribed under this sub-section.

(*3*) Any amount standing to the credit of the assessee in the special account shall not be allowed to be withdrawn except for the purposes specified in the scheme or in the circumstances specified below:—

(*a*) closure of business;

(*b*) death of an assessee;

(*c*) partition of a Hindu undivided family;

(*d*) dissolution of a firm;

(*e*) liquidation of a company.

(*4*) Notwithstanding anything contained in sub-section (*3*), no deduction under sub-section (*1*) shall be allowed in respect of any amount utilised for the purchase of—

(*a*) any machinery or plant to be installed in any office premises or residential accommodation, including any accommodation in the nature of a guest-house;

(*b*) any office appliances (not being computers);

(*c*) any machinery or plant, the whole of the actual cost of which is allowed as a deduction (whether by way of depreciation or otherwise) in computing the income chargeable under the head "Profits and gains of business or profession" of any one previous year;

(*d*) any new machinery or plant to be installed in an industrial undertaking for the purposes of business of construction. manufacture or production of any article or thing specified in the list in the Eleventh Schedule.

(*5*) Where any amount, standing to the credit of the assessee in the special account, is withdrawn during any previous year by the assessee in the circumstance specified in clause (*a*) or clause (*d*) of sub-section (*3*), the whole of such amount shall be deemed to be the profits and gains of business or profession of that previous year and shall accordingly be chargeable to income-tax as the income of that previous year, as if the business had not closed or, as the case may be, the firm had not been dissolved.

(*6*) Where any amount standing to the credit of the assessee in the special account is utilised by the assessee for the purposes of any expenditure in connection with such business in accordance with the scheme, such expenditure shall not be allowed in computing the income chargeable under the head "Profits and gains of business or profession".

(*7*) Where any amount, standing to the credit of the assessee in the special account, which is released during any previous year by the National Bank for being utilised by the assessee for the purposes of such business in accordance with the scheme is not so utilised, either wholly or in part, within that previous year, the

whole of such amount or, as the case may be, part thereof which is not so utilised shall be deemed to be profits and gains of business and accordingly chargeable to income-tax as the income of that previous year:

Provided that this sub-section shall not apply in a case where such amount is released during any previous year at the closure of the account in circumstances specified in clauses (*b*), (*c*) and (*e*) of sub-section (*3*).

(*8*) Where any asset acquired in accordance with the scheme is sold or otherwise transferred in any previous year by the assessee to any person at any time before the expiry of eight years from the end of the previous year in which it was acquired, such part of the cost of such asset as is relatable to the deduction allowed under sub-section (*1*) shall be deemed to be the profits and gains of business or profession of the previous year in which the asset is sold or otherwise transferred and shall accordingly be chargeable to income-tax as the income of that previous year:

Provided that nothing in this sub-section shall apply—

(*i*) where the asset is sold or otherwise transferred by the assessee to Government, a local authority, a corporation established by or under a Central, State or Provincial Act or a Government company as defined in section 617 of the Companies Act, 1956; or 1 of 1956.

(*ii*) where the sale or transfer of the asset is made in connection with the succession of a firm by a company in the business or profession carried on by the firm as a result of which the firm sells or otherwise transfers to the company any asset and the scheme continues to apply to the company in the manner applicable to the firm.

Explanation.—The provisions of clause (*ii*) of the proviso shall apply only where—

(*i*) all the properties of the firm relating to the business or profession immediately before the succession become the properties of the company;

(*ii*) all the liabilities of the firm relating to the business or profession immediately before the succession become the liabilities of the company; and

(*iii*) all the shareholders of the company were partners of the firm immediately before the succession.

(*9*) The Central Government, if it considers necessary or expedient so to do, may, by notification in the Official Gazette, direct that the deduction allowable under this section shall not be allowed after such date as may be specified therein.

Explanation.—In this section,—

(*a*) "National Bank" means the National Bank for Agriculture and Rural Development established under section 3 of the National Bank for Agriculture and Rural Development Act, 1981; 61 of 1981.

(b) "Tea Board" means the Tea Board established under section 4 of the Tea Act, 1953.'. 29 of 1953.

11. In section 34 of the Income-tax Act, in sub-section (3), in clause (a),— Amendment of section 34.

(i) for the words "the relevant previous year", the words, brackets and figure "any previous year in respect of which the deduction is to be allowed under sub-section (2) of that section or any earlier previous year (being a previous year not earlier than the year in which the ship was acquired or the machinery or plant was installed or the ship, machinery or plant was first put to use)" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1962;

(ii) the *Explanation* shall be omitted and shall be deemed to have been omitted with effect from the 1st day of April, 1962.

12. In section 35CCB of the Income-tax Act, with effect from the 1st day of April, 1991,— Amendment of section 35CCB.

(i) for sub-section (1), the following sub-section shall be substituted, namely:—

"(1) Where an assessee incurs any expenditure by way of payment of any sum—

(a) to an association or institution, which has as its object the undertaking of any programme of conservation of natural resources or of afforestation, to be used for carrying out any programme of conservation of natural resources or afforestation approved by the prescribed authority; or

(b) to such fund for afforestation as may be notified by the Central Government,

the assessee shall, subject to the provisions of sub-section (2), be allowed a deduction of the amount of such expenditure incurred during the previous year.";

(ii) in sub-section (2), in the opening portion, after the words "deduction under", the words, brackets and letter "clause (a) of" shall be inserted.

13. In section 43B of the Income-tax Act, with effect from the 1st day of April, 1991,— Amendment of section 43B.

(a) in clause (d), after the words "any public financial institution", the words "or a State financial corporation or a State industrial investment corporation" shall be inserted;

(b) for *Explanation* 4, the following *Explanation* shall be substituted, namely:—

'*Explanation* 4.—For the purposes of this section,—

(a) "public financial institution" shall have the meaning assigned to it in section 4A of the Companies Act, 1956; 1 of 1956.

(b) "State financial corporation" means a financial corporation established under section 3 or section 3A or an institution notified under section 46 of the State Financial Corporations Act, 1951; 63 of 1951.

(c) "State industrial investment corporation" means a Government company within the meaning of section 617 of the Companies Act, 1956, engaged in the business of providing long-term finance for industrial projects and approved by the Central Government under clause (*viii*) of sub-section (*1*) of section 36.'. 1 of 1956.

Amendment of section 44AC.

14. In section 44AC of the Income-tax Act, with effect from the 1st day of April, 1991,—

(*a*) in sub-section (*1*), in clause (*a*), the following *Explanation* shall be inserted at the end, namely:—

'*Explanation*.—For the purposes of this clause, "purchase price" means any amount (by whatever name called) paid or payable by the buyer to obtain the goods referred to in this clause, but shall not include the amount paid or payable by him towards the bid money in an auction, or, as the case may be, the highest accepted offer in case of tender or any other mode;';

(*b*) in the *Explanation*, after the word "firm", the words "or co-operative society" shall be inserted.

Amendment of section 45.

15. In section 45 of the Income-tax Act, after sub-section (5) and the *Explanation* thereto, the following sub-section shall be inserted with effect from the 1st day of April, 1991, namely:—

'(*6*) Notwithstanding anything contained in sub-section (*1*), the difference between the repurchase price of the units referred to in sub-section (2) of section 80CCB and the capital value of such units shall be deemed to be the capital gains arising to the assessee in the previous year in which such repurchase takes place or the plan referred to in that section is terminated and shall be taxed accordingly.

Explanation.—For the purposes of this sub-section, "capital value of such units" means any amount invested by the assessee in the units referred to in sub-section (*2*) of section 80CCB.'.

Amendment of section 80CCA.

16. In section 80CCA of the Income-tax Act, with effect from the 1st day of April, 1991,—

(*a*) in sub-section (*1*), for the proviso, the following proviso shall be substituted, namely:—

'Provided that in relation to—

(*a*) the assessment years commencing on the 1st day of April, 1989 and the 1st day of April, 1990, this sub-section shall have effect as if for the words "twenty thousand rupees", the words "thirty thousand rupees" had been substituted;

(*b*) the assessment year commencing on the 1st day of April, 1991 and subsequent assessment years, this sub-section

shall have effect as if for the words "twenty thousand rupees", the words "forty thousand rupees" had been substituted;

(*b*) after sub-section (*2*), and before *Explanation* 1, the following sub-section shall be inserted, namely:—

"(*3*) Notwithstanding anything contained in any other provision of this Act, where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved after a deduction has been allowed under sub-section (*1*), the provisions of sub-section (*2*) shall apply as if the person in receipt of income referred to therein is the assessee.".

17. After section 80CCA of the Income-tax Act, the following section shall be inserted with effect from the 1st day of April, 1991, namely:— Insertion of new section 80CCB.

"80CCB. (*1*) Where an assessee, being— Deduction in respect of investment made under Equity Linked Savings Scheme.

(*a*) an individual, or

(*b*) a Hindu undivided family, or

(*c*) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

has acquired in the previous year, out of his income chargeable to tax, units of any Mutual Fund specified under clause (*23D*) of section 10 or of the Unit Trust of India established under tre Unit Trust of India
52 of 1963. Act, 1963, under any plan formulated in accordance with such scheme as the Central Government may, by notification in the Official Gazette, specify in this behalf (hereafter in this section referred to as the Equity Linked Savings Scheme), he shall, in accordance with, and subject to, the provisions of this section, be allowed a deduction in the computation of his total income of so much of the amount invested as does not exceed the amount of ten thousand rupees in the previous year.

(*2*) Where any amount invested by the assessee in the units issued under a plan formulated under the Equity Linked Savings Scheme in respect of which a deduction has been allowed under sub-section (*1*) is returned to him in whole or in part either by way of repurchase of such units or on the termination of the plan, by the Fund or the Trust, as the case may be, in any previous year, it shall be deemed to be the income of the assessee of that previous year and chargeable to tax accordingly.

(*3*) Notwithstanding anything contained in any other provision of this Act, where a partition has taken place among the members of a Hindu undivided family or where an association of persons has been dissolved after a deduction has been allowed under sub-section (*1*), the provisions of sub-section (*2*) shall apply as if the person in receipt of income referred to therein is the assessee.".

Insertion of new section 80DD.

18. In the Income-tax Act, after section 80D, the following section shall be inserted with effect from the 1st day of April, 1991, namely:—

Deduction in respect of medical treatment, etc., of handicapped dependents.

'80DD. (*1*) Where an assessee who is resident in India, being an individual or a Hindu undivided family has, during the previous year, incurred any expenditure for the medical treatment (including nursing), training and rehabilitation of a person who—

(*a*) is a relative of the individual or, as the case may be, is a member of the Hindu undivided family and is not dependent on any person other than such individual or Hindu undivided family for his support or maintenance, and

(*b*) is suffering from a permanent physical disability (including blindness) or is subject to mental retardation, being a permanent physical disability or mental retardation specified in the rules made in this behalf by the Board, which is certified by a physician, a surgeon, an oculist or a psyehiatrist, as the case may be, working in a Government hospital, and which has the effect of reducing considerably such person's capacity for normal work or engaging in a gainful employment or occupation,

the assessee shall, in accordance with, and subject to, the provisions of this section, be allowed a deduction of a sum of six thousand rupees in respect of the previous year.

(2) Nothing contained in this section shall apply in a case, where the assessee's total income in respect of the previous year as computed before making any deduction under this section exceeds one lakh rupees.

Explanation.—For the purposes of this section, the expression "Government hospital" includes a departmental dispensary whether full-time or part-time established and run by a Department of the Government for the medical attendance and treatment of a class or classes of Government servants and members of their families, a hospital maintained by a local authority and any other hospital with which arrangements have been made by the Government for the treatment of Government servants.'.

Amendment of section 80GGA.

19. In section 80GGA of the Income-tax Act, in sub-section (*2*), with effect from the 1st day of April, 1991,—

(*i*) in clause (*c*), after the words "natural resources", at both the places where they occur, the words "or of afforestation" shall be inserted;

(*ii*) after clause (*c*), the following clause shall be inserted, namely:—

"(*cc*) any sum paid by the assessee in the previous year to such fund for afforestation as is notified by the Central Government under clause (*b*) of sub-section (*1*) of section 35CCB;".

Amendment of section 80HH.

20. In section 80HH of the Income-tax Act,—

(*a*) in sub-section (*2*), in clause (*i*), after the words, figures and letters "the 31st day of December, 1970", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted;

(*b*) in sub-section (*3*), in clause (*i*), after the words, figures and letters "the 31st day of December, 1970", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted.

21. In section 80HHA of the Income-tax Act, in sub-section (*2*), in clause (*i*), after the words, figures and letters "the 30th day of September, 1977", the words, figures and letters "but before the 1st day of April, 1990" shall be inserted. Amendment of section 80HHA.

22. In section 80HHC of the Income-tax Act,— Amendment of section 80HHC.

(*a*) in sub-section (*2*), in clause (*a*),—

(*i*) for the word "receivable", the words "received in, or brought into, India" shall be substituted with effect from the 1st day of April, 1991;

(*ii*) after the word "assessee", the brackets and words "(other than the supporting manufacturer)" shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989;

(*iii*) after the words "convertible foreign exchange", the words and brackets ", within a period of six months from the end of the previous year or, where the Chief Commissioner or Commissioner is satisfied (for reasons to be recorded in writing) that the assessee is, for reasons beyond his control, unable to do so within the said period of six months, within such further period as the Chief Commissioner or Commissioner may allow in this behalf" shall be inserted with effect from the 1st day of April, 1991;

(*b*) for sub-section (*3*), the following sub-section shall be substituted with effect from the 1st day of April, 1991, namely:—

'(*3*) For the purposes of sub-section (*1*), profits derived from the export of goods or merchandise out of India shall be the amount which bears to the profits of the business (as computed under the head "Profits and gains of business or profession"), the same proportion as the export turnover bears to the total turnover of the business carried on by the assessee.';

(*c*) in the *Explanation*, with effect from the 1st day of April, 1991,—

(*i*) in clause (*b*),—

(*1*) for the word "receivable", the words ", received in, or brought into, India" shall be substituted;

(*2*) after the words "foreign exchange", the words, brackets, letter and figure "in accordance with clause (*a*) of sub-section (*2*)" shall be inserted;

(*ii*) after clause (*b*), the following clause shall be inserted, namely:—

"(*bb*) 'total turnover" shall not include any sum referred to in clauses (*iiia*), (*iiib*) and (*iiic*) of section 28;";

(*iii*) in clause (*d*), for the words "manufacturing goods", the words and brackets "manufacturing (including processing) goods" shall be substituted.

Amendment of section 80 HHD.

23. In section 80HHD of the Income-tax Act, with effect from the 1st day of April, 1991,—

(*a*) in sub-section (*2*), for the words "by the assessee in convertible foreign exchange", the words and brackets "in, or brought into, India by the assessee in convertible foreign exchange within a period of six months from the end of the previous year or, where the Chief Commissioner or Commissioner is satisfied (for reasons to be recorded in writing) that the assessee is, for reasons beyond his control, unable to do so within the said period of six months, within such further period as the Chief Commissioner or Commissioner may allow in this behalf" shall be substituted;

(*b*) for sub-section (*3*), the following sub-section shall be substituted, namely:—

'(*3*) For the purposes of sub-section (*1*), profits derived from services provided to foreign tourists shall be the amount which bears to the profits of the business (as computed under the head "Profits and gains of business or profession") the same proportion as the receipts specified in sub-section (*2*) bear to the total receipts of the business carried on by the assessee.'.

Amendment of section 80-I.

24. In section 80-I of the Income-tax Act,—

(*a*) after sub-section (*1*), the following sub-section shall be inserted, namely:—

'(*1A*) Notwithstanding anything contained in sub-section (*1*), in relation to any profits and gains derived by an assessee from—

(*i*) an industrial undertaking which begins to manufacture or produce articles or things or to operate its cold storage plant or plants; or

(*ii*) a ship which is first brought into use; or

(*iii*) the business of a hotel which starts functioning,

on or after the 1st day of April, 1990, there shall, in accordance with and subject to the provisions of this section, be allowed in computing the total income of the assessee, a deduction from such profits and gains of an amount equal to twenty-five per cent. thereof:

Provided that in the case of an assessee, being a company, the provisions of this sub-section shall have effect in relation to profits and gains derived from an industrial undertaking or a ship or the business of a hotel as if for the words "twenty-five per cent.", the words "thirty per cent." had been substituted.';

(*b*) in sub-section (*2*), in clause (*iii*), for the words "nine years", the words "fourteen years" shall be substituted;

(*c*) in sub-section (*3*), in clause (*iii*), for the words "nine years", the words "fourteen years" shall be substituted;

(*d*) in sub-section (*4*), in clause (*iv*), for the words, figures and letters "before the 1st day of April, 1990", the words, figures and letters "before the 1st day of April, 1995" shall be substituted;

(*e*) in sub-section (*5*), after the second proviso, the following provisos shall be inserted, namely:—

'Provided also that in the case of—

(*i*) an industrial undertaking which begins to manufacture or produce articles or things or to operate its cold storage plant or plants; or

(*ii*) a ship which is first brought into use; or

(*iii*) the business of a hotel which starts functioning,

on or after the 1st day of April, 1990, provisions of this sub-section shall have effect as if for the words "seven assessment years", the words "nine assessment years" had been substituted:

Provided also that in the case of an assessee, being a co-operative society, deriving profits and gains from an industrial undertaking or a ship or a hotel referred to in the third proviso, the provisions of that proviso shall have effect as if for the words "nine assessment years", the words "eleven assessment years" had been substituted.'.

25. In section 80L of the Income-tax Act, in sub-section (*1*), the following *Explanation* shall be inserted at the end, namely:— Amendment of section 80L.

'*Explanation.*—For the purposes of this sub-section, the expression "security" means a Government security as defined in clause (*2*) of

18 of 1944. section 2 of the Public Debt Act, 1944.'.

26. For section 80M of the Income-tax Act, the following section shall be substituted, with effect from the 1st day of April, 1991, namely:— Substitution of new section for section 80M.

Deduction in respect of certain intercorporate dividends.

'80M. (*1*) Where the gross total income of a domestic company, in any previous year, includes any income by way of dividends from another domestic company, there shall, in accordance with and subject to the provisions of this section, be allowed, in computing the total income of such domestic company, a deduction of an amount equal to,—

(*i*) in the case of a scheduled bank or a public financial institution or a State financial corporation or a State industrial investment corporation or a company registered under section

1 of 1956. 25 of the Companies Act, 1956, sixty per cent. of the income by way of dividends from another domestic company;

(*ii*) in the case of any other domestic company, so much of the amount of income by way of dividends from another domestic company as does not exceed the amount of dividend distributed

by the first-mentioned domestic company on or before the due date.

(*2*) Where any deduction, in respect of the amount of dividend distributed by the domestic company, has been allowed under clause (*ii*) of sub-section (*1*) in any previous year, no deduction shall be allowed in respect of such amount in any other previous year.

(*3*) Where the dividend distributed is in respect of any period comprised in the previous year ending on the 31st day of March, 1990, no deduction shall be allowed in respect of such dividend.

Explanation.—For the purposes of this section, the expressions—

(*i*) "scheduled bank" means the State Bank of India constituted under the State Bank of India Act, 1955, a subsidiary bank as defined in the State Bank of India (Subsidiary Banks) Act, 1959, a corresponding new bank constituted under section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1970, or under section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1980, or any other bank included in the Second Schedule to the Reserve Bank of India Act, 1934 and which is a domestic company; 23 of 1955. 38 of 1959. 5 of 1970. 40 of 1980. 2 of 1934.

(*ii*) "public financial institution" shall have the meaning assigned to it in section 4A of the Companies Act, 1956; 1 of 1956.

(*iii*) "State financial corporation" and "State industrial investment corporation" shall have the same meanings as in section 43B;

(*iv*) "due date" means the date for furnishing the return of income under sub-section (*1*) of section 139.'.

Amendment of section 80R.

27. In section 80R of the Income-tax Act, with effect from the 1st day of April, 1991,—

(*a*) for the words "allowed a deduction from such remuneration of an amount equal to fifty per cent. thereof, in computing the total income of the individual;", the words and figures "allowed, in computing the total income of the individual, a deduction from such remuneration of an amount equal to,—

(*i*) fifty per cent. of the remuneration; or

(*ii*) seventy-five per cent. of such remuneration as is brought into India by, or on behalf of, the assessee in accordance with the Foreign Exchange Regulation Act, 1973, and any rules made thereunder, 46 of 1973.

whichever is higher." shall be substituted;

(*b*) the proviso shall be omitted.

Amendment of section 80RR.

28. In section 80RR of the Income-tax Act, for the words and figures "and such income is received in, or brought into, India by him or on his behalf in accordance with the Foreign Exchange Regulation Act, 1947, and any rules made thereunder, there shall be allowed a deduction from such income of an amount equal to twenty-five per cent. of the income so received or brought, in computing the total income of the individual", the words and figures "there shall be allowed in computing the total 7 of 1947.

income of the individual, a deduction from such income of an amount equal to,—

(*i*) fifty per cent. of the income; or

(*ii*) seventy-five per cent. of such income as is brought into India by, or on behalf of, the assessee in accordance with the Foreign Exchange Regulation Act, 1973 and any rules made thereunder, 46 of 1973.

whichever is higher" shall be substituted with effect from the 1st day of April, 1991.

29. In section 80RRA of the Income-tax in sub-section (*1*), the proviso shall be omitted with effect from the 1st day of April, 1991. Amendment of section 80RRA.

30. In the Income-tax Act, in Chapter VIII, with effect from the 1st day of April, 1991,— Amendment of Chapter VIII.

(*a*) for the heading, the following heading shall be substituted, namely:—

"REBATES AND RELIEFS";

(*b*) before section 89, the following sub-headings and sections shall be inserted, namely:—

'*A.—Rebate of income-tax*

87. (*1*) In computing the amount of income-tax on the total income of an assessee with which he is chargeable for any assessment year, there shall be allowed from the amount of income-tax (as computed before allowing the deductions under this Chapter), in accordance with and subject to the provisions of sections 88 and 88A, the deductions specified in those sections. Rebate to be allowed in computing income-tax.

(*2*) The aggregate amount of the deductions under section 88 or section 88A shall not, in any case, exceed the amount of income-tax (as computed before allowing the deductions under this Chapter) on the total income of the assessee with which he is chargeable for any assessment year.

88. (*1*) Subject to the provisions of this section, an assessee, being— Rebate on life insurance premia, contribution to provident fund, etc.

(*a*) an individual, or

(*b*) a Hindu undivided family, or

(*c*) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

shall be entitled to a deduction, from the amount of income-tax (as computed before allowing the deductions under this Chapter) on his total income with which he is chargeable for any assessment year, of an amount equal to twenty per cent. of the aggregate of the sums referred to in sub-section (*2*).

(*2*) The sums referred to in sub-section (*1*) shall be any sums paid or deposited in the previous year by the assessee out of his income chargeable to tax—

(*i*) to effect or to keep in force an insurance on the life of persons specified in sub-section (*4*);

(*ii*) to effect or to keep in force a contract for a deferred annuity, not being an annuity plan referred to in clause (*ii*) of sub-section (*1*) of section 80CCA, on the life of persons specified in sub-section (*4*):

Provided that such contract does not contain a provision for the exercise by the insured of an option to receive a cash payment in lieu of the payment of the annuity;

(*iii*) by way of deduction from the salary payable by or on behalf of the Government to any individual being a sum deducted in accordance with the conditions of his service, for the purpose of securing to him a deferred annuity or making provision for his wife or children, in so far as the sum so deducted does not exceed one-fifth of the salary;

(*iv*) as a contribution by an individual to any provident fund to which the Provident Funds Act, 1925 applies; 19 of 1925.

(*v*) as a contribution to any provident fund set up by the Central Government and notified by it in this behalf in the Official Gazette, where such contribution is to an account standing in the name of any person specified in sub-section (*4*);

(*vi*) as a contribution by an employee to a recognised provident fund;

(*vii*) as a contribution by an employee to an approved superannuation fund;

(*viii*) in a ten-year account or a fifteen-year account under the Post Office Savings Bank (Cumulative Time Deposits) Rules, 1959, as amended from time to time, where such sums are deposited in an account standing in the name of the persons specified in sub-section (*4*);

(*ix*) as subscription to any such security of the Central Government as that Government may, by notification in the Official Gazette, specify in this behalf;

(*x*) as subscription to the National Savings Certificates (VI Issue) and National Savings Certificates (VII Issue) issued under the Government Savings Certificates Act, 1959; 46 of 1959.

(*xi*) as subscription to any such savings certificate as defined in clause (*c*) of section 2 of the Government Savings Certificates Act, 1959, as the Central Government may, by notification in the Official Gazette, specify in this behalf; 46 of 1959.

(*xii*) as a contribution, by any person specified in sub-section (*4*), for participation in the Unit-linked Insurance Plan, 1971 (hereafter in this section referred to as the Unit-linked Insurance Plan) deemed to have been made under

sub-clause (*a*) of clause (*8*) of section 19 of the Unit Trust of India Act, 1963; 52 of 1963.

(*xiii*) as a contribution by an individual for participation in any such unit-linked insurance plan of the LIC Mutual Fund notified under clause (*23D*) of section 10, as the Central Government may, by notification in the Official Gazette, specify in this behalf;

(*xiv*) as subscription to any such deposit scheme of the National Housing Bank established under section 3 of the National Housing Bank Act, 1987 (hereafter in this section referred to as the National Housing Bank), as the Central Government may, by notification in the Official Gazette, specify in this behalf; 53 of 1987.

(*xv*) for the purposes of purchase or construction of a residential house property the construction of which is completed after the 31st day of March, 1987, and the income from which is chargeable to tax under the head "Income from house property" (or which would, if it had not been used for the assessee's own residence, have been chargeable to tax under that head), where such payments are made towards or by way of—

(*a*) any instalment or part payment of the amount due under any self-financing or other scheme of any development authority, housing board or other authority engaged in the construction and sale of house property on ownership basis; or

(*b*) any instalment or part payment of the amount due to any company or co-operative society of which the assessee is a shareholder or member towards the cost of the house property allotted to him; or

(*c*) repayment of the amount borrowed by the assessee from—

(*1*) the Central Government or any State Government, or

(*2*) any bank, including a co-operative bank, or

(*3*) the Life Insurance Corporation, or

(*4*) the National Housing Bank, or

(*5*) any public company formed and registered in India with the main object of carrying on the business of providing long-term finance for construction or purchase of houses in India for residential purposes which is approved for the purposes of clause (*viii*) of sub-section (*1*) of section 36, or

(*6*) any company in which the public are substantially interested or any co-operative society, where such company or co-operative society is engaged in the business of financing the construction of houses, or

(7) the assessee's employer where such employer is a public company or a public sector company or a university established by law or a college affiliated to such university or a local authority;

(*d*) stamp duty, registration fee and other expenses for the purpose of transfer of such house property to the assessee,

but shall not include any payment towards or by way of—

(*A*) the admission fee, cost of share and initial deposit which a shareholder of a company or a member of a co-operative society has to pay for becoming such share-holder or member; or

(*B*) the cost of the land, except where the considera-tion for the purchase of the house property is a compo-site amount and the cost of the land alone cannot be separately ascertained; or

(*C*) the cost of any addition or alteration to, or renovation or repair of, the house property which is carried out after the issue of the completion certificate in respect of the house property by the authority competent to issue such certificate or after the house property or any part thereof has either been occupied by the assessee or any other person on his behalf or been let out; or

(*D*) any expenditure in respect of which deduction is allowable under the provisions of section 24.

(*3*) The provisions of sub-section (*2*) shall apply only to so much of any premium or other payment made on a policy other than a contract for a deferred annuity as is not in excess of ten per cent. of the actual capital sum assured.

Explanation.—In calculating any such capital sum, no ac-count shall be taken—

(*i*) of the value of any premiums agreed to be returned, or

(*ii*) of any benefit by way of bonus or otherwise over and above the sum actually assured, which is to be or may be received under the policy by any person.

(*4*) The persons referred to in sub-section (*2*) shall be the following, namely:—

(*a*) for the purposes of clause (*i*) of that sub-section,—

(*i*) in the case of an individual, the individual, the wife or husband and any child of such individual, and

(*ii*) in any other case, any member of the Hindu undivided family or association of persons or body of individuals and any child of any of the members of such association or body;

(*b*) for the purposes of clause (*ii*) of that sub-section,—

(*i*) in the case of an individual, the individual, the wife or husband and any child of such individual, and

(*ii*) in the case of an association of persons or body of individuals, any member and any child of any of the members of such association or body;

(*c*) for the purposes of clauses (*v*) and (*viii*) of that sub-section,—

(*i*) in the case of an individual, such individual or a minor of whom he is the guardian;

(*ii*) in the case of a Hindu undivided family, any member of the family;

(*iii*) in the case of an association of persons or body of individuals, such association or body;

(*d*) for the purposes of clause (*xii*) of that sub-section,—

(*i*) in the case of an individual, such individual;

(*ii*) in the case of an association of persons or body of individuals, any one member of such association or body.

(5) Where the aggregate of any sums specified in clause (*xv*) of sub-section (*2*) exceeds an amount of ten thousand rupees, a deduction under sub-section (*1*) shall be allowed with reference to so much of the aggregate as does not exceed an amount of ten thousand rupees.

(*6*) The deduction from the amount of income-tax under sub-section (*1*) shall not exceed—

(*i*) in the case of an individual, being an author, playwright, artist, musician, actor or sportsman (including an athlete), fourteen thousand rupees;

(*ii*) in any other case, ten thousand rupees.

(*7*) Where, in any previous year, an assessee—

(*i*) terminates his contract of insurance referred to in clause (*i*) of sub-section (*2*), by notice to that effect or where the contract ceases to be in force by reason of failure to pay any premium, by not reviving contract of insurance, before premiums have been paid for two years; or

(*ii*) terminates his participation in any unit-linked insurance plan referred to in clause (*xii*) or clause (*xiii*) of sub-section (*2*), by notice to that effect or where he ceases to participate by reason of failure to pay any contribution, by not reviving his participation, before contributions in respect of such participation have been paid for five years; or

(*iii*) transfers the house property referred to in clause (*xv*) of sub-section (*2*) before the expiry of five years from the end of the financial year in which possession of such property is obtained by him, or receives back, whether by way of refund or otherwise, any sum specified in that clause, then,—

(*a*) no deduction shall be allowed to the assessee under sub-section (*1*) with reference to any of the sums, referred to in clauses (*i*), (*xii*), (*xiii*) and (*xv*) of sub-section (*2*), paid in such previous year; and

(*b*) the aggregate amount of the deductions of income-tax so allowed in respect of the previous year or years preceding such previous year, shall be deemed to be tax payable by the assessee in the assessment year relevant to such previous year and shall be added to the tax on the total income of the assessee with which he is chargeable for such assessment year.

(*8*) In this section,—

(*i*) "contribution" to any fund shall not include any sums in repayment of loan;

(*ii*) "insurance" shall include—

(*a*) a policy of insurance on the life of an individual or the spouse or the child of such individual or a member of a Hindu undivided family securing the payment of specified sum on the stipulated date of maturity, if such person is alive on such date notwithstanding that the policy of insurance provides only for the return of premiums paid (with or without any interest thereon) in the event of such person dying before the said stipulated date;

(*b*) a policy of insurance effected by an individual or a member of a Hindu undivided family for the benefit of a minor with the object of enabling the minor, after he has attained majority to secure insurance on his own life by adopting the policy and on his being alive on a date (after such adoption) specified in the policy in this behalf;

(*iii*) "Life Insurance Corporation" means the Life Insurance Corporation of India established under the Life Insurance Corporation Act, 1956; 31 of 1956.

(*iv*) "public company" shall have the same meaning as in section 3 of the Companies Act, 1956; 1 of 1956.

(*v*) "security" means a Government security as defined in clause (*2*) of section 2 of the Public Debt Act, 1944; 18 of 1944.

(*vi*) "transfer" shall be deemed to include also the transactions referred to in clause (*f*) of section 269UA.

88A. (*1*) Where an assessee being—

(*a*) an individual; or

(*b*) a Hindu undivided family; or

(*c*) an association of persons or a body of individuals consisting, in either case, only of husband and wife governed by the system of community of property in force in the State of Goa and the Union territories of Dadra and Nagar Haveli and Daman and Diu,

Rebate in respect of investment in certain new shares or units.

has acquired, in the previous year, out of his income chargeable to tax,—

(*i*) equity shares forming part of any eligible issue of capital; or

(*ii*) units issued under any scheme of any Mutual Fund specified under clause (*23D*) of section 10 or of the Unit Trust of India, established under section 3 of the Unit Trust of India Act, 1963, if the amount of subscription to such units is subscribed, within a period of six months from the close of subscription under such scheme, only to eligible issue of capital,

52 of 1963.

he shall be entitled to a deduction, from the amount of income-tax (as computed before allowing the deductions under this Chapter) on his total income with which he is chargeable for any assessment year, of an amount equal to twenty per cent. of the cost of such shares or units to such assessee:

Provided that the amount of subscription to such units may be subscribed, for a period not exceeding six months from the close of subscription under any scheme referred to in clause (*ii*) in such securities of the Central Government, as may be approved by the Board in this behalf:

Provided further that no deduction shall be allowed in respect of units issued under any scheme referred to in clause (*ii*) where the subscription under such scheme closes after the 30th day of September, 1990.

Explanation.—Where in any previous year, the assessee has acquired any shares or units referred to in this sub-section and has, within a period of six months from the end of that previous year paid the whole or a part of the amount, if any, remaining unpaid on such shares or units, the amount so paid shall be deemed to have been paid by the assessee towards the cost of such shares or units in the previous year.

(*2*) Where the aggregate cost to the assessee of the shares or units referred to in sub-section (*1*) which are acquired by him in the previous year exceeds twenty-five thousand rupees, the deduction under that sub-section shall be allowed only with reference to such of those shares or units (being shares or units the aggregate cost whereof to the assessee does not exceed twenty-five thousand rupees) as are specified by him in this behalf.

(3) For the purposes of this section, "eligible issue of capital" means an issue of equity shares which satisfies the following conditions, namely:—

(a) the issue is made by a public company formed and registered in India and the issue is wholly and exclusively for the purposes of carrying on the business of—

(i) construction, manufacture or production of any article or thing, not being an article or thing specified in the list in the Eleventh Schedule; or

(ii) providing long-term finance for construction or purchase of houses in India for residential purposes:

Provided that in the case of a public company carrying on the business referred to in this sub-clause, such company is approved by the Central Government for the purposes of this section; or

(iii) a hospital; or

(iv) a hotel approved by the prescribed authority;

or

(v) operation of ships;

(b) the issue is an issue of capital made by the company for the first time:

Provided that this clause shall not apply in the case of an issue of equity shares made by a public company formed and registered in India with the main object of carrying on the business of operation of ships;

(c) the shares forming part of the issue are offered for subscription to the public and such offer for subscription is made by the company before the 1st day of April, 1991;

(d) such other conditions as may be prescribed:

Provided that in the case of a company which had originally been incorporated as a private company but has become a public company under the provisions of the Companies Act, 1956, an issue of equity shares made by it for the first time after it has become a public company shall not be regarded as an eligible issue of capital, if— 1 of 1956.

(i) such company had declared, distributed or paid any dividend when it was a private company; or

(ii) any of the shares forming part of such issue is offered for subscription at a premium.

Explanation 1.—If any question arises as to whether any issue of equity shares would constitute an eligible issue of capital for the purposes of this section, the question shall be referred to the Central Government whose decision thereon shall be final.

Explanation 2.—In this sub-section and sub-section (*4*), "public company" shall have the meaning assigned to it in section 3 of the Companies Act, 1956. 1 of 1956.

(*4*) The deduction under sub-section (*1*) shall not be allowed unless the assessee has—

(*i*) subscribed to the shares in pursuance of an offer for subscription to the public made by the public company or in pursuance of a reservation or an option in his favour by reason of his being a promoter of the company; or

(*ii*) purchased the shares from a person who is specified as an underwriter in respect of the issue of such shares in pursuance of clause 11 of Part I of Schedule II to the Companies Act, 1956 and who has acquired such shares by virtue of his obligation as such underwriter. 1 of 1956.

(*5*) If any equity shares or units, with reference to the cost of which a deduction is allowed under sub-section (*1*), are sold or otherwise transferred by the assessee to any person at any time within a period of three years from the date of their acquisition, the aggregate amount of the deductions of income-tax so allowed in respect of such equity shares or units in the previous year or years preceding the previous year in which such sale or transfer has taken place shall be deemed to be tax payable by the assessee for the assessment year relevant to such previous year and shall be added to the amount of income-tax on the total income of the assessee with which he is chargeable for such assessment year.

Explanation.—A person shall be treated as having acquired any shares or units on the date on which his name is entered in relation to those shares or units in the register of members of the company or in the relevant records of any Mutual Fund or Unit Trust of India, referred to in sub-section (*1*).

(*6*) Where a deduction is claimed and allowed under sub-section (*1*) with reference to the cost of any equity shares, the cost of such shares shall not be taken into account for the purposes of section 54E.

B.—Relief for income-tax'.

31. In section 115-I of the Income-tax Act, for the words and figures "to the Assessing Officer his return of income for that assessment year under section 139 together with a declaration in writing to the effect", the words and figures "his return of income for that assessment year under section 139 declaring therein" shall be substituted. Amendment of section 115-I.

32. In section 115-J of the Income-tax Act, in sub-section (*1*), after the words, figures and letters "on or after the 1st day of April, 1988", the words, figures and letters "but before the 1st day of April, 1991" shall be inserted. Amendment of section 115-J.

33. In section 119 of the Income-tax Act, in sub-section (*2*), in clause (*a*),— Amendment of section 119.

(*i*) before the figures "143", the figures "139," shall be inserted;

(*ii*) after the figures "210,", the figures and letters "234A, 234B," shall be inserted.

Amendment of section 139.

34. In section 139 of the Income-tax Act,—

(*a*) in sub-section (*1*), in the *Explanation*, in clause (*b*), in sub-clause (*i*), after the words "to be so audited", the words, figures and letters "or where the report of an accountant is required to be furnished under section 80HHC or section 80HHD" shall be inserted with effect from the 1st day of April, 1991;

(*b*) in sub-section (*10*), in the proviso, for clause (*b*), the following clause shall be substituted, namely:—

"(*b*) a return of a firm or a partner of a firm;".

Amendment of section 139A.

35. In section 139A of the Income-tax Act, for sub-section (*2*), the following sub-section shall be substituted, namely:—

"(*2*) Notwithstanding anything contained in sub-section (*1*), every person not falling under that sub-section, but—

(*i*) carrying on any business whose total sales, turnover or gross receipts are or is likely to exceed fifty thousand rupees in any previous year; or

(*ii*) who is required to furnish a return of income under sub-section (*4A*) of section 139,

and who has not been allotted any permanent account number, shall, within such time as may be prescribed, apply to the Assessing Officer for the allotment of a permanent account number.".

Amendment of section 142.

36. In section 142 of the Income-tax Act, in sub-section (*1*), in clause (*i*), for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section (*1*) of section 139" shall be substituted.

Amendment of section 143.

37. In section 143 of the Income-tax Act, after sub-section (*1A*), the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"(*1B*) Where an assessee furnishes a revised return under sub-section (*5*) of section 139 after the issue of an intimation, or the grant of refund, if any, under sub-section (*1*) of this section, the provisions of sub-sections (*1*) and (*1A*) of this section shall apply in relation to such revised return and—

(*i*) the intimation already sent for any income-tax, additional income-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of income-tax, additional income-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(*a*) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 156 and all the provisions of this Act shall apply accordingly;

(*b*) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(*ii*) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(*a*) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(*b*) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 156 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under sub-section (*5*) of section 139 after the service upon him of the intimation under sub-section (*1*) of this section, shall be liable to pay additional income-tax in relation to the adjustments made under the first proviso to clause (*a*) of sub-section (*1*) and specified in the said intimation, whether or not he has made the said adjustments in the revised return.".

38. In section 145 of the Income-tax Act, in sub-section (*1*), after the second proviso [as inserted by section 52 of the Direct Tax Laws (Amendment) Act, 1987], the following proviso shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:— Amendment of section 145. 4 of 1988.

"Provided also that nothing contained in this sub-section shall preclude an assessee from being charged to income-tax in respect of any interest on securities received by him in a previous year if such interest had not been charged to income-tax for any earlier previous year.".

39. In section 151 of the Income-tax Act, in sub-section (*1*), for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted. Amendment of section 151.

40. After section 194E of the Income-tax Act, the following section shall be inserted with effect from the 1st day of April, 1991, namely:— Insertion of new section 194F.

"194F. The person responsible for paying to any person any amount referred to in sub-section (*2*) of section 80CCB shall, at the time of payment thereof, deduct income-tax thereon at the rate of twenty per cent.". Payments on account of re-purchase of units by Mutual Fund or Unit Trust of India.

Amendment of Section 246.

41. In section 246 of the Income-tax Act,—

(*a*) in sub-section (*1*), in clause (*l*), in sub-clause (*ii*), the words, figures and letters "section 271C, section 271D, section 271E," shall be omitted;

(*b*) in sub-section (*2*), after clause (*e*), the following clause shall be inserted, namely:—

"(*ee*) an order made by a Deputy Commissioner imposing a penalty under section 271C, section 271D or section 271E;".

Amendment of section 268.

42. In section 268 of the Income-tax Act, after the words "an appeal", the words "or an application" shall be inserted.

Insertion of new section 271BB.

43. After section 271B of the Income-tax Act, the following section shall be inserted, namely:—

Failure to subscribe to the eligible issue of capital.

"271BB. Whoever fails to subscribe any amount of subscription to the units issued under any scheme referred to in sub-section (*1*) of section 88A to the eligible issue of capital under that sub-section within the period of six months specified therein, may be directed by the Deputy Commissioner to pay, by way of penalty, a sum equal to twenty per cent. of such amount.".

Amendment of section 271C.

44. Section 271C of the Income-tax Act shall be renumbered as sub-section (*1*) thereof and after sub-section (*1*) as so renumbered, the following sub-section shall be inserted, namely:—

"(*2*) Any penalty imposable under sub-section (*1*) shall be imposed by the Deputy Commissioner.".

Amendment of section 271D.

45. Section 271D of the Income-tax Act shall be renumbered as sub-section (*1*) thereof and after sub-section (*1*) as so renumbered, the following sub-section shall be inserted, namely:—

"(*2*) Any penalty imposable under sub-section (*1*) shall be imposed by the Deputy Commissioner.".

Amendment of section 271E.

46. Section 271E of the Income-tax Act shall be renumbered as sub-section (*1*) thereof and after sub-section (*1*) as so renumbered, the following sub-section shall be inserted, namely:—

"(*2*) Any penalty imposable under sub-section (*1*) shall be imposed by the Deputy Commissioner.".

Amendment of section 275A.

47. In section 275A of the Income-tax Act, after the words "referred to in", the words, brackets and figure "the second proviso to sub-section (*1*) or" shall be inserted.

Omission of Chapter XXII-B.

48. (*1*) No tax credit certificate granted under section 280Z or section 280ZC shall be produced before the Assessing Officer after the 31st day of March, 1991 for the purposes of sub-section (*6*) of section 280Z or, as the case may be, sub-section (*4*), of section 280ZC.

(2) Save as otherwise provided in sub-section (*1*), Chapter XXII-B shall be omitted.

49. In section 288 of the Income-tax Act, in sub-section (*4*), in clause (*b*), after the words "on him under", the words, brackets and figures "clause (*ii*) of sub-section (*1*) of" shall be inserted. Amendment of Section 288.

50. The following amendments (being amendments of a consequential nature) shall be made in the Income-tax Act, namely:— Consequential amendments.

(*i*) section 80C shall be omitted with effect from the 1st day of April, 1991;

(*ii*) in section 197A, in sub-section (*1*), for the words "his estimated total income of the previous year in which such income is to be included in computing his total income will be less than the minimum liable to income-tax", the words "the tax on his estimated total income of the previous year in which such income is to be included in computing his total income will be *nil*" shall be substituted;

(*iii*) in section 246, in sub-section (*2*), in clause (*e*), after the word, figures and letter "section 271B", the words, figures and letters "or section 271BB" shall be inserted;

(*iv*) in section 273B, after the word, figures and letter "section 271B,", the word, figures and letters "section 271BB," shall be inserted;

(*v*) in the Eleventh Schedule, for the words, figures, letter and brackets "and section 80J (*4*)", the words, figures, letters and brackets ", section 80J (*4*) and section 88A (3) (*a*) (*i*)" shall substituted.

Wealth-tax

27 of 1957. 51. In section 2 of the Wealth-tax Act, 1957 (hereinafter referred to as the Wealth-tax Act), in clause (*ob*), for the word and figures "section 16", the words, brackets and figures "sub-section (*3*) or sub-section (*5*) of section 16" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989. Amendment of section 2.

52. In section 5 of the Wealth-tax Act, in sub-section (*1*), in clause (*xxviic*), with effect from the 1st day of April, 1991,— Amendment of section 5.

(*i*) after the words "State Government", the words "or a public sector company" shall be inserted;

(*ii*) the following *Explanation* shall be inserted at the end, namely:—

'*Explanation.*—For the purposes of this clause, "public sector company" means any corporation established by or under any Central, State or Provincial Act or a Government company as defined in section 617 of the Companies Act, 1956;'.

1 of 1956. 53. In section 10 of the Wealth-tax Act, in sub-section (*2*), in clause (*a*), for the figures "16, 17", the figures and letter "14, 15, 16, 17, 17B," shall be substituted. Amendment of section 10.

Amendment of section 16.

54. In section 16 of the Wealth-tax Act,—

(*a*) after sub-section (*1A*), the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"(*1B*) Where an assessee furnishes a revised return under section 15 after the issue of an intimation, or the grant of refund, if any, under sub-section (*1*) of this section, the provisions of sub-sections (*1*) and (*1A*) of this section shall apply in relation to such revised return and—

(*i*) the intimation already sent for any wealth-tax, additional wealth-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of wealth-tax, additional wealth-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(*a*) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 30 and all the provisions of this Act shall apply accordingly;

(*b*) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(*ii*) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(*a*) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(*b*) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 30 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under section 15 after the service upon him of the intimation under sub-section (*1*) of this section, shall be liable to pay additional wealth-tax in relation to the adjustments made under the first proviso to clause (*a*) of sub-section (*1*) and specified in the said intimation, whether or not he has made the said adjustments in the revised return.";

(*b*) in sub-section (*4*), in clause (*i*), for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section (*1*) of section 14" shall be substituted.

55. In section 17 of the Wealth-tax Act, in sub-section (*1B*), in clause (*a*), for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted.

Amendment of section 17.

56. After section 35EE of the Wealth-tax Act, the following section shall be inserted, namely:—

Insertion of new section 35EEE.

"35EEE. If a person contravenes any order referred to in the second proviso to sub-section (*1*) or sub-section (*3A*) of section 37A, he shall be punishable with rigorous imprisonment for a term which may extend to two years and with fine.".

Contravention of order made under second proviso to sub-section (1) or sub-section (3A) of section 37A.

57. In section 35K of the Wealth-tax Act, in sub-section (*1*), for the words, figures and letters "the assessment year commencing on the 1st day of April, 1988, or any earlier assessment year", the words "an assessment year" shall be substituted and shall be deemed to have been substituted with effect from the 1st day of April, 1989.

Amendment of section 35K.

58. In the Wealth-tax Act, in Schedule III, in Part G,—

Amendment of Schedule III.

(*a*) for rule 18, the following rule shall be substituted, namley:—

Valuation of jewellery.

"18. (*1*) The value of the jewellery shall be estimated to be the price which it would fetch if sold in the open market on the valuation date (hereafter in this rule referred to as fair market value).

(*2*) The return of net wealth furnished by the assessee shall be supported by,—

(*i*) a statement in the prescribed form, where the value of the jewellery on the valuation date does not exceed rupees five lakhs;

(*ii*) a report of a registered valuer in the prescribed form, where the value of the jewellery on the valuation date exceeds rupees five lakhs.

(*3*) Notwithstanding anything mentioned in sub-rule (*2*), the Assessing Officer may, if he is of opinion, that the value of the jewellery declared in the return,—

(*a*) is less than its fair market value by such percentage or such amount as is prescribed under sub-clause (*i*) of clause (*b*) of sub-section (*1*) of section 16A;

(*b*) is less than its fair market value as referred to in clause (*a*) of sub-section (*1*) of section 16A,

he may refer the valuation of such jewellery to a Valuation Officer under sub-section (*1*) of the said section and the value of such jewellery shall be the fair market value as estimated by the Valuation Officer.";

(*b*) in rule 19, in the opening portion, for the words, brackets and letter "clause (*b*) of", the words, brackets and figure "sub-rule (*3*) of" shall be substituted.

Gift-tax

Amendment of section 9.

59. In section 9 of the Gift-tax Act, 1958 (hereinafter referred to as the Gift-tax Act), in sub-section (*2*), in clause (*a*), for the figures "15, 16", the figures and letter "13, 14, 15, 16, 16B" shall be substituted. 18 of 1958.

Amendment of section 15.

60. In section 15 of the Gift-tax Act,—

(*a*) after sub-section (*1A*), the following sub-section shall be inserted and shall be deemed to have been inserted with effect from the 1st day of April, 1989, namely:—

"(*1B*) Where an assessee furnishes a revised return under section 14 after the issue of an intimation, or the grant of refund, if any, under sub-section (*1*) of this section, the provisions of sub-sections (*1*) and (*1A*) of this section shall apply in relation to such revised return and—

(*i*) the intimation already sent for any gift-tax, additional gift-tax or interest shall be amended on the basis of the said revised return and where any amount payable by way of gift-tax, additional gift-tax or interest specified in the said intimation has already been paid by the assessee then, if any such amendment has the effect of—

(*a*) enhancing the amount already paid, the intimation amended under this clause shall be sent to the assessee specifying the excess amount payable by him and such intimation shall be deemed to be a notice of demand issued under section 31 and all the provisions of this Act shall apply accordingly;

(*b*) reducing the amount already paid, the excess amount paid shall be refunded to the assessee;

(*ii*) the amount of the refund already granted shall be enhanced or reduced on the basis of the said revised return and where the amount of refund already granted is—

(*a*) enhanced, only the excess amount of refund due to the assessee shall be paid to him;

(*b*) reduced, the excess amount so refunded shall be deemed to be the tax payable by the assessee and an intimation shall be sent to the assessee specifying the amount so payable, and such intimation shall be deemed to be a notice of demand issued under section 31 and all the provisions of this Act shall apply accordingly:

Provided that an assessee, who has furnished a revised return under section 14 after the service upon him of the intimation under sub-section (*1*) of this section, shall be liable to pay additional gift-tax in relation to the adjustments made under the first proviso to clause (*a*) of sub-section (*1*) and specified in the said intimation, whether or not he has made the said adjustments in the revised return.";

(*b*) in sub-section (*4*), in clause (*i*), for the words "before the end of the relevant assessment year", the words, brackets and figures "within the time allowed under sub-section (*1*) of section 13" shall be substituted.

61. In section 16 of the Gift-tax Act, in sub-section (*1B*), in clause (*a*), for the words "except by an Assessing Officer of the rank of Assistant Commissioner or Deputy Commissioner", the words "by an Assessing Officer, who is below the rank of Assistant Commissioner, unless the Deputy Commissioner is satisfied on the reasons recorded by such Assessing Officer that it is a fit case for the issue of such notice" shall be substituted. Amendment of section 16.

CHAPTER IV

INDIRECT TAXES

Customs

62. In the Customs Act, 1962 (hereinafter referred to as the Customs Act),— Amendment of Act 52 of 1962.

(*a*) in section 129C, for sub-section (5), the following sub-section shall be substituted, namely:—

"(5) If the members of a Bench differ in opinion on any point, the point shall be decided according to the opinion of the majority, if there is a majority; but if the members are equally divided, they shall state the point or points on which they differ and make a reference to the President who shall either hear the point or points himself or refer the case for hearing on such point or points by one or more of the other members of the Appellate Tribunal and such point or points shall be decided according to the opinion of the majority of these members of the Appellate Tribunal who have heard the case, including those who first heard it.";

(*b*) after section 154, the following section shall be inserted, namely:—

"154A. The amount of duty, interest, penalty, fine or any other sum payable, and the amount of refund, drawback or any other sum due, under the provisions of this Act shall be rounded off to the nearest rupee and, for this purpose, where such amount contains a part of a rupee consisting of *paise* then, if such part is fifty *paise* or more, it shall be increased to one rupee and if such part is less than fifty *paise* it shall be ignored.". Rounding off of duty, etc.

63. The Customs Tariff Act, 1975 (hereinafter referred to as the Customs Tariff Act), shall be amended in the manner specified in the Second Schedule. Amendment of Act 51 of 1975.

Auxiliary duties of customs.

64. (*1*) In the case of goods mentioned in the First Schedule to the Customs Tariff Act, or in that Schedule, as amended from time to time, there shall be levied and collected as an auxiliary duty of customs an amount equal to fifty per cent. of the value of the goods as determined in accordance with the provisions of section 14 of the Customs Act.

(*2*) Sub-section (*1*) shall cease to have effect after the 31st day of March, 1991, and upon such cesser section 6 of the General Clauses Act, 1897, shall apply as if the said sub-section had been repealed by a Central Act. 10 of 1897.

(*3*) The auxiliary duties of customs referred to in sub-section (*1*) shall be in addition to any duties of customs chargeable on such goods under the Customs Act, or any other law for the time being in force.

(*4*) The provisions of the Customs Act and the rules and regulations made thereunder, including those relating to refunds and exemptions from duties, shall, as far as may be, apply in relation to the levy and collection of the auxiliary duties of customs leviable under this section in respect of any goods as they apply in relation to the levy and collection of the duties of customs on such goods under that Act or those rules and regulations, as the case may be.

Excise

Amendment of Act 1 of 1944.

65. In the Central Excises and Salt Act, 1944 (hereinafter referred to as the Central Excises Act), after section 37C, the following section shall be inserted, namely:—

Rounding off of duty, etc.

"37D. The amount of duty, interest, penalty, fine or any other sum payable, and the amount of refund or any other sum due, under the provisions of this Act shall be rounded off to the nearest rupee and, for this purpose, where such amount contains a part of a rupee consisting of *paise* then, if such part is fifty *paise* or more, it shall be increased to one rupee and if such part is less than fifty *paise* it shall be ignored.".

Amendment of Act 5 of 1986.

66. The Central Excise Tariff Act, 1985 (hereinafter referred to as the Central Excise Tariff Act), shall be amended in the manner specified in the Third Schedule.

Special duties of excise.

67. (*1*) In the case of goods chargeable with a duty of excise under the Central Excises Act, as amended from time to time, read with any notification for the time being in force issued by the Central Government in relation to the duty so chargeable (not being a notification providing for any exemption for giving credit with respect to, or reduction of duty of excise under the said Act on such goods equal to, any duty of excise under the said Act, or the additional duty under section 3 of the Customs Tariff Act, already paid on the raw material or component parts used in the production or manufacture of such goods), there shall be levied and collected a special duty of excise equal to ten per cent. of the amount so chargeable on such goods.

(*2*) Sub-section (*1*) shall cease to have effect after the 31st day of March, 1991, and upon such cesser section 6 of the General Clauses Act, 1897, shall apply as if the said sub-section had been repealed by a Central Act. 10 of 1897.

(3) The special duties of excise referred to in sub-section (1) shall be in addition to any duties of excise chargeable on such goods under the Central Excises Act or any other law for the time being in force.

(4) The provisions of the Central Excises Act and the rules made thereunder, including those relating to refunds and exemptions from duties, shall, as far as may be, apply in relation to the levy and collection of the special duties of excise leviable under this section in respect of any goods as they apply in relation to the levy and collection of the duties of excise on such goods under that Act or those rules, as the case may be.

Amendment of Act 58 of 1957. 68. The Additional Duties of Excise (Goods of Special Importance) Act, 1957 (hereinafter referred to as the Additional Duties of Excise Act), shall be amended in the manner specified in the Fourth Schedule.

Amendment of Act 40 of 1978. 69. In section 3 of the Additional Duties of Excise (Textiles and Textile Articles) Act, 1978, in sub-section (1), for the words "fifteen per cent.", the words "twenty per cent." shall be substituted.

Repeal of Act 12 of 1953. 70. The Khadi and other Handloom Industries Development (Additional Excise Duty on Cloth) Act, 1953, is hereby repealed.

CHAPTER V

INLAND AIR TRAVEL TAX

Amendment of Act 13 of 1989. 71. In the Finance Act, 1989, with effect from such date as the Central Government may, by notification in the Official Gazette, appoint,—

(a) in section 41, for clause (d), the following clause shall be substituted, namely:—

'(d) "fare" means the total amount of all charges of whatever nature (including charges, if any, for provision of food or accommodation) payable to the carrier by or on behalf of a passenger in respect of his inland journey;';

(b) in section 42, in sub-section (1),—

(i) the words ", where the fare for such journey is paid in Indian currency," shall be omitted;

(ii) for the words "ten per cent.", the words "fifteen per cent." shall be substituted.

CHAPTER VI

MISCELLANEOUS

Amendment of Act 6 of 1898. 72. In the Indian Post Office Act, 1898, for the First Schedule, the following Schedule shall be substituted, namely :—

"THE FIRST SCHEDULE

(*See* section 7)

INLAND POSTAGE RATES

Letters

For a weight not exceeding twenty grams	Re. 1·00
For every twenty grams, or fraction thereof, exceeding twenty grams	Re. 1.00

Letter-cards

For a letter-card	75 paise

Post cards (not being post cards containing printed communication)

Single	15 paise
Reply	30 paise
Post cards containing printed communication

For a weight exceeding fifty grams but not exceeding one hundred grams	25 paise
For every additional one hundred grams, or fraction thereof, exceeding one hundred grams	10 paise

In the case of more than one copy of the same issue of a registered newspaper being carried in the same packet—

For a weight not exceeding one hundred grams	25 paise
For every additional one hundred grams, or fraction thereof, exceeding one hundred grams:	10 paise:

Provided that such packet shall not be delivered at any addressee's residence but shall be given to a recognised agent at the Post Office.

Parcels

For a weight not exceeding five hundred grams	Rs. 6.00
For every five hundred grams, or fraction thereof, exceeding five hundred grams	Rs. 6.00.".

THE FIRST SCHEDULE

(*See* section 2)

PART I

INCOME-TAX

Paragraph A

Sub-Paragraph I

In the case of every individual or Hindu undivided family or unregistered firm or other association of persons or body of individuals, whether incorporated or not, or every artificial juridical person referred to in sub-clause (*vii*) of clause (*31*) of section 2 of the Income-tax Act, not being a case to which Sub-Paragraph II of this Paragraph or any other Paragraph of this Part applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 18,000	*Nil* ;
(2) where the total income exceeds Rs. 18,000 but does not exceed Rs. 25,000	20 per cent. of the amount by which the total income exceeds Rs. 18,000 ;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 1,400 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 25,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 8,900 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 28,900 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Sub-Paragraph II

In the case of every Hindu undivided family which at any time during the previous year has at least one member whose total income of the previous year relevant to the assessment year commencing on the 1st day of April, 1990 exceeds Rs. 18,000,—

Rates of income-tax

(1) where the total income does not exceed Rs. 12,000	*Nil;*
(2) where the total income exceeds Rs. 12,000 but does not exceed Rs. 20,000	25 per cent. of the amount by which the total income exceeds Rs. 12,000;

(3) where the total income exceeds Rs. 20,000 but does not exceed Rs. 40,000	Rs. 2,000 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 20,000;
(4) where the total income exceeds Rs. 40,000 but does not exceed Rs. 60,000	Rs. 8,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 40,000;
(5) where the total income exceeds Rs. 60,000 but does not exceed Rs. 1,00,000	Rs. 16,000 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 60,000;
(6) where the total income exceeds Rs.1,00,000	Rs. 36,000 *plus* 55 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Paragraph B

In the case of every co-operative society,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	15 per cent. of the total income;
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 20,000	Rs. 1,500 *plus* 25 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 20,000	Rs. 4,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 20,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph C

Sub-Paragraph I

In the case of every registered firm, not being a case to which Sub-Paragraph II of this Paragraph applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	*Nil;*
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 25,000	5 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 750 *plus* 7 per cent. of the amount by which the total income exceeds Rs. 25,000;

(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2,500 *plus* 15 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 10,000 *plus* 24 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Sub-Paragraph II

In the case of every registered firm whose total income includes income derived from a profession carried on by it and the income so included is not less than fifty-one per cent. of such total income,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	*Nil*;
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 25,000	4 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 25,000 but does not exceed Rs. 50,000	Rs. 600 *plus* 7 per cent. of the amount by which the total income exceeds Rs. 25,000;
(4) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2,350 *plus* 13 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5) where the total income exceeds Rs. 1,00,000	Rs. 8,850 *plus* 22 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Explanation.—For the purposes of this Paragraph, "registered firm" includes an unregistered firm assessed as a registered firm under clause (*b*) of section 183 of the Income-tax Act.

Paragraph D

In the case of every local authority,—

Rate of income-tax

On the whole of the total income	50 per cent.

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph E

In the case of a company,—

Rates of income-tax

I. In the case of a domestic company,—

(1) where the company is a company in which the public are substantially interested	50 per cent. of the total income;
(2) where the company is not a company in which the public are substantially interested—	
(*i*) in the case of a trading company or an investment company	60 per cent. of the total income;
(*ii*) in any other case	55 per cent. of the total income.
II. In the case of a company other than a domestic company,—	
(*i*) on so much of the total income as consists of—	
(*a*) royalties received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1961 but before the 1st day of April, 1976, or	
(*b*) fees for rendering technical services received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 29th day of February, 1964 but before the 1st day of April, 1976,	
and where such agreement has, in either case, been approved by the Central Government	50 per cent.
(*ii*) on the balance, if any, of the total income	65 per cent.

Surcharge on income-tax

The amount of income-tax computed in accordance with the provisions of item I of this Paragraph shall, in the case of every person having a total income exceeding fifty thousand rupees, be increased by a surcharge calculated at the rate of eight per cent. of such income-tax.

PART II

RATES FOR DEDUCTION OF TAX AT SOURCE IN CERTAIN CASES

In every case in which under the provisions of sections 193, 194, 194A, 194B, 194BB, 194D and 195 of the Income-tax Act, tax is to be deducted at the rates in force, deduction shall be made from the income subject to deduction at the following rates:—

	Rate of income-tax
1. In the case of a person other than a company—	
(*a*) where the person is resident in India—	
(*i*) on income by way of interest other than "Interest on securities"	10 per cent.;
(*ii*) on income by way of winnings from lotteries and crossword puzzles	40 per cent.
(*iii*) on income by way of winnings from horse races	40 per cent.;
(*iv*) on income by way of insurance commission	10 per cent.;

(*v*) on income by way of interest payable on—	10 per cent.;
(*A*) any security, other than a tax-free security, of the Central or a State Government;	
(*B*) any debentures or other securities for money issued by or on behalf of any local authority or a corporation established by a Central, State or Provincial Act;	
(*C*) any debentures issued by a company where such debentures are listed on a recognised stock exchange in India in accordance with the Securities Contracts (Regulation) Act, 1956 and any rules made thereunder;	
(*vi*) on any other income (excluding interest payable on a tax-free security)	20 per cent.;
(*b*) where the person is not resident in India—	
(*i*) in the case of a non-resident Indian—	
(*A*) on investment income and long-term capital gains	20 per cent.;
(*B*) on income by way of interest payable on a tax-free security	15 per cent.;
(*C*) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(*D*) on income by way of winnings from horse races	40 per cent.;
(*E*) on the whole of other income	income-tax at 30 per cent. of the amount of income or income-tax in respect of the income at the rates prescribed in Sub-Paragraph I of Paragraph A of Part III of this Schedule, if such income had been the total income, whichever is higher;
(*ii*) in the case of any other person—	
(*A*) on income by way of interest payable on a tax-free security	15 per cent.;
(*B*) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(*C*) on income by way of winnings from horse races	40 per cent.;
(*D*) on the whole of the other income	income-tax at 30 per cent. of the amount of income or income-tax in respect of the income at the rates prescribed in Sub-Paragraph I of Paragraph A of Part III of this Schedule, if such income had been the total income, whichever is higher.

2. In the case of a company—

(*a*) where the company is a domestic company—	
(*i*) on income by way of interest other than "Interest on securities"	20 per cent.;
(*ii*) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(*iii*) on income by way of winnings from horse races	40 per cent.;
(*iv*) on any other income (excluding interest payable on tax-free security)	21.5 per cent.;
(*b*) where the company is not a domestic company—	
(*i*) on income by way of dividends payable by any domestic company	25 per cent.;
(*ii*) on income by way of winnings from lotteries and crossword puzzles	40 per cent.;
(*iii*) on income by way of winnings from horse races	40 per cent.;
(*iv*) on income by way of interest payable by Government or an Indian concern on moneys borrowed or debt incurred by Government or the Indian concern in foreign currency	25 per cent.;
(*v*) on income by way of royalty payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1976, where such royalty is in consideration for the transfer of all or any rights (including the granting of a licence) in respect of copyright in any book on a subject referred to in the proviso to sub-section (*IA*) of section 115A of the Income-tax Act, to the Indian concern	30 per cent.;
(*vi*) on income by way of royalty [not being royalty of the nature referred to in sub-item (*b*)(*v*)] payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern and which has been approved by the Central Government,—	
(*A*) where the agreement is made after the 31st day of March, 1961 but before the 1st day of April, 1976	50 per cent.;
(*B*) where the agreement is made after the 31st day of March, 1976	30 per cent.;
(*vii*) on income by way of fees for technical services payable by Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern and which has been approved by the Central Government,—	
(*A*) where the agreement is made after the 29th day of February, 1964 but before the 1st day of 1976	50 per cent.;
(*B*) where the agreement is made after the 31st day of March, 1976	30 per cent.;
(*viii*) on income by way of interest payable on a tax-free security	44 per cent.;
(*ix*) on any other income	65 per cent.

Explanation.—For the purposes of this Part, "investment income", "long-term capital gains" and "non-resident Indian" shall have the meanings assigned to them in Chapter XII-A of the Income-tax Act.

Surcharge on income-tax

The amount of income-tax deducted in accordance with the provisions of—

(*a*) sub-item (*a*) of item 1 of this Part shall be increased by a surcharge for purposes of the Union, and

(*b*) sub-item (*a*) of item 2 of this Part shall be increased by a surcharge,

calculated at the rate of eight per cent. of such income-tax.

PART III

RATES FOR CALCULATING OR CHARGING INCOME-TAX IN CERTAIN CASES, DEDUCTING INCOME-TAX FROM INCOME CHARGEABLE UNDER THE HEAD "SALARIES" AND COMPUTING "ADVANCE TAX"

In cases in which income-tax has to be calculated under the first proviso to sub-section (5) of section 132 of the Income-tax Act or charged under sub-section (*4*) of section 172 or sub-section (*2*) of section 174 or section 175 or sub-section (*2*) of section 176 of the said Act or deducted under section 192 of the said Act from income chargeable under the head "Salaries" or in which the "advance tax" payable under Chapter XVII-C of the said Act has to be computed at the rate or rates in force, such income- tax or, as the case may be, "advance tax" [not being "advance tax" in respect of any income chargeable to tax under Chapter XII or Chapter XII-A or sub-section (*1A*) of section 161 or section 164 or section 164A or section 167B of the Income-tax Act at the rates as specified in that Chapter or section or surcharge on such "advance tax" in respect of any income chargeable to tax under section 115B], shall be calculated, charged, deducted or computed at the following rate or rates:—

Paragraph A

Sub-Paragraph I

In the case of every individual or Hindu undivided family or unregistered firm or other association of persons or body of individuals, whether incorporated or not, or every artificial juridical person referred to in sub-clause (*vii*) of clause (*31*) of section 2 of the Income-tax Act, not being a case to which Sub-Paragraph II of this Paragraph or any other Paragraph of this Part applies,—

Rates of income-tax

(1)	where the total income does not exceed Rs. 22,000	*Nil;*
(2)	where the total income exceeds Rs. 22,000 but does not exceed Rs. 30,000	20 per cent. of the amount by which the total income exceeds Rs. 22,000;
(3)	where the total income exceeds Rs. 30,000 but does not exceed Rs. 50,000	Rs. 1,600 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 30,000;
(4)	where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 7,600 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 50,000;
(5)	where the total income exceeds Rs. 1,00,000	Rs. 27,600 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall,—

(*i*) in the case of every individual, Hindu undivided family or association of persons or body of individuals referred to in sections 88 and 88A having a total income exceeding seventy-five thousand rupees, be reduced by the amount of rebate of income-tax calculated under Chapter VIII-A, and the income-tax as so reduced,

(*ii*) in the case of every person, other than those mentioned in item (*i*), having a total income exceeding seventy-five thousand rupees,

be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Sub-Paragraph II

In the case of every Hindu undivided family which at any time during the previous year has at least one member whose total income of the previous year relevant to the assessment year commencing on the 1st day of April, 1991 exceeds Rs. 22,000,—

Rates of income-tax

(1)	where the total income does not exceed Rs. 12,000	*Nil*;
(2)	where the total income exceeds Rs. 12,000 but does not exceed Rs. 20,000	25 per cent. of the amount by which the total income exceeds Rs. 12,000;
(3)	where the total income exceeds Rs. 20,000 but does not exceed Rs. 40,000	Rs. 2,000 *plus* 30 per cent. of the amount by which the total income exceeds Rs. 20,000;
(4)	where the total income exceeds Rs. 40,000 but does not exceed Rs. 60,000	Rs. 8,000 *plus* 40 per cent. of the amount by which the total income exceeds Rs. 40,000;
(5)	where the total income exceeds Rs. 60,000 but does not exceed Rs. 1,00,000	Rs. 16,000 *plus* 50 per cent. of the amount by which the total income exceeds Rs. 60,000;
(6)	where the total income exceeds Rs. 1,00,000	Rs. 36,000 *plus* 55 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be reduced by the amount of rebate of income-tax calculated under Chapter VIII-A and the income-tax as so reduced be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax:

Provided that no such surcharge shall be payable by a non-resident.

Paragraph B

In the case of every co-operative society,—

Rates of income-tax

(1) where the total income does not exceed Rs. 10,000	10 per cent. of the total income;
(2) where the total income exceeds Rs. 10,000 but does not exceed Rs. 20,000	Rs. 1,000 *plus* 20 per cent. of the amount by which the total income exceeds Rs. 10,000;
(3) where the total income exceeds Rs. 20,000	Rs. 3,000 *plus* 35 per cent. of the amount by which the total income exceeds Rs. 20,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph C

Sub-Paragraph I

In the case of every registered firm, not being a case to which Sub-Paragraph II of this Paragraph applies,—

Rates of income-tax

(1) where the total income does not exceed Rs. 15,000	*Nil*;
(2) where the total income exceeds Rs. 15,000 but does not exceed Rs. 50,000	6 per cent. of the amount by which the total income exceeds Rs. 15,000;
(3) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 2, 100 *plus* 12 per cent. of the amount by which the total income exceeds Rs. 50,000;
(4) where the total income exceeds Rs. 1,00,000	Rs. 8,100 *plus* 18 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Sub-Paragraph II

In the case of every registered firm whose total income includes income derived from a profession carried on by it and the income so included is not less than fifty-one per cent. of such total income,—

Rates of income-tax

(1) where the total income does not exceed Rs. 15,000	*Nil*,

(2) where the total income exceeds Rs. 15,000 but does not exceed Rs. 50,000	5 per cent. of the amount by which the total income exceeds Rs. 15,000;
(3) where the total income exceeds Rs. 50,000 but does not exceed Rs. 1,00,000	Rs. 1,750 *plus* 10 per cent. of the amount by which the total income exceeds Rs. 50,000;
(4) where the total income exceeds Rs. 1,00,000	Rs. 6,750 *plus* 15 per cent. of the amount by which the total income exceeds Rs. 1,00,000.

Surcharge on income-tax

The amount of income-tax computed in accordance with the preceding provisions of this Sub-Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Explanation.—For the purposes of this Paragraph, "registered firm" includes an unregistered firm assessed as a registered firm under clause (*b*) of section 183 of the Income-tax Act.

Paragraph D

In the case of every local authority,—

Rate of income-tax

On the whole of the total income	50 per cent.

Surcharge on income-tax

The amount of income-tax computed at the rate hereinbefore specified shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge for purposes of the Union calculated at the rate of eight per cent. of such income-tax.

Paragraph E

In the case of a company,—

Rates of income-tax

I. In the case of a domestic company,—

(1) where the company is a company in which the public are substantially interested	40 per cent. of the total income;
(2) where the company is not a company in which the public are substantially interested—	
(*i*) in the case of a trading company or an investment company	50 per cent. of the total income;
(*ii*) in any other case	45 per cent. of the total income.

II. In the case of a company other than a domestic company,—

(*i*) on so much of the total income as consists of—

(*a*) royalties received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 31st day of March, 1961 but before the 1st day of April, 1976, or

(*b*) fees for rendering technical services received from Government or an Indian concern in pursuance of an agreement made by it with the Government or the Indian concern after the 29th day of February, 1964 but before the 1st day of April, 1976,

and where such agreement has, in either case, been approved by the Central Government — 65 per cent.

(*ii*) on the balance, if any, of the total income — 65 per cent

Surcharge on income-tax

The amount of income-tax computed in accordance with the provisions of item I of this Paragraph shall, in the case of every person having a total income exceeding seventy-five thousand rupees, be increased by a surcharge calculated at the rate of eight per cent. of such income-tax.

PART IV

[*See* section 2(*9*) (*e*)]

RULES FOR COMPUTATION OF NET AGRICULTURAL INCOME

Rule 1.—Agricultural income of the nature referred to in sub-clause (*a*) of clause (*1A*) of section 2 of the Income-tax Act shall be computed as if it were income chargeable to income-tax under that Act under the head "Income from other sources" and the provisions of sections 57 to 59 of that Act shall, so far as may be, apply accordingly:

Provided that sub-section (*2*) of section 58 shall apply subject to the modification that the reference to section 40A therein shall be construed as not including a reference to sub-sections (*3*) and (*4*) of section 40A.

Rule 2.—Agricultural income of the nature referred to in sub-clause (*b*) or sub-clause (*c*) of clause (*1A*) of section 2 of the Income-tax Act [other than income derived from any building required as a dwelling-house by the receiver of the rent or revenue or the cultivator or the receiver of rent-in-kind referred to in the said sub-clause (*c*)] shall be computed as if it were income chargeable to income-tax under that Act under the head "Profits and gains of business or profession" and the provisions of sections 30, 31, 32, 36, 37, 38, 40, 40A [other than sub-sections (*3*) and (*4*) thereof], 41, 43, 43A, 43B and 43C of the Income-tax Act shall, so far as may be, apply accordingly.

Rule 3.—Agricultural income of the nature referred to in sub-clause (*c*) of clause (*1A*) of section 2 of the Income-tax Act, being income derived from any building required as a dwelling-house by the receiver of the rent or revenue or the cultivator or the receiver of rent-in-kind referred to in the said sub-clause (*c*) shall be computed as if it were income chargeable to income-tax under that Act under the head "Income from house property" and the provisions of sections 23 to 27 of that Act shall, so far as may be, apply accordingly.

Rule 4.—Notwithstanding anything contained in any other provisions of these rules, in a case where the assessee derives income from sale of tea grown and manufactured by him in India, such income shall be computed in accordance with rule 8 of the Income-tax Rules, 1962, and sixty per cent. of such income shall be regarded as the agricultural income of the assessee.

Rule 5.—Where the assessee is a partner of a registered firm or an unregistered firm assessed as a registered firm under clause (*b*) of section

183 of the Income-tax Act, which in the previous year has any agricultural income, or is a partner of an unregistered firm which has not been assessed as a registered firm under clause (*b*) of the said section 183 and which in the previous year has either no income chargeable to tax under the Income-tax Act or has total income not exceeding the maximum amount not chargeable to tax in the case of an unregistered firm but has any agricultural income, then, the agricultural income or loss of the firm shall be computed in accordance with these rules and his share in the agricultural income or loss of the firm shall be computed in the manner laid down in sub-section (*1*), sub-section (*2*) and sub-section (*3*) of section 67 of the Income-tax Act and the share so computed shall be regarded as the agricultural income or loss of the assessee.

Rule 6.—Where the assessee is a member of an association of persons or a body of individuals (other than a Hindu undivided family, a company or a firm) which in the previous year has either no income chargeable to tax under the Income-tax Act or has total income not exceeding the maximum amount not chargeable to tax in the case of an association of persons or a body of individuals (other than a Hindu undivided family, a company or a firm) but has any agricultural income, then, the agricultural income or loss of the association or body shall be computed in accordance with these rules and the share of the assessee in the agricultural income or loss so computed shall be regarded as the agricultural income or loss of the assessee.

Rule 7.—Where the result of the computation for the previous year in respect of any source of agricultural income is a loss, such loss shall be set off against the income of the assessee, if any, for that previous year from any other source of agricultural income:

Provided that where the assessee is a partner of an unregistered firm which has not been assessed as a registered firm under clause (*b*) of section 183 of the Income-tax Act or is a member of an association of persons or a body of individuals and the share of the assessee in the agricultural income of the firm, association or body, as the case may be, is a loss, such loss shall not be set off against any income of the assessee from any other source of agricultural income.

Rule 8.—Any sum payable by the assessee on account of any tax levied by the State Government on the agricultural income shall be deducted in computing the agricultural income.

Rule 9.—(*1*) Where the assessee has, in the previous year relevant to the assessment year commencing on the 1st day of April, 1990, any agricultural income and the net result of the computation of the agricultural income of the assessee for any one or more of the previous years relevant to the assessment years commencing on the 1st day of April, 1982 or the 1st day of April, 1983 or the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989, is a loss, then, for the purposes of sub-section (*2*) of section 2 of this Act,—

(*i*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1982 to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1983 or the 1st day of April, 1984

or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(*ii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1983, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(*iii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1984, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(*iv*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1985, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(*v*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1986, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989,

(*vi*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1987, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1988 or the 1st day of April, 1989,

(*vii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1988, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1989, and

(*viii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1989,

shall be set off against the agricultural income of the assessee for the previous year relevant to the assessment year commencing on the 1st day of April, 1990.

(2) Where the assessee has, in the previous year relevant to the assessment year commencing on the 1st day of April, 1991 or, if by virtue of any provision of the Income-tax Act, income-tax is to be charged in respect of the income of a period other than that previous year, in such other period, any agricultural income and the net result of the computation of the agricultural income of the assessee for any one or more of

the previous years relevant to the assessment years commencing on the 1st day of April, 1983 or the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990, is a loss, then, for the purposes of sub-section (8) of section 2 of this Act,—

(*i*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1983, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1984 or the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(*ii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1984, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1985 or the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(*iii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1985, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1986 or the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(*iv*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1986, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1987 or the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(*v*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1987, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1988 or the 1st day of April, 1989 or the 1st day of April, 1990,

(*vi*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1988, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1989 or the 1st day of April, 1990,

(*vii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1989, to the extent, if any, such loss has not been set off against the agricultural income for the previous year relevant to the assessment year commencing on the 1st day of April, 1990; and

(*viii*) the loss so computed for the previous year relevant to the assessment year commencing on the 1st day of April, 1990,

shall be set off against the agricultural income of the assessee for the previous year relevant to the assessment year commencing on the 1st day of April, 1991.

(*3*) Where a change has occurred in the constitution of a firm, nothing in sub-rule (*1*) or sub-rule (*2*) shall entitle the firm to set off so much of the loss proportionate to the share of a retired or deceased partner computed in the manner laid down in sub-section (*1*), sub-section (*2*) and sub-section (*3*) of section 67 of the Income-tax Act as exceeds his share of profits, if any, of the previous year in the firm, or entitle any partner to the benefit of any portion of the said loss (computed in the manner aforesaid) which is not apportionable to him.

(*4*) Where any person deriving any agricultural income from any source has been succeeded in such capacity by another person, otherwise than by inheritance, nothing in sub-rule (*1*) or sub-rule (*2*) shall entitle any person, other than the person incurring the loss, to have it set off under sub-rule (*1*) or, as the case may be, sub-rule (*2*).

(*5*) Notwithstanding anything contained in this rule, no loss which has not been determined by the Assessing Officer under the provisions of these rules or the rules contained in Part IV of the First Schedule to the Finance Act, 1982, or of the First Schedule to the Finance Act, 1983, or of the First Schedule to the Finance Act, 1984, or of the First Schedule to the Finance Act, 1985, or of the First Schedule to the Finance Act, 1986, or of the First Schedule to the Finance Act, 1987, or of the First Schedule to the Finance Act, 1988, or of the First Schedule to the Finance Act, 1989, shall be set off under sub-rule (*1*) or, as the case may be, sub-rule (*2*).

14 of 1982.
11 of 1983.
21 of 1984.
32 of 1985.
23 of 1986.
11 of 1987.
26 of 1988.
13 of 1989.

Rule 10.—Where the net result of the computation made in accordance with these rules is a loss, the loss so computed shall be ignored and the net agricultural income shall be deemed to be *nil*.

Rule 11.—The provisions of the Income-tax Act relating to procedure for assessment (including the provisions of section 288A relating to rounding off of income) shall, with the necessary modifications, apply in relation to the computation of the net agricultural income of the assessee as they apply in relation to the assessment of the total income.

Rule 12.—For the purposes of computing the net agricultural income of the assessee, the Assessing Officer shall have the same powers as he has under the Income-tax Act for the purposes of assessment of the total income.

THE SECOND SCHEDULE

(*See* section 63)

In the First Schedule to the Customs Tariff Act,—

(*1*) in Chapter 26, in sub-heading No. 2620.30, for the entry in column (4), the entry "150%" shall be substituted;

(*2*) in Chapter 29, in sub-heading No. 2925.11, for the entry in column (4), the entry "100% *plus* Rs. 25 per Kg." shall be substituted;

(*3*) in Chapter 85, in sub-heading No. 8511.10, for the entry in column (4), the entry "100% *plus* Rs. 10 per piece" shall be substituted;

(*4*) in Chapter 96, in sub-heading Nos. 9607.11, 9607.19 and 9607.20, for the entry in column (4), the entry "150% *plus* Rs. 5 per metre" shall be substituted.

THE THIRD SCHEDULE

(*See* section 66)

PART I

In the Schedule to the Central Excise Tariff Act,—

(*1*) in Chapter 4, in sub-heading No. 0401.13, for the entry in column (3), the entry "- -Milk powder, other than powder specially prepared for feeding infants, put up in unit containers and ordinarily intended for sale" shall be substituted;

(*2*) in Chapter 9, in sub-heading Nos. 0901.20 and 0901.90, for the entry in column (4), the entry "15%" shall be substituted;

(*3*) in Chapter 11, in sub-heading Nos. 1102.00 and 1104.00, for column (4), the entry "10%" shall be substituted;

(*4*) in Chapter 13, in sub-heading No. 1301.90, for the entry in column (4), the entry "15%" shall be substituted;

(*5*) in Chapter 14, in sub-heading No. 1401.00, for the entry in column (4), the entry "15%" shall be substituted;

(*6*) in Chapter 15, in sub-heading Nos. 1501.00, 1505.00 and 1507.00, for the entry in column (4), the entry "15%" shall be substituted;

(*7*) in Chapter 17, in sub-heading Nos. 1701.90, 1702.29, 1702.30 and 1704.90, for the entry in column (4), the entry "10%" shall be substituted;

(*8*) in Chapter 18, in sub-heading Nos. 1801.00, 1802.00, 1803.00 and 1804.00, for the entry in column (4), the entry "15%" shall be substituted;

(*9*) in Chapter 21,—

(*a*) in sub-heading Nos. 2101.30, 2102.10 and 2102.90, for the entry in column (4), the entry "15%" shall be substituted;

(*b*) in sub-heading No. 2105.00, for the entry in column (4), the entry "15% *plus* Rs. 2 per litre" shall be substituted;

(*c*) in heading No. 21.06, in column (3), for the entry "-Containing lime or katha (*catechu*) or both, whether or not containing tobacco:", the entry "-Containing lime, katha (*catechu*) or tobacco or any one or more of these ingredients:" shall be substituted;

(*d*) in sub-heading Nos. 2106.11 and 2106.90, for the entry in column (4), the entry "40% *plus* Rs. 50 per kilogram" shall be substituted;

(*10*) in Chapter 22, in sub-heading No. 2203.00, for the entry in column (4), the entry "15%" shall be substituted;

(*11*) in Chapter 23, in sub-heading No. 2301.00, for the entry in column (4), the entry "Nil" shall be substituted;

(*12*) in Chapter 24,—

(*a*) in sub-heading Nos. 2403.11, 2403.12, 2403.21 and 2403.22, for the entry in column (4), the entry "Rs. 500 per thousand or 300% *plus* Rs. 20 per thousand, whichever is higher" shall be substituted;

(*b*) in sub-heading Nos. 2404.60 and 2404.90, for the entry in column (4), the entry "15%" shall be substituted;

(*13*) in Chapter 25,—

(*a*) for NOTE 2, the following NOTE shall be substituted, namely:—

"2. Except where their context otherwise requires, heading Nos. 25.01, 25.03 and 25.05 cover only products which have been washed (even with chemical substances, eliminating the impurities without changing the structure of the product), crushed, ground, powdered, levigated, sifted, screened, or concentrated by flotation, magnetic separation or other mechanical or physical processes (except crystallisation), but not products that have been roasted, calcined, obtained by mixing or subjected to processing beyond that mentioned in each heading or sub-heading.";

(*b*) in sub-heading Nos. 2502.10, 2502.30 and 2504.90, for the entry in column (4), the entry "10%" shall be substituted;

(*14*) in Chapter 26, in sub-heading Nos. 2601.00, 2602.00 2603.00, 2604.00, 2605.00, 2606.00, 2607.00, 2608.00, 2609.00, 2610.00, 2611.00, 2612.00, 2613.00, 2614.00, 2615.00, 2616.00, 2617.00, 2618.00, 2619.00, 2620.00 and 2621.00, for the entry in column (4), the entry "10%" shall be substituted;

(*15*) in Chapter 28,—

(*a*) in sub-heading No. 2815.00, for the entry in column (4), the entry "15% *plus* Rs. 1,000 per tonne" shall be substituted;

(*b*) in sub-heading No. 2818.10, for the entry in column (4), the entry "10%" shall be substituted;

(*16*) in Chapter 29, in sub-heading Nos. 2917.10 and 2917.20, for the entry in column (4), the entry "15% *plus* Rs. 5 per kilogram" shall be substituted;

(*17*) in Chapter 30, in sub-heading No. 3001.00, for the entry in column (4), the entry "15%" shall be substituted;

(*18*) in Chapter 34, in sub-heading No. 3402.90, for the entry in column (4), the entry "25% *plus* Rs. 2,000 per tonne" shall be substituted;

(19) in Chapter 40,—

(a) in NOTE 9,—

(i) after the word and figures "and 40.08,", the words "except as otherwise provided," shall be inserted;

(ii) the following paragraph shall be inserted at the end, namely:—

'Sub-heading No. 4008.21 shall also apply to "plates", "sheets" and "strips", whether or not cut to shape, and surface-worked or further worked so as to render them fit for resoling or repairing or re-treading of rubber tyres.';

(b) in sub-heading No. 4011.20, for the entry in column (4), the entry "Rs. 35 per tyre" shall be substituted;

(c) in sub-heading No. 4011.50, for the entry in column (4), the entry "Rs. 2,600 per tyre" shall be substituted;

(d) in sub-heading No. 4011.91, for the entry in column (4), the entry "60%" shall be substituted;

(e) in sub-heading No. 4011.99, for the entry in column (4), the entry "30%" shall be substituted;

(f) in sub-heading No. 4012.19, for the entry in column (4), the entry "Rs. 23 per flap" shall be substituted;

(20) in Chapter 41, in sub-heading No. 4101.00, for the entry in column (4), the entry "10%" shall be substituted;

(21) in Chapter 42, in sub-heading No. 4201.90, for the entry in column (4), the entry "15%" shall be substituted;

(22) in Chapter 43, in sub-heading No. 4301.00, for the entry in column (4), the entry "15%" shall be substituted;

(23) in Chapter 44,—

(a) NOTES 5 and 6 shall be renumbered as NOTES 6 and 7 respectively and before NOTE 6 as so renumbered, the following NOTE shall be inserted, namely:—

'5. For the purposes of heading No. 44.08, the expression "similar laminated wood" includes blockboard, laminboard and battenboard, in which the core is thick and composed of blocks, laths or battens of wood glued together and surfaced with the outer plies and also panels in which the wooden core is replaced by other materials such as a layer or layers of particle board, fibre board, wood waste glued together, asbestos or cork.';

(b) in sub-heading Nos. 4401.00, 4402.00, 4403.00, 4404.00, 4405.00 and 4410.90, for the entry in column (4), the entry "15%" shall be substituted;

(24) in Chapter 46, in sub-heading No. 4601.00, for the entry in column (4), the entry "10%" shall be substituted;

(25) in Chapter 47, in sub-heading No. 4701.00, for the entry in column (4), the entry "10%" shall be substituted;

(26) in Chapter 48,—

(*a*) NOTES 8, 9 and 10 shall be renumbered as NOTES 9, 10 and 11 respectively and before NOTE 9 as so renumbered, the following NOTE shall be inserted, namely:—

'8. For the purposes of heading No. 48.14, the expression "wallpaper and similar wall coverings" applies only to:

(*a*) Paper in rolls, of a width of not less than 45 cms. and not more than 160 cms., suitable for wall or ceiling decoration:

(*i*) Grained, embossed, surface-coloured, design-printed or otherwise surface-decorated (*e.g.*, with textile flock), whether or not coated or covered with transparent protective plastics;

(*ii*) With an uneven surface resulting from the incorporation of particles of wood, straw, etc.;

(*iii*) Coated or covered on the face side with plastics, the layer of plastics being grained, embossed, coloured, design-printed or otherwise decorated; or

(*iv*) Covered on the face side with plaiting material, whether or not bound together in parallel strands or woven;

(*b*) Borders and friezes, of paper, treated as above, whether or not in rolls, suitable for wall or ceiling decoration;

(*c*) Wall coverings of paper made up of several panels, in rolls or sheets, printed so as to make up a scene, design or motif when applied to a wall.

Products on a base of paper or paperboard suitable for use both as floor coverings and as wall coverings, are to be classified in heading No. 48.15.';

(*b*) in sub-heading No. 4815.00, for the entry in column (4), the entry "30%" shall be substituted;

(*c*) in sub-heading Nos. 4817.00, 4818.00, 4819.90, 4820.00, 4821.00 and 4822.00, for the entry in column (4), the entry "15%" shall be substituted;

(27) in Chapter 49, in sub-heading No. 4901.10, for the entry in column (4), the entry "15%" shall be substituted;

(28) in Chapter 53, in sub-heading Nos. 5302.20 and 5306.29, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(29) in Chapter 56, in sub-heading No. 5607.19, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(30) in Chapter 57, in sub-heading No. 5702.20, for the entry in column (4), the entry "Rs. 700 per tonne" shall be substituted;

(*31*) in Chapter 59,—

(*a*) in NOTE 2, in clause (c), the words "by dot printing process" shall be omitted;

(*b*) NOTES 4, 5 and 6 shall be renumbered as NOTES 5, 6 and 7 respectively and before NOTE 5 as so renumbered, the following NOTE shall be inserted, namely:—

'4. For the purposes of heading No. 59.04, the expression "textile wall coverings" applies to products in rolls, of a width of not less than 45 cms., suitable for wall or ceiling decoration, consisting of a textile surface which has been fixed on a backing or has been treated on the back (impregnated or coated to permit pasting).

This heading does not, however, apply to wall coverings consisting of textile flock or dust fixed directly on a backing of paper (heading No. 48.14).';

(*c*) in sub-heading Nos. 5903.19, 5903.29 and 5903.99, for the entry in column (4), the entry "30% *plus* Rs. 15 per square metre *plus* the duty for the time being leviable on base fabrics, if not already paid" shall be substituted;

(*32*) in Chapter 64, in sub-heading Nos. 6401·19 and 6401.99, for the entry in column (4), the entry "10%" shall be substituted;

(*33*) in Chapter 65, in sub-heading Nos. 6501.80 and 6501.90, for the entry in column (4), the entry "10%" shall be substituted;

(*34*) in Chapter 66, in sub-heading No. 6602.00, for the entry in column (4), the entry "10%" shall be substituted;

(*35*) in Chapter 67, in sub-heading Nos. 6701.00 and 6702.00, for the entry in column (4), the entry "10%" shall be substituted;

(*36*) in Chapter 68,—

(*a*) in sub-heading No. 6801.90, for the entry in column (4), the entry "15%" shall be substituted;

(*b*) in sub-heading No. 6807.00, for the entry in column (4), the entry "30%" shall be substituted;

(*37*) in Chapter 70, in sub-heading No. 7009.00, for the entry in column (4), the entry "10%" shall be substituted;

(*38*) in Chapter 71, in sub-heading Nos. 7101·39, 7101.40, 7101·60, 7101.70, 7101.80 and 7101.90, for the entry in column (4), the entry "15%" shall be substituted;

(*39*) in Chapter 72,—

(*a*) in sub-heading Nos. 7201.00, 7203.00 and 7204.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*b*) in sub-heading No. 7204.20, for the entry in column (4), the entry "Rs. 2,000 per tonne" shall be substituted;

(*c*) in sub-heading Nos. 7205.10 and 7206.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*40*) in Chapter 73,—

(*a*) in sub-heading Nos. 7303.00 and 7304.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*b*) in sub-heading No. 7304.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(*c*) in sub-heading No. 7305.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*d*) in sub-heading No. 7305.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(*e*) in sub-heading No. 7306.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*f*) in sub-heading No. 7306.90, for the entry in column (4), the entry "Rs. 3,000 per tonne" shall be substituted;

(*g*) in sub-heading Nos. 7321.10 and 7321.20, for the entry in column (4), the entry "25%" shall be substituted;

(*h*) in sub-heading No. 7325.10, for the entry in column (4), the entry "Rs. 400 per tonne" shall be substituted;

(*41*) in Chapter 78,—

(*a*) in sub-heading Nos. 7801.10, 7801.90 and 7802.00, for the entry in column (4), the entry "Rs. 4,000 per tonne" shall be substituted;

(*b*) in sub-heading No. 7803.10, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(*c*) in sub-heading No. 7803.21, for the entry in column (4), the entry "20%" shall be substituted;

(*d*) in sub-heading No. 7803.29, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(*e*) in sub-heading No. 7803.30, for the entry in column (4), the entry "Rs. 4,000 per tonne" shall be substituted;

(*f*) in sub-heading No. 7804.10, for the entry in column (4), the entry "Rs. 5,000 per tonne" shall be substituted;

(*g*) in sub-heading Nos. 7804.20, 7805.10, 7805.20 and 7806.00, for the entry in column (4), the entry "20%" shall be substituted;

(*42*) in Chapter 79,—

(*a*) in sub-heading Nos. 7903.10 and 7903.90, for the entry in column (4), the entry "20%" shall be substituted;

(*b*) in sub-heading Nos. 7904.21 and 7906.10, for the entry in column (4), the entry "30%" shall be substituted;

(c) in sub-heading Nos. 7906.20, 7907.10 and 7907.90, for the entry in column (4), the entry "20%" shall be substituted;

(*43*) in Chapter 85,—

(*a*) in sub-heading No. 8521.00, for the entry in column (4), the entry "40%" shall be substituted;

(*b*) in sub-heading No. 8543.00, for the entry in column (4), the entry "25%" shall be substituted;

(*44*) in Chapter 87,—

(*a*) in sub-heading No. 8703.00, for the entry in column (4), the entry "40%" shall be substituted;

(*b*) in sub-heading Nos. 8706.20 and 8706.40, for the entry in column (4), the entry "25% *plus* Rs. 6,000 per chassis" shall be substituted;

(*c*) in sub-heading No. 8706.30, for the entry in column (4), the entry "40%" shall be substituted; and

(*45*) in Chapter 96, in sub-heading No. 9617.00, for the entry in column (4), the entry "10%" shall be substituted.

PART II

Heading No.	Sub-heading No.	Description of goods	Rate of duty
(1)	(2)	(3)	(4)

In the Schedule to the Central Excise Tariff Act,—

(1) in Chapter 22, after heading No. 22.03 and the entries relating thereto, the following shall be inserted, namely :—

"22.04	2204.00	ETHYL ALCOHOL OF ANY STRENGTH WHETHER DENATURED OR NOT, BUT NOT INCLUDING ALCOHOLIC LIQUOR FOR HUMAN CONSUMPTION	Rs. 8 per tonne for each percentage point strength of alcohol";

(2) in Chapter 25, for heading No. 25.05 and the entries relating thereto, the following shall be substituted, namely :—

"25.05		MINERAL SUBSTANCES NOT ELSEWHERE SPECIFIED (INCLUDING CLAY, EARTH COLOURS, NATURAL ABRASIVES, SULPHURS, SLATE AND STONE), LIME; PLASTERS WITH A BASIS OF CALCIUM SULPHATE, WHETHER OR NOT COLOURED, BUT NOT INCLUDING PLASTERS SPECIALLY PREPARED FOR USE IN DENTISTRY	
	2505.10	-Kaolin and other kaolinic clays, whether or not calcined; other clays, andalusite, kyanite and sillimanite, whether or not calcined; mullite; chamotte or dinas earths	15%

(1)	(2)	(3)	(4)
	2505.20	-Natural barium sulphate (barytes); natural barium carbonate (witherite) whether or not calcined, other than barium oxide of heading No. 28.16	15%
	2505.30	-Silicious fossil meals and similar silicious earths, whether or not calcined, of an apparent specific gravity of 1 or less	15%
	2505.40	-Dolomite, whether or not calcined; natural magnesium carbonate (magnesite); fused magnesia; dead burned (sintered) magnesia, whether or not containing small quantities of other oxides added before sintering; other magnesium oxide, whether or not pure	15%
	2505.50	-Gypsum; anhydrite; plasters (consisting of calcined gypsum or calcium sulphate) whether or not coloured, with or without small quantities of accelerators or retarders	15%
	2505.60	-Quick lime, slaked lime and hydraulic lime, other than calcium oxide and hydroxide of heading No. 28.25	15%
	2505.70	-Natural borates and concentrates thereof (whether or not calcined), but not including borates separated from natural brine; natural boric acid containing not more than 85% of H_3BO_3 calculated on the dry weight; earth colours, strontianite (whether or not calcined), other than strontium oxide	15%
	2505.90	-Other	15%";

(*3*) in Chapter 40, after sub-heading No. 4011.70 and the entries relating thereto, the following shall be inserted, namely:—

	"4011.80	-Of a kind used on animal drawn vehicles or handcarts, bearing prominent markings of the letters ADV thereon	60%";

(*4*) in Chapter 52,—

(*a*) for heading No. 52.03 and the entries relating thereto, the following shall be substituted, namely:—

52.03	5203.00	COTTON YARN INCLUDING SEWING THREAD, NOT CONTAINING SYNTHETIC STAPLE FIBRES	20 *paise* per count per kilogram";

(*b*) for heading Nos. 52.06, 52.07, 52.08, 52.09, 52.10 and 52.11 and the entries relating thereto, the following shall be substituted, namely:—

52.06	5206.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— (*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND	20%

(1)	(2)	(3)	(4)
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	
52.07	5207.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),— (*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20%
52.08	5208.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10, 52.11 AND 52.12),— (*a*) WOVEN ON HANDLOOMS, AND (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20%
52.09	5209.00	COTTON FABRICS,— (*a*) WOVEN, (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, (*c*) CONTAINING (*i*) COTTON, AND (*ii*) POLYESTER STAPLE FIBRE OR POLYESTER FILAMENT YARN OR BOTH (BUT NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND (*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE OR FILAMENT YARN OR BOTH IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%
52.10	5210.00	COTTON FABRICS,— (*a*) WOVEN,	20%

(1)	(2)	(3)	(4)
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	
		(*c*) CONTAINING (*i*) COTTON, (*ii*) POLYESTER STAPLE FIBRE, AND (*iii*) RAMIE OR ANY ONE OR MORE ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND	
		(*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	
52.11	5211.00	COTTON FABRICS,—	20%"
		(*a*) WOVEN,	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES,	
		(*c*) CONTAINING (*i*) COTTON, AND (*ii*) POLYESTER STAPLE FIBRE, AND	
		(*d*) OF VALUE EXCEEDING RUPEES TWENTY-FIVE PER SQUARE METRE	

(*5*) in Chapter 54,—

(*a*) for heading Nos. 54.02, 54.03 and 54.04 and the entries relating thereto, the following shall be substituted, namely:—

"54.02	5402.00	SYNTHETIC FILAMENT YARN AND SEWING THREAD INCLUDING SYNTHETIC MONOFILAMENT OF LESS THAN 60 DENIERS, NOT TEXTURED	Rs. 100 per kilogram
54.03	5403.00	SYNTHETIC FILAMENT YARN INCLUDING SYNTHETIC MONOFILAMENT OF LESS THAN 60 DENIERS, TEXTURED	Rs. 100 per kilogram
54.04	5404.00	ARTIFICIAL FILAMENT YARN AND SEWING THREAD, INCLUDING ARTIFICIAL MONOFILAMENT OF LESS THAN 60 DENIERS, NOT TEXTURED	Rs. 25 per kilogram";

(*b*) for heading Nos. 54.09, 54.10, 54.11 and 54.12 and the entries relating thereto, the following shall be substituted, namely:—

"54.09	5409.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING	20%

(1)	(2)	(3)	(4)
		NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— (*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	
54.10	5410.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— (*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	20%
54.11	5411.00	FABRICS OF MAN-MADE FILAMENT YARN (INCLUDING FABRICS OBTAINED FROM MATERIALS OF HEADING NOS. 54.06 AND 54.07 BUT EXCLUDING FABRICS COVERED UNDER HEADING NO. 54.12),— (*a*) WOVEN ON HANDLOOMS, AND (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	20%
54.12	5412.00	FABRICS OF POLYESTER FILAMENT YARN,— (*a*) WOVEN, (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES,	20%";

(1)	(2)	(3)	(4)
		(*c*) CONTAINING (*i*) COTTON, AND (*ii*) POLYESTER STAPLE FIBRE (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND	
		(*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE AND YARN IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	

(*6*) in Chapter 55,—

(*a*) for heading No. 55.05 and the entries relating thereto, the following shall be substituted, namely:—

"55.05	5505.00	YARN (INCLUDING SEWING THREAD) OF ARTIFICIAL STAPLE FIBRES, NOT CONTAINING SYNTHETIC STAPLE FIBRES	20 *paise* per count per kilogram";

(*b*) for heading Nos. 55.08, 55.09, 55.10, 55.11 and 55.12 and the entries relating thereto, the following shall be substituted, namely:—

"55.08	5508.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),—	20%
		(*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	
55.09	5509.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),—	20%
		(*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	
55.10	5510.00	FABRICS OF MAN-MADE STAPLE FIBRES (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 55.11 AND 55.12),—	20%
		(*a*) WOVEN ON HANDLOOMS, AND	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING,	

(1)	(2)	(3)	(4)
		HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	
55.11	5511.00	FABRICS OF POLYESTER STAPLE FIBRE,— (*a*) WOVEN, (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, (*c*) CONTAINING COTTON (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND (*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%
55.12	5512.00	FABRICS OF MAN-MADE STAPLE FIBRES,— (*a*) WOVEN, (*b*) SUBJECTED TO THE PROCESS OF BLEACHING, DYEING, PRINTING, SHRINK-PROOFING, TENTERING, HEAT-SETTING, CREASE RESISTANT PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES, (*c*) CONTAINING (*i*) POLYESTER STAPLE FIBRE, AND (*ii*) ANY ONE OR MORE OF THE FOLLOWING FIBRES, NAMELY, COTTON, RAMIE AND ARTIFICIAL STAPLE FIBRES (NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND (*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE IS MORE THAN 40% BUT LESS THAN 70% BY WEIGHT OF THE TOTAL FIBRE CONTENT	20%";

(7) in Chapter 59, for heading No. 59.04 and the entries relating thereto, the following shall be substituted, namely:—

"59.04		LINOLEUM, WHETHER OR NOT CUT TO SHAPE; FLOOR COVERINGS CONSISTING OF A COATING OR COVERING APPLIED ON A TEXTILE BACKING, WHETHER OR NOT CUT TO SHAPE; TEXTILE WALL COVERINGS	
	5904.10	-Linoleum	30%
	5904.20	-Textile wall coverings	10% *plus* Rs. 2,850 per tonne
	5904.90	-Other	30%".

THE FOURTH SCHEDULE

(*See* section 68)

PART I

In the First Schedule to the Additional Duties of Excise Act,—

(1) in sub-heading Nos. 2403·11 and 2403·21, for the entry in column (4), the entry "Rs. 300 per thousand, or 175% *plus* Rs. 12 per thousand, whichever is higher" shall be substituted;

(2) in heading No. 51.06, in column (3), for the words "WOVEN FABRICS OF WOOL", the words, brackets and figures "WOVEN FABRICS OF WOOL (EXCLUDING HAIR BELTING, BLANKETS AND FABRICS OF WIDTH NOT EXCEEDING 15 CMS.)" shall be substituted;

(3) in heading No. 51·07,—

(*a*) in column (3), for the words "WOVEN FABRICS OF WOOL", the words, brackets and figures "WOVEN FABRICS OF WOOL (EXCLUDING HAIR BELTING, BLANKETS AND FABRICS OF WIDTH NOT EXCEEDING 15 CMS.)" shall be substituted;

(*b*) sub-heading No. 5107·10 and the entries relating thereto shall be omitted;

(*4*) in sub-heading Nos. 5903·19 and 5903·29, for the entry in column (4), the entry "5% *plus* Rs. 3 per sqaure metre *plus* the duty for the time being leviable on base fabrics, if not already paid" shall be substituted;

(*5*) heading No. 59.05 and the entries relating thereto shall be omitted.

PART II

Heading No.	Sub-heading No.	Description of goods	Rate of additional duty
(1)	(2)	(3)	(4)

In the First Schedule to the Additional Duties of Excise Act,—

(*a*) for heading Nos. 52.06, 52.07, 52.08, 52.09, 52.10 and 52.11 and the entries relating thereto, the following shall be substituted, namely:—

"52.06	5206.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),—	20% *plus* Rs. 5 per square metre
		(*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND	

(1)	(2)	(3)	(4)
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITH THE AID OF POWER OR STEAM	
52.07	5207.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10 AND 52.11),—	20% *plus* Rs. 5 per square metre
		(*a*) WOVEN ON LOOMS OTHER THAN HANDLOOMS, AND	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES WITHOUT THE AID OF POWER OR STEAM	
52.08	5208.00	COTTON FABRICS (EXCLUDING FABRICS COVERED UNDER HEADING NOS. 52.09, 52.10, 52.11 AND 52.12),—	20% *plus* Rs. 5 per square metre
		(*a*) WOVEN ON HANDLOOMS, AND	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES	
52 09	5209.00	COTTON FABRICS,—	20% *plus* Rs. 5 per square metre
		(*a*) WOVEN,	
		(*b*) SUBJECTED TO THE PROCESS OF BLEACHING, MERCERISING, DYEING, PRINTING, WATER-PROOFING, SHRINK-PROOFING, ORGANDIE PROCESSING OR ANY OTHER PROCESS OR ANY TWO OR MORE OF THESE PROCESSES,	
		(*c*) CONTAINING (*i*) COTTON, AND (*ii*) POLYESTER STAPLE FIBRE OR POLYESTER FILAMENT YARN, OR BOTH (BUT NOT CONTAINING ANY OTHER TEXTILE MATERIAL), AND	
		(*d*) IN WHICH THE PROPORTION OF POLYESTER STAPLE FIBRE OR FILAMENT YARN OR BOTH IS MORE THAN 40% BY WEIGHT OF THE TOTAL FIBRE CONTENT	

(1)	(2)	(3)	(4)

अधिसूचना

नई दिल्ली, 16 अक्तूबर, 1990

संख्या एफ. 2(131)-बी. (पी. बी.)/90--19 मार्च, 1990 को संसद् में यथा प्रस्तुत वार्षिक वित्तीय विवरण को, आम जानकारी के लिए, अब अन्तिम रूप में प्रकाशित किया जाता है।

2. 1990-91 के बजट-प्रस्तावों में 1990-91 में 1962.22 करोड़ रुपए प्राप्त होने का अनुमान लगाया गया था जो इस प्रकार है :--

	(करोड़ रुपए)
निगम कर	800.00
आयकर	--250.00
सीमा शुल्क	835.03
संघ उत्पाद शुल्क	390.19
अन्य कर और शुल्क	15.00
डाक टैरिफ	172.00
जोड़	1962.22

3. आयकर और संघ उत्पाद शुल्क के संबंध में बजट प्रस्तावों में से राज्यों के हिस्से का अनुमान क्रमशः (--)170.00 करोड़ रुपए और 173.07 करोड़ रुपए लगाया गया था।

4. तदनुसार उपरोक्त राशि में से केन्द्र के राजस्व में 1959.15 करोड़ रुपए की निवल वृद्धि होने का अनुमान लगाया गया था। राजस्व खाते में 13031.36 करोड़ रुपए का घाटा होने का अनुमान था। कुल घाटा 7205.95 करोड़ रुपए का अनुमान था।

5. वित्त विधेयक, 1990 में किए गए और संशोधनों का उपरोक्त प्राप्ति अनुमानों पर कोई निवल प्रभाव नहीं पड़ेगा।

6. 1990-91 के लिए अनुदानों की मांगें बिना किसी संशोधन के स्वीकृत कर दी गई थीं। परिणामतः राजस्व खाते में अनुमानित घाटे और कुल घाटे में कोई परिवर्तन नहीं हुआ है।

श्रीमती जानकी कठपालिया, संयुक्त सचिव (बजट)

(Department of Economic Affairs)

NOTIFICATION

New Delhi, the 16th October, 1990

No. F.2(131)-B (PB)/90.—The Annual Financial Statement as presented to Parliament on the 19th March, 1990 is now published in its final form for general information.

2. The proposals in the Budget for 1990-91 were estimated to yield to Rs. 1962.22 crores in 1990-91 as follows :—

	(In crores of Rupees)
Corporation tax	800.00
Income tax	—250.00
Customs	835.03
Union Excise Duties	390.19
Other Taxes and Duties	15.00
Postal Tariff	172.00
Total	1962.22

3. The States' share out of the proposals in the Budget relating to Income Tax and Union Excise duties was estimated at (—) Rs. 170.00 crores and Rs. 173.07 crores respectively.

4. The net accretion to the Centre's Revenue out of the above was accordingly estimated at Rs. 1959.15 crores. The deficit on Revenue Account was estimated at Rs. 13031.36 crores. The overall deficit was estimated at Rs. 7205.95 crores.

5. The further modification made to the Finance Bill, 1990 do not have any net effect on the above receipt estimates.

6. The Demands for Grants for 1990-91 were voted without modification. Consequently, there is no change in the estimated deficit on Revenue Account and in the overall deficit.

परिचायक-टिप्पणी

जहां तक व्यय संबंधी व्यवस्थाओं का संबंध है यह पुस्तक केन्द्रीय सरकार के बजट का एक व्याख्यात्मक ज्ञापन है । इसे चार भागों अर्थात्, भाग- I सामान्य, भाग- II आयोजना-भिन्न व्यय, भाग-III-आयोजना परिव्यय और भाग IV-अन्य में बांटा गया है । विवरण और अनुबन्ध, जो इस पुस्तक का एक हिस्सा है, स्वतः स्पष्ट है और उनका उल्लेख यथास्थान विनिर्दिष्टतः किया गया है । वाणिज्यिक विभागों/विभागीय वाणिज्यिक उपक्रमों के मामले में विभिन्न विवरणों में शामिल की गई व्यय व्यवस्थाएं वसूलियों और प्राप्तियों को घटाकर दिखाई गई है ताकि व्ययों/प्राप्तियों, दोनों के आंकड़ों का बहुत अधिक विस्तार न हो जाए । ऐसे विभागों/उपक्रमों के व्ययों/प्राप्तियों की विस्तृत जानकारी विवरण 7 में दी गई है । उसी प्रकार, राज्यों को दिए जाने वाले ऐसे अल्पावधिक ऋणों और अग्रिमों को, जिनको उसी वर्ष के दौरान वसूल कर लिया जाता है, घटाकर प्रदर्शित किया गया है। कतिपय लेनदेनों को, जिनके आधार पर किसी नकद रकम की निकासी नहीं होती और जिनको उतनी ही प्राप्तियों से बराबर रखा जाता है जैसे अन्तर्राष्ट्रीय मुद्रा कोष को दिए जाने वाले अंशदानों के संबंध में किया जाता है, वसूलियां घटाकर वास्तविक निवल राशियों के रूप में प्रस्तुत किया गया है ताकि व्यय की वास्तविक मदों पर पूर्णतः स्पष्ट रूप से ध्यान दिया जा सके ।

2. इस पुस्तक में प्रस्तुत बजट-व्यय के अनुमानों में, सामान्य बजट में से किए गए आयोजनागत निवेशों की मात्रा को छोड़ते हुए, रेलवे और दूर-संचार विभागों के लेन-देनों को सम्मिलित नहीं किया गया है। किन्तु संविधान के अनुच्छेद 112 के अन्तर्गत अलग से प्रस्तुत वार्षिक वित्तीय विवरण में केन्द्रीय सरकार के समस्त मंत्रालयों/विभागों का व्यय प्रदर्शित किया गया है।

3. संविधान के अनुच्छेद 113 के अन्तर्गत अलग से प्रस्तुत अनुदानों की मांगो के द्वारा संसद की स्वीकृति व्यय की "सकल" राशियों के लिए मांगी गई है, जिनमें उन "वसूलियों" को हिसाब में नहीं लिया गया है जिन्हें खातों में व्यय में से घटाकर प्रदर्शित किया जाता है। इन वसूलियों की राशियों को अनुदानों की सम्बद्ध मांगों में दिखा दिया गया है। खाते में प्रत्येक मुख्य शीर्ष के अन्तर्गत व्यय को, इन वसूलियों को हिसाब में लेने के बाद, वार्षिक वित्तीय विवरण में प्रदर्शित किया गया है। जैसे ऊपर बताया गया है, व्यय की विभिन्न मदों को समुचित रूप में स्पष्ट करने के लिए, इस पुस्तक में, कुछ और प्राप्तियों को भी और ज्यादा निवल रूप में निरूपित किया गया है। इस पुस्तक के अनुबंध- I में खाते के प्रत्येक मुख्य शीर्ष के अन्तर्गत "निवल" व्यय को ही दिखाया गया है। अनुबंध 2 के द्वारा, अनुबन्ध I में दिए गए जोड़ों और वार्षिक वित्तीय विवरण के साथ-साथ अनुदानों की मांगों में दिए गए व्यय के जोड़ों के बीच मिलान करके एकरूपता स्थापित की गई है।

INTRODUCTORY NOTES

This volume serves as the Explanatory Memorandum to the Budget of the Central Government in so far as the expenditure provisions are concerned. This is divided into four parts, viz, Part I - General, Part II – Non-Plan Expenditure Part III – Plan Outlay and Part IV-Others. The Statements and Annexures which form part of this volume are self-explanatory and have been referred to in the write-up at the appropriate places. The expenditure provisions included in the various Statements are net of the recoveries, and receipts in the cases of Commercial Departments/ Departmental Commercial Undertakings, so as not to inflate the figures of expenditure/ receipts. The details of expenditure/receipts of such Departments/ Undertakings are given in the Statement No.7. Similarly short-term loans and advances given to the States and recovered during the same year have also been netted. Certain transactions which do not involve cash outgo and are matched by receipts (e.g.) subscriptions to the International Monetary Fund have also been netted, so as to focus attention on real items of expenditure.

2. The estimates of budgetary expenditure in this document exclude the transactions of Railways and Telecommunications except to the extent of Plan investments made from the General Budget. The Annual Financial Statement presented separately under Article 112 of the Constitution, however, incorporates the expenditure of all the Central Government Ministries/ Departments.

3. The Demands for Grants presented separately under Article 113 of the Constitution seek the approval of Parliament for "gross" amounts of expenditure without taking into account "recoveries" taken in reduction of expenditure in the accounts. Amounts of these recoveries are also shown in the respective Demands for Grants. The expenditure under each major head of account is shown in the Annual Financial Statement after taking into account these recoveries. A further netting of some receipts is done in this document, as explained above, to facilitate proper appreciation of various items of expenditure. Annexure 1 to this document shows the "net" expenditure under each major head of account. Annexure 2 reconciles the totals of Annexure 1 and the expenditure totals in the Annual Financial Statement, as well as in the Demands for Grants.

भाग- I सामान्य
Part I - General

व्यय का सारांश विवरण-1 में और मंत्रालयों/विभागों द्वारा व्यय विवरण-2 में दर्शाया गया है ।

The Summary of Expenditure is given in Statement No.1, and the Expenditure by Ministries/Departments is given in Statement No.2

संशोधित अनुमान, 1989-90

वर्ष 1989-90 के व्यय के संशोधित अनुमानों में, बजट अनुमानों की तुलना में 5620 करोड़ रुपए की वृद्धि हुई है जिसमें से 4958 करोड़ रुपए आयोजना-भिन्न खाते में और 662 करोड़ रुपए आयोजना खाते के अन्तर्गत हैं। इस वृद्धि की मुख्य मदें इस प्रकार हैं:-

REVISED ESTIMATES, 1989-90

Revised Estimates of expenditure for 1989-90 show an increase of Rs.5620 crores over the Budget Estiamates, of which Rs.4958 crores are on Non-Plan account and Rs.662 crores are on Plan account. The main items of increase are indicated below :–

(करोड़ रुपए में) (*In crores of Rupees)*

		बजट Budget 1989-90	संशोधित Revised 1989-90	वृद्धि Increase
आयोजना-भिन्न	**Non-Plan**			
1. ब्याज संदाय	1. Interest Payments	17000	17710	710
2. रक्षा	2. Defence	13000	14500	1500
3. रक्षा पेंशनें	3. Defence Pensions	1350	1600	250
4. खाद्य संबंधी आर्थिक सहायता	4. Food Subsidy	2200	2476	276
5. उर्वरक संबंधी आर्थिक सहायता	5. Fertilizer subsidy	3651	4601	950
6. निर्यात संवर्धन और बाजार विकास सहायता	6. Export Promotion and Market Development Assistance	1621	2089	468
7. सरकारी उद्यमों के ऋणों को बट्टे खाते डालना	7. Write Off of Loans to Public enterprises	...	588	588
8. तकनीकी ऋण	8. Technical Credit	150	350	200
9. भोपाल गैस रिसाव त्रासदी के पीड़ितों को अन्तरिम राहत	9. Interim relief to victims of Bhopal Gas Leak disaster	...	320	320
10. अन्य	10. Others	15290	14986	(-) 304
कुल-जोड़	**Grand Total**	**54262**	**59220**	**4958**

वृद्धियों के निम्नलिखित कारण है :-

1. **ब्याज की अदायगियां—** मुख्यतः बाजार उधारो, लघु बचत जमा राशियों/पत्रों और भविष्य निधियों संबंधी अधिक राशि जमा हो जाने के कारण है।

2. **रक्षा —** रक्षा व्यय में यह वृद्धि प्रतिबद्धताओं और अन्य अनिवार्य अदायगियों की पूर्ति करने के लिए है।

3. **रक्षा पेंशनें —** यह वृद्धि 15 वर्ष के बाद पेंशन के परिणत मूल्य की बहाली के प्रभाव तथा 1 जनवरी, 1986 से परिवार के पेंशनरों सहित रक्षा पेंशनरों के लाभ के लिए विभिन्न उदारता उपायों के कारण है।

4. **खाद्य संबंधी आर्थिक सहायता —** यह वृद्धि भारतीय खाद्य निगम द्वारा पिछली अवधियों की हानियों के विनियमन के लिए बढ़ी हुई आवश्यकता के कारण है।

5. **उर्वरक संबंधी आर्थिक सहायता —** देशीय उर्वरकों पर आर्थिक सहायता में यह वृद्धि (650 करोड़ रुपए) उत्पादन में वृद्धि, उत्पादन निविष्टि लागतों में वृद्धि और पिछले वर्ष के बकाया दावों के कारण है। आयातित उर्वरकों पर आर्थिक सहायता (300 करोड़ रुपए) उर्वरकों की खपत संबंधी आवश्यकताओं को ध्यान में रखते हुए उर्वरकों की अतिरिक्त मात्रा आयात करने के कारण है।

6. **निर्यात संवर्धन और बाजार विकास सहायता—** यह वृद्धि निर्यात की मात्रा में वृद्धि, दरों में संशोधन तथा मदों के बढ़ाने और विनिमय दरों में उतार-चढ़ाव की वजह से निर्यातों के रुपए मूल्य में वृद्धि के कारण है।

7. **ऋणों को बट्टे खाते डालना —** यह वृद्धि दिल्ली परिवहन निगम, केन्द्रीय अन्तर्देशीय जल परिवहन निगम और भारी इंजीनियरी निगम के ऋणों (588 करोड़ रुपए) को बट्टे खाते में डाल कर पूंजी आधार की पुनः संरचना करने के कारण हुई है।

8. **तकनीकी ऋण—** यह वृद्धि रुपया व्यापार करारों के अंतर्गत चालू वर्ष के दौरान अनुमानित बकाया राशियों को पूरा करने के लिए है।

9. **भोपाल गैस रिसाव त्रासदी के पीड़ितों को अंतरिम सहायता —** संशोधित अनुमानों में यह व्यवस्था भोपाल गैस रिसाव त्रासदी के

The increases are due to the following reasons :–

1. **Interest Payments —** Mainly due to larger interest payments on Small Savings Deposits/Certificates and Provident Funds, due to larger accretions.

2. **Defence —** The increase in Defence expenditure is to meet commitments and other obligatory payments.

3. **Defence Pensions —** The increase is due toimpact of restoration of commuted value of pension after 15 years, as also the various liberalisation meausres for the benefit of defence pensioners including family pensioners from 1st January, 1986.

4. **Food Subsidy —** The increase is due to increased requirement for regularisation of losses of the Food Corporation of India for the earlier periods.

5. **Fertilizers subsidy —** The increase in subsidy on indegenous fertilizers (Rs. 650 crores) is due to increase in production, input costs and carry over claims from last year. Subsidy on imported fertiliser (Rs. 300 crores) is because of import of additional quantities of fertilisers taking into account the fertiliser consumption requirements.

6. **Export promotion and Market Development assistance —** The Increase is on account of increases in quantum of export, revision of rates and enlargement of the items as well as increase in rupee value of exports due to fluctuations in the exchange rate.

7. **Write off of loans —** The increase is due to the restructuring of the capital base of Delhi Transport Corporation, Central Inland Water Transport Corporation and Heavy Engineering Corporation by way of write off of loans to them (Rs. 588 crores).

8. **Technical Credits —** The increase is to cover the estimated outstandings at the end of the current year under Rupee Trade Agreements.

9. **Interim Relief to victims of Bhopal Gas Leak Disaster—**The provision in the Revised Estimates is to meet the

पीड़ितों को दी जाने वाली अंतरिम सहायता पर व्यय की पूर्ति के लिए है ।

10. **अन्य** — बचतें मुख्य रूप से मंहगाई भत्ते के लिए की गई एक-मुश्त व्यवस्था और विशेष समस्याओं, सेवाओं के उन्नयन और बाढ़ सहायता के लिए राज्यों को अनुदानों के वास्ते की गई व्यवस्थाओं में है, जो मुख्य रूप से अंशतः ब्याज सहायता के अंतर्गत वृद्धियों, सरकारी उपक्रमों को योजना-भिन्न ऋणों, अंतर्राष्ट्रीय मुद्रा कोष को देय प्रभारों और बदरपुर तापीय विद्युत केन्द्र पर निवल खर्च से अंशतः प्रतिसंतुलित हो गई है ।

expenditure on interim relief to victims of Bhopal Gas Leak Disaster.

10. **Others** — The savings are mainly in the lump sum provision made for Dearness Allowance and provisions made for grants to States for special problems, upgradation of services and flood assistance, partly off set by increases mainly under interest subsidies, Non-Plan loans to public enterprises, charges payable to IMF and net expenditure on Badarpur Thermal Power Station.

(करोड़ रुपए में) *(In crores of Rupees)*

		बजट Budget 1989-90	संशोधित Revised 1989-90	वृद्धि Increase
केन्द्रीय आयोजना	**CENTRAL PLAN**			
मंत्रालय/विभाग	*Ministry/Department*			
1. ग्रामीण विकास	1. Rural Development	2700	3083	383
2. आर्थिक कार्य	2. Economic Affairs	585	904	319
3. विद्युत	3. Power	1773	2082	309
4. इस्पात	4. Steel	620	791	171
5. शहरी विकास	5. Urban Development	120	265	145
6. औद्योगिक विकास	6. Industrial Development	340	407	67
7. कल्याण	7. Welfare	300	370	70
8. अन्य	8. Others	10526	10332	(-) 194
जोड़	**Total**	**16964**	**18234**	**1270**

1. **ग्राणीण विकास**— यह वृद्धि मुख्यतः जवाहर रोजगार योजना के लिए केन्द्र के अंशदान में बढ़ोतरी करने के कारण हुई है।

2. **आर्थिक कार्य**— यह वृद्धि मुख्यतः विदेशी सहायता प्राप्त परियोजनाओं के अंतर्गत आई डी बी आई, नाबार्ड इत्यादि को अधिक मात्रा में राशि दिए जाने के कारण है ।

3. **विद्युत** — यह वृद्धि मुख्यतः राष्ट्रीय पन-बिजली विद्युत निगम और विद्युत वित्त निगम में अतिरिक्त निवेश के कारण हुई है, जो अंशतः राष्ट्रीय ताप विद्युत निगम की कम आवश्यकताओं के कारण अंशतः प्रतिसंतुलित हो गई है ।

4. **इस्पात** — यह वृद्धि मुख्यतः राष्ट्रीय इस्पात निगम को उसके स्वीकृत योजना परिव्यय को पूरा करने के लिए अतिरिक्त बजट सहायता के कारण है ।

5. **शहरी विकास** — यह वृद्धि मुख्यतः नेहरू रोजगार योजना पर केन्द्र के खर्च के हिस्से की अदायगी के कारण है ।

6. **औद्योगिक विकास** — यह वृद्धि मुख्यतः चुने हुए पिछड़े क्षेत्रों में उद्योगों की स्थापना के लिए केन्द्र सबसिडी स्कीम के अंतर्गत बकाया दावों के निपटान के लिए राज्यों और संघ राज्य क्षेत्रों की सरकारों को अतिरिक्त राशि दिए जाने के कारण है ।

7. **कल्याण** — यह वृद्धि मुख्यतः अनुसूचित जातियों और अनुसूचित जनजातियों के संबंध में मैट्रिक के बाद छात्रवृति की दरों में बढ़ोतरी होने के कारण हुई है ।

8. **अन्य** — यह वृद्धि मुख्यतः कृषि, दूर-संचार, पेट्रोलियम और प्राकृतिक गैस तथा खानों के अंतर्गत हुई वृद्धियों के निवल प्रभाव के कारण है, जो अंशतः जल-भूतल परिवहन, अंतरिक्ष और शिक्षा में मुख्यतः हुई कमियों के कारण प्रतिसंतुलित हो गई है ।

1. **Rural Development** — The increase is mainly due to the decision to step up Centre's contribution to Jawahar Rojgar Yojna.

2. **Economic Affairs** — The increase is mainly on account of larger releases to IDBI, NABARD etc. under externally aided projects.

3. **Power**— The increase is mainly due to additional investments in National Hydro Electric Power Corporation and Power Finance Corporation, partly off set by lesser requirements of National Thermal Power Corporation.

4. **Steel** — Increase is mainly due to additional Budget support to Rashtriya Ispat Nigam to meet its approved Plan Outlay.

5. **Urban Development** — Increase is mainly due to payment of Centre's share of expenditure on Nehru Rojgar Yojna.

6. **Industrial Development** — Increase is mainly due to additional releases to States and UT governments to clear outstanding claims under the Central Subsidy Scheme for setting up of industries in selected backward areas.

7. **Welfare** — The increase is mainly due to enhancement of rates of post matric scholarships for scheduled castes and scheduled tribes.

8. **Others** — This is the net effect of increases mainly under Agriculture, Telecommunications, Petroleum and Natural Gas, and Mines, partly off set by shortfalls mainly in Surface Transport, Space and Education.

(करोड़ रुपए में) *(In crores of Rupees)*

		बजट Budget 1989-90	संशोधित Revised 1989-90	कमी Decrease
राज्य और संघ राज्य क्षेत्र योजनाओं के लिए केन्द्रीय सहायता	**CENTRAL ASSISTANCE FOR STATE AND U.T. PLANS**	10850	10242	608

यह बचत मुख्यतः सूखे संबंधी सहायता और विशेष केन्द्रीय सहायता के संबंध में कम आवश्यकताओं के कारण है ।

The saving is mainly due to lesser requirements for drought assistance and special central assistance.

बजट अनुमान 1990-91

BUDGET ESTIMATES, 1990-91

1989–90 के संशोधित अनुमानों की तुलना में बजट अनुमान 1990-91 में 6839 करोड़ रुपए की वृद्धि हुई है, जिसमें से 5123 करोड़ रुपए की वृद्धि आयोजना-भिन्न खाते के अंतर्गत और 1716 करोड़ रूपए की वृद्धि आयोजना खाते के अंतर्गत हुई है । आयोजना खाते में हुई वृद्धि का विस्तृत ब्यौरा इस पुस्तक के भाग-III-आयोजना परिव्यय में दिया गया है, जो वर्ष 1990-91 के लिए केन्द्रीय आयोजना में शामिल की गई विभिन्न परियोजनाओं, कार्यक्रमों और स्कीमों के लिए आयोजना-परिव्यय दर्शाता है ।

आयोजना भिन्न खाते के अन्तर्गत घटबढ़ वाली मुख्य मदें निम्नलिखित हैं :—

Budget Estimates, 1990-91 show an increase of Rs.6839 crores over Revised Estimates 1989-90, of which Rs.5123 crores are on Non-Plan account and Rs.1716 crores are on account of Plan. The details of the increases in the Plan account are indicated in Part III - Plan Outlay in this volume, which shows the Plan outlay for various projects, programmes and schemes included in the Central Plan for 1990-91.

The main items of variations under the Non Plan are indicated below :—

(करोड़ रुपए में) (*In crores of Rupees)*

		संशोधित Revised 1989-90	बजट Budget 1990-91	वृद्धि Increase
आयोजना भिन्न	**Non-Plan**			
1. ब्याज संदाय	1. Interest payments	17710	20850	3140
2. रक्षा	2. Defence	14500	15750	1250
3. किसानों के लिए ऋण राहत योजना	3. Scheme for debt relief to farmers	...	1000	1000
4. राज्यों को अनुदान	4. Grants to States	2215	2931	716
5. बिना विधान मंडल वाले संघ राज्य क्षेत्र	5. UTs without legislature	781	922	141
6. पुलिस	6. Police	1277	1394	117
7. मंहगाई भत्ते के लिए एक मुश्त व्यवस्था	7. Lump provision for DA	..	100	100
8. निर्यात संवर्धन और बाजार विकास सहायता	8. Export promotion and Market Development assistance	2089	2316	227
9. खाद्यान संबंधी आर्थिक सहायता	9. Food subsidy	2476	2200	(-) 276
10. उर्वरक संबंधी आर्थिक सहायता	10. Fertiliser subsidy	3771	3250	(-) 521
11. रक्षा पेंशनें	11. Defence Pensions	1600	1500	(-) 100
12. सरकारी उद्यमों के ऋणों को बट्टे खाते डालना	12. Write off of Loans to Public enterprises	588	..	(-) 588
13. अन्य	13. Others	12213	12130	(-) 83
जोड़	**Total**	**59220**	**64343**	**5123**

ये वृद्धियां निम्नलिखित कारणों से हुई हैं :—

1. **ब्याज** — मुख्यतः आंतरिक और विदेशी उधारों की अधिक मात्रा होने के कारण है ।

2. **रक्षा** — रक्षा व्यय में वृद्धि का कारण सामान्य बढ़ोतरी और प्रतिबद्धताओं को पूरा करने के लिए है ।

3. **किसानों को ऋण राहत स्कीम** — यह व्यवस्था किसानों को ऋण राहत स्कीम के अंतर्गत बैंकों को अदायगी करने के लिए है।

4. **राज्यों को अनुदान** — इस वृद्धि का मुख्य कारण संविधान के अनुच्छेद 275 (1) के अंतर्गत अनुदानों में वृद्धि और 1989-90 से हुई व्याप्ति तथा सरकार द्वारा यथा स्वीकृत नौवें वित्त आयोग की सिफारिशों के आधार पर, जो रेलयात्री किरायों की एवज में करों में हुई वृद्धि के कारण है ।

5. **बिना विधान मंडल वाले संघ राज्य क्षेत्रों पर व्यय** — यह वृद्धि मुख्यतः दिल्ली संघ राज्य क्षेत्र के संबंध में है ।

6. **पुलिस** — इस वृद्धि का कारण पुलिस बलों को सुदृढ़ करने से है।

7. **मंहगाई भत्ते के लिए एकमुश्त व्यवस्था** — यह व्यवस्था छोटे विभागों, जिनके सीमित बजट हैं, की संभावित आवश्यकताओं को पूरा करने के लिए है ।

8. **निर्यात संवर्धन और बाजार विकास सहायता** — इस वृद्धि का कारण निर्यातों में पूर्वानुमानित वृद्धि है ।

9. **खाद्य संबंधी आर्थिक सहायता**

10. **उर्वरक संबंधी आर्थिक सहायता**

11. **रक्षा पेंशनें** — अगले बजट में इस वृद्धि का कारण यह तथ्य है कि 1989-90 के संशोधित अनुमानों में बकाया राशियां शामिल हैं

The increases are due to the following reasons:

1. **Interest** — Mainly on account of larger quantum of borrowing, internal and external.

2. **Defence** — Increase in defence expenditure is due to normal growth and for meeting commitments.

3. **Scheme for debt relief to farmers** — The provision is for payment to banks under the Scheme of debt relief to farmers.

4. **Grants to States** — The increase is mainly due to increase in grants under article 275(1) of the Constitution including spill over from 1989-90 and also on account of increase in grant in lieu of tax on Railway passenger fares, based on the recommendations of the 9th Finance Commission as accepted by the Government.

5. **Expenditure on UTs without Legislature** — The increase mainly relates to the Union Territory of Delhi.

6. **Police** — Increase is due to strengthening of police forces.

7. **Lump provision for D.A.** — Provision is for meeting possible requirements of small departments with limited budgets.

8. **Export Promotion and Market Development assistance** — Increase is due to anticipated increase in the exports.

9. **Food Subsidy**
10. **Fertiliser subsidy**
11. **Defence Pensions**

The decrease in the next budget is due to the fact that the Revised Estimates for 1989-90 include arrears.

भाग-II

आयोजना-भिन्न व्यय, 1989-90

आयोजना-भिन्न व्यय शब्द का प्रयोग सरकार के ऐसे सारे व्यय के बारे में किया जाता है, जो आयोजना में शामिल नहीं होता । इसमें विकासात्मक और गैर-विकासात्मक दोनों प्रकार का व्यय शामिल होता है । व्यय का कुछ भाग अनिवार्य देनदारियों से सम्बन्धित होता है, जैसे ब्याज सम्बन्धी अदायगियां, पेंशन प्रभार और राज्यों को सांविधिक अन्तरण । व्यय का अन्य भाग राज्य के दायित्वों के सम्बन्ध में होता है अर्थात रक्षा और आन्तरिक सुरक्षा । इसके अलावा, केन्द्र की कुछ विशेष जिम्मेदारियां हैं, जैसे विदेश कार्य, और करेंसी तथा टकसाल, और अन्य विकासशील देशों के साथ सहयोग । पिछली आयोजनाओं की अवधि में निर्मित परिसम्पत्तियों के अनुरक्षण पर किया जाने वाला व्यय भी आयोजना-भिन्न माना जाता है । इसी प्रकार किसी एक आयोजना की अवधि में प्राप्त स्तरों पर जारी सेवाओं और गतिविधियों पर होने वाला व्यय अगली आयोजना में आयोजना-भिन्न के रूप में शामिल किया जाता है, जैसे शिक्षा और स्वास्थ्य सम्बन्धी सुविधाएं, पहले से चालू अनुसंधान परियोजनाएं और बिजली घरों का प्रचालन व्यय । इस प्रकार, जैसे-जैसे अधिक आयोजनाएं पूरी होती जाती हैं, वैसे ही निर्मित सुविधाओं तथा सेवाओं के अनुरक्षण और प्रचालन पर होने वाले खर्च की बहुत बड़ी राशि, आयोजना के वित्तपोषण के वास्ते लिए गए उधारों पर ब्याज के अलावा, आयोजना-भिन्न व्यय में बढ़ती जाती है ।

स्थूल श्रेणीवार आयोजना-भिन्न व्यय के ब्यौरे विवरण सं. 4 में दिए गए हैं ।

योजना आयोग द्वारा जारी किए गए मार्गदर्शी सिद्धान्तों के अर्न्तगत, उस योजना के दौरान जो 31.3.1990 को समाप्त होती है, पूरी की गई विकास योजनाओं के अनुरक्षण से संबंधित सातवीं योजना में किए गए व्यय/परिव्ययों की कुछ मदों को 1.4.1990 से प्रतिबद्ध आयोजना-भिन्न व्यय के रूप में माना गया है । विवरण 4 में शामिल और संलग्न विवरणों में शामिल व्यय के प्रावधान में 427.74 करोड़ रुपए की राशि प्रतिबद्ध आयोजना-भिन्न व्यय के रूप में शामिल है ।

1989-90 के बजट में शामिल की गई आयोजना-भिन्न व्यय की महत्वपूर्ण मदों की जानकारी निम्नलिखित पैराग्राफों में दी गई है ।

1. ब्याज सम्बन्धी अदायगियां *(20850 करोड़ रुपए)*

इनका सम्बन्ध आन्तरिक ऋण पर ब्याज *(9240.31 करोड़ रुपए)* से है, जिसमें मुख्यतः बाजार ऋण और राजकोष हुंडियों पर बट्टा *(7468.38 करोड़ रुपए)*, विदेशी ऋण *(1625.57 करोड़ रुपए)*, अल्प बचत जमा और बचत पत्र *(4059.68 करोड़ रुपए)*, गैर-सरकारी कर्मचारियों की भविष्य निधियों की जमा सहित भविष्य निधियां *(5558.38 करोड़ रुपए)*, सरकार के वाणिज्यिक विभागों की आरक्षित निधियां *(115.97 करोड़ रुपए)*, शामिल हैं, जिनमें सरकारी क्षेत्र की एजेंसियों की सरकार के पास जमा राशियों सहित, अन्य दायित्व *(250.09 करोड़ रुपए)* शामिल हैं ।

2. रक्षा *(15750 करोड़ रुपए)*

इसमें रक्षा सेवाओं पर होने वाला राजस्व और पूंजी व्यय, राजस्व प्राप्तियों को घटाकर, शामिल है । इसके घटक ये हैं- थल सेना *(7910.15 करोड़ रुपए)*, नौ सेना *(877.00 करोड़ रुपए)*, वायु सेना *(2017.76 करोड़ रुपए)*, आयुध कारखाने *(143.20 करोड़ रुपए)* और उपर्युक्त सभी सेवाओं का पूंजी परिव्यय *(4801.89 करोड़ रुपए)* ।

3. आर्थिक सहायता *(10623.67 करोड़ रुपए)*

(i) खाद्य संबंधी आर्थिक सहायता (2200 करोड़ रुपए):- भारतीय खाद्य निगम सरकार द्वारा समय-समय पर निर्धारित खरीद मूल्यों पर केन्द्रीय पूल के लिए खाद्यान्नों की खरीद करता है । ये अनाज (क) सार्वजनिक वितरण प्रणाली के माध्यम से जनता को, (ख) आटे की रोलर मिलों और (ग) ग्रामीण रोजगार कार्यक्रम और अन्य राहत योजनाओं के लिए सरकार द्वारा निर्धारित निर्गम मूल्यों पर दिए जाते हैं । आर्थिक लागत और निर्गम मूल्य के बीच के अन्तर की प्रतिपूर्ति निगम को उपभोक्ता सम्बन्धी आर्थिक

PART-II

NON-PLAN EXPENDITURE 1990-91

Non-Plan expenditure is a generic term used to cover all expenditure of Government not included in the Plan. It includes both developmental and non-developmental expenditure. Part of the expenditure is obligatory in nature e.g. interest payments, pensionary charges and statutory transfers to States. Part of the expenditure is an essential obligation of a State e.g. Defence and internal security. Then, there are special responsibilities of the Centre like external affairs, and currency and mint, and co-operation with other developing countries. Expenditure on maintaining the assets created in previous Plans is also treated as Non-plan expenditure. Similarly, expenditure on continuing services and activities at levels already reached in a Plan period is shifted to Non-plan in the next Plan e.g. educational and health facilities, continuing research projects and operating expenses of power stations. Thus, as more Plans are completed a large amount of expenditure on operation and maintenance of facilities and services created gets added to Non-plan expenditure, besides the interest on borrowings to finance the Plan.

Details of Non-Plan Expenditure by broad categories are given in the Statement No.4.

Under the guidelines issued by the Planning Commission, certain items of expenditure/outlays incurred in the Seventh Plan, connected with maintenance of development schemes completed during that plan period which ends on 31.3.90 are treated as committed non-plan expenditure from 1.4.90. The expenditure provisions for Non-Plan for 1990-91 included in Statement No.4 and in the connected Statements, include an amount of Rs.427.74 crores as committed Non-Plan expenditure.

Important items of Non-plan expenditure included in the Budget for 1990-91 are indicated in the following paragraphs.

1. INTEREST PAYMENTS *(Rs. 20850 crores)*

These relate to interest on internal debt *(Rs.9240.31 crores* which mainly comprise market loans and discount on Treasury bills) *(Rs.7468.38 crores)*; external debt *(Rs.1625.57 crores)*, small savings deposits and certificates *(Rs.4059.68 crores)*, Provident funds including deposits of provident funds of non-Government employees *(Rs.5558.38 crores)* Reserve funds of commercial departments of Government *(Rs.115.97 crores)* and other obligations *(Rs.250.09 crores)* which include deposits of public sector agencies lodged with Government.

2. DEFENCE *(Rs.15750 crores)*

This includes revenue and capital expenditure on Defence Services net of revenue receipts. The components are Army *(Rs.7910.15 crores)*, Navy *(Rs.877.00 crores)*, Air Force *(Rs.2017.76 crores)*, Ordnance factories *(Rs.143.20 crores)* and capital outlay on all the above services *(Rs.4801.89 crores)*.

3. SUBSIDIES *(Rs. 10623.67 crores)*

(i) Food subsidy (Rs. 2200 crores) :– The Food Corporation of India purchases foodgrains for the central pool on procurement prices fixed by government from time to time. These grains are issued to (a) public through public distribution system (b) roller flour mills and (c) for rural employment programme and other relief schemes at issue prices fixed by Government. The difference between economic cost and the issue price is reimbursed to the Corporation as consumer subsidy. The

सहायता के रूप में की जाती है । निगम सरकार की ओर से सकट-निरोधक (बफर) भंडार भी रखता है और इसे रखने की लागत की, जिसमे उठाने-धरने और भंडारण का खर्च, ब्याज और प्रशासनिक प्रभार शामिल है, प्रतिपूर्ति की जाती है । जिन महत्वपूर्ण घटकों के आधार पर आर्थिक सहायता का अनुमान लगाया गया है, वे निम्नानुसार हैं-

Corporation also carries buffer stock on behalf of Government and is reimbursed the carrying cost including handling, storage, interest and administrative charges. Important parameters on which the subsidy estimate has been framed are :

		(लाख टन *in lakh tonnes*)	
		गेहूं **Wheat**	चावल **Rice**
खरीद	Procurement	110.00	95.00
बिक्री	Offtake	85.00	85.00
औसत सकट निरोधक भण्डार	Average buffer stock	38.48	14.22
		(प्रति क्विंटल दर, रुपयों में *Rate per quintal in rupees*)	
खरीद लागत और खरीद सम्बन्धी आनुषंगिक व्यय	Purchase cost and procurement incidental	240.61	344.63
वितरण लागत (समूहीकृत)*	Distribution cost (pooled)*	74.60	74.60
कुल आर्थिक लागत*	Total economic cost*	315.27	419.23
बिक्री से प्राप्त राशि (औसत)	Sales Realisation (Average)	119.05	291.20
उपभोक्ता संबंधी आर्थिक सहायता*	Consumer subsidy*	116.22	128.03
		वितरण लागत *Distribution cost*	लाने-ले जाने की लागत *Carrying cost*
ब्यौरे	*Details*		
भाड़ा	Freight	31.92	..
उठाना-धरना	Handling	8.02	6.02
भंडारण	Storage	7.38	22.13
ब्याज	Interest	20.50	9.91
प्रशासन संबंधी ऊपरी खर्च	Administrative overheads	6.78	5.09
*इसमे भंडारण और परिवहन संबंधी हानियां शामिल नहीं हैं ।	**Exclude storage and transit losses*	*74.60*	*43.15*

(ii) उर्वरकों पर आर्थिक सहायता (4000 करोड़ रुपए)

(क) देशी उर्वरक (3250 करोड़ रुपए):- देशी उर्वरकों के सम्बन्ध में प्रतिधारण मूल्य योजना 1977 से लागू है । इस योजना का उद्देश्य किसानों को उचित मूल्यों पर उर्वरक उपलब्ध कराना और उर्वरकों के उत्पादकों को उनके निवेश पर उपयुक्त प्रतिलाभ दिलाना है । उर्वरक समय-समय पर निर्धारित निर्गम मूल्यों पर बेचे जाते हैं ।

प्रतिधारण मूल्य योजना के अन्तर्गत निवल धनराशि पर 12 प्रतिशत के प्रतिलाभ की अनुमति है, यदि विनिर्माता अपने संयंत्र का प्रचालन, अमोनिया संयंत्र के 80 प्रतिशत क्षमता का उपयोग करते हुए करें और निविष्टियों के उपयोग के मानदंडों का पालन करें । वितरण मार्जिन को घटाकर, इस प्रकार निर्धारित प्रतिधारण मूल्य और सांविधिक रूप से नियंत्रित उपभोक्ता मूल्य के बीच के अन्तर के सम्बन्ध में आर्थिक सहायता दी जाती है । प्रतिधारण मूल्य प्रत्येक संयंत्र के लिए मूल्य निर्धारण की अवधि के लिए निश्चित किया जाता है । तथापि, मूल्य निर्धारण की अवधि के दौरान प्रमुख निविष्टियों में होने वाली घट-बढ़ को देखते हुए आवश्यक समायोजन किए जाते हैं । अतएव आर्थिक सहायता की मात्रा प्रतिधारण मूल्य, उपभोक्ता मूल्य और उत्पादन के स्तर पर निर्भर होती है । इसके अलावा, विनिर्माताओं को कारखाने से वितरण के स्थान तक उर्वरकों को ले जाने के भाड़े के सम्बन्ध में भी आर्थिक सहायता दी जाती है ।

(ख) आयातित उर्वरक (750 करोड़ रुपए) :- चूंकि देशी उत्पादन उर्वरकों की मांग को पूरा करने के लिए पर्याप्त नहीं है, इसलिए कमी को पूरा करने के लिए आयात किया जाता है । मुख्यतः उर्वरकों की तीन किस्में अर्थात् यूरिया, डाइ अमोनियम फास्फेट और म्यूरिएट आफ पोटाश आयात की जाती है । ये अनुमान सम्भावित आयात पर आधारित हैं।

(iii) निर्यात संवर्धन (2316 करोड़ रुपए):- इसमें निर्यात-उत्पादों और संभावित निर्यात के लिए नकद प्रतिपूरक समर्थन के रूप में बाजार विकास सहायता, संभावित निर्यात के लिए शुल्क की वापसी के बदले पूरक नकद प्रतिपूरक समर्थन *(2095 करोड़ रुपए)*, पात्र संस्थाओं को बैंकों द्वारा दिए जाने वाले निर्यात वित्त के ब्याज-प्रभारों में 1.5 प्रतिशत की आर्थिक सहायता देने के लिए निर्यात ऋण सुविधा *(200 करोड़ रुपए)*, और निर्यात संवर्धन परिषदों आदि को सहायता अनुदान *(21 करोड़ रुपए)* शामिल हैं ।

अन्य आर्थिक सहायताओं के ब्यौरे विवरण संख्या 6 में दिए गए हैं । दो प्रमुख मदें जिनके संबंध मे व्यवस्था की गई है, नीचे दी गई है :-

(क) रेलवे *(278.75 करोड़ रुपए)*

रेलवे कन्वेंशन समिति की सिफारिशों के रूप में रेलवे की अनेक मदों पर सामान्य राजस्व लाभांश की अदायगी के संबंध में रियायतें दी गई हैं । इनके बारे में प्राप्ति बजट में स्पष्ट रूप से बताया गया है । सामरिक महत्व की लाइनों के कार्य संचालन संबंधित हानियों को छोड़कर रेलवे की

(ii) Subsidy on fertilisers (Rs.4000 crores)

(a) Indigenous fertilisers (Rs.3250 crores) :– A retention price scheme for indigenous fertilizers is in operation since 1977. This scheme is intended to make fertilizers available to the farmers at reasonable prices and give producers of fertilizers a reasonable return on their investment. The fertilizers are sold at issue prices fixed from time to time.

The retention price scheme allows a 12% return on net worth if the manufacturers operate their plant at capacity utilisation of ammonia plant at 80% and observe the input consumption norms. The difference between the retention price so fixed less distribution margin and the statutorily controlled consumer's price is allowed as subsidy. The retention price is fixed for each plant over the pricing period. Necessary adjustments are, however, made during the pricing period on account of variation in the prices of major inputs. The quantum of subsidy, therefore, depends on the retention price, the consumers' price and the level of production. In addition, the manufacturers are also allowed freight subsidy for movement of fertilisers from factory to delivery points.

(b) Imported fertilizers (Rs.750 crores) :– As indigenous production is not adequate to meet the demand for fertilisers, imports are arranged to make up the shortfall. Mainly, three varieties of fertilizers viz. Urea, Di - ammonium phosphate and Muriate of Potash, are imported. The estimates are based on the likely imports .

(iii) Export promotion (Rs. 2316 crores) :– This comprises market development assistance in the form of cash compensatory support for export products and deemed exports, supplementary cash compensatory support in lieu of duty drawback for deemed exports *(Rs. 2095 crores)*, export credit facilities to provide subsidy of 1.5% in interest charges on export finance provided by banks to eligible institutions *(Rs.200 crores)* and grants-in-aid to export promotion councils etc *(Rs. 21 crores)*.

The details of other subsidies are given in the Statement No.6. Two major items for which the provisions are made are explained below:-

(a) Railways *(Rs. 278.75 crores)*

In terms of the recommendations of the Railway Convention Committee, the Railways have been given concesions in payment of dividend to general revenues on a number of items. These have been explained in the Receipts Budget. The dividend concessions, except

लाभांश रियायत सामान्य बजट से आर्थिक सहायता के रूप में उपलब्ध कराई जाती है।

(ख) मिल का बना कपड़ा और हथकरघों पर बना कपड़ा *(230.50 करोड़ रुपए)*: वस्त्रोद्योग और वस्त्रों पर लगाए गए अतिरिक्त उत्पाद शुल्क से प्राप्त होने वाली आय से वित्तपोषित एक स्कीम के अन्तर्गत उपभोक्ता को मिल निर्मित कंट्रोल का कपड़ा और हथकरघा क्षेत्र में उत्पादित धोतियां और साड़ियां भी रियायती दरों पर उपलब्ध कराई जाती हैं। यह आर्थिक सहायता धोतियों के लिए 2 रुपए प्रति वर्ग मीटर और लट्ठे के लिए 1.50 रुपए प्रति वर्ग मीटर और पोलिएस्टर सूत मिश्रित शर्टिंग के लिए 3.70 रुपए प्रति वर्ग मीटर तक दी जाती है। इस स्कीम के अन्तर्गत 1990-91 में 7000 लाख वर्ग मीटर कपड़ा शामिल किया जाना है। हथकरघा कपड़े पर आर्थिक सहायता के लिए 220.50 करोड़ रुपए, जबकि मिल निर्मित कपड़े के लिए 10.00 करोड़ रुपए की व्यवस्था की गई है।

(iv) ब्याज संबंधी आर्थिक सहायता *(391.29 करोड़ रुपए)*:- सरकार द्वारा स्वीकृत ऋणों पर ब्याज की अदायगी सामान्यतः समय-समय पर निर्धारित दरों पर की जाती है। उन विशेष मामलों में, जहां किसी पार्टी को ब्याज की दरों में रियायत दी जाती है अथवा जहां ऋणकर्ता को ऋण पर ब्याज की अदायगी से छूट दी जाती है, वहां ब्याज के बदले आर्थिक सहायता दी जाती है। आर्थिक सहायता के बराबर की राशि को सरकार की ब्याज-प्राप्ति मान लिया जाता है।

ब्याज की कम दरों की अनुमति खादी और ग्रामोद्योगों को दिए जाने वाले ऋणों के लिए दी जाती है। कुछ विशेष सरकारी उद्यमों जैसे, भारतीय इस्पात प्राधिकरण, दिल्ली परिवहन निगम, केन्द्रीय अन्तर्देशीय जल परिवहन निगम के पूंजी आधार को पुनर्गठित करने के भाग के रूप में भी ब्याज संबंधी छूट दी गई है।

ब्याज संबंधी आर्थिक सहायताओं के ब्यौरे विवरण संख्या 5 में दिए गए हैं।

4. डाक सम्बन्धी घाटा *(84.00 करोड़ रुपए)*

यह डाक सेवाओं के निवल घाटे का द्योतक है। विभाग का अनुमानित कार्यचालन व्यय 1056.00 करोड़ रुपए और प्राप्तियां 972.00 करोड़ रुपए है (इसमें ए.आर.एम. के 172 करोड़ रुपए शामिल हे।) और इस प्रकार कुल 84.00 करोड़ रुपए का घाटा रह जाता है।

5. सामान्य सेवाएं

(क) राज्य के अंग *(363.97 करोड़ रुपए)*:- इसमें संसद *(26.20 करोड़ रुपए)*, राष्ट्रपति/उपराष्ट्रपति *(2.60 करोड़ रुपए)*, मंत्रिपरिषद *(13.63 करोड़ रुपए)*, न्याय प्रशासन *(7.90 करोड़ रुपए)* निर्वाचन *(64.14 करोड़ रुपए)* और लेखा-परीक्षा विभाग *(242.97 करोड़ रुपए)* के लिए व्यवस्था की गई है।

(ख) कर-संग्रह *(574.36 करोड़ रुपए)*- यह व्यवस्था कर संग्रह एजेंसियों के व्यय के लिए है और यह मुख्यतः आयकर विभाग *(222.70 करोड़ रुपए)*, सीमाशुल्क *(170.63 करोड़ रुपए)* और केन्द्रीय उत्पाद शुल्क *(177.65 करोड़ रुपए)* के सम्बन्ध में है।

(ग) अनिवार्य जमा पर ब्याज *(55 करोड़ रुपए)*:- *यह व्यवस्था* अनिवार्य जमा (आयकर दाता) योजना के अन्तर्गत अनिवार्य जमा पर ब्याज की अदायगी यथास्थिति, देय किस्तों की वापसी-अदायगी अथवा जमा राशि की परिपक्वता-पूर्व वापसी-अदायगी के लिए की गई है।

(घ) अन्तर्राष्ट्रीय मुद्रा कोष को देय प्रभार *(182.98 करोड़ रुपए)*:- इनका सम्बन्ध अन्तर्राष्ट्रीय मुद्रा कोष की विस्तारित निधि सुविधा के अन्तर्गत 39000 लाख विशेष आहरण अधिकारों के समतुल्य ली गई विदेशी मुद्रा कोष को देय प्रभारों से है।

(ङ) पुलिस *(1393.97 करोड़ रुपए)* :- यह व्यवस्था विभिन्न पुलिस बलों के लिए है। इसमें केन्द्रीय रिजर्व पुलिस के लिए 380.00 करोड़ रुपए, सीमा सुरक्षा बल के लिए 542.71 करोड़ रुपए, असम राइफल के लिए 158.75 करोड़ रुपए, केन्द्रीय औद्योगिक सुरक्षा बल के लिए 134.00 करोड़ रुपए, भारत तिब्बत सीमा पुलिस के लिए 97.25 करोड़ रुपए और केन्द्रीय जांच ब्यूरो के लिए 17.75 करोड़ रुपए की व्यवस्था शामिल है।

(च) विदेश कार्य *(281.33 करोड़ रुपए)*:- यह व्यय मुख्यतः विदेशों में स्थित दूतावासों और मिशनों तथा विशेष राजनयिक व्यय के लिए है।

(छ) पेंशनें *(1997.35 करोड़ रुपए)* :- इसमें रक्षा सेवाओं *(1500.00 करोड़ रुपए)* और अन्य सिविल विभागों *(497.35 करोड़ रुपए)* के सेवा-निवृत्त कार्मिकों की पेंशनें और अन्य सेवा-निवृत्ति लाभ शामिल हैं।

that relating to loss in the working of strategic lines is provided to Railways in the form of subsidy from general revenues.

(b) Mill made and handloom cloth ***(Rs.230.50 crores)*:** Under a scheme financed from the proceeds of additional excise duties levied in textiles and textile articles, the consumer is supplied mill made controlled cloth and also dhoties and sarees produced in the handloom sector at subsidised rates. The subsidy is at Rs.2 per square metre for dhoties and Rs.1.50 per sq. metre for long cloth and upto Rs.3.70 per sq. metre for polyster cotton blended shirting. The scheme is to cover 700 million sq. metre of cloth in 1990-91. Provision for subsidy on handloom cloth is Rs.220.50 crores, while that for mill-made cloth is 10.00 crores.

(iv) Interest subsidies (Rs.391.29 crores) :– Interest on loans sanctioned by the Government is normally payable at the rates prescribed from time to time. In specific cases where a concession is allowed in the rate of interest to a party or where the loanee is exempted from payment of interest on the loans, subsidies are paid in lieu of interest. An amount equal to the subsidy is taken as interest receipt of the Government.

Subsidised interest rates are allowed on loans for khadi and village industries. Interest exemption has also been allowed as a part of restructuring of capital base of certain public enterprises like Steel Authority of India Delhi Transport corporation the Central Inland Water Transport Corporations.

Details of interest subsidies are given in Statement No.5.

4. POSTAL DEFICIT *(Rs. 84.00 crores)*

This represents the net deficit of the Postal services. Working expenses of the Department are estimated at Rs.1056.00 crores and receipts at Rs. 972 crores (including A.R.M. of Rs.172 crores) leaving a deficit of Rs. 84.00 crores.

5. GENERAL SERVICES

(a) Organs of State (Rs.363.97 crores):– The main provisions are for Parliament *(Rs.26.20 crores)*, President/Vice President *(Rs.2.60 crores)*, Council of Ministers *(Rs.13.63 crores)*, Administration of Justice *(Rs.7.90 crores)*, Election *(Rs.64.14 crores)* and Audit Department *(Rs. 242.97 crores)*.

(b) Tax Collection (Rs. 574.36 crores) :–The provisions are for the expenditure of tax collecting agencies, and relate mainly to Income tax department *(Rs.222.70 crores)*, Customs *(Rs.170.63 crores)* and Central Excise *(Rs. 177.65 crores)*.

* इसमें (वसूलियों को घटाकर) कृषि निविष्टियों के लिए अल्पावधि उधार शामिल हैं ।
* Includes short term loans for agricultural inputs (net of recoveries)

** इसमें प्राप्तियां घटाने के बाद लघु बचत संबंधी उधार और अर्थोपाय अग्रिम शामिल नहीं हैं जो वसूलियों से प्रतिसंतुलित हो गए हैं।
** Excludes small savings loans netted against receipts and ways and means advances matched by recoveries

खण्ड — III

आयोजना परिव्यय 1990-91

इस भाग में 1990-91 की केन्द्रीय आयोजना में शामिल विभिन्न परियोजनाओं, कार्यक्रमों और स्कीमों के लिए आयोजना-परिव्यय का ब्यौरा दिया गया है। केन्द्रीय आयोजना 1990-91 के सारांश में आयोजना परिव्यय का ब्यौरा इस प्रकार दिया गया है : (i) विभिन्न क्षेत्रों के अंतर्गत विकास क्षेत्रों और विकास शीर्षों के अनुसार, और (ii) मंत्रालय/विभाग-वार आबंटन। वास्तविक लक्ष्यों का संबंध, जहां कहीं वे दिए गए हों, समूचे आयोजना-परिव्यय से है और इसमें बजट सहायता तथा आन्तरिक और बजटेत्तर साधन दोनों शामिल हैं। विभिन्न परियोजनाओं, कार्यक्रमों और स्कीमों के कार्यनिष्पादन का और अधिक विश्लेषण कार्यनिष्पादन बजटों में दिया गया है, जो मंत्रालयों/विभागों द्वारा अलग से प्रस्तुत किए जाएंगे जिनका उस विकास व्यय से संबंध है। जहां कहीं आवश्यक समझा गया है, वहां बजट अनुमान 1989-90 और संशोधित अनुमान 1989-90 में हुई मुख्य-मुख्य घटबढ़ के कारणों का भी उल्लेख किया गया है।

1989-90 के केन्द्रीय आयोजना परिव्यय के मुकाबले 1990-91 के आयोजना परिव्यय में की गई व्यवस्था इस प्रकार है :

PART – III

PLAN OUTLAY 1990-91

This part depicts the Plan outlay for various projects, programmes and schemes included in the Central Plan for 1990-91. The summary of the Central Plan 1990-91 gives Plan outlays (i) by sectors of development and heads of development under the various sectors and (ii) Ministry/Department-wise allocations. The physical targets, wherever given, are relatable to the entire Plan outlay which includes both the budgetary support and the internal and extra budgetary resources (IEBR). A more detailed analysis of the performance of various projects, programmes and schemes will be available in the Performance Budgets which will be separately presented by the Ministries/Departments dealing with developmental expenditure. The reasons for major variations in the outlays between the BE 1989-90 and RE 1989-90 under each head of development, wherever deemed necessary, have also been high-lighted.

The Central Plan outlay for 1990-91 compares with the outlay for 1989-90 as under:

(करोड़ रुपए *Rupees in Crores*)

		बजट अनुमान Budget Estimates 1989-90	संशोधित अनुमान Revised Estimates 1989-90	बजट अनुमान Budget Estimates 1990-91
केन्द्रीय आयोजना के लिए बजट व्यवस्था	Budgetary support for Central Plan	16963.62	18234.16	17343.82
सरकारी उद्यमों के आन्तरिक और बजटेत्तर संसाधन	Internal and extra budgetary resources of Public Enterprises	17482.35	17478.77	21985.44

राज्यों और संघ राज्य क्षेत्रों की आयोजनाओं के लिए बजट में दर्शायी गई केन्द्रीय सहायता	**Central assistance for States and Union Territories' Plans as reflected in the Budget**	**10850.00**	**10241.61**	**12848.37**
सूखे के लिए अग्रिम आयोजना सहायता	Advance Plan assistance for drought	400.00	100.00	...
अन्य	Others	10450.00	10141.61	12848.37

कृषि और संबंधित गतिविधियां

फसल की देखभाल : इस शीर्ष के अंतर्गत सभी फसल प्रधान कार्यक्रमों तथा खाद्यान, दालों तथा तेलहनों के उत्पादन के लिये पर्याप्त निवेश को सुनिश्चित करने तथा उत्पादन संबंधी साधनों के वैकल्पिक प्रयोग पर बल दिया गया है। विशेष खाद्यान उत्पादन कार्यक्रम, राष्ट्रीय दाल विकास कार्यक्रम, राष्ट्रीय तेलहन विकास कार्यक्रम, तेलहन उत्पादन बल कार्यक्रम तथा मिनिकिट कार्यक्रमों को जारी रखने और उन्हें सुदृढ़ बनाने का भी प्रस्ताव है। जल-विभाजन के आधार पर वर्षा पर आश्रित कृषि के विकास तथा छोटे, सीमान्तिक, मध्यम तथा अर्द्ध-सीमान्तिक किसानों को सहायता संबंधी कार्यक्रमों को भी प्राथमिकता दी गई है। इसमें विस्तार और प्रशिक्षण, सांख्यिकी, बीजों, उर्वरकों, पौधों के रख रखाव, कृषि संबंधी औजार और मशीनें, बागवानी और फसल बीमा आदि के लिए परिव्यय शामिल है। 437.87 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले, वर्ष 1989-90 के लिए 503.92 करोड़ रुपए का संशोधित परिव्यय रखा गया है। वर्ष 1990-91 के लिए 488.89 करोड़ रुपए का परिव्यय रखा गया है।

भूमि और जल संरक्षण : इस शीर्ष के अधीन किए गए परिव्यय में मुख्यतः इनके लिए व्यवस्था की गई है :- मुख्य नदी घाटी परियोजनाओं के जल-ग्रहण क्षेत्रों में भूमि के कटाव को कम करने के लिए भूमि और जल संरक्षण उपाय, मृदा मिश्र का संरक्षण और जलाशयों में गाद को रोकना, और सिन्धु-गंगा बेसिन में बाढ़ की आशंका वाली नदियों के जल ग्रहण क्षेत्र में समन्वित जलक्षेत्र प्रबन्ध करना और दस्यु प्रभावित क्षेत्रों के लिए खड्ड-भूमि सुधार कार्यक्रम। 40.50 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले, 1989-90 के लिए 42.50 करोड़ रुपए का संशोधित परिव्यय रखा गया है। वर्ष 1990-91 के लिए 57.00 करोड़ रुपए का परिव्यय रखा गया है।

पशुपालन : पशु-विकास के सामान्य रूप से दो उद्देश्य हैं। पहला बढ़ती हुई आबादी के लिए जानत्य प्रोटीन को पर्याप्त मात्रा में उपलब्ध करना और दूसरा, कृषि उत्पादन की वृद्धि बनाए रखने के लिए पर्याप्त पशु-शक्ति प्रदान करना है। 39.00 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले, वर्ष 1989-90 के लिए 35.21 करोड़ रुपए का संशोधित

AGRICULTURE AND ALLIED ACTIVITIES

Crop Husbandry : The major thrust under this head is on all the crop oriented programmes while ensuring adequate investment flows for production of cereals, pulses and oilseeds based on optimal use of production resources. The Special Foodgrains Production Programme, National Pulses Development Programme, National Oilseeds Development Programme, Oilseeds Production Thrust Programme and the Minikit Programmes are proposed to be continued and strengthened. Priorities have also been assigned for development of rainfed agriculture on watershed basis and assistance to small, marginal, medium and semi-marginal farmers. It also includes outlays for extension and training, statistics, seeds, fertilizers, plant protection, agricultural implements and machinery, horticulture and crop insurance, etc. Against the approved outlay of Rs. 437.87 crores, the revised outlay for 1989-90 is Rs. 503.92 crores. The outlay for 1990-91 has been kept at Rs. 488.89 crores.

Soil and Water Conservation : The outlay under this head is provided for undertaking soil and water conservation measures in catchments of major river valley projects with a view to reducing soil erosion, conserving soil mixture and preventing siltation in reservoirs, and integrated watershed management in the catchments of flood-prone rivers in the Indo-Gangetic Basin, and for Ravine Reclamation Programme for dacoit infested areas. Against the approved outlay of Rs. 40.50 crores, the revised outlay for 1989-90 is Rs. 42.50 crores. The outlay for 1990-91 has been kept at Rs. 57.00 crores.

Animal Husbandry : Development of livestock in general has a two fold objective. First, to make available adequate quantity of animal protein for the growing population, and second to supply adequate animal power to sustain the growth of agricultural production. Against the approved outlay of Rs. 39.00 crores, the revised outlay for 1989-90

परिव्यय रखा गया है । 1990-91 के लिए 45.00 करोड़ रुपए का परिव्यय रखा गया है ।

डेरी विकास : इस शीर्ष में मुख्य रूप से भरपूर दूध की पूर्ति-II कार्यक्रम के लिए व्यवस्था की गई है. जो कि यूरोपीय आर्थिक समुदाय की वस्तु सहायता, अन्तर्राष्ट्रीय विकास अभिकरण से ऋण सहायता, और भारतीय डेरी निगम के आन्तरिक साधनों द्वारा कार्यान्वित किया जा रहा है । इस परियोजना का उद्देश्य 80 लाख ग्रामीण दुग्ध उत्पादक परिवारों को लाभ पहुंचाना है । इस परियोजना के अंतर्गत दूध का उत्पादन करने वाले 173 जिले शामिल हैं जिनका उनकी दुग्ध उत्पादन संभाव्यता के आधार पर पता लगाया गया है । इसमें दिल्ली दुग्ध योजना के लिए भी व्यवस्था की गई है । 97.00 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले, वर्ष 1989-90 के संशोधित परिव्यय में 71.86 करोड़ रुपए की राशि निर्धारित की गई है । वर्ष 1990-91 के लिए 80.00 करोड़ रुपए का परिव्यय रखा गया है ।

मीन उद्योग : इस शीर्ष के अंतर्गत परिव्यय को मछली पकड़ने के पोतों के लिए बन्दरगाह एवं उठाने-धरने की सुविधाओं का निर्माण करने, समुद्री साधनों का अन्वेषणात्मक सर्वेक्षण करने, गहरे समुद्र में मछली पकड़ने की सम्भावनाओं का पता लगाने,अन्तर्देशीय मीन उद्योग के साधनों का विकास करने, मछली पकड़ने के ट्रालरों की प्राप्ति और उनके लिए वित्तीय सहायता देने आदि के लिए प्रयोग में लाया जाएगा । 43.85 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले, वर्ष 1989-90 के संशोधित परिव्यय में 39.16 करोड़ रुपए की राशि निर्धारित की गई है । वर्ष 1990-91 के लिए 42.10 करोड़ रुपए का परिव्यय रखा गया है ।

वन-पालन और वन्य जीवन : वर्ष 1990-91 के परिव्यय में 125.00 करोड़ रुपए की राशि निर्धारित की गई है । इसमें राष्ट्रीय बंजर भूमि विकास बोर्ड की योजनाओं, एकीकृत भूमि तथा जल संरक्षण योजनाओं, सामाजिक वनपालन और वन संरक्षण, विकास और पुनः प्रजनन के लिए परिव्यय शामिल है । इसमें जनजाति विकास, वन्य जीवन संरक्षण तथा प्रबंध तथा राष्ट्रीय उद्यानों और पक्षी-विहारों तथा प्रोजेक्ट टाईगर के लिए भी व्यवस्था सम्मिलित है ।

बागान : इस शीर्ष के अन्तर्गत परिव्यय का उपयोग, चाय, काफी, रबड़ तथा मसालों जैसे निर्यात-प्रधान बागानों के विकास के लिये किया जाता है। वर्ष 1990-91 के लिए 48.97 करोड़ रुपए का परिव्यय रखा गया है।

खाद्य, भण्डारण और भाण्डागारण : इस परिव्यय में ये शामिल हैः

(i) खाद्य, कृषि उत्पाद और अधिसूचित वस्तुओं के संबंध में भारतीय खाद्य निगम और केन्द्रीय भाण्डागारण निगम में निवेश;

(ii) छोटे/सीमान्त किसानों द्वारा कृषि उत्पादों के लिए भाण्डागारण संबंधी आवश्यकताओं हेतु ग्रामीण गोदामों की राष्ट्रीय ग्रिड की स्थापना, ताकि वे घबराहट में शीघ्र बिक्री न करें;

(iii) फल और सब्जियों का संसाधन;

(iv) अनुसंधान, प्रशिक्षण और मूल्यांकन; तथा

(v) वनस्पति तेल एवं वसा तथा तिलहन एवं तेलों के विषय में अनुसंधान एवं विकास कार्यक्रम ।

1990-91 के लिए 77.05 करोड़ रुपए की व्यवस्था है । 1990-91 के लिए निर्धारित परिव्यय का उद्देश्य भारतीय खाद्य निगम और केन्द्रीय भाण्डागारण निगम (सी. डब्ल्यू. सी.) की भाण्डागारण क्षमता में वृद्धि करना है ।

कृषि अनुसंधान और शिक्षा: जारी अनुसंधान कार्यक्रमों और अन्य वचनबद्धताओं को ध्यान में रखने के साथ-साथ अगली पंचवर्षीय योजना के दौरान मुख्य बल दिए जाने के कारण 1990-91 के लिए 154.20 करोड़ रुपए की व्यवस्था की गई है ।

कृषि वित्तीय संस्थाएं : वर्ष 1990-91 के लिए 255.25 करोड़ रुपए के परिव्यय की व्यवसथा की गई है । इसके अन्तर्गत राष्ट्रीय कृषि और ग्रामीण विकास बैंक के लिए कृषि ऋण देने के लिए 250 करोड़ रुपए तथा क्षेत्रीय ग्रामीण बैंकों के लिए 5.25 करोड़ रुपए की व्यवस्था शामिल है।

सहकारिता : इस परिव्यय में निम्नलिखित के लिए व्यवस्था शामिल है - कम विकसित राज्यों में सहकारी ऋण संस्थाएं, राष्ट्रीय सहकारिता विकास निगम, राष्ट्रीय कृषि सहकारी विपणन संघ लिमिटेड, संस्थाओं की इमारतों के लिये सहकारी विकास योजना, अपेक्षाकृत पिछड़े राज्यों/संघ राज्य क्षेत्रों में सहकारी संस्थाओं के लिये विशेष योजना, अनुसूचित

is Rs.35.21 crores. The outlay for 1990-91 has been kept at Rs.45.00 crores.

Dairy Development: This head mainly provides for Operation Flood II Programme, which is being implemented with commodity assistance from European Economic Community, credit assistance from International Development Agency (IDA), and internal resources of the National Dairy Development Board. The project is intended to benefit 8 million rural milk-producer families. The project will cover 173 milch herd districts identified on the basis of their potential for milk production. It also includes provision for Delhi Milk Scheme. Against the approved outlay of Rs. 97.00 crores, the revised outlay for 1989-90 is Rs. 71.86 crores. The outlay for 1990-91 is Rs. 80.00 crores.

Fisheries : The outlay under this head is utilised for constructing fishing harbour and loading facilities for fishing vessels, conducting exploratory surveys of marine resources, exploitation of deep sea fishing potential, development of inland fishery resources, and financing and acquisition of fishing trawlers, etc. Against the approved outlay of Rs.43.85 crores, the revised outlay for 1989-90 is Rs. 39.16 crores. The outlay for 1990-91 is kept at Rs. 42.10 crores.

Forestry and Wild Life: The outlay for 1990-91 is Rs. 125.00 crores. The outlay includes schemes of National Wastelands Development Board, Integrated Soil and Water Conservation schemes, social forestry, Forest Conservation, development and regeneration. It will also cover Tribal development, Conservation and management of wildlife including development and conservation of National Parks and Sanctuaries and Project Tiger.

Plantations: The outlay under this head is utilised for development of export oriented plantations, such as tea, coffee, rubber and spices. The outlay for 1990-91 has been kept at Rs.48.97 crores.

Food, Storage and Warehousing: The outlay includes :

(i) investment in Food Corporation of India and Central Warehousing Corporation in connection with storage of food, agricultural produce and other notified commodities ;

(ii) establishment of national grid of rural godowns for storage requirements for agricultural produce by small/marginal farmers to avoid distress sale by them;

(iii) fruit and vegetable processing;

(iv) research, training and evaluation; and

(v) vegetable oils and fats and Research & Development Programme in oil seeds & oils.

Outlay for 1990-91 is Rs.77.05 crores. Outlay during 1990-91 is to augment the storage capacity of Food Corporation of India and Central Warehousing Corporation (CWC).

Agricultural Research and Education: Keeping in view the ongoing research programmes and other commitments as well as the major thrust during the next five year Plan, the provision is Rs.154.20 crores for 1990-91.

Agricultural Financial Institutions : The outlay for 1990-91 has been kept at Rs.255.25 crores. It includes an outlay of Rs.250 crores for NABARD, for providing agricultural credit and Rs.5.25 crores for Regional Rural Banks.

Co-operation: The provison includes outlay for assistance to Cooperative Credit Institutions in under-developed States, National Cooperative Development Corporation, National Agricultural Cooperative Marketing Federation Limited, Cooperative Development Scheme for institution building, special scheme for cooperative

जातियों/अनुसूचित जनजातियों के लिए बनाई गई सहकारी समितियों के लिये विशेष योजना, दीर्घकालिक सहकारी ऋण ढांचों के विकास के लिये विस्तृत योजना, भूमि विकास बैंक आदि । 128.50 करोड़ रुपए के अनुमोदित परिव्यय के मुकाबले 1989-90 के लिए 135.55 करोड़ रुपए के संशोधित परिव्यय की व्यवस्था की गई है । संशोधित परिव्यय में वृद्धि भूमि विकास बैंक के ऋण-पत्रों आदि के परिव्यय में वृद्धि होने के कारण हुई है । 1990-91 के लिए 203.64 करोड़ रुपए के परिव्यय की व्यवस्था की गई है ।

अन्य कृषि-संबंधी कार्यक्रम : इस परिव्यय में 7.00 करोड़ रुपए की व्यवस्था कृषि विपणन को सुधारने, ग्रामीण क्षेत्रों में प्रमुख एवं गौण बाजारों के लिए बुनियादी सुविधाएं प्रदान करने के लिए कृषि उत्पाद बाजारों को विकसित करने के लिए की गई है । इस कार्यक्रम के अन्तर्गत बाजार-अनुसंधान, जांच, मानकीकरण तथा गुणवत्ता-नियंत्रक जैसी अन्य स्कीमें सम्मिलित हैं ।

ग्रामीण विकास

ग्रामीण विकास के लिए विशेष कार्यक्रम : 1990-91 के लिए कुल परिव्यय 502.26 करोड़ रुपए हैं (आइ. आर. डी. पी. 376.70 करोड़ रुपए, टी.आर.वाई.एस.ई.एम. 8.00 करोड़ रुपए, डी.पी.ए.पी. 51.26 करोड़ रुपए, डी. डी. पी. 50.00 करोड़ रुपए), ब्लाक स्तर पर प्रशासन को सुदृढ़ बनाना-13.30 करोड़ रुपए,। गरीबी-हटाओ कार्यक्रम के एक प्रमुख अंग के रूप में एकीकृत ग्रामीण विकास कार्यक्रम का उद्देश्य सहायता-अनुदानों और विभिन्न संस्थानों के ऋण के माध्यम से गरीबी की रेखा से नीचे की श्रेणी के चुनींदा परिवारों के लिए आय-उपार्जक परिसम्पत्तियों की व्यवस्था करना है जिससे उनकी आय के स्तर में सुधार हो तथा अन्ततः वे गरीबी की रेखा से ऊपर उठ सकें । जिला ग्रामीण विकास अभिकरणों को केन्द्रीय सरकार तथा संबंधित राज्य सरकार द्वारा बराबर-बराबर आधार पर आर्थिक सहायता दी जाती है । इससे लाभान्वित होने वाले व्यक्तियों में से 30 प्रतिशत अनुसूचित जाति/अनुसूचित जनजातियों से संबंधित होंगे तथा अन्य 30 प्रतिशत स्त्रियां होंगी । ब्लाक स्तर पर प्रशासन को मजबूत करने के लिए भी इसमें व्यवस्था की गई है । सामाजिक सुरक्षा उपाय के रूप में,समन्वित ग्रामीण विकास कार्यक्रम के लाभानुभोगियों के लिए एक सामूहिक जीवन बीमा योजना शुरू की गई है ।

राष्ट्रीय ग्रामीण युवक आत्म नियोजन प्रशिक्षण स्कीम का मुख्य उद्देश्य निर्धारित-समूह में से चुने गए ग्रामीण युवकों को तकनीकी कार्यों का प्रशिक्षण देना है ताकि वे स्व-रोजगार अथवा वेतन वाले रोजगार प्राप्त कर सकें । प्रशिक्षणार्थियों को वजीफे और औजारों के किट निःशुल्क प्रदान किए जाते हैं । प्रशिक्षण संबंधी आधारभूत संरचना को मजबूत बनाने के लिए वित्तीय सहायता प्रदान की जाती है ।

सूखा आशंकित क्षेत्रों के कार्यक्रम (डी. पी. ए. पी.) को दीर्घकालीन सम्भावनाओं को ध्यान में रखते हुए सूखे की समस्या से निपटने के लिए तैयार किया गया है तथा यह कार्यक्रम भूमि और जल संसाधनों के अनुकूलतम उपयोग करने पर आधारित है । इस कार्यक्रम का उद्देश्य लोगों, विशेषरूप से ग्रामीण समाज के कमजोर वर्गों, की आय में सुधार करना भी है । इस कार्यक्रम के लिए केन्द्र और राज्यों द्वारा 50:50 के अनुपात में धन दिया जाता है ।

मरुस्थल विकास कार्यक्रम (डी. डी. पी.), जिसका शत-प्रतिशत निधिकरण केन्द्रीय सरकार द्वारा किया जाता है, का उद्देश्य चुनींदा उष्ण और शीत शुष्क क्षेत्रों का विकास करना है जिसके लिए ऊसरता का नियंत्रण करके इन क्षेत्रों की उर्वरता को उन्नत किया जाता है, इससे इन क्षेत्रों में रहने वाले लोगों की आय तथा रोजगार के अवसरों में बढोतरी होती है । अभी तक शुरू की गई कुछ प्रमुख गतिविधियां ये हैं: वनरोपण, चरागाहों का विकास, रेत के टीलों का स्थिरीकरण, भूमिगत जल का विकास और उसके संरक्षण तथा उसे दोबारा निकालने के उपाय, आदि।

समेकित ग्रामीण ऊर्जा आयोजना कार्यक्रम के अन्तर्गत ग्रामीण क्षेत्रों में घरेलू खपत तथा उत्पादन संबंधी गतिविधियों के लिए ऊर्जा की जरूरतों को पूरा करने के लिए विकेन्द्रीकृत ऊर्जा प्रणालियों को तैयार करने और उनकी योजना बनाने का कार्य शामिल किया गया है ।

ग्रामीण रोजगार : वर्ष 1990-91 के लिए कुल परिव्यय 2100 करोड़ रुपए रखा गया है । ग्रामीण भूमिहीन रोजगार गारंटी कार्यक्रम और राष्ट्रीय ग्रामीण रोजगार कार्यक्रम को मिला दिया गया था और पिछले वर्ष जवाहर रोजगार योजना (जे.आर.वाई.) नामक एक नया कार्यक्रम शुरू किया गया था जिसका मुख्य उद्देश्य ग्रामीण क्षेत्रों में बेरोजगार और

institutions in comparatively weaker States/Union Territories, special scheme for cooperative societies set-up for Scheduled Castes/ Scheduled Tribe, comprehensive scheme for development of long-term cooperative credit structure, Land Development Banks etc. Against the approved outlay of Rs. 128.50 crores, the revised outlay for 1989-90 is Rs. 135.55 crores. The increase in the revised outlay is due to increase in the outlays for Debentures of Land Development Banks etc. The outlay for 1990-91 is Rs. 203.64 crores.

Other Agricultural Programmes: Outlay of Rs.7.00 crores is for improving agricultural marketing, development of agricultural produce markets for providing infrastructural facilities for primary and secondary markets in rural areas. Market research, investigation, standardisation and quality control are the other schemes covered by this programme.

RURAL DEVELOPMENT

Special Programmes for Rural Development : The total outlay for 1990-91 is Rs.502.26 crores (IRDP-Rs.376.70 crores,TRYSEM-Rs.8.00 crores, DPAP-Rs.51.26 crores, DDP-Rs.50.00 crores) Strengthening of Block level Administration Rs.13.30 crores. As a major poverty alleviation programme, the objective of IRDP is to provide income generating assets to identified families below the poverty line through a mix of subsidy and institutional credit to enable them to improve their income levels so as to eventually cross the poverty line. Subsidy is given to District Rural Development Agencies by the Central Government and State Government concerned on a matching basis. 30% of the beneficiaries would be SC/ST and another 30% women. This also includes provision for strengthening of Block Level Administration. As a social security measure, a Group Life Insurance Scheme for IRDP beneficieries has been introduced.

The main objective of Training of Rural Youth for Self Employment (TRYSEM) is to provide training to identified rural youth from the target group in technical skills so as to enable them to take up self/wage employment. Stipends and free tool kits are provided to the trainees. Financial assistance is provided to the training institutes for strengthening training infrastructure.

The Drought Prone Area Programme (DPAP) is designed to tackle the problem of drought with a long-term perspective, based on the strategy of optimum utilisation of land and water resources. It also aims at improving income of people particularly Weaker Sections of rural Societiy. The funds for the programme are provided by the Centre and States on 50:50 basis.

The Desert Development Programme (DDP) which is funded 100% by the Central Govt., aims at the development of selected hot and cold arid areas by controlling desertification and raising the productivity of these areas, thereby increasing the income and employment opportunities of the population. Some of the major activities undertaken are afforestation, grassland development, sand dune stabilisation, development measures for conservation and re-charge of ground water etc.

Integrated Rural Energy Planning Programme involves the preparation and planning of decentralised energy systems to meet the energy needs for domestic consumption as well as productive activities in rural areas.

Rural Employment : The total outlay for 1990-91 is Rs.2100 crores. The Rural Landless Employment Guarantee Programme (RLEGP) and National Rural Employment Programme (NREP) were merged and a new programme named, Jawahar Rozgar Yojna (JRY) was started last year with the primary objective of generation of

अर्ध-बेरोजगार व्यक्तियों को अतिरिक्त लाभकारी रोजगार देना है । इस योजना का दूसरा उद्देश्य आर्थिक दृष्टि से उत्पादक और सामाजिक दृष्टि से लाभदायक परिसम्पत्तियों को सृजन करना है और ग्रामीण क्षेत्रों में जीवन के समग्र स्तर में सुधार करना है । जे.आर.वाई. का वित्त पोषण केन्द्र औरराज्यों द्वारा 80:20 के अनुपात में किया जाता है। जिला और गांव के हिस्से की निधियों के संबंध में कार्यान्वियन के लिए जिम्मेदारी क्रमशः डी.आर.डी.ए./जिला परिषद और ग्राम पंचायत की है । केन्द्र और राज्यों द्वारा राशियां जिले की ग्रामीण विभाग एजेंसियों/जिला परिषद् को जारी की जाती है जो इन्दिरा आवास योजना के लिए राशियों का 6 प्रतिशत रख कर शेष राशियों का 80 प्रतिशत ग्राम पंचायत/मंडलों को वितरित करती है तथा शेष राशियां अन्तर-ब्लाक/ग्रामीण निर्माण कार्यों में उपयोग के लिए होती हैं । अदा की जाने वाली मजदूरी. न्यूनतम मजदूरी अधिनियम के अंतर्गत विनिर्धारित मजदूरी होती है ।

भूमि सुधार : पिछले वर्ष के लिए 25.33 करोड़ रुपए के परिव्यय की तुलना में 1990-91 के लिए अनुमोदित परिव्यय 15.65 करोड़ रुपए का रखा गया है । परिव्यय में वृद्धि, सरकार द्वारा राजस्व तंत्र को सुदृढ़ बनाने के लिए अधिक बल दिए जाने तथा भूमि संबंधी रिकार्ड को अद्यतन बनाने, कृषि संबंधी अध्ययनों और भूमि रिकार्डों के कम्प्यूटरीकरण के कारण है।

अन्य ग्रामीण विकास कार्यक्रम : 1990-91 के लिए 36.09 करोड़ रुपए का परिव्यय रखा गया है । ग्रामीण क्षेत्रों में महिलाओं और बच्चों का विकास कार्यक्रम का अभिप्राय ग्रामीण गरीब लोगों के लक्षित समूह के परिवारों की महिलाओं पर ध्यान केन्द्रित करना है ताकि उनकी आय में बढ़ोतरी की जा सके और उन्हें स्व-नियोजन द्वारा आय के साधन जुटाने के लिए तैयार करने में आवश्यक साधन जुटाए जा सकें । चूंकि व्यक्तिगत उद्यम प्रभावी नहीं है, इसलिए इनका सामूहिक गठन करने के लिए नीति अपनाई गई है । बहु-उद्देशीय सामुदायिक केन्द्रों के निर्माण की एक योजना आरम्भ की गई है । इस योजना का वित्तपोषण आंशिक रूप से केन्द्रीय सरकार द्वारा और आंशिक रूप से राज्य सरकारों और यूनिसेफ द्वारा किया जाता है।

सिंचाई और बाढ़ नियंत्रण

बड़ी और मध्यम सिंचाई : बड़ी और मध्यम सिंचाई के लिए आवश्यक आधारभूत सुविधाओं को तैयार करने तथा प्रौद्योगिकी के संवर्धन के लिए इस क्षेत्र के अंतर्गत सर्वेक्षण तथा अन्वेषण, आंकड़ों के संग्रह, अनुसंधान एवं अन्य गतिविधियों से सम्बद्ध व्यय के लिए व्यवस्था की गई है । 1990-91 के लिए 24.41 करोड़ रुपए के कुल परिव्यय के अंतर्गत मंत्रालय के अधीन विभिन्न संगठनों की आवश्यकताओं की पूर्ति की जाएगी ।

लघु सिंचाई : 1990-91 के लिए कुल परिव्यय 41.90 करोड़ रुपए का है । इस क्षेत्र के अंतर्गत कार्यान्वित किए जाने वाले कार्यक्रमों में निम्नलिखित शामिल हैं : (i) हाइड्रोलोजिकल सर्वेक्षण के माध्यम से भूमि-जल विकास और केन्द्रीय भूमि-जल बोर्ड द्वारा अन्वेषण और (ii) केन्द्र द्वारा प्रायोजित लघु सिंचाई परियोजनाएं जैसे ; राज्य/संघ राज्य क्षेत्रों में भूमि तथा सतही जल संगठन को सुदृढ़ बनाना; जल छिड़काव, ड्रिप सिंचाई के प्रयोग को बढ़ावा देना; पम्प सेटों आदि में सुधार करना; और सिंचाई सम्बन्धी आंकड़ों का युक्तिकरण और लघु सिंचाई निर्माण-कार्यों की गणना।

कमान क्षेत्र विकास : इस कार्यक्रम के अन्तर्गत फार्म संबंधी विकास कार्यों को तैयार करने, उनकी योजना बनाने, कार्यान्वयन करने और पर्यवेक्षण तथा टोपो-ग्राफिकल भूमि और हवाई सर्वेक्षण, वेयर बन्दी, प्रशिक्षण एवं मूल्यांकन अध्ययन आदि के लिए राज्यों और संघ राज्य क्षेत्रों को अनुदान तथा ऋण दिए जाते हैं । भूमि को समतल बनाने और उसे आकार में लाने, खेतों में नालियों और नालों का निर्माण करने, जल छिड़काव और ड्रिप सिंचाई के लिए आई. आर. डी. पी. पद्धति के आधार पर छोटे और सीमांत किसानों को ऋण सहायता देने के लिए बराबर-बराबर के आधार पर अनुदान/ऋण दिया जाता है । 1990-91 के लिए 110.00 करोड़ रुपए के परिव्यय की व्यवस्था की गई है ।

बाढ़ नियंत्रण और जल निकासी : इस क्षेत्र के अंतर्गत 47.01 करोड़ रुपए की व्यवस्था निम्नलिखित कार्यक्रमों के दो वर्गों के लिए है : (i) बाढ़ नियंत्रण योजनाएं/कार्यक्रम जिनका विभिन्न संगठनों द्वारा कार्यान्वयन किया जाता है ; और (ii) बाढ़ नियंत्रण और समुद्र कटाव-रोधी निर्माण कार्यों के लिए विभिन्न राज्यों को सहायता । उपरोक्त पहले कार्यक्रम में बाढ़ से संबंधित आंकड़ों को सुव्यवस्थित रूप से इकट्ठा करना, बारीकी से मानीटरिंग कार्य तथा बाढ़ संबंधी भविष्यवाणी और चेतावनी केन्द्रों के

additional gainful employment to unemployed and under-employed persons in the rural areas. The secondary objective of JRY is creation of economically productive and socially useful assets and improvement in the overall quality of life in the rural areas. JRY is funded by the Centre and the States in 80:20 ratio. The responsibility for implementation in respect of the district and village share of funds is that DRDA/Zila Parishad and the Gram Panchayat respectively. The funds are released by the Centre and the States to district rural department agencies/zila parishad which, after setting apart 6 per cent of the funds for Indira Awaas Yojna, distribute 80 per cent of the balance funds to Gram Panchayat/Mandals, the balance funds are meant to be utilised interblock/village works. The wages payable are the wages prescribed under Minimum Wages Act.

Land Reforms: The approved outlay for 1990-91 is Rs.25.33 crores against outlay of Rs.15.65 crores for last year. The increase in outlay is due to Government Laying more emphasis on strengthening of revenue machinery and updating of land records, agrarian studies and compulerisation of land records.

Other Rural Development Programmes : The total Plan outlay for 1990-91 is Rs. 36.09 crores. Development of Women and Children in Rural Areas is meant to focus attention on the women members of the families of the target group of the rural poor so as to increase their income and also to provide the supporting sources needed to enable them to take up income generating activities on a self-sustaining basis. Since individual ventures are not effective a strategy of group formation has been adopted. A scheme of construction of multi-purpose community centres has been started. The scheme is funded partly by Central Government and partly by State Governments and UNICEF.

IRRIGATION AND FLOOD CONTROL

Major and medium irrigation : The outlay under this sector is meant for survey and investigation, data collection, research and other activities for building up of infrastructural facilities and upgrading technology needed for major and medium irrigation sector. The total outlay of Rs.24.41 crores for 1990-91 covers the requirements of different organisations under the Ministry.

Minor irrigation : The total outlay in 1990-91is Rs.41.90 crores. The programmes that are implemented under this sector include :- (i) Ground Water Development through hydrological surveys and exploration by the Central Ground Water Board; and (ii) Centrally sponsored Minor Irrigation schemes, like strengthening of Ground and Surface Water Organisations in the States/Union Territories; encouraging use of sprinklers, drip irrigation, rectification of pump-sets etc, rationalisation of Irrigation statistics and census of minor irrigation works.

Command Area Development: Under this programme, grants and loans are given to States and Union Territory Governments for preparation, planning, implementation and supervision of On-Farm Development works and for topographical soil and aerial survey, training and evaluation studies etc. Grants/loans are also given on matching basis for subsidy of loans to small and marginal farmers on the IRDP pattern for land levelling and shaping, construction of field channels and drains, sprinklers and drip irrigation. The outlay for 1990-91 is Rs.110.00 crores.

Flood Control and Drainage: The outlay of Rs.47.01 crores under this sector is for two categories of programmes: (i) Flood Control Schemes/Programmes that are implemented by various organisations; and (ii) assistance to various states for flood control and anti-sea erosion works. Under the former are the programmes like systematic collection of data on floods, close monitoring and issue of flood forecasts and warning through the network of flood forecasting and

नेटवर्क के माध्यम से बाढ़ संबंधी भविष्यवाणी करना और चेतावनी देना, इंडो-बंगला देश संयुक्त नदी आयोग, ब्रह्मपुत्र नदी में बाढ़ नियंत्रण और तटीय कटाव और नदियों के लिए बैरक प्रणाली हेतु मास्टरआयोजना तैयार करने के लिए ब्रह्मपुत्र बोर्ड, गंगा बाढ़ नियंत्रण आयोग तथा नेपाल और भूटान से होकर बहने वाली नदियों संबंधी बाढ़ नियंत्रण परियोजनाओं के सर्वेक्षण और जांच संबंधी कार्य । इसके अतिरिक्त 1990-91 के बजट अनुमानों में ब्रह्मपुत्र घाटी में बाढ़ नियंत्रण कार्य के लिए आसाम सरकार को और समुद्र कटाव-रोधी कार्यों के लिए केरल सरकार को उड़ीसा में रेनगली बांध परियोजना के बाढ़ नियंत्रण घटक वित्तीय सहायता देने की व्यवस्था की गई है।

ऊर्जा

विद्युत : 1990-91 के लिए 5916.88 करोड़ रुपए का परिव्यय रखा गया है जो कि मुख्य रूप से राष्ट्रीय तापीय विद्युत निगम (2590 करोड़ रुपए), राष्ट्रीय पन बिजली विद्युत निगम (827.14 करोड़ रुपए), दामोदर घाटी निगम (375.00 करोड़ रुपए), उत्तर-पूर्वी बिजली विद्युत निगम (91.00 करोड़ रुपए), विद्युत वित्त निगम (244.50 करोड़ रुपए) नाथपा-झाकरी विद्युत निगम (183.50 करोड़ रुपए), टेहरी पन बिजली विकास निगम (168.00 करोड़ रुपए), नेवेली लिग्नाइट निगम (479.00 करोड़ रुपए), के लिए है ।

तापीय और पन बिजली उत्पादन और संबद्ध पारेषण लाइनें : इसमें राष्ट्रीय तापीय विद्युत निगम के लिए 1137.75 करोड़ रुपए की व्यवस्था की गई है । यह व्यवस्था इसके निम्नलिखित कार्यों के लिए 2590.00 करोड़ रुपए के आयोजना परिव्यय में सहायता देने के लिए है : सुपर थर्मल पावर स्टेशन :- सिंगरौली चरण-I और II (2000 मेगावाट), कोरबा चरण-I और II (2100 मेगावाट), रामगुंडम चरण I और III (2100 मेगावाट), फरक्का चरण-I, II और III(2100 मेगावाट), विंध्याचल चरण-I और II (2260 मेगावाट), रिहन्द चरण-I और II (2000 मेगावाट), कहलगांव चरण-I (840 मेगावाट), एन. सी. टी. पी. पी. (दादरी)-(840 मेगावाट), तलचर चरण-(1000 मेगावाट), कवास (600 मेगावाट), अन्ता (430 मेगावाट) और औरैया (600 मेगावाट) तथा दादरी (817 मेगावाट)-गैस आधारित केन्द्र और उससे संबद्ध पारेषण लाइनें, अनुसंधान और विकास योजनाएं नवीकरण और आधुनिकीकरण करना तथा नई तापीय योजनाओं के लिए स्थान संबंधी सर्वेक्षण और खोज ।

अन्य व्यवस्था में ये पूंजीगत व्यय शामिल हैं, जो इन पनबिजली परियोजनाओं से संबंधित है - सलाल (345 मेगावाट - जिसे चालू कर दिया गया है), दुलहस्ती (390 मेगावाट), चमेरा (540 मेगावाट), कोइलकारो (710 मेगावाट), टनकपुर (120 मेगावाट), रंगित (60 मेगावाट), धोलीगंगा (380 मेगावाट), उडी (480 मेगावाट), बागलिहार (450 मेगावाट), स्वालकोट (600 मेगावाट), धलेश्वरी (120 मेगावाट) पन बिजली परियोजनाएं, जेपुर-तलचर, मोगा-भिवानी तथा चुक्का पारेषण लाइनें तथा नई पन बिजली परियोजनाओं का अन्वेषण, जैसे सलाल पन-बिजली परियोजना (345 मेगावाट),. चमेरा चरण-II और सलाल चरण-II हैं । मध्य प्रदेश के सरदार सरोवर परियोजना विद्युत संघटक के शेयर में साधनों के अन्तर को पूरा करने के लिए भारत सरकार का अंशदान और उत्तरी-पूर्वी विद्युत शक्ति निगम द्वारा निष्पादित की जाने वाली काठलगुरी गैस टर्बाइन योजना के लिए 26 करोड़ रुपए और काठलगुरी ट्रांसमीशन लाइनों के लिए 65 करोड़ रुपए की राशि को भी शामिल किया गया है ।

अन्तर्राज्यीय पारेषण लाइनें : क्षेत्रीय ग्रिडों के निर्माण में सहायता देने के लिए समीप की विद्युत प्रणालियों को जोड़ने के लिए अन्तर्राज्यीय पारेषण लाइनों के निर्माण के लिए 20.00 करोड़ रुपए की व्यवस्था की गई है जिससे कि अन्ततः एक राष्ट्रीय ग्रिड का निर्माण होगा और जिससे उपभोक्ताओं को समुचित और कुशलतापूर्वक बिजली की सप्लाई मिलेगी।

क्षेत्रीय भार प्रेषण केन्द्र : पांच क्षेत्रीय भार प्रेषण केन्द्रों-उत्तरी, दक्षिणी, पश्चिमी, पूर्वी तथा उत्तर-पूर्वी क्षेत्र की स्थापना संबंधित क्षेत्रीय ग्रिडों के प्रचालन एवं नियंत्रण के लिए की गई है ।

अनुसंधान और विकास : बहुत से संस्थान जैसे केन्द्रीय विद्युत अनुसधान संस्थान, बंगलौर, केन्द्रीय सिंचाई और बिजली बोर्ड, भारत हैवी इलेक्ट्रिकल्स लिमिटेड, विद्युत इंजीनियरों की प्रशिक्षण सोसायटी, हाटलाइन ट्रेनिंग सेन्टर, विद्युत प्रणाली प्रशिक्षण संस्थान-बिजली की आधारभूत और अनुप्रायोगिक-दोनों प्रकार की समस्याओं पर अनुसंधान

warning centres, Indo-Bangla Desh Joint River Commission, Brahmaputra Board for preparation of a Master Plan for control of floods and bank erosion of the Brahmaputra and the Barak system of rivers, Ganga Flood Control Commission, and survey and investigation of Flood Control Projects on rivers common with Nepal and Bhutan. A provision has also been made in the Budget estimates 1990-91 for assistance to Government of Assam for flood control work in Brahmaputra Valley, and to Government of Kerala for anti-sea erosion works and for Flood control component of the Rengali Dam Project in Orrissa.

ENERGY

Power: The outlay for 1990-91 is Rs.5916.88 crores,which is mainly for schemes of National Thermal Power Corporation (Rs.2590.00 crores), National Hydro-electric Power Corporation (Rs.827.14 crores), Damodar Valley Corporation (Rs.375.00 crores), North Eastern Electric Power Corporation (Rs.91.00 crores), Power Finance Corporation (Rs.244.50 crores), Nathpa-Jhakri Power Corporation (Rs.183.50 crores) Tehri HydroDevelopment Corporation (Rs.168.00 crores), Neyveli Lignite Corpora-tion (Rs.479.00 crores).

Thermal & Hydro Power Generation including associated Transmission Lines : Provision of Rs.1137.75 crores has been made for National Thermal Power Corporation to support its plan outlay of Rs.2590.00 crores for Singrauli Stages I & II (2000MW), Korba Stages I & II (2100 MW) Ramagundam Stages I & II (2100 MW), Farakka Stages I , II & III (2100 MW) Vindhyachal Stages I & II (2260 MW), Rihand Stages I & II (2000 MW), Kahalgoan Stage I (840 MW), NCTPP (Dadri)-(840 MW), Talcher Stage I (1000 MW) super thermal power stations; Kawas (600 MW) Anta (430 MW) and Auraiya (600 MW) and Dadri (817 MW)- gas based stations and transmission lines associated with them, research and development schemes, renovation and modernisation and survey and investigation schemes for new thermal sites.

Other provisions include capital expenditure on Salal 345 MW. (already commissioned), Dulhasti (390 MW), Chamera (540 MW) Koel karo(710 MW.), Tanakpur (120 MW), Rangit (60 MW), Dhauliganga (380 MW) Uri (480 MW) Bagli Har (450 MW), Savalkot (600 MW), Dha-leswari (120 MW), hydro-electric projects; Jeypore-Talchar, Moga-Bhiwani and Chukka transmission lines and investigation of new hydroelectric projects, Salal Hydro-electric Project (345 MW), Chamera Stage-II and for Salal Stge II. Government of India's contribution to the resources gap in the share of Madhya Pradesh in the power component of the Sardar Sarovar Project and Rs. 26 crores for Kathalguri Gas Turbine Project and Rs.65 crores Kathalguri Transmission Lines being executed by North Eastern Electric Power Corporation, have also been included.

Inter-State Transmission Lines: A provision of Rs.20.00 crores is for construction of inter-state transmission lines to connect contiguous power systems for facilitating the formation of regional grids leading ultimately to the formation of a national grid, which will enable reliable and efficient supply of power to the consumers.

Regional Load Despatch Stations: Five Regional Load Despatch stations for the Northern, Southern, Western, Eastern and North - Eastern Regions are being established for the operation and control of respective regional grids.

Research and Development : A number of institutes such as Central Power Research Institute, Bangalore, Central Board of Irrigation and Power, Bharat Heavy Electricals Ltd., Power Engineers' Training Society, Hotline Training Centre, Power System Training Society, are engaged in research on power problems, fundamental as

कार्य में लगे हैं और इसके साथ-साथ विद्युत केन्द्रों के प्रचालन तथा अनुरक्षण संबंधी कई पहलुओं के संबंध में भी प्रशिक्षण दे रहे हैं ।

सर्वेक्षण और जांच : इसके अंतर्गत पहाड़ी और आदिवासी क्षेत्रों में विद्युत परियोजनाओं के सर्वेक्षण और जांच, पंचेश्वर परियोजना की जांच, सी. डब्ल्यू. सी. की जांच योजनाएं, और कच्छ की खाड़ी में भूतापीय जांच तथा ज्वारीय विद्युत परियोजना के लिए व्यवस्था की गई है ।

ऊर्जा संरक्षण और अन्य कार्यक्रम : उर्जा संरक्षण से संबंधित योजनाओं के लिए 12 करोड़ रुपए की व्यवस्था की गई है ।

न्यूकलीय विद्युत : 1990-91 के लिए कुल परिव्यय 825.62 करोड़ रुपए रखा गया है । न्यूकलीय विद्युत निगम के लिए 815.62 करोड़ रुपए की व्यवस्था की गई है जिसमें काकरापार परमाणु विद्युत परियोजना के लिए 80.54 करोड़ रुपए, नारोरा परमाणु विद्युत परियोजना के लिए 16.77 करोड़ रुपए, राजस्थान-III और IV यूनिटों के लिए 185.71 करोड़ रुपए तथा 500 मे. वा. इ. परियोजनाओं के लिए 425.42 करोड़ रुपए तथा 235 मे. वा. इ. की नई परियोजनाओं के लिए 76.67 करोड़ रुपए और 1000 मे.वा.इ. की नई परियोजनाओं के लिए 16.49 करोड़ रुपए की व्यवस्था की गई है ।

पेट्रोलियम : वर्ष 1990-91 में पेट्रोलियम और प्राकृतिक गैस मंत्रालय के लिए 3791.36 करोड़ रुपए का आयोजना परिव्यय निर्धारित किया गया है, जिसमें कच्चे तेल और प्राकृतिक गैस (प्राकृतिक गैस के लाने ले जाने सहित) के अन्वेषण और उत्पादन के लिए 3145.20 करोड़ रुपए, पेट्रोलियम उत्पादों के परिष्करण और विपणन के लिए 646.16 करोड़ रुपए की व्यवस्था शामिल है । 1990-91 के आयोजना परिव्यय का वित्तपोषण 3641.36 करोड़ रुपए के आन्तरिक और बजटेतर साधनों और 150.00 करोड़ रुपए के बजटीय समर्थन द्वारा किया जाएगा । परिव्यय में वृद्धि भारत में हाइड्रोकार्बन्स के अन्वेषण की गति तेज करने के लिए तेल और प्राकृतिक गैस आयोग, गुजरात तेल शोधक कारखाने मे अतिरिक्त गौण संसाधन सुविधा के लिए इंडियन आयल, मद्रास तेल शोधक में लयूब विस्तार परियोजना, आटोमेटिक्स परियोजना, और मलजल अभिक्रिया सुविधाओं के लिए अधिक परिव्यय की व्यवस्था के कारण हुई ।

कोयला और लिग्नाइट : भारतीय अर्थव्यवस्था को बुनियादी समर्थन देने के लिए ऊर्जा क्षेत्र के महत्व को देखते हुए, कोयले और लिग्नाइट क्षेत्र के लिए 1990-91 के केन्द्रीय आयोजना परिव्यय को बढ़ा कर 2446.55 करोड़ रुपए कर दिया है । 911.55 करोड़ रुपए की कुल बजटीय सहायता में 1940 लाख मीट्रिक टनों के निर्धारित कोयला उत्पादन के लिए कोल इंडिया लिमिटेड के लिए 627.00 करोड़ रुपए, 225 लाख मीट्रिक टन के निर्धारित कोयला के उत्पादन के लिए सिंगरेनी कोलरीज के लिए 213.00 करोड़ रुपए तथा 110 लाख मीट्रिक टनों के निर्धारित लिग्नाइट उत्पादन के लिए नेवेली लिग्नाइट निगम के लिए 56.00 करोड़ रुपए शामिल है ।

ऊर्जा के गैर-परम्परागत स्रोत : 1990-91 के लिए 125.38 करोड़ रुपए के परिव्यय की व्यवस्था की गई है । इस परिव्यय का मुख्य भाग बायोगैस के लिए आवंटित किया गया है । इसमें सौर ऊर्जा, पवन ऊर्जा, फोटो वोल्टता और उर्जा के अन्य साधनों से संबंधित कार्यक्रमों के लिए भी व्यवस्था की गई है ।

उद्योग और खनिज

ग्राम और लघु उद्योग : इस शीर्ष के अन्तर्गत खादी और ग्राम उद्योग, शिक्षित बेरोजगार युवकों के लिए स्व-रोजगार स्कीम, ऋण गारंटी स्कीम, लघु उद्योग विकास संगठन, राष्ट्रीय लघु उद्योग निगम आदि के लिए परिव्यय शामिल है । वर्ष 1990-91 के लिए 467.14 करोड़ रुपए के परिव्यय की व्यवस्था की गई है । शिक्षित बेरोजगार युवकों के लिए स्व-रोजगार स्कीम जिसे 1983-84 से प्रारम्भ किया गया था, के अन्तर्गत जिला उद्योग केन्द्र, दसवीं या इससे अधिक कक्षा उत्तीर्ण तथा आई. टी. आई. के, 18 से 35 वर्ष की आयु वर्ग के शिक्षित बेरोजगार युवकों को उद्योगों, सेवाओं और छोटे-छोटे कारबार के जरिए स्व-रोजगार दिलाने में मदद करते हैं । लाभानुभोगियों का पता लगाने के लिए जिला उद्योग केन्द्र के महाप्रबंधक के नेतृत्व में प्रत्येक जिले में एक कार्यदल का गठन किया गया है । पता लगाए गए ऐसे लाभानुभोगी उद्योग लगाने के लिए कुल मिलाकर 35,000 रुपए, सेवाओं के लिए 25,000 रुपए, अपने उद्यम चलाने के लिए 15,000 रुपए के ऋण पाने के पात्र हैं । संविदा

well as applied, as also in imparting training in respect of several aspects of the operation and maintenance of power stations.

Survey & Investigation: Provision is for survey and investigation of power projects in hilly and tribal areas, investigation of Pancheshwar Project, investigation schemes of CWC, geothermal investigations and the tidal power project in the Gulf of Kutch.

Energy Conservation and Other Programme: Provision of Rs.12 crores is made for schemes relating to conservation of energy.

Nuclear Power: The approved outlay for 1990-91 is Rs. 825.62 crores. There is a provision of Rs.815.62 crores for Nuclear Power Corporation to support its plan outlay to the extent of Rs.80.54 crores for Kakrapar Atomic Power Project, Rs.16.77 crores for Narora Atomic Power Project, Rs.185.71 crores for Rajasthan Atomic Power Stations III & IV units and Rs.425.42 crores for new 500 MWe projects, Rs.76.67 crores for new 235 MWe projects and Rs.16.49 crores for new 1000 MWe projects.

Petroleum: The approved Plan outlay for 1990-91 of Rs. 3791.36 crores of the Ministry of Petroleum & Natural Gas consists of Rs.3145.20 crores for exploration and production of crude oil and natural gas (including transportation of natural gas) and Rs.646.16 crores for refining and marketing of petroleum products. The Plan Outlay of 1990-91 will be financed by internal and extra-budgetary resources of Rs.3641.36 crores and by budgetary support of Rs.150.00 crores. Increase is mainly due to additional provision to ONGC for accelerating pace of exploration of Hydro-carbons in India; to Indian Oil Corporation for additional secondary processing facility at Gujarat Refinery; to Madras Refineries Ltd. for Lube expansion Project, Aromatics Project, Sewage treatment facilities.

Coal and Lignite : Keeping in view the importance of the Energy sector for infrastructure support to the Indian economy, the Central Plan Outlay for the coal and lignite sector for 1990-91 has been stepped up to Rs.2446.55 crores. The total budgetary support of Rs.911.55 crores mainly comprises Rs.627.00 crores for Coal India Ltd., for targetted coal production of 194.00 million tonnes, Rs.213.00 crores for Singareni Collieries Co. Ltd., for targetted coal production of 22.5 million tonnes and Rs.56.00 crores for Neyveli Lignite Corporation, for targetted lignite production of 11 million tonnes.

Non-Conventional Sources of Energy : The outlay for 1990-91 is Rs.125.38 crores. The major portion of this outlay is for bio-gas. Provision has also been made for programmes relating to solar energy, wind energy, Photovoltaics and other sources of Energy.

INDUSTRY AND MINERALS

Village and Small Scale Industries: This head includes outlays for Khadi and Village Industries, self-employment Scheme for Educated Unemployed Youth, Credit Guarantee Scheme, Small Industries Development Organisation (SIDO) Schemes, National Small Industries Corporation etc. The outlay for 1990-91 is Rs.467.14 crores. Under the self-employment scheme for educated unemployed youth, which was started from the year 1983-84, the District Industries Centres (DICs) assist educated unemployed youth falling in the age group of 18 to 35 years and having passed matriculation and above, including ITI, to get self-employment through industry, services and small business. A task force has been constituted in each district under the leadership of General Manager of the District industries Centre to identify the beneficiaries. The identified beneficiaries are entitled to get composite loan not exceeding Rs.35,000/- for industry,

किए गए प्रत्येक ऐसे ऋण के लिए बैंक द्वारा पिछड़े क्षेत्रों में 10 प्रतिशत और अन्य क्षेत्रों में 12 प्रतिशत ब्याज लिया जाता है । यह योजना समाज के निम्न आय वर्ग के लिए है और इस तरह लाभानुभोगियों की परिवारिक आय प्रतिवर्ष 10,000/- रुपये से अधिक नही होनी चाहिए । इसके अलावा इस योजना में अनुसूचित जाति/जन-जातियों के लिए 30 प्रतिशत का आरक्षण विद्यमान है । इस स्कीम का एक मुख्य आकर्षण यह है कि ऋण का 25 प्रतिशत भाग सरकार द्वारा उधार देने वाले बैंको को पूंजीगत आर्थिक सहायता के रुप में दिया जाता है, जो कि अन्ततोगत्वा लाभानुभोगियों को दे दिया जाता है ।

लोहा और इस्पात उद्योग : 1990-91 के लिए 2734.71 करोड़ रुपए का परिव्यय रखा गया है, जिसका वित्तपोषण, 267.50 करोड़ रुपए की बजटीय सहायता और 2467.21 करोड़ रुपए के आन्तरिक और बजटेत्तर साधनों द्वारा किया जाएगा । स्टील अथारिटी आफ इंडिया लिमिटेड (सेल) को उनके नियंत्रणाधीन विभिन्न संयंत्रों (बोकारो-180 करोड़ रुपए, भिलाई-310 करोड़ रुपए, राउरकेला-500 करोड़ रुपए, दुर्गापुर-840 करोड़ रुपए, एलाय इस्पात संयंत्र-22.00 करोड़ रुपए, सेलम इस्पात संयंत्र-35.00 करोड़ रुपए और आर. एण्ड डी.-15 करोड़ रुपए) के लिए कुल 1975.25 करोड़ रुपए के परिव्यय की व्यवस्था की गई है । विशाखापत्तनम में स्थित इस्पात संयंत्र के लिए 566.00करोड़ रुपए के परिव्यय की व्यवस्था की गई है ।

अलौह खनन तथा धातुकर्मी उद्योग : वर्ष 1990-91 के लिए 652.51 करोड़ रुपए (597.51 करोड़ रुपए के आन्तरिक तथा बजटेतर साधनों सहित) के परिव्यय की व्यवस्था की गई है । सकल परिव्यय का विस्तृत ब्यौरा इस प्रकार है :

(क) एल्यूमीनियम (159.34 करोड़ रुपए);
नेलको के लिए 90.00 करोड़ रुपए और बालको के लिए 69.34 करोड़ रुपए ।

(ख) तांबा (55.00 करोड़ रुपए)
यह परिव्यय पूरी तरह से हिन्दुस्तान कापर लिमिटेड के लिए रखा गया है ।

(ग) जस्ता और शीशा (366.00 करोड़ रुपए)

(घ) सोना (2.00 करोड़ रुपए)

(ङ) खनिज अन्वेषण और विकास (24.94 करोड़ रुपए)

(च) भारतीय भू-विज्ञान सर्वेक्षण (29.74 करोड़ रुपए) और भारतीय खान ब्यूरो (7.41 करोड़ रुपए)

(छ) भारतीय भू-विज्ञान सर्वेक्षण और भारतीय खान ब्यूरो के लिए निर्माण-कार्य परिव्यय (0.25 करोड़ रुपए)

(ज) विज्ञान और प्रौद्योगिकी कार्यक्रम (7.83 करोड़ रुपए) ।

सीमेंट और धातु-भिन्न खनिज उद्योग : 1990-91 के लिए 67.00 करोड़ रुपए का परिव्यय पूरी तरह से भारतीय सीमेंट निगम के लिए है ।

उर्वरक उद्योग : वर्ष 1990-91 के लिए 660.73 करोड़ रुपए का परिव्यय रखा गया है जिसमें से 582.36 करोड़ रुपए की राशि आन्तरिक और बजट बाह्य साधनों से पूरी की जाएगी । 660.73 करोड़ रुपए का परिव्यय निम्नलिखित के लिए है : फर्टिलाइजर एण्ड केमिकल्स ट्रावनकोर (80.00 करोड़ रुपए), भारतीय उर्वरक निगम (65.00 करोड़ रुपए), हिन्दुस्तान फर्टिलाइजर कारपोरेशन (67.00 करोड़ रुपए), मद्रास फर्टिलाइजर लि. (35.00 करोड़ रुपए), नेशनल फर्टिलाइजर लि. (60.00 करोड़ रुपए), पारादीप फास्फेट लि. (95.00 करोड़ रुपए), प्रोजेक्ट एण्ड डेवलपमेंट लि. (7.00 करोड़ रुपए), पाइराइट्स फास्फेट्स एण्ड कैमिकल्स लि. (3.50 करोड़ रुपए), राष्ट्रीय कैमिकल्स एण्ड फर्टिलाइजर लि. (68.00 करोड़ रुपए), 'क्रिबको' (21.00 करोड़ रुपए), 'इफ्को' (130.00 करोड़ रुपए) और अन्य योजनाए (29.23 करोड़ रुपए) ।

पेट्रो-रसायन उद्योग : इस क्षेत्र के लिए जितना परिव्यय रखा गया है, वह निम्नलिखित उद्योग समूहों के लिए रखे गए परिव्ययों के जोड़ के बराबर हैं:

i) पेट्रो-रसायन, और
ii) पेट्रो-रसायन और प्राकृतिक गैस मंत्रालय के अन्तर्गत पेट्रोलियम तेल शोधक कारखानों का पेट्रो-रसायन भाग।

वर्ष 1990-91 के लिए बजट अनुमान 580.77 करोड़ रुपए का है जिसमें मुख्य रूप से इण्डियन पेट्रोकेमिकल्स कारपोरेशन लि. के 256.00 करोड़ रुपए के और पेट्रोफिल्स कोआपरेटिव लि. के 66.00 करोड़ रुपए तक के आन्तरिक संसाधन शामिल हैं ।

Rs.25,000/- for Service and Rs.15,000/- for starting business ventures. Interest charged by the banks on each loan contracted is 10% for backward areas and 12% in other areas. The scheme is meant for lower income sections of the society and as such the family income of the beneficiaries should not exceed Rs.10,000 per annum. Further there is reservation of 30% for Scheduled Castes/Scheduled Tribes. A special feature of the scheme is that 25% of the loan is paid as capital subsidy by the Government of India to the lending bank to be ultimately passed on to the beneficiaries.

Iron and Steel Industries : The outlay for 1990-91 is Rs.2734.71 crores which will be financed by a budgetary support of Rs.267.50 crores and internal and extra-budgetary resources of Rs.2467.21 crores. The outlay for Steel Authority of India (SAIL) has been set at Rs.1975.25 crores for the various Plants under its control (Bokaro-Rs.180.00 crores, Bhilai-Rs. 310 crores, Rourkela - Rs.500.00 crores, Durgapur-Rs.840.00 crores, Alloy Steel Plant-Rs.22.00 crores, Salem Steel Plant-Rs.35.00 crores and R&D Rs.15.00 crores). An outlay of Rs.566.00 crores has been provided for the Steel Plant at Visakhapatnam.

Non-ferrous Mining and Metallurgical Industry : The outlay for 1990-91 is Rs.652.51 crores (including internal and extra budgetary resources of Rs.597.51 crores). The break-up of the gross outlay is as under:–

(a) Aluminium (Rs159.34 crores);
NALCO Rs.90.00 crores and BALCO Rs.69.34 crores.

(b) Copper (Rs.55.00 crores);
The outlay is exclusively for Hindustan Copper Limited.

(c) Zinc and Lead (Rs.366.00 crores).

(d) Gold (Rs.2.00 crores)

(e) Mineral exploration and development (Rs.24.94 crores).

(f) Geological Survey of India (Rs. 29.74 crores) and Indian Bureau of Mines (Rs.7.41 crores).

(g) Works outlay for Geological Survey of India and Indian Bureau of Mines (Rs.0.25 crores).

(h) Science & Technology Programmes (Rs.7.83 crores).

Cement and Non-metallic Mineral Industries : Outlay for 1990-91 is Rs.67.00 crores which is entirely for the Cement Corporation of India.

Fertilizer Industries: The outlay for 1990-91 is Rs.660.73 crores, of which an amount of Rs.582.36 crores will be met from the Internal and Extra Budgetary Resources. The outlay of Rs.660.73 crores is for Fertilizers and Chemicals Travancoro (Rs.80.00 crores), Fertilizer Corporation of India (Rs.65.00 crores), Hindustan Fertilizer Corporation (Rs.67.00 crores), Madras Fertilizers Ltd. (Rs.35.00 crores), National Fertilizer Ltd. (Rs.60.00 crores), Paradeep Phosphate Ltd. (Rs.95.00 crores), Project and Development !ndia Ltd. (Rs.7.00 crores), Projects Phosphates & Chemicals Ltd. (Rs.3.50 crores), Rashtriya Chemicals & Fertilizers Ltd. (Rs.68.00 crores), KRIBCO (Rs. 21.00 crores), IFFCO (Rs.130.00 crores) and Other Schemes (Rs.29.23 crores).

Petrochemical Industries : The outlay for this sector is the aggregate of the outlays provided for :

i) Petro-chemicals and
ii) Petro-chemical portion of the petroleum refineries with the Ministry of Petroleum and Natural Gas.

The budget estimate for 1990-91 is Rs.580.77 crores mainly consisting of internal resources of Indian Petrochemicals Cooperation Ltd. (IPCL) to the tune of Rs.256.00 crores and Petrofils Cooperasives Ltd. (PCL) to the extent of Rs.66.00 crores.

रसायन उद्योग : वर्ष 1990-91 के लिए 90.85 करोड़ रुपए का परिव्यय रखा गया है जिसमें 0.20 करोड़ रुपए बजट समर्थन और 90.65 करोड़ रुपए आई.ई.बी.आर. के होंगे (हिन्दुस्तान आर्गेनिक कैमिकल्स लि.-50.00 करोड़ रुपए, हिन्दुस्तान एण्टीबायटिक्स लि.-25.00 करोड़ और इण्डियन ड्रग्स एण्ड फार्मास्यूटिकल्स लि.-8.90 करोड़ रुपए)।

इंजीनियरी उद्योग : वर्ष 1990-91 के लिए आयोजना परिव्यय 554.92 करोड़ रुपए रखा गया है। इसमें मुख्य रूप से इंजीनियरी एककों के लिए 490.00 करोड़ रुपए, नौवहन में इंजीनियरी उद्योगों के लिए 13.00 करोड़ रुपए और बड़े तथा मध्यम दर्जे के इंजीनियरी उद्योगों के लिए 3.10 करोड़ रुपए की राशि शामिल है।

दूर-संचार और इलेक्ट्रानिक उद्योग : वर्ष 1990-91 के संबंध में बजट अनुमान 328.40 करोड़ रुपए के है। परिव्यय में प्रौद्योगिकी विकास परिषद (टी.डी.सी.) परियोजनाएं, इलेक्ट्रोनिक सामग्री विकास कार्यक्रम, भारतीय माइक्रो इलेक्ट्रोनिक्स कार्यक्रम, कम्प्यूटर मेन फ्रेम का निर्माण, मानकीकरण संबंधी गतिविधि कार्यक्रम, अन्य कार्यक्रम, केन्द्रीय इलेक्ट्रोनिक्स लिमिटेड, भारतीय इलेक्ट्रोनिकी निगम के लिए व्यवस्था और एस.सी.एल., सी.एम.सी. और ई.टी.टी. एण्ड डी.सी. के लिए निवेश शामिल है। संचार विभाग के अन्तर्गत रखा गया परिव्यय भारतीय टेलीफोन उद्योग और हिन्दुस्तान टेलिप्रिन्टर्स लिमिटेड के लिए है।

उपभोक्ता उद्योग : इसके अंतर्गत खाद्य और नागरिक आपूर्ति मंत्रालय, सरकारी उद्यम विभाग तथा वस्त्र मंत्रालय के उपभोक्ता उद्योगों के लिए व्यवस्था की गई है। वर्ष 1990-91 के लिए परिव्यय 325.22 करोड़ रुपए का है। नागरिक आपूर्ति के अंतर्गत परिव्यय भारतीय मानक ब्यूरो के लिए है जबकि खाद्य संसाधन उद्योग मंत्रालय के अंतर्गत मार्डन फूड इंडस्ट्रीज के लिए ऋण इक्विटी सहायता देने हेतु है। सरकारी उद्यमों के अंतर्गत उपभोक्ता उद्योगो के लिए परिव्यय राष्ट्रीय न्यूजप्रिंट और पेपर मिल, हिन्दुस्तान पेपर कारपोरेशन, भारतीय टायर निगम तथा हिन्दुस्तान फोटो फिल्म मैन्यूफैक्चरिंग कंपनी से संबंधित है। वस्त्र उद्योग के अंतर्गत राष्ट्रीय वस्त्र निगम, ब्रिटिश इंडिया कारपोरेशन, और राष्ट्रीय जूट विनिर्माण निगम के लिए परिव्यय की व्यवस्था की गई है।

परमाणु ऊर्जा उद्योग : वर्ष 1990-91 के लिए कुल परिव्यय 271.83 करोड़ रुपए है। इसमें मरूगुरू और (38.50 करोड़ रुपए) और हाजिरा (33.37 करोड़ रुपए) में भारी पानी परियोजनाएं पूरा करने के लिए और भारी पानी का नई परियोजनाएं शुरू करने के लिए (22.16 करोड़ रुपए) तथा मौजूदा संयंत्रों में सुधार करने सहित उनके नवीकरण व प्रतिस्थापन के लिए (8.78 करोड़ रुपए), भाभा परमाणु अनुसंधान केन्द्र की ईंधन पुनर्ससाधन तथा अन्य औद्योगिक परियोजनाओं के लिए (43.33 करोड़ रुपए) 106.16 करोड़ रुपए का परिव्यय शामिल है। न्यूक्लीयर फ्यूल काम्प्लैक्स के लिए 46.00 करोड़ रुपए की व्यवस्था की गई है जो मुख्य रूप से ईंधन निर्माण संयंत्र और जरक्लोय एवं जरकोनियम संयंत्रों के विस्तार तथा परमाणु बिजली केन्द्रों की जरूरतों को पूरा करने के लिए दो नए यूरेनियम आक्साइड ईंधन संयंत्रों की स्थापना करने के लिए है

अन्य उद्योग : वर्ष 1990-91 के लिए 11.65 करोड़ रुपए का परिव्यय रखा गया है।

उद्योगों तथा खनिजों के अंतर्गत अन्य परिव्यय : वर्ष 1990-91 के बजट में 370.25 करोड़ रुपए का परिव्यय रखा गया है। 1990-91 में जो परिव्यय रखा गया है, वह औद्योगिक वित्तीय संस्थानों और पिछड़े क्षेत्रों में नए औद्योगिक एककों को आर्थिक सहायता देने के लिए है।

परिवहन

रेलवे : रेलवे की अतिआवश्यक आवश्यकताओं को दृष्टिगत रखते हुए वर्ष 1990-91 के लिए परिव्यय 5000 करोड़ रुपए निर्धारित किया गया है। इससे निम्नलिखित के लिए रेलवे समर्थ हो पाएगा : (i) 26,500 वैगनों, 299 लोकोमोटिव्स, 1734 कोच और 222 ई.एम.यू. की खरीद; (ii) 3500 ट्रेक किलोमीटर के नवीकरण का कार्य प्रारम्भ करना; (iii) 1040 किलोमीटर के विद्युतीकरण का कार्य प्रारम्भ करना, जिसमें वर्ष 1989-90 के दौरान 417 किलोमीटर लाईन को पूरा करना शामिल हैं; (iv) 300 किलोमीटर नई लाइनों को पूरा करना।

पत्तन और दीपस्तम्भ : पत्तन क्षेत्र की नीति में निम्नलिखित तरीकों से बड़े पत्तनों का विकास करने के लिए जोर दिया गया है (i) कन्टेनर कार्यों के लिए पत्तन सुविधाओं का विस्तार करना, (ii) अन्य पत्तन सुविधाओं का आधुनिकीकरण और विस्तार, (iii) बड़े जहाजों को घाट लगाने के लिए चुने हुए मुख्य पत्तनों पर गोदी (ड्राफ्ट) को गहरा करना, (iv) तलकर्षण सुविधाओं का विस्तार करना और, (v) बड़े पत्तनों के पूरक के रूप में

Chemical Industries : The outlay for 1990-91 is Rs. 90.85 crores with a budgetary support of Rs. 0.20 crores and I.E.B.R. of Rs. 90.65 crores, Hindustan Organic Chemicals Ltd. Rs.50.00 crores Hindustan Antibiotics Ltd.-25.00 crores, Indian Drugs & Pharmaceuticals Ltd.-Rs.8.90 crores.

Engineering Industries : The Plan outlay for 1990-91 is Rs.554.92 crores. It mainly consists of Rs. 490.00 crores for Engineering Units, Rs. 13.00 crores for Engineering Industries in Shipping and Rs.3.10 crores for large and medium engineering industries.

Telecommunication and Electronic Industries: The Budget Estimate for 1990-91 is Rs.328.40 crores. The outlay includes provisions for Technology Development Council (TDC) projects. Electronics Material Development Programme, Indian Micro Electronics Programme, Manufacture of Computer Main Frame, Standardisation Activities programme, other programmes, Central Electronics Ltd., Electronics Corporation of India and for investment in SCL, CMC and ETT & DC. The outlay under the Department of Communication is for Indian Telephone Industries and Hindustan Teleprinters Limited.

Consumer Industries. The outlays relating to consumer industries under the Ministry of Food and Civil Supplies, Public Enterprises and Textiles have been included. The Outlay for 1990-91 is Rs.325.22 crores. The outlay under Civil Supplies relates to Bureau of Indian Standards while under Ministry of Food Processing Industries it is extension of loan and equity support to Modern Food Industries. The outlay for consumer industries under the Department of Public Enterprises relates to National Newsprint and Paper Mills, Hindustan Paper Corporation, Tyre Corporation of India and Hindustan Photo-films Manufacturing Co. The outlay for textiles relates to National Textile Corporation, British India Corporation and National Jute Manufactures Corporation.

Atomic Energy Industries: The total outlay for 1990-91 is Rs.271.83 crores. This includes Rs.106.16 crores for completion of Heavy Water Projects at maruguru (Rs.38.50 crores) and Hazira (Rs.33.37 crores) and for starting new Heavy Water Projects (Rs.22.16 crores) and renewals and replacements including improvement to existing plants (Rs.8.78 crores), Fuel Reprocessing and other industrial projects of Bhabha Atomic Research Centre (Rs.43.33 crores). A provision of Rs.46 crores has been made for Nuclear Fuel Complex mainly for expansion of Fuel Fabrication Plant and Zircaloy and Zirconium Plants and for setting up of two Uranium Oxide Fuel Plants to meet tne needs of Atomic Power Stations.

Other Industries: The outlay for 1990-91 is Rs.11.65 crores.

Other outlays on Industries and Minerals: The outlay for 1990-91 is Rs.370.25 crores. The outlay in 1990-91 is for industrial financial institutions and subsidy to new industrial units in backward areas.

TRANSPORT

Railways : Keeping in view the essential needs of Railways, the outlay for 1990-91 has been fixed at Rs.5000 crores. It would enable the Railways to (i) procure 26,500 wagons, 299 locomotives and 1734 coaches and 222 EMUs; (ii) undertake renewals of 3500 track kilometres; (iii) commission electrification of 1040 route kilometres including 417 route kilometers completed substantially in the year 1989-90 and (iv) complete 300 Kms of new lines.

Ports and Lighthouses: The policy thrust in the port sector envisages development of major ports by (i) expansion of port facilities for container cargo; (ii) modernisation and expansion of other port facilities; (iii) deepening of draft at selected major ports to receive larger vessels; (iv) augmentation of dredging facilities, and (v) devel-

भूमिका अदा करने के संबंध में चुने हुए छोटे पत्तनों का विकास करना।

1990-91 के लिये आयोजना परिव्यय 539.78 करोड़ रुपए निर्धारित किया गया है । दीपस्तम्भों के विकास से संबंधित व्यवस्था को बढ़ा दिया गया है ताकि दीपस्तम्भों के विकास तथा समुद्री सहायता संबंधी अन्य आवश्यकताओं को पूरा किया जा सके ।

नौवहन : भारतीय नौवहन उद्योग के विकास और विस्तार के लिए वर्ष 1990-91 के लिए 744.00 करोड़ रुपए का परिव्यय रखा गया है । इसमें भारतीय नौवहन निगम के लिए उच्च परिव्यय शामिल है।

नागर विमानन : नागर विमानन क्षेत्र के लिए 1990-91 के परिव्यय में 520.57 करोड़ रुपए निर्धारित किए गए हैं, इसमें एयर इंडिया 147.50 करोड़ रुपए, इंडियन एयरलाइन्स 207.50 करोड़ रुपए, आई.ए.ए.आई. 65.00 करोड़ रुपए, वायुदूत 8.00 करोड़ रुपए, नेशनल एयरपोर्ट अथोरिटी 79.59 करोड़ रुपए और पवनहंस 2.70 करोड़ रुपए शामिल हैं।

सड़कें और पुल : देश के राष्ट्रीय राजमार्गों के निर्माण, विकास और अनुरक्षण के क्षेत्र में काफी प्रगति की गई है । सामरिक और अन्तर-राज्यीय महत्व की सड़कों की देखभाल केन्द्र सरकार द्वारा की जाती है । राष्ट्रीय अर्थव्यवस्था के विकास के लिये सड़कों के महत्व को देखते हुए 1990-91 के संदर्भ में 460.00 करोड़ रुपए का परिव्यय रखा गया है । इसमें राष्ट्रीय राजमार्गों के निर्माण और विकास के लिए (418.00 करोड़ रुपए), सामरिक महत्व की सड़कों के लिए और अन्तर्राज्यीय महत्व के पुलों के लिये (25.00) करोड़ रुपये की व्यवस्था शामिल है ।

सड़क परिवहन : सरकार सड़क परिवहन के बारे में व्यापक नीतियां बनाने पर विचार कर रही है जिसमें राज्य परिवहन उपक्रमों का प्रबन्ध, राज्य सड़क परिवहन निगम से संबंधित मोटर वाहन कानून भी शामिल है। 1990-91 के लिये परिव्यय की राशि 81.00 करोड़ रुपए रखी गई है। इस राशि में शामिल परिव्यय इस प्रकार है : राज्य सड़क परिवहन निगमों को केन्द्रीय सरकार के द्वारा दिये जाने वाले अंशदानों के लिये 27.00 करोड़ रुपए (2) दिल्ली परिवहन निगम के लिये 50.00 करोड़ रुपये और (3) अनुसंधान और विकास की अन्य योजनाओं के लिये 3.90 करोड़ रुपये, राष्ट्रीय सड़क परिवहन विकास वित्त निगम के लिये 0.10 करोड़ रुपए ।

अन्तर्देशीय जल परिवहन : वर्ष 1990-91 के लिए 57.00 करोड़ रुपए का परिव्यय रखा गया है । यह व्यवस्था मुख्य रूप से सी.आई.डब्ल्यू.टी.सी. में निवेश किए जाने और आई.डब्ल्यू.ए.आई. को अनुदान देने के लिए है।

अन्य परिवहन सेवाएं : फरक्का बराज परियोजना का उद्देश्य भागीरथी हुगली नदी प्रणाली के क्षेत्र (रिजीम) और नैगम्यता में सुधार द्वारा कलकत्ता बंदरगाह का परिरक्षण और रख रखाव करना है । 1990-91 के लिये 13.00 करोड़ रुपए का परिव्यय निर्धारित किया गया है ।

संचार

डाक सेवाएं : 1990-91 के बजट अनुमानों में 60.00 करोड़ रुपए के परिव्यय की व्यवस्था की गई है । इस परिव्यय के एक बड़े भाग (35.00 करोड़ रुपए) को डाक-घरों के भवनों के निर्माण पर खर्च करने का प्रस्ताव है । डाक प्रणाली के आधुनिकीकरण और उसके मशीनीकरण के लिए 15.00 करोड़ रुपए की राशि की व्यवस्था की गई है । "स्पीड पोस्ट", जिसके अंतर्गत डाक को विशिष्ट स्थानों पर 24 घंटों से 72 घंटों के अंदर पहुंचाने की गारंटी होती है, के लिये 2.50 करोड़ रुपए की राशि की व्यवस्था की गई है ।

दूर-संचार सेवाएं : 2652.50 करोड़ रुपए के अनुमोदित परिव्यय की राशि को बढ़ा कर संशोधित अनुमानों में 2700 करोड़ रुपए कर दिया गया है । इस वृद्धि का मुख्य कारण चालू परियोजनाओं का जल्दी पूरा किया जाना और दूरसंचार नेटवर्क का विस्तार करना / उसमें सुधार लाना है । संशोधित परिव्यय में हुई वृद्धि को भारतीय यूनिट ट्रस्ट से ऋण लेकर तथा बांडों के रूप में बजटेतर साधन जुटा कर पूरा किया जा रहा है । 1990-91 के लिये 2875 करोड़ रुपए का परिव्यय रखा गया है जिसका वित्तपोषण मुख्यतः दूरसंचार क्षेत्र के आंतरिक और बजटेतर साधनों से किया जायेगा । वर्ष 1990-91 के दौरान दूरसंचार सेवाओं से संबंधित परिव्यय मुख्यतः सामग्री की अधिप्राप्ति के लिये है क्योंकि दूरसंचार विभाग की योजना में सामग्री पर अधिक बल दिया गया है । इस संबंध में वस्तुपरक लक्ष्यों के अंतर्गत 6.5 लाख टेलीफोन लाइनों की अतिरिक्त

opment of selected minor ports to play a complementary role to major ports.

The Plan outlay for 1990-91 has been placed at Rs.539.78 crores. The provision for the development of Lighthouses has been increased for meeting increased requirements for development of Lighthouses and other navigational aids.

Shipping: For development and expansion of Indian shipping industry. The outlay for 1990-91 has been kept at Rs.744.00 crores. This includes higher outlay for Shipping Corporation of India.

Civil Aviation: The outlay for 1990-91 for the Civil Aviation Sector has been fixed at Rs.520.57 crores. This includes provision for Air India Rs.147.50 crores, Indian Airlines Rs.207.50 crores, I.A.A.I. Rs.65.00 crores, Vayudoot Rs.8.00 crores, National Airports Authority Rs.79.59 crores and Pawan Hans Rs.2.70 crores.

Roads and Bridges : Considerable progress has been made in construction, development and maintenance of National Highways in the country. Strategic and roads of inter-state importance are also looked after by the Central Government. Keeping in view the importance of Roads for development of National economy, the outlay for 1990-91 has been kept at Rs. 460.00 crores. This includes provision for construction and development of National Highways (Rs.418.00 crores), Strategic Roads and Bridges of Inter-State importance (Rs.25.00 crores).

Road Transport: The Government is concerned with broad policies relating to Road Transport including management of State Transport Undertakings and Motor Vehicles Legislation relating to State Road Transport Corporations. The outlay for 1990-91 has been kept at Rs. 81.00 crores. It includes an outlay of Rs.27.00 crores for Central Government contribution to State Road Transport Corporation, (ii) Rs. 50.00 crores for Delhi Transport Corporation, and (iii) Rs. 3.90 crores for other Schemes of Research and Development, Rs.0.10 crores for National Road Transport Development Financial Corporation.

Inland Water Transport: The outlay for 1990-91 is Rs.57.00 crores. The provision is mainly for investment in CIWTC and grants to IWAI.

Other Transport Services: The Farakka Barrage project is intended to preserve and maintain the Calcutta Port by improving the regime and navigability of the Bhagirathi Hoogly River system. The outlay for 1990-91 is Rs.13.00 crores.

COMMUNICATION

Postal Services : An outlay of Rs. 60.00 crores has been provided in Budget Estimates 1990-91. A major portion of this outlay (Rs.35.00 crores) is proposed to be spent on construction of Postal Buildings. An amount of Rs. 15.00 crores has been provided for mechanisation and modernisation of postal system. Rs. 2.50 crores has been provided for speed post with guaranteed delivery to specific destinations within 24 hours to 72 hours.

Telecommunication Services: The approved outlay of Rs.2652.50 crores has been raised to Rs. 2700.00 crores in the revised estimates. The step-up is mainly for early completion of the ongoing projects, and expansion/improvement of telecommunication network. The increase in the revised outlay is being financed by raising the extra-budgetary resources in the form of loan from UTI and bonds. The outlay for 1990-91 has been kept at Rs.2875.00 crores which will be financed predominantly from the internal and extra budgetary resources of the Telecommunication Sector. **The outlay for Telecommunication services during 1990-91 is mainly for the procurement of material as the plan of DOT is material intensive. The physical targets envisaged are for provision of 6.5 lakhs additional**

स्विचिंग क्षमता (5.50 लाख सीधी एक्सचेंज लाइनों), 33700 लाइनों की क्षमता वाले 8 ट्रंक स्वचालित एक्सचेंजों, 60 हस्तचालित ट्रंक बोर्डों, को एक्सियल केबिल प्रणालियों के 3172 मार्ग-किलोमीटर, माइक्रोवेव प्रणालियों के 3482 मार्ग-किलोमीटर, यू.एच.एफ. प्रणालियों के 2420 मार्ग- किलोमीटर, आप्टिकल फाइबर केबल के 5493 मार्ग-किलोमीटर, 18000 दूरवर्ती सार्वजनिक टेलीफोन, 1766 टेलेक्स स्थानीय लाइनों और 1626 टेलेक्स मार्गस्थ लाइनों तथा इसके साथ ही दूरसंचार नेटवर्क को सुदृढ़ बनाने व सेवा की कोटि में सुधार लाये जाने का विचार है।

अन्य संचार सेवाएं : इसके अंतर्गत मुख्य रूप से विदेश संचार निगम लि. के लिए 112.87 करोड़ रुपए के परिव्यय की व्यवस्था की गई है, जिसे आंतरिक संसाधनों द्वारा पूरा किया जाएगा ।

विज्ञान, प्रौद्योगिकी और पर्यावरण

परमाणु ऊर्जा अनुसंधान : वर्ष 1990-91 के परिव्यय में 112.00 करोड़ रुपए की राशि निर्धारित की गई है । वर्ष 1990-91 के परिव्यय में मुख्य रूप से भाभा परमाणु अनुसंधान केन्द्र में परमाणु ऊर्जा कार्यक्रमों की प्रौद्योगिकी के अनुसंधान और विकास को जारी रखने, इन्दौर स्थित उन्नत प्रौद्योगिकी का इंदिरा गांधी परमाणु अनुसंधान केन्द्र, टाटा आधारभूत अनुसंधान संस्थान, टाटा स्मारक केन्द्र और साहा नाभिकीय भौतिकी संस्थान और नाभिकीय विज्ञान के क्षेत्र में अनुसंधान करने वाली अन्य संस्थाओं को वित्तीय सहायता देने के लिए, राष्ट्रीय कार्यक्रमों के लिए और विभाग के विभिन्न अनुसंधान और विकास एककों की आवास सुविधाओं के लिए की व्यवस्था शामिल है ।

अंतरिक्ष अनुसंधान : विज्ञान और प्रौद्योगिकी क्षेत्र के अन्तर्गत चालू योजनाओं/परियोजनाओं के लिए अनुमोदित परिव्यय का संबंध इनसे है :- वी.एस.एस.सी., एस.ए.सी., आई.एस.ए.सी., एस.एच.ए.आर., एल.पी.एस.सी., आई.एस.टी.आर.ए.सी., पी.आर.एल. और एन.आर.एस.ए. के संगठन एवं आधारभूत अनुरक्षण तथा बड़े प्रक्षेपण वाहन/उपग्रह परियोजनां जैसे पी.एस.एल.वी.,आई.आर.एस./यू.पी., और इन्सेट-II परीक्षण अन्तरिक्ष यान । विशेष सुविधाओं के संवर्धन सहित नयी योजनाओं/परियोजनाओं, एम.आर.एस.पी., जी.एस.एल.वी., सिरोजेनिक्स, ए.एस.एल. वी., एस.आर.ओ. एस.एस., और आई.आर.एस. को जारी रखना और इनके परिचालन संबंधी कार्य करना । इसके अतिरिक्त, संचार, सुदूर संवेदन और प्रक्षेपण वाहन विकास संबंधी उन्नत अनुसंधानऔर विकास तथा विविध परियोजनाओं तथा अंतरिक्ष विज्ञान के लिए व्यवस्था की गई है । वर्ष 1990-91 के लिए 323.00 करोड़ रुपए के परिव्यय की व्यवस्था की गई है ।

समुद्रविज्ञान अनुसंधान : 1990-91 के लिए 35.00 करोड़ रुपए का परिव्यय रखा गया है । महासागर क्षेत्र में जीवित और जड़ संसाधनों के अनुकूलतम उपयोग तथा सर्वेक्षण के संवर्द्धन, अंटार्कटिका अनुसंधान, गहरे समुद्र की तह में बहुधात्विक ग्रंथिकाओं की खोज, नवीकरण योग्य ऊर्जा के स्रोतों जैसे-समुद्र तापीय ऊर्जा के उपयोग, लहरों से ऊर्जा प्राप्त करना तथा सामुद्रिक प्रौद्योगिकी और जलशक्ति के विकास के लिए आधारभूत ढांचा तैयार करने पर मुख्य जोर दिया गया है । इस विभाग द्वारा अंटार्कटिका में दक्षिण गंगोत्री और 'मैत्री' नामक दो स्थायी केन्द्रों की स्थापना की गई है ।

अन्य वैज्ञानिक अनुसंधान : इस शीर्ष के अंतर्गत वैज्ञानिक एवं औद्योगिक अनुसंधान परिषद् की आयोजनागत स्कीमों और विज्ञान और प्रौद्योगिकी विभाग के अन्य कार्यक्रमों के परिव्यय के लिए व्यवस्था की गई है । वर्ष 1990-91 के लिए अनुमोदित परिव्यय 268.40 करोड़ रुपए का है । विज्ञान और प्रौद्योगिकी विभाग के अंतर्गत रखे गए परिव्यय की व्यवस्था पहले से ही जारी योजनाओं ओर नई योजनाओं के लिये है । कुछ विशिष्ट क्षेत्रों में विज्ञान और प्रौद्योगिकी संबंधी अभियान जारी हैं । इसके अतिरिक्त कई अन्य कार्यक्रम भी आरम्भ किये गये हैं, विशेष रूप से सुपर-कंडक्टिविटी, मौसम की भविष्यवाणी करने वाले मध्यम रेंज के यंत्रों के क्षेत्र में तथा भारत और सोवियत रूस के बीच दीर्घावधिक एकीकृत सहयोग कार्यक्रम आदि । 1990-91 के लिए अनुमोदित परिव्यय 62.50 करोड़ रुपए रखा गया है । इस परिव्यय में जैव-प्रौद्योगिकी अनुसंधान, जनशक्ति विकास, बुनियादी सुविधाओं के विकास, अनुसंधान एवं विकास पर आधारित विनिर्माण संबंधी क्रियाकलापों के लिए सहायता अनुदान की राशि और राष्ट्रीय प्रतिरक्षा संस्थान के लिए अनुदान शामिल है ।

पारिस्थितिकी और पर्यावरण : 1990-91 के लिए आवंटन की राशि 106.97 करोड़ रुपए है । इसमें संरक्षण और सर्वेक्षण कार्यों, गंगा प्रदूषण नियंत्रण, पारिस्थितिक विकास और वायु और जल-प्रदूषण की रोकथाम के लिए धनराशि की व्यवस्था की गई है ।

switching capacity of telephone lines (5.50 lakh direct exchange lines), 8 trunk automatic exchanges with a capacity of 33700 lines, 60 manual trunk boards, 3172 route-kilometres of co-axial cable systems, 3482 route-kilometres of microwave systems, 2420 route-kilometres of UHF systems, 5493 route-kilometres of optical fibre cables, 18000 long distance public telephones, 1766 telex local lines and 1626 telex transit lines, apart from consolidating the net-work and improving the quality of service.

Other Communication Services: Outlay of Rs.112.87 crores is mainly for Videsh Sanchar Nigam Ltd., to be met from internal resources.

SCIENCE,TECHNOLOGY AND ENVIRONMENT

Atomic Energy Research: The outlay for 1990-91 is Rs. 112.00 crores. The outlay for 1990-91 is mainly for continuing research and development of technologies involved in the atomic energy programme at the Bhabha Atomic Research Centre, Indira Gandhi Centre for Atomic Research, Centre for Advanced Technology at Indore, Tata Institute of Fundamental Research, Tata Memorial Centre and Saha Institute of Nuclear Physics and other institutions for carrying out research in the field of nuclear science, National Programmes and for providing housing facilities for the various research and development units of the Department.

Space Research: The approved outlay on ongoing schemes/projects under S&T Sector include provision for Organisation and Infrastructure Maintenance of VSSC, SAC, ISAC, SHAR, LPS, ISTRAC, PRL & NRSA and provision for major launch vehicle/satellite projects like PSLV, IRS, IRS-UP, INSAT-II Test Spacecraft, for New Schemes/Projects including augmentation of special facilities, MRSP,GSLV, Cyrogenics continuation/operationalisation of ASLV, SROSS & IRS. Besides these, provision is made for Advanced R&D and Miscellaneous Projects on communications, remote sensing, launch vehicle development and Space Sciences. The outlay for 1990-91 is Rs.323.00 crores.

Oceanographic Research: The outlay for 1990-91 is Rs. 35.00 crores. In the Ocean Sector the main emphasis has been on promotion of survey & optimum utilisation of living and non–living resources, Antarctic Research exploration of Polymetallic Nodules from the deep sea-bed, harnessing of renewable resources of energy such as ocean thermal energy, energy from waves and creation of infrastructure for the development of marine technology and manpower. The Department has set up two permanent stations named 'Dakshin Gangotri' and Maitri Antarctica.

Other Scientific Research : This head provides outlays for Plan schemes of the Council of Scientific and Industrial Research and other programmes of the Department of Science Technology. The approved outlay for 1990-91 it is Rs. 268.40 crores. The outlay under Department of Science and Technology is for continuing schemes and new schemes. Science and Technology Missions in some selected areas are under progress. Further some more programmes have been initiated particularly in the field of super conductivity, medium range weather forecasting and Long term integrated programme of cooperation between USSR and India. In the Department of Bio-technology the approved outlay for 1990-91 is Rs. 62.50 crores. The outlay includes grants-in-aid for bio-technology research, manpower development, development of infra-structural facilities, R&D base, manufacturing activities and grants to National Institute of Immunology.

Ecology and Environment : The allocation for 1990-91 is Rs. 106.97 crores. It consists of provision for conservation and survey, Ganga Pollution Control, ecology and development and prevention of air and water pollution.

सामान्य आर्थिक सेवाएं

•वर्ष 1984-85 तक डाक घाटा संचार प्राप्तियों द्वारा पूरा किया गया था। उसके बाद यह सामान्य राजस्वों से पूरा किया जा रहा है। 31.3.1985 तक "3.07 संचार" के अंतर्गत नकारात्मक व्यय के लिए खातों, पूर्ववर्ती समुद्र पारीय संचार सेवाओं (जो 31.3.86 तक सरकार का विभागीय वाणिज्यिक उपक्रम था) की अतिरिक्त प्राप्तियों के साथ मिला दिया गया है।

** Upto the year 1984-85 Postal Deficit was met by Telecommunications receipts. Thereafter it is being met from General Revenues.This coupled with surplus receipts of the erstwhile Overseas Communications Service(which was a Departmental Commercial Undertaking of Government upto 31-3-1986), accounts for the negative expenditure under "3.07 Communications" upto 31-3-1985.*

* *इसमें शहरी विकास मंत्रालय की मांग में निर्माण कार्य परिव्यय के लिए की गई व्यवस्था शामिल है।*

* *Inclusive of Works outlay provided in the Demands of the Ministry of Urban Development*

76. लोक निर्माण कार्य	76. Public Works	12401	...	...	...	0.37	...	0.37	...	...	...

1. यह व्यवस्था कृषि और सहकारिता विभाग के सचिवालय तथा काउंसलर (कृषि) भारतीय दूतावास, रोम के व्यय के लिए है।

2.. राष्ट्रीय बीज निगमः अन्य बातों के अलावा, राष्ट्रीय बीज परियोजना जैसी परियोजनाओं को क्रियान्वित करने वाला एक संवर्द्धनात्मक और विकासात्मक संगठन है । यह निगम कृषि विश्वविद्यालयों, राज्य बीज निगमों और पंजीकृत उत्पादकों के माध्यम से राष्ट्रीय स्तर पर बुनियादी तथा प्रमाणित बीजों का उत्पादन करने के लिए आयोजना तथा संगठनात्मक कार्य करने और बीजों का अन्तर्राज्यीय स्तर पर विपणन करने के लिए जिम्मेदार है।

3. इसमें बीजों के प्रसंस्करण और भंडारण के बुनियादी ढाचें सम्बन्धी सुविधाओं, राष्ट्रीय बीज प्रशिक्षण केन्द्र की स्थापना, बुनियादी और प्रमाणीकृत बीजों के उत्पादन के लिए राज्य फार्म निगम को अनुदान देने, राज्यों के बीज प्रमाणीकरण संगठनों को सुदृढ बनाने के लिए राज्यों को अनुदान देने पर होने वाले व्यय के लिए व्यवस्था शामिल है।

4. मिनिकिट कार्यक्रम का उद्देश्य अद्यतन किस्मों के बीजों को शीघ्रतापूर्वक लोकप्रिय बनाना और देश भर में किसानों के बीच नई उत्पादन प्रौद्योगिकी का प्रचार करना है । नई प्रौद्योगिकी के प्रचार का उद्देश्य पहाड़ी इलाकों में बीजों की रतुए से प्रभावित होने वाली किस्मों का प्रतिस्थापन रतुआ प्रतिरोधी किस्मों से करना है । इस कार्यक्रम में नई उत्पादन प्रौद्योगिकी में विस्तार कार्मिकों को प्रशिक्षण देना भी शामिल है ।

5. यह एक विशेष कार्यक्रम है, जो असम, बिहार, उड़ीसा, पश्चिम बंगाल, मध्य प्रदेश और उत्तर प्रदेश के 430 चुने हुए जिलों में शुरू किया गया है । इसका उद्देश्य अल्पावधिक और दीर्घावधिक दोनों प्रकार की बाधाओं को दूर करना, किसानों को बीजों, कीटनाशकों, उर्वरकों आदि जैसी बेहतर निविष्टियों का इस्तेमाल करने के लिए प्रेरित करने के लिए किसानों को गहन प्रशिक्षण और बेहतर सिंचाई और जल निकासी कार्यक्रमों का विकास करके इन राज्यों में चावल के उत्पादन और उत्पादकता में पर्याप्त वृद्धि करना है । इस व्यय का भार केन्द्र और राज्य-सरकारों द्वारा बराबर-बराबर उठाया जाता है ।

6. यह व्यवस्था चावल और ज्वार-बाजरे के विकास से सम्बधित कार्यक्रमों के लिए है ।

7. दालों के विकास के कार्यक्रम का उद्देश्य बहुफसली कार्यक्रम के अन्तर्गत अल्पावधिक किस्म की दालों को फसलों की खेती के अन्तर्गत दालों की खेती का क्षेत्र बढ़ाकर और दालों की खेती के संबंध में पैकेज पद्धति अपनाकर दालों के उत्पादन में वृद्धि करना है ।

8. कृषि उत्पादन बढ़ाने के उद्देश्य से कृषि निविष्टियों, जैसे उर्वरकों, बीजों और कीटनाशक दवाओं की खरीद और उनके वितरण के लिए राज्य सरकारों को अल्पावधिक ऋण दिए जाते है । ये ऋण छमाही किस्तों में वसूल किए जाते हैं । 1990-91 के बजट में इस संबंध में 310.00 करोड़ रुपए की और 310.00 करोड़ रुपए की वसूलियों की व्यवस्था की गई है ।

9. इसमें जैव-उर्वरकों के विकास और उपभोग से सम्बन्धित व्यय, राज्यों को उर्वरकों की किस्म-नियंत्रण की प्रयोगशालाएं स्थापित करने, उर्वरकों का संतुलित उप्रयोग करने तथा क्षारीय भूमि के भराव और प्रबंध करने के लिए अनुदान देने की व्यवस्था शामिल है । जिसे अब फसल प्रभाग से उर्वरक प्रभाग में अंतरित कर दिया गया है ।

10. इस व्यवस्था का सम्बन्ध इन पर व्यय के लिए हैः- (क) मरूस्थल वाले इलाकों में टिड्डी दल सर्वेक्षण, आसूचना, जांच और नियंत्रण (ख) हानिकर कीड़े और महामारी अधिनियम, 1914 का क्रियान्वयन, (ग) पौधों की महामारियों और हानिकर जीवों को समाप्त करने के लिए राज्यों, संघ राज्य क्षेत्रों और अन्य कार्मिकों को, हानिकर जीवों को मारने वाली दवाओं और उपस्करों के संबंध में तकनीकी सलाह और सहायता देना, (घ) अखिल भारतीय तथा प्रादेशिक स्तर पर महामारियों और पौधों की बीमारियों आदि को दूर करने के लिए तदर्थ सर्वेक्षण और क्षेत्रीय नियंत्रण कम्पलेक्स की व्यवस्था करना और (ङ) टिड्डी दल नियंत्रण तथा पौध संरक्षण आदि के लिए हवाई जहाजों से दवाइयां छिड़कना तथा कृषि रासायनिक दवाइयां छिड़कने का अभियान चलाना ।

1. The provision is for expenditure on secretariat of the Department of Agriculture and Cooperation, and for counsaller (Agriculture) Embassy of India, Rome.

2. National Seeds Corporation is a promotional and developmental organisation for implementing, inter-alia, the National Seeds Project. It is responsible for planning and organising at national level, production of foundation and certified seeds through agricultural universities, State Seeds Corporations, registered growers and for inter-state marketing of seeds.

3. The provision includes expenditure on seed processing and storage-infrastructural facilities, setting up of national seeds training centre, grants to State Farms Corporation for production of foundation and certified seeds, grants to States for strengthening of state seed certification organisations, etc.

4. The minikit programmes aim at quick popularisation of the latest varieties of seeds and propagation of new production technology amongst the farming community all over the country. Propagation of the new technology is with a view to replacement of rust susceptible varieties with rust resistant varieties in hill areas. The programmes include training of extension workers in new production technology.

5. This is a special programme which covers 430 selected blocks in Assam, Bihar, Orissa, West Bengal, Madhya Pradesh and Uttar Pradesh. It seeks to bring about substantial increase in production and productivity of rice in these States by overcoming both short and long term constraints through intensive training of farmers, motivating them to use better inputs like seeds, pesticides, fertilizers etc. and development of better irrigation and drainage programmes. The expenditure is shared equally by Central and State Governments.

6. The provision is for rice and millet development related programmes.

7. The programme for development of pulses aims at raising the production of pulses by increasing the area under these crops by cultivation of short-duration varieties of pulses in multiple crops programme and by adopting package of practices in pulses cultivation.

8. Short term loans are given to State Governments for purchase and distribution of agricultural inputs, i.e.,fertilisers, seeds and pesticides, with a view to improving agricultural production. These loans are recoverable in six months. Budget 1990-91 provides Rs.310.00 crores on this account and assumes recoveries of Rs.310.00 crores.

9. The provision includes expenditure relating to development and use of biofertilizers, grants to states for setting up of fertilizer quality control laboratories, Balanced use of Fertilizer and for Reclumation and Management of Alkalin soils, which is now transfered to Fertilizer Division from Crops Division.

10. The provision is for expenditure relating to (a) locust survey, intelligence, investigation and control in desert areas, (b) implementation of the Destructive Insects and Pests Act, 1914, (c) assistance to States, Union territories and others with technical advice in regard to personnel, pesticides and equipment for fighting pests and plant diseases outbreaks, etc., (d) organisation of surveys of pests and plant diseases of all India and regional importance and (e) aerial spraying and agro-chemical operations for locust control, plant protection, etc,.

11. राष्ट्रीय तेलहन विकास परियोजना का उद्देश्य चुने हुए राज्यों में तेलहनों की प्रत्येक महत्वपूर्ण फसल के संबंध में क्षेत्रीय आधार पर पैकेज प्रणाली अपनाकर और तेलहनों की प्रति हेक्टेयर उत्पादकता बढ़ाकर तेलहनों की उत्पादन बढ़ाने के लिए है। इसका उद्देश्य सूखा प्रतिरोधी और गैर-पारम्परिक तेलहनों की फसलों का विकास करना भी है।

11. The National Oilseeds Development Project aims at increasing production of oilseeds by raising the productivity per hectare and by adoption of package approach on an area basis in respect of each important oil seed crop in selected States. It also seeks to develop drought resistant and non traditional oil seed crops.

12. वर्ष 1987-88 में शुरु की गई तेलहन उत्पादन संवृद्धि परियोजना का उद्देश्य तेलहन उत्पादन में वृद्धि करना है। इस परियोजना के अन्तर्गत मूंगफली, तोरिया, सरसों, सूरजमुखी और सोयाबीन का उत्पादन शामिल है, जो मिलकर तेलहन के फसल-क्षेत्र का 70 प्रतिशत भाग और तेलहन उत्पादन का 84 प्रतिशत भाग है, परियोजना के घटकों में अतिरिक्त बीज उत्पादन, प्रदर्शन, पौध संरक्षण, भूमि के सुधार के लिए जिप्सम की आपूर्ति और बाजार समर्थन प्रणाली शामिल हैं। यह परियोजना चुने हुए जिलों में कार्यान्वित की जाएगी और इसका शत-प्रतिशत वित्तपोषण केन्द्रीय सरकार द्वारा किया जाएगा।

12. The Oilseeds Production Thrust Project introduced in 1987-88, aims at increasing the production of oilseeds. The Project covers ground nut, rape seed, mustard, sunflower and soyabean which together extend to 70% of the area under cultivation of oilseeds and 84% of the production of oilseeds. The components of the Project include additional seed production, demonstration, plant protection, supply of gypsum for soil amendment and market support system. The Project, which will be implemented in selected districts, will be financed 100% by the Central Government.

13. यह व्यवस्था वर्तमान गहन कपास विकास कार्यक्रम को जारी रखने तथा नई सिंचाई परियोजनाओं और अपरम्परागत क्षेत्रों में मौजूदा गहन कपास विकास कार्यक्रम को जारी रखने के लिए है।

13. The provision is for continuation of the existing intensive cotton development programme and its extension to new irrigated areas as well as non-traditional areas.

14. यह व्यवस्था जूट सम्बन्धी विकास कार्यक्रम आदि से सम्बन्धित व्यय के लिए है।

14. The provision is in respect of expenditure on jute development programmes, etc.

15. इस कार्यक्रम में अनेक फसलें जैसे, फल, सब्जियां, पुष्पोत्पादन, खजूर, मसाले, काजू और खुम्भी आदि शामिल हैं। इस कार्यक्रम का मुख्य उद्देश्य फलदार वृक्षों को अच्छी किस्म की रोपण सामग्री पर्याप्त मात्रा में उपलब्ध कराकर, कृषि प्रौद्योगिकियों के प्रदर्शन आयोजित करके और कृषकों को उन्नत प्रौद्योगिकी की प्रभावोत्पादकता की जानकारी देकर उद्यान-कृषि फसलों के उत्पादन और उसकी उत्पादकता की गुणवत्ता में वृद्धि करना है।

15. This programme covers a wide range of crops, such as fruits, vegetables, floriculture, palms, spices, cashewnut mushroom, etc. The main objective of the programme is to increase the production and productivity of horticultural crops by making available adequate planting material of fruit trees of quality, organising demonsrations on agro-techniques and educating farmers on efficacy of improved technology.

16. इस योजना के अन्तर्गत प्रशिक्षण सुविधाओं का आयोजन करने, उन्हें कार्यान्वित करने, और उनका मूल्यांकन करने के लिए तकनीकी मार्गदर्शन और वित्तीय सहायता दी जाती है। इसमें किसानों को समाचार-पत्रों, रेडियो, टेलीविजन, अनुदेशात्मक फिल्में, स्लाइडों और प्रदर्शनियों आदि के जरिए खेती की उन्नत प्रौद्योगिकी की जानकारी देना भी शामिल है।

16. Under the scheme technical guidance and financial assistance are provided for planning, implementation, and evaluation of extension and training facilities. It also includes providing effective dissemination of knowledge and techniques of advanced farm technology to the farmers through press, radio, television, instructional films, slides, exhibitions, etc.

17. फसल बीमा योजना साधारण बीमा निगम द्वारा राज्य सरकारों के साथ सहयोग करके प्रीमीयिम तथा दावों की 2:1 के अनुपात में सह-भागीदारी के आधार पर क्रियान्वित की जा रही है। सभी किसान जो चावल, गेहूं, तिलहन और दालों की फसल उगाने के लिए वित्तीय संस्थाओं से फसल ऋण प्राप्त कर रहे हैं, इस योजना के अन्तर्गत आते हैं। चावल, गेहूं और बाजरे के लिए प्रीमियम की दर बीमाकृत राशि की दो प्रतिशत और तिलहन तथा दालों के लिए बीमाकृत राशि का एक प्रतिशत है। छोटे और सीमान्तिक किसानों के लिए बीमा प्रीमियम के 50 प्रतिशत की आर्थिक सहायता केन्द्र और राज्य सरकारों द्वारा समतुल्य आधार पर दी जाती है। अभी तक 18 राज्यों और तीन संघ राज्य क्षेत्रों ने इस योजना को क्रियान्वित किया है।

17. The Crop Insurance Scheme is implemented by the General Insurance Corporation of India Ltd. in collaboration with the State Governments sharing premium as well as claims with them in the ratio of 2:1. All the farmers availing of crop loans from financial institutions for raising rice, wheat, millets, oilseeds and pulses are covered under the Scheme. The premium rate for rice, wheat and millets is 2% and for oilseeds and pulses, it is 1% of the sums insured. For small and marginal farmers, 50% of the insurance premium is subsidised by the Central and State Governments on a matching basis. So far 18 States and 3 Union Territories have implemented the Scheme.

18. यह व्यवस्था चालू आयोजना-अवधि में की जा रही कृषि-गणना पर होने वाले व्यय के लिए है। इस योजना का मुख्य उद्देश्य कृषि जोतों के ढांचे और उनकी विभिन्न विशेषताओं के बारे में आंकड़े प्राप्त करना है, जो नीति-निर्माण के लिए जरूरी हैं।

18. The provision is for expenditure on agricultural census being carried out in the current Plan period. The main objective of the scheme is to obtain data on the structure of operational holdings and their various charactersitics which are needed for policy purposes.

19. यह व्यवस्था मुख्यतः कृषि-आर्थिक आंकड़ो के संग्रह, संकलन और अनुरक्षण, आर्थिक विश्लेषण और कृषि आर्थिक आसूचना के संकलन और प्रसार की योजनाओं के लिए हैं।

19. The provision is mainly for schemes relating to collection, compilation and maintenance of agro-economic data, economic analysis, compilation and dissemination of agro-economic intelligence.

20. इसका संबंध फार्म मशीनरी प्रशिक्षण और परीक्षण संस्थानों से है, जो कृषि से संबंधित मशीनों के चयन, प्रचालन, अनुरक्षण, सर्विसिंग, कृषि उद्योग निगमों, खेती संबंधी संस्थाओं और इंजीनियरी उद्यमकर्ताओं द्वारा नामित व्यक्तियों को प्रशिक्षण देते हैं।

20. This relates to farm machinery training and testing institutes which provide training to the progressive farmers, technicians, nominees of State Governments, Agro Industries Corporations, farming institutions and engineering entrepreneurs for selection, operation, maintenance, servicing and management aspect of agricultural machinery.

21. छोटे और सीमान्तिक किसानों को आवश्यक निविष्टियां, विशेषकर उर्वरक और सुधरे हुए बीज उपलब्ध कराने के लिए और लघु सिंचाई और जल-प्रबन्ध तथा भूमि विकास कार्यक्रम से भी लाभ प्राप्त करने के लिए राज्य/संघ राज्य क्षेत्रों की सरकारों/ प्रशासनों के माध्यम से वित्तीय सहायता प्रदान की जाती है ।

22 इस योजना के उद्देश्य ये हैं: (i) जल-विभाजक क्षेत्र (वाटर-शेड) को आधार मानकर, कृषि भूमि और बंजर भूमि दोनों का महत्वपूर्ण प्राकृतिक संसाधन के रूप में संरक्षण और उन्नयन (ii) वर्षापोषित कृषि से फसलों के उत्पादन में वृद्धि करना और उसे स्थिर बनाना और भूमि के उपयोग की उपयुक्त प्रणालियों को अपनाकर ग्रामीण समुदायों के ईंधन और चारे के संसाधनों में वृद्धि करना, और (iii) मृदा और नमी के संरक्षण के उपयुक्त उपायों के लिए, जो विभिन्न स्थितियों में आवश्यक होते हैं, प्रौद्योगिकियों का विकास करना और उनका प्रसार करना । यह कार्यक्रम सोलह राज्यों के 94 जिलों में क्रियान्वित किया जाना है । वर्ष 1990-91 के दौरान इस योजना के अन्तर्गत 6.415 लाख हेक्टयर क्षेत्रों को लाने का प्रस्ताव है।

23. इस योजना का उद्देश्य उस भूमि की उत्पादकता को बढ़ाना है जो क्षारीयता और लवणता से प्रभावित है । इस संबंध में होने वाला खर्च राज्य सरकारों के साथ 50:50 के अनुपात में बांटा जाता है । वर्ष 1990-91 के लिए बजट मद सं. 9 के अधीन (खाद तथा उर्वरकों की अन्य योजनाएं) बनाया गया है ।

24. मूल्य-समर्थन अथवा बाजार में हस्तक्षेप करने के उपायों का उद्देश्य यह है कि किसानों को लाभकारी मूल्य प्राप्त हो तथा उत्पादन और उत्पादकता में वृद्धि हो । तेलहनों और आलू तथा प्याज जैसी जल्दी खराब होने वाली चीजों के बारे में ये क्रियाकलाप नेफेड द्वारा किए जाते हैं। केन्द्रीय सरकार ने राज्य सरकारों के अनुरोध पर, जब आवश्यक था, बाजार में हस्तक्षेप किया है ताकि किसानों को सहायता दी जाए, जिससे संकट-बिक्री न करनी पड़े । मार्केट हस्तक्षेप योजना के अन्तर्गत बिक्री का काम नेफेड द्वारा किया जाता है ।

25. यह व्यवस्था निम्नलिखित कम्पनियों की आयोजनागत योजनाओं के लिए दिए जाने वाले बजटीय समर्थन की द्योतक है अर्थात:-

25.01 **राज्य फार्म निगम:** यह निगम दालों से भिन्न अनाजों तेलहनों, दालों, रेशों और सब्जियों की फसलों के प्रजनक, आधारभूत तथा प्रमाणीकृत बीजों का उत्पादन करता है ।

25.02 **आयल पाम इंडिया लि0:** केरल में रेड आयल पाम (ताड़ के पेड़ो) को उगाने की परियोजना को क्रियान्वित करता है ।

25.03 **राष्ट्रीय बीज निगम :** इसका कार्य प्रमाणीकृत बीज उत्पादन और बीज के प्रसंस्करण और भंडारण के लिए आधारभूत सामग्री का सृजन करना और बीजों के संकटरोधक (बफर-स्टाक) भंडार आदि का अनुरक्षण करना है ।

इन उद्यमों के बजट समर्थन की इक्विटी और ऋणवार ब्यौरे और आन्तरिक और बजट बाह्य संसाधन व्यय बजट खण्ड-I में दिए गए हैं।

26. **विशेष खाद्यान्न उत्पादन कार्यक्रम (एस.एफ.पी.पी.)-**
इस योजना को वर्ष 1988-89 में 14 राज्यों के 169 सुविद जिलों में शुरू किया गया । इस कार्यक्रम का कार्यान्वियन धान, गेहूं, मक्का और दालों के उत्पादन को बढ़ाने के लिए इन फसलों की नई उत्पादन तकनीक का विस्तारण करके तथा निविष्टियों के बड़े हुए और कारगार उपयोग को अपना कर तथा उर्वरकों के उपभोग को बढ़ावा देने के लिए राज्यों को 100% सहायता अनुदान देकर तथा प्रत्येक जिले में 100 अतिरिक्त खुदरा निकासी केन्द्र खोलकर और अनतिदेय के क्षेत्र में घाटा उठाने वाली सहकारी संस्थाओं को ऋण के रूप में सहायता देकर किया गया था । बजट, 1990-91 में 113.00 करोड़ रुपए की व्यवस्था की गई है ।

27. इस व्यवस्था किसानों को ऋण संबंधी राहत के नई योजना में बैंकों आदि को अदायगी करने के लिए है ।

28. यह व्यवस्था कीटनाशी अधिनियम के प्रशासन और क्रियान्वयन से सम्बन्धित व्यय के लिए है ।

21. To enable small and marginal farmers to obtain the needed inputs, particularly, fertilizers and improved seeds, and also to benefit from minor irrigation and water management and land development programmes, financial assistance is provided through the State and Union Territory Governments and UT Administrations.

22. The objectives of the scheme are (i) taking the watershed as basis to conserve and upgrade both crop land and waste land as a vital natural resource; (ii) to stabilise and increase crop yields from rainfed farming and to augment the fuel and fodder resources of the village communities by use of appropriate land use systems; and (iii) to develop and disseminate technologies for the proper soil and moisture conservation measures required under different conditions. The Programme is to be implemented in about 94 districts of 16 States. During the year 1990-91 it is proposed to cover an area of 6.415 lakh hectares.

23. The scheme seeks to increase the productivity of land which suffers from alkalinity and salinity. The expenditure on this account is shared with the State Governments on a 50: 50 basis. The budget for the year 1990-91 is made under item No. 9 (Other schemes of Manurer and Fertilizers).

24. The price support or market intervention measures are designed to ensure remunerative prices to farmers and increase production and productivity. NAFED is the designated agency for carrying out such operations for oilseeds while for perishables like potatoes and onions, Central Government has, at the request of State Governments agreed to market intervention when necessary to help growers from possible distress sale. The purchase operations under the market intervention scheme are carried through NAFED.

25. The provision represents budgetary support for the Plan schemes of the following companies, namely:–

25.01 **State Farms Corporation:**– produces breeder, foundation and certified seeds of cereals, oilseeds, pulses, fibre and vegetable crops.

25.02 **Oil Palm India Ltd:**– implements the project for raising red oil palm in Kerala.

25.03 **National Seeds corporation:**– is concerned with certified seed production and creation of infrastructure for processing and storage of seeds, maintenance of buffer stock of seeds, etc.

The equity and loanwise break up of the budgetary support to these enterprises and the IEBR are given in the Expenditure Budget Vol.I.

26. **Special Foodgrains Promotion Production (SFPP)–**
The Scheme was lanched in 1988-89 covering 169 identified districts spread over 14 states. The programme was implemented with 100% grants-in-aid to States for increasing the rice, wheat, maize and pulses production by spreed of improved production technology of these crops and adoption of increased and efficient use of Inputs and to promote fertilisers use by opening 100 additional retail out lets in each district and also envisages providing of assistance in the form of loans to credit co-operatives facing deficit in Non-over due cover. Budget 1990-91 provides Rs. 113.00 crores.

27. The provision is for payment to banks, etc., under the new scheme for debt relief to farmers.

28. The provision is for expenditure relating to administration and implementation of the Insecticides Act.

1. नदी घाटी परियोजनाओं के जल-विभाजक क्षेत्रों में भूमि संरक्षण का उद्देश्य बांध बनाकर, टेरेसिंग और वन-रोपण द्वारा, गाद अवरोधन बांधों का निर्माण करके, नियंत्रण करके, नियंत्रण बांधों के निर्माण आदि के जरिए- भू-कटाव की दर कम करना है । ये योजनाएं 21 नदी घाटी परियोजनाओं के जलग्रहण क्षेत्रों में राज्य सरकारों के माध्यम से क्रियान्वित की जाती हैं, जिसके लिए अनुदानों और ऋणों के रूप में राज्य सरकारों को केन्द्रीय सहायता दी जाती है ।

2. यह योजना छठी पंचवर्षीय योजना के समय से चल रही है और यह गंगा बेसिन की, जो 7 राज्यों और एक संघ राज्य क्षेत्र में फैला हुआ है, 8 बाढ़-प्रवण नदियों के जलग्रहण क्षेत्रों तक सीमित है ।

3. यह व्यवस्था मुख्यतः अखिल भारतीय मृदा और भूमि उपयोग सर्वेक्षण स्कीम, भूमि संरक्षण योजनाओं के लिए दामोदर घाटी निगम को अनुदान, समस्या प्रधान मिट्टी के उपचार, ऊबड़ खाबड़ क्षेत्र, मिट्टी के सर्वेक्षण के लिए दूरस्थ संवेदनशील प्रौद्योगिकी आदि के लिए है ।

4. यह व्यवस्था मुख्यतः दूध देने वाले पशुओं में प्रजननात्मक सुधार करने के लिए सूरतगढ़, चिपलिमा, कोरापुट, धमरोद, अलमधी और अंदेश नगर में स्थापित केन्द्रीय पशु प्रजनन फारमों पर होने वाले व्यय के लिए हैं। इस स्कीम का उद्देश्य पशु और भैंस प्रजनन कार्यकलापों के संवर्धन के लिए, राज्यों और संघ राज्य क्षेत्रों को संवितरण करने के वास्ते सांड, भैंसे और बछड़ों को पैदा करना है ।

5. विशेष पशुधन पालन उत्पादन कार्यक्रम का उद्देश्य पशुधन पालन उत्पादन में वृद्धि करना और लघु तथा सीमान्तिक किसानों और कृषि मजदूरों की आय में वृद्धि करना है । इस कार्यक्रम में (i) बछड़ों का पालन-पोषण (ii) भेड़ पालन, कुक्कुट पालन और सुअर पालन एककों की स्थापना करना शामिल है ।

6. मुख्य योजनाएं पशुओं की बीमारियों की रोकथाम और रोगमुक्त क्षेत्रों की स्थापना, पशु महामारी के उन्मूलन, पैर तथा मुंह की बीमारियों की रोकथाम, राष्ट्रीय पशुजन्य उत्पाद, किस्म नियंत्रण केन्द्रों, क्षेत्रीय रोग निदान प्रयोगशालाओं की स्थापना, आदि के बारे में हैं ।

7. यह व्यवस्था बूचड़खाना निगम के अन्तर्गत बूचड़खानों के निर्माण के लिए है ।

8. इसमें केन्द्रीय कुक्कुट फारमों, हिसार में केन्द्रीय भेड़ प्रजनन फारमों, क्षेत्रीय दाना उत्पादन केन्द्रों पर व्यय के लिए व्यवस्था है।

1. Soil Conservation in watersheds of river valley projects aims at reducing the rate of erosion and thereby prolong the usefulness of the reservoirs through constant bunding, terracing, afforestation, construction of silt detention bunds, check dams, etc. The schemes are executed in the catchment areas of 21 river valley projects through State Governments who are provided Central Assistance in the form of grants and loans.

2. This scheme, which is continuing from the Sixth Five Year Plan is limited to catchments of 8 flood prone rivers of the Gangetic basin covering 7 States and one Union Territory.

3. The provision is mainly for all India soil and land use survey schemes, grants to DVC for soil conservation schemes, Treatment of problem soil/degraded areas, application of remote sensing Technology for soil survey etc.

4. This relates mainly to expenditure on Central cattle breeding farms established at Suratgarh, Chiplima, Koraput, Dhamrod, Alamadhi and Andesh Nagar for bringing about genetic improvements of the herd for milk production. The objective of this scheme is to produce bull, calves for distribution to states and U.Ts for promoting cattle and buffalo breeding activities.

5. The Special Livestock Production Programme aims at increasing live stock production and to supplement the income of small and marginal farmers and Agricultural Labourers. The programme consists of (i) Rearing of calves (ii) Setting of Sheep Poultry and Piggery production units.

6. The main schemes are control of livestock diseases and creation of disease free zones, rinderpest eradication, foot and mouth diseases control programme, setting up of national veterinary biological products quality control centres, regional disease diagonostic laboratories, etc.

7. Provision is for construction of slaughter houses under SHC.

8. Provision is for expenditure on Central poultry farms, Central sheep breeding farm at Hissar, regional stations for forage production.

9. राष्ट्रीय डेरी विकास बोर्ड की स्थापना संसद के एक अधिनियम द्वारा अक्तूबर, 1987 में हुई थी, जिसे एक निकाय के रूप में एक संस्थान घोषित किया गया है । संस्थान की हैसियत प्रदान की गई । राष्ट्रीय डेरी विकास बोर्ड, डेरी विकास और दुग्ध विपणन के लिए एक संबर्धन और विकासात्मक बोर्ड है । यह बोर्ड सहकारी क्षेत्र की डेरियों के दूध के कारोबार की क्षमता का विस्तार करने में सहायता करता है तथा दुग्ध बाहुल्य सुविद क्षेत्रों में सहकारी समितियों को दुग्ध-उत्पादन और उसकी प्राप्ति सम्बन्धी कार्यों के लिए वित्तीय सहायता देता है । यह आपरेशन फ्लड परियोजना को समर्थनीय सहयोग देने का कार्य करता है, जिसका उद्देश्य 66.1 लाख दुग्ध-उत्पादक परिवारों को लगभग 60,000 ग्रामीण स्तर की सहकारी समितियों में संगठित करके सहकारिता प्रणाली के अनुसार एक सक्षम और आत्मनिर्भर डेरी उद्योग का निर्माण करना है । इस परियोजना के अन्तर्गत दुग्ध-उत्पादन की क्षमता के आधार पर 173 मिल्कशेड खोलना शामिल होगा । संशोधित अनुमान 1989-90 के अन्तर्गत अमेरिका से उपहार के रूप में 25,000 मीट्रिक टन सोयाबीन लेने की व्यवस्था भी की गई है । इसके अलावा कार्यचालन सहकारिताओं के लिए डेयरी विकास संबंधी तकनीकी मिशन, खाद्य दुग्ध शेड़ों, जिन्हें दूध सम्बंधी कार्यों के अन्तर्गत शामिल नहीं किया गया है, दूध और दूध के उत्पादन संबंधी आर्डर तथा तकनीकी मिशन के मुख्यालय के स्टाफ के लिए भी व्यवस्था की गई है।

9. National Dairy Development Board had been constituted in October, 1987 by an Act of Parliament as a body corporate and declared an institution of National Importance. The NDDB is a promotional and developmental agency for dairy development and milk marketing. It assists in the expansion of milk handling, capacity of the cooperative sector dairies and gives financial assistance to cooperatives in identified milk shed areas to step up milk production and procurement. It provides supportive assistance to Operation Flood Project which aims at building up of viable and self-sustaining dairy industry on cooperative lines covering 66.1 lakh milk producer families organised into about 60,000 village level cooperative societies. The project will cover 173 milk sheds on the basis of their potential for milk production. Provision has also been made for a gift of 25,000 MT of Soyabeen from U.S.A. under RE 1989-90. Beside this, provision has also been made for Technology mission on Dairy Development for Cooperatives in Operation, Flood milk sheds which have not been included by Operation flood, implamentation of milk and milk products order and Headquarter Staff of Technology Mission.

10. दिल्ली दुग्ध योजना का उद्देश्य दिल्ली में उचित मूल्यों पर अच्छे और पौष्टिक दूध की पूर्ति करना तथा दिल्ली और इसके आस-पास के दूध उत्पादकों के लिए एक ऐसे स्थायी बाजार की व्यवस्था करना है जिससे उन्हें दूध का उचित मूल्य मिल सके ।

10. Delhi Milk Scheme aims to supply good and wholesome milk and milk products to the citizens of Delhi at reasonable prices and to ensure a remunerative and steady market for the milk producers in and around Delhi.

11. यह व्यवस्था मदर डेरी, दिल्ली को नकद हानियों आदि की प्रतिपूर्ति के लिए आर्थिक सहायता देने के लिए है ।

11. This provides for subsidy to Mother Dairy Delhi for reimbursement of cash losses etc.

12. इसमें डेयरी विकास कार्यक्रमों तथा सहकारिता को सक्षम बनाने के लिए राज्यों को सहायता देना शामिल है ।

12. This includes assistance to States for dairy development programmes and for cooperatives to make them viable, etc.

13. यह व्यय बड़े और छोटे पत्तनों पर मछली पकड़ने वाले जहाजों को घाट पर लगाने तथा खड़ा करने, अन्य आवश्यक आधारभूत सुविधाओं तथा समुद्र विनियम के प्रवर्तन आदि का प्रबन्ध करने के लिए है।

13. The expenditure relates to providing landing and berthing facilities for fishing crafts at major and minor ports, other necessary infrastructural facilities, and enforcement of marine regulations etc.

14. यह व्यवस्था मुख्यतः कोचीन में एकीकृत मीन उद्योग परियोजना आदि के लिए है ।

14. The provision is mainly for intergated fisheries project at Cochin, etc.

15. यह मुख्यतः मीन कृषक विकास अभिकरणों और तालाबों और जलाशयों आदि को सुधार कर अन्तर्देशीय मीन उद्योग संसाधनों के विकास के लिए जलकृषि के विकास, मछुओं को मछली पालन की आधुनिक प्रौद्योगिकी की जानकारी देने और उन्हें प्रशिक्षण देने, मछली-पालन के लिए निविष्टियों की सप्लाई करने के लिए है । इसमें विश्व बैंक की सहायता प्राप्त अन्तर्देशीय मीन उद्योग परियोजना भी शामिल है ।

15. This mainly relates to fish farmers development agencies and development of acquaculture for development of inland fisheries resources by improvement of ponds, tanks etc. training of fish farmers including transfer of modern technology of fish farming to them, supply of inputs for fish culture. It also includes inland fisheries project with World Bank assistance.

16. इसमें केन्द्री मीन उद्योग, नाविक और इंजीनियरी प्रशिक्षण संस्थान के लिए व्यवस्था है, जो मछली पकड़ने वाले बड़े जहाजों की जनशक्ति (कार्मिकों) संबंधी आवश्यकताओं को पूरा करने के लिए प्रशिक्षण की व्यवस्था करता है । इसमें मीन-कृषि केन्द्र की स्थापना के लिए प्रावधान शामिल है ।

16. The provision is for Central Institute of Fisheries Nautical and Engineering Training which provides training to meet manpower requirements of large fishing vessels. This includes provision for establishment of acquaculture centre.

17. यह योजना गैर पारम्परिक कच्ची सामग्री से हिमांकित, डिब्बाबन्द और सूखे उत्पादों के विकास और इन उत्पादों को लोकप्रिय बनाने और इनके विपणन के विशेष अभियानों से संबंधित है ।

17. The schemes relate to development of frozen, canned and dried products from uncoventional raw materials and special drives to popularise and marketing the products.

18. यह व्यवस्था राज्य फारमों में मछली पालन के विकास के लिए है।

18. Provision is for development of fish culture at the State Farms.

19. इसमें छोटे मछुओं के लिए उन्नत बीच लैंडिंग नौकाओं को चलाना शुरू करने के लिए राष्ट्रीय सहकारिता विकास निगम को अनुदान देने, राष्ट्रीय मछुआरा कल्याण निधि के लिए व्यवस्था तथा मुख्यालय में मत्स्यपालन को मजबूत करने के लिए प्रावधान शामिल है ।

19. This includes grants to National Cooperative Development Corporation for introduction of improved beach landing crafts for small fishermen, national welfare fund for fishermen and provision for strengthening of Fishiries Call at Headquarter.

20. इस योजना का बुनियादी उद्देश्य सहकारी समितियों के सदस्यों को शिक्षा देना और राज्यों के सहकारिता विभागों और सहकारी संस्थानों के वरिष्ठ, मध्यवर्ती और कनिष्ठ स्तर के कार्मिकों को प्रशिक्षण देना है।

20. The basic objectives of the schemes is to organise education of members of cooperatives and training of personnel of the State cooperative departments and cooperative institutions at the senior, intermediate and junior levels.

21. राष्ट्रीय सहकारिता विकास निगम का काम कृषि वस्तुओं, खाद्य पदार्थों, मुर्गी दाना तथा अधिसूचित वस्तुओं के विपणन, परिष्करण, भंडारण, निर्यात और आयात के सहकारी कार्यक्रम की आयोजना बनाना और उसका संवर्धन करना तथा छोटे वन उत्पादों का संग्रह, परिष्करण, विपणन, भंडारण और निर्यात करना है । यह निगम सहकारी चीनी और सहकारी कताई मिलों की शेयर पूंजी में रकमों का निवेश भी करता है। 1990-91के बजट में राष्ट्रीय सहकारिता विकास निगम की सहायता के

21. National Cooperative Development Corporation plans and promotes cooperative programmes of marketing, processing, storage, export and import of agricultural produce, food stuff, poultry feed and notified commodities and also for the collection, processing, marketing, storage and export of minor forest produce. It also strengthens the share capital base of cooperative sugar factories and co-operative spinning mills. Budget 1990-91 provides Rs. 102.06

लिए 102.06 करोड़ रुपए ऋण के और 6.38 करोड़ रुपए अनुदान के रूप में देने की व्यवस्था की गई है। इन ऋणों में ये शामिल हैं :- (क) सहकारी समितियों को विपणन, संसाधन और कम विकसित राज्यों में भंडारण कार्यक्रमों के लिए और राष्ट्रीय कृषि सहकारी विपणन संघ के लिए (ख) मध्य प्रदेश और उत्तर प्रदेश में सोयाबीन के विकास के लिए (ग) सहकारी चीनी मिलों को शेयर पूंजी में निवेश के लिए (घ) सहकारी कताई मिलों के लिए (ङ) भंडारण कार्यक्रम के लिए (च) कोल्ड स्टोरेज कार्यक्रम के लिए (छ) कपास प्रसंस्करण कार्यक्रम के लिए और (ज) कमजोर वर्गों के लिए सहकारी कार्यक्रम के लिए ।

22. भूमि विकास बैंक लघु सिंचाई, भूमि विकास खेती का यंत्रीकरण आदि जैसे विकासात्मक प्रयोजनों के लिए किसानों को दीर्घावधिक कृषि ऋण देने वाला प्रधान अभिकरण हैं । भूमि विकास बैंकों के ऋणपक्षों में निवेश से इन बैंकों के संसाधनों की अनुपूर्ति की जाती है, जिनके वित्त का मुख्य साधन बाजार में जारी किए जाने वाले ऋण-पत्र होते हैं । बजट में ऐसे निवेशों, जिन्हें ऋण के रूप में माना गया है, के लिए 43.00 करोड़ रुपए की व्यवस्था शामिल है ।

23. राज्य सरकारों को अनुदान (75 प्रतिशत) और ऋणों (25 प्रतिशत) के रूप में सहायता दी जाती है ताकि वे अपने-अपने राज्य शीर्ष सहकारी बैंकों के स्तर पर रखी जाने वाली कृषि ऋण स्थिरीकरण निधि को सुदृढ़ बना सकें । इसका उद्देश्य यह है कि बाढ़, सूखे आदि जैसी दैवी विपत्तियों के कारण जब किसान ऋणों की वापसी अदायगी करने में असमर्थ हो तब इन निधियों का उपयोग अल्पावधिक उत्पादन ऋणों को मध्यावधिक ऋणों में बदलने के लिए किया जाए ।

24. योजना का उद्देश्य कमजोर राज्यों में चुने हुए केन्द्रीय सहकारी बैंको को समतुल्य आधार पर सावधिक ऋण के रूम में सहायता देकर क्षेत्रीय असमानताओं को दूर करना है ताकि वे भारतीय रिजर्व बैंक की अतिदेय-भिन्न शर्तों का पालन करने में आने वाली कठिनाइयों को दूर कर सकें ।

25. इसमें राष्ट्रीय कृषि सहकारी विपणन संघ लि. को, जो आन्तरिक और निर्यात व्यापार के लिए कृषि वस्तुओं का विपणन करने वाला शीर्ष संगठन है, सहायता, और राज्यों आदि द्वारा प्रचालित शुष्क कूप निधि योजना के लिए सहायता शामिल है ।

26. इसमें विशेष समस्याग्रस्त क्षेत्रों के रूप में घोषित जिलों में परिवर्ती खेती (15.90 करोड़ रुपए) और बीहड़ों के सुधार (17.00 करोड़ रुपए) से संबंधित राज्य आयोजना स्कीमों के लिए केन्द्रीय सहायता देने के लिए व्यवस्था की गई है । परिवर्ती फसल योजना का उद्देश्य स्थिर खेती सहित एकीकृत भूमि प्रबन्ध प्रणाली अपनाने के लिए जनजातीय समुदायों को प्रोत्साहित करके उनको आर्थिक-सामाजिक स्थिति में सुधार करना और पहाड़ी क्षेत्रों में पारिस्थितकी सन्तुलन का बनाए रखना है । इसे 9 राज्यों में क्रियान्वित किया जा रहा है. । खड्ड भूमि सुधार योजना का उद्देश्य नजदीकी पठारी भूमि में खड्ड के फैलने पर रोक लगाना, अविकसित खड्डदार क्षेत्रों का पुनरूद्वार करना और उनकी उत्पादकता में सुधार करना है ।

27. यह प्रावधान सहायता सामग्री की प्राप्ति तथा विभिन्न देशों से प्राप्त उपकरणों के लिए है ।

सरकारी क्षेत्र के उद्यमों में निवेश

आन्तरिक और बजट बाह्य संसाधनों सहित इक्विटी और ऋणों का ब्यौरा व्यय बजट खण्ड-I में दिया गया है ।

crores as loans and Rs.6.38 crores as grants to NCDC the former comprising loans (a) for being re-lent to cooperatives for marketing, processing and storage programmes in underdeveloped States and National Agricultural Cooperative Marketing Federation (b) for soyabean development in Madhya Pradesh and Uttar Pradesh ; (c) share capital participation in cooperative sugar mills ; (d) cooperative spinning mills (e) storage programme ; (f) cold storage programme ; (g) cotton processing programme and (h) cooperative programmes for weaker sections .

22. Land Development Banks constitute the principal agencies for providing long-term agricultural credit to the farmers for developmental purposes, like minor irrigation, land development, farm mechanisation, etc. The investment in debentures of LDBs is made to supplement the resources of these banks whose main source of finance is through floatation of debentures in the market. Budget includes a provision of Rs. 43.00 crores for such investment which are treated as loans.

23. Assistance is provided to State Governments by way of grants (75 per cent) and loans (25 per cent) to enable them to strengthen the Agricultural Credit Stabilisation Fund maintained at the level of Apex Cooperative Banks in each State. The objective is to use the funds to convert short-term production loans into medium term loans when the farmers cannot repay on account of natural calamities like floods, drought, etc.

24. The scheme is meant for removing regional disparities by assisting selected central cooperative banks in the weaker states with a term loan on a matching basis, in order to enable them to overcome difficulties in meeting the non-overdue conditions of the Reserve Bank of India.

25. This includes assistance to National Agricultural Cooperative Marketing Federation Ltd., which is an apex organisation handling marketing of agricultural commodities both for internal and export trade, failed-well fund scheme operated by the States, etc.

26. Provision is for Central assistance for State Plan schemes relating to shifting cultivation (Rs. 15.90 crores) and ravine reclamation (Rs.17.00 crores) in districts identified as special problem areas. The shifting cultivation scheme is aimed at restoring ecological balance in hill areas and improving socio-economic conditions of the tribal community by encouraging them to take up integrated land management system including settled cultivation. It is being implemented in 9 States. The ravine reclamation scheme seeks to check spread of ravines into the adjoining table land, restore degraded ravined areas and improve their productivity.

27. The provision is for receipt of Aid Materials and Equipments received from various foreign countries.

Investments in Public Enterprises

The break up of equity and loans including IEBR is given in Expenditure Budget Vol. I.

इस मांग में कृषि अनुसंधान और शिक्षा विभाग के सचिवालय के व्यय के अतिरिक्त भारतीय कृषि अनुसंधान परिषद को इसके नियंत्रणाधीन विभिन्न अनुसंधान संस्थानों तथा इसकी अनेक अनुसंधान परियोजनाओं, स्कीमों और क्रियाकलापों पर होने वाले व्यय को पूरा करने के लिए सहायता अनुदान की अदायगी के लिए व्यवस्था शामिल है । इस मांग में कृषि उत्पाद उपकर अधिनियम, 1940 के अन्तर्गत उपकर की निवल प्राप्तियों की अदायगी के लिए भी व्यवस्था की गई है । यह परिषद, कृषि, भू और जल-संरक्षण, पशुपालन, मीन उद्योग, डेरी उद्योग, वानिकी और कृषि शिक्षा के क्षेत्र में भी अनुसंधान करती है ।

शीर्ष "अन्य कार्यक्रम" में राष्ट्रमंडल कृषि ब्यूरो, अंतर्राष्ट्रीय कृषि अनुसंधान सम्बन्धी सलाहकार दल आदि को अंशदान की व्यवस्था की गई है।

The Demand includes besides secretariat expenditure of the Department of Agricultural Research and Education, payment of grants-in-aid to the Indian Council of Agricultural Research to enable it to meet the expenditure on the various research institutes controlled by it and for its several research projects, schemes and activities. Payment of net proceeds of cess under the Agricultural Produce Cess Act, 1940 is also provided for in this Demand. The Council is engaged in conducting research in the field of agriculture, soil and water conservation, animal husbandry, fisheries, dairying, forestry and also agricultural education.

The head 'other programmes' includes contributions to Commonwealth Agricultural Bureau, Consultative Group on International Agricultural Research, etc.
